- (5) To chemical warfare protective clothing produced in a qualifying country; or
- (6) To fibers and yarns that are for use in synthetic fabric or coated synthetic fabric (but does apply to the synthetic or coated synthetic fabric itself), if—
 - (i) The fabric is to be used as a component of an end product that is not a textile product. Examples of textile products, made in whole or in part of fabric, include—
 - (A) Draperies, floor coverings, furnishings, and bedding (Federal Supply Group 72, Household and Commercial Furnishings and Appliances);
 - (B) Items made in whole or in part of fabric in Federal Supply Group 83, Textile/leather/furs/apparel/findings/tents/flags, or Federal Supply Group 84, Clothing, Individual Equipment and Insignia;
 - (C) Upholstered seats (whether for household, office, or other use); and
 - (D) Parachutes (Federal Supply Class 1670); or
 - (ii) The fibers and yarns are para-aramid fibers and continuous filament para-aramid yarns manufactured in a qualifying country.
- (d)(1) Fish, shellfish, and seafood delivered under this contract, or contained in foods delivered under this contract—
 - (i) Shall be taken from the sea by U.S.-flag vessels; or
 - (ii) If not taken from the sea, shall be obtained from fishing within the United States; and
- (2) Any processing or manufacturing of the fish, shellfish, or seafood shall be performed on a U.S.-flag vessel or in the United States.

(End of clause)

252.225-7013 Duty-Free Entry.

As prescribed in [225.1101](#) (4), use the following clause:

DUTY-FREE ENTRY (AUG 2025)

(a) *Definitions.* As used in this clause—

“Component,” means any item supplied to the Government as part of an end product or of another component.

“Customs territory of the United States” means the 50 States, the District of Columbia, and Puerto Rico.

“Eligible product” means—

(1) “Designated country end product,” as defined in the Trade Agreements (either basic or alternate) clause of this contract;

(2) *Free Trade Agreement country end product*, other than a *Bahraini end product*, a *Moroccan end product*, a *Panamanian end product*, or a *Peruvian end product*, as defined in the Buy American—Free Trade Agreements—Balance of Payments Program (either basic or alternate II) clause of this contract; or

(3) *Free Trade Agreement country end product* other than a *Bahraini end product*, *Korean end product*, *Moroccan end product*, *Panamanian end product*, or *Peruvian end product*, as defined in the Buy American—Free Trade Agreements—Balance of Payments Program (either alternate IV or alternate V) clause of this contract.

“Qualifying country” and “qualifying country end product” have the meanings given in the Trade Agreements clause, the Buy American and Balance of Payments Program clause, or the Buy American—Free Trade Agreements—Balance of Payments Program clause of this contract, basic or alternate.

(b) Except as provided in paragraph (i) of this clause, or unless supplies were imported into the customs territory of the United States before the date of this contract or the applicable subcontract, the price of this contract shall not include any amount for duty on—

(1) End items that are eligible products or qualifying country end products;

(2) Components (including, without limitation, raw materials and intermediate assemblies) produced or made in qualifying countries, that are to be incorporated in U.S.- made end products to be delivered under this contract; or

(3) Other supplies for which the Contractor estimates that duty will exceed \$300 per shipment into the customs territory of the United States.

(c) The Contractor shall—

(1) Claim duty-free entry only for supplies that the Contractor intends to deliver to the Government under this contract, either as end items or components of end items; and

(2) Pay duty on supplies, or any portion thereof, that are diverted to nongovernmental use, other than—

(i) Scrap or salvage; or

(ii) Competitive sale made, directed, or authorized by the Contracting Officer.

(d) Except as the Contractor may otherwise agree, the Government will execute duty-free entry certificates and will afford such assistance as appropriate to obtain the duty-free entry of supplies—

(1) For which no duty is included in the contract price in accordance with paragraph (b) of this clause; and

(2) For which shipping documents bear the notation specified in paragraph (e) of this clause.

(e) For foreign supplies for which the Government will issue duty-free entry certificates in accordance with this clause, shipping documents submitted to Customs shall—

(1) Consign the shipments to the appropriate—

(i) Military department in care of the Contractor, including the Contractor's delivery address; or

(ii) Military installation; and

(2) Include the following information:

(i) Prime contract number and, if applicable, delivery order number.

(ii) Number of the subcontract for foreign supplies, if applicable.

(iii) Identification of the carrier.

(iv)(A) For direct shipments to a U.S. military installation, the notation: “UNITED STATES GOVERNMENT, DEPARTMENT OF DEFENSE Duty-Free Entry to be claimed pursuant to Section XXII, Chapter 98, Subchapter VIII, Item 9808.00.30 of the Harmonized Tariff Schedule of the United States. Upon arrival of shipment at the appropriate port of entry, District Director of Customs, please release shipment under 19 CFR part 142 and notify Defense Contract Management Agency (DCMA) St. Louis, St. Louis, MO, ATTN: Duty Free Entry Team, 1222 Spruce Street, Room 9.300, St. Louis, MO 63103-2812, for execution of Customs Form 7501, 7501A, or 7506 and any required duty-free entry certificates.”

(B) If the shipment will be consigned to other than a military installation, e.g., a domestic contractor's plant, the shipping document notation shall be altered to include the name and address of the contractor, agent, or broker who will notify DCMA St. Louis, Duty Free Entry Team, for execution of the duty-free entry certificate. (If the shipment will be

consigned to a contractor's plant and no duty-free entry certificate is required due to a trade agreement, the Contractor shall claim duty-free entry under the applicable trade agreement and shall comply with the U.S. Customs Service requirements. No notification to DCMA St. Louis, Duty Free Entry Team, is required.)

(v) Gross weight in pounds (if freight is based on space tonnage, state cubic feet in addition to gross shipping weight).

(vi) Estimated value in U.S. dollars.

(vii) Activity address number of the contract administration office administering the prime contract, e.g., for DCMA Dayton, S3605A.

(f) *Preparation of customs forms.*

(1)(i) Except for shipments consigned to a military installation, the Contractor shall—

(A) Prepare any customs forms required for the entry of foreign supplies into the customs territory of the United States in connection with this contract; and

(B) Submit the completed customs forms to the District Director of Customs, with a copy to DCMA St. Louis, Duty Free Entry Team for execution of any required duty-free entry certificates.

(ii) Shipments consigned directly to a military installation will be released in accordance with sections 10.101 and 10.102 of the U.S. Customs regulations.

(2) For shipments containing both supplies that are to be accorded duty-free entry and supplies that are not, the Contractor shall identify on the customs forms those items that are eligible for duty-free entry.

(g) The Contractor shall—

(1) Prepare (if the Contractor is a foreign supplier), or shall instruct the foreign supplier to prepare, a sufficient number of copies of the bill of lading (or other shipping document) so that at least two of the copies accompanying the shipment will be available for use by the District Director of Customs at the port of entry;

(2) Consign the shipment as specified in paragraph (e) of this clause; and

(3) Mark on the exterior of all packages—

(i) "UNITED STATES GOVERNMENT, DEPARTMENT OF DEFENSE"; and

(ii) The activity address number of the contract administration office administering the prime contract.

(h) The Contractor shall notify the Administrative Contracting Officer (ACO) in writing of any purchase of eligible products or qualifying country supplies to be accorded duty-free entry, that are to be imported into the customs territory of the United States for delivery to the Government or for incorporation in end items to be delivered to the Government. The Contractor shall furnish the notice to the ACO immediately upon award to the supplier and shall include in the notice—

(1) The Contractor's name, address, and Commercial and Government Entity (CAGE) code;

(2) Prime contract number and, if applicable, delivery order number;

(3) Total dollar value of the prime contract or delivery order;

(4) Date of the last scheduled delivery under the prime contract or delivery order;

(5) Foreign supplier's name and address;

(6) Number of the subcontract for foreign supplies;

(7) Total dollar value of the subcontract for foreign supplies;

(8) Date of the last scheduled delivery under the subcontract for foreign supplies;

(9) List of items purchased;

(10) An agreement that the Contractor will pay duty on supplies, or any portion thereof, that are diverted to nongovernmental use other than—

(i) Scrap or salvage; or

(ii) Competitive sale made, directed, or authorized by the Contracting Officer;

(11) Country of origin; and

(12) Scheduled delivery date(s).

(i) This clause does not apply to purchases of eligible products or qualifying country supplies in connection with this contract if—

(1) The supplies are identical in nature to supplies purchased by the Contractor or any subcontractor in connection with its commercial business; and

(2) It is not economical or feasible to account for such supplies so as to ensure that the amount of the supplies for which duty-free entry is claimed does not exceed the amount purchased in connection with this contract.

(j) The Contractor shall—

(1) Insert the substance of this clause, including this paragraph (j), in all subcontracts for—

- (i) Qualifying country components; or
 - (ii) Nonqualifying country components for which the Contractor estimates that duty will exceed \$200 per unit;
 - (2) Require subcontractors to include the number of this contract on all shipping documents submitted to Customs for supplies for which duty-free entry is claimed pursuant to this clause; and
 - (3) Include in applicable subcontracts—
 - (i) The name and address of the ACO for this contract;
 - (ii) The name, address, and activity address number of the contract administration office specified in this contract;
- and
- (iii) The information required by paragraphs (h)(1), (2), and (3) of this clause.

(End of clause)

252.225-7014 Reserved.

252.225-7015 Restriction on Acquisition of Hand or Measuring Tools.

As prescribed in [225.7002-3](#) (b), use the following clause:

RESTRICTION ON ACQUISITION OF HAND OR MEASURING TOOLS (JUN 2005)

Hand or measuring tools delivered under this contract shall be produced in the United States or its outlying areas.

(End of clause)

252.225-7016 Restriction on Acquisition of Ball and Roller Bearings.

As prescribed in [225.7009-5](#), use the following clause:

RESTRICTION ON ACQUISITION OF BALL AND ROLLER BEARINGS (JAN 2023)

- (a) *Definitions.* As used in this clause—
 - (1) “Bearing components” means the bearing element, retainer, inner race, or outer race.
 - (2) “Component,” other than a bearing component, means any item supplied to the Government as part of an end product or of another component.
 - (3) “End product” means supplies delivered under a line item of this contract.
- (b) Except as provided in paragraph (c) of this clause—
 - (1) Each ball and roller bearing delivered under this contract shall be manufactured in the United States, its outlying areas, or Canada; and
 - (2) For each ball or roller bearing, the cost of the bearing components manufactured in the United States, its outlying areas, or Canada shall exceed 50 percent of the total cost of the bearing components of that ball or roller bearing.
- (c) The restriction in paragraph (b) of this clause does not apply to ball or roller bearings that are acquired as—
 - (1) Commercial components of an other than commercial; or
 - (2) Commercial or other than commercial components of an commercial component of a other than commercial end product.
- (d) The restriction in paragraph (b) of this clause may be waived upon request from the Contractor in accordance with subsection [225.7009-4](#) of the Defense Federal Acquisition Regulation Supplement.
- (e) If this contract includes DFARS clause [252.225-7009](#), Restriction on Acquisition of Certain Articles Containing Specialty Metals, all bearings that contain specialty metals, as defined in that clause, must meet the requirements of that clause.
- (f) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (f), in all subcontracts, except those for—
 - (1) Commercial products; or
 - (2) Items that do not contain ball or roller bearings.

(End of clause)

252.225-7017 Photovoltaic Devices.

As prescribed in [225.7017-4](#) (a), use the following clause:

PHOTOVOLTAIC DEVICES (MAR 2024)

(a) *Definitions.* As used in this clause—

Bahraini photovoltaic device means a photovoltaic device that—

(1) Is wholly manufactured in Bahrain; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of Bahrain.

“Caribbean Basin country photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in a Caribbean Basin country; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a Caribbean Basin country.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country photovoltaic device” means a WTO GPA country photovoltaic device, a Free Trade Agreement country photovoltaic device, a least developed country photovoltaic device, or a Caribbean Basin country photovoltaic device.

“Domestic photovoltaic device” means a photovoltaic device that is manufactured in the United States

“Foreign photovoltaic device” means a photovoltaic device other than a domestic photovoltaic device.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in a Free Trade Agreement country; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a Free Trade Agreement country.

“Korean photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in Korea (Republic of); or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in Korea (Republic of) into a new and different article of commerce with a name, character, or

use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of Korea (Republic of).

“Least developed country photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in a least developed country; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a least developed country.

“Moroccan photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in Morocco; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of Morocco.

“Panamanian photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in Panama; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of Panama.

“Peruvian photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in Peru; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of Peru.

“Photovoltaic device” means a device that converts light directly into electricity through a solid-state, semiconductor process.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway

Poland
 Portugal
 Slovenia
 Spain
 Sweden
 Switzerland
 Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country photovoltaic device” means a photovoltaic device manufactured in a qualifying country.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-made photovoltaic device” means a photovoltaic device that—

(1) Is manufactured in the United States; or

(2) Is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of the United States.

“WTO GPA country photovoltaic device” means a photovoltaic device that—

(1) Is wholly manufactured in a WTO GPA country; or

(2) In the case of a photovoltaic device that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed, provided that the photovoltaic device is not subsequently substantially transformed outside of a WTO GPA country.

(b) This clause implements section 846 of the National Defense Authorization Act for Fiscal Year 2011 (Pub. L. 111-383).

(c) *Restriction.* If the Contractor specified in its offer in the Photovoltaic Devices—Certificate provision of the solicitation that the estimated value of the photovoltaic devices to be utilized in performance of this contract would be—

(1) More than the micro-purchase threshold but less than \$100,000, then the Contractor shall utilize only domestic photovoltaic devices unless, in its offer, it specified utilization of qualifying country or other foreign photovoltaic devices in paragraph (d)(2) of the Photovoltaic Devices—Certificate provision of the solicitation.

(2) \$100,000 or more but less than \$102,280, then the Contractor shall utilize under this contract only domestic photovoltaic devices unless, in its offer, it specified utilization of Free Trade Agreement country photovoltaic devices (other than Bahraini, Korean, Moroccan, Panamanian, or Peruvian photovoltaic devices), qualifying country photovoltaic devices, or other foreign photovoltaic devices in paragraph (d)(4) of the Photovoltaic Devices—Certificate provision of the solicitation. If the Contractor certified in its offer that it will utilize a Free Trade Agreement country photovoltaic device (other than a Bahraini, Korean, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device, then the Contractor shall utilize a Free Trade Agreement country photovoltaic device (other than a Bahraini, Korean, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device; or, at the Contractor’s option, a domestic photovoltaic device;

(3) \$100,000 or more but less than \$174,000, then the Contractor shall utilize under this contract only domestic photovoltaic devices, unless, in its offer, it specified utilization of Free Trade Agreement country photovoltaic devices (other than Bahraini, Moroccan, Panamanian, or Peruvian photovoltaic devices), qualifying country photovoltaic devices, or other foreign photovoltaic devices in paragraph (d)(5) of the Photovoltaic Devices—Certificate provision of the solicitation. If the Contractor certified in its offer that it will utilize a Free Trade Agreement country photovoltaic device (other than a Bahraini, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device, then the Contractor shall utilize a Free Trade Agreement country photovoltaic device (other than a Bahraini, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device; or, at the Contractor’s option, a domestic photovoltaic device; or

(4) \$174,000 or more, then the Contractor shall utilize under this contract only U.S.-made, designated country, or qualifying country photovoltaic devices.

(End of clause)

252.225-7018 Photovoltaic Devices—Certificate.

As prescribed in [252.7017-4](#) (b), use the following provision:

PHOTOVOLTAIC DEVICES—CERTIFICATE (MAR 2024)

(a) *Definitions.* “Bahraini photovoltaic device,” “Caribbean Basin photovoltaic device,” “designated country,” “designated country photovoltaic device,” “domestic photovoltaic device,” “foreign photovoltaic device,” “Free Trade Agreement country,” “Free Trade Agreement photovoltaic device,” “Korean photovoltaic device,” “least developed country photovoltaic device,” “Moroccan photovoltaic device,” “Panamanian photovoltaic device,” “Peruvian photovoltaic device,” “photovoltaic device,” “qualifying country,” “qualifying country photovoltaic device,” “United States,” “U.S.-made photovoltaic device,” and “WTO GPA country photovoltaic device” have the meanings given in the Photovoltaic Devices clause of this solicitation.

(b) *Restrictions.* The following restrictions apply, depending on the estimated aggregate value of photovoltaic devices to be utilized under a resultant contract:

(1) If more than the micro-purchase threshold but less than \$174,000, then the Government will not accept an offer specifying the use of other foreign photovoltaic devices in paragraph (d)(2)(ii), (d)(3)(ii), (d)(4)(ii), or (d)(5)(ii) of this provision, unless the Offeror documents to the satisfaction of the Contracting Officer that the price of the foreign photovoltaic device plus 50 percent is less than the price of a comparable domestic photovoltaic device.

(2) If \$174,000 or more, then the Government will consider only offers that utilize photovoltaic devices that are U.S.-made, qualifying country, or designated country photovoltaic devices.

(c) *Country in which a designated country photovoltaic device was wholly manufactured or was substantially transformed.* If the estimated value of the photovoltaic devices to be utilized under a resultant contract exceeds \$102,280, the Offeror's certification that such photovoltaic device (e.g., solar panel) is a designated country photovoltaic device shall be consistent with country of origin determinations by the U.S. Customs and Border Protection with regard to importation of the same or similar photovoltaic devices into the United States. If the Offeror is uncertain as to what the country of origin would be determined to be by the U.S. Customs and Border Protection, the Offeror shall request a determination from U.S. Customs and Border Protection. (See <https://www.cbp.gov/trade/rulings>.)

(d) *Certification and identification of country of origin.* [The Offeror shall check the block and fill in the blank for one of the following paragraphs, based on the estimated value and the country of origin of photovoltaic devices to be utilized in performance of the contract:]

[The offeror shall check the block and fill in the blank for one of the following paragraphs, based on the estimated value and the country of origin of photovoltaic devices to be utilized in performance of the contract:]

___ (1) No photovoltaic devices will be utilized in performance of the contract, or such photovoltaic devices have an estimated value that does not exceed the micro-purchase threshold.

(2) If more than the micro-purchase threshold but less than \$100,000—

___ (i) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

___ (ii) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a qualifying country photovoltaic device [Offeror to specify country of origin ___]; or

___ (iii) The foreign (other than qualifying country) photovoltaic devices to be utilized in performance of the contract are the product of _____. [Offeror to specify country of origin, if known, and provide documentation that the cost of a domestic photovoltaic device would be unreasonable in comparison to the cost of the proposed foreign photovoltaic device, i.e. that the price of the foreign photovoltaic device plus 50 percent is less than the price of a comparable domestic photovoltaic device.]

(3) If less than \$100,000—

___ (i) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

___ (ii) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a qualifying country photovoltaic device [Offeror to specify country of origin ___]; or

___ (iii) The foreign photovoltaic devices to be utilized in performance of the contract are the product of _____. [Offeror to specify country of origin, if known, and provide documentation that the cost of a domestic photovoltaic device would be unreasonable in comparison to the cost of the proposed foreign photovoltaic device, i.e. that the price of the foreign photovoltaic device plus 50 percent is less than the price of a comparable domestic photovoltaic device.]

(4) If \$100,000 or more but less than \$102,280—

___ (i) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

____(ii) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a Free Trade Agreement country photovoltaic device (other than a Bahraini, Korean, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device [Offeror to specify country of origin ____]; or

____(iii) The offered foreign photovoltaic devices (other than those from countries listed in paragraph (d)(4)(ii) of this provision) are the product of _____.

[Offeror to specify country of origin, if known, and provide documentation that the cost of a domestic photovoltaic device would be unreasonable in comparison to the cost of the proposed foreign photovoltaic device, i.e. that the price of the foreign photovoltaic device plus 50 percent is less than the price of a comparable domestic photovoltaic device.]

(5) If \$100,000 or more but less than \$174,000—

____(i) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a domestic photovoltaic device;

____(ii) The Offeror certifies that each photovoltaic device to be utilized in performance of the contract is a Free Trade Agreement country photovoltaic device (other than a Bahraini, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device [Offeror to specify country of origin ____]; or

(other than a Bahrainian, Moroccan, Panamanian, or Peruvian photovoltaic device) or a qualifying country photovoltaic device [Offeror to specify country of origin ____]; or

____(iii) The offered foreign photovoltaic devices (other than those from countries listed in paragraph (d)(5)(ii) of this provision) are the product of _____.

[Offeror to specify country of origin, if known, and provide documentation that the cost of a domestic photovoltaic device would be unreasonable in comparison to the cost of the proposed foreign photovoltaic device, i.e. that the price of the foreign photovoltaic device plus 50 percent is less than the price of a comparable domestic photovoltaic device.]

(6) If \$174,000 or more, the Offeror certifies that each photovoltaic device to be used in performance of the contract is

____(i) A U.S.-made photovoltaic device; or

____(ii) A designated country photovoltaic device or a qualifying country photovoltaic device. [Offeror to specify country of origin ____].]

(End of provision)

252.225-7019 Restriction on Acquisition of Anchor and Mooring Chain.

As prescribed in [225.7004-7\(a\)](#), use the following clause:

RESTRICTION ON ACQUISITION OF ANCHOR AND MOORING CHAIN (MAY 2024)

(a) Definition. As used in this clause—

“Component” means an article, material, or supply incorporated directly into an end product.

(b) Welded shipboard anchor and mooring chain delivered under this contract—

(1) Shall be manufactured in the United States or its outlying areas, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and

(2) The cost of the components manufactured in the United States or its outlying areas shall exceed 50 percent of the total cost of components.

(c) The Contractor may request a waiver of this restriction if adequate domestic supplies meeting the requirements in paragraph (a) of this clause are not available to meet the contract delivery schedule.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts for items containing welded shipboard anchor and mooring chain.

(End of clause)

252.225-7020 Trade Agreements Certificate.

Basic. As prescribed in [225.1101](#) (5) and (5)(i), use the following provision:

TRADE AGREEMENTS CERTIFICATE—BASIC (NOV 2014)

(a) *Definitions.* “Designated country end product,” “nondesignated country end product,” “qualifying country end product,” and “U.S.-made end product” as used in this provision have the meanings given in the Trade Agreements—Basic clause of this solicitation.

(b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will consider only offers of end products that are U.S.-made, qualifying country, or designated country end products unless—

(i) There are no offers of such end products;

(ii) The offers of such end products are insufficient to fulfill the Government’s requirements; or

(iii) A national interest waiver has been granted.

(c) *Certification and identification of country of origin.*

(1) For all line items subject to the Trade Agreements—Basic clause of this solicitation, the offeror certifies that each end product to be delivered under this contract, except those listed in paragraph (c)(2) of this provision, is a U.S.-made, qualifying country, or designated country end product.

(2) The following supplies are other nondesignated country end products:

(Line Item Number)		(Country of Origin)
--------------------	--	---------------------

(End of provision)

Alternate I. As prescribed in [225.1101](#) (5) and (5)(ii), use the following provision, which uses different paragraphs (a), (b) (2), and (c) than the basic provision:

TRADE AGREEMENTS CERTIFICATE—ALTERNATE I (NOV 2014)

(a) *Definitions.* “Designated country end product,” “nondesignated country end product,” “qualifying country end product,” “South Caucasus/Central and South Asian (SC/CASA) state,” “South Caucasus/Central and South Asian (SC/CASA) state end product,” and “U.S.-made end product,” as used in this provision, have the meanings given in the Trade Agreements—Alternate I clause of this solicitation.

(b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will consider only offers of end products that are U.S.-made, qualifying country, SC/CASA state, or designated country end products unless—

(i) There are no offers of such end products;

(ii) The offers of such end products are insufficient to fulfill the Government’s requirements; or

(iii) A national interest waiver has been granted.

(c) *Certification and identification of country of origin.*

(1) For all line items subject to the Trade Agreement—Alternate I clause of this solicitation, the offeror certifies that each end product to be delivered under this contract, except those listed in paragraph (c)(2)(ii) of this provision, is a U.S.-made, qualifying country, SC/CASA state, or designated country end product.

(2)(i) The following supplies are SC/CASA state end products:

(Line Item Number)		(Country of Origin)
--------------------	--	---------------------

(ii) The following are other nondesignated country end products:

(Line Item Number)		(Country of Origin)
--------------------	--	---------------------

(End of provision)

252.225-7021 Trade Agreements.

Basic. As prescribed in [225.1101](#) (6) and (6)(i), use the following clause:

TRADE AGREEMENTS—BASIC (FEB 2024)

(a) *Definitions.* As used in this clause—

“Caribbean Basin country end product”—

(1) Means an article that—

(i) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself; and

(2) Excludes products, other than petroleum and any product derived from petroleum, that are not granted duty-free treatment under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)). These exclusions presently consist of—

(i) Textiles, apparel articles, footwear, handbags, luggage, flat goods, work gloves, leather wearing apparel, and handloomed, handmade, or folklore articles that are not granted duty-free status in the Harmonized Tariff Schedule of the United States (HTSUS);

(ii) Tuna, prepared or preserved in any manner in airtight containers; and

(iii) Watches and watch parts (including cases, bracelets, and straps) of whatever type, including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the HTSUS column 2 rates of duty (HTSUS General Note 3(b)) apply.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country end product” means a WTO GPA country end product, a Free Trade Agreement country end product, a least developed country end product, or a Caribbean Basin country end product.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Least developed country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Nondesignated country end product” means any end product that is not a U.S.-made end product or a designated country end product.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country end product” means—

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(ii) The end product is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-made end product” means an article that—

(1) Is mined, produced, or manufactured in the United States; or

(2) Is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

“WTO GPA country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only U.S.-made, qualifying country, or designated country end products unless—

(1) In its offer, the Contractor specified delivery of other nondesignated country end products in the Trade Agreements Certificate provision of the solicitation; and

(2)(i) Offers of U.S.-made, qualifying country, or designated country end products from responsive, responsible offerors are either not received or are insufficient to fill the Government’s requirements; or

(ii) A national interest waiver has been granted.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(e) The HTSUS is available at <http://www.usitc.gov/tata/hts/bychapter/index.htm>. The following sections of the HTSUS provide information regarding duty-free status of articles specified in the definition of “Caribbean Basic country end product” within paragraph (a) of this clause:

(1) General Note 3(c), Products Eligible for Special Tariff Treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries Under the United States—Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits Under the United States—Caribbean Basin Trade Partnership Act.

(End of clause)

Alternate I. Reserved.

Alternate II. As prescribed in [225.1101](#) (6) and (6)(ii), use the following clause, which adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a); (ii) uses a different paragraph (c) than the basic clause; (iii) adds a new paragraph (d); and (iv) includes paragraphs (e) and (f) which are the same paragraphs (d) and (e) of the basic clause:

TRADE AGREEMENTS—ALTERNATE II (FEB 2024)

(a) *Definitions.* As used in this clause—

“Caribbean Basin country end product”—

(1) Means an article that—

(i) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself; and

(2) Excludes products, other than petroleum and any product derived from petroleum, that are not granted duty-free treatment under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)). These exclusions presently consist of—

(i) Textiles, apparel articles, footwear, handbags, luggage, flat goods, work gloves, leather wearing apparel, and handloomed, handmade, or folklore articles that are not granted duty-free status in the Harmonized Tariff Schedule of the United States (HTSUS);

(ii) Tuna, prepared or preserved in any manner in airtight containers; and

(iii) Watches and watch parts (including cases, bracelets, and straps) of whatever type, including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the HTSUS column 2 rates of duty (HTSUS General Note 3(b)) apply.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, East Timor, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Maldives, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, Tanzania, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country end product” means a WTO GPA country end product, a Free Trade Agreement country end product, a least developed country end product, or a Caribbean Basin country end product.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase

under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Least developed country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Nondesignated country end product” means any end product that is not a U.S.-made end product or a designated country end product.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country end product” means—

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-made end product” means an article that—

(1) Is mined, produced, or manufactured in the United States; or

(2) Is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

“WTO GPA country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only U.S.-made, qualifying country, SC/CASA state, or designated country end products unless—

(1) In its offer, the Contractor specified delivery of other nondesignated country end products in the Trade Agreements Certificate provision of the solicitation; and

(2)(i) Offers of U.S.-made, qualifying country, SC/CASA state, or designated country end products from responsive, responsible offerors are either not received or are insufficient to fill the Government’s requirements; or

(ii) A national interest waiver has been granted.

(d) If the Contractor is from an SC/CASA state, the Contractor shall inform its government of its participation in this acquisition and that it generally will not have such opportunity in the future unless its government provides reciprocal procurement opportunities to U.S. products and services and suppliers of such products and services.

(e) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(f) The HTSUS is available at <http://www.usitc.gov/tata/hts/bychapter/index.htm>. The following sections of the HTSUS provide information regarding duty-free status of articles specified in the definition of “Caribbean Basin country end product” within paragraph (a) of this clause:

(1) General Note 3(c), Products Eligible for Special Tariff Treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries Under the United States—Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits Under the United States—Caribbean Basin Trade Partnership Act.

(End of clause)

Alternate III. As prescribed in 225.1101(6) and (6)(iii), use the following clause, which includes, in the definition of “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance.

TRADE AGREEMENTS—ALTERNATE III (FEB 2024)

(a) Definitions. As used in this clause—

“Caribbean Basin country end product”—

(1) Means an article that—

(i) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself; and

(2) Excludes products, other than petroleum and any product derived from petroleum, that are not granted duty-free treatment under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)). These exclusions presently consist of—

(i) Textiles, apparel articles, footwear, handbags, luggage, flat goods, work gloves, leather wearing apparel, and handloomed, handmade, or folklore articles that are not granted duty-free status in the Harmonized Tariff Schedule of the United States (HTSUS);

(ii) Tuna, prepared or preserved in any manner in airtight containers; and

(iii) Watches and watch parts (including cases, bracelets, and straps) of whatever type, including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the HTSUS column 2 rates of duty (HTSUS General Note 3(b)) apply.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country end product” means a WTO GPA country end product, a Free Trade Agreement country end product, a least developed country end product, or a Caribbean Basin country end product.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Least developed country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Nondesignated country end product” means any end product that is not a U.S.-made end product or a designated country end product.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—
 - (i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:
 - (A) Components mined, produced, or manufactured in a qualifying country.
 - (B) Components mined, produced, or manufactured in the United States.
 - (C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or
 - (ii) The end product is a COTS item.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-made end product” means an article that—

- (1) Is mined, produced, or manufactured in the United States; or
- (2) Is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

“WTO GPA country end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of a WTO GPA country; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only U.S.-made, qualifying country, or designated country end products unless—

(1) In its offer, the Contractor specified delivery of other nondesignated country end products in the Trade Agreements Certificate provision of the solicitation; and

(2)(i) Offers of U.S.-made, qualifying country, or designated country end products from responsive, responsible offerors are either not received or are insufficient to fill the Government's requirements; or

(ii) A national interest waiver has been granted.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(e) The HTSUS is available at <http://www.usitc.gov/tata/hts/bychapter/index.htm>. The following sections of the HTSUS provide information regarding duty-free status of articles specified in the definition of “Caribbean Basin country end product” within paragraph (a) of this clause:

(1) General Note 3(c), Products Eligible for Special Tariff Treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries Under the United States-Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits Under the United States-Caribbean Basin Trade Partnership Act.

(End of clause)

Alternate IV. As prescribed in 225.1101(6) and (6)(iv), use the following clause, which (i) includes, in the definition of “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance; (ii) adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a); (iii) uses a different paragraph (c) than the basic clause; (iv) adds a new paragraph (d); and (v) includes paragraphs (e) and (f) which are the same paragraphs (d) and (e) of the basic clause:

TRADE AGREEMENTS—ALTERNATE IV (FEB 2024)

(a) Definitions. As used in this clause—

“Caribbean Basin country end product”—

(1) Means an article that—

(i) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself; and

(2) Excludes products, other than petroleum and any product derived from petroleum, that are not granted duty-free treatment under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)). These exclusions presently consist of—

(i) Textiles, apparel articles, footwear, handbags, luggage, flat goods, work gloves, leather wearing apparel, and handloomed, handmade, or folklore articles that are not granted duty-free status in the Harmonized Tariff Schedule of the United States (HTSUS);

(ii) Tuna, prepared or preserved in any manner in airtight containers; and

(iii) Watches and watch parts (including cases, bracelets, and straps) of whatever type, including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the HTSUS column 2 rates of duty (HTSUS General Note 3(b)) apply.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of commercial product in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, East Timor, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Maldives, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, Tanzania, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country end product” means a WTO GPA country end product, a Free Trade Agreement country end product, a least developed country end product, or a Caribbean Basin country end product.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Least developed country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Nondesignated country end product” means any end product that is not a U.S.-made end product or a designated country end product.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country end product” means—

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“U.S.-made end product” means an article that—

(1) Is mined, produced, or manufactured in the United States; or

(2) Is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

“WTO GPA country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only U.S.-made, qualifying country, SC/CASA state, or designated country end products unless—

(1) In its offer, the Contractor specified delivery of other nondesignated country end products in the Trade Agreements Certificate provision of the solicitation; and

(2)(i) Offers of U.S.-made, qualifying country, SC/CASA state, or designated country end products from responsive, responsible offerors are either not received or are insufficient to fill the Government's requirements; or

(ii) A national interest waiver has been granted.

(d) If the Contractor is from an SC/CASA state, the Contractor shall inform its government of its participation in this acquisition and that it generally will not have such opportunity in the future unless its government provides reciprocal procurement opportunities to U.S. products and services and suppliers of such products and services.

(e) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(f) The HTSUS is available at <http://www.usitc.gov/tata/hts/bychapter/index.htm>. The following sections of the HTSUS provide information regarding duty-free status of articles specified in the definition of “Caribbean Basin country end product” within paragraph (a) of this clause:

(1) General Note 3(c), Products Eligible for Special Tariff Treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries Under the United States—Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits Under the United States—Caribbean Basin Trade Partnership Act.

(End of clause)

252.225-7022 Reserved.

252.225-7023 Preference for Products or Services from Afghanistan.

As prescribed in [225.7703-4](#) (a), use the following provision:

PREFERENCE FOR PRODUCTS OR SERVICES FROM AFGHANISTAN (SEP 2013)

(a) *Definitions.* “Product from Afghanistan” and “service from Afghanistan,” as used in this provision, are defined in the clause of this solicitation entitled “Requirement for Products or Services from Afghanistan” (DFARS [252.225-7024](#)).

(b) *Representation.* The offeror represents that all products or services to be delivered under a contract resulting from this solicitation are products from Afghanistan or services from Afghanistan, except those listed in—

(1) Paragraph (c) of this provision; or

(2) Paragraph (c)(2) of the provision entitled “Trade Agreements Certificate,” if included in this solicitation.

(c) *Other products or services.* The following offered products or services are not products from Afghanistan or services from Afghanistan:

(Line Item Number) (Country of Origin)

(d) *Evaluation.* For the purpose of evaluating competitive offers, the Contracting Officer will increase by 50 percent the prices of offers of products or services that are not products or services from Afghanistan.

(End of provision)

252.225-7024 Requirement for Products or Services from Afghanistan.

As prescribed in [225.7703-4](#) (b), use the following clause:

REQUIREMENT FOR PRODUCTS OR SERVICES FROM AFGHANISTAN (SEP 2013)

(a) *Definitions.* As used in this clause—

(1) “Product from Afghanistan” means a product that is mined, produced, or manufactured in Afghanistan.

(2) “Service from Afghanistan” means a service including construction that is performed in Afghanistan predominantly by citizens or permanent resident aliens of Afghanistan.

(b) The Contractor shall provide only products from Afghanistan or services from Afghanistan under this contract, unless, in its offer, it specified that it would provide products or services other than products from Afghanistan or services from Afghanistan.

(End of clause)

252.225-7025 Restriction on Acquisition of Forgings.

As prescribed in [225.7102-4](#) , use the following clause:

RESTRICTION ON ACQUISITION OF FORGINGS (DEC 2009)

(a) *Definitions.* As used in this clause—

(1) “Component” means any item supplied to the Government as part of an end product or of another component.

(2) “Domestic manufacture” means manufactured in the United States, its outlying areas; or Canada.

(3) “Forging items” means—

ITEMS	CATEGORIES
Ship propulsion shafts	Excludes service and landing craft shafts
Periscope tubes	All
Ring forgings for bull gears	All greater than 120 inches in diameter

(b) End products and their components delivered under this contract shall contain forging items that are of domestic manufacture only.

(c) The restriction in paragraph (b) of this clause may be waived upon request from the Contractor in accordance with subsection [225.7102-3](#) of the Defense Federal Acquisition Regulation Supplement.

(d) The Contractor shall retain records showing compliance with the restriction in paragraph (b) of this clause until 3 years after final payment and shall make the records available upon request of the Contracting Officer.

(e) The Contractor shall insert the substance of this clause, including this paragraph (e), in subcontracts for forging items or for other items that contain forging items.

(End of clause)

252.225-7026 Acquisition Restricted to Products or Services from Afghanistan.

As prescribed in [225.7703-4](#) (c), use the following clause:

ACQUISITION RESTRICTED TO PRODUCTS OR SERVICES FROM AFGHANISTAN (SEP 2013)

(a) *Definitions.* As used in this clause—

(1) “Product from Afghanistan” means a product that is mined, produced, or manufactured in Afghanistan.

(2) “Service from Afghanistan” means a service including construction that is performed in Afghanistan predominantly by citizens or permanent resident aliens of Afghanistan.

(b) The Contractor shall provide only products from Afghanistan or services from Afghanistan under this contract.

(End of clause)

252.225-7027 Restriction on Contingent Fees for Foreign Military Sales.

As prescribed in [225.7307](#) (a), use the following clause.

RESTRICTION ON CONTINGENT FEES FOR FOREIGN MILITARY SALES (APR 2003)

(a) Except as provided in paragraph (b) of this clause, contingent fees, as defined in the Covenant Against Contingent Fees clause of this contract, are generally an allowable cost, provided the fees are paid to—

(1) A bona fide employee of the Contractor; or

(2) A bona fide established commercial or selling agency maintained by the Contractor for the purpose of securing business.

(b) For foreign military sales, unless the contingent fees have been identified and payment approved in writing by the foreign customer before contract award, the following contingent fees are unallowable under this contract:

(1) For sales to the Government(s) of _____, contingent fees in any amount.

(2) For sales to Governments not listed in paragraph (b)(1) of this clause, contingent fees exceeding \$50,000 per foreign military sale case.

(End of clause)

252.225-7028 Exclusionary Policies and Practices of Foreign Governments.

As prescribed in [225.7307](#) (b), use the following clause:

EXCLUSIONARY POLICIES AND PRACTICES OF FOREIGN GOVERNMENTS (APR 2003)

The Contractor and its subcontractors shall not take into account the exclusionary policies or practices of any foreign government in employing or assigning personnel, if—

- (a) The personnel will perform functions required by this contract, either in the United States or abroad; and
- (b) The exclusionary policies or practices of the foreign government are based on race, religion, national origin, or sex.

(End of clause)

252.225-7029 Acquisition of Uniform Components for Afghan Military or Afghan National Police.

As prescribed in [225.7703-4](#) (d), use the following clause:

ACQUISITION OF UNIFORM COMPONENTS FOR AFGHAN
MILITARY OR AFGHAN NATIONAL POLICE (SEP 2013)

(a) *Definitions.* As used in this clause—

“Textile component” means any item consisting of fibers, yarns, or fabric, supplied for incorporation into a uniform or a component of a uniform. It does not include items that do not contain fibers, yarns, or fabric, such as the metallic or plastic elements of buttons, zippers, or other clothing fasteners.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) As required by section 826 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239), the Contractor shall deliver under this contract only textile components that have been produced in the United States.

(c) There are no exceptions or waivers to this requirement.

(End of clause)

252.225-7030 Restriction on Acquisition of Carbon, Alloy, and Armor Steel Plate.

As prescribed in [225.7011-3](#), use the following clause:

RESTRICTION ON ACQUISITION OF CARBON, ALLOY, AND ARMOR STEEL PLATE (DEC 2006)

(a) Carbon, alloy, and armor steel plate shall be melted and rolled in the United States or Canada if the carbon, alloy, or armor steel plate—

(1) Is in Federal Supply Class 9515 or is described by specifications of the American Society for Testing Materials or the American Iron and Steel Institute; and

(2)(i) Will be delivered to the Government for use in a Government-owned facility or a facility under the control of the Department of Defense; or

(ii) Will be purchased by the Contractor for use in a Government-owned facility or a facility under the control of the Department of Defense.

(b) This restriction—

(1) Applies to the acquisition of carbon, alloy, or armor steel plate as a finished steel mill product that may be used “as is” or may be used as an intermediate material for the fabrication of an end product; and

(2) Does not apply to the acquisition of an end product (e.g., a machine tool), to be used in the facility, that contains carbon, alloy, or armor steel plate as a component.

(End of clause)

252.225-7031 Secondary Arab Boycott of Israel.

As prescribed in [225.7605](#), use the following provision:

SECONDARY ARAB BOYCOTT OF ISRAEL (JUN 2005)

(a) *Definitions.* As used in this provision—

(1) “Foreign person” means any person (including any individual, partnership, corporation, or other form of association) other than a United States person.

(2) “United States” means the 50 States, the District of Columbia, outlying areas, and the outer Continental Shelf as defined in 43 U.S.C. 1331.

(3) “United States person” is defined in 50 U.S.C. App. 2415(2) and means—

(i) Any United States resident or national (other than an individual resident outside the United States who is employed by other than a United States person);

(ii) Any domestic concern (including any permanent domestic establishment of any foreign concern); and

(iii) Any foreign subsidiary or affiliate (including any permanent foreign establishment) of any domestic concern that is controlled in fact by such domestic concern.

(b) *Certification.* If the offeror is a foreign person, the offeror certifies, by submission of an offer, that it—

(1) Does not comply with the Secondary Arab Boycott of Israel; and

(2) Is not taking or knowingly agreeing to take any action, with respect to the Secondary Boycott of Israel by Arab countries, which 50 U.S.C. App. 2407(a) prohibits a United States person from taking.

(End of provision)

252.225-7032 Waiver of United Kingdom Levies—Evaluation of Offers.

As prescribed in [225.1101](#) (7), use the following provision:

WAIVER OF UNITED KINGDOM LEVIES – EVALUATION OF OFFERS (APR 2003)

(a) Offered prices for contracts or subcontracts with United Kingdom (U.K.) firms may contain commercial exploitation levies assessed by the Government of the U.K. The offeror shall identify to the Contracting Officer all levies included in the offered price by describing—

(1) The name of the U.K. firm;

(2) The item to which the levy applies and the item quantity; and

(3) The amount of levy plus any associated indirect costs and profit or fee.

(b) In the event of difficulty in identifying levies included in a price from a prospective subcontractor, the offeror may seek advice through the Director of Procurement, United Kingdom Defence Procurement Office, British Embassy, 3100 Massachusetts Avenue NW, Washington, DC 20006.

(c) The U.S. Government may attempt to obtain a waiver of levies pursuant to the U.S./U.K. reciprocal waiver agreement of July 1987.

(1) If the U.K. waives levies before award of a contract, the Contracting Officer will evaluate the offer without the levy.

(2) If levies are identified but not waived before award of a contract, the Contracting Officer will evaluate the offer inclusive of the levies.

(3) If the U.K. grants a waiver of levies after award of a contract, the U.S. Government reserves the right to reduce the contract price by the amount of the levy waived plus associated indirect costs and profit or fee.

(End of provision)

252.225-7033 Waiver of United Kingdom Levies.

As prescribed in [225.1101](#) (8), use the following clause:

WAIVER OF UNITED KINGDOM LEVIES (APR 2003)

(a) The U.S. Government may attempt to obtain a waiver of any commercial exploitation levies included in the price of this contract, pursuant to the U.S./United Kingdom (U.K.) reciprocal waiver agreement of July 1987. If the U.K. grants a waiver of levies included in the price of this contract, the U.S. Government reserves the right to reduce the contract price by the amount of the levy waived plus associated indirect costs and profit or fee.

(b) If the Contractor contemplates award of a subcontract exceeding \$1 million to a U.K. firm, the Contractor shall provide the following information to the Contracting Officer before award of the subcontract:

(1) Name of the U.K. firm.

(2) Prime contract number.

(3) Description of item to which the levy applies.

- (4) Quantity being acquired.
- (5) Amount of levy plus any associated indirect costs and profit or fee.
- (c) In the event of difficulty in identifying levies included in a price from a prospective subcontractor, the Contractor may seek advice through the Director of Procurement, United Kingdom Defence Procurement Office, British Embassy, 3100 Massachusetts Avenue NW, Washington, DC 20006.
- (d) The Contractor shall insert the substance of this clause, including this paragraph (d), in any subcontract for supplies where a lower-tier subcontract exceeding \$1 million with a U.K. firm is anticipated.

(End of clause)

252.225-7034 Reserved.

252.225-7035 Buy American—Free Trade Agreements—Balance of Payments Program Certificate.

Basic. As prescribed in 225.1101 (9) and (9)(i), use the following provision:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM CERTIFICATE—BASIC (FEB 2024)

(a) *Definitions.* “Bahraini end product,” “commercially available off-the-shelf (COTS) item,” “component,” “critical component,” “critical item,” “domestic end product,” “Free Trade Agreement country,” “Free Trade Agreement country end product,” “foreign end product,” “Moroccan end product,” “Panamanian end product,” “Peruvian end product,” “qualifying country end product,” and “United States,” as used in this provision, have the meanings given in the 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program—Basic clause of this solicitation.

- (b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) For line items subject to Buy American—Free Trade Agreements—Balance of Payments Program—Basic clause of this solicitation, will evaluate offers of qualifying country end products or Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

- (c) *Certifications and identification of country of origin.*

(1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Basic clause of this solicitation, the Offeror certifies that—

(i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product; and

(ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and

(iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror shall identify all end products that are not domestic end products.

- (Line Item Number) (Country of Origin)
- (ii) The Offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products or Peruvian end products:

(Line Item Number) (Country of Origin)

(iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select “no”.

Line Item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: _____ List as necessary _____

(End of provision)

Alternate I. As prescribed in 225.1101(9) and (9)(ii), use the following provision, which does not use the phrases “Bahraini end product,” “Free Trade Agreement country,” “Free Trade Agreement country end product,” “Moroccan end product,” “Panamanian end product,” and “Peruvian end products” in paragraph (a); does not use “Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products” in paragraphs (b)(2) and (c)(2)(ii); does not use “Australian or” in paragraph (c)(2)(i); and includes “that are mined, produced, or manufactured in the United States” in paragraph (c)(2)(ii):

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF
PAYMENTS PROGRAM CERTIFICATE—ALTERNATE I (FEB 2024)

(a) *Definitions.* “Commercially available off-the-shelf (COTS) item,” “component,” “critical component,” “critical item,” “domestic end product,” “foreign end product,” “qualifying country end product,” and “United States,” as used in this provision, have the meanings given in the 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program—Alternate I clause of this solicitation.

(b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) For line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate I clause of this solicitation, will evaluate offers of qualifying country end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

(c) *Certifications and identification of country of origin.*

(1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate I clause of this solicitation, the Offeror certifies that—

(i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product; and

(ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and

(iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror shall identify all end products that are not domestic end products.

(i) The Offeror certifies that the following supplies are qualifying country end products:

(Line Item Number) (Country of Origin)

(ii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items that are mined, produced, or manufactured in the United States. If the percentage of the domestic content is unknown, select “no”.

Line Item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: _____ List as necessary _____
(Line Item Number) (Country of Origin (If known))

(End of provision)

Alternate II. As prescribed in [225.1101](#) (9) and (9)(iii), use the following provision, which adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a), and uses different paragraphs (b)(2) and (c)(2)(i) than the basic provision:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF
PAYMENTS PROGRAM CERTIFICATE—ALTERNATE II (FEB 2024)

(a) *Definitions.* “Bahraini end product,” “commercially available off-the-shelf (COTS) item,” “component,” “critical component,” “critical item,” “domestic end product,” “Free Trade Agreement country,” “Free Trade Agreement country end product,” “foreign end product,” “Moroccan end product,” “Panamanian end product,” “Peruvian end product,” “qualifying country end product,” “South Caucasus/Central and South Asian (SC/CASA) state,” “South Caucasus/Central and South Asian (SC/CASA) state end product,” and “United States,” as used in this provision, have the meanings given in the 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program—Alternate II clause of this solicitation.

(b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) For line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate II clause of this solicitation, will evaluate offers of qualifying country end products, SC/CASA state end products, or Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

(c) *Certifications and identification of country of origin.*

(1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate II clause of this solicitation, the Offeror certifies that—

(i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product; and

(ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and

(iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror shall identify all end products that are not domestic end products.

(i) The Offeror certifies that the following supplies are qualifying country (except Australian) or SC/CASA state end products:

(Line Item Number) (Country of Origin)

(ii) The Offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products:

(Line Item Number) (Country of Origin)

(iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select “no”.

Line Item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)
------------------	------------------------------	---------------------------------------

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: _____ List as necessary _____

(End of provision)

Alternate III. As prescribed in [225.1101](#) (9) and (9)(iv), use the following provision, which uses different paragraphs (a), (b)(2), (c)(2)(i), and (c)(2)(ii) than the basic provision:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF
PAYMENTS PROGRAM CERTIFICATE—ALTERNATE III (FEB 2024)

(a) *Definitions.* “Commercially available off-the-shelf (COTS) item,” “component,” “critical component,” “critical item,” “domestic end product,” “foreign end product,” “qualifying country end product,” “South Caucasus/Central and South Asian (SC/CASA) state end product,” and “United States,” as used in this provision have the meanings given in the 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program—Alternate III clause of this solicitation.

(b) *Evaluation.* The Government—

(1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate III clause of this solicitation, the Offeror certifies that—

(2) For line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate III clause of this solicitation, will evaluate offers of qualifying country end products or SC/CASA state end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

(c) *Certifications and identification of country of origin.*

(1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate III clause of this solicitation, the offeror certifies that—

(i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product;

(ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and

(iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror shall identify all end products that are not domestic end products.

(i) The Offeror certifies that the following supplies are qualifying country or SC/CASA state end products:

(Line Item Number) (Country of Origin)

(ii) The Offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products:

(Line Item Number) (Country of Origin)

(iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select “no”.

[illegible]

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: _____ List as necessary _____

(End of provision)

Alternate IV. As prescribed in 225.1101(9) and (9)(v), use the following provision, which adds *Korean end product* to paragraph (a); and uses “Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products” in paragraphs (b)(2) and (c)(2)(ii), rather than “Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products” in paragraphs (b)(2) and (c)(2)(ii) of the basic provision:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF
PAYMENTS PROGRAM CERTIFICATE—ALTERNATE IV (FEB 2024)

(a) *Definitions.* “Bahraini end product,” “commercially available off-the-shelf (COTS) item,” “component,” “critical component,” “critical item,” “domestic end product,” “Free Trade Agreement country,” “Free Trade Agreement country end product,” “foreign end product,” “Korean end product,” “Moroccan end product,” “Panamanian end product,” “Peruvian end product,” “qualifying country end product,” and “United States,” as used in this provision, have the meanings given in the 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program—Alternate IV clause of this solicitation.

- (b) *Evaluation.* The Government—
- (1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and
- (2) For line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate IV clause of this solicitation, will evaluate offers of qualifying country end products or Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

- (c) *Certifications and identification of country of origin.*
- (1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate IV clause of this solicitation, the Offeror certifies that—
- (i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product;
- (ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and
- (iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

- (2) The Offeror shall identify all end products that are not domestic end products.
- (i) The Offeror certifies that the following supplies are qualifying country (except Australian) end products:
(Line Item Number) (Country of Origin)
- (ii) The Offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products:
(Line Item Number) (Country of Origin)
- (iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select “no”.

Line item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: _____ List as necessary _____

(End of provision)

Alternate V. As prescribed in [225.1101](#) (9) and (9)(vi), use the following provision, which uses different paragraphs (a), (b)(2), (c)(2)(i), and (c)(2)(ii) than the basic provision:

**BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF
PAYMENTS PROGRAM CERTIFICATE—ALTERNATE V (FEB 2024)**

(a) *Definitions.* “Bahraini end product,” “commercially available off-the-shelf (COTS) item,” “component,” “critical component,” “critical item,” “domestic end product,” “Free Trade Agreement country,” “Free Trade Agreement country end product,” “foreign end product,” “Korean end product,” “Moroccan end product,” “Panamanian end product,” “Peruvian end product,” “qualifying country end product,” “South Caucasus/Central and South Asian (SC/CASA) state end product,” and “United States,” as used in this provision, have the meanings given in the 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program—Alternate V clause of this solicitation.

Alternate V clause of this solicitation.

(b) *Evaluation.* The Government—

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) For line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate V clause of this solicitation, will evaluate offers of qualifying country end products, SC/CASA state end products, or Free Trade Agreement end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products without regard to the restrictions of the Buy American statute or the Balance of Payments Program.

(c) *Certifications and identification of country of origin.*

(1) For all line items subject to the Buy American—Free Trade Agreements—Balance of Payments Program—Alternate V clause of this solicitation, the Offeror certifies that—

(i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product;

(ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and

(iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The Offeror shall identify all end products that are not domestic end products.

(i) The Offeror certifies that the following supplies are qualifying country (except Australian) or SC/CASA state end products:

(Line Item Number) (Country of Origin)

(ii) The Offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products:

(Line Item Number) (Country of Origin)

(iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select “no”.

Line item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

Line Item Number: _____ List as necessary _____

(End of provision)

252.225-7036 Buy American—Free Trade Agreements—Balance of Payments Program.

Basic. As prescribed in [225.1101](#) (10)(i) and (10)(i)(A), use the following clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF PAYMENTS PROGRAM—BASIC (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini end product means an article that—

- (1) Is wholly the growth, product, or manufacture of Bahrain; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—
 - (i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation);
 - (ii) Sold in substantial quantities in the commercial marketplace; and
 - (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

- (1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—
 - (i) An unmanufactured end product that has been mined or produced in the United States; or
 - (ii) An end product manufactured in the United States if—
 - (A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

- (ii) The end product is a COTS item.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free

Trade Agreements—Balance of Payments Program Certificate—Basic provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate I. As prescribed in [225.1101](#) (10)(i) and (10)(i)(B), use the following clause, which uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—
BALANCE OF PAYMENTS PROGRAM— ALTERNATE I (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini end product means an article that—

- (1) Is wholly the growth, product, or manufacture of Bahrain; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—
 - (i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));
 - (ii) Sold in substantial quantities in the commercial marketplace; and
 - (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

- (1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—
 - (i) An unmanufactured end product mined or produced in the United States; or
 - (ii) An end product manufactured in the United States if—
 - (A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact)

if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as

bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

- (ii) The end product is a COTS item.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

- (b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate I provision of the solicitation. * * *

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate II. As prescribed in [225.1101](#) (10)(i) and (10)(i)(C), use the following clause, which adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a), and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—
BALANCE OF PAYMENTS PROGRAM—ALTERNATE II (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini end product means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

- (ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of an SC/CASA state; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply

contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, SC/CASA state end products, Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate II provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, SC/CASA state end products, or a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate III. As prescribed in [225.1101](#) (10)(i) and (10)(i)(D), use the following clause, which adds “South Caucasus/Central and South Asian (SC/CASA) state,” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a) and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE III (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini end product means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d)); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron and steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(i) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

(A) Components mined, produced, or manufactured in a qualifying country.

(C) Components mined, produced, or manufactured in the United States.

(B) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, SC/CASA state end products or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate III provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, SC/CASA state end products the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, or, at the Contractor’s option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate IV. As prescribed in [225.1101](#) (10)(i) and (10)(i)(E), use the following clause, which adds “Korean end product” to paragraph (a), and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE III (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini end product means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

- (1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—]
 - (i) An unmanufactured end product mined or produced in the United States; or
 - (ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d)); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Korean end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Korea; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Korea (Republic of) into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia

Spain
 Sweden
 Switzerland
 Turkey
 United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract:

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

- (ii) The end product is a COTS item.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate IV provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate V. As prescribed in [225.1101](#) (10)(i) and (10)(i)(F), use the following clause, which adds “Korean end product,” “South Caucasus/Central and South Asian (SC/CASA) state,” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a), and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE OF PAYMENTS PROGRAM—ALTERNATE V (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini end product means an article that—

- (1) Is wholly the growth, product, or manufacture of Bahrain; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 225.101(d)); or award is made before January 1, 2030, for a foreign end product that exceeds 55 percent domestic content (see DFARS 225.103(b)(ii)). The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(i) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(ii) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation

services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Korean end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Korea; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Korea (Republic of) into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Morocco; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Panama; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Peru; or
- (2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy

Japan
 Latvia
 Lithuania
 Luxembourg
 Netherlands
 Norway
 Poland
 Portugal
 Slovenia
 Spain
 Sweden
 Switzerland
 Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract :

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

- (ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, SC/CASA state end products, Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate V provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, SC/CASA state end products, or a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate VI. As prescribed in 225.1101(10) (i) and (10) (i)(G), use the following clause, which includes, in the definitions of “domestic end product” at paragraph (1)(ii)(A) and “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE VI (FEB 2024)

(a) Definitions. As used in this clause—

“Bahraini end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in [46 U.S.C. 40102\(4\)](#), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country

constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act ([22 U.S.C. 2776](#)) and with [10 U.S.C. 2457](#). Accordingly, the following are qualifying countries:

Australia

Austria

Belgium
 Canada
 Czech Republic
 Denmark
 Egypt
 Estonia
 Finland
 France
 Germany
 Greece
 Israel
 Italy
 Japan
 Latvia
 Lithuania
 Luxembourg
 Netherlands
 Norway
 Poland
 Portugal
 Slovenia
 Spain
 Sweden
 Switzerland
 Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

- (ii) The end product is a COTS item.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Basic provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate VII. As prescribed in 225.1101(10)(i) and (10)(i)(H), use the following clause, which includes, in the definitions of “domestic end product” at paragraph (1)(ii)(A) and “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE VII (FEB 2024)

(a) Definitions. As used in this clause—

“Bahraini end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

(ii) The end product is a COTS item.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate I provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, the Contractor shall deliver a qualifying country end product or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate VIII. As prescribed in 225.1101(10)(i) and (10)(i)(I), use the following clause, which includes, in the definitions of “domestic end product” at paragraph (1)(ii)(A) and “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance; adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a); and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE VIII (FEB 2024)

(a) Definitions. As used in this clause—

“Bahraini end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

- (ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, SC/CASA state end products, Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate II provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, SC/CASA state end products, or a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, a Free Trade Agreement country end product other than a Bahraini end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate IX. As prescribed in 225.1101(10)(i) and (10)(i)(J), use the following clause, which includes in the definitions of “domestic end product” at paragraph (1)(ii)(A) and “qualifying country end product” at paragraph (2)(i) the domestic content threshold that will apply to the entire contract period of performance; adds “South Caucasus/Central and South Asian (SC/CASA) state” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a); and uses a different paragraph (c) than the basic clause:

BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE IX (FEB 2024)

(a) Definitions. As used in this clause—

“Bahraini end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar

year 2029 or later, 75 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron and steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract,

but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey
United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

- (A) Components mined, produced, or manufactured in a qualifying country.
- (B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

- (ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, SC/CASA state end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate III provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or SC/CASA state end products, the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate X. As prescribed in 225.1101(10)(i) and (10)(i)(K), use the following clause, which includes, in the definitions of “domestic end product” at paragraph (1)(ii)(A) and “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance; adds “Korean end product” to paragraph (a); and uses a different paragraph (c) than the basic clause:

**BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE X (FEB 2024)**

(a) Definitions. As used in this clause—

“Bahraini end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

- (1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—
 - (i) An unmanufactured end product mined or produced in the United States; or
 - (ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Korean end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Korea; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Korea (Republic of) into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the

article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg
Netherlands
Norway
Poland
Portugal
Slovenia
Spain
Sweden
Switzerland
Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

(1) An unmanufactured end product mined or produced in a qualifying country; or

(2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

(ii) The end product is a COTS item.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate IV provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product or a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

Alternate XI. As prescribed in 225.1101(10)(i) and (10)(i)(L), use the following clause, which includes, in the definitions of “domestic end product” at paragraph (1)(ii)(A) and “qualifying country end product” at paragraph (2)(i), the domestic content threshold that will apply to the entire contract period of performance; adds “Korean end product,” “South Caucasus/Central and South Asian(SC/CASA) state,” and “South Caucasus/Central and South Asian (SC/CASA) state end product” to paragraph (a); and uses a different paragraph (c) than the basic clause:

**BUY AMERICAN—FREE TRADE AGREEMENTS—BALANCE
OF PAYMENTS PROGRAM—ALTERNATE XI (FEB 2024)**

(a) Definitions. As used in this clause—

“Bahraini end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and
 (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into an end product.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic end product” means—

(1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured end product mined or produced in the United States; or

(ii) An end product manufactured in the United States if—

(A) The cost of its qualifying country components and its components that are mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product and U.S. duty (whether or not a duty-free entry certificate is issued). Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic. A component is considered to have been mined, produced, or manufactured in the United States (regardless of its source in fact) if the end product in which it is incorporated is manufactured in the United States and the component is of a class or kind for which the Government has determined that—

(1) Sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States; or

(2) It is inconsistent with the public interest to apply the restrictions of the Buy American statute; or

(B) The end product is a COTS item; or

(2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of iron and steel not produced in the United States or a qualifying country constitutes less than 5 percent of the cost of all the components used in the end product (produced in the United States or a qualifying country means that all manufacturing processes of the iron or steel must take place in the United States or a qualifying country, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States or a qualifying country includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States or a qualifying country, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States or a qualifying country, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the explanation of cost of components in paragraph (1)(ii)(A) of this definition.

“End product” means those articles, materials, and supplies to be acquired under this contract for public use.

“Foreign end product” means an end product other than a domestic end product.

“Free Trade Agreement country” means Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore.

“Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Korean end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Korea; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Korea (Republic of) into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Moroccan end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Morocco; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Morocco into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Panamanian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Panama; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Panama into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Peruvian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Qualifying country” means a country with a reciprocal defense procurement memorandum of understanding or international agreement with the United States in which both countries agree to remove barriers to purchases of supplies produced in the other country or services performed by sources of the other country, and the memorandum or agreement complies, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776) and with 10 U.S.C. 2457. Accordingly, the following are qualifying countries:

Australia
Austria
Belgium
Canada
Czech Republic
Denmark
Egypt
Estonia
Finland
France
Germany
Greece
Israel
Italy
Japan
Latvia
Lithuania
Luxembourg

Netherlands
 Norway
 Poland
 Portugal
 Slovenia
 Spain
 Sweden
 Switzerland
 Turkey

United Kingdom of Great Britain and Northern Ireland.

“Qualifying country component” means a component mined, produced, or manufactured in a qualifying country.

“Qualifying country end product” means—

- (1) An unmanufactured end product mined or produced in a qualifying country; or
- (2) An end product manufactured in a qualifying country if—

(i) The cost of the following types of components exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components:

(A) Components mined, produced, or manufactured in a qualifying country.

(B) Components mined, produced, or manufactured in the United States.

(C) Components of foreign origin of a class or kind for which the Government has determined that sufficient and reasonably available commercial quantities of a satisfactory quality are not mined, produced, or manufactured in the United States. Components of unknown origin are treated as foreign; or

(ii) The end product is a COTS item.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“South Caucasus/Central and South Asian (SC/CASA) state end product” means an article that—

- (1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product, includes services (except transportation services) incidental to its supply, provided that the value of those incidental services does not exceed the value of the product itself.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Unless otherwise specified, this clause applies to all items in the Schedule.

(c) The Contractor shall deliver under this contract only domestic end products unless, in its offer, it specified delivery of qualifying country end products, SC/CASA state end products, Free Trade Agreement country end products other than Bahraini end products, Korean end products, Moroccan end products, Panamanian end products, or Peruvian end products, or other foreign end products in the Buy American—Free Trade Agreements—Balance of Payments Program Certificate—Alternate V provision of the solicitation. If the Contractor certified in its offer that it will deliver a qualifying country end product, SC/CASA state end products, or a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product, the Contractor shall deliver a qualifying country end product, an SC/CASA state end product, a Free Trade Agreement country end product other than a Bahraini end product, a Korean end product, a Moroccan end product, a Panamanian end product, or a Peruvian end product or, at the Contractor's option, a domestic end product.

(d) The contract price does not include duty for end products or components for which the Contractor will claim duty-free entry.

(End of clause)

252.225-7037 Reserved.

252.225-7038 Reserved.

252.225-7039 Defense Contractors Performing Private Security Functions Outside the United States.

As prescribed in [225.302-6](#), insert the following clause:

**DEFENSE CONTRACTORS PERFORMING PRIVATE SECURITY
FUNCTIONS OUTSIDE THE UNITED STATES (JAN 2023)**

(a) Definitions. As used in this clause—

“Full cooperation”—

(1) Means disclosure to the Government of the information sufficient to identify the nature and extent of the incident and the individuals responsible for the conduct. It includes providing timely and complete response to Government auditors' and investigators' requests for documents and access to employees with information;

(2) Does not foreclose any contractor rights arising in law, the FAR or the terms of the contract. It does not require—

(i) The contractor to waive its attorney-client privilege or the protections afforded by the attorney work product doctrine; or

(ii) Any officer, director, owner, or employee of the contractor, including a sole proprietor, to waive his or her attorney-client privilege or Fifth Amendment rights; and

(3) Does not restrict the contractor from—

(i) Conducting an internal investigation; or

(ii) Defending a proceeding or dispute arising under the contract or related to a potential or disclosed violation.

“Private security functions” means the following activities engaged in by a contractor:

(1) Guarding of personnel, facilities, designated sites or property of a Federal agency, the contractor or subcontractor, or a third party.

(2) Any other activity for which personnel are required to carry weapons in the performance of their duties in accordance with the terms of this contract.

(b) Applicability. If this contract is performed both in a designated area and in an area that is not designated, the clause only applies to performance in the designated area. Designated areas are areas outside the United States of—

(1) Contingency operations;

(2) Combat operations, as designated by the Secretary of Defense;

(3) Other significant military operations (as defined in 32 CFR part 159), designated by the Secretary of Defense upon agreement of the Secretary of State;

(4) Peace operations, consistent with Joint Publication 3-07.3; or

(5) Other military operations or military exercises, when designated by the Combatant Commander.

(c) *Requirements.* The Contractor shall—

(1) Ensure that all Contractor personnel who are responsible for performing private security functions under this contract comply with 32 CFR part 159 and any orders, directives, or instructions to contractors performing private security functions that are identified in the contract for—

(i) Registering, processing, accounting for, managing, overseeing and keeping appropriate records of personnel performing private security functions;

(ii) Authorizing, accounting for and registering in Synchronized Predeployment and Operational Tracker (SPOT), weapons to be carried by or available to be used by personnel performing private security functions;

(iii) Identifying and registering in SPOT armored vehicles, helicopters and other military vehicles operated by Contractors performing private security functions; and

(iv) In accordance with orders and instructions established by the applicable Combatant Commander, reporting incidents in which—

(A) A weapon is discharged by personnel performing private security functions;

(B) Personnel performing private security functions are attacked, killed, or injured;

(C) Persons are killed or injured or property is destroyed as a result of conduct by Contractor personnel;

(D) A weapon is discharged against personnel performing private security functions or personnel performing such functions believe a weapon was so discharged; or

(E) Active, non-lethal countermeasures (other than the discharge of a weapon) are employed by personnel performing private security functions in response to a perceived immediate threat;

(2) Ensure that Contractor personnel who are responsible for performing private security functions under this contract are briefed on and understand their obligation to comply with—

(i) Qualification, training, screening (including, if applicable, thorough background checks) and security requirements established by 32 CFR part 159;

(ii) Applicable laws and regulations of the United States and the host country and applicable treaties and international agreements regarding performance of private security functions;

(iii) Orders, directives, and instructions issued by the applicable Combatant Commander or relevant Chief of Mission relating to weapons, equipment, force protection, security, health, safety, or relations and interaction with locals; and

(iv) Rules on the use of force issued by the applicable Combatant Commander or relevant Chief of Mission for personnel performing private security functions;

(3) Provide full cooperation with any Government-authorized investigation of incidents reported pursuant to paragraph (c)(1)(iv) of this clause and incidents of alleged misconduct by personnel performing private security functions under this contract by providing—

(i) Access to employees performing private security functions; and

(ii) Relevant information in the possession of the Contractor regarding the incident concerned; and

(4) Comply with ANSI/ASIS PSC.1-2012, American National Standard, Management System for Quality of Private Security Company Operations—Requirements with Guidance or the International Standard ISO 18788, Management System for Private Security Operations—Requirements with Guidance (located at <http://www.acq.osd.mil/log/PS/psc.html>).

(d) *Remedies*. In addition to other remedies available to the Government—

(1) The Contracting Officer may direct the Contractor, at its own expense, to remove and replace any Contractor or subcontractor personnel performing private security functions who fail to comply with or violate applicable requirements of this clause or 32 CFR part 159. Such action may be taken at the Government's discretion without prejudice to its rights under any other provision of this contract;

(2) The Contractor's failure to comply with the requirements of this clause will be included in appropriate databases of past performance and considered in any responsibility determination or evaluation of past performance; and

(3) If this is an award-fee contract, the Contractor's failure to comply with the requirements of this clause shall be considered in the evaluation of the Contractor's performance during the relevant evaluation period, and the Contracting Officer may treat such failure to comply as a basis for reducing or denying award fees for such period or for recovering all or part of award fees previously paid for such period.

(e) *Rule of construction*. The duty of the Contractor to comply with the requirements of this clause shall not be reduced or diminished by the failure of a higher- or lower-tier Contractor or subcontractor to comply with the clause requirements or by a failure of the contracting activity to provide required oversight.

(f) *Subcontracts*. The Contractor shall include the substance of this clause, including this paragraph (f), in subcontracts, including subcontracts for commercial products or commercial services, when private security functions will be performed outside the United States in areas of—

(1) Contingency operations;

(2) Combat operations, as designated by the Secretary of Defense;

(3) Other significant military operations (as defined in 32 CFR part 159), designated by the Secretary of Defense upon agreement of the Secretary of State;

(4) Peace operations, consistent with Joint Publication 3-07.3; or

(5) Other military operations or military exercises, when designated by the Combatant Commander.

(End of clause)

252.225-7040 Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States.

As prescribed in [225.371-5](#) (a), use the following clause:

CONTRACTOR PERSONNEL SUPPORTING U.S. ARMED FORCES DEPLOYED OUTSIDE THE UNITED STATES (OCT 2023)

(a) *Definitions*. As used in this clause—

“Combatant Commander” means the commander of a unified or specified combatant command established in accordance with 10 U.S.C. 161.

“Contractors authorized to accompany the Force,” or “CAAF,” means contractor personnel, including all tiers of subcontractor personnel, who are authorized to accompany U.S. Armed Forces in applicable operations and have been afforded CAAF status through a letter of authorization. CAAF generally include all U.S. citizen and third-country national employees not normally residing within the operational area whose area of performance is in the direct vicinity of U.S. Armed Forces and who routinely are collocated with the U.S. Armed Forces (especially in non-permissive environments). Personnel collocated with U.S. Armed Forces shall be afforded CAAF status through a letter of authorization. In some cases, Combatant Commander subordinate commanders may designate mission-essential host nation or local national contractor employees (e.g., interpreters) as CAAF. CAAF includes contractors previously identified as contractors deploying with the U.S. Armed Forces. CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Designated operational area” means a geographic area designated by the combatant commander or subordinate joint force commander for the conduct or support of specified military operations.

“Designated reception site” means the designated place for the reception, staging, integration, and onward movement of contractors deploying during a contingency. The designated reception site includes assigned joint reception centers and other Service or private reception sites.

“Law of war” means that part of international law that regulates the conduct of armed hostilities. The law of war encompasses all international law for the conduct of hostilities binding on the United States or its individual citizens, including treaties and international agreements to which the United States is a party, and applicable customary international law.

“Non-CAAF” means personnel who are not designated as CAAF, such as local national (LN) employees and non-LN employees who are permanent residents in the operational area or third-country nationals not routinely residing with U.S. Armed Forces (and third-country national expatriates who are permanent residents in the operational area) who perform support functions away from the close proximity of, and do not reside with, U.S. Armed Forces. Government-furnished support to non-CAAF is typically limited to force protection, emergency medical care, and basic human needs (e.g., bottled water, latrine facilities, security, and food when necessary) when performing their jobs in the direct vicinity of U.S. Armed Forces. Non-CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

“Subordinate joint force commander” means a sub-unified commander or joint task force commander.

(b) General.

(1) This clause applies to both CAAF and non-CAAF when performing in a designated operational area outside the United States to support U.S. Armed Forces deployed outside the United States in—

- (i) Contingency operations;
- (ii) Peace operations, consistent with Joint Publication 3-07.3; or
- (iii) Other military operations or military exercises, when designated by the Combatant Commander or as directed by the Secretary of Defense.

(2) Contract performance in support of U.S. Armed Forces deployed outside the United States may require work in dangerous or austere conditions. Except as otherwise provided in the contract, the Contractor accepts the risks associated with required contract performance in such operations.

(3) When authorized in accordance with paragraph (j) of this clause to carry arms for personal protection, Contractor personnel are only authorized to use force for individual self-defense.

(4) Unless immune from host nation jurisdiction by virtue of an international agreement or international law, inappropriate use of force by contractor personnel supporting the U.S. Armed Forces can subject such personnel to United States or host nation prosecution and civil liability (see paragraphs (d) and (j)(3) of this clause).

(5) Service performed by Contractor personnel subject to this clause is not active duty or service under 38 U.S.C. 106 note.

(c) Support.

(1)(i) The Combatant Commander will develop a security plan for protection of Contractor personnel in locations where there is not sufficient or legitimate civil authority, when the Combatant Commander decides it is in the interests of the Government to provide security because—

- (A) The Contractor cannot obtain effective security services;
- (B) Effective security services are unavailable at a reasonable cost; or

(C) Threat conditions necessitate security through military means.

(ii) In appropriate cases, the Combatant Commander may provide security through military means, commensurate with the level of security provided DoD civilians.

(2)(i) Generally, CAAF will be afforded emergency medical and dental care if injured while supporting applicable operations. Additionally, non-CAAF employees who are injured while in the vicinity of U. S. Armed Forces will normally receive emergency medical and dental care. Emergency medical and dental care includes medical care situations in which life, limb, or eyesight is jeopardized. Examples of emergency medical and dental care include examination and initial treatment of victims of sexual assault; refills of prescriptions for life-dependent drugs; repair of broken bones, lacerations, infections; and traumatic injuries to the dentition. Hospitalization will be limited to stabilization and short-term medical treatment with an emphasis on return to duty or placement in the patient movement system.

(ii) When the Government provides medical treatment or transportation of Contractor personnel to a selected civilian facility, the Contractor shall ensure that the Government is reimbursed for any costs associated with such treatment or transportation.

(iii) Medical or dental care beyond this standard is not authorized.

(3) Contractor personnel must have a Synchronized Predeployment and Operational Tracker (SPOT)-generated letter of authorization signed by the Contracting Officer in order to process through a deployment center or to travel to, from, or within the designated operational area. The letter of authorization also will identify any additional authorizations, privileges, or Government support that Contractor personnel are entitled to under this contract. Contractor personnel who are issued a letter of authorization shall carry it with them at all times while deployed.

(4) Unless specified elsewhere in this contract, the Contractor is responsible for all other support required for its personnel engaged in the designated operational area under this contract.

(d) *Compliance with laws and regulations.*

(1) The Contractor shall comply with, and shall ensure that its personnel supporting U.S. Armed Forces deployed outside the United States as specified in paragraph (b)(1) of this clause are familiar with and comply with, all applicable—

(i) United States, host country, and third country national laws;

(ii) Provisions of the law of war, as well as any other applicable treaties and international agreements;

(iii) United States regulations, directives, instructions, policies, and procedures; and

(iv) Orders, directives, and instructions issued by the Combatant Commander, including those relating to force protection, security, health, safety, or relations and interaction with local nationals.

(2) The Contractor shall institute and implement an effective program to prevent violations of the law of war by its employees and subcontractors, including law of war training in accordance with paragraph (e)(1)(vii) of this clause.

(3) The Contractor shall ensure that CAAF and non-CAAF are aware—

(i) Of the DoD definition of “sexual assault” in DoD Directive 6495.01, Sexual Assault Prevention and Response Program;

(ii) That the offenses addressed by the definition are covered under the Uniform Code of Military Justice (see paragraph (e)(2)(iv) of this clause). Other sexual misconduct may constitute offenses under the Uniform Code of Military Justice, Federal law, such as the Military Extraterritorial Jurisdiction Act, or host nation laws; and

(iii) That the offenses not covered by the Uniform Code of Military Justice may nevertheless have consequences to the contractor employees (see paragraph (h)(1) of this clause).

(4) The Contractor shall report to the appropriate investigative authorities, identified in paragraph (d)(6) of this clause, any alleged offenses under—

(i) The Uniform Code of Military Justice (chapter 47 of title 10, United States Code) (applicable to contractors serving with or accompanying an armed force in the field during a declared war or contingency operations); or

(ii) The Military Extraterritorial Jurisdiction Act (chapter 212 of title 18, United States Code).

(5) The Contractor shall provide to all contractor personnel who will perform work on a contract in the deployed area, before beginning such work, information on the following:

(i) How and where to report an alleged crime described in paragraph (d)(4) of this clause.

(ii) Where to seek victim and witness protection and assistance available to contractor personnel in connection with an alleged offense described in paragraph (d)(4) of this clause.

(iii) That this section does not create any rights or privileges that are not authorized by law or DoD policy.

(6) The appropriate investigative authorities to which suspected crimes shall be reported include the following—

(i) US Army Criminal Investigation Command at <http://www.cid.army.mil/reportacrime.html>;

(ii) Air Force Office of Special Investigations at <http://www.osi.andrews.af.mil/library/factsheets/factsheet.asp?id=14522>;

(iii) Navy Criminal Investigative Service at <http://www.ncis.navy.mil/Pages/publicdefault.aspx>;

(iv) Defense Criminal Investigative Service at <http://www.dodig.mil/HOTLINE/index.html>;

(v) To any command of any supported military element or the command of any base.

(7) Personnel seeking whistleblower protection from reprisals for reporting criminal acts shall seek guidance through the DoD Inspector General hotline at 800-424-9098 or www.dodig.mil/HOTLINE/index.html. Personnel seeking other forms of victim or witness protections should contact the nearest military law enforcement office.

(8)(i) The Contractor shall ensure that Contractor employees supporting the U.S. Armed Forces are aware of their rights to—

(A) Hold their own identity or immigration documents, such as passport or driver's license, regardless of the documents' issuing authority;

(B) Receive agreed upon wages on time;

(C) Take lunch and work-breaks;

(D) Elect to terminate employment at any time;

(E) Identify grievances without fear of reprisal;

(F) Have a copy of their employment contract in a language they understand;

(G) Receive wages that are not below the legal host-country minimum wage;

(H) Be notified of their rights, wages, and prohibited activities prior to signing their employment contract; and

(I) If housing is provided, live in housing that meets host-country housing and safety standards.

(ii) The Contractor shall post these rights in employee work spaces in English and in any foreign language(s) spoken by a significant portion of the workforce.

(iii) The Contractor shall enforce the rights of Contractor personnel supporting the U.S. Armed Forces.

(e) *Preliminary personnel requirements.*

(1) The Contractor shall ensure that the following requirements are met prior to deploying CAAF (specific requirements for each category will be specified in the statement of work or elsewhere in the contract):

(i) All required security and background checks are complete and acceptable.

(ii) All CAAF deploying in support of an applicable operation—

(A) Are medically, dentally, and psychologically fit for deployment and performance of their contracted duties;

(B) Meet the minimum medical screening requirements, including theater-specific medical qualifications as established by the geographic Combatant Commander (as posted to the Geographic Combatant Commander's website or other venue); and

(C) Have received all required immunizations as specified in the contract.

(1) During predeployment processing, the Government will provide, at no cost to the Contractor, any military-specific immunizations and/or medications not available to the general public.

(2) All other immunizations shall be obtained prior to arrival at the deployment center.

(3) All CAAF and selected non-CAAF, as specified in the statement of work, shall bring to the designated operational area a copy of the U.S. Centers for Disease Control and Prevention (CDC) Form 731, International Certificate of Vaccination or Prophylaxis as Approved by the World Health Organization, (also known as "shot record" or "Yellow Card") that shows vaccinations are current.

(iii) Deploying personnel have all necessary passports, visas, and other documents required to enter and exit a designated operational area and have a Geneva Conventions identification card, or other appropriate DoD identity credential, from the deployment center.

(iv) Special area, country, and theater clearance is obtained for all personnel deploying. Clearance requirements are in DoD Directive 4500.54E, DoD Foreign Clearance Program. For this purpose, CAAF are considered non-DoD contractor personnel traveling under DoD sponsorship.

(v) All deploying personnel have received personal security training. At a minimum, the training shall—

(A) Cover safety and security issues facing employees overseas;

(B) Identify safety and security contingency planning activities; and

(C) Identify ways to utilize safety and security personnel and other resources appropriately.

(vi) All personnel have received isolated personnel training, if specified in the contract, in accordance with DoD Instruction 1300.23, Isolated Personnel Training for DoD Civilian and Contractors.

(vii) Personnel have received law of war training as follows:

(A) Basic training is required for all CAAF. The basic training will be provided through—

- (1) A military-run training center; or
- (2) A web-based source, if specified in the contract or approved by the Contracting Officer.

(B) Advanced training, commensurate with their duties and responsibilities, may be required for some Contractor personnel as specified in the contract.

(2) The Contractor shall notify all personnel who are not a host country national, or who are not ordinarily resident in the host country, that—

(i) Such employees, and dependents residing with such employees, who engage in conduct outside the United States that would constitute an offense punishable by imprisonment for more than one year if the conduct had been engaged in within the special maritime and territorial jurisdiction of the United States, may potentially be subject to the criminal jurisdiction of the United States in accordance with the Military Extraterritorial Jurisdiction Act of 2000 (18 U.S.C. 3621, *et seq.*);

(ii) Pursuant to the War Crimes Act (18 U.S.C. 2441), Federal criminal jurisdiction also extends to conduct that is determined to constitute a war crime when committed by a civilian national of the United States;

(iii) Other laws may provide for prosecution of U.S. nationals who commit offenses on the premises of U.S. diplomatic, consular, military or other U.S. Government missions outside the United States (18 U.S.C. 7(9)); and

(iv) In time of declared war or a contingency operation, CAAF are subject to the jurisdiction of the Uniform Code of Military Justice under 10 U.S.C. 802(a)(10).

(v) Such employees are required to report offenses alleged to have been committed by or against Contractor personnel to appropriate investigative authorities.

(vi) Such employees will be provided victim and witness protection and assistance.

(f) *Processing and departure points.* CAAF shall—

(1) Process through the deployment center designated in the contract, or as otherwise directed by the Contracting Officer, prior to deploying. The deployment center will conduct deployment processing to ensure visibility and accountability of Contractor personnel and to ensure that all deployment requirements are met, including the requirements specified in paragraph (e)(1) of this clause;

(2) Use the point of departure and transportation mode directed by the Contracting Officer; and

(3) Process through a designated reception site (DRS) upon arrival at the deployed location. The DRS will validate personnel accountability, ensure that specific designated operational area entrance requirements are met, and brief Contractor personnel on theater-specific policies and procedures.

(g) *Personnel data.*

(1) The Contractor shall use the Synchronized Predeployment and Operational Tracker (SPOT) web-based system, to enter and maintain the data for all CAAF and, as designated by the Under Secretary of Defense (Acquisition and Sustainment) or the Combatant Commander, non-CAAF supporting U.S. Armed Forces deployed outside the United States as specified in paragraph (b)(1) of this clause.

(2) The Contractor shall enter the required information about their contractor personnel prior to deployment and shall continue to use the SPOT web-based system at <https://spot.dmdc.mil> to maintain accurate, up-to-date information throughout the deployment for all Contractor personnel. Changes to status of individual Contractor personnel relating to their in-theater arrival date and their duty location, to include closing out the deployment with their proper status (e.g., mission complete, killed, wounded) shall be annotated within the SPOT database in accordance with the timelines established in the SPOT Business Rules at <https://www.acq.osd.mil/asds/log/cso/ocs/spot.html>.

(h) *Contractor personnel.*

(1) The Contracting Officer may direct the Contractor, at its own expense, to remove and replace any Contractor personnel who jeopardize or interfere with mission accomplishment or who fail to comply with or violate applicable requirements of this contract. Such action may be taken at the Government's discretion without prejudice to its rights under any other provision of this contract, including the Termination for Default clause.

(2) The Contractor shall identify all personnel who occupy a position designated as mission essential and ensure the continuity of essential Contractor services during designated operations, unless, after consultation with the Contracting Officer, Contracting Officer's representative, or local commander, the Contracting Officer directs withdrawal due to security conditions.

(3) The Contractor shall ensure that Contractor personnel follow the guidance at paragraph (e)(2)(v) of this clause and any specific Combatant Commander guidance on reporting offenses alleged to have been committed by or against Contractor personnel to appropriate investigative authorities.

(4) Contractor personnel shall return all U.S. Government-issued identification, to include the Common Access Card, to appropriate U.S. Government authorities at the end of their deployment (or, for non-CAAF, at the end of their employment under this contract).

(i) Military clothing and protective equipment.

(1) Contractor personnel are prohibited from wearing military clothing unless specifically authorized in writing by the Combatant Commander. If authorized to wear military clothing, Contractor personnel must—

(i) Wear distinctive patches, arm bands, nametags, or headgear, in order to be distinguishable from military personnel, consistent with force protection measures; and

(ii) Carry the written authorization with them at all times.

(2) Contractor personnel may wear military-unique organizational clothing and individual equipment (OCIE) required for safety and security, such as ballistic, nuclear, biological, or chemical protective equipment.

(3) The deployment center, or the Combatant Commander, shall issue OCIE and shall provide training, if necessary, to ensure the safety and security of Contractor personnel.

(4) The Contractor shall ensure that all issued OCIE is returned to the point of issue, unless otherwise directed by the Contracting Officer.

(j) Weapons.

(1) If the Contractor requests that its personnel performing in the designated operational area be authorized to carry weapons for individual self-defense, the request shall be made through the Contracting Officer to the Combatant Commander, in accordance with DoD Instruction 3020.41, Operational Contractor Support. The Combatant Commander will determine whether to authorize in-theater Contractor personnel to carry weapons and what weapons and ammunition will be allowed.

(2) If Contractor personnel are authorized to carry weapons in accordance with paragraph (j)(1) of this clause, the Contracting Officer will notify the Contractor what weapons and ammunition are authorized.

(3) The Contractor shall ensure that its personnel who are authorized to carry weapons—

(i) Are adequately trained to carry and use them—

(A) Safely;

(B) With full understanding of, and adherence to, the rules of the use of force issued by the Combatant Commander; and

(C) In compliance with applicable agency policies, agreements, rules, regulations, and other applicable law;

(ii) Are not barred from possession of a firearm by 18 U.S.C. 922;

(iii) Adhere to all guidance and orders issued by the Combatant Commander regarding possession, use, safety, and accountability of weapons and ammunition;

(iv) Comply with applicable Combatant Commander and local commander force-protection policies; and

(v) Understand that the inappropriate use of force could subject them to U.S. or host-nation prosecution and civil liability.

(4) Whether or not weapons are Government-furnished, all liability for the use of any weapon by Contractor personnel rests solely with the Contractor and the Contractor employee using such weapon.

(5) Upon redeployment or revocation by the Combatant Commander of the Contractor's authorization to issue firearms, the Contractor shall ensure that all Government-issued weapons and unexpended ammunition are returned as directed by the Contracting Officer.

(k) Vehicle or equipment licenses. Contractor personnel shall possess the required licenses to operate all vehicles or equipment necessary to perform the contract in the designated operational area.

(l) Purchase of scarce goods and services. If the Combatant Commander has established an organization for the designated operational area whose function is to determine that certain items are scarce goods or services, the Contractor shall coordinate with that organization local purchases of goods and services designated as scarce, in accordance with instructions provided by the Contracting Officer.

(m) Evacuation.

(1) If the Combatant Commander orders a mandatory evacuation of some or all personnel, the Government will provide assistance, to the extent available, to United States and third country national Contractor personnel.

(2) In the event of a non-mandatory evacuation order, unless authorized in writing by the Contracting Officer, the Contractor shall maintain personnel on location sufficient to meet obligations under this contract.

(n) Next of kin notification and personnel recovery.

(1) The Contractor shall be responsible for notification of the employee-designated next of kin in the event an employee dies, requires evacuation due to an injury, or is isolated, missing, detained, captured, or abducted.

(2) In the case of isolated, missing, detained, captured, or abducted Contractor personnel, the Government will assist in personnel recovery actions in accordance with DoD Directive 3002.01E, Personnel Recovery in the Department of Defense.

(o) *Mortuary affairs*. Contractor personnel who die while in support of the U.S. Armed Forces shall be covered by the DoD mortuary affairs program as described in DoD Directive 1300.22, Mortuary Affairs Policy, and DoD Instruction 3020.41, Operational Contractor Support.

(p) *Changes*. In addition to the changes otherwise authorized by the Changes clause of this contract, the Contracting Officer may, at any time, by written order identified as a change order, make changes in the place of performance or Government-furnished facilities, equipment, material, services, or site. Any change order issued in accordance with this paragraph (p) shall be subject to the provisions of the Changes clause of this contract.

(q) *Subcontracts*. The Contractor shall incorporate the substance of this clause, including this paragraph (q), in all subcontracts when subcontractor personnel are supporting U.S. Armed Forces deployed outside the United States in—

- (1) Contingency operations;
- (2) Peace operations consistent with Joint Publication 3-07.3; or
- (3) Other military operations or military exercises, when designated by the Combatant Commander or as directed by the Secretary of Defense.

(End of clause)

252.225-7041 Correspondence in English.

As prescribed in [225.1103](#) (2), use the following clause:

CORRESPONDENCE IN ENGLISH (JUN 1997)

The Contractor shall ensure that all contract correspondence that is addressed to the United States Government is submitted in English or with an English translation.

(End of clause)

252.225-7042 Authorization to Perform.

As prescribed in [225.1103](#) (3), use the following provision:

AUTHORIZATION TO PERFORM (APR 2003)

The offeror represents that it has been duly authorized to operate and to do business in the country or countries in which the contract is to be performed.

(End of provision)

252.225-7043 Antiterrorism/Force Protection for Defense Contractors Outside the United States.

As prescribed in [225.372-2](#), use the following clause:

ANTITERRORISM/FORCE PROTECTION POLICY FOR DEFENSE CONTRACTORS OUTSIDE THE UNITED STATES (JUN 2015)

(a) *Definition*. “United States,” as used in this clause, means, the 50 States, the District of Columbia, and outlying areas.

(b) Except as provided in paragraph (c) of this clause, the Contractor and its subcontractors, if performing or traveling outside the United States under this contract, shall—

- (1) Affiliate with the Overseas Security Advisory Council, if the Contractor or subcontractor is a U.S. entity;
- (2) Ensure that Contractor and subcontractor personnel who are U.S. nationals and are in-country on a non-transitory basis, register with the U.S. Embassy, and that Contractor and subcontractor personnel who are third country nationals comply with any security related requirements of the Embassy of their nationality;

(3) Provide, to Contractor and subcontractor personnel, antiterrorism/force protection awareness information commensurate with that which the Department of Defense (DoD) provides to its military and civilian personnel and their families, to the extent such information can be made available prior to travel outside the United States; and

(4) Obtain and comply with the most current antiterrorism/force protection guidance for Contractor and subcontractor personnel.

(c) The requirements of this clause do not apply to any subcontractor that is—

- (1) A foreign government;
- (2) A representative of a foreign government; or
- (3) A foreign corporation wholly owned by a foreign government.

(d) Information and guidance pertaining to DoD antiterrorism/force protection can be obtained from (*Contracting Officer to insert applicable information cited in PGI [225.372-1](#)*).

(End of clause)

252.225-7044 Balance of Payments Program—Construction Material.

Basic. As prescribed in [225.7503](#) (a) and (a)(1), use the following clause:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL—BASIC (FEB 2024)

(a) *Definitions.* As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

- (i) An unmanufactured construction material mined or produced in the United States; or
- (ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with FAR 25.201(c). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) *Domestic preference.* This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”]

(End of clause)

Alternate I. As prescribed in [225.7503](#) (a) and (a)(2), use the following clause, which adds definitions for “South Caucasus/Central and South Asian (SC/CASA) state” and “SC/CASA state construction material” to paragraph (a), and uses “domestic construction material or SC/CASA state construction material” instead of “domestic construction material” in the second sentence of paragraph (b):

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL—ALTERNATE I (FEB 2024)

(a) *Definitions.* As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with FAR 25.201(c). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“SC/CASA state construction material” means construction material that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different construction material distinct from the material from which it was transformed.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) *Domestic preference.* This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material or SC/CASA state construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(End of clause)

Alternate II. As prescribed in 225.7503(a) and (a)(3), use the following clause, which includes, in the definition of “domestic construction material” at paragraph (1)(ii)(A), the domestic content threshold that will apply to the entire contract period of performance:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL—ALTERNATE II (FEB 2024)

(a) Definitions. As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the end product and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference. This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in FAR part 2;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(End of clause)

Alternate III. As prescribed in 225.7503(a) and (a)(4), use the following clause, which includes, in the definition of “domestic construction material” at paragraph (1)(ii)(A), the domestic content threshold that will apply to the entire period of performance; adds definitions for “South Caucasus/Central and South Asian (SC/CASA) state” and “SC/CASA state construction material” to paragraph (a); and uses “domestic construction material or SC/CASA state construction material” instead of “domestic construction material” in the second sentence of paragraph (b):

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL—ALTERNATE III (FEB 2024)

(a) Definitions. As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“SC/CASA state construction material” means construction material that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different construction material distinct from the material from which it was transformed.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference. This clause implements the Balance of Payments Program by providing a preference for domestic construction material. The Contractor shall use only domestic construction material or SC/CASA state construction material in performing this contract, except for—

- (1) Construction material valued at or below the simplified acquisition threshold in FAR part 2;
- (2) Information technology that is a commercial product; or
- (3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(End of clause)

252.225-7045 Balance of Payments Program—Construction Material Under Trade Agreements.

Basic. As prescribed in [225.7503](#) (b) and (b)(1), use the following clause:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL UNDER TRADE AGREEMENTS—BASIC (FEB 2024)

(a) *Definitions.* As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—
 - (i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));
 - (ii) Sold in substantial quantities in the commercial marketplace; and
 - (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

- (1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with FAR 25.201(c). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as

bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a WTO GPA country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for designated country construction materials.

(c) The Contractor shall use only domestic or designated country construction material in performing this contract, except for—

- (1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;
- (2) Information technology that is a commercial item; or
- (3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(End of clause)

Alternate I. As prescribed in 225.7503(b) and (b)(2), use the following clause, which adds *Bahraini or Mexican construction material* to paragraph (a), and uses a different paragraph (b) and (c) than the basic clause:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL UNDERTRADE AGREEMENTS—ALTERNATE I (FEB 2024)

(a) *Definitions.* As used in this clause—

Bahraini or Mexican construction material means a construction material that—

- (1) Is wholly the growth, product, or manufacture of Bahrain or Mexico; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain or Mexico into a new and different construction material distinct from the materials from which it was transformed.

“Caribbean Basin country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—
 - (i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));
 - (ii) Sold in substantial quantities in the commercial marketplace; and
 - (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with FAR 25.201(c). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the

iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and all Free Trade Agreements except United States-Mexico-Canada Agreement and the Bahrain Free Trade Agreement apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for designated country construction material other than Bahraini or Mexican construction material.

(c) The Contractor shall use only domestic or designated country construction material other than Bahraini or Mexican construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation; or

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(End of clause)

Alternate II. As prescribed in [225.7503](#) (b) and (b)(3), use the following clause, which adds “South Caucasus/Central and South Asian (SC/CASA) state” and “SC/CASA state construction material” to paragraph (a), uses a different paragraph (b) and introductory text for paragraph (c) than the basic clause, and adds paragraph (d):

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION
MATERIAL UNDER TRADE AGREEMENTS—ALTERNATE II (FEB 2024)

(a) *Definitions.* As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

- (1) Means any item of supply (including construction material) that is—
 - (i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));
 - (ii) Sold in substantial quantities in the commercial marketplace; and
 - (iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and
- (2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

- (1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

- (1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);
- (2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);
- (3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or
- (4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

- (1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—
 - (i) An unmanufactured construction material mined or produced in the United States; or
 - (ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with FAR 25.201(c). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“SC/CASA state construction material” means construction material that—

- (1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different construction material distinct from the material from which it was transformed.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA, Free Trade Agreements, and other waivers relating to acquisitions in support of operations in Afghanistan apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for SC/CASA state and designated country construction materials.

(c) The Contractor shall use only domestic, SC/CASA state, or designated country construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(d) If the Contractor is from an SC/CASA state, the Contractor shall inform its government of its participation in this acquisition and that it generally will not have such opportunity in the future unless its government provides reciprocal procurement opportunities to U.S. products and services and suppliers of such products and services.

(End of clause)

Alternate III. As prescribed in [225.7503](#) (b) and (b)(4), use the following clause, which adds “South Caucasus/Central and South Asian (SC/CASA) state” and “SC/CASA state construction material” to paragraph (a), uses a different paragraph (b) and introductory text for paragraph (c) than the basic clause, and adds paragraph (d):

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL UNDERTRADE AGREEMENTS—ALTERNATE III (FEB 2024)

(a) *Definitions.* As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029, unless an alternate percentage is established for a contract in accordance with FAR 25.201(c). Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“SC/CASA state construction material” means construction material that—

(1) Is wholly the growth, product, or manufacture of An SC/CASA state; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different construction material distinct from the material from which it was transformed.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA, all Free Trade Agreements except United States-Mexico-Canada Agreement and the Bahrain Free Trade Agreement, and other waivers relating to acquisitions in support of operations in Afghanistan apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for SC/CASA state and designated country construction material other than Bahraini or Mexican construction material.

(c) The Contractor shall use only domestic, SC/CASA state, or designated country construction material other than Bahraini or Mexican construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(d) If the Contractor is from an SC/CASA state, the Contractor shall inform its government of its participation in this acquisition and that it generally will not have such opportunity in the future unless its government provides reciprocal procurement opportunities to U.S. products and services and suppliers of such products and services.

(End of clause)

Alternate IV. As prescribed in 225.7503(b) and (b)(5), use the following clause, which includes, in the definition of “domestic construction material” at paragraph (1)(ii)(A), the domestic content threshold that will apply to the entire contract period of performance:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL
UNDER TRADE AGREEMENTS—ALTERNATE IV (FEB 2024)

(a) Definitions. As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

- (1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—
 - (i) An unmanufactured construction material mined or produced in the United States; or
 - (ii) A construction material manufactured in the United States, if—
 - (A) The cost of its components mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or
 - (B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a least developed country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a WTO GPA country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for designated country construction materials.

(c) The Contractor shall use only domestic or designated country construction material in performing this contract, except for—

- (1) Construction material valued at or below the simplified acquisition threshold in FAR part 2;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate "none"].

(End of clause)

Alternate V. As prescribed in 225.7503(b) and (b)(6), use the following clause, which includes, in the definition of “domestic construction material” at paragraph (1)(ii)(A), the domestic content threshold that will apply to the entire contract period of performance; adds “Bahraini or Mexican construction material” to paragraph (a); and uses different paragraphs (b) and (c) than the basic clause:

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION
MATERIAL UNDER TRADE AGREEMENTS—ALTERNATE V (FEB 2024)

(a) Definitions. As used in this clause—

“Bahraini or Mexican construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of Bahrain or Mexico; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain or Mexico into a new and different construction material distinct from the materials from which it was transformed.

“Caribbean Basin country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA and all Free Trade Agreements except United States-Mexico-Canada Agreement and the Bahrain Free Trade Agreement apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for designated country construction material other than Bahraini or Mexican construction material.

(c) The Contractor shall use only domestic or designated country construction material other than Bahraini or Mexican construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in FAR part 2; or

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(End of clause)

Alternate VI. As prescribed in 225.7503(b) and (b)(7), use the following clause, which includes, in the definition of “domestic construction material” at paragraph (1)(ii)(A), the domestic content threshold that will apply to the entire contract period of performance; adds “South Caucasus/Central and South Asian (SC/CASA) state” and “SC/CASA state construction material” to paragraph (a); uses a different paragraph (b) and introductory text for paragraph (c) than the basic clause; and adds paragraph (d):

BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL UNDER TRADE AGREEMENTS—ALTERNATE VI (FEB 2024)

(a) Definitions. As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled

from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill

products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of all iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“SC/CASA state construction material” means construction material that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different construction material distinct from the material from which it was transformed.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA, Free Trade Agreements, and other waivers relating to acquisitions in support of operations in Afghanistan apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for SC/CASA state and designated country construction materials.

(c) The Contractor shall use only domestic, SC/CASA state, or designated country construction material in performing this contract, except for—

(1) Construction material valued at or below the simplified acquisition threshold in FAR part 2;

(2) Information technology that is a commercial product; or

(3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(d) If the Contractor is from an SC/CASA state, the Contractor shall inform its government of its participation in this acquisition and that it generally will not have such opportunity in the future unless its government provides reciprocal procurement opportunities to U.S. products and services and suppliers of such products and services.

(End of clause)

Alternate VII. As prescribed in 225.7503(b) and (b)(8), use the following clause, which includes, in the definition of “domestic construction material” at paragraph (1)(ii)(A), the domestic content threshold that will apply to the entire contract period of performance; adds “South Caucasus/Central and South Asian (SC/CASA state)” and “SC/CASA state construction

material” to paragraph (a); uses a different paragraph (b) and introductory text for paragraph (c) than the basic clause; and adds paragraph (d):

**BALANCE OF PAYMENTS PROGRAM—CONSTRUCTION MATERIAL
UNDER TRADE AGREEMENTS—ALTERNATE VII (FEB 2024)**

(a) Definitions. As used in this clause—

“Caribbean Basin country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation (FAR));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. 40102), such as agricultural products and petroleum products.

“Component” means any article, material, or supply incorporated directly into construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Critical component” means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

“Critical item” means domestic construction material or a domestic end product that is deemed critical to the U.S. supply chain. The list of critical items is at FAR 25.105.

“Designated country” means—

(1) A World Trade Organization Government Procurement Agreement (WTO GPA) country (Armenia, Aruba, Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, New Zealand, North Macedonia, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan (known in the World Trade Organization as “the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu” (Chinese Taipei)), Ukraine, or the United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania,

Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

“Designated country construction material” means a construction material that is a WTO GPA country construction material, a Free Trade Agreement country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

“Domestic construction material” means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds, for the entire period of performance for a contract awarded in: calendar year 2023, 60 percent of the cost of all its components; calendar years 2024 through 2028, 65 percent of the cost of all its components; or calendar year 2029 or later, 75 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of iron and steel not produced in the United States (excluding fasteners) as estimated in good faith by the contractor, constitutes less than 5 percent of the cost of all the components used in such construction material (produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, except metallurgical processes involving refinement of steel additives). The cost of iron and steel not produced in the United States includes but is not limited to the cost of iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings, not produced in the United States, utilized in the manufacture of the construction material and a good faith estimate of the cost of iron or steel components not produced in the United States, excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components” in this clause.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Free Trade Agreement country into a new and different construction material distinct from the material from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

“South Caucasus/Central and South Asian (SC/CASA) state” means Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan, or Uzbekistan.

“SC/CASA state construction material” means construction material that—

(1) Is wholly the growth, product, or manufacture of an SC/CASA state; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in an SC/CASA state into a new and different construction material distinct from the material from which it was transformed.

“Steel” means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

“WTO GPA country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or
 (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) This clause implements the Balance of Payments Program by providing a preference for domestic construction material. In addition, the Contracting Officer has determined that the WTO GPA, all Free Trade Agreements except United States-Mexico-Canada Agreement and the Bahrain Free Trade Agreement, and other waivers relating to acquisitions in support of operations in Afghanistan apply to this acquisition. Therefore, the Balance of Payments Program restrictions are waived for SC/CASA state and designated country construction material other than Bahraini or Mexican construction material.

(c) The Contractor shall use only domestic, SC/CASA state, or designated country construction material other than Bahraini or Mexican construction material in performing this contract, except for—

- (1) Construction material valued at or below the simplified acquisition threshold in FAR part 2;
- (2) Information technology that is a commercial product; or
- (3) The construction material or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate “none”].

(d) If the Contractor is from an SC/CASA state, the Contractor shall inform its government of its participation in this acquisition and that it generally will not have such opportunity in the future unless its government provides reciprocal procurement opportunities to U.S. products and services and suppliers of such products and services.

(End of clause)

252.225-7046 Exports by Approved Community Members in Response to the Solicitation.

As prescribed in [252.7902-5](#) (a), use the following provision:

EXPORTS BY APPROVED COMMUNITY MEMBERS IN RESPONSE TO THE SOLICITATION (JUNE 2013)

(a) *Definitions.* The definitions of “Approved Community”, “defense articles”, Defense Trade Cooperation (DTC) Treaty”, “export”, “Implementing Arrangement”, “qualifying defense articles”, “transfer”, and “U.S. DoD Treaty-eligible requirements” in DFARS clause [252.225-7047](#) apply to this provision.

(b) All contract line items in the contemplated contract, except any identified in this paragraph, are intended to satisfy U.S. DoD Treaty-eligible requirements. Specific defense articles that are not U.S. DoD Treaty-eligible will be identified as such in those contract line items that are otherwise U.S. DoD Treaty-eligible.

CONTRACT LINE ITEMS NOT INTENDED TO SATISFY
 U.S. DoD TREATY-ELIGIBLE REQUIREMENTS:

[Enter Contract Line Item Number(s) or enter “None”]

(c) Approved Community members responding to the solicitation may only export or transfer defense articles that specifically respond to the stated requirements of the solicitation.

(d) Subject to the other terms and conditions of the solicitation and the contemplated contract that affect the acceptability of foreign sources or foreign end products, components, parts, or materials, Approved Community members are permitted, but not required, to use the DTC Treaties for exports or transfers of qualifying defense articles in preparing a response to this solicitation.

(e) Any conduct by an offeror responding to this solicitation that falls outside the scope of the DTC Treaties, the Implementing Arrangements, and the implementing regulations of the Department of State in 22 CFR 126.16 (Australia), 22 C.F.R. 126.17 (United Kingdom), and 22 C.F.R. 126 Supplement No. 1 (exempted technologies list) is subject to all applicable International Traffic in Arms Regulations (ITAR) requirements, including any criminal, civil, and administrative penalties or sanctions, as well as all other United States statutory and regulatory requirements outside of ITAR.

(f) If the offeror uses the procedures established pursuant to the DTC Treaties, the offeror agrees that, with regard to the export or transfer of a qualifying defense article associated with responding to the solicitation, the offeror shall—

(1) Comply with the requirements and provisions of the applicable DTC Treaties, the Implementing Arrangements, and corresponding regulations (including the ITAR) of the U.S. Government and the government of Australia or of the United Kingdom, as applicable;

(2) Prior to the export or transfer of a qualifying defense article—

(i) Mark, identify, transmit, store, and handle any defense articles provided for the purpose of responding to such solicitations, as well as any defense articles provided with or developed pursuant to their responses to such solicitations, in accordance with the DTC Treaties, the Implementing Arrangements, and corresponding regulations of the United States Government and the government of Australia or the government of the United Kingdom, as applicable, including, but not limited to, the marking and classification requirements described in the applicable regulations;

(ii) Comply with the re-transfer or re-export provisions of the DTC Treaties, the Implementing Arrangements, and corresponding regulations of the United States Government and the government of Australia or the government of the United Kingdom, as applicable, including, but not limited to, the re-transfer and re-export requirements described in the applicable regulations; and

(iii) Acknowledge that any conduct that falls outside or in violation of the DTC Treaties, Implementing Arrangements, and implementing regulations of the applicable government including, but not limited to, unauthorized re-transfer or re-export in violation of the procedures established in the applicable Implementing Arrangement and implementing regulations, remains subject to applicable licensing requirements of the government of Australia, the government of the United Kingdom, and the United States Government, as applicable, including any criminal, civil, and administrative penalties or sanctions contained therein; and

(g) *Representation*. The offeror shall check one of the following boxes and sign the representation:

☐ The offeror represents that export(s) or transfer(s) of qualifying defense articles were made in preparing its response to this solicitation and that such export(s) or transfer(s) complied with the requirements of this provision.

Name/Title of Duly Authorized Representative Date

☐ The offeror represents that no export(s) or transfer(s) of qualifying defense articles were made in preparing its response to this solicitation.

Name/Title of Duly Authorized Representative Date

(h) *Subcontracts*. Flow down the substance of this provision, including this paragraph (h), but excluding the representation at paragraph (g), to any subcontractor at any tier intending to use the DTC Treaties in responding to this solicitation.

(End of provision)

252.225-7047 Exports by Approved Community Members in Performance of the Contract.

As prescribed in [252.7902-5](#) (b), use the following clause:

EXPORTS BY APPROVED COMMUNITY MEMBERS IN PERFORMANCE OF THE CONTRACT (JUNE 2013)

(a) *Definitions*. As used in this clause—

"Approved Community" means the U.S. Government, U.S. entities that are registered and eligible exporters, and certain government and industry facilities in Australia or the United Kingdom that are approved and listed by the U.S. Government.

"Australia Community member" means an Australian government authority or nongovernmental entity or facility on the Australia Community list accessible at <http://pmddtc.state.gov/treaties/index.html>.

"Defense articles" means articles, services, and related technical data, including software, in tangible or intangible form, listed on the United States Munitions List of the International Traffic in Arms Regulations (ITAR), as modified or amended.

"Defense Trade Cooperation (DTC) Treaty" means—

(1) The Treaty Between the Government of the United States of America and the government of the United Kingdom of Great Britain and Northern Ireland concerning Defense Trade Cooperation, signed at Washington and London on June 21 and 26, 2007; or

(2) The Treaty Between the Government of the United States of America and the Government of Australia Concerning Defense Trade Cooperation, signed at Sydney on September 5, 2007.

"Export" means the initial movement of defense articles from the United States Community to the United Kingdom Community and the Australia community.

"Implementing Arrangement" means –

(1) The Implementing Arrangement Pursuant to the Treaty between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland Concerning Defense Trade Cooperation, signed on February 14, 2008; or

(2) The Implementing Arrangement Pursuant to the Treaty between the Government of the United States of America and the Government of Australia Concerning Defense Trade Cooperation, signed on March 14, 2008.

"Qualifying defense articles" means defense articles that are not exempt from the scope of the DTC Treaties as defined in 22 CFR 126.16(g) and 22 CFR 126.17(g).

"Transfer" means the movement of previously exported defense articles within the Approved Community.

"United Kingdom Community member" means a United Kingdom government authority or nongovernmental entity or facility on the United Kingdom Community list accessible at <http://pmdrtc.state.gov>.

"United States Community" means—

(1) Departments and agencies of the U.S. Government, including their personnel, with, as appropriate, security accreditation and a need-to-know; and

(2) Nongovernmental U.S. entities registered with the Department of State and eligible to export defense articles under U.S. law and regulation, including their employees, with, as appropriate, security accreditation and a need-to-know.

"U.S. DoD Treaty-eligible requirements" means any defense article acquired by the DoD for use in a combined military or counterterrorism operation, cooperative research, development, production or support program, or DoD end use, as described in Article 3 of the U.S.-U.K. DTC Treaty and sections 2 and 3 of the associated Implementing Arrangement; and Article 3 of the U.S.-Australia DTC Treaty and sections 2 and 3 of the associated Implementing Arrangement.

(b) All contract line items in this contract, except any identified in this paragraph, are intended to satisfy U.S. DoD Treaty-eligible requirements. Specific defense articles that are not U.S. DoD Treaty-eligible will be identified as such in those contract line items that are otherwise U.S. DoD Treaty-eligible.

CONTRACT LINE ITEMS NOT INTENDED TO SATISFY

U.S. DoD TREATY-ELIGIBLE REQUIREMENTS:

[Enter Contract Line Item Number(s) or enter "None"]

(c) Subject to the other terms and conditions of this contract that affect the acceptability of foreign sources or foreign end products, components, parts, or materials, Approved Community members are permitted, but not required, to use the DTC Treaties for exports or transfers of qualifying defense articles in performance of the contract.

(d) Any conduct by the Contractor that falls outside the scope of the DTC Treaties, the Implementing Arrangements, and 22 CFR 126.16(g) and 22 CFR 126.17(g) is subject to all applicable ITAR requirements, including any criminal, civil, and administrative penalties or sanctions, as well as all other United States statutory and regulatory requirements outside of ITAR, including, but not limited to, regulations issued by the Bureau of Alcohol, Tobacco, Firearms and Explosives found at 27 C.F.R. Parts 447, 478, and 479, which are unaffected by the DTC Treaties.

(e) If the Contractor is an Approved Community member, the Contractor agrees that—

(1) The Contractor shall comply with the requirements of the DTC Treaties, the Implementing Arrangements, the ITAR, and corresponding regulations of the U.S. Government and the government of Australia or the government of the United Kingdom, as applicable; and

(2) Prior to the export or transfer of a qualifying defense article the Contractor—

(i) Shall mark, identify, transmit, store, and handle any defense articles provided for the purpose of responding to such solicitations, as well as any defense articles provided with or developed pursuant to their responses to such solicitations, in accordance with the DTC Treaties, the Implementing Arrangements, and corresponding regulations of the United States Government and the government of Australia or the government of the United Kingdom, as applicable, including, but not limited to, the marking and classification requirements described in the applicable regulations;

(ii) Shall comply with the re-transfer or re-export provisions of the DTC Treaties, the Implementing Arrangements, and corresponding regulations of the United States Government and the government of Australia or the government of the United Kingdom, as applicable, including, but not limited to, the re-transfer and re-export requirements described in the applicable regulations; and

(iii) Shall acknowledge that any conduct that falls outside or in violation of the DTC Treaties, Implementing Arrangements, and implementing regulations of the applicable government including, but not limited to, unauthorized re-transfer or re-export in violation of the procedures established in the applicable Implementing Arrangement and implementing regulations, remains subject to applicable licensing requirements of the government of Australia, the

government of the United Kingdom, and the United States Government, including any criminal, civil, and administrative penalties or sanctions contained therein.

(f) The contractor shall include the substance of this clause, including this paragraph (f), in all subcontracts that may require exports or transfers of qualifying defense articles in connection with deliveries under the contract.

(End of clause)

252.225-7048 Export-Controlled Items.

As prescribed in [225.7901-4](#), use the following clause:

EXPORT CONTROLLED ITEMS (JUNE 2013)

(a) *Definition.* “Export-controlled items,” as used in this clause, means items subject to the Export Administration Regulations (EAR) (15 CFR Parts 730-774) or the International Traffic in Arms Regulations (ITAR) (22 CFR Parts 120-130). The term includes:

(1) “Defense items,” defined in the Arms Export Control Act, 22 U.S.C. 2778(j)(4)(A), as defense articles, defense services, and related technical data, and further defined in the ITAR, 22 CFR Part 120.

(2) “Items,” defined in the EAR as “commodities”, “software”, and “technology,” terms that are also defined in the EAR, 15 CFR 772.1.

(b) The Contractor shall comply with all applicable laws and regulations regarding export-controlled items, including, but not limited to, the requirement for contractors to register with the Department of State in accordance with the ITAR. The Contractor shall consult with the Department of State regarding any questions relating to compliance with the ITAR and shall consult with the Department of Commerce regarding any questions relating to compliance with the EAR.

(c) The Contractor's responsibility to comply with all applicable laws and regulations regarding export-controlled items exists independent of, and is not established or limited by, the information provided by this clause.

(d) Nothing in the terms of this contract adds, changes, supersedes, or waives any of the requirements of applicable Federal laws, Executive orders, and regulations, including but not limited to—

- (1) The Export Administration Act of 1979, as amended (50 U.S.C. App. 2401, *et seq.*);
- (2) The Arms Export Control Act (22 U.S.C. 2751, *et seq.*);
- (3) The International Emergency Economic Powers Act (50 U.S.C. 1701, *et seq.*);
- (4) The Export Administration Regulations (15 CFR Parts 730-774);
- (5) The International Traffic in Arms Regulations (22 CFR Parts 120-130); and
- (6) Executive Order 13222, as extended.

(e) The Contractor shall include the substance of this clause, including this paragraph (e), in all subcontracts.

(End of clause)

252.225-7049 Prohibition on Acquisition of Certain Foreign Commercial Satellite Services—Representations.

As prescribed in [225.772-5](#) (a), use the following provision:

PROHIBITION ON ACQUISITION OF CERTAIN FOREIGN COMMERCIAL SATELLITE SERVICES—REPRESENTATIONS (DEC 2018)

(a) *Definitions.* As used in this provision—

“Covered foreign country,” “foreign entity,” “government of a covered foreign country,” “launch vehicle,” “satellite services,” and “state sponsor of terrorism” are defined in the clause at Defense Federal Acquisition Regulation Supplement (DFARS) [252.225-7051](#), Prohibition on Acquisition of Certain Commercial Satellite Services.

“Cybersecurity risk” means threats to and vulnerabilities of information or information systems and any related consequences caused by or resulting from unauthorized access, use, disclosure, degradation, disruption, modification, or destruction of such information or information systems, including such related consequences caused by an act of terrorism. (10 U.S.C. 2279)

(b) *Prohibition on award.* In accordance with 10 U.S.C. 2279, unless an exception is determined to apply in accordance with DFARS [225.772-4](#), no contract for commercial satellite services may be awarded to—

(1)(i) A foreign entity if the Under Secretary of Defense for Acquisition and Sustainment or the Under Secretary of Defense for Policy reasonably believes that—

(A) The foreign entity is an entity in which the government of a covered foreign country has an ownership interest that enables the government to affect satellite operations;

(B) The foreign entity plans to, or is expected to, provide or use launch or other satellite services under the contract from a covered foreign country; or

(C) Entering into such contract would create an unacceptable cybersecurity risk for DoD; or

(ii) An offeror that is offering to provide the commercial satellite services of a foreign entity as described in paragraph (b)(1) of this section; or

(2)(i) Any entity, except as provided in paragraph (b)(2)(ii) of this provision, for a launch that occurs on or after December 31, 2022, if the Under Secretary of Defense for Acquisition and Sustainment or the Under Secretary of Defense for Policy reasonably believes that such satellite service will be provided using satellites that will be—

(A) Designed or manufactured—

(1) In a covered foreign country; or

(2) By an entity controlled in whole or in part by, or acting on behalf of, the government of a covered foreign country; or

(B) Launched outside the United States, using a launch vehicle that is—

(1) Designed or manufactured in a covered foreign country; or

(2) Provided by—

(i) The government of a covered foreign country; or

(ii) An entity controlled in whole or in part by, or acting on behalf of, the government of a covered foreign country.

(ii) The prohibition in paragraph (b)(2)(i)(B) of this provision does not apply with respect to launch vehicles for which the satellite service provider has a contract or other agreement relating to launch services that, prior to June 10, 2018, was either fully paid for by the satellite service provider or covered by a legally binding commitment of the satellite service provider to pay for such services.

(c) *Representations.* The Offeror represents that—

(1) It [] is, [] is not a foreign entity in which the government of a covered foreign country has an ownership interest that enables the government to affect satellite operations. If affirmative, identify the covered foreign country: _____;

(2) It [] is, [] is not a foreign entity that plans to provide satellite services under the contract from a covered foreign country. If affirmative, identify the covered foreign country: _____;

(3) It [] is, [] is not offering commercial satellite services provided by a foreign entity in which the government of a covered foreign country has an ownership interest that enables the government to affect satellite operations. If affirmative, identify the foreign entity and the covered foreign country: _____;

(4) It [] is, [] is not offering commercial satellite services provided by a foreign entity that plans to or is expected to provide satellite services under the contract from a covered foreign country. If affirmative, identify the foreign entity and the covered foreign country: _____;

(5) It [] is, [] is not offering commercial satellite services that will use satellites, launched on or after December 31, 2022, that will be designed or manufactured in a covered foreign country. If affirmative, identify the covered foreign country: _____;

(6) It [] is, [] is not offering commercial satellite services that will use satellites, launched on or after December 31, 2022, that will be designed or manufactured by an entity controlled in whole or in part by, or acting on behalf of, the government of a covered foreign country. If affirmative, identify the entity, the covered foreign country, and the relationship of the entity to the government of the covered foreign country: _____;

(7) It [] is, [] is not offering commercial satellite services that will use satellites, launched outside the United States on or after December 31, 2022, using a launch vehicle that is designed or manufactured in a covered foreign country. If affirmative, identify the covered foreign country: _____;

(8) It [] is, [] is not offering commercial satellite services that will use satellites, launched outside the United States on or after December 31, 2022, using a launch vehicle that is provided by the government of a covered foreign country. If affirmative, identify the covered foreign country: _____; and

(9) It [] is, [] is not offering commercial satellite services that will use satellites, launched outside the United States on or after December 31, 2022, using a launch vehicle that is provided by an entity controlled in whole or in part by, or acting on

behalf of, the government of a covered foreign country. If affirmative, identify the entity, the covered foreign country, and the relationship of the entity to the government of the covered foreign country:_____.

(d) *Disclosure.* If the Offeror has responded affirmatively to any representation in paragraphs (c)(7) through (c)(9) of this provision, and if such launches are covered in whole or in part by a contract or other agreement relating to launch services that, prior to June 10, 2018, was either fully paid for by the satellite service provider or covered by a legally binding commitment of the satellite service provider to pay for such services, provide the following information:

- (1) The entity awarded the contract or other agreement:_____.
- (2) The date the contract or other agreement was awarded:_____.
- (3) The period of performance for the contract or other agreement:_____.

(e) The representations in paragraph (c) of this provision are a material representation of fact upon which reliance will be placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous representation, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

252.225-7050 Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism.

As prescribed in [225.771-5](#), use the following provision:

DISCLOSURE OF OWNERSHIP OR CONTROL BY THE GOVERNMENT
OF A COUNTRY THAT IS A STATE SPONSOR OF TERRORISM (DEC 2022)

(a) *Definitions.* As used in this provision—

“Government of a country that is a state sponsor of terrorism” includes the state and the government of a country that is a state sponsor of terrorism, as well as any political subdivision, agency, or instrumentality thereof.

“Significant interest” means—

(1) Ownership of or beneficial interest in 5 percent or more of the firm’s or subsidiary’s securities. Beneficial interest includes holding 5 percent or more of any class of the firm’s securities in “nominee shares,” “street names,” or some other method of holding securities that does not disclose the beneficial owner;

(2) Holding a management position in the firm, such as a director or officer;

(3) Ability to control or influence the election, appointment, or tenure of directors or officers in the firm;

(4) Ownership of 10 percent or more of the assets of a firm such as equipment, buildings, real estate, or other tangible assets of the firm; or

(5) Holding 50 percent or more of the indebtedness of a firm.

“State sponsor of terrorism” means a country determined by the Secretary of State, under section 1754(c)(1)(A)(i) of the Export Control Reform Act of 2018 (Title XVII, Subtitle B, of the National Defense Authorization Act for Fiscal Year 2019, Pub. L. 115-232), to be a country the government of which has repeatedly provided support for acts of international terrorism. As of the date of this provision, state sponsors of terrorism include Iran, North Korea, Sudan, and Syria.

(b) *Prohibition on award.* In accordance with 10 U.S.C. 4871, unless a waiver is granted by the Secretary of Defense, no contract may be awarded to a firm if the government of a country that is a state sponsor of terrorism owns or controls a significant interest in—

(1) The firm;

(2) A subsidiary of the firm; or

(3) Any other firm that owns or controls the firm.

(c) *Representation.* Unless the Offeror submits with its offer the disclosure required in paragraph (d) of this provision, the Offeror represents, by submission of its offer, that the government of a country that is a state sponsor of terrorism does not own or control a significant interest in—

(1) The Offeror;

(2) A subsidiary of the Offeror; or

(3) Any other firm that owns or controls the Offeror.

(d) *Disclosure.*

(1) The Offeror shall disclose in an attachment to its offer if the government of a country that is a state sponsor of terrorism owns or controls a significant interest in the Offeror; a subsidiary of the Offeror; or any other firm that owns or controls the Offeror.

(2) The disclosure shall include—

- (i) Identification of each government holding a significant interest; and
- (ii) A description of the significant interest held by each government.

(End of provision)

252.225-7051 Prohibition on Acquisition of Certain Foreign Commercial Satellite Services.

As prescribed in [252.772-5](#), use the following clause:

PROHIBITION ON ACQUISITION OF CERTAIN FOREIGN COMMERCIAL SATELLITE SERVICES (DEC 2022)

(a) *Definitions.* As used in this clause—

“Covered foreign country” means—

- (1) The People’s Republic of China;
- (2) North Korea;
- (3) The Russian Federation; or
- (4) Any country that is a state sponsor of terrorism. (10 U.S.C. 2279)

“Foreign entity” means—

(1) Any branch, partnership, group or sub-group, association, estate, trust, corporation or division of a corporation, or organization organized under the laws of a foreign state if either its principal place of business is outside the United States or its equity securities are primarily traded on one or more foreign exchanges.

(2) Notwithstanding paragraph (1) of this definition, any branch, partnership, group or sub-group, association, estate, trust, corporation or division of a corporation, or organization that demonstrates that a majority of the equity interest in such entity is ultimately owned by U.S. nationals is not a foreign entity. (31 CFR 800.212)

“Government of a covered foreign country” includes the state and the government of a covered foreign country, as well as any political subdivision, agency, or instrumentality thereof.

“Launch vehicle” means a fully integrated space launch vehicle. (10 U.S.C. 2279)

“Satellite services” means communications capabilities that utilize an on-orbit satellite for transmitting the signal from one location to another.

“State sponsor of terrorism” means a country determined by the Secretary of State, under section 1754(c)(1)(A)(i) of the Export Control Reform Act of 2018 (Title XVII, Subtitle B, of the National Defense Authorization Act for Fiscal Year 2019, Pub. L. 115-232)], to be a country the government of which has repeatedly provided support for acts of international terrorism. As of the date of this provision, state sponsors of terrorism include Iran, North Korea, Sudan, and Syria. (10 U.S.C. 4871)

(b) *Limitation.* Unless specified in its offer, the Contractor shall not provide satellite services under this contract that—

- (1) Are from a covered foreign country; or
- (2) Except as provided in paragraph (c), use satellites that will be—

(i) Designed or manufactured—

(A) In a covered foreign country; or

(B) By an entity controlled in whole or in part by, or acting on behalf of, the government of a covered foreign country; or

(ii) Launched outside the United States using a launch vehicle that is designed or manufactured—

(A) In a covered foreign country; or

(B) Provided by—

(1) The government of a covered foreign country; or

(2) An entity controlled in whole or in part by, or acting on behalf of, the government of a covered foreign country.

(c) *Exception.* The limitation in paragraph (b)(2) shall not apply with respect to—

- (1) A launch that occurs prior to December 31, 2022; or

(2) A satellite service provider that has a contract or other agreement relating to launch services that, prior to June 10, 2018, was either fully paid for by the satellite service provider or covered by a legally binding commitment of the satellite service provider to pay for such services.

(End of clause)

252.225-7052 Restriction on the Acquisition of Certain Magnets, Tantalum, and Tungsten.

As prescribed in [225.7018-5](#), use the following clause:

RESTRICTION ON THE ACQUISITION OF CERTAIN MAGNETS, TANTALUM, AND TUNGSTEN (MAY 2024)

(a) *Definitions.* As used in this clause—

“Assembly” means an item forming a portion of a system or subsystem that—

- (1) Can be provisioned and replaced as an entity; and
- (2) Incorporates multiple, replaceable parts.

“Commercially available off-the-shelf item”—

- (1) Means any item of supply that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” in section 2.101 of the Federal Acquisition Regulation);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under this contract or a subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Component” means any item supplied to the Government as part of an end item or of another component.

“Covered country” means—

- (1) The Democratic People’s Republic of North Korea;
- (2) The People’s Republic of China;
- (3) The Russian Federation; or
- (4) The Islamic Republic of Iran.

“Covered material” means—

- (1) Samarium-cobalt magnets;
- (2) Neodymium-iron-boron magnets;
- (3) Tantalum metals and alloys;
- (4) Tungsten metal powder; and
- (5) Tungsten heavy alloy or any finished or semi-finished component containing tungsten heavy alloy.

“Electronic device” means an item that operates by controlling the flow of electrons or other electrically charged particles in circuits, using interconnections such as resistors, inductors, capacitors, diodes, switches, transistors, or integrated circuits.

“End item” means the final production product when assembled or completed and ready for delivery under a line item of this contract.

“Subsystem” means a functional grouping of items that combine to perform a major function within an end item, such as electrical power, attitude control, and propulsion.

“Tungsten heavy alloy” means a tungsten base pseudo alloy that—

- (1) Meets the specifications of ASTM B777 or SAE-AMS-T-21014 for a particular class of tungsten heavy alloy; or
- (2) Contains at least 90 percent tungsten in a matrix of other metals (such as nickel-iron or nickel-copper) and has density of at least 16.5 g/cm³.

(b) *Restriction.*

- (1) Except as provided in paragraph (c) of this clause,—

(i) Effective through December 31, 2026, the Contractor shall not deliver under this contract any covered material melted or produced in any covered country, or any end item, manufactured in any covered country, that contains a covered material (10 U.S.C. 4872).

(ii) Effective January 1, 2027, the Contractor shall not deliver under this contract any covered material mined, refined, separated, melted, or produced in any covered country, or any end item, manufactured in any covered country, that contains a covered material (section 854, Pub. L. 118-31; 10 U.S.C. 4872).

(2)(i)(A) Effective through December 31, 2026, for samarium-cobalt magnets and neodymium-iron-boron magnets, this restriction includes—

(1) Melting samarium with cobalt to produce the samarium-cobalt alloy or melting neodymium with iron and boron to produce the neodymium-iron-boron alloy; and

(2) All subsequent phases of production of the magnets, such as powder formation, pressing, sintering or bonding, and magnetization.

(B) Effective January 1, 2027, for samarium-cobalt magnets this restriction includes the entire supply chain from mining or production of a cobalt and samarium ore or feedstock, including recycled material, through production of finished magnets.

(ii) The restriction on melting and producing of samarium-cobalt magnets is in addition to any applicable restrictions on melting of specialty metals if the clause at [252.225-7009](#), Restriction on Acquisition of Certain Articles Containing Specialty Metals, is included in the contract.

(3) Effective January 1, 2027, for neodymium-iron-boron magnets, this restriction includes the entire supply chain from mining of neodymium, iron, and boron through production of finished magnets.

(4)(i) Effective through December 31, 2026, for production of tantalum metals of any kind and alloys, this restriction includes the reduction or melting of any form of tantalum to create tantalum metal including unwrought, powder, mill products, and alloys. The restriction also covers all subsequent phases of production of tantalum metals and alloys.

(ii) Effective January 1, 2027, for production of tantalum metals of any kind and alloys, this restriction includes mining or production of a tantalum ore or feedstock, including recycled material, through production of metals of any kind and alloys.

(5)(i) Effective through December 31, 2026, for production of tungsten metal powder and tungsten heavy alloy, this restriction includes—

(A) Atomization;

(B) Calcination and reduction into powder;

(C) Final consolidation of non-melt derived metal powders; and

(D) All subsequent phases of production of tungsten metal powder, tungsten heavy alloy, or any finished or semi-finished component containing tungsten heavy alloy.

(ii) Effective January 1, 2027, for production of tungsten metal powder, tungsten heavy alloy, or any finished or semi-finished component containing tungsten heavy alloy, this restriction includes mining or production of a tungsten ore or feedstock, including recycled material, through production of tungsten metal powders, tungsten heavy alloy, or any finished or semi-finished component containing tungsten heavy alloy.

(c) *Exceptions.* This clause does not apply—

(1) To an end item containing a covered material that is—

(i) A commercially available off-the-shelf item, other than—

(A) A commercially available off-the-shelf item that is—

(1) 50 percent or more tungsten by weight effective through December 31, 2026; or

(2) 50 percent or more covered material by weight effective January 1, 2027;

(B) Effective through December 31, 2026, a tantalum metal, tantalum alloy, or tungsten heavy alloy, such as bar, billet, slab, wire, cube, sphere, block, blank, plate, or sheet, that has not been incorporated into an end item, subsystem, assembly, or component;

(ii) Effective January 1, 2027, a covered material that is a mill product, such as bar, billet, slab, wire, cube, sphere, block, blank, plate, or sheet, that has not been incorporated into an end item, subsystem, assembly, or component;

(iii) An electronic device, unless otherwise specified in the contract; or

(iv) A neodymium-iron-boron magnet manufactured from recycled material if the milling of the recycled material and sintering of the final magnet takes place in the United States.

(2) If the authorized agency official concerned has made a nonavailability determination, in accordance with section [225.7018-4](#) of the Defense Federal Acquisition Regulation Supplement, that compliant covered materials of satisfactory quality and quantity, in the required form, cannot be procured as and when needed at a reasonable price.

(i) For tantalum metal, tantalum alloy, or tungsten heavy alloy, the term “required form” refers to the form of the mill product, such as bar, billet, wire, slab, plate, or sheet, in the grade appropriate for the production of a finished end item

to be delivered to the Government under this contract; or a finished component assembled into an end item to be delivered to the Government under the contract.(ii) For samarium-cobalt magnets or neodymium-iron-boron magnets, the term “required form” refers to the form and properties of the magnets.

(d) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (d), in subcontracts and other contractual instruments that are for items containing a covered material, including subcontracts and other contractual instruments for commercial products, unless an exception in paragraph (c) of this clause applies. The Contractor shall not alter this clause other than to identify the appropriate parties.

(End of clause)

252.225-7053 Representation Regarding Prohibition on Use of Certain Energy Sourced from Inside the Russian Federation.

As prescribed in [225.7019-4 Solicitation provision and contract clause](#).(a), use the following provision:

REPRESENTATION REGARDING PROHIBITION ON USE OF CERTAIN ENERGY SOURCED FROM INSIDE THE RUSSIAN FEDERATION (AUG 2021)

(a) *Definitions*. As used in this provision—

Covered military installation means a military installation in Europe identified by DoD as a main operating base.

Furnished energy means energy furnished to a covered military installation in any form and for any purpose, including heating, cooling, and electricity.

Main operating base means a facility outside the United States and its territories with permanently stationed operating forces and robust infrastructure.

(b) *Prohibition*. In accordance with section 2821 of the National Defense Authorization Act for Fiscal Year 2020 ([Pub. L. 116-92](#)), contracts for the acquisition of furnished energy for a covered military installation shall not use any energy sourced from inside the Russian Federation as a means of generating the furnished energy for the covered military installation, unless a waiver is approved. The prohibition—

(1) Applies to all forms of energy that are furnished to a covered military installation; and

(2) Does not apply to energy converted by a third party into another form of energy and not directly delivered to a covered military installation.

(c) *Representation*. By submission of its offer, the Offeror represents that the Offeror will not use or provide any energy sourced from inside the Russian Federation as a means of generating the furnished energy for the covered military installation in the performance of any contract, subcontract, or other contractual instrument resulting from this solicitation.

(End of provision)

252.225-7054 Prohibition on Use of Certain Energy Sourced from Inside the Russian Federation.

As prescribed in [225.7019-4 Solicitation provision and contract clause](#).(b), use the following clause:

PROHIBITION ON USE OF CERTAIN ENERGY SOURCED FROM INSIDE THE RUSSIAN FEDERATION (JAN 2023)

(a) *Definitions*. As used in this clause—

Covered military installation means a military installation in Europe identified by DoD as a main operating base.

Furnished energy means energy furnished to a covered military installation in any form and for any purpose, including heating, cooling, and electricity.

Main operating base means a facility outside the United States and its territories with permanently stationed operating forces and robust infrastructure.

(b) *Prohibition*. In accordance with section 2821 of the National Defense Authorization Act for Fiscal Year 2020 ([Pub. L. 116-92](#)), the Contractor shall not use in the performance of this contract any energy sourced from inside the Russian Federation as a means of generating the furnished energy for the covered military installation unless a waiver is approved. The prohibition—

(1) Applies to all forms of energy that are furnished to a covered military installation; and

(2) Does not apply to energy converted by a third party into another form of energy and not directly delivered to a covered military installation.

(c) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts and other commercial instruments that are for furnished energy at a covered military installation, including subcontracts and commercial instruments for commercial products.

(End of clause)

252.225-7055 Representation Regarding Business Operations with the Maduro Regime.

As prescribed in [225.7020-5\(a\)](#), use the following provision:

REPRESENTATION REGARDING BUSINESS OPERATIONS WITH THE MADURO REGIME (MAY 2022)

(a) Definitions. As used in this provision—

Agency or instrumentality of the government of Venezuela, business operations, government of Venezuela, and person have the meaning given in the clause [252.225-7056](#), Prohibition Regarding Business Operations with the Maduro Regime, of this solicitation.

(b) Prohibition. In accordance with section 890 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), DoD is prohibited from entering into a contract for the procurement of products or services with any person that has business operations with an authority of the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government, unless the person has a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(c) Representation. By submission of its offer, the Offeror represents that the Offeror is a person that—

(1) Does not have any business operations with an authority of the Maduro regime or the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government; or

(2) Has a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(End of provision)

252.225-7056 Prohibition Regarding Business Operations with the Maduro Regime.

As prescribed in [225.7020-5\(b\)](#), use the following clause:

PROHIBITION REGARDING BUSINESS OPERATIONS WITH THE MADURO REGIME (JAN 2023)

(a) Definitions. As used in this clause—

Agency or instrumentality of the government of Venezuela means an agency or instrumentality of a foreign state as defined in 28 U.S.C. 1603(b), with each reference in section 1603(b) to a foreign state deemed to be a reference to Venezuela.

Business operations means engaging in commerce in any form, including acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other apparatus of business or commerce.

Government of Venezuela means the government of any political subdivision of Venezuela, and any agency or instrumentality of the government of Venezuela.

Person means—

(1) A natural person, corporation, company, business association, partnership, society, trust, or any other nongovernmental entity, organization, or group;

(2) Any governmental entity or instrumentality of a government, including a multilateral development institution (as defined in section 1701(c)(3) of the International Financial Institutions Act (22 U.S.C. 262r(c)(3))); and

(3) Any successor, subunit, parent entity, or subsidiary of, or any entity under common ownership or control with, any entity described in paragraph (1) or (2) of this definition.

(b) Prohibition. In accordance with section 890 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), DoD is prohibited from entering into a contract for the procurement of products or services with any person that has business operations with an authority of the government of Venezuela that is not recognized as the legitimate government

of Venezuela by the U.S. Government, unless the person has a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(c) The Contractor shall—

(1) Not have any business operations with an authority of the Maduro regime or the government of Venezuela that is not recognized as the legitimate government of Venezuela by the U.S. Government; or

(2) Have a valid license to operate in Venezuela issued by the Office of Foreign Assets Control of the Department of the Treasury.

(d) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts, including subcontracts for the acquisition of commercial products.

(End of clause)

252.225-7057 Preaward Disclosure of Employment of Individuals Who Work in the People's Republic of China.

As prescribed in 252.7021-4(a), use the following provision:

PREAWARD DISCLOSURE OF EMPLOYMENT OF INDIVIDUALS WHO WORK IN THE PEOPLE'S REPUBLIC OF CHINA (AUG 2022)

(a) Definitions. As used in this provision—

“Covered contract” and “covered entity” have the meaning given in the clause 252.225-7058, Postaward Disclosure of Employment of Individuals Who Work in the People's Republic of China.

(b) Prohibition on award. In accordance with section 855 of the National Defense Authorization Act for Fiscal Year 2022 (Pub. L. 117-81, 10 U.S.C. 4651 note prec.), DoD may not award a contract to the Offeror if it is a covered entity and proposes to employ one or more individuals who will perform work in the People's Republic of China on a covered contract, unless the Offeror has disclosed its use of workforce and facilities in the People's Republic of China.

(c) Preaward disclosure requirement. At the time of submission of an offer for a covered contract, an Offeror that is a covered entity shall provide disclosures to include—

(1) The proposed use of workforce on a covered contract or subcontract, if the Offeror employs one or more individuals who perform work in the People's Republic of China;

(2) The total number of such individuals who will perform work in the People's Republic of China; and

(3) A description of the physical presence, including street address or addresses, in the People's Republic of China, where work on the covered contract will be performed.

(End of provision)

252.225-7058 Postaward Disclosure of Employment of Individuals Who Work in the People's Republic of China.

As prescribed in 252.7021-4(b), use the following clause:

POSTAWARD DISCLOSURE OF EMPLOYMENT OF INDIVIDUALS WHO WORK IN THE PEOPLE'S REPUBLIC OF CHINA (JAN 2023)

(a) Definitions. As used in this clause—

“Covered contract” means any DoD contract or subcontract with a value in excess of \$5 million, not including contracts for commercial products and commercial services. “Covered entity” means any corporation, company, limited liability company, limited partnership, business trust, business association, or other similar entity, including any subsidiary thereof, performing work on a covered contract in the People's Republic of China, including by leasing or owning real property used in the performance of the covered contract in the People's Republic of China.

(b) Disclosure requirement.

(1) In accordance with section 855 of the National Defense Authorization Act for Fiscal Year 2022 (Pub. L. 117-81, 10 U.S.C. 4651 note prec.), DoD may not award, extend, or exercise an option on a covered contract with a covered entity unless such covered entity submits each required disclosure of its use of workforce and facilities in the People's Republic of China, if it employs one or more individuals who perform work in the People's Republic of China on a covered contract.

(2) If the Contractor is a covered entity, the Contractor shall disclose for the Government's fiscal years 2023 and 2024, the Contractor's employment of one or more individuals who perform work in the People's Republic of China on any covered contract. The disclosures shall include—

(i) The total number of such individuals who perform work in the People's Republic of China on the covered contracts funded by DoD; and

(ii) A description of the physical presence, including street address or addresses in the People's Republic of China, where work on the covered contract is performed.

(c) Subcontracts. The Contractor shall insert this clause, including this paragraph (c), without alteration other than to identify the appropriate parties, in all subcontracts that meet the definition of a covered contract.

(End of clause)

252.225-7059 Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region—Representation.

As prescribed in 252.7022-5(a), use the following provision:

PROHIBITION ON CERTAIN PROCUREMENTS FROM THE XINJIANG
UYGHUR AUTONOMOUS REGION—REPRESENTATION (JUN 2023)

(a) *Definitions.* “Forced labor” and “XUAR”, as used in this provision, have the meaning given in the 252.225-7060, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region, clause of this solicitation.

(b) *Prohibition.* DoD may not knowingly procure any products mined, produced, or manufactured wholly or in part by forced labor from XUAR or from an entity that has used labor from within or transferred from XUAR as part of any forced labor programs, as specified in paragraph (b) of the 252.225-7060, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region, clause of this solicitation.

(c) *Representation.* By submission of its offer, the Offeror represents that it has made a good faith effort to determine that forced labor from XUAR will not be used in the performance of a contract resulting from this solicitation.

(End of provision)

252.225-7060 Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region.

As prescribed in 252.7022-5(b), use the following clause:

PROHIBITION ON CERTAIN PROCUREMENTS FROM THE
XINJIANG UYGHUR AUTONOMOUS REGION (JUN 2023)

(a) *Definitions.* As used in this clause—

“Forced labor” means any work or service that is exacted from any person under the menace of any penalty for its nonperformance and that the worker does not offer to perform (10 U.S.C. 2496).

“XUAR” means the Xinjiang Uyghur Autonomous Region of the People's Republic of China (10 U.S.C. 2496).

(b) *Prohibition.* In accordance with 10 U.S.C. 4661, none of the funds appropriated or otherwise made available for DoD may be used to knowingly procure any products mined, produced, or manufactured wholly or in part by forced labor from XUAR or from an entity that has used labor from within or transferred from XUAR. The Contractor shall make a good faith effort to determine that forced labor from XUAR will not be used in the performance of this contract (section 855, Pub. L. 117-263).

(c) *Subcontracts.* The Contractor shall insert this clause, including this paragraph (c), without alteration other than to identify the appropriate parties, in subcontracts including subcontracts for commercial products, commercial services, and commercially available off-the-shelf items.

(End of clause)

252.225-7061 Restriction on the Acquisition of Personal Protective Equipment and Certain Other Items from Non-Aligned Foreign Nations.

As prescribed in 252.7023-4, use the following clause:

RESTRICTION ON THE ACQUISITION OF PERSONAL PROTECTIVE EQUIPMENT
AND CERTAIN OTHER ITEMS FROM NON-ALLIED FOREIGN NATIONS (JAN 2023)

(a) *Definitions.* As used in this clause—

“Covered country” means—

- (1) The Democratic People’s Republic of North Korea;
- (2) The People’s Republic of China;
- (3) The Russian Federation; and
- (4) The Islamic Republic of Iran.

“Covered item” means an article or item of—

(1) Personal protective equipment for use in preventing spread of disease, such as by exposure to infected individuals or contamination or infection by infectious material, including—

- (i) Nitrile and vinyl gloves;
- (ii) Surgical masks;
- (iii) Respirator masks and powered air purifying respirators and required filters;
- (iv) Face shields and protective eyewear;
- (v) Surgical and isolation gowns and head and foot coverings; or
- (vi) Clothing; and

(vii) The materials and components thereof, other than sensors, electronics, or other items added to and not normally associated with such personal protective equipment or clothing; or

(2) Sanitizing and disinfecting wipes, testing swabs, gauze, and bandages.

(b) *Restriction.* The Contractor shall not deliver under this contract a covered item from a covered country (10 U.S.C. 4875).

(c) *Subcontracts.* The Contractor shall insert this clause, including this paragraph (c), without alteration other than to identify the appropriate parties, in subcontracts valued above \$150,000 that are for the acquisition of covered items, including subcontracts for commercial products, including commercially available off-the-shelf items, and commercial services.

(END OF CLAUSE)

252.225-7062 Restriction on Acquisition of Large Medium-Speed Diesel Engines.

As prescribed in [225.7004-7](#)(b), use the following clause:

RESTRICTION ON ACQUISITION OF LARGE MEDIUM-SPEED DIESEL ENGINES (JUL 2023)

(a) *Definition.* As used in this clause—

“Large medium-speed diesel engines” means diesel engines whose revolutions per minute (RPM) fall between 300 and 1500 RPM with a displacement greater than 1500 cubic inches per cylinder.

(b) *Restriction.* As required by 10 U.S.C. 4864, the Contractor shall deliver under this contract large medium-speed diesel engines manufactured in the United States, Australia, Canada, New Zealand, or the United Kingdom.

(c) *Subcontracts.* The Contractor shall include the substance of this clause, including this paragraph (c), in subcontracts that exceed the simplified acquisition threshold, including subcontracts for commercial products and commercial services, that require large medium-speed diesel engines for new construction of auxiliary ships.

(End of clause)

252.225-7063 Restriction on Acquisition of Components of T-AO 205 and T-ARC Class Vessels.

As prescribed in [225.7004-7](#)(c), use the following clause:

RESTRICTION ON ACQUISITION OF COMPONENTS OF T-AO 205 AND T-ARC CLASS VESSELS (MAY 2024)

(a) *Restriction.*

(1) In accordance with 10 U.S.C. 4864, the following components of T-AO 205 and T-ARC class vessels must be manufactured in the United States, Australia, Canada, New Zealand, or the United Kingdom of Great Britain and Northern Ireland (United Kingdom):

- (i) Auxiliary equipment, including pumps, for all shipboard services.
- (ii) Propulsion system components, including engines, reduction gears, and propellers.
- (iii) Shipboard cranes.
- (iv) Spreaders for shipboard cranes.

(2) The Contractor shall deliver under this contract only T-AO 205 and T-ARC class vessel components, as described in paragraph (a)(1) of this clause, manufactured in the United States, Australia, Canada, New Zealand, or the United Kingdom (10 U.S.C. 4864).

(b) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (b), in subcontracts for the components described in paragraph (a)(1) of this clause that exceed the simplified acquisition threshold, including subcontracts for commercial products and commercial services.

(End of clause)

252.225-7064 Restriction on Acquisition of Certain Satellite Components.

As prescribed in [225.7004-7](#)(d), use the following clause:

RESTRICTION ON ACQUISITION OF CERTAIN SATELLITE COMPONENTS (MAY 2024)

(a) Definition. As used in this clause—

“Star tracker” means a navigational tool used in a satellite weighing more than 400 pounds whose principal purpose is to support the national security, defense, or intelligence needs of the U.S. Government.

(b) Restriction. In accordance with 10 U.S.C. 4864, a star tracker must be manufactured in the United States, Australia, Canada, New Zealand, or the United Kingdom of Great Britain and Northern Ireland (United Kingdom). The Contractor shall deliver under this contract only star trackers manufactured in the United States, Australia, Canada, New Zealand, or the United Kingdom.

(c) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts for star trackers that exceed the simplified acquisition threshold, including subcontracts for commercial products and commercial services.

(End of clause)

252.225-7065 Restriction on Acquisition of Fuel for Overseas Contingency Operations.

As prescribed in [225.7024-4](#), use the following provision:

RESTRICTION ON ACQUISITION OF FUEL FOR OVERSEAS CONTINGENCY OPERATIONS (OCT 2024)

(a) Prohibition. For an overseas contingency operation, DoD may not procure fuel in whole or in part, or derivatives of such fuel, that is sourced from nations or regions prohibited from selling petroleum to the United States. See [FAR subpart 25.7](#) and the Office of Foreign Assets Control website at <https://ofac.treasury.gov/sanctions-programs-and-country-information> for prohibited sources.

(b) Certification. Offerors shall complete the certification in paragraph (b)(1) of this provision and submit the certification with their offer.

(1) The Offeror does [] does not [] certify that the fuel, in whole or in part, or derivatives of such fuel, to be provided under any contract resulting from this solicitation is not sourced from a nation or region prohibited from selling petroleum to the United States.

(2) Only Offerors who certify that the fuel to be provided is not sourced from a prohibited nation or region will be eligible for award.

(c) *Compliance.*

(1) When requested by the Contracting Officer, the prospective Contractor shall submit records necessary to demonstrate compliance with applicable laws and regulations regarding export-controlled items and anticorruption statutes and regulations including—

- (i) The Foreign Corrupt Practices Act ([15 U.S.C. 78dd-1 et seq.](#));
- (ii) International Traffic in Arms Regulations (ITAR) at [22 CFR parts 120](#) through [130](#) (also see Defense Federal Acquisition Regulation Supplement (DFARS) clause [252.225-7048](#), Export-Controlled Items);
- (iii) Export Administration Regulations (EAR) at [15 CFR parts 730](#) through [774](#) (also see DFARS clause [252.225-7048](#)); and
- (iv) Relevant regulations promulgated by the Office of Foreign Assets Control of the Department of the Treasury. Sanction information for specific countries and programs is available at <https://ofac.treasury.gov/sanctions-programs-and-country-information>.

(2) The Offeror shall contact the Department of State regarding ITAR compliance and the Department of Commerce regarding EAR compliance.

(d) Reporting requirement. The Offeror shall, prior to contract award, promptly report to the Contracting Officer any instance of unsupported denial of access to a facility or equipment by a host-nation government that may prevent it from complying with the terms and conditions of the solicitation.

(End of provision)

252.226 RESERVED

252.226-7001 Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns.

As prescribed in [226.104](#), use the following clause:

UTILIZATION OF INDIAN ORGANIZATIONS, INDIAN-OWNED ECONOMIC ENTERPRISES, AND NATIVE HAWAIIAN SMALL BUSINESS CONCERNS (JAN 2023)

(a) *Definitions.* As used in this clause—

“Indian” means—

(1) Any person who is a member of any Indian tribe, band, group, pueblo, or community that is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs (BIA) in accordance with 25 U.S.C. 1452(c); and

(2) Any “Native” as defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

“Indian organization” means the governing body of any Indian tribe or entity established or recognized by the governing body of an Indian tribe for the purposes of 25 U.S.C. Chapter 17.

“Indian-owned economic enterprise” means any Indian-owned (as determined by the Secretary of the Interior) commercial, industrial, or business activity established or organized for the purpose of profit, provided that Indian ownership constitutes not less than 51 percent of the enterprise.

“Indian tribe” means any Indian tribe, band, group, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act, that is recognized by the Federal Government as eligible for services from BIA in accordance with 25 U.S.C. 1452(c).

“Interested party” means a contractor or an actual or prospective offeror whose direct economic interest would be affected by the award of a subcontract or by the failure to award a subcontract.

“Native Hawaiian small business concern” means an entity that is—

(1) A small business concern as defined in Section 3 of the Small Business Act (15 U.S.C. 632) and relevant implementing regulations; and

(2) Owned and controlled by a Native Hawaiian as defined in 25 U.S.C. 4221(9).

(b) The Contractor shall use its best efforts to give Indian organizations, Indian-owned economic enterprises, and Native Hawaiian small business concerns the maximum practicable opportunity to participate in the subcontracts it awards, to the fullest extent consistent with efficient performance of the contract.

(c) The Contracting Officer and the Contractor, acting in good faith, may rely on the representation of an Indian organization, Indian-owned economic enterprise, or Native Hawaiian small business concern as to its eligibility, unless an interested party challenges its status or the Contracting Officer has independent reason to question that status.

(d) In the event of a challenge to the representation of a subcontractor, the Contracting Officer will refer the matter to—

(1)(i) For matters relating to Indian organizations or Indian-owned economic enterprises:

U.S. Department of the Interior
Bureau of Indian Affairs
Attn: Bureau Procurement Chief
12220 Sunrise Valley Drive
Reston, VA 20191
Phone: 703-390-6433
Website: <https://www.bia.gov/>

(ii) The BIA will determine the eligibility and will notify the Contracting Officer.

(2)(i) For matters relating to Native Hawaiian small business concerns:

Department of Hawaiian Home Lands
PO Box 1879
Honolulu, HI 96805
Phone: 808-620-9500
Website: <http://dhhl.hawaii.gov/>

(ii) The Department of Hawaiian Home Lands will determine the eligibility and will notify the Contracting Officer.

(e) No incentive payment will be made—

(1) While a challenge is pending; or

(2) If a subcontractor is determined to be an ineligible participant.

(f)(1) The Contractor, on its own behalf or on behalf of a subcontractor at any tier, may request an incentive payment in accordance with this clause.

(2) The incentive amount that may be requested is 5 percent of the estimated cost, target cost, or fixed price included in the subcontract at the time of award to the Indian organization, Indian-owned economic enterprise, or Native Hawaiian small business concern.

(3) In the case of a subcontract for commercial products or commercial services, the Contractor may receive an incentive payment only if the subcontracted items are produced or manufactured in whole or in part by an Indian organization, Indian-owned economic enterprise, or Native Hawaiian small business concern.

(4) The Contractor has the burden of proving the amount claimed and shall assert its request for an incentive payment prior to completion of contract performance.

(5) The Contracting Officer, subject to the terms and conditions of the contract and the availability of funds, will authorize an incentive payment of 5 percent of the estimated cost, target cost, or fixed price included in the subcontract awarded to the Indian organization, Indian-owned economic enterprise, or Native Hawaiian small business concern.

(6) If the Contractor requests and receives an incentive payment on behalf of a subcontractor, the Contractor is obligated to pay the subcontractor the incentive amount.

(g) The Contractor shall insert the substance of this clause, including this paragraph (g), in all subcontracts exceeding \$500,000.

(End of clause)

252.226-7002 Representation for Demonstration Project for Contractors Employing Persons with Disabilities.

As prescribed in [226.7203](#), use the following provision:

REPRESENTATION FOR DEMONSTRATION PROJECT FOR CONTRACTORS EMPLOYING PERSONS WITH DISABILITIES (DEC 2019)

(a) *Definitions.* As used in this provision—

“Eligible contractor” means a business entity operated on a for-profit or nonprofit basis that—

(1) Employs severely disabled individuals at a rate that averages not less than 33 percent of its total workforce over the 12-month period prior to issuance of the solicitation;

(2) Pays not less than the minimum wage prescribed pursuant to 29 U.S.C. 206 to the employees who are severely disabled individuals; and

(3) Provides, for its employees, health insurance and a retirement plan comparable to those provided for employees by business entities of similar size in its industrial sector or geographic region.

“Severely disabled individual” means an individual with a disability (as defined in 42 U.S.C. 12102) who has a severe physical or mental impairment that seriously limits one or more functional capacities.

(b) *Demonstration Project*. This solicitation is issued pursuant to the Demonstration Project for Contractors Employing Persons with Disabilities. The purpose of the Demonstration Project is to provide defense contracting opportunities for entities that employ severely disabled individuals. To be eligible for award, an offeror must be an eligible contractor as defined in paragraph (a) of this provision.

(c) *Representation*. The offeror represents that it [] is [] is not an eligible contractor as defined in paragraph (a) of this provision.

(End of provision)

252.226-7003 Drug-Free Work Force.

As prescribed in [226.570-2](#), use the following clause:

DRUG-FREE WORK FORCE (AUG 2024)

(a) Definitions. As used in this clause—

Employee in a sensitive position means an employee who has been granted access to classified information; or employees in other positions that the Contractor determines involve national security, health or safety, or functions other than the foregoing requiring a high degree of trust and confidence.

Illegal drugs means controlled substances included in Schedules I and II, as defined by section 802(6) of title 21 of the United States Code, the possession of which is unlawful under chapter 13 of that title. The term “illegal drugs” does not mean the use of a controlled substance pursuant to a valid prescription or other uses authorized by law.

(b) The Contractor agrees to institute and maintain a program for achieving the objective of a drug-free work force. While this clause defines criteria for such a program, contractors are encouraged to implement alternative approaches comparable to the criteria in paragraph (c) that are designed to achieve the objectives of this clause.

(c) Contractor programs shall include the following, or appropriate alternatives:

(1) Employee assistance programs emphasizing high level direction, education, counseling, rehabilitation, and coordination with available community resources;

(2) Supervisory training to assist in identifying and addressing illegal drug use by Contractor employees;

(3) Provision for self-referrals as well as supervisory referrals to treatment with maximum respect for individual confidentiality consistent with safety and security issues;

(4) Provision for identifying illegal drug users, including testing on a controlled and carefully monitored basis. Employee drug testing programs shall be established taking account of the following:

(i) The Contractor shall establish a program that provides for testing for the use of illegal drugs by employees in sensitive positions. The extent of and criteria for such testing shall be determined by the Contractor based on considerations that include the nature of the work being performed under the contract, the employee’s duties, the efficient use of Contractor resources, and the risks to health, safety, or national security that could result from the failure of an employee adequately to discharge his or her position.

(ii) In addition, the Contractor may establish a program for employee drug testing—

(A) When there is a reasonable suspicion that an employee uses illegal drugs; or

(B) When an employee has been involved in an accident or unsafe practice;

(C) As part of or as a follow-up to counseling or rehabilitation for illegal drug use;

(D) As part of a voluntary employee drug testing program.

(iii) The Contractor may establish a program to test applicants for employment for illegal drug use.

(iv) For the purpose of administering this clause, testing for illegal drugs may be limited to those substances for which testing is prescribed by section 2.1 of subpart B of the “Mandatory Guidelines for Federal Workplace Drug Testing Programs” (53 FR 11980 (April 11 1988)), issued by the Department of Health and Human Services.

(d) Contractors shall adopt appropriate personnel procedures to deal with employees who are found to be using drugs illegally. Contractors shall not allow any employee to remain on duty or perform in a sensitive position who is found to use illegal drugs until such times as the Contractor, in accordance with procedures established by the Contractor, determines that the employee may perform in such a position.

(e) The provisions of this clause pertaining to drug testing program shall not apply to the extent they are inconsistent with state or local law, or with an existing collective bargaining agreement; provided that with respect to the latter, the Contractor agrees that those issues that are in conflict will be a subject of negotiation at the next collective bargaining session.

(End of clause)

252.227 RESERVED

252.227-7000 Non-Estoppel.

As prescribed at [227.7009-1](#) , insert the following clause in patent releases, license agreements, and assignments:

NON-ESTOPPEL (OCT 1966)

The Government reserves the right at any time to contest the enforceability, validity, scope of, or the title to any patent or patent application herein licensed without waiving or forfeiting any right under this contract.

(End of clause)

252.227-7001 Release of Past Infringement.

As prescribed at [227.7009-2](#) (a), insert the following clause in patent releases, license agreements, and assignments:

RELEASE OF PAST INFRINGEMENT (SEP 2019)

The Contractor hereby releases each and every claim and demand which the Contractor now has or may hereafter have against the Government for the manufacture or use by or for the Government prior to the effective date of this contract, of any inventions covered by (i) any of the patents and applications for patent identified in this contract, and (ii) any other patent or application for patent owned or hereafter acquired by the Contractor, insofar as and only to the extent that such other patent or patent application covers the manufacture, use, or disposition of [description of subject matter].*

(End of clause)

*Bracketed portions of the clause may be omitted when not appropriate or not encompassed by the release as negotiated.

252.227-7002 Readjustment of Payments.

As prescribed at [227.7009-2](#) (b), insert the following clause in patent releases, license agreements, and assignments:

READJUSTMENT OF PAYMENTS (SEP 2019)

(a) If any license, under substantially the same patents and authorizing substantially the same acts which are authorized under this contract, has been or shall hereafter be granted within the United States, on royalty terms which are more favorable to the licensee than those contained herein, the Government shall be entitled to the benefit of such more favorable terms with respect to all royalties accruing under this contract after the date such more favorable terms become effective, and the Contractor shall promptly notify the Contracting Officer in writing of the granting of such more favorable terms.

(b) In the event any claim of any patent hereby licensed is construed or held invalid by decision of a court of competent jurisdiction, the requirement to pay royalties under this contract insofar as it arises solely by reason of such claim, and any other claim not materially different therefrom, shall be interpreted in conformity with the court's decision as to the scope of

validity of such claims; Provided, however, that in the event such decision is modified or reversed on appeal, the requirement to pay royalties under this contract shall be interpreted in conformity with the final decision rendered on such appeal.

(End of clause)

252.227-7003 Termination.

As prescribed at [227.7009-2](#) (c), insert the following clause in patent releases, license agreements, and assignments:

TERMINATION (AUG 1984)

Notwithstanding any other provision of this contract, the Government shall have the right to terminate the within license, in whole or in part, by giving the Contractor not less than thirty (30) days notice in writing of the date such termination is to be effective; provided, however, that such termination shall not affect the obligation of the Government to pay royalties which have accrued prior to the effective date of such termination.

(End of clause)

252.227-7004 License Grant.

As prescribed at [227.7009-3](#) (a), insert the following clause in patent releases, license agreements, and assignments:

LICENSE GRANT (AUG 1984)

(a) The Contractor hereby grants to the Government an irrevocable, nonexclusive, nontransferable, and paid up license under the following patents, applications for patent, and any patents granted on such applications, and under any patents which may issue as the result of any reissue, division or continuation thereof, to practice by or cause to be practiced for the Government throughout the world, any and all of the inventions thereunder, in the manufacture and use of any article or material, in the use of any method or process, and in the disposition of any article or material in accordance with law:

U.S. Patent No. _____	Date _____
Application Serial No. _____	Filing Date _____

Together with corresponding foreign patents and foreign applications for patents, insofar as the Contractor has the right to grant licenses thereunder without incurring an obligation to pay royalties or other compensation to others solely on account of such grant.

(b) No rights are granted or implied by the agreement under any other patents other than as provided above or by operation of law.

(c) Nothing contained herein shall limit any rights which the Government may have obtained by virtue of prior contracts or by operation of law or otherwise.

(End of clause)

252.227-7005 License Term.

As prescribed at [227.7009-3](#) (b), insert one of the following clauses in patent releases, license agreements, and assignments:

LICENSE TERM (OCT 2001)

ALTERNATE I (AUG 1984)

The license hereby granted shall remain in full force and effect for the full term of each of the patents referred to in the "License Grant" clause of this contract and any and all patents hereafter issued on applications for patent referred to in such "License Grant" clause.

ALTERNATE II (OCT 2001)

The license hereby granted shall terminate on the _____ day of _____, ____; Provided, however, that said termination shall be without prejudice to the completion of any contract entered into by the Government prior to said date of termination or to the use or disposition thereafter of any articles or materials manufactured by or for the Government under this license.

252.227-7006 License Grant—Running Royalty.

As prescribed at [227.7009-4](#) (a), insert the following clause in patent releases, license agreements, and assignments:

LICENSE GRANT—RUNNING ROYALTY (AUG 1984)

(a) The Contractor hereby grants to the Government, as represented by the Secretary of _____, an irrevocable, nonexclusive, nontransferable license under the following patents, applications for patent, and any patents granted on such applications, and under any patents which may issue as the result of any reissue, division, or continuation thereunder to practice by or cause to be practiced for the Department of _____, throughout the world, any and all of the inventions thereunder in the manufacture and use of any article or material, in the use of any method or process, and in the disposition of any article or material in accordance with law:

U.S. Patent No. _____	Date _____
Application Serial No. _____	Filing Date _____

Together with corresponding foreign patents and foreign applications for patent, insofar as the Contractor has the right to grant licenses thereunder without incurring an obligation to pay royalties or other compensation to others solely on account of such grant.

(b) No rights are granted or implied by the agreement under any other patents other than as provided above or by operation of law.

(c) Nothing contained herein shall limit any rights which the Government may have obtained by virtue of prior contracts or by operation of law or otherwise.

(End of clause)

252.227-7007 License Term—Running Royalty.

As prescribed at [227.7009-4](#) (b), insert the following clause in patent releases, license agreements, and assignments:

LICENSE TERM—RUNNING ROYALTY (AUG 1984)

The license hereby granted shall remain in full force and effect for the full term of each of the patents referred to in the "License Grant" clause of this contract and any and all patents hereafter issued on applications for patent referred to above unless sooner terminated as elsewhere herein provided.

(End of clause)

252.227-7008 Computation of Royalties.

As prescribed at [227.7009](#) - 4(c), insert the following clause in patent releases, license agreements, and assignments:

COMPUTATION OF ROYALTIES (AUG 1984)

Subject to the conditions hereinafter stated, royalties shall accrue to the Contractor under this agreement on all articles or materials embodying, or manufactured by the use of, any or all inventions claimed under any unexpired United States patent licensed herein, upon acceptance thereof by the Department of _____, at the rate of ____ percent of the net selling price of such articles or materials (amount) per (name of item) * whether manufactured by the Government or procured under a

fixed price contract, and at the rate of (amount) per (name of item) acquired or manufactured by a Contractor performing under a cost-reimbursement contract. With respect to such articles or materials made by the Department of _____, “net selling price,” as used in this paragraph, means the actual cost of direct labor and materials without allowance for overhead and supervision.

(End of clause)

*Use bracketed matter as appropriate.

252.227-7009 Reporting and Payment of Royalties.

As prescribed at [227.7009-4](#) (d), insert the following clause in patent releases, license agreements, and assignments:

REPORTING AND PAYMENT OF ROYALTIES (SEP 2019)

(a) The [insert the Contracting Officer or the name of the designated office, in accordance with agency procedures] shall, on or before the sixtieth (60th) day next following the end of each yearly* period ending _____ during which royalties have accrued under this license, deliver to the Contractor, subject to military security regulations, a report in writing furnishing necessary information relative to royalties which have accrued under this contract.

(b) Royalties which have accrued under this contract during the yearly* period ending _____ shall be paid to the Contractor (if appropriations therefor are available or become available) within sixty (60) days next following the receipt of a voucher from the Contractor submitted in accordance with the report referred to in (a) of this clause; *Provided*, that the Government shall not be obligated to pay, in respect of any such yearly period, on account of the combined royalties accruing under this contract directly and under any separate licenses granted pursuant to the “License to Other Government Agencies” clause (if any) of this contract, an amount greater than _____ dollars (\$_____), and if such combined royalties exceed the said maximum yearly obligation, each department or agency shall pay a pro rata share of the said maximum yearly obligation as determined by the proportion its accrued royalties bear to the combined total of accrued royalties.

(End of clause)

*The frequency, date, and length of reporting periods should be selected as appropriate to the particular circumstances of the contract.

252.227-7010 License to Other Government Agencies.

As prescribed at [227.7009-4](#) (e), insert the following clause in patent releases, license agreements, and assignments:

LICENSE TO OTHER GOVERNMENT AGENCIES (AUG 1984)

The Contractor hereby agrees to grant a separate license under the patents, applications for patents, and improvements referred to in the “License Grant” clause of this contract, on the same terms and conditions as appear in this license contract, to any other department or agency of the Government at any time on receipt of a written request for such a license from such department or agency; *Provided*, however, that as to royalties which accrue under such separate licenses, reports and payments shall be made directly to the Contractor by each such other department or agency pursuant to the terms of such separate licenses. The Contractor shall notify the Licensee hereunder promptly upon receipt of any request for license hereunder.

(End of clause)

252.227-7011 Assignments.

As prescribed at [227.7010](#), insert the following clause in assignments.

ASSIGNMENT (AUG 1984)

The Contractor hereby conveys to the Government, as represented by the Secretary of _____, the entire right, title, and interest in and to the following patents (and applications for patent), in and to the inventions thereof, and in and to all claims and demands whatsoever for infringement thereof heretofore accrued, the same to be held and enjoyed by the Government through its duly appointed representatives to the full end of the term of said patents (and to the full end of the terms of all patents which may be granted upon said applications for patent, or upon any division, continuation- in-part or continuation thereof):

U.S. Patent No.			Date
Name of Inventor			
U.S. Application Serial No.		Filing Date	
Name of Inventor			

Together with corresponding foreign patents and applications for patent insofar as the Contractor has the right to assign the same.

(End of clause)

252.227-7012 Patent License and Release Contract.

As prescribed at [227.7012](#), insert the following clause in patent releases, license agreements, and assignments:
 _____ (Contract No.)

PATENT LICENSE AND RELEASE CONTRACT (DEC 2022)

THIS CONTRACT is effective as of the ____ day of [month, year], between the UNITED STATES OF AMERICA (hereinafter called the Government), and _____ (hereinafter called the Contractor), (a corporation organized and existing under the laws of the State of _____), (a partnership consisting of _____), (an individual trading as _____), of the City of _____, in the State of _____.

WHEREAS, the Contractor warrants that it has the right to grant the within license and release, and the Government desires to procure the same, and

WHEREAS, this contract is authorized by law, including 10 U.S.C. 3793.

NOW THEREFORE, in consideration of the grant, release and agreements hereinafter recited, the parties have agreed as follows:

ARTICLE 1. License Grant.*

(Insert the clause at [252.227-7004](#) for a paid up license, or the clause at [252.227-7006](#) for a license on a running royalty basis.)

ARTICLE 2. License Term.*

(Insert the appropriate alternative clause at [252.227-7005](#) for a paid up license, or the clause at [252.227-7007](#) for a license on a running royalty basis.)

ARTICLE 3. Release of Past Infringement.

(Insert the clause at [252.227-7001](#) .)

ARTICLE 4. Non-Estoppel.

(Insert the clause at [252.227-7000](#) .)

ARTICLE 5. Payment.

The Contractor shall be paid the sum of _____ Dollars (\$_____) in full compensation for the rights herein granted and agreed to be granted. (For a license on a running royalty basis, insert the clause at [252.227-7006](#) in accordance with the instructions therein, and also the clause as specified at [252.227-7002](#) and [252.227-7009](#) and [252.227-7010](#) .)

ARTICLE 6. Covenant Against Contingent Fees.

(Insert the clause at FAR 52.203-5.)

ARTICLE 7. Assignment of Claims.

(Insert the clause at FAR 52.232-23.)

ARTICLE 8. Gratuities.

(Insert the clause at FAR 52.203-3.)

ARTICLE 9. Disputes.

(Insert the clause at FAR 52.233-1.)

ARTICLE 10. Successors and Assignees.

This Agreement shall be binding upon the Contractor, its successors** and assignees, but nothing contained in this Article shall authorize an assignment of any claim against the Government otherwise than as permitted by law.

IN WITNESS WHEREOF, the parties hereto have executed this contract.

THE UNITED STATES OF AMERICA

*If only a release is procured, delete this article; if an assignment is procured, use the clause at [252.227-7011](#).

**When the Contractor is an individual, change “successors” to “heirs”; if a partnership, modify appropriately.

(End of clause)

252.227-7013 Rights in Technical Data—Other Than Commercial Products and Commercial Services.

As prescribed in 227.7102-4(b) and [227.7103-6](#) (a), use the following clause:

RIGHTS IN TECHNICAL DATA—OTHER THAN COMMERCIAL
PRODUCTS AND COMMERCIAL SERVICES (AUG 2025)

(a) *Definitions.* As used in this clause—

“Computer data base” means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

“Computer program” means a set of instructions, rules, or routines recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

“Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

“Computer software documentation” means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

“Covered Government support contractor” means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of a program or effort, (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

(1) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(2) Receives access to technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

“Detailed manufacturing or process data” means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

“Developed” means that an item, component, or process exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered “developed,” the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component, or process be actually reduced to practice within the meaning of Title 35 of the United States Code.

“Developed exclusively at private expense” means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a Government contract, or any combination thereof.

(1) Private expense determinations should be made at the lowest practicable level.

(2) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at Government, private, or mixed expense.

“Developed exclusively with government funds” means development was not accomplished exclusively or partially at private expense.

“Developed with mixed funding” means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

“Form, fit, and function data” means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

“Generated” means, with regard to technical data or computer software, first created in the performance of this contract.

“Government purpose” means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations, or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data for commercial purposes or authorize others to do so.

“Government purpose rights” means the rights to—

(1) Use, modify, reproduce, release, perform, display, or disclose technical data within the Government without restriction; and

(2) Release or disclose technical data outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose that data for United States Government purposes.

“Limited rights” means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of the data by persons outside the Government if—

(1) The reproduction, release, disclosure, or use is—

(i) Necessary for emergency repair and overhaul; or

(ii) A release or disclosure to—

(A) A covered Government support contractor in performance of its covered Government support contract for use, modification, reproduction, performance, display, or release or disclosure to a person authorized to receive limited rights technical data; or

(B) A foreign government, of technical data other than detailed manufacturing or process data, when use of such data by the foreign government is in the interest of the Government and is required for evaluational or informational purposes;

(2) The recipient of the technical data is subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(3) The contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

“Small Business Innovation Research/Small Business” Technology Transfer (SBIR/STTR) data means all technical data or computer software developed or generated in the performance of a phase I, II, or III SBIR/STTR contract or subcontract.

“Technical data” means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data financial, administrative, cost or pricing, or management information, or information incidental to contract administration.

“Unlimited rights” means rights to use, modify, reproduce, perform, display, release, or disclose technical data in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

(b) Applicability.

(1) Except as provided in paragraph (b)(2) of this clause—

(i) This clause governs all technical data pertaining to other than commercial products or commercial services or to any portion of a commercial product or commercial service that was developed in any part at Government expense; and

(ii) The clause at Defense Federal Acquisition Regulation Supplement (DFARS) 252.227-7015, Technical Data—Commercial Products and Commercial Services, governs the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense.

(2) The clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, governs technical data that are SBIR/STTR data.

(c) *Rights in technical data.* The Contractor grants or shall obtain for the Government the following royalty free, worldwide, nonexclusive, irrevocable license rights in technical data other than computer software documentation (see the DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause of this contract for rights in computer software documentation):

(1) *Unlimited rights.* The Government shall have unlimited rights in technical data that are—

(i) Data pertaining to an item, component, or process which has been or will be developed exclusively with Government funds;

(ii) Studies, analyses, test data, or similar data produced for this contract, when the study, analysis, test, or similar work was specified as an element of performance;

(iii) Created exclusively with Government funds in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes;

(iv) Form, fit, and function data;

(v) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(vi) Corrections or changes to technical data furnished to the Contractor by the Government;

(vii) Otherwise publicly available or have been released or disclosed by the Contractor or subcontractor without restrictions on further use, release or disclosure, other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(viii) Data in which the Government has obtained unlimited rights under another Government contract or as a result of negotiations; or

(ix) Data furnished to the Government, under this or any other Government contract or subcontract thereunder, with

—
(A) Government purpose license rights or limited rights and the restrictive condition(s) has/have expired; or
(B) Government purpose rights and the Contractor's exclusive right to use such data for commercial purposes has expired.

(2) *Government purpose rights.*

(i) The Government shall have government purpose rights for a 5-year period, or such other period as may be negotiated, in technical data—

(A) That pertain to items, components, or processes developed with mixed funding except when the Government is entitled to unlimited rights in such data as provided in paragraphs (c)(1)(ii) and (c)(1)(iv) through (c)(1)(ix) of this clause; or

(B) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The 5-year period, or such other period as may have been negotiated, shall commence upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the items, components, or processes or creation of the data described in paragraph (c)(2)(i)(B) of this clause. Upon expiration of the 5-year or other negotiated period, the Government shall have unlimited rights in the technical data.

(iii) The Government shall not release or disclose technical data in which it has government purpose rights unless—

(A) Prior to release or disclosure, the intended recipient is subject to the nondisclosure agreement at DFARS 227.7103-7 ; or

(B) The recipient is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at DFARS [252.227-7025](#) , Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(iv) The Contractor has the exclusive right, including the right to license others, to use technical data in which the Government has obtained government purpose rights under this contract for any commercial purpose during the time period specified in the government purpose rights legend prescribed in paragraph (g)(3) of this clause.

(3) *Limited rights.*

(i) Except as provided in paragraphs (c)(1)(ii) and (c)(1)(iv) through (c)(1)(ix) of this clause, the Government shall have limited rights in technical data—

(A) Pertaining to items, components, or processes developed exclusively at private expense and marked with the limited rights legend prescribed in paragraph (g) of this clause; or

(B) Created exclusively at private expense in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The Government shall require a recipient of limited rights data for emergency repair or overhaul to destroy the data and all copies in its possession promptly following completion of the emergency repair/overhaul and to notify the Contractor that the data have been destroyed.

(iii) The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data furnished to the Government with limited rights. However, if the Government desires to obtain additional rights in technical data in which it has limited rights, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All technical data in which the Contractor has granted the Government additional rights shall be listed or described in a license agreement made part of the contract. The license shall enumerate the additional rights granted the Government in such data.

(iv) The Contractor acknowledges that—

(A) Limited rights data are authorized to be released or disclosed to covered Government support contractors;

(B) The Contractor will be notified of such release or disclosure;

(C) The Contractor (or the party asserting restrictions as identified in the limited rights legend) may require each such covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor (or the party asserting restrictions) regarding the covered Government support contractor's use of such data, or alternatively, that the Contractor (or party asserting restrictions) may waive in writing the requirement for a nondisclosure agreement; and

(D) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the limited rights data as set forth in the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(4) *Specifically negotiated license rights.* The standard license rights granted to the Government under paragraphs (c)(1) through (c)(3) of this clause, including the period during which the Government shall have government purpose rights in technical data, may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights than are enumerated in the definition of "limited rights" of this clause. Any rights so negotiated shall be identified in a license agreement made part of this contract.

(5) *Prior government rights.* Technical data that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the preexisting rights, unless—

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data have expired or no longer apply.

(6) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of technical data made in accordance with the definition of “limited rights” or paragraph (c)(2)(iii) of this clause, in accordance with the terms of a license negotiated under paragraph (c)(4) of this clause, or by others to whom the recipient has released or disclosed the data and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data marked with restrictive legend.

(d) *Contractor rights in technical data.* All rights not granted to the Government are retained by the Contractor.

(e) *Third party copyrighted data.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted data in the technical data to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable data of the appropriate scope set forth in paragraph (c) of this clause, and has affixed a statement of the license or licenses obtained on behalf of the Government and other persons to the data transmittal document.

(f) *Identification and delivery of data to be furnished with restrictions on use, release, or disclosure.*

(1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (f)(3) of this clause, technical data that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure are identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any data with restrictive markings unless the data are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the data, in the following format, and signed by an official authorized to contractually obligate the Contractor:

**IDENTIFICATION AND ASSERTION OF RESTRICTIONS ON THE
GOVERNMENT’S USE, RELEASE, OR DISCLOSURE OF TECHNICAL DATA**

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data should be restricted—

Technical Data			Name of Person
to be Furnished	Basis for	Asserted Rights	Asserting
With Restrictions*	Assertion**	Category***	Restrictions****
(LIST)	(LIST)	(LIST)	(LIST)

*If the assertion is applicable to items, components, or processes developed at private expense, identify both the data and each such item, component, or process.

**Generally, the development of an item, component, or process at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose technical data pertaining to such items, components, or processes. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

***Enter asserted rights category (e.g., government purpose license rights from a prior contract, rights in SBIR/STTR data generated under another contract, limited or government purpose rights under this or a prior contract, or specifically negotiated licenses).

****Corporation, individual, or other person, as appropriate.

Date	_____
Printed Name and Title	_____

Signature	_____

(End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures in the DFARS [252.227-7037](#), Validation of Asserted Restrictions on Technical Data, clause of this contract.

(g) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data to be delivered under this contract by marking the deliverable data subject to restriction. Except as provided in paragraph (g)(6) of this clause, only the following legends are authorized under this contract: the government purpose rights legend at paragraph (g)(3) of this clause; the limited rights legend at paragraph (g)(4) of this clause; the special license rights legend at paragraph (g) (5) of this clause; and a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all technical data that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. Reproductions of technical data or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) Omitted markings.

(i) Technical data delivered or otherwise provided under this contract without restrictive markings will be presumed to have been delivered with unlimited rights. To the extent practicable, if the Contractor has requested permission (see paragraph (g)(2)(ii) of this clause) to correct an inadvertent omission of markings, the Contracting Officer will not release or disclose the technical data pending evaluation of the request.

(ii) The Contractor may request permission to have conforming and justified restrictive markings placed on unmarked technical data at its expense. The request must be received by the Contracting Officer within 6 months following the furnishing or delivery of such technical data, or any extension of that time approved by the Contracting Officer. The Contractor shall—

(A) Identify the technical data that should have been marked;

(B) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of technical data contained in this clause; and

(C) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the technical data made prior to the addition of the marking or resulting from the omission of the marking.

(3) *Government purpose rights markings.* Data delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

GOVERNMENT PURPOSE RIGHTS

	Contract Number
	Contractor Name
	Contractor Address
	Expiration Date

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (c)(2) of the DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(4) *Limited rights markings.* Data delivered or otherwise furnished to the Government with limited rights shall be marked as follows:

LIMITED RIGHTS

	Contract Number
--	-----------------

	Contractor Name
	Contractor Address

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (c)(3) of the DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, clause contained in the above identified contract. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor.

(End of legend)

(5) *Special license rights markings.*

(i) Data in which the Government's rights stem from a specifically negotiated license shall be marked as follows:

SPECIAL LICENSE RIGHTS

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data are restricted by Contract No. ____ (Insert contract number) ____, License No. ____ (Insert license identifier) _____. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (c)(5) of this clause).

(6) *Preexisting data markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data deliverable under this contract, and those restrictions are still applicable, the Contractor may mark such data with the appropriate restrictive legend for which the data qualified under the prior contract or license. The Contractor shall follow the marking procedures in paragraph (g)(1) of this clause.

(h) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver technical data with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data delivered under this contract.

(i) *Removal of unjustified and nonconforming markings—*

(1) *Unjustified technical data markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data furnished or to be furnished under this contract are contained in the DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, clause of this contract. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the procedures in the Validation of Asserted Restrictions on Technical Data clause of this contract, a restrictive marking is determined to be unjustified.

(2) *Nonconforming technical data markings.* A nonconforming marking is a marking placed on technical data delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the DFARS [252.227-7037](#), Validation of Asserted Restrictions on Technical Data, clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking and the Contractor fails to remove or correct such marking within 60 days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming marking.

(j) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(k) *Limitation on charges for rights in technical data.*

(1) The Contractor shall not charge to this contract any cost, including, but not limited to, license fees, royalties, or similar charges, for rights in technical data to be delivered under this contract when—

(i) The Government has acquired, by any means, the same or greater rights in the data; or

(ii) The data are available to the public without restrictions.

(2) The limitation in paragraph (k)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data will be delivered.

(l) *Subcontractors or suppliers.*

(1) The Contractor shall ensure that the rights afforded its subcontractors and suppliers under 10 U.S.C.3771–3775, 10 U.S.C. 3781–3786, 15 U.S.C. 638(j)(1)(B)(iii) and (v), and the identification, assertion, and delivery processes of paragraph (f) of this clause are recognized and protected.

(2) Whenever any technical data for other than commercial products or commercial services, or for commercial products or commercial services developed in any part at Government expense, are to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use the following clause(s) in the subcontract or other contractual instrument, including subcontracts or other contractual instruments for commercial products or commercial services, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties:

(i)(A) Except as provided in paragraph (l)(2)(ii) of this clause, use this clause to govern the technical data pertaining to other than commercial products and commercial services or to any portion of a commercial product or commercial service that was developed in any part at Government expense.

(B) Use the clause at DFARS [252.227-7015](#), Technical Data—Commercial Products and Commercial Services, to govern the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense.

(ii) Use the clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, to govern technical data that are SBIR/STTR data.

(3) No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher-tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data.

(4) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher-tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such data directly to the Government, rather than through a higher-tier contractor, subcontractor, or supplier.

(5) The Contractor and higher-tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data from their subcontractors or suppliers.

(6) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

ALTERNATE I (JAN 2025)

As prescribed in [227.7103-6\(b\)\(1\)](#), add the following paragraph (m) to the basic clause:

(m) *Publication for sale.*

(1) This paragraph only applies to technical data in which the Government has obtained unlimited rights or a license to make an unrestricted release of technical data.

(2) The Government shall not publish a deliverable technical data item or items identified in this contract as being subject to paragraph (m) of this clause or authorize others to publish such data on its behalf if, prior to publication for sale by the Government and within 24 months following the date specified in this contract for delivery of such data or the removal of any national security or export control restrictions, whichever is later, the Contractor publishes that item or items for sale and promptly notifies the Contracting Officer of such publication(s). Any such publication shall include a notice identifying the number of this contract and the Government's rights in the published data.

(3) This limitation on the Government's right to publish for sale shall continue as long as the data are reasonably available to the public for purchase.

ALTERNATE II (JAN 2025)

As prescribed in [227.7103-6\(b\)\(2\)](#), add the following definition of “Vessel design” in alphabetical order to paragraph (a) and add paragraph (c)(7) to the basic clause:

(a) *Vessel design* means the design of a vessel, boat, or craft, and its components, including the hull, decks, superstructure, and the exterior surface shape of all external shipboard equipment and systems. The term includes designs covered by 10 U.S.C. 8687, and designs protectable under 17 U.S.C. 1301, *et seq.*

(c)(7) *Vessel designs*. For a vessel design (including a vessel design embodied in a useful article) that is developed or delivered under this contract, the Government shall have the right to make and have made any useful article that embodies the vessel design, to import the article, to sell the article, and to distribute the article for sale or to use the article in trade, to the same extent that the Government is granted rights in the technical data pertaining to the vessel design.

252.227-7014 Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation.

As prescribed in [227.7203-6](#) (a)(1), use the following clause:

RIGHTS IN OTHER THAN COMMERCIAL COMPUTER SOFTWARE AND OTHER THAN COMMERCIAL COMPUTER SOFTWARE DOCUMENTATION (AUG 2025)

(a) *Definitions*. As used in this clause—

“Commercial computer software” means software developed or regularly used for non-governmental purposes which—

- (1) Has been sold, leased, or licensed to the public;
- (2) Has been offered for sale, lease, or license to the public;
- (3) Has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this contract; or
- (4) Satisfies a criterion expressed in paragraph (1), (2), or (3) of this definition and would require only minor modification to meet the requirements of this contract.

“Computer database” means a collection of recorded data in a form capable of being processed by a computer. The term does not include computer software.

“Computer program” means a set of instructions, rules, or routines, recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

“Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer databases or computer software documentation.

“Computer software documentation” means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

“Covered Government support contractor” means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

- (1) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and
- (2) Receives access to technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

“Developed” means that—

- (1) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;
- (2) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or
- (3) Computer software documentation required to be delivered under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

“Developed exclusively at private expense” means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(1) Private expense determinations should be made at the lowest practicable level.

(2) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

“Developed exclusively with government funds” means development was not accomplished exclusively or partially at private expense.

“Developed with mixed funding” means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

“Generated” means, with regard to technical data or computer software, first created in the performance of this contract.

“Government purpose” means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation for commercial purposes or authorize others to do so.

“Government purpose rights” means the rights to—

(1) Use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation within the Government without restriction; and

(2) Release or disclose computer software or computer software documentation outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose the software or documentation for United States government purposes.

“Minor modification” means a modification that does not significantly alter the nongovernmental function or purpose of the software or is of the type customarily provided in the commercial marketplace.

“Other than commercial computer software” means software that does not qualify as commercial computer software under the definition of “commercial computer software” of this clause.

“Restricted rights” apply only to other than commercial computer software and mean the Government's rights to—

(1) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;

(2) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;

(3) Make a reasonable number of copies of the computer software required for the purposes of safekeeping (archive), backup, modification, or other activities authorized in paragraphs (1), (2), and (4) through (7) of this definition;

(4) Modify computer software provided that the Government may—

(i) Use the modified software only as provided in paragraphs (1) and (3) of this definition; and

(ii) Not release or disclose the modified software except as provided in paragraphs (2), (5), (6), and (7) of this definition;

(5) Use, and permit contractors or subcontractors performing service contracts (see 37.101 of the Federal Acquisition Regulation) in support of this or a related contract to use computer software to diagnose and correct deficiencies in a computer program, to modify computer software to enable a computer program to be combined with, adapted to, or merged with other computer programs or when necessary to respond to urgent tactical situations, provided that—

(i) The Government notifies the party which has granted restricted rights that a release or disclosure to particular contractors or subcontractors was made;

(ii) Such contractors or subcontractors are subject to the use and nondisclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS) or are Government contractors receiving access to the software for performance of a Government contract that contains the clause at DFARS252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(iii) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(iv) Such use is subject to the limitations in paragraphs (1) through (4) of this definition;

(6) Use, and permit contractors or subcontractors performing emergency repairs or overhaul of items or components of items procured under this or a related contract to use, the computer software when necessary to perform or overhaul, or to modify the computer software to reflect the emergency repairs or overhaul made, provided that—

(i) The intended recipient is subject to the use and nondisclosure agreement at DFARS 227.7103-7 or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(ii) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(iii) Such use is subject to the limitations in paragraphs (1) through (4) of this definition; and

(7) Use, modify, reproduce, perform, display, or release or disclose computer software to a person authorized to receive restricted rights computer software for management and oversight of a program or effort, and permit covered Government support contractors in the performance of covered Government support contracts that contain the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, to use, modify, reproduce, perform, display, or release or disclose the computer software to a person authorized to receive restricted rights computer software, provided that—

(i) The Government shall not permit the covered Government support contractor to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(ii) Such use is subject to the limitations in paragraphs (1) through (4) of this definition.

“Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) data” means all technical data or computer software developed or generated in the performance of a phase I, II, or III SBIR/STTR contract or subcontract.

“Unlimited rights” means rights to use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation in whole or in part, in any manner and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Applicability.* This clause governs all other than commercial computer software or other than commercial computer software documentation, except that the clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software--Small Business Innovation Research Program and Small Business Technology Transfer Program, governs any computer software or computer software documentation that is SBIR/STTR data.

(c) *Rights in computer software or computer software documentation.* The Contractor grants or shall obtain for the Government the following royalty free, worldwide, nonexclusive, irrevocable license rights in other than commercial computer software or computer software documentation. All rights not granted to the Government are retained by the Contractor.

(1) *Unlimited rights.* The Government shall have unlimited rights in—

(i) Computer software developed exclusively with Government funds;

(ii) Computer software documentation required to be delivered under this contract;

(iii) Corrections or changes to computer software or computer software documentation furnished to the Contractor by the Government;

(iv) Computer software or computer software documentation that is otherwise publicly available or has been released or disclosed by the Contractor or subcontractor without restriction on further use, release or disclosure, other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(v) Computer software or computer software documentation obtained with unlimited rights under another Government contract or as a result of negotiations; or

(vi) Computer software or computer software documentation furnished to the Government, under this or any other Government contract or subcontract thereunder with—

(A) Restricted rights in computer software, limited rights in technical data, or government purpose license rights and the restrictive conditions have expired; or

(B) Government purpose rights and the Contractor's exclusive right to use such software or documentation for commercial purposes has expired.

(2) *Government purpose rights.*

(i) Except as provided in paragraph (c)(1) of this clause, the Government shall have government purpose rights in computer software development with mixed funding.

(ii) Government purpose rights shall remain in effect for a period of 5 years unless a different period has been negotiated. Upon expiration of the 5-year or other negotiated period, the Government shall have unlimited rights in the computer software or computer software documentation. The government purpose rights period shall commence upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the computer software.

(iii) The Government shall not release or disclose computer software in which it has government purpose rights to any other person unless—

(A) Prior to release or disclosure, the intended recipient is subject to the use and nondisclosure agreement at DFARS [227.7103-7](#) ; or

(B) The recipient is a Government contractor receiving access to the software or documentation for performance of a Government contract that contains the clause at DFARS [252.227-7025](#) , Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(3) *Restricted rights.*

(i) The Government shall have restricted rights in other than commercial computer software required to be delivered or otherwise provided to the Government under this contract that were developed exclusively at private expense.

(ii) The Contractor, its subcontractors, or suppliers are not required to provide the Government additional rights in other than commercial computer software delivered or otherwise provided to the Government with restricted rights. However, if the Government desires to obtain additional rights in such software, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All other than commercial computer software in which the Contractor has granted the Government additional rights shall be listed or described in a license agreement made part of the contract (see paragraph (c)(4) of this clause). The license shall enumerate the additional rights granted the Government.

(iii) The Contractor acknowledges that—

(A) Restricted rights computer software is authorized to be released or disclosed to covered Government support contractors;

(B) The Contractor will be notified of such release or disclosure;

(C) The Contractor (or the party asserting restrictions, as identified in the restricted rights legend) may require each such covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor (or the party asserting restrictions) regarding the covered Government support contractor's use of such software, or alternatively, that the Contractor (or party asserting restrictions) may waive in writing the requirement for a nondisclosure agreement; and

(D) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the restricted rights software as set forth in the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(4) *Specifically negotiated license rights.*

(i) The standard license rights granted to the Government under paragraphs (c)(1) through (3) of this clause, including the period during which the Government shall have government purpose rights in computer software, may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights in computer software than are enumerated in the definition of "restricted rights" of this clause, or lesser rights in computer software documentation than are enumerated in the definition of "limited rights" of the DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, clause of this contract.

(ii) Any rights so negotiated shall be identified in a license agreement made part of this contract.

(5) *Prior Government rights.* Computer software or computer software documentation that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the preexisting rights, unless—

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data have expired or no longer apply.

(6) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of computer software made in accordance with the definition of "restricted rights" or paragraph (c)(2)(iii) of this clause, in accordance with the terms of a license negotiated under paragraph (c)(4) of this clause, or by others to whom the recipient has released or disclosed the software, and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor software marked with restrictive legends.

(d) *Rights in derivative computer software or computer software documentation.* The Government shall retain its rights in the unchanged portions of any computer software or computer software documentation delivered under this contract that the Contractor uses to prepare, or includes in, derivative computer software or computer software documentation.

(e) *Third party copyrighted computer software or computer software documentation.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted computer software or computer software documentation in the software or documentation to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable software or documentation of the appropriate scope set forth in paragraph (c) of this clause, and prior to delivery of such—

(1) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer; or

(2) Computer software documentation, has affixed to the transmittal document a statement of the license rights obtained.

(f) *Identification and delivery of computer software and computer software documentation to be furnished with restrictions on use, release, or disclosure.*

(1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (f)(3) of this clause, computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any software with restrictive markings unless the software is listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled data for delivery of the software, in the following format, and signed by an official authorized to contractually obligate the Contractor.

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Computer Software.

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following computer software should be restricted:

Computer Software to be Furnished With Restrictions ¹	Basis for Assertion ²	Asserted Rights Category ³	Name of Person Asserting Restrictions ⁴
(LIST)	(LIST)	(LIST)	(LIST)

¹Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose computer software.

²Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

³Enter asserted rights category (e.g., restricted or government purpose rights in computer software, government purpose license rights from a prior contract, rights in SBIR/STTR data generated under another contract, or specifically negotiated licenses).

⁴Corporation, individual, or other person, as appropriate.

Date	_____
Printed Name and Title	_____

Signature	_____

(End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's

assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures in the DFARS 252.227-7019, Validation of Asserted Restrictions—Computer Software, clause of this contract.

(g) *Marking requirements*. The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software by marking the deliverable software or documentation subject to restriction. Except as provided in paragraph (g)(6) of this clause, only the following legends are authorized under this contract: the government purpose rights legend at paragraph (g) (3) of this clause; the restricted rights legend at paragraph (g) (4) of this clause; the special license rights legend at paragraph (g) (5) of this clause; and a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions*. The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all computer software that qualify for such markings. The authorized legends shall be placed on the transmitted document or software storage container and each page, or portions thereof, of printed material containing computer software for which restrictions are asserted. Computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of computer software, or any portions thereof subject to asserted restrictions, shall also reproduce the asserted restrictions.

(2) *Omitted markings*.

(i) Computer software or computer software documentation delivered or otherwise provided under this contract without restrictive markings will be presumed to have been delivered with unlimited rights. To the extent practicable, if the Contractor has requested permission (see paragraph (g)(2)(ii) of this clause) to correct an inadvertent omission of markings, the Contracting Officer will not release or disclose the software or documentation pending evaluation of the request.

(ii) The Contractor may request permission to have conforming and justified restrictive markings placed on unmarked computer software or computer software documentation at its expense. The request must be received by the Contracting Officer within 6 months following the furnishing or delivery of such software or documentation, or any extension of that time approved by the Contracting Officer. The Contractor shall—

(A) Identify the software or documentation that should have been marked;

(B) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of computer software or computer software documentation contained in this clause; and

(C) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the software or documentation made prior to the addition of the marking or resulting from the omission of the marking.

(3) *Government purpose rights markings*. Computer software delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

GOVERNMENT PURPOSE RIGHTS

Contract Number	
Contractor Name	
Contractor Address	
Expiration Date	

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (c)(2) of the DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of the software or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(3) *Restricted rights markings*. Software delivered or otherwise furnished to the Government with restricted rights shall be marked with the following legend:

RESTRICTED RIGHTS

Contract Number	
Contractor Name	
Contractor Address	

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (c)(3) of the DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause contained in the above identified contract. Any reproduction of computer software or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such software must promptly notify the above named Contractor.

(End of legend)

(5) *Special license rights markings.*

(i) Computer software or computer documentation in which the Government's rights stem from a specifically negotiated license shall be marked as follows:

SPECIAL LICENSE RIGHTS

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by Contract Number *[Insert contract number]* ____, License Number ____ *[Insert license identifier]* _____. Any reproduction of computer software, computer software documentation, or portions thereof marked with this legend must also reproduce the markings

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (c)(5) of this clause).

(6) *Preexisting markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, release, perform, display, or disclose computer software or computer software documentation and those restrictions are still applicable, the Contractor may mark such software or documentation with the appropriate restrictive legend for which the software qualified under the prior contract or license. The Contractor shall follow the marking procedures in paragraph (g)(1) of this clause.

(h) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver computer software or computer software documentation with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on computer software or computer software documentation delivered under this contract.

(i) *Removal of unjustified and nonconforming markings.*

(1) *Unjustified computer software or computer software documentation markings.* The rights and obligations of the parties regarding the validation of restrictive markings on computer software or computer software documentation furnished or to be furnished under this contract are contained in the DFARS [252.227-7019](#), Validation of Asserted Restrictions—Computer Software, and the DFARS [252.227-7037](#), Validation of Asserted Restrictions on Technical Data, clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming computer software or computer software documentation markings.* A nonconforming marking is a marking placed on computer software or computer software documentation delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the DFARS [252.227-7019](#), Validation of Asserted Restrictions—Computer Software, or the DFARS [252.227-7037](#), Validation of Asserted Restrictions on Technical Data, clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within 60 days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(j) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(k) *Limitation on charges for rights in computer software or computer software documentation.*

(1) The Contractor shall not charge to this contract any cost, including but not limited to license fees, royalties, or similar charges, for rights in computer software or computer software documentation to be delivered under this contract when

- (i) The Government has acquired, by any means, the same or greater rights in the software or documentation; or
- (ii) The software or documentation are available to the public without restrictions.

(2) The limitation in paragraph (k)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier computer software or computer software documentation, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the software or documentation will be delivered.

(l) *Subcontractors or suppliers.*

(1)(i) Except as provided in paragraph (l)(1)(ii) of this clause, whenever any other than commercial computer software or other than commercial computer software documentation is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this clause in its subcontracts or other contractual instruments, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties.

(ii) The Contractor shall use the clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, to govern computer software or computer software documentation that is SBIR/STTR data.

(iii) No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's computer software or computer software documentation.

(2) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in computer software or computer software documentation from their subcontractors or suppliers.

(3) The Contractor shall ensure that subcontractor or supplier rights are recognized and protected in the identification, assertion, and delivery processes required by paragraph (f) of this clause.

(4) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in computer software or computer software documentation as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

ALTERNATE I (JAN 2025)

As prescribed in [227.7203-6](#) (a)(2), add the following paragraph (l) to the basic clause:

(m) *Publication for sale.*

(1) This paragraph only applies to computer software or computer software documentation in which the Government has obtained unlimited rights or a license to make an unrestricted release of the software or documentation.

(2) The Government shall not publish a deliverable item or items of computer software or computer software documentation identified in this contract as being subject to paragraph (m) of this clause or authorize others to publish such software or documentation on its behalf if, prior to publication for sale by the Government and within 24 months following the date specified in this contract for delivery of such software or documentation, or the removal of any national security or export control restrictions, whichever is later, the Contractor publishes that item or items for sale and promptly notifies the Contracting Officer of such publication(s). Any such publication shall include a notice identifying the number of this contract and the Government's rights in the published software or documentation.

(3) This limitation on the Government's right to publish for sale shall continue as long as the software or documentation are reasonably available to the public for purchase.

252.227-7015 Technical Data - Commercial Products and Commercial Services.

As prescribed in [227.7102-4](#) (a)(1), use the following clause:

TECHNICAL DATA—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (JAN 2025)

(a) *Definitions.* As used in this clause—

“Commercial product and commercial service” includes commercial components and commercial processes but does not include commercial computer software.

“Covered Government support contractor” means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government’s management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

(1) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(2) Receives access to technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

“Form, fit, and function data” means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

“Technical data” means recorded information, regardless of the form or method of recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or financial, administrative, cost or pricing, or management information, or information incidental to contract administration.

(b) *Applicability.* This clause governs the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense. If the commercial product or commercial service was developed in any part at Government expense—

(1) The clause at Defense Federal Acquisition Regulation Supplement (DFARS) 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, governs technical data that are generated during any portion of performance that is covered under the Small Business Innovation Research (SBIR) Program or Small Business Technology Transfer (STTR) Program; and

(2) The clause at DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, governs the technical data pertaining to any portion of a commercial product or commercial service that was developed in any part at Government expense and is not covered under the SBIR or STTR program.

(c) *License.*

(1) The Government shall have the unrestricted right to use, modify, reproduce, release, perform, display, or disclose technical data, and to permit others to do so, that—

(i) Have been provided to the Government or others without restrictions on use, modification, reproduction, release, or further disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(ii) Are form, fit, and function data;

(iii) Are a correction or change to technical data furnished to the Contractor by the Government;

(iv) Are necessary for operation, maintenance, installation, or training (other than detailed manufacturing or process data); or

(v) Have been provided to the Government under a prior contract or licensing agreement through which the Government has acquired the rights to use, modify, reproduce, release, perform, display, or disclose the data without restrictions.

(2) Except as provided in paragraph (c)(1) of this clause, the Government may use, modify, reproduce, release, perform, display, or disclose technical data within the Government only. The Government shall not—

(i) Use the technical data to manufacture additional quantities of the commercial products; or

(ii) Release, perform, display, disclose, or authorize use of the technical data outside the Government without the Contractor’s written permission unless a release, disclosure, or permitted use is necessary for emergency repair or overhaul of the commercial products furnished under this contract, or for performance of work by covered Government support contractors.

(3) The Contractor acknowledges that—

(i) Technical data covered by paragraph (c)(2) of this clause are authorized to be released or disclosed to covered Government support contractors;

(ii) The Contractor will be notified of such release or disclosure;

(iii) The Contractor (or the party asserting restrictions as identified in a restrictive legend) may require each such covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor (or the party asserting restrictions) regarding the covered Government support contractor's use of such data, or alternatively, that the Contractor (or party asserting restrictions) may waive in writing the requirement for an nondisclosure agreement; and

(iv) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the data as set forth in the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(d) *Additional license rights.* The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data. However, if the Government desires to obtain additional rights in technical data, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All technical data in which the Contractor has granted the Government additional rights shall be listed or described in a special license agreement made part of this contract. The license shall enumerate the additional rights granted the Government in such data.

(e) *Release from liability.* The Contractor agrees that the Government, and other persons to whom the Government may have released or disclosed technical data delivered or otherwise furnished under this contract, shall have no liability for any release or disclosure of technical data that are not marked to indicate that such data are licensed data subject to use, modification, reproduction, release, performance, display, or disclosure restrictions.

(f) *Subcontractors or suppliers.*

(1) The Contractor shall recognize and protect the rights afforded its subcontractors and suppliers under 10 U.S.C. 3771–3775, 10 U.S.C. 3781–3786, and 15 U.S.C. 638(j)(1)(B)(iii) and (v).

(2) Whenever any technical data related to commercial products or commercial services developed in any part at private expense will be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this clause in the subcontract or other contractual instrument, including subcontracts and other contractual instruments for commercial products or commercial services, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. This clause will govern the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense, and the Contractor shall use the following clauses to <https://www.acq.osd.mil/dpap/dars/dfars/html/current/252227.htm#252.227-7013> govern the technical data pertaining to any portion of a commercial product or commercial service that was developed in any part at Government expense:

(i) Use the clause at DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, to govern any technical data that are not generated during any portion of performance that is covered under the SBIR or STTR program.

(ii) Use the clause at 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, to govern technical data that are generated during any portion of performance that is covered under the SBIR or STTR program.

(End of clause)

Alternate I (JAN 2025)

As prescribed in 227.7102-4(a)(2), add the following definition of “Vessel design” in alphabetical order to paragraph (a) and add paragraph (c)(4) to the basic clause:

(a) "Vessel design" means the design of a vessel, boat, or craft, and its components, including the hull, decks, superstructure, and the exterior surface shape of all external shipboard equipment and systems. The term includes designs covered by 10 U.S.C. 8687, and designs protectable under 17 U.S.C. 1301, *et seq.*

(c)(4) *Vessel designs.* For a vessel design (including a vessel design embodied in a useful article) that is developed or delivered under this contract, the Government shall have the right to make and have made any useful article that embodies the vessel design, to import the article, to sell the article, and to distribute the article for sale or to use the article in trade, to the same extent that the Government is granted rights in the technical data pertaining to the vessel design.

252.227-7016 Rights in Bid or Proposal Information.

As prescribed in [227.7103-6\(e\)\(1\)](#), [227.7104](#) -4(b)(1), or [227.7203-6\(b\)](#), use the following clause:

RIGHTS IN BID OR PROPOSAL INFORMATION (JAN 2023)

(a) *Definitions.* As used in this clause—

“Computer software” is defined in—

(1) The 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause of this contract; or

(2) If this is a contract awarded under the Small Business Innovation Research Program or Small Business Technology Transfer Program, the 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause of this contract.

“Technical data” is defined in—

(1) The 252.227-7013, Rights in Technical Data— Other Than Commercial Products and Commercial Services, clause of this contract; or

(2) If this is a contract awarded under the Small Business Innovation Research Program or Small Business Technology Transfer Program, the 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause of this contract.

(b) Government rights prior to contract award. By submission of its offer, the Offeror agrees that the Government—

(1) May reproduce the bid or proposal, or any portions thereof, to the extent necessary to evaluate the offer.

(2) Except as provided in paragraph (d) of this clause, shall use information contained in the bid or proposal only for evaluational purposes and shall not disclose, directly or indirectly, such information to any person including potential evaluators, unless that person has been authorized by the head of the agency, his or her designee, or the Contracting Officer to receive such information.

(c) *Government rights subsequent to contract award.* The Contractor agrees—

(1) Except as provided in paragraphs (c)(2), (d), and (e) of this clause, the Government shall have the rights to use, modify, reproduce, release, perform, display, or disclose information contained in the Contractor's bid or proposal within the Government. The Government shall not release, perform, display, or disclose such information outside the Government without the Contractor's written permission.

(2) The Government's right to use, modify, reproduce, release, perform, display, or disclose information that is technical data or computer software required to be delivered under this contract are determined by the Defense Federal Acquisition Regulation Supplement (DFARS) 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services; DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation; or DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause of this contract.

(d) *Government-furnished information.* The Government's rights with respect to technical data or computer software contained in the Contractor's bid or proposal that were provided to the Contractor by the Government are subject only to restrictions on use, modification, reproduction, release, performance, display, or disclosure, if any, imposed by the developer or licensor of such data or software.

(e) *Information available without restrictions.* The Government's rights to use, modify, reproduce, release, perform, display, or disclose information contained in a bid or proposal, including technical data or computer software, and to permit others to do so, shall not be restricted in any manner if such information has been released or disclosed to the Government or to other persons without restrictions other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the information to another party or the sale or transfer of some or all of a business entity or its assets to another party.

(f) *Flowdown.* The Contractor shall include this clause in all subcontracts or similar contractual instruments and require its subcontractors or suppliers to do so without alteration, except to identify the parties.

(End of clause)

252.227-7017 Identification and Assertion of Use, Release, or Disclosure Restrictions.

As prescribed in [227.7103-3\(b\)](#), [227.7104 -4\(b\)\(2\)](#), or [227.7203-3\(a\)](#), use the following provision:

IDENTIFICATION AND ASSERTION OF USE, RELEASE, OR DISCLOSURE RESTRICTIONS (JAN 2025)

(a) Definitions. As used in this provision—

“Computer software” is defined in—

(1) The 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause of this solicitation; or

(2) If this solicitation contemplates a contract under the Small Business Innovation Research Program or Small Business Technology Transfer Program, the 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause of this solicitation.

“SBIR/STTR data” is defined in the 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause of this solicitation.

“Technical data” is defined in—

(1) The 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, clause of this solicitation; or

(2) If this solicitation contemplates a contract under the Small Business Innovation Research Program or Small Business Technology Transfer Program, the 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause of this solicitation.

(b) The identification and assertion requirements in this provision apply only to technical data, including computer software documentation, or computer software to be delivered with other than unlimited rights. For contracts to be awarded under the Small Business Innovation Research (SBIR) Program or Small Business Technology Transfer (STTR) Program, these requirements apply to SBIR/STTR data that will be generated under the resulting contract and will be delivered with SBIR/STTR data rights and to any other data that will be delivered with other than unlimited rights. Notification and identification are not required for restrictions based solely on copyright.

(c) Offers submitted in response to this solicitation shall identify, to the extent known at the time an offer is submitted to the Government, the technical data or computer software that the Offeror, its subcontractors or suppliers, or potential subcontractors or suppliers, assert should be furnished to the Government with restrictions on use, release, or disclosure.

(d) The Offeror's assertions, including the assertions of its subcontractors or suppliers or potential subcontractors or suppliers[,] shall be submitted as an attachment to its offer in the following format, dated and signed by an official authorized to contractually obligate the Offeror:

Identification and Assertion of Restrictions on the Government's
Use, Release, or Disclosure of Technical Data or Computer Software.

The Offeror asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

Technical Data or Computer Software to be Furnished With Restrictions* ^[1]	Basis for Assertion** ^[2]	Asserted Rights Category*** ^[3]	Name of Person Asserting Restrictions**** ^[4]
(LIST)***** ^[5]	(LIST)	(LIST)	(LIST)

* ^[1] For technical data (other than computer software documentation) pertaining to items, components, or processes developed at private expense, identify both the deliverable technical data and each such item, component, or process. For computer software or computer software documentation identify the software or documentation.

** ^[2] Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions. For technical data, other than computer software documentation, development refers to development of the item, component, or process to which the data pertain. The Government's rights in computer software documentation generally may not be restricted. For computer software, development refers to the software. Indicate whether development was accomplished exclusively or partially at private expense. If development was not accomplished at private expense, or for computer software documentation, enter the specific basis for asserting restrictions.

*** [3] Enter asserted rights category (e.g., government purpose license rights from a prior contract, rights in SBIR data generated under another contract, limited, restricted, or government purpose rights under this or a prior contract, or specially negotiated licenses).

**** [4] Corporation, individual, or other person, as appropriate.

***** [5] Enter “none” when all data or software will be submitted without restrictions.

Date	_____
Printed Name and Title	_____

Signature	_____

(End of identification and assertion)

(e) An offeror's failure to submit, complete, or sign the notification and identification required by paragraph (d) of this provision with its offer may render the offer ineligible for award.

(f) If the Offeror is awarded a contract, the assertions identified in paragraph (d) of this provision shall be listed in an attachment to that contract. Upon request by the Contracting Officer, the Offeror shall provide sufficient information to enable the Contracting Officer to evaluate any listed assertion.

(End of provision)

252.227-7018 Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program.

As prescribed in 227.7104-4(a)(1), use the following clause:

RIGHTS IN OTHER THAN COMMERCIAL TECHNICAL DATA AND COMPUTER SOFTWARE—SMALL BUSINESS INNOVATION RESEARCH PROGRAM AND SMALL BUSINESS TECHNOLOGY TRANSFER PROGRAM (AUG 2025)

(a) *Definitions.* As used in this clause -

“Commercial computer software” means software developed or regularly used for nongovernmental purposes which—

(1) Has been sold, leased, or licensed to the public;

(2) Has been offered for sale, lease, or license to the public;

(3) Has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this contract; or

(4) Satisfies a criterion expressed in paragraph (1), (2), or (3) of this definition and would require only minor modification to meet the requirements of this contract.

“Computer database” means a collection of recorded data in a form capable of being processed by a computer. The term does not include computer software.

“Computer program” means a set of instructions, rules, or routines, recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

“Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer databases or computer software documentation.

“Computer software documentation” means owner’s manuals, user’s manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

“Covered Government support contractor” means a contractor (other than a litigation support contractor covered by [252.204-7014](#)) under a contract, the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government’s management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), provided that the contractor—

(1) Is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

(2) Receives access to the technical data or computer software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

“Detailed manufacturing or process data” means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

“Developed” means—

(1) (Applicable to technical data other than computer software documentation.) An item, component, or process exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered “developed,” the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component or process be actually reduced to practice within the meaning of Title 35 of the United States Code;

(2) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(3) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or

(4) Computer software documentation required to be delivered under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

“Developed exclusively at private expense” means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(1) Private expense determinations should be made at the lowest practicable level.

(2) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

“Developed exclusively with government funds” means development was not accomplished exclusively or partially at private expense.

“Developed with mixed funding” means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

“Form, fit, and function data” means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

“Generated” means, with respect to technical data or computer software, first created in the performance of this contract.

“Government purpose” means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software for commercial purposes or authorize others to do so.

“Government purpose rights” means the rights to—

(1) Use, modify, reproduce, release, perform, display, or disclose technical data or computer software within the Government without restriction; and

(2) Release or disclose technical data or computer software outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose that data for United States Government purposes.

“Limited rights” means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize

the technical data to be used by another party, except that the Government may reproduce, release, or disclose such data or authorize the use or reproduction of the data by persons outside the Government if -

- (1) The reproduction, release, disclosure, or use is -
 - (i) Necessary for emergency repair and overhaul; or
 - (ii) A release or disclosure to -

(A) A covered Government support contractor in performance of its covered Government support contracts for use, modification, reproduction, performance, display, or release or disclosure to a person authorized to receive limited rights technical data; or

(B) A foreign government, of technical data other than detailed manufacturing or process data, when use of such data by the foreign government is in the interest of the Government and is required for evaluational or informational purposes;

(2) The recipient of the technical data is subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(3) The Contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

“Minor modification” means a modification that does not significantly alter the nongovernmental function or purpose of computer software or is of the type customarily provided in the commercial marketplace.

“Other than commercial computer software” means software that does not qualify as commercial computer software under the definition of “commercial computer software” of this clause.

“Restricted rights” apply only to other than commercial computer software and mean the Government's rights to -

- (1) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;
- (2) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;
- (3) Make a reasonable number of copies of the computer software required for the purposes of safekeeping (archive), backup, modification, or other activities authorized in paragraphs (1), (2), and (4) through (7) of this definition;
- (4) Modify computer software provided that the Government may -
 - (i) Use the modified software only as provided in paragraphs (1) and (3) of this definition; and
 - (ii) Not release or disclose the modified software except as provided in paragraphs (2), (5), (6), and (7) of this definition;

(5) Use, and permit contractors or subcontractors performing service contracts (see 37.101 of the Federal Acquisition Regulation) in support of this or a related contract to use computer software to diagnose and correct deficiencies in a computer program, to modify computer software to enable a computer program to be combined with, adapted to, or merged with other computer programs or when necessary to respond to urgent tactical situations, provided that -

- (i) The Government notifies the party which has granted restricted rights that any such release or disclosure to particular contractors or subcontractors was made;
- (ii) Such contractors or subcontractors are subject to the nondisclosure agreement at [227.7103-7](#) of the Defense Federal Acquisition Regulation Supplement or are Government contractors receiving access to the software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;
- (iii) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(iv) Such use is subject to the limitations in paragraphs (1) through (4) of this definition;

(6) Use, and permit contractors or subcontractors performing emergency repairs or overhaul of items or components of items procured under this or a related contract to use the computer software when necessary to perform the emergency repairs or overhaul, or to modify the computer software to reflect the repairs or overhaul made, provided that -

(i) The intended recipient is subject to the nondisclosure agreement at [227.7103-7](#) or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(ii) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(iii) Such use is subject to the limitations in paragraphs (1) through (4) of this definition; and

(7) Use, modify, reproduce, perform, display, or release or disclose computer software to a person authorized to receive restricted rights computer software for management and oversight of a program or effort, and permit covered Government support contractors in the performance of covered Government support contracts that contain the clause at [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, to use, modify, reproduce, perform, display, or release or disclose the computer software to a person authorized to receive restricted rights computer software, provided that -

(i) The Government shall not permit the covered Government support contractor to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (4) of this definition, for any other purpose; and

(ii) Such use is subject to the limitations in paragraphs (1) through (4) of this definition.

“Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) data” means all technical data or computer software developed or generated in the performance of a phase I, II, or III SBIR/STTR contract or subcontract.

“SBIR/STTR data protection period” means the time period during which the Government is obligated to protect SBIR/STTR data against unauthorized use and disclosure in accordance with SBIR/STTR data rights. The SBIR/STTR data protection period begins on the date of award of the contract under which the SBIR/STTR data are developed or generated and ends 20 years after that date unless, after the award, the agency and the Contractor negotiate for some other protection period for the SBIR/STTR data developed or generated under that contract.

“SBIR/STTR data rights” means the Government’s rights, during the SBIR/STTR data protection period, in SBIR/STTR data covered by paragraph (c)(5) of this clause, as follows:

- (1) Limited rights in such SBIR/STTR technical data; and
- (2) Restricted rights in such SBIR/STTR computer software.

“Technical data” means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or financial, administrative, cost or pricing, or management information, or information incidental to contract administration.

“Unlimited rights” means rights to use, modify, reproduce, release, perform, display, or disclose, technical data or computer software in whole or in part, in any manner and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Applicability.* This clause governs all SBIR/STTR data. For any data that are not SBIR/STTR data—

(1) The clause at Defense Federal Acquisition Regulation Supplement (DFARS) 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, governs the technical data pertaining to other than commercial products and commercial services or to any portion of a commercial product or commercial service that was developed in any part at Government expense, and the clause at DFARS [252.227-7015](#), Technical Data—Commercial Products and Commercial Services, governs the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense;

(2) The clause at DFARS 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, governs other than commercial computer software and other than commercial computer software documentation; and

(3) A license consistent with DFARS 227.7202 governs commercial computer software and commercial computer software documentation.

(c) *Rights in technical data and computer software.* The Contractor grants or shall obtain for the Government the following royalty-free, worldwide, nonexclusive, irrevocable license rights in technical data or other than commercial computer software. All rights not granted to the Government are retained by the Contractor.

(1) *Unlimited rights.* The Government shall have unlimited rights in technical data or computer software, including such data generated under this contract, that are—

- (i) Form, fit, and function data;
- (ii) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);
- (iii) Corrections or changes to Government-furnished technical data or computer software;

(iv) Otherwise publicly available or have been released or disclosed by the Contractor or a subcontractor without restrictions on further use, release, or disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data or computer software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(v) Technical data or computer software in which the Government has acquired previously unlimited rights under another Government contract or as a result of negotiations;

(vi) Technical data or computer software furnished to the Government, under this or any other Government contract or subcontract thereunder, with license rights for which all restrictive conditions on the Government have expired; and

(vii) Computer software documentation generated or required to be delivered under this contract.

(2) *Government purpose rights.*

(i) The Government shall have government purpose rights for the period specified in paragraph (c)(2)(ii) of this clause in data that are—

(A) Not SBIR/STTR data, and are—

(1) Technical data pertaining to items, components, or processes developed with mixed funding, or are computer software developed with mixed funding, except when the Government is entitled to unlimited rights in such data as provided in paragraph (c)(1) of this clause;

(2) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes; or

(B) SBIR/STTR data, upon expiration of the SBIR/STTR data protection period.

(ii)(A) For the non-SBIR/STTR data described in paragraph (c)(2)(i)(A) of this clause, the Government shall have government purpose rights for a period of 5 years, or such other period as may be negotiated. This period shall commence upon award of the contract, subcontract, letter contract (or similar contractual instrument), or contract modification (including a modification to exercise an option) that required development of the items, components, or processes, or creation of the data described in paragraph (c)(2)(i)(A)(2) of this clause. Upon expiration of the 5-year or other negotiated period, the Government shall have unlimited rights in the data.

(B) For the SBIR/STTR data described in paragraph (c)(2)(i)(B) of this clause, the Government shall have government purpose rights perpetually. This Government purpose rights period commences upon the expiration of the SBIR/STTR data protection period.

(iii) The Government shall not release or disclose data in which it has government purpose rights unless—

(A) Prior to release or disclosure, the intended recipient is subject to the nondisclosure agreement at DFARS 227.7103-7; or

(B) The recipient is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(iv) The Contractor has the exclusive right, including the right to license others, to use technical data in which the Government has obtained government purpose rights under this contract for any commercial purpose during the time period specified in the government purpose rights marking prescribed in paragraph (g)(3) of this clause.

(3) *Limited rights.* The Government shall have limited rights in technical data that were not generated under this contract, pertain to items, components, or processes developed exclusively at private expense, and are marked, in accordance with the marking instructions in paragraph (g)(1) of this clause, with the legend prescribed in paragraph (g)(4) of this clause.

(4) *Restricted rights in computer software.* The Government shall have restricted rights in other than commercial computer software required to be delivered or otherwise furnished to the Government under this contract that were developed exclusively at private expense and were not generated under this contract.

(5) *SBIR/STTR data rights.* Except for technical data, including computer software documentation, or computer software in which the Government has unlimited rights under paragraph (c)(1) of this clause, the Government shall have SBIR/STTR data rights, during the SBIR/STTR data protection period of this contract, in all SBIR/STTR data developed or generated under this contract. This protection period is not extended by any subsequent SBIR/STTR contracts under which any portion of that SBIR/STTR data is used or delivered. The SBIR/STTR data protection period of any such subsequent SBIR/STTR contract applies only to the SBIR/STTR data that are developed or generated under that subsequent contract. The SBIR/STTR data protection period is governed by the version of this clause that is incorporated in the contract under which the SBIR/STTR data are developed or generated. If the SBIR/STTR data were developed or generated under a contract that included a previous version of this clause, then the SBIR/STTR data protection period is governed by that previous version of this clause.

(6) *Specifically negotiated license rights.* After contract award, the standard license rights granted to the Government under paragraphs (c)(1) through (5) of this clause may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights in technical data, including computer software documentation, than are enumerated in) the definition of “limited rights” of this clause or lesser rights in computer software than are enumerated the definition of “restricted rights” of this clause. Any rights so negotiated shall be identified in a license agreement made part of this contract.

(7) *Prior government rights.* Technical data, including computer software documentation, or computer software that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the preexisting rights, unless—

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, release, perform, display, or disclose the technical data or computer software have expired or no longer apply.

(8) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of technical data, computer software, or computer software documentation made in accordance with , the definitions of “Government purpose,” “other than commercial computer software,” or paragraph (c)(5) of this clause, or in accordance with the terms of a license negotiated under paragraph (c)(6) of this clause, or by others to whom the recipient has released or disclosed the data, software, or documentation and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data or software marked with restrictive legends.

(9) *Covered Government support contractors.* The Contractor acknowledges that -

(i) Limited rights technical data and restricted rights computer software are authorized to be released or disclosed to covered Government support contractors;

(ii) The Contractor will be notified of such release or disclosure;

(iii) The Contractor may require each such covered Government support contractor to enter into a nondisclosure agreement directly with the Contractor (or the party asserting restrictions as identified in a restrictive legend) regarding the covered Government support contractor's use of such data or software, or alternatively that the Contractor (or party asserting restrictions) may waive in writing the requirement for a nondisclosure agreement; and

(iv) Any such nondisclosure agreement shall address the restrictions on the covered Government support contractor's use of the data or software as set forth in the clause at DFARS [252.227-7025](#), Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement.

(d) *Rights in derivative computer software or computer software documentation.* The Government shall retain its rights in the unchanged portions of any computer software or computer software documentation delivered under this contract that the Contractor uses to prepare, or includes in, derivative software or documentation.

(e) *Third party copyrighted technical data and computer software.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted technical data, including computer software documentation, or computer software in the data or software to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable data or software of the appropriate scope set forth in paragraph (c) of this clause and, prior to delivery of such -

(1) Technical data, has affixed to the transmittal document a statement of the license rights obtained; or

(2) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(f) *Identification and delivery of technical data or computer software to be furnished with restrictions on use, release, or disclosure.*

(1) This paragraph does not apply to technical data or computer software that were or will be generated under this contract or to restrictions based solely on copyright.

(2) Except as provided in paragraph (f)(3) of this clause, technical data or computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any technical data or computer software with restrictive markings unless the technical data or computer software are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable

prior to the scheduled date for delivery of the technical data or computer software, in the following format, and signed by an official authorized to contractually obligate the Contractor:

**IDENTIFICATION AND ASSERTION OF RESTRICTIONS ON THE GOVERNMENT'S
USE, RELEASE, OR DISCLOSURE OF TECHNICAL DATA OR COMPUTER SOFTWARE**

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

Technical Data or Computer Software to be Furnished With Restrictions ¹	Basis for Assertion ²	Asserted Rights Category ³	Name of Person Asserting Restrictions ⁴
(LIST)	(LIST)	(LIST)	(LIST)

¹ If the assertion is applicable to items, components, or processes developed at private expense, identify both the technical data and each such item, component, or process.

² Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose technical data or computer software. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

³ Enter asserted rights category (e.g., limited rights, restricted rights, government purpose rights, or government purpose license rights from a prior contract, SBIR/STTR data rights under this or another contract, or specifically negotiated licenses).

⁴ Corporation, individual, or other person, as appropriate.

Date

Printed Name and Title

Signature

(End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertions, at a later date, in accordance with the procedures in the DFARS 252.227-7019, Validation of Asserted Restrictions—Computer Software, and/or DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, clauses of this contract.

(g) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software to be delivered under this contract by marking the deliverable data or software subject to restriction. Except as provided in paragraph (g)(8) of this clause, only the following markings are authorized under this contract: the government purpose rights marking at paragraph (g) (3) of this clause; the limited rights legend at paragraph (g)(4) of this clause; the restricted rights legend at paragraph (g)(5) of this clause; the SBIR/STTR data rights legend at paragraph (g)(6) of this clause; the special license rights legend at paragraph (g)(7) of this clause; and a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend to all technical data and computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data or computer software for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data or computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of technical data, computer software, or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Omitted markings.*

(i) Technical data, computer software, or computer software documentation delivered or otherwise provided under this contract without restrictive markings shall be presumed to have been delivered with unlimited rights. To the extent practicable, if the Contractor has requested permission (see paragraph (g)(2)(ii) of this clause) to correct an inadvertent omission of markings, the Contracting Officer will not release or disclose the technical data, software, or documentation pending evaluation of the request.

(ii) The Contractor may request permission to have conforming and justified restrictive markings placed on unmarked technical data, computer software, or computer software documentation at its expense. The request must be received by the Contracting Officer within 6 months following the furnishing or delivery of such technical data, software, or documentation, or any extension of that time approved by the Contracting Officer. The Contractor shall—

(A) Identify the technical data, software, or documentation that should have been marked;

(B) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of technical data, computer software, or computer software documentation contained in this clause; and

(C) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the technical data, software, or documentation made prior to the addition of the marking or resulting from the omission of the marking.

(3) Government purpose rights markings. Technical data or computer software delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

GOVERNMENT PURPOSE RIGHTS

Contract Number	
Contractor Name	
Contractor Address	
Expiration Date	

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data or computer software are restricted by paragraph (c)(2) of the DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data or computer software or portions thereof marked with this restrictive marking must also reproduce the markings.

(End of legend)

(4) *Limited rights markings*. Technical data not generated under this contract that pertain to items, components, or processes developed exclusively at private expense and delivered or otherwise furnished with limited rights shall be marked as follows:

LIMITED RIGHTS

Contract Number	
Contractor Name	
Contractor Address	

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (c)(3) of the DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause contained in the above identified contract. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor.

(End of legend)

(5) *Restricted rights markings*. Computer software delivered or otherwise furnished to the Government with restricted rights shall be marked as follows:

RESTRICTED RIGHTS

Contract Number	
Contractor Name	
Contractor Address	

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (c)(4) of the DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause contained in the above identified contract. Any reproduction of computer software or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such software must promptly notify the above named Contractor.

(End of legend)

(6) *SBIR/STTR data rights markings*. Except for technical data or computer software in which the Government has acquired unlimited rights under paragraph (c)(1) of this clause or negotiated special license rights as provided in paragraph (c)(6) of this clause, technical data or computer software generated under this contract shall be marked as follows. The Contractor shall enter the expiration date for the SBIR/STTR data protection period on the legend:

SBIR/STTR DATA RIGHTS

Contract Number	
Contractor Name	
Contractor Address	
Expiration of SBIR/STTR Data Protection Period	
Expiration of the Government Purpose Rights Period	

The Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software marked with this legend are restricted during the period shown as provided in paragraph (c)(5) of the DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, clause contained in the above identified contract. After the SBIR/STTR data protection period expiration date shown above, the Government has perpetual government purpose rights as provided in paragraph (c)(4) of that clause, unless otherwise indicated by the government purpose rights expiration date shown above. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(7) *Special license rights markings*.

(i) Technical data or computer software in which the Government's rights stem from a specifically negotiated license shall be marked as follows:

SPECIAL LICENSE RIGHTS

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this technical data or computer software are restricted by Contract Number ____ *Insert contract number* ____, License Number ____ *Insert license identifier* _____. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (c)(7) of this clause).

(8) *Preexisting data markings*. If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software, and those restrictions are still applicable, the Contractor may mark such data or software with the appropriate restrictive legend for which the data or software qualified under the prior contract or license. The Contractor shall follow the marking procedures in paragraph (g)(1) of this clause.

(h) *Contractor procedures and records.* Throughout performance of this contract, the Contractor, and its subcontractors or suppliers that will deliver technical data or computer software with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data or computer software delivered under this contract.

(i) *Removal of unjustified and nonconforming markings.*

(1) *Unjustified markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data or computer software furnished or to be furnished under this contract are contained in the DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, and the DFARS 252.227-7019, Validation of Asserted Restrictions—Computer Software, clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the applicable procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming markings.* A nonconforming marking is a marking placed on technical data or computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the DFARS 252.227-7037, Validation of Asserted Restrictions on Technical Data, or the DFARS 252.227-7019, Validation of Asserted Restrictions—Computer Software, clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within 60 days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(j) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(k) *Limitation on charges for rights in technical data or computer software.*

(i) The Government has acquired, by any means, the same or greater rights in the data or software; or

(ii) The data are available to the public without restrictions.

(2) The limitation in paragraph (k)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data or computer software, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data or computer software will be delivered.

(l) *Subcontractors or suppliers.*

(1) The Contractor shall assure that the rights afforded its subcontractors and suppliers under 10 U.S.C.3771–3775, 10 U.S.C. 3781–3786, 15 U.S.C. 638(j)(1)(B)(iii) and (v), and the identification, assertion, and delivery processes required by paragraph (f) of this clause are recognized and protected.

(2) Whenever any other than commercial technical data or computer software is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use the following clause(s) in the subcontract or other contractual instrument, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties:

(i) Except as provided in paragraph (l)(2)(ii) of this clause, use this clause to govern SBIR/STTR data.

(ii) For data that are not SBIR/STTR data—

(A) Use the clause at DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, to govern the technical data pertaining to other than commercial products or commercial services or to any portion of a commercial product or commercial service that was developed in any part at Government expense, and use the clause at DFARS [252.227-7015](#), Technical Data—Commercial Products and Commercial Services, to govern the technical data pertaining to any portion of a commercial product or commercial service that was developed exclusively at private expense;

(B) Use the DFARS clause at 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, to govern other than commercial computer software and computer software documentation; and

(C) Use the license under which the data are customarily provided to the public, in accordance with DFARS 227.7202, for commercial computer software and commercial computer software documentation.

(iii) No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data or computer software.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for technical data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such technical data directly to the Government, rather than through a higher tier contractor, subcontractor, or supplier.

(4) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data or computer software from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data or computer software as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

252.227-7019 Validation of Asserted Restrictions—Computer Software.

As prescribed in 227.7104-4(b)(3) or 227.7203-6(c), use the following clause:

VALIDATION OF ASSERTED RESTRICTIONS—COMPUTER SOFTWARE (JAN 2025)

(a) *Definitions.* As used in this clause—

“Contractor”, unless otherwise specifically indicated, means the Contractor and its subcontractors or suppliers.

Other terms are defined in the 252.227-7014, Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation, clause of this contract.

(b) *Justification.* The Contractor shall maintain records sufficient to justify the validity of any asserted restrictions on the Government's rights to use, modify, reproduce, perform, display, release, or disclose computer software delivered, required to be delivered, or otherwise provided to the Government under this contract and shall be prepared to furnish to the Contracting Officer a written justification for such asserted restrictions in response to a request for information under paragraph (d) of this clause or a challenge under paragraph (f) of this clause.

(c) *Direct contact with subcontractors or suppliers.* The Contractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors or suppliers at any tier who assert restrictions on the Government's right to use, modify, reproduce, release, perform, display, or disclose computer software. Neither this clause, nor any action taken by the Government under this clause, creates or implies privity of contract between the Government and the Contractor's subcontractors or suppliers.

(d) *Requests for information.*

(1) The Contracting Officer may request the Contractor to provide sufficient information to enable the Contracting Officer to evaluate the Contractor's asserted restrictions. Such information shall be based upon the records required by this clause or other information reasonably available to the Contractor.

(2) Based upon the information provided, if the—

(i) Contractor agrees that an asserted restriction is not valid, the Contracting Officer may—

(A) Strike or correct the unjustified marking at the Contractor's expense; or

(B) Return the computer software to the Contractor for correction at the Contractor's expense. If the Contractor fails to correct or strike the unjustified marking and return the corrected software to the Contracting Officer within 60 days following receipt of the software, the Contracting Officer may correct or strike the marking at the Contractor's expense;

(ii) Contracting Officer concludes that the asserted restriction is appropriate for this contract, the Contracting Officer shall so notify the Contractor in writing.

(3) The Contractor's failure to provide a timely response to a Contracting Officer's request for information or failure to provide sufficient information to enable the Contracting Officer to evaluate an asserted restriction shall constitute reasonable grounds for questioning the validity of an asserted restriction.

(e) *Government right to challenge and validate asserted restrictions.*

(1) The Government, when there are reasonable grounds to do so, has the right to review and challenge the validity of any restrictions asserted by the Contractor on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software delivered, to be delivered under this contract, or otherwise provided to the Government in the performance of this contract. Except for software that is publicly available, has been furnished to the Government without

restrictions, has been otherwise made available without restrictions, or is the subject of a fraudulently asserted use or release restriction, the Government may exercise this right only within 6 years after the date(s) the software is delivered or otherwise furnished to the Government, or 6 years following final payment under this contract, whichever is later.

(2) The absence of a challenge to an asserted restriction shall not constitute validation under this clause. Only a Contracting Officer's final decision or actions of an agency Board of Contract Appeals or a court of competent jurisdiction that sustain the validity of an asserted restriction constitute validation of the restriction.

(f) Challenge procedures.

(1) A challenge must be in writing and shall—

(i) State the specific grounds for challenging the asserted restriction;

(ii) Require the Contractor to respond in writing within 60 days;

(iii) Require the Contractor to provide justification for the assertion based upon records kept in accordance with paragraph (b) of this clause and such other documentation that are reasonably available to the Contractor, in sufficient detail to enable the Contracting Officer to determine the validity of the asserted restrictions; and

(iv) State that a Contracting Officer's final decision, during the 3-year period preceding this challenge, or action of a court of competent jurisdiction or Board of Contract Appeals that sustained the validity of an identical assertion made by the Contractor (or a licensee) shall serve as justification for the asserted restriction.

(2) The Contracting Officer shall extend the time for response if the Contractor submits a written request showing the need for additional time to prepare a response.

(3) The Contracting Officer may request additional supporting documentation if, in the Contracting Officer's opinion, the Contractor's explanation does not provide sufficient evidence to justify the validity of the asserted restrictions. The Contractor agrees to promptly respond to the Contracting Officer's request for additional supporting documentation.

(4) Notwithstanding challenge by the Contracting Officer, the parties may agree on the disposition of an asserted restriction at any time prior to a Contracting Officer's final decision or, if the Contractor has appealed that decision, filed suit, or provided notice of an intent to file suit, at any time prior to a decision by a court of competent jurisdiction or Board of Contract Appeals.

(5) If the Contractor fails to respond to the Contracting Officer's request for information or additional information under paragraph (f)(1) of this clause, the Contracting Officer shall issue a final decision, in accordance with the Disputes clause of this contract, pertaining to the validity of the asserted restriction.

(6) If the Contracting Officer, after reviewing any available information pertaining to the validity of an asserted restriction, determines that the asserted restriction has—

(i) Not been justified, the Contracting Officer shall issue promptly a final decision, in accordance with the Disputes clause of this contract, denying the validity of the asserted restriction; or

(ii) Been justified, the Contracting Officer shall issue promptly a final decision, in accordance with the Disputes clause of this contract, validating the asserted restriction.

(7) A Contractor receiving challenges to the same asserted restriction(s) from more than one Contracting Officer shall notify each Contracting Officer of the other challenges. The notice shall also state which Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer who initiated the first in time unanswered challenge, after consultation with the other Contracting Officers who have challenged the restrictions and the Contractor, shall formulate and distribute a schedule that provides the Contractor a reasonable opportunity for responding to each challenge.

(g) Contractor appeal—Government obligation.

(1) The Government agrees that, notwithstanding a Contracting Officer's final decision denying the validity of an asserted restriction and except as provided in paragraph (g)(3) of this clause, it will honor the asserted restriction—

(i) For a period of 90 days from the date of the Contracting Officer's final decision to allow the Contractor to appeal to the appropriate Board of Contract Appeals or to file suit in an appropriate court;

(ii) For a period of 1 year from the date of the Contracting Officer's final decision if, within the first 90 days following the Contracting Officer's final decision, the Contractor has provided notice of an intent to file suit in an appropriate court; or

(iii) Until final disposition by the appropriate Board of Contract Appeals or court of competent jurisdiction, if the Contractor has—

(A) Appealed to the Board of Contract Appeals or filed suit in an appropriate court within 90 days; or

(B) Submitted, within 90 days, a notice of intent to file suit in an appropriate court and filed suit within 1 year.

(2) The Contractor agrees that the Government may strike, correct, or ignore the restrictive markings if the Contractor fails to—

(i) Appeal to a Board of Contract Appeals within ninety (90) days from the date of the Contracting Officer's final decision;

(ii) File suit in an appropriate court within ninety (90) days from such date; or

(iii) File suit within 1 year after the date of the Contracting Officer's final decision if the Contractor had provided notice of intent to file suit within 90 days following the date of the Contracting Officer's final decision.

(3)(i) The agency head, on a nondelegable basis, may determine that urgent or compelling circumstances do not permit awaiting the filing of suit in an appropriate court, or the rendering of a decision by a court of competent jurisdiction or Board of Contract Appeals. In that event, the agency head shall notify the Contractor of the urgent or compelling circumstances. Notwithstanding paragraph (g)(1) of this clause, the Contractor agrees that the agency may use, modify, reproduce, release, perform, display, or disclose computer software marked with—

(A) Government purpose legends for any purpose, and authorize others to do so; or

(B) Restricted or special license rights for Government purposes only.

(ii) The Government agrees not to release or disclose such software unless, prior to release or disclosure, the intended recipient is subject to the use and nondisclosure agreement at Defense Federal Acquisition Regulation Supplement (DFARS) 227.7103-7, or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The agency head's determination may be made at any time after the date of the Contracting Officer's final decision and shall not affect the Contractor's right to damages against the United States, or other relief provided by law, if its asserted restrictions are ultimately upheld.

(h) *Final disposition of appeal or suit.* If the Contractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is:

(1) Sustained—

(i) Any restrictive marking on such computer software shall be struck or corrected at the Contractor's expense or ignored; and

(ii) If the asserted restriction is found not to be substantially justified, the Contractor shall be liable to the Government for payment of the cost to the Government of reviewing the asserted restriction and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the restriction, unless special circumstances would make such payment unjust.

(2) Not sustained—

(i) The Government shall be bound by the asserted restriction; and

(ii) If the challenge by the Government is found not to have been made in good faith, the Government shall be liable to the Contractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Contractor in defending the restriction.

(i) *Flowdown.* The Contractor shall insert this clause in all contracts, purchase orders, and other similar instruments with its subcontractors or suppliers, at any tier, who will be furnishing computer software to the Government in the performance of this contract. The clause may not be altered other than to identify the appropriate parties.

(End of clause)

252.227-7020 Rights in Special Works.

As prescribed in 227.7105-3, [227.7106](#) (a) or [227.7205](#) (a), use the following clause:

RIGHTS IN SPECIAL WORKS (JUN 1995)

(a) *Applicability.* This clause applies to works first created, generated, or produced and required to be delivered under this contract.

(b) *Definitions.* As used in this clause:

(1) "Computer data base" means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

(2) "Computer program" means a set of instructions, rules, or routines recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(3) “Computer software” means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

(4) “Computer software documentation” means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

(5) “Unlimited rights” means the rights to use, modify, reproduce, perform, display, release, or disclose a work in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

(6) The term “works” includes computer data bases, computer software, or computer software documentation; literary, musical, choreographic, or dramatic compositions; pantomimes; pictorial, graphic, or sculptural compositions; motion pictures and other audiovisual compositions; sound recordings in any medium; or, items of similar nature.

(c) License rights.

(1) The Government shall have unlimited rights in works first produced, created, or generated and required to be delivered under this contract.

(2) When a work is first produced, created, or generated under this contract, and such work is required to be delivered under this contract, the Contractor shall assign copyright in those works to the Government. The Contractor, unless directed to the contrary by the Contracting Officer, shall place the following notice on such works:

“© (Year date of delivery) United States Government, as represented by the Secretary of (department). All rights reserved.”

For phonorecords, the “©” marking shall be replaced by a “P”.

(3) The Contractor grants to the Government a royalty-free, world-wide, nonexclusive, irrevocable license to reproduce, prepare derivative works from, distribute, perform, or display, and to have or authorize others to do so, the Contractor's copyrighted works not first produced, created, or generated under this contract that have been incorporated into the works deliverable under this contract.

(d) *Third party copyrighted data.* The Contractor shall not incorporate, without the written approval of the Contracting Officer, any copyrighted works in the works to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license of the scope identified in paragraph (c)(3) of this clause and, prior to delivery of such works—

(1) Has affixed to the transmittal document a statement of the license rights obtained; or

(2) For computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(e) *Indemnification.* The Contractor shall indemnify and save and hold harmless the Government, and its officers, agents and employees acting for the Government, against any liability, including costs and expenses, (1) for violation of proprietary rights, copyrights, or rights of privacy or publicity, arising out of the creation, delivery, use, modification, reproduction, release, performance, display, or disclosure of any works furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in such works.

(f) *Government-furnished information.* Paragraphs (d) and (e) of this clause are not applicable to information furnished to the Contractor by the Government and incorporated in the works delivered under this contract.

(End of clause)

252.227-7021 Rights in Data—Existing Works.

As prescribed at [227.7105-2](#) (a), use the following clause:

RIGHTS IN DATA—EXISTING WORKS (MAR 1979)

(a) The term “works” as used herein includes literary, musical, and dramatic works; pantomimes and choreographic works; pictorial, graphic and sculptural works; motion pictures and other audiovisual works; sound recordings; and works of a similar nature. The term does not include financial reports, cost analyses, and other information incidental to contract administration.

(b) Except as otherwise provided in this contract, the Contractor hereby grants to the Government a nonexclusive, paid-up license throughout the world (1) to distribute, perform publicly, and display publicly the works called for under this contract and (2) to authorize others to do so for Government purposes.

(c) The Contractor shall indemnify and save and hold harmless the Government, and its officers, agents, and employees acting for the Government, against any liability, including costs and expenses, (1) for violation of proprietary rights, copyrights, or rights of privacy or publicity arising out of the creation, delivery, or use, of any works furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in same works.

(End of clause)

252.227-7022 Government Rights (Unlimited).

As prescribed at [227.7107-1](#) (a) use the following clause:

GOVERNMENT RIGHTS (UNLIMITED) (MAR 1979)

The Government shall have unlimited rights, in all drawings, designs, specifications, notes and other works developed in the performance of this contract, including the right to use same on any other Government design or construction without additional compensation to the Contractor. The Contractor hereby grants to the Government a paid-up license throughout the world to all such works to which he may assert or establish any claim under design patent or copyright laws. The Contractor for a period of three (3) years after completion of the project agrees to furnish the original or copies of all such works on the request of the Contracting Officer.

(End of clause)

252.227-7023 Drawings and Other Data to Become Property of Government.

As prescribed at [227.7107-1](#) (b), use the following clause:

DRAWINGS AND OTHER DATA TO BECOME PROPERTY OF GOVERNMENT (MAR 1979)

All designs, drawings, specifications, notes and other works developed in the performance of this contract shall become the sole property of the Government and may be used on any other design or construction without additional compensation to the Contractor. The Government shall be considered the "person for whom the work was prepared" for the purpose of authorship in any copyrightable work under 17 U.S.C. 201(b). With respect thereto, the Contractor agrees not to assert or authorize others to assert any rights nor establish any claim under the design patent or copyright laws. The Contractor for a period of three (3) years after completion of the project agrees to furnish all retained works on the request of the Contracting Officer. Unless otherwise provided in this contract, the Contractor shall have the right to retain copies of all works beyond such period.

(End of clause)

252.227-7024 Notice and Approval of Restricted Designs.

As prescribed at [227.7107-3](#) , use the following clause:

NOTICE AND APPROVAL OF RESTRICTED DESIGNS (APR 1984)

In the performance of this contract, the Contractor shall, to the extent practicable, make maximum use of structures, machines, products, materials, construction methods, and equipment that are readily available through Government or competitive commercial channels, or through standard or proven production techniques, methods, and processes. Unless approved by the Contracting Officer, the Contractor shall not produce a design or specification that requires in this construction work the use of structures, products, materials, construction equipment, or processes that are known by the Contractor to be available only from a sole source. The Contractor shall promptly report any such design or specification to the Contracting Officer and give the reason why it is considered necessary to so restrict the design or specification.

(End of clause)

252.227-7025 Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

As prescribed in 227.7103-6(c), 227.7104-4(b)(4), or 227.7203-6(d), use the following clause:

LIMITATIONS ON THE USE OR DISCLOSURE OF GOVERNMENT-FURNISHED INFORMATION MARKED WITH RESTRICTIVE LEGENDS (JAN 2025)

(a) Definitions. As used in this clause—

(1) For contracts in which the Government will furnish the Contractor with technical data, the terms "covered Government support contractor," "limited rights," and "Government purpose rights" are defined in the clause at [252.227-7013](#), Rights in Technical Data—Other Than Commercial Products and Commercial Services.

(2) For contracts in which the Government will furnish the Contractor with computer software or computer software documentation, the terms "covered Government support contractor," "government purpose rights," and "restricted rights" are defined in the clause at [252.227-7014](#), Rights in Other Than Commercial Computer Software and Other Than Commercial Computer Software Documentation.

(3) For Small Business Innovation Research (SBIR) Program and Small Business Technology Transfer (STTR) Program contracts, the terms "covered Government support contractor," "government purpose rights," "limited rights," "restricted rights," and "SBIR/STTR data rights" are defined in the clause at 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program.

(b) Technical data or computer software provided to the Contractor as Government-furnished information (GFI) under this contract may be subject to restrictions on use, modification, reproduction, release, performance, display, or further disclosure.

(1) *GFI marked with limited rights, restricted rights, or SBIR/STTR data rights legends.*

(i) The Contractor shall use, modify, reproduce, perform, or display technical data received from the Government with limited rights legends, computer software received with restricted rights legends, or SBIR/STTR technical data or computer software received with SBIR/STTR data rights legends (during the SBIR/STTR data protection period) only in the performance of this contract. The Contractor shall not, without the express written permission of the party whose name appears in the legend, release or disclose such data or software to any unauthorized person.

(ii) If the Contractor is a covered Government support contractor, the Contractor is also subject to the additional terms and conditions at paragraph (b)(5) of this clause.

(2) *GFI marked with government purpose rights legends.* The Contractor shall use technical data or computer software received from the Government with government purpose rights legends for government purposes only. The Contractor shall not, without the express written permission of the party whose name appears in the restrictive legend, use, modify, reproduce, release, perform, or display such data or software for any commercial purpose or disclose such data or software to a person other than its subcontractors, suppliers, or prospective subcontractors or suppliers, who require the data or software to submit offers for, or perform, contracts under this contract. Prior to disclosing the data or software, the Contractor shall require the persons to whom disclosure will be made to complete and sign the nondisclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS).

(3) *GFI marked with specially negotiated license rights legends.*

(i) The Contractor shall use, modify, reproduce, release, perform, or display technical data or computer software received from the Government with specially negotiated license legends only as permitted in the license. Such data or software may not be released or disclosed to other persons unless permitted by the license and, prior to release or disclosure, the intended recipient has completed the nondisclosure agreement at DFARS 227.7103-7. The Contractor shall modify paragraph (1)(c) of the nondisclosure agreement to reflect the recipient's obligations regarding use, modification, reproduction, release, performance, display, and disclosure of the data or software.

(ii) If the Contractor is a covered Government support contractor, the Contractor may also be subject to some or all of the additional terms and conditions at paragraph (b)(5) of this clause, to the extent such terms and conditions are required by the specially negotiated license.

(4) *GFI technical data marked with commercial restrictive legends.*

(i) The Contractor shall use, modify, reproduce, perform, or display technical data that are or pertain to a commercial product or commercial service and are received from the Government with a commercial restrictive legend (i.e., marked to indicate that such data are subject to use, modification, reproduction, release, performance, display, or disclosure restrictions) only in the performance of this contract. The Contractor shall not, without the express written permission of the party

whose name appears in the legend, use the technical data to manufacture additional quantities of the commercial products or commercial services, or release or disclose such data to any unauthorized person.

(ii) If the Contractor is a covered Government support contractor, the Contractor is also subject to the additional terms and conditions at paragraph (b)(5) of this clause.

(5) *Covered Government support contractors.* If the Contractor is a covered Government support contractor receiving technical data or computer software marked with restrictive legends pursuant to paragraphs (b)(1)(ii), (b)(3)(ii), or (b)(4)(ii), the Contractor further agrees and acknowledges that—

(i) The technical data or computer software will be accessed and used for the sole purpose of furnishing independent and impartial advice or technical assistance directly to the Government in support of the Government's management and oversight of the program or effort to which such technical data or computer software relates, as stated in this contract, and shall not be used to compete for any Government or non-Government contract;

(ii) The Contractor will take all reasonable steps to protect the technical data or computer software against any unauthorized release or disclosure;

(iii) The Contractor will ensure that the party whose name appears in the legend is notified of the access or use within 30 days of the Contractor's access or use of such data or software;

(iv) The Contractor will enter into a nondisclosure agreement with the party whose name appears in the legend, if required to do so by that party, and that any such nondisclosure agreement will implement the restrictions on the Contractor's use of such data or software as set forth in this clause. The nondisclosure agreement shall not include any additional terms and conditions unless mutually agreed to by the parties to the nondisclosure agreement; and

(v) That a breach of these obligations or restrictions may subject the Contractor to—

(A) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

(B) Civil actions for damages and other appropriate remedies by the party whose name appears in the legend.

(c) *Indemnification and creation of third party beneficiary rights.* The Contractor agrees—

(1) To indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorneys fees, court costs, and expenses, arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, performance, display, or disclosure of technical data or computer software received from the Government with restrictive legends by the Contractor or any person to whom the Contractor has released or disclosed such data or software; and

(2) That the party whose name appears on the restrictive legend, in addition to any other rights it may have, is a third-party beneficiary who has the right of direct action against the Contractor, or any person to whom the Contractor has released or disclosed such data or software, for the unauthorized duplication, release, or disclosure of technical data or computer software subject to restrictive legends.

(d) The Contractor shall ensure that its employees are subject to use and nondisclosure obligations consistent with this clause prior to the employees being provided access to or use of any GFI covered by this clause.

(End of clause)

252.227-7026 Deferred Delivery of Technical Data or Computer Software.

As prescribed at [227.7103-8](#) (a), use the following clause:

DEFERRED DELIVERY OF TECHNICAL DATA OR COMPUTER SOFTWARE (APR 1988)

The Government shall have the right to require, at any time during the performance of this contract, within two (2) years after either acceptance of all items (other than data or computer software) to be delivered under this contract or termination of this contract, whichever is later, delivery of any technical data or computer software item identified in this contract as "deferred delivery" data or computer software. The obligation to furnish such technical data required to be prepared by a subcontractor and pertaining to an item obtained from him shall expire two (2) years after the date Contractor accepts the last delivery of that item from that subcontractor for use in performing this contract.

(End of clause)

252.227-7027 Deferred Ordering of Technical Data or Computer Software.

As prescribed at [227.7103-8](#) (b), use the following clause:

DEFERRED ORDERING OF TECHNICAL DATA OR COMPUTER SOFTWARE (APR 1988)

In addition to technical data or computer software specified elsewhere in this contract to be delivered hereunder, the Government may, at any time during the performance of this contract or within a period of three (3) years after acceptance of all items (other than technical data or computer software) to be delivered under this contract or the termination of this contract, order any technical data or computer software generated in the performance of this contract or any subcontract hereunder. When the technical data or computer software is ordered, the Contractor shall be compensated for converting the data or computer software into the prescribed form, for reproduction and delivery. The obligation to deliver the technical data of a subcontractor and pertaining to an item obtained from him shall expire three (3) years after the date the Contractor accepts the last delivery of that item from that subcontractor under this contract. The Government's rights to use said data or computer software shall be pursuant to the "Rights in Technical Data and Computer Software" clause of this contract.

(End of clause)

252.227-7028 Technical Data or Computer Software Previously Delivered to the Government.

As prescribed in 227.7103-6(d), 227.7104-4(b)(5), or 227.7203-6(e), use the following provision:

**TECHNICAL DATA OR COMPUTER SOFTWARE
PREVIOUSLY DELIVERED TO THE GOVERNMENT (JUN 1995)**

The Offeror shall attach to its offer an identification of all documents or other media incorporating technical data or computer software it intends to deliver under this contract with other than unlimited rights that are identical or substantially similar to documents or other media that the Offeror has produced for, delivered to, or is obligated to deliver to the Government under any contract or subcontract. The attachment shall identify—

- (a) The contract number under which the data or software were produced;
- (b) The contract number under which, and the name and address of the organization to whom, the data or software were most recently delivered or will be delivered; and
- (c) Any limitations on the Government's rights to use or disclose the data or software, including, when applicable, identification of the earliest date the limitations expire.

(End of provision)

252.227-7029 Reserved.**252.227-7030 Technical Data—Withholding of Payment.**

As prescribed at 227.7103-6(e)(2) or 227.7104-4(b)(6), use the following clause:

TECHNICAL DATA—WITHHOLDING OF PAYMENT (MAR 2000)

(a) If technical data specified to be delivered under this contract, is not delivered within the time specified by this contract or is deficient upon delivery (including having restrictive markings not identified in the list described in the clause at [252.227-7013](#) (e)(2) or [252.227-7018](#) (e)(2) of this contract), the Contracting Officer may until such data is accepted by the Government, withhold payment to the Contractor of ten percent (10%) of the total contract price or amount unless a lesser withholding is specified in the contract. Payments shall not be withheld nor any other action taken pursuant to this paragraph when the Contractor's failure to make timely delivery or to deliver such data without deficiencies arises out of causes beyond the control and without the fault or negligence of the Contractor.

(b) The withholding of any amount or subsequent payment to the Contractor shall not be construed as a waiver of any rights accruing to the Government under this contract.

(End of clause)

252.227-7031 Reserved.**252.227-7032 Rights in Technical Data and Computer Software (Foreign).**

As prescribed in [227.7103-17](#), use the following clause:

RIGHTS IN TECHNICAL DATA AND COMPUTER SOFTWARE (FOREIGN) (JUN 1975)

The United States Government may duplicate, use, and disclose in any manner for any purposes whatsoever, including delivery to other governments for the furtherance of mutual defense of the United States Government and other governments, all technical data including reports, drawings and blueprints, and all computer software, specified to be delivered by the Contractor to the United States Government under this contract.

(End of clause)

252.227-7033 Rights in Shop Drawings.

As prescribed at [227.7107-1](#) (c), use the following clause:

RIGHTS IN SHOP DRAWINGS (APR 1966)

(a) Shop drawings for construction means drawings, submitted to the Government by the Construction Contractor, subcontractor or any lower-tier subcontractor pursuant to a construction contract, showing in detail (i) the proposed fabrication and assembly of structural elements and (ii) the installation (i.e., form, fit, and attachment details) of materials or equipment. The Government may duplicate, use, and disclose in any manner and for any purpose shop drawings delivered under this contract.

(b) This clause, including this paragraph (b), shall be included in all subcontracts hereunder at any tier.

(End of clause)

252.227-7034 Reserved.**252.227-7035 Reserved.****252.227-7036 Reserved.****252.227-7037 Validation of Asserted Restrictions on Technical Data.**

As prescribed in 227.7102-4(c), 227.7103-6(e)(3), 227.7104-4(b)(7), or 227.7203-6(f), use the following clause:

VALIDATION OF ASSERTED RESTRICTIONS ON TECHNICAL DATA (JAN 2025)

(a) *Definitions.* The terms used in this clause are defined in the Rights in Technical Data—Other Than Commercial Products and Commercial Services clause of this contract.

(b) *Commercial products or commercial services—presumption regarding development exclusively at private expense.* The Contracting Officer will presume that the Contractor's or a subcontractor's asserted use or release restrictions with respect to a commercial product or commercial service are justified on the basis that the item was developed exclusively at private expense. The Contracting Officer will not issue a challenge unless there are reasonable grounds to question the validity of the assertion that the commercial product or commercial service was developed exclusively at private expense.

(c) *Justification.* The Contractor or subcontractor at any tier is responsible for maintaining records sufficient to justify the validity of its asserted restrictions on the rights of the Government and others to use, duplicate, release, or disclose technical data delivered, required to be delivered, or otherwise provided to the Government under the contract or subcontract. Except as provided in paragraph (b) of this clause, the Contractor or subcontractor shall be prepared to furnish to the Contracting Officer a written justification for such asserted restrictions in response to a challenge under paragraph (e) of this clause.

(d) *Prechallenge request for information.*

(1) The Contracting Officer may request the Contractor or subcontractor to furnish a written explanation for any asserted restriction on the right of the United States or others to use, disclose, or release technical data. If, upon review of the explanation submitted, the Contracting Officer cannot determine the basis of the asserted restriction, the Contracting Officer may further request the Contractor or subcontractor to furnish additional information in the records of, or otherwise in the possession of or reasonably available to, the Contractor or subcontractor to justify the validity of any asserted restriction on technical data delivered, to be delivered, or otherwise provided to the Government under the contract or subcontract (e.g., a statement of facts accompanied with supporting documentation). The Contractor or subcontractor shall submit such written data as requested by the Contracting Officer within the time required or such longer period as may be mutually agreed.

(2) If the Contracting Officer, after reviewing the written data furnished pursuant to paragraph (d)(1) of this clause, or any other available information pertaining to the validity of an asserted restriction, determines that reasonable grounds exist to question the current validity of the asserted restriction and that continued adherence to the asserted restriction would make impracticable the subsequent competitive acquisition of the item or process to which the technical data relates, the Contracting Officer will follow the procedures in paragraph (e) of this clause.

(3) If the Contractor or subcontractor fails to respond to the Contracting Officer's request for information under paragraph (d)(1) of this clause, and the Contracting Officer determines that continued adherence to the asserted restriction would make impracticable the subsequent competitive acquisition of the item or process to which the technical data relates, the Contracting Officer may challenge the validity of the asserted restriction as described in paragraph (e) of this clause.

(e) Challenge.

(1) Notwithstanding any provision of this contract concerning inspection and acceptance, if the Contracting Officer determines that a challenge to the asserted restriction is warranted, the Contracting Officer will send a written challenge notice to the Contractor or subcontractor making the asserted restriction. The challenge notice and all related correspondence shall be subject to handling procedures for classified information and controlled unclassified information. Such challenge will

(i) State the specific grounds for challenging the asserted restriction including, for commercial products or commercial services, sufficient information to reasonably demonstrate that the commercial product or commercial service was not developed exclusively at private expense ;

(ii) Require a response within 60 days justifying and providing sufficient evidence as to the current validity of the asserted restriction;

(iii) State that a DoD Contracting Officer's final decision, issued pursuant to paragraph (g) of this clause, sustaining the validity of a prior asserted restriction restrictive marking identical to the current asserted restriction, within the three3-year period preceding the current challenge, shall serve as justification for the current asserted restriction if the prior validated restriction was asserted by the same Contractor or subcontractor (or any licensee of such Contractor or subcontractor) to which such notice is being provided; and

(iv) State that failure to respond to the challenge notice may result in issuance of a final decision pursuant to paragraph (f) of this clause.

(2) The Contracting Officer will extend the time for response as appropriate if the Contractor or subcontractor submits a written request showing the need for additional time to prepare a response.

(3) The Contractor's or subcontractor's written response shall be considered a claim within the meaning of 41 U.S.C. 7101, Contract Disputes, and shall be certified in the form prescribed at 33.207 of the Federal Acquisition Regulation, regardless of dollar amount.

(4) A Contractor or subcontractor receiving challenges to the same asserted restrictions from more than one Contracting Officer shall notify each Contracting Officer of the existence of more than one challenge. The notice shall also state which Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer initiating the first in time unanswered challenge after consultation with the Contractor or subcontractor and the other Contracting Officers, will formulate and distribute a schedule for responding to each of the challenge notices to all interested parties. The schedule will afford the Contractor or subcontractor an opportunity to respond to each challenge notice. All parties will be bound by this schedule.

(f) Final decision when Contractor or subcontractor fails to respond. Upon a failure of a Contractor or subcontractor to submit any response to the challenge notice the Contracting Officer will issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract. In order to sustain the challenge for commercial products or commercial services, the Contracting Officer will provide information demonstrating that the commercial product or commercial service was not developed exclusively at private expense . This final decision will be issued as soon as

possible after the expiration of the time period of paragraph (e)(1)(ii) or (e)(2) of this clause. Following issuance of the final decision, the Contracting Officer will comply with the procedures in paragraphs (g)(2)(ii) through (iv) of this clause.

(g) Final decision when Contractor or subcontractor responds.

(1) If the Contracting Officer determines that the Contractor or subcontractor has justified the validity of the asserted restriction, the Contracting Officer will issue a final decision to the Contractor or subcontractor that sustains the validity of the asserted restriction, and that states that the Government will continue to be bound by the asserted restriction. The Contracting Officer will issue this final decision within 60 days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor that the Government will require. The Contracting Officer will provide notification of any longer period for issuance of a final decision within 60 days after receipt of the response to the challenge notice.

(2)(i) If the Contracting Officer determines that the validity of the asserted restriction is not justified, the Contracting Officer will issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract. To sustain the challenge for commercial products or commercial services, the Contracting Officer will provide information demonstrating that the commercial product or commercial service was not developed exclusively at private expense. Notwithstanding paragraph (e) of the Disputes clause, the final decision will be issued within 60 days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor that the Government will require. The notification of a longer period for issuance of a final decision will be made within 60 days after receipt of the response to the challenge notice.

(ii) The Government agrees that it will continue to be bound by the asserted restriction for a period of 90 days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. The Contractor or subcontractor agrees that, if it intends to file suit in the United States Court of Federal Claims, it will provide a notice of intent to file suit to the Contracting Officer within 90 days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. If the Contractor or subcontractor fails to appeal, file suit, or provide a notice of intent to file suit to the Contracting Officer within the 90-day period, the Government may cancel or ignore the restrictive markings that are based on the asserted restrictions, and the failure of the Contractor or subcontractor to take the required action constitutes agreement with such Government action.

(iii) The Government agrees that it will continue to be bound by the asserted restriction where a notice of intent to file suit in the United States Court of Federal Claims is provided to the Contracting Officer within 90 days from the issuance of the final decision under paragraph (g)(2)(i) of this clause. The Government will no longer be bound, and the Contractor or subcontractor agrees that the Government may strike or ignore the restrictive marking that is based on the asserted restriction, if the Contractor or subcontractor fails to file its suit within 1 year after issuance of the final decision. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, that urgent or compelling circumstances will not permit waiting for the filing of a suit in the United States Court of Federal Claims, the Contractor or subcontractor agrees that the agency may, following notice to the Contractor or subcontractor, authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its asserted restrictions are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(iv) The Government agrees that it will be bound by the asserted restrictions where an appeal or suit is filed pursuant to the Contract Disputes statute until final disposition by an agency Board of Contract Appeals or the United States Court of Federal Claims. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, following notice to the Contractor that urgent or compelling circumstances will not permit awaiting the decision by such Board of Contract Appeals or the United States Court of Federal Claims, the Contractor or subcontractor agrees that the agency may authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its asserted restrictions are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(h) Final disposition of appeal or suit.

(1) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is sustained—

(i) The restrictive marking that is based on the asserted restriction on the technical data shall be cancelled, corrected, or ignored; and

(ii) If the asserted restriction is found not to be substantially justified, the Contractor or subcontractor, as appropriate, shall be liable to the Government for payment of the cost to the Government of reviewing the asserted restriction and the

fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the asserted restriction, unless special circumstances would make such payment unjust.

(2) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is not sustained—

(i) The Government will continue to be bound by the restrictive marking; and

(ii) The Government will be liable to the Contractor or subcontractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Contractor or subcontractor in defending the marking, if the challenge by the Government is found not to have been made in good faith.

(i) *Duration of right to challenge.*

(1) The Government may review the validity of any restriction on technical data, delivered or to be delivered under a contract, asserted by the Contractor or subcontractor. During the period within 6 years of final payment on a contract or within 6 years of delivery of the technical data to the Government, whichever is later, the Contracting Officer may review and make a written determination to challenge the restriction. The Government may, however, challenge a restriction on the release, disclosure, or use of technical data at any time if such technical data—

(i) Are publicly available;

(ii) Have been furnished to the United States without restriction;

(iii) Have been otherwise made available without restriction; or

(iv) Are the subject of a fraudulently asserted use or release restriction.

(2) Only the Contracting Officer's final decision resolving a formal challenge by sustaining the validity of a restrictive marking constitutes “validation” as addressed in 10 U.S.C. 3785(c).

(j) *Decision not to challenge.* A decision by the Government, or a determination by the Contracting Officer, to not challenge the restrictive marking or asserted restriction shall not constitute “validation.”

(k) *Privity of contract.* The Contractor or subcontractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors at any tier that assert restrictions. However, this clause neither creates nor implies privity of contract between the Government and subcontractor.

(l) *Flowdown.* The Contractor or subcontractor agrees to insert this clause in contractual instruments, including subcontracts and other contractual instruments for commercial products or commercial services, with its subcontractors or suppliers at any tier requiring the delivery of technical data.

(End of clause)

252.227-7038 Patent Rights—Ownership by the Contractor (Large Business).

As prescribed in [227.303](#) (2), use the following clause:

PATENT RIGHTS—OWNERSHIP BY THE CONTRACTOR (LARGE BUSINESS) (JUN 2012)

(a) *Definitions.* As used in this clause—

“Invention” means—

(1) Any invention or discovery that is or may be patentable or otherwise protectable under Title 35 of the United States Code; or

(2) Any variety of plant that is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321, *et seq.*).

“Made”—

(1) When used in relation to any invention other than a plant variety, means the conception or first actual reduction to practice of the invention; or

(2) When used in relation to a plant variety, means that the Contractor has at least tentatively determined that the variety has been reproduced with recognized characteristics.

“Nonprofit organization” means—

(1) A university or other institution of higher education;

(2) An organization of the type described in the Internal Revenue Code at 26 U.S.C. 501(c)(3) and exempt from taxation under 26 U.S.C. 501(a); or

(3) Any nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

“Practical application” means—

(1)(i) To manufacture, in the case of a composition or product;

- (ii) To practice, in the case of a process or method; or
- (iii) To operate, in the case of a machine or system; and
- (2) In each case, under such conditions as to establish that—

- (i) The invention is being utilized; and
 - (ii) The benefits of the invention are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

“Subject invention” means any invention of the Contractor made in the performance of work under this contract.

(b) *Contractor’s rights.*

(1) *Ownership.* The Contractor may elect to retain ownership of each subject invention throughout the world in accordance with the provisions of this clause.

(2) *License.*

(i) The Contractor shall retain a nonexclusive royalty-free license throughout the world in each subject invention to which the Government obtains title, unless the Contractor fails to disclose the invention within the times specified in paragraph (c) of this clause. The Contractor’s license—

(A) Extends to any domestic subsidiaries and affiliates within the corporate structure of which the Contractor is a part;

(B) Includes the right to grant sublicenses to the extent the Contractor was legally obligated to do so at the time of contract award; and

(C) Is transferable only with the approval of the agency, except when transferred to the successor of that part of the Contractor’s business to which the invention pertains.

(ii) The agency—

(A) May revoke or modify the Contractor’s domestic license to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with 37 CFR Part 404 and agency licensing regulations;

(B) Will not revoke the license in that field of use or the geographical areas in which the Contractor has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public; and

(C) May revoke or modify the license in any foreign country to the extent the Contractor, its licensees, or the domestic subsidiaries or affiliates have failed to achieve practical application in that foreign country.

(iii) Before revoking or modifying the license, the agency—

(A) Will furnish the Contractor a written notice of its intention to revoke or modify the license; and

(B) Will allow the Contractor 30 days (or such other time as the funding agency may authorize for good cause shown by the Contractor) after the notice to show cause why the license should not be revoked or modified.

(iv) The Contractor has the right to appeal, in accordance with 37 CFR Part 404 and agency regulations, concerning the licensing of Government-owned inventions, any decision concerning the revocation or modification of the license.

(c) *Contractor’s obligations.*

(1) The Contractor shall—

(i) Disclose, in writing, each subject invention to the Contracting Officer within 2 months after the inventor discloses it in writing to Contractor personnel responsible for patent matters, or within 6 months after the Contractor first becomes aware that a subject invention has been made, whichever is earlier;

(ii) Include in the disclosure—

(A) The inventor(s) and the contract under which the invention was made;

(B) Sufficient technical detail to convey a clear understanding of the invention; and

(C) Any publication, on sale (i.e., sale or offer for sale), or public use of the invention and whether a manuscript describing the invention has been submitted for publication and, if so, whether it has been accepted for publication; and

(iii) After submission of the disclosure, promptly notify the Contracting Officer of the acceptance of any manuscript describing the invention for publication and of any on sale or public use.

(2) The Contractor shall elect in writing whether or not to retain ownership of any subject invention by notifying the Contracting Officer at the time of disclosure or within 8 months of disclosure, as to those countries (including the United States) in which the Contractor will retain ownership. However, in any case where publication, on sale, or public use has initiated the 1-year statutory period during which valid patent protection can be obtained in the United States, the agency may shorten the period of election of title to a date that is no more than 60 days prior to the end of the statutory period.

(3) The Contractor shall—

(i) File either a provisional or a nonprovisional patent application on an elected subject invention within 1 year after election, provided that in all cases the application is filed prior to the end of any statutory period wherein valid patent protection can be obtained in the United States after a publication, on sale, or public use;

(ii) File a nonprovisional application within 10 months of the filing of any provisional application; and

(iii) File patent applications in additional countries or international patent offices within either 10 months of the first filed patent application (whether provisional or nonprovisional) or 6 months from the date the Commissioner of Patents grants permission to file foreign patent applications where such filing has been prohibited by a Secrecy Order.

(4) The Contractor may request extensions of time for disclosure, election, or filing under paragraphs (c)(1), (2), and (3) of this clause. The Contracting Officer will normally grant the extension unless there is reason to believe the extension would prejudice the Government's interests.

(d) *Government's rights.*

(1) *Ownership.* The Contractor shall assign to the agency, upon written request, title to any subject invention—

(i) If the Contractor elects not to retain title to a subject invention;

(ii) If the Contractor fails to disclose or elect the subject invention within the times specified in paragraph (c) of this clause and the agency requests title within 60 days after learning of the Contractor's failure to report or elect within the specified times;

(iii) In those countries in which the Contractor fails to file patent applications within the times specified in paragraph (c) of this clause, provided that, if the Contractor has filed a patent application in a country after the times specified in paragraph (c) of this clause, but prior to its receipt of the written request of the agency, the Contractor shall continue to retain ownership in that country; and

(iv) In any country in which the Contractor decides not to continue the prosecution of any application for, to pay the maintenance fees on, or defend in reexamination or opposition proceeding on, a patent on a subject invention.

(2) *License.* If the Contractor retains ownership of any subject invention, the Government shall have a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on behalf of the United States, the subject invention throughout the world.

(e) *Contractor action to protect the Government's interest.*

(1) The Contractor shall execute or have executed and promptly deliver to the agency all instruments necessary to—

(i) Establish or confirm the rights the Government has throughout the world in those subject inventions in which the Contractor elects to retain ownership; and

(ii) Assign title to the agency when requested under paragraph (d)(1) of this clause and enable the Government to obtain patent protection for that subject invention in any country.

(2) The Contractor shall—

(i) Require, by written agreement, its employees, other than clerical and nontechnical employees, to—

(A) Disclose each subject invention promptly in writing to personnel identified as responsible for the administration of patent matters, so that the Contractor can comply with the disclosure provisions in paragraph (c) of this clause; and

(B) Provide the disclosure in the Contractor's format, which should require, as a minimum, the information required by paragraph (c)(1) of this clause;

(ii) Instruct its employees, through employee agreements or other suitable educational programs, as to the importance of reporting inventions in sufficient time to permit the filing of patent applications prior to U.S. or statutory foreign bars; and

(iii) Execute all papers necessary to file patent applications on subject inventions and to establish the Government's rights in the subject inventions.

(3) The Contractor shall notify the Contracting Officer of any decisions not to file a nonprovisional patent application, continue the prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on a patent, in any country, not less than 30 days before the expiration of the response or filing period required by the relevant patent office.

(4) The Contractor shall include, within the specification of any United States nonprovisional patent application and any patent issuing thereon covering a subject invention, the following statement: "This invention was made with Government support under (identify the contract) awarded by (identify the agency). The Government has certain rights in this invention."

(5) The Contractor shall—

(i) Establish and maintain active and effective procedures to ensure that subject inventions are promptly identified and disclosed to Contractor personnel responsible for patent matters;

- (ii) Include in these procedures the maintenance of—
 - (A) Laboratory notebooks or equivalent records and other records as are reasonably necessary to document the conception and/or the first actual reduction to practice of subject inventions; and
 - (B) Records that show that the procedures for identifying and disclosing the inventions are followed; and
 - (iii) Upon request, furnish the Contracting Officer a description of these procedures for evaluation and for determination as to their effectiveness.
- (6) The Contractor shall, when licensing a subject invention, arrange to—
 - (i) Avoid royalty charges on acquisitions involving Government funds, including funds derived through the Government's Military Assistance Program or otherwise derived through the Government;
 - (ii) Refund any amounts received as royalty charges on the subject inventions in acquisitions for, or on behalf of, the Government; and
 - (iii) Provide for the refund in any instrument transferring rights in the invention to any party.
- (7) The Contractor shall furnish to the Contracting Officer the following:
 - (i) Interim reports every 12 months (or any longer period as may be specified by the Contracting Officer) from the date of the contract, listing subject inventions during that period and stating that all subject inventions have been disclosed or that there are no subject inventions.
 - (ii) A final report, within 3 months after completion of the contracted work, listing all subject inventions or stating that there were no subject inventions, and listing all subcontracts at any tier containing a patent rights clause or stating that there were no subcontracts.
- (8)(i) The Contractor shall promptly notify the Contracting Officer in writing upon the award of any subcontract at any tier containing a patent rights clause by identifying—
 - (A) The subcontractor;
 - (B) The applicable patent rights clause;
 - (C) The work to be performed under the subcontract; and
 - (D) The dates of award and estimated completion.
 - (ii) The Contractor shall furnish, upon request, a copy of the subcontract, and no more frequently than annually, a listing of the subcontracts that have been awarded.
- (9) In the event of a refusal by a prospective subcontractor to accept one of the clauses specified in paragraph (l)(1) of this clause, the Contractor—
 - (i) Shall promptly submit a written notice to the Contracting Officer setting forth the subcontractor's reasons for the refusal and other pertinent information that may expedite disposition of the matter; and
 - (ii) Shall not proceed with that subcontract without the written authorization of the Contracting Officer.
- (10) The Contractor shall provide to the Contracting Officer, upon request, the following information for any subject invention for which the Contractor has retained ownership:
 - (i) Filing date.
 - (ii) Serial number and title.
 - (iii) A copy of any patent application (including an English-language version if filed in a language other than English).
 - (iv) Patent number and issue date.
- (11) The Contractor shall furnish to the Government, upon request, an irrevocable power to inspect and make copies of any patent application file.
- (f) *Reporting on utilization of subject inventions.*
 - (1) The Contractor shall—
 - (i) Submit upon request periodic reports no more frequently than annually on the utilization of a subject invention or on efforts in obtaining utilization of the subject invention that are being made by the Contractor or its licensees or assignees;
 - (ii) Include in the reports information regarding the status of development, date of first commercial sale or use, gross royalties received by the Contractor, and other information as the agency may reasonably specify; and
 - (iii) Provide additional reports that the agency may request in connection with any march-in proceedings undertaken by the agency in accordance with paragraph (h) of this clause.
 - (2) To the extent permitted by law, the agency shall not disclose the information provided under paragraph (f)(1) of this clause to persons outside the Government without the Contractor's permission, if the data or information is considered by the Contractor or its licensee or assignee to be "privileged and confidential" (see 5 U.S.C. 552(b)(4)) and is so marked.

(g) *Preference for United States industry.* Notwithstanding any other provision of this clause, the Contractor agrees that neither the Contractor nor any assignee shall grant to any person the exclusive right to use or sell any subject invention in the United States unless the person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the agency may waive the requirement for an exclusive license agreement upon a showing by the Contractor or its assignee that—

(1) Reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States; or

(2) Under the circumstances, domestic manufacture is not commercially feasible.

(h) *March-in rights.* The Contractor acknowledges that, with respect to any subject invention in which it has retained ownership, the agency has the right to require licensing pursuant to 35 U.S.C. 203 and 210(c), 37 CFR 401.6, and any supplemental regulations of the agency in effect on the date of contract award.

(i) *Other inventions.* Nothing contained in this clause shall be deemed to grant to the Government any rights with respect to any invention other than a subject invention.

(j) *Examination of records relating to inventions.*

(1) The Contracting Officer or any authorized representative shall, until 3 years after final payment under this contract, have the right to examine any books (including laboratory notebooks), records, and documents of the Contractor relating to the conception or first reduction to practice of inventions in the same field of technology as the work under this contract to determine whether—

(i) Any inventions are subject inventions;

(ii) The Contractor has established procedures required by paragraph (e)(5) of this clause; and

(iii) The Contractor and its inventors have complied with the procedures.

(2) If the Contracting Officer learns of an unreported Contractor invention that the Contracting Officer believes may be a subject invention, the Contractor shall be required to disclose the invention to the agency for a determination of ownership rights.

(3) Any examination of records under this paragraph (j) shall be subject to appropriate conditions to protect the confidentiality of the information involved.

(k) *Withholding of payment (this paragraph does not apply to subcontracts).*

(1) Any time before final payment under this contract, the Contracting Officer may, in the Government's interest, withhold payment until a reserve not exceeding \$50,000 or 5 percent of the amount of the contract, whichever is less, is set aside if, in the Contracting Officer's opinion, the Contractor fails to—

(i) Establish, maintain, and follow effective procedures for identifying and disclosing subject inventions pursuant to paragraph (e)(5) of this clause;

(ii) Disclose any subject invention pursuant to paragraph (c)(1) of this clause;

(iii) Deliver acceptable interim reports pursuant to paragraph (e)(7)(i) of this clause; or

(iv) Provide the information regarding subcontracts pursuant to paragraph (e)(8) of this clause.

(2) The reserve or balance shall be withheld until the Contracting Officer has determined that the Contractor has rectified whatever deficiencies exist and has delivered all reports, disclosures, and other information required by this clause.

(3) The Government will not make final payment under this contract before the Contractor delivers to the Contracting Officer—

(i) All disclosures of subject inventions required by paragraph (c)(1) of this clause;

(ii) An acceptable final report pursuant to paragraph (e)(7)(ii) of this clause; and

(iii) All past due confirmatory instruments.

(4) The Contracting Officer may decrease or increase the sums withheld up to the maximum authorized in paragraph (k)(1) of this clause. No amount shall be withheld under this paragraph while the amount specified by this paragraph is being withheld under other provisions of the contract. The withholding of any amount or the subsequent payment thereof shall not be construed as a waiver of any Government right.

(l) *Subcontracts.*

(1) The Contractor—

(i) Shall include the substance of the Patent Rights—Ownership by the Contractor clause set forth at 52.227-11 of the Federal Acquisition Regulation (FAR), in all subcontracts for experimental, developmental, or research work to be performed by a small business concern or nonprofit organization; and

(ii) Shall include the substance of this clause, including this paragraph (l), in all other subcontracts for experimental, developmental, or research work, unless a different patent rights clause is required by FAR 27.303.

(2) For subcontracts at any tier—

(i) The patents rights clause included in the subcontract shall retain all references to the Government and shall provide to the subcontractor all the rights and obligations provided to the Contractor in the clause. The Contractor shall not, as consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions; and

(ii) The Government, the Contractor, and the subcontractor agree that the mutual obligations of the parties created by this clause constitute a contract between the subcontractor and the Government with respect to those matters covered by this clause. However, nothing in this paragraph is intended to confer any jurisdiction under the Contract Disputes statute in connection with proceedings under paragraph (h) of this clause.

(End of clause)

ALTERNATE I (DEC 2007).

As prescribed in [227.303](#) (2)(ii), add the following paragraph (b)(2)(v) to the basic clause:

(v) The license shall include the right of the Government to sublicense foreign governments, their nationals, and international organizations pursuant to the following treaties or international agreements: _____*.

[* Contracting Officer to complete with the names of applicable existing treaties or international agreements. This paragraph is not intended to apply to treaties or agreements that are in effect on the date of the award but are not listed.]

ALTERNATE II (DEC 2007).

As prescribed in [227.303](#) (2)(iii), add the following paragraph (b)(2)(v) to the basic clause:

(v) The agency reserves the right to—

(A) Unilaterally amend this contract to identify specific treaties or international agreements entered into or to be entered into by the Government after the effective date of this contract; and

(B) Exercise those license or other rights that are necessary for the Government to meet its obligations to foreign governments, their nationals, and international organizations under any treaties or international agreement with respect to subject inventions made after the date of the amendment.

252.227-7039 Patents—Reporting of Subject Inventions.

As prescribed in [227.303](#) (1), use the following clause:

PATENTS—REPORTING OF SUBJECT INVENTIONS (APR 1990)

The Contractor shall furnish the Contracting Officer the following:

(a) Interim reports every twelve (12) months (or such longer period as may be specified by the Contracting Officer) from the date of the contract, listing subject inventions during that period and stating that all subject inventions have been disclosed or that there are no such inventions.

(b) A final report, within three (3) months after completion of the contracted work, listing all subject inventions or stating that there were no such inventions.

(c) Upon request, the filing date, serial number and title, a copy of the patent application and patent number, and issue data for any subject invention for which the Contractor has retained title.

(d) Upon request, the Contractor shall furnish the Government an irrevocable power to inspect and make copies of the patent application file.

(End of clause)

252.227-7040 Additional Preaward Requirements for Small Business Technology Transfer Program.

As prescribed in [227.7104](#)-4(c)(1), use the following provision:

ADDITIONAL PREAWARD REQUIREMENTS FOR SMALL BUSINESS TECHNOLOGY TRANSFER PROGRAM (JAN 2025)

(a) Definitions. As used in this provision, the terms “research institution” and “United States” have the meaning given in the 252.227-7041, Additional Postaward Requirements for Small Business Technology Transfer Program, clause of this solicitation.

- (b) Offers submitted in response to this solicitation shall include the following:
- (1) The written agreement between the Offeror and a research institution, which shall contain—
 - (i) A specific allocation of ownership, rights, and responsibilities for intellectual property (including inventions, patents, technical data, and computer software) resulting from the Small Business Technology Transfer (STTR) Program award;
 - (ii) Identification of which party to the written agreement may obtain United States or foreign patents or otherwise protect any inventions that result from a STTR award; and
 - (iii) No terms or conditions that conflict with the requirements of the clause at 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, or this provision, including the rights of the United States, the Offeror, and the research institution regarding intellectual property, and regarding any right to carry out follow-on research.
 - (2) The Offeror's written representation that—
 - (i) The Offeror is satisfied with its written agreement with the research institution; and
 - (ii) The written agreement does not conflict with the requirements of this solicitation.
 - (c) The Offeror shall submit the written representation required by paragraph (b)(2) of this provision as an attachment to its offer, dated and signed by an official authorized to contractually obligate the Offeror.
 - (d) The Offeror's failure to submit the written agreement or written representation required by paragraph (b) of this provision with its offer may render the offer ineligible for award.
 - (e) If the Offeror is awarded a contract, the Contracting Officer will include the written agreement and written representation required by paragraph (b) of this provision in an attachment to that contract.

(End of provision)

252.227-7041 Additional Postaward Requirements for Small Business Technology Transfer Program.

As prescribed in 27.7104-4(c)(2), use the following clause:

**ADDITIONAL POSTAWARD REQUIREMENTS FOR SMALL
BUSINESS TECHNOLOGY TRANSFER PROGRAM (JAN 2025)**

- (a) Definitions. As used in this clause—
- “Research institution” means an institution or entity that—
- (1) Has a place of business located in the United States;
 - (2) Operates primarily within the United States or makes a significant contribution to the U.S. economy through payment of taxes or use of American products, materials, or labor; and
 - (3) Is either—
 - (i) A nonprofit institution that is owned and operated exclusively for scientific or educational purposes, no part of the net earnings of which inures to the benefit of any private shareholder or individual (section 4(3) of the Stevenson-Wydler Technology Innovation Act of 1980); or
 - (ii) A federally-funded research or research and development center as identified by the National Science Foundation (<https://www.nsf.gov/statistics/ffrdclist/>) in accordance with the guidance at Federal Acquisition Regulation 35.017.
- “United States” means the 50 States and the District of Columbia, the territories and possessions of the Government, the Commonwealth of Puerto Rico, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.
- (b) Preaward submissions. Attached to this contract are the following documents, submitted by the Contractor pursuant to Defense Federal Acquisition Regulation Supplement (DFARS) 252.227-7040, Additional Preaward Requirements for Small Business Technology Transfer Program:
- (1) The written agreement between the Contractor and a research institution.
 - (2) The Contractor's written representation that the Contractor is satisfied with that written agreement, which does not conflict with the clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, or this clause.
 - (c) Postaward updates. The Contractor shall not allow any modification to its written agreement with the research institution, unless the written agreement, as modified, contains—

- (1) A specific allocation of ownership, rights, and responsibilities for intellectual property (including inventions, patents, technical data, and computer software) resulting from performance of this contract;
- (2) Identification of which party to the written agreement may obtain United States or foreign patents or otherwise protect any inventions that result from a Small Business Technology Transfer Program award;
- (3) The Contractor's written, dated, and signed representation that—
 - (i) The Contractor is satisfied with its written agreement with the research institution, as modified; and
 - (ii) The written agreement, as modified, does not conflict with the clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, or this clause; and
- (4) No terms and conditions that conflict with the clause at DFARS 252.227-7018, Rights in Other Than Commercial Technical Data and Computer Software—Small Business Innovation Research Program and Small Business Technology Transfer Program, or this clause, including the rights of the United States, the Contractor, and the research institution regarding intellectual property, and regarding any right to carry out follow-on research.
- (d) Submission of updated agreement. Within 30 days of execution of the modified written agreement described in paragraph (b)(1) of this clause, the Contractor shall submit a copy of that updated written agreement and the updated written representation described in paragraph (b)(2) of this clause to the Contracting Officer for review and attachment to this contract.

(End of clause)

252.228 RESERVED

252.228-7000 Reimbursement for War-Hazard Losses.

As prescribed in [228.371](#) (a), use the following clause:

REIMBURSEMENT FOR WAR-HAZARD LOSSES (DEC 1991)

- (a) Costs for providing employee war-hazard benefits in accordance with paragraph (b) of the Workers' Compensation and War-Hazard Insurance clause of this contract are allowable if the Contractor—
 - (1) Submits proof of loss files to support payment or denial of each claim;
 - (2) Subject to Contracting Officer approval, makes lump sum final settlement of any open claims and obtains necessary release documents within one year of the expiration or termination of this contract, unless otherwise extended by the Contracting Officer; and
 - (3) Provides the Contracting Officer at the time of final settlement of this contract—
 - (i) An investigation report and evaluation of any potential claim; and
 - (ii) An estimate of the dollar amount involved should the potential claim mature.
- (b) The cost of insurance for liabilities reimbursable under this clause is not allowable.
- (c) The Contracting Officer may require the Contractor to assign to the Government all right, title, and interest to any refund, rebate, or recapture arising out of any claim settlements.
- (d) The Contractor agrees to—
 - (1) Investigate and promptly notify the Contracting Officer in writing of any occurrence which may give rise to a claim or potential claim, including the estimated amount of the claim;
 - (2) Give the Contracting Officer immediate written notice of any suit or action filed which may result in a payment under this clause; and
 - (3) Provide assistance to the Government in connection with any third party suit or claim relating to this clause which the Government elects to prosecute or defend in its own behalf.

(End of clause)

252.228-7001 Ground and Flight Risk.

As prescribed in [228.371](#) (b), use the following clause:

GROUND AND FLIGHT RISK (MAR 2023)

(a) *Definitions.* As used in this clause—

“Aircraft” means, unless otherwise provided in the contract Schedule, any item, other than a rocket or missile, intended for flight (e.g., fixed-winged aircraft, blended wing/lifting bodies, helicopters, vertical take-off or landing aircraft, lighter-than-air airships, and unmanned aerial vehicles), including emerging technologies that would commonly be considered aircraft. New production articles become aircraft at a stage of manufacture or production when a wing, portion of a wing, or engine is attached to a fuselage. Blended wing/lifting bodies become aircraft at a stage of manufacture or production when the center portion and a lifting surface become attached.

“Contractor’s managerial personnel” means the Contractor’s directors, officers, managers, superintendents, or equivalent representatives who have supervision or direction of—

- (1) All, or substantially all, of the Contractor’s business;
- (2) All, or substantially all, of the Contractor’s operation at any one plant or separate location; or
- (3) A separate and complete major industrial operation.

“Contractor’s premises” means those premises, including subcontractors’ premises, designated in the Schedule or in writing by the Contracting Officer, and any other place the aircraft is moved for safeguarding.

“Covered aircraft” means an aircraft owned by or to be delivered to the Government and, when determined by the contracting officer and specifically identified as such in the contract Schedule, may include contractor-furnished aircraft that are not intended for induction into the DoD inventory, including—

- (1) Aircraft furnished by the Government to the Contractor under this contract while in the Contractor’s possession, care, custody, or control regardless of their location or state of disassembly or reassembly;
- (2) Items removed from a Government-furnished aircraft that are—
 - (i) Intended for reinstallation on that particular aircraft, which retain their status as covered aircraft while awaiting installation; and
 - (ii) Not intended for reinstallation on that particular aircraft, which lose their status as covered aircraft once removal is complete;
- (3) New production aircraft when wholly outside of buildings on the Contractor’s premises or other places described in the Schedule (e.g., hush houses, run stations, and paint facilities); and

(4) Commercial aircraft, to include commercially available off-the-shelf aircraft, become covered aircraft when the commercial aircraft arrives at the Contractor’s place of performance for modification under the terms of the contract.

“Crewmember” means, unless otherwise provided in the Schedule, personnel required in the flight manual, assigned for the purpose of conducting any flight on behalf of the Contractor. It also includes any operator of an unmanned aerial vehicle.

“Flight” means any flight approved in writing by the Government flight representative, to include taxi test made in the performance of this contract, or flight for the purpose of safeguarding the aircraft. All aircraft off the Contractor’s premises shall be considered to be in flight when on the ground or water for reasonable periods of time following emergency landings, landings made in performance of the contract, or landings approved in writing by the contracting officer.

“Workmanship error” means damage to the aircraft that is the result of an incorrectly performed skill-based task, operation, or action that was originally planned or intended.

(b) *Combined regulation/instruction.* The Contractor shall be bound by the operating procedures contained in the combined regulation/instruction entitled “Contractor’s Flight and Ground Operations” (Air Force Instruction 10-220, Army Regulation 95-20, NAVAIR Instruction 3710.1 (Series), Coast Guard Instruction M13020.3, and Defense Contract Management Agency Instruction 8210 - 1 (Series)) in effect on the date of contract award. Compliance with the combined regulation/instruction is required from the time of contract award throughout the period of performance of the contract, regardless of the Government’s assumption of risk under the contract.

(c) *Government as self-insurer.* The Government self-insures and assumes the risk of damage to, or loss or destruction of, covered aircraft subject to the following conditions:

- (1) The Contractor’s liability to the Government for damage, loss, or destruction of covered aircraft is limited to the Contractor’s share of loss as defined at paragraph (h) of this clause, except when one of the exclusions at paragraph (d) applies.
- (2) The liability provisions of this clause take precedence over the liability provisions of Federal Acquisition Regulation (FAR) clause 52.245-1, Government Property, with respect to covered aircraft.
- (3) The Contractor is not liable for loss, damage, or destruction of covered aircraft as the result of normal wear and tear, or intentional damage or destruction as required in the Schedule.
- (4) Conditions for Government assumption of risk in flight are as follows:
 - (i) The Contractor’s crewmembers are approved in writing by the Government flight representative(GFR).

(ii) The flight is approved in writing by the GFR.

(d) *Exclusions from the Government's assumption of risk.* The Government's assumption of risk under this clause shall not extend to damage, loss, or destruction of covered aircraft which—

(1) Is the result of willful misconduct or lack of good faith on the part of the Contractor's managerial personnel, including the Contractor's oversight of subcontractors;

(2) Is sustained during flight if either the flight or the crewmembers have not been approved in advance and writing by the GFR, who has been authorized in accordance with the combined regulation/instruction entitled "Contractor's Flight and Ground Operations";

(3) Occurs in the course of transportation by rail, or by conveyance on public streets, highways, or waterways, unless the transportation is limited to the vicinity of the Contractor's premises, and incidental to work performed under the contract as described in the Schedule;

(4) Is covered by insurance;

(5) Occurs after the Contracting Officer has, in writing, revoked the Government's assumption of risk in accordance with paragraph (e)(3) of this clause; or

(6) Is sustained due to workmanship errors.

(e) *Revoking the Government's assumption of risk.*

(1) The Contracting Officer, when finding that the Contractor's managerial personnel have failed to comply with paragraph (b) of this clause, will issue a preliminary notice of revocation requiring the Contractor to comply with contract requirements within a timeframe specified by the Contracting Officer. In determining exposure to unreasonable conditions, the Contracting Officer will consider factors including, but not limited to, the following: lack of adequate hangar fire suppression or firefighting vehicles, failure to provide adequate procedures to the GFR, or systemic failure to comply with approved procedures.

(2) Upon receipt of the preliminary notice of revocation, the Contractor shall promptly correct the noncompliance or cited conditions, regardless of whether there is agreement that the conditions are unreasonable.

(3) If the Contracting Officer finds that the Contractor failed to correct the cited noncompliance or conditions within the specified timeframe, the Contracting Officer will issue a notice of revocation of the Government's assumption of risk for any covered aircraft.

(4) If the Contracting Officer issues a notice of revocation pursuant to the terms of this clause—

(i) The Contractor shall thereafter assume the entire risk for damage, loss, or destruction of the previously covered aircraft;

(ii) Any costs incurred by the Contractor (including the costs of the Contractor's self-insurance, insurance premiums paid to insure the Contractor's assumption of risk, deductibles associated with such purchased insurance, etc.) to mitigate its risk are unallowable costs; and

(iii) The liability provisions of the clause at FAR [52.245-1](#), Government Property, are not applicable to the aircraft impacted by the notice of revocation.

(5) The Contractor shall promptly notify the Contracting Officer when the noncompliance or cited conditions have been corrected. Within 3 days of receipt of the Contractor's notice of correction, the Contracting Officer will notify the Contractor whether the Government will resume risk of loss. The Contracting Officer will determine that the noncompliance or cited conditions have been corrected prior to resuming assumption of risk.

(6) The notice of revocation does not relieve the Contractor of its obligation to comply with all other provisions of this clause, including the combined regulation/instruction entitled "Contractor's Flight and Ground Operations."

(7) Any disputes regarding the Contracting Officer's notice of revocation shall be subject to FAR clause [52.233-1](#), Disputes.

(f) *Contractor's exclusion of insurance costs.* The Contractor warrants that the contract price does not and will not include, except as may be authorized in this clause, any charge or contingency reserve for insurance (including the Contractor's share of loss) covering damage, loss, or destruction of covered aircraft when the risk has been assumed by the Government, even if the assumption may be terminated for covered aircraft.

(g) *Procedures in the event of damage, loss, or destruction.*

(1) In the event of damage, loss, or destruction of covered aircraft the Contractor shall take all reasonable steps to protect the aircraft from further damage, to separate damaged and undamaged aircraft and to put all aircraft in the best possible order. Except in cases covered by paragraph (h)(2) of this clause, the Contractor shall furnish to the Contracting Officer a statement of—

(i) The damaged, lost, or destroyed aircraft;

- (ii) The time and origin of the damage, loss, or destruction;
- (iii) All known interests in commingled property of which aircraft are a part; and
- (iv) The insurance, if any, covering the interest in commingled property.

(2) If a new production aircraft is damaged, lost, or destroyed before it has become a covered aircraft, the Government bears no responsibility for risk of loss.

(3) If a new production aircraft is damaged, lost, or destroyed after it has become a covered aircraft, the Contractor shall take action in accordance with the Contracting Officer's written direction that the aircraft shall be—

- (i) Replaced;
- (ii) Repaired to the condition immediately prior to the damage; or
- (iii) Considered beyond economic repair. The Contracting Officer will decide whether further actions are required under the contract.

(4) If a covered aircraft that has been furnished by the Government to the Contractor is damaged, lost, or destroyed while covered, the Contractor shall take action in accordance with the Contracting Officer's written direction that the aircraft shall be—

- (i) Repaired; or
- (ii) Considered beyond economic repair. The Contracting Officer will decide further actions required under the contract.

(5) The Contracting Officer will make an equitable adjustment for expenditures made in performing the obligations under this paragraph (g).

(h) Contractor's share of loss.

(1) The Contractor's share of loss or damage to covered aircraft, except for loss or damage caused by negligence of Government personnel, is the least of—

- (i) \$200,000;
- (ii) 20 percent of the price or estimated acquisition cost of affected aircraft; or
- (iii) 20 percent of the price or estimated cost of the contract, task order, or delivery order.

(2) If the Government requires covered aircraft be replaced or repaired by the Contractor, any resulting equitable adjustment shall not include reimbursement of the Contractor's share of loss.

(3) In the event the Government does not decide to replace or repair, the Contractor agrees to credit the contract price or pay the Government, as directed by the Contracting Officer, the least of—

- (i) \$200,000;
- (ii) 20 percent of the price or estimated acquisition cost of affected aircraft; or
- (iii) 20 percent of the price or estimated cost of the contract, task order, or delivery order.

(4) The costs incurred by the Contractor for its share of the loss and for insuring against that loss are unallowable costs, including but not limited to—

- (i) The Contractor's share of loss under the Government's self-insurance;
- (ii) The costs of the Contractor's self-insurance;
- (iii) The deductible for any Contractor-purchased insurance;
- (iv) Insurance premiums paid for Contractor-purchased insurance; and
- (v) Costs associated with determining, litigating, and defending against the Contractor's liability.

(i) *Reimbursement from a third party.* In the event the Contractor is reimbursed or compensated by a third party for damage, loss, or destruction of covered aircraft and has also been compensated by the Government, the Contractor shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for damage, loss, or destruction. Upon the request of the Contracting Officer or authorized representative, the Contractor shall at Government expense furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment or subrogation) in obtaining recovery.

(j) *Liability to third parties.* Unless the flight and crewmembers have been approved in writing by the GFR, the Contractor shall not be reimbursed for liability to third parties for loss or damage to property or for death or bodily injury caused by covered aircraft during flight, even if the Government has accepted such liability under any other provisions of the contract.

(k) *Subcontracts.* The Contractor shall incorporate the requirements of this clause, including this paragraph (k), in subcontracts to include subcontracts for commercial products and commercial services, except—

(1) The Contractor shall not include paragraph (f) of this clause in subcontracts for commercial products or commercial services; and

(2) The Contractor shall not incorporate the requirements of this clause in subcontracts with Federal Aviation Administration (FAA) part 145 repair stations performing work pursuant to their FAA license.

(End of clause)

252.228-7002 Reserved

252.228-7003 Capture and Detention.

As prescribed in [228.371](#) (c), use the following clause:

CAPTURE AND DETENTION (DEC 1991)

(a) As used in this clause—

(1) “Captured person” means any employee of the Contractor who is—

(i) Assigned to duty outside the United States for the performance of this contract; and

(ii) Found to be missing from his or her place of employment under circumstances that make it appear probable that the absence is due to the action of the force of any power not allied with the United States in a common military effort; or

(iii) Known to have been taken prisoner, hostage, or otherwise detained by the force of such power, whether or not actually engaged in employment at the time of capture; provided, that at the time of capture or detention, the person was either—

(A) Engaged in activity directly arising out of and in the course of employment under this contract; or

(B) Captured in an area where required to be only in order to perform this contract.

(2) A “period of detention” begins with the day of capture and continues until the captured person is returned to the place of employment, the United States, or is able to be returned to the jurisdiction of the United States, or until the person's death is established or legally presumed to have occurred by evidence satisfactory to the Contracting Officer, whichever occurs first.

(3) “United States” comprises geographically the 50 states and the District of Columbia.

(4) “War Hazards Compensation Act” refers to the statute compiled in Chapter 12 of Title 42, U.S. Code (sections 1701-1717), as amended.

(b) If pursuant to an agreement entered into prior to capture, the Contractor is obligated to pay and has paid detention benefits to a captured person, or the person's dependents, the Government will reimburse the Contractor up to an amount equal to the lesser of—

(1) Total wage or salary being paid at the time of capture due from the Contractor to the captured person for the period of detention; or

(2) That amount which would have been payable if the detention had occurred under circumstances covered by the War Hazards Compensation Act.

(c) The period of detention shall not be considered as time spent in contract performance, and the Government shall not be obligated to make payment for that time except as provided in this clause.

(d) The obligation of the Government shall apply to the entire period of detention, except that it is subject to the availability of funds from which payment can be made. The rights and obligations of the parties under this clause shall survive prior expiration, completion, or termination of this contract.

(e) The Contractor shall not be reimbursed under this clause for payments made if the employees were entitled to compensation for capture and detention under the War Hazards Compensation Act, as amended.

(End of clause)

252.228-7004 Reserved.

252.228-7005 Mishap Reporting and Investigation Involving Aircraft, Missiles, and Space Launch Vehicles.

As prescribed in [228.371](#) (d), use the following clause:

MISHAP REPORTING AND INVESTIGATION INVOLVING AIRCRAFT, MISSILES, AND SPACE LAUNCH VEHICLES (NOV 2019)

(a) The Contractor shall report promptly to the Administrative Contracting Officer all pertinent facts relating to each mishap involving an aircraft, missile, or space launch vehicle being manufactured, modified, repaired, or overhauled in connection with this contract.

(b) If the Government conducts an investigation of the mishap, the Contractor shall cooperate and assist the Government's personnel until the investigation is complete.

(c) The Contractor shall include a clause in subcontracts under this contract to require subcontractor cooperation and assistance in mishap investigations.

(End of clause)

252.228-7006 Compliance with Spanish Laws and Insurance.

As prescribed in [228.371](#) (e), use the following clause:

COMPLIANCE WITH SPANISH LAWS AND INSURANCE (DEC 1998)

(a) The requirements of this clause apply only if the Contractor is not a Spanish concern.

(b) The Contractor shall, without additional expense to the United States Government, comply with all applicable Spanish Government laws pertaining to sanitation, traffic, security, employment of labor, and all other laws relevant to the performance of this contract. The Contractor shall hold the United States Government harmless and free from any liability resulting from the Contractor's failure to comply with such laws.

(c) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, all workmen's compensation, employees' liability, bodily injury insurance, and other required insurance adequate to cover the risk assumed by the Contractor. The Contractor shall indemnify and hold harmless the United States Government from liability resulting from all claims for damages as a result of death or injury to personnel or damage to real or personal property related to the performance of this contract.

(d) The Contractor agrees to represent in writing to the Contracting Officer, prior to commencement of work and not later than 15 days after the date of the Notice to Proceed, that the Contractor has obtained the required types of insurance in the following minimum amounts. The representation also shall state that the Contractor will promptly notify the Contracting Officer of any notice of cancellation of insurance or material change in insurance coverage that could affect the United States Government's interests.

Type of Insurance	Coverage per Person	Coverage per Accident	Property Damage
Comprehensive General Liability	\$300,000	\$1,000,000	\$100,000

(e) The Contractor shall provide the Contracting Officer with a similar representation for all subcontracts with non-Spanish concerns that will perform work in Spain under this contract.

(f) Insurance policies required herein shall be purchased from Spanish insurance companies or other insurance companies legally authorized to conduct business in Spain. Such policies shall conform to Spanish laws and regulations and shall—

(1) Contain provisions requiring submission to Spanish law and jurisdiction of any problem that may arise with regard to the interpretation or application of the clauses and conditions of the insurance policy;

(2) Contain a provision authorizing the insurance company, as subrogee of the insured entity, to assume and attend to directly, with respect to any person damaged, the legal consequences arising from the occurrence of such damages;

(3) Contain a provision worded as follows: "The insurance company waives any right of subrogation against the United States of America that may arise by reason of any payment under this policy.";

(4) Not contain any deductible amount or similar limitation; and

(5) Not contain any provisions requiring submission to any type of arbitration.

(End of clause)

252.228-7007 Public Aircraft and State Aircraft Operations—Liability.

As prescribed in 228.371(f), use the following clause:

PUBLIC AIRCRAFT AND STATE AIRCRAFT OPERATIONS—LIABILITY (MAR 2023)

(a) *Definitions.* As used in this clause—

“Civil aircraft” means an [aircraft](#) other than a [public aircraft or state aircraft](#).

“Public aircraft” means an aircraft that meets the definition in 49 U.S.C. 40102(a)(41) and the qualifications in 49 U.S.C. 40125. Specifically, a public aircraft means any of the following:

(1) An [aircraft](#) used only for the Government, except as provided in paragraphs (5) and (7) of this definition.

(2) An [aircraft](#) owned by the Government and operated by any [person](#) for purposes related to crew training, equipment development, or demonstration, except as provided in paragraph (7) of this definition.

(3) An [aircraft](#) owned and operated by the government of a State, the District of Columbia, or a territory or possession of the [United States](#) or a political subdivision of one of these governments, except as provided in paragraph (7) of this definition.

(4) An [aircraft](#) exclusively leased for at least 90 continuous days by the government of a State, the District of Columbia, or a territory or possession of the [United States](#) or a political subdivision of one of these governments, except as provided in paragraph (7) of this definition.

(5) An [aircraft](#) owned or operated by the armed forces or chartered to provide transportation or [other commercial air service](#) to the armed forces under the conditions specified by 49 U.S.C. 40125(c). In the preceding sentence, the term “[other commercial air service](#)” means an [aircraft](#) operation that—

(i) Is within the [United States](#) territorial airspace;

(ii) The Administrator of the Federal Aviation Administration determines is available for compensation or hire to the public; and

(iii) Must comply with all applicable [civil aircraft](#) rules under title 14, Code of Federal Regulations.

(6) An unmanned [aircraft](#) that is owned and operated, or exclusively leased for at least 90 continuous days, by an Indian Tribal government, as defined in section 102 of the [Robert T. Stafford Disaster Relief and Emergency Assistance Act \(42 U.S.C. 5122\)](#), except as provided in paragraph (7) of this definition.

(7) As described in 49 U.S.C. 40125(b), an [aircraft](#) described in paragraph (1), (2), (3), or (4) of this definition does not qualify as a [public aircraft](#) when the [aircraft](#) is used for [commercial purposes](#) or to carry an individual other than a crewmember or a [qualified non-crewmember](#).

“Public aircraft operation” means operation of an aircraft that meets the legal definition of public aircraft established in 49 U.S.C. 40102(a)(41) and the legal qualifications for public aircraft status outlined in 49 U.S.C. 40125.

“State aircraft” means an aircraft operated by the Government for sovereign, noncommercial purposes such as military, customs, and police services. Military aircraft are afforded status as state aircraft. In very rare circumstances, DoD-contracted aircraft may be designated, in writing, by a responsible Government official pursuant to DoD Directive 4500.54E, DoD Foreign Clearance Program, to be operated in state aircraft status, and such status cannot be deemed without a written designation by an authorized Government official.

(b) *Combined regulation/instruction.* Upon award, for contract performance to be conducted as a public aircraft operation, the Contractor shall be bound by the operating procedures contained in the combined regulation/instruction entitled “Contractor’s Flight and Ground Operations” (Air Force Instruction 10-220, Army Regulation 95-20, NAVAIR Instruction 3710.1 (Series), Coast Guard Instruction M13020.3 (Series), and Defense Contract Management Agency Instruction 8210-1 (Series)) in effect on the date of contract award.

(c) *Contractor liability for operations for contract performance conducted as public aircraft operations or state aircraft operations.*

(1) The Contractor assumes responsibility for all damage or injury to persons or property, including the Contractor’s employees and property, and Government personnel and property, occasioned through the use, maintenance, and operation of the Contractor’s aircraft or other equipment by, or the action of, the Contractor or the Contractor’s employees and agents.

(2) The Contractor, at the Contractor’s expense, shall maintain adequate public liability and property damage insurance, including hull insurance for the Contractor’s aircraft, during the duration of this contract, insuring the Contractor against all claims for injury or damage.

(3) The Contractor shall maintain workers’ compensation and other legally required insurance with respect to the Contractor’s own employees and agents.

(4) The Government will in no event be liable or responsible for damage or injury to any person or property occasioned through the use, maintenance, or operation of any aircraft or other equipment by, or the action of, the Contractor or the

Contractor's employees and agents in performing under this contract, and the Government shall be indemnified and saved harmless against claims for damage or injury in such cases.

(End of clause)

252.229 RESERVED

252.229-7000 Reserved.

252.229-7001 Tax Relief.

Basic. As prescribed in [229.402-70](#) (a) and (a)(1), use the following clause:

TAX RELIEF—BASIC (APR 2020)

(a) Prices set forth in this contract are exclusive of all taxes and duties from which the United States Government is exempt by virtue of tax agreements between the United States Government and the Contractor's government. The following taxes or duties have been excluded from the contract price:

NAME OF TAX: (Offeror insert)	RATE (PERCENTAGE): (Offeror insert)
-------------------------------	-------------------------------------

(b) Invoices submitted in accordance with the terms and conditions of this contract shall be exclusive of all taxes or duties for which relief is available. The Contractor's invoice shall list separately the gross price, amount of tax deducted, and net price charged.

(c) When items manufactured to United States Government specifications are being acquired, the Contractor shall identify the materials or components intended to be imported in order to ensure that relief from import duties is obtained. If the Contractor intends to use imported products from inventories on hand, the price of which includes a factor for import duties, the Contractor shall ensure the United States Government's exemption from these taxes. The Contractor may obtain a refund of the import duties from its government or request the duty-free import of an amount of supplies or components corresponding to that used from inventory for this contract.

(End of clause)

Alternate I. As prescribed in [229.402-70](#) (a) and (a)(2), use the following clause, which adds a paragraph (d) not included in the basic clause:

TAX RELIEF—ALTERNATE I (APR 2020)

(a) Prices set forth in this contract are exclusive of all taxes and duties from which the United States Government is exempt by virtue of tax agreements between the United States Government and the Contractor's government. The following taxes or duties have been excluded from the contract price:

NAME OF TAX: <i>[Offeror insert]</i>	RATE (PERCENTAGE): <i>[Offeror insert]</i>
--------------------------------------	--

(b) Invoices submitted in accordance with the terms and conditions of this contract shall be exclusive of all taxes or duties for which relief is available. The Contractor's invoice shall list separately the gross price, amount of tax deducted, and net price charged.

(c) When items manufactured to United States Government specifications are being acquired, the Contractor shall identify the materials or components intended to be imported in order to ensure that relief from import duties is obtained. If the Contractor intends to use imported products from inventories on hand, the price of which includes a factor for import duties, the Contractor shall ensure the United States Government's exemption from these taxes. The Contractor may obtain a refund of the import duties from its government or request the duty-free import of an amount of supplies or components corresponding to that used from inventory for this contract.

(d) Tax relief will be claimed in Germany pursuant to the provisions of the Agreement Between the United States of America and Germany Concerning Tax Relief to be Accorded by Germany to United States Expenditures in the Interest of Common Defense. The Contractor shall use Abwicklungsschein fuer abgabenbeguenstigte Lieferungen/Leistungen nach

dem Offshore Steuerabkommen (Performance Certificate for Tax-Free Deliveries/Performance according to the Offshore Tax Relief Agreement) or other documentary evidence acceptable to the German tax authorities. All purchases made and paid for on a tax-free basis during a 30-day period may be accumulated, totaled, and reported as tax-free.

End of clause)

252.229-7002 Customs Exemptions (Germany).

As prescribed in [229.402-70](#) (b), use the following clause:

CUSTOMS EXEMPTIONS (GERMANY) (JUN 1997)

Imported products required for the direct benefit of the United States Forces are authorized to be acquired duty-free by the Contractor in accordance with the provisions of the Agreement Between the United States of America and Germany Concerning Tax Relief to be Accorded by Germany to United States Expenditures in the Interest of Common Defense.

(End of clause)

252.229-7003 Tax Exemptions (Italy).

As prescribed in [229.402-70](#) (c)(1), use the following clause:

TAX EXEMPTIONS (ITALY) (MAR 2012)

(a) As the Contractor represented in its offer, the contract price, including the prices in subcontracts awarded under this contract, does not include taxes from which the United States Government is exempt.

(b) The United States Government is exempt from payment of Imposta Valore Aggiunto (IVA) tax in accordance with Article 72 of the IVA implementing decree on all supplies and services sold to United States Military Commands in Italy.

(1) The Contractor shall include the following information on invoices submitted to the United States Government:

(i) The contract number.

(ii) The IVA tax exemption claimed pursuant to Article 72 of Decree Law 633, dated October 26, 1972.

(iii) The following fiscal code(s): *[Contracting Officer must insert the applicable fiscal code(s) for military activities within Italy: 80028250241 for Army, 80156020630 for Navy, or 91000190933 for Air Force].*

(2)(i) Upon receipt of the invoice, the paying office will include the following certification on one copy of the invoice:

"I certify that this invoice is true and correct and reflects expenditures made in Italy for the Common Defense by the United States Government pursuant to international agreements. The amount to be paid does not include the IVA tax, because this transaction is not subject to the tax in accordance with Article 72 of Decree Law 633, dated October 26, 1972."

An authorized United States Government official will sign the copy of the invoice containing this certification.

(ii) The paying office will return the certified copy together with payment to the Contractor. The payment will not include the amount of the IVA tax.

(iii) The Contractor shall retain the certified copy to substantiate non-payment of the IVA tax.

(3) The Contractor may address questions regarding the IVA tax to the Ministry of Finance, IVA Office, Rome (06) 520741.

(c) In addition to the IVA tax, purchases by the United States Forces in Italy are exempt from the following taxes:

(1) Imposta di Fabbricazione (Production Tax for Petroleum Products).

(2) Imposta di Consumo (Consumption Tax for Electrical Power).

(3) Dazi Doganali (Customs Duties).

(4) Tassa di Sbarco e d'Imbarco sulle Merci Transportate per Via Aerea e per Via Maritima (Port Fees).

(5) Tassa di Circolazione sui Veicoli (Vehicle Circulation Tax).

(6) Imposta di Registro (Registration Tax).

(7) Imposta di Bollo (Stamp Tax).

(End of clause)

252.229-7004 Status of Contractor as a Direct Contractor (Spain).

As prescribed in [229.402-70](#) (d), use the following clause:

STATUS OF CONTRACTOR AS A DIRECT CONTRACTOR (SPAIN) (JUN 1997)

(a) "Direct Contractor," as used in this clause, means an individual, company, or entity with whom an agency of the United States Department of Defense has executed a written agreement that allows duty-free import of equipment, materials, and supplies into Spain for the construction, development, maintenance, and operation of Spanish-American installations and facilities.

(b) The Contractor is hereby designated as a Direct Contractor under the provisions of Complementary Agreement 5, articles 11, 14, 15, 17, and 18 of the Agreement on Friendship, Defense and Cooperation between the United States Government and the Kingdom of Spain, dated July 2, 1982. The Agreement relates to contracts to be performed in whole or part in Spain, the provisions of which are hereby incorporated into and made a part of this contract by reference.

(c) The Contractor shall apply to the appropriate Spanish authorities for approval of status as a Direct Contractor in order to complete duty-free import of non-Spanish equipment, materials, and supplies represented as necessary for contract performance by the Contracting Officer. Orders for equipment, materials, and supplies placed prior to official notification of such approval shall be at the Contractor's own risk. The Contractor must submit its documentation in sufficient time to permit processing by the appropriate United States and Spanish Government agencies prior to the arrival of the equipment, materials, or supplies in Spain. Seasonal variations in processing times are common, and the Contractor should program its projects accordingly. Any delay or expense arising directly or indirectly from this process shall not excuse untimely performance (except as expressly allowed in other provisions of this contract), constitute a direct or constructive change, or otherwise provide a basis for additional compensation or adjustment of any kind.

(d) To ensure that all duty-free imports are properly accounted for, exported, or disposed of, in accordance with Spanish law, the Contractor shall obtain a written bank letter of guaranty payable to the Treasurer of the United States, or such other authority as may be designated by the Contracting Officer, in the amount set forth in paragraph (g) of this clause, prior to effecting any duty-free imports for the performance of this contract.

(e) If the Contractor fails to obtain the required guaranty, the Contractor agrees that the Contracting Officer may withhold a portion of the contract payments in order to establish a fund in the amount set forth in paragraph (g) of this clause. The fund shall be used for the payment of import taxes in the event that the Contractor fails to properly account for, export, or dispose of equipment, materials, or supplies imported on a duty-free basis.

(f) The amount of the bank letter of guaranty or size of the fund required under paragraph (d) or (e) of this clause normally shall be 5 percent of the contract value. However, if the Contractor demonstrates to the Contracting Officer's satisfaction that the amount retained by the United States Government or guaranteed by the bank is excessive, the amount shall be reduced to an amount commensurate with contingent import tax and duty-free liability. This bank guaranty or fund shall not be released to the Contractor until the Spanish General Directorate of Customs verifies the accounting, export, or disposition of the equipment, material, or supplies imported on a duty-free basis.

(g) The amount required under paragraph (d), (e), or (f) of this clause is *(Contracting Officer insert amount at time of contract award)*.

(h) The Contractor agrees to insert the provisions of this clause, including this paragraph (h), in all subcontracts.

(End of clause)

252.229-7005 Tax Exemptions (Spain).

As prescribed in [229.402-70](#) (e)(1), use the following clause:

TAX EXEMPTIONS (SPAIN) (MAR 2012)

(a) As the Contractor represented in its offer, the contract price, including the prices in subcontracts awarded under this contract, does not include taxes from which the United States Government is exempt.

(b) In accordance with tax relief agreements between the United States Government and the Spanish Government, and because the incumbent contract arises from the activities of the United States Forces in Spain, the contract will be exempt from the following excise, luxury, and transaction taxes:

(1) Derechos de Aduana (Customs Duties).

- (2) Impuesto de Compensacion a la Importacion (Compensation Tax on Imports).
- (3) Transmisiones Patrimonial (Property Transfer Tax).
- (4) Impuesto Sobre el Lujo (Luxury Tax).
- (5) Actos Juridicos Documentados (Legal Official Transactions).
- (6) Impuesto Sobre el Trafico de Empresas (Business Trade Tax).
- (7) Impuestos Especiales de Fabricacion (Special Products Tax).
- (8) Impuesto Sobre el Petroleo y Derivados (Tax on Petroleum and its By-Products).
- (9) Impuesto Sobre el Uso de Telefona (Telephone Tax).
- (10) Impuesto General Sobre la Renta de Sociedades y demas Entidades Juridicas (General Corporation Income Tax).
- (11) Impuesto Industrial (Industrial Tax).
- (12) Impuesto de Rentas Sobre el Capital (Capital Gains Tax).
- (13) Plus Vailia (Increase on Real Property).
- (14) Contribucion Territorial Urbana (Metropolitan Real Estate Tax).
- (15) Contribucion Territorial Rustica y Pecuaria (Farmland Real Estate Tax).
- (16) Impuestos de la Diputacion (County Service Charges).
- (17) Impuestos Municipal y Tasas Parafiscales (Municipal Tax and Charges).

(End of clause)

252.229-7006 Value Added Tax Exclusion (United Kingdom)

As prescribed in [229.402-70](#) (f), use the follow clause:

VALUE ADDED TAX EXCLUSION (UNITED KINGDOM) (DEC 2011)

The supplies or services identified in this contract are to be delivered at a price exclusive of value added tax under arrangements between the appropriate United States authorities and Her Majesty's Revenue and Customs (HMRC Reference Notice 431, entitled Relief from Customs Duty and/or Value Added Tax on United States Government Expenditures in the United Kingdom). By executing this contract, the Contracting Officer certifies that these supplies or services are being purchased for United States Government official purposes only.

(End of clause)

252.229-7007 Verification of United States Receipt of Goods.

As prescribed in [229.402-70](#) (g), use the following clause:

VERIFICATION OF UNITED STATES RECEIPT OF GOODS (JUN 1997)

The Contractor shall insert the following statement on all Material Inspection and Receiving Reports (DD Form 250 series) for Contracting Officer approval:

"I certify that the items listed on this invoice have been received by the United States."

(End of clause)

252.229-7008 Relief from Import Duty (United Kingdom).

As prescribed in [229.402-70](#) (h), use the following clause:

RELIEF FROM IMPORT DUTY (UNITED KINGDOM) (DEC 2011)

Any import dutiable articles, components, or raw materials supplied to the United States Government under this contract shall be exclusive of any United Kingdom import duties. Any imported items supplied for which import duty already has been paid will be supplied at a price exclusive of the amount of import duty paid. The Contractor is advised to contact Her Majesty's Revenue and Customs to obtain a refund upon completion of the contract (Reference HMRC Notice No. 431,

entitled “Relief from Customs Duty and/or Value Added Tax on United States Government Expenditures in the United Kingdom”).

(End of clause)

252.229-7009 Relief from Customs Duty and Value Added Tax on Fuel (Passenger Vehicles) (United Kingdom).

As prescribed in [229.402-70](#) (i), use the following clause:

RELIEF FROM CUSTOMS DUTY AND VALUE ADDED TAX ON
FUEL (PASSENGER VEHICLES) (UNITED KINGDOM) (JUN 1997)

(a) Pursuant to an agreement between the United States Government and Her Majesty’s (HM) Customs and Excise, fuels and lubricants used by passenger vehicles (except taxis) in the performance of this contract will be exempt from customs duty and value added tax. Therefore, the procedures outlined in HM Customs and Excise Notice No. 431B, August 1982, and any amendment thereto, shall be used to obtain relief from both customs duty and value added tax for fuel used under the contract. These procedures shall apply to both loaded and unloaded miles. The unit prices shall be based on the recoupment by the Contractor of customs duty in accordance with the following allowances:

- (1) Vehicles (except taxis) with a seating capacity of less than 29, one gallon for every 27 miles.
- (2) Vehicles with a seating capacity of 29-53, one gallon for every 13 miles.
- (3) Vehicles with a seating capacity of 54 or more, one gallon for every 10 miles.

(b) In the event the mileage of any route is increased or decreased within 10 percent, resulting in no change in route price, the customs duty shall be reclaimed from HM Customs and Excise on actual mileage performed.

(End of clause)

252.229-7010 Relief from Customs Duty on Fuel (United Kingdom).

As prescribed in [229.402-70](#) (j), use the following clause:

RELIEF FROM CUSTOMS DUTY ON FUEL (UNITED KINGDOM) (JUN 1997)

(a) Pursuant to an agreement between the United States Government and Her Majesty’s (HM) Customs and Excise, it is possible to obtain relief from customs duty on fuels and lubricants used in support of certain contracts. If vehicle fuels and lubricants are used in support of this contract, the Contractor shall seek relief from customs duty in accordance with HM Customs Notice No. 431, February 1973, entitled “Relief from Customs Duty and/or Value Added Tax on United States Government Expenditures in the United Kingdom.” Application should be sent to the Contractor’s local Customs and Excise Office.

(b) Specific information should be included in the request for tax relief, such as the number of vehicles involved, types of vehicles, rating of vehicles, fuel consumption, estimated mileage per contract period, and any other information that will assist HM Customs and Excise in determining the amount of relief to be granted.

(c) Within 30 days after the award of this contract, the Contractor shall provide the Contracting Officer with evidence that an attempt to obtain such relief has been initiated. In the event the Contractor does not attempt to obtain relief within the time specified, the Contracting Officer may deduct from the contract price the amount of relief that would have been allowed if HM Customs and Excise had favorably considered the request for relief.

(d) The amount of any rebate granted by HM Customs and Excise shall be paid in full to the United States Government. Checks shall be made payable to the Treasurer of the United States and forwarded to the Administrative Contracting Officer.

(End of clause)

252.229-7011 Reporting of Foreign Taxes - U.S. Assistance Programs.

As prescribed in [229.170-4](#) , use the following clause:

REPORTING OF FOREIGN TAXES – U.S. ASSISTANCE PROGRAMS (SEP 2005)

- (a) *Definition.* “Commodities,” as used in this clause, means any materials, articles, supplies, goods, or equipment.
- (b) Commodities acquired under this contract shall be exempt from all value added taxes and customs duties imposed by the recipient country. This exemption is in addition to any other tax exemption provided through separate agreements or other means.
- (c) The Contractor shall inform the foreign government of the tax exemption, as documented in the Letter of Offer and Acceptance, country-to-country agreement, or interagency agreement.
- (d) If the foreign government or entity nevertheless imposes taxes, the Contractor shall promptly notify the Contracting Officer and shall provide documentation showing that the foreign government was apprised of the tax exemption in accordance with paragraph (c) of this clause.
- (e) The Contractor shall insert the substance of this clause, including this paragraph (e), in all subcontracts for commodities that exceed \$500.

(End of clause)

252.229-7012 Tax Exemptions (Italy)—Representation.

As prescribed in [229.402-70](#) (c)(2), use the following provision:

TAX EXEMPTIONS (ITALY)—REPRESENTATION (MAR 2012)

- (a) *Exemptions.* The United States Government is exempt from payment of—
- (1) Imposta Valore Aggiunto (IVA) tax in accordance with Article 72 of the IVA implementing decree on all supplies and services sold to United States Military Commands in Italy; and
 - (2) The other taxes specified in paragraph (c) of the clause DFARS [252.229-7003](#), Tax Exemptions (Italy).
- (b) *Representation.* By submission of its offer, the offeror represents that the offered price, including the prices of subcontracts to be awarded under the contract, does not include the taxes identified herein, or any other taxes from which the United States Government is exempt.

(End of provision)

252.229-7013 Tax Exemptions (Spain)—Representation.

As prescribed in [229.402-70](#) (e)(2), use the following provision:

TAX EXEMPTIONS (SPAIN)—REPRESENTATION (APR 2012)

- (a) *Exemptions.* In accordance with tax relief agreements between the United States Government and the Spanish Government, and because the resultant contract arises from the activities of the United States Forces in Spain, the contract will be exempt from the excise, luxury, and transaction taxes listed in paragraph (b) of the clause DFARS [252.229-7005](#), Tax Exemptions (Spain).
- (b) *Representation.* By submission of its offer, the offeror represents that the offered price, including the prices of subcontracts to be awarded under the contract, does not include the taxes identified herein, or any other taxes from which the United States Government is exempt.

(End of provision)

252.229-7014 Full Exemption from Two-Percent Excise Tax on Certain Foreign Procurements.

As prescribed in [229.402-70](#)(k), use the following clause:

FULL EXEMPTION FROM TWO-PERCENT EXCISE TAX ON CERTAIN FOREIGN PROCUREMENTS (OCT 2022)

- (a) As the Contractor represented in its offer, any item, including any item delivered under subcontract; any service; or any combination thereof delivered under this contract is fully exempt from the 2-percent excise tax withholding imposed by 26 U.S.C. 5000C and implemented by Federal Acquisition Regulation (FAR) 52.229-12, Tax on Certain Foreign Procurements.

(b) If the full exemption no longer applies due to a change in circumstances during the performance of the contract, causing the Contractor to become subject to the withholding for the 2-percent excise tax as imposed by 26 U.S.C. 5000C, then the Contractor shall immediately comply with the notification and billing requirements of FAR clause 52.229-12.

(End of clause)

252.231 RESERVED

252.231-7000 Supplemental Cost Principles.

As prescribed in [231.100-70](#), use the following clause:

SUPPLEMENTAL COST PRINCIPLES (DEC 1991)

When the allowability of costs under this contract is determined in accordance with Part 31 of the Federal Acquisition Regulation (FAR), allowability shall also be determined in accordance with Part 231 of the Defense FAR Supplement, in effect on the date of this contract.

(End of clause)

252.232 RESERVED

252.232-7000 Advance Payment Pool.

As prescribed in [232.412-70](#) (a), use the following clause:

ADVANCE PAYMENT POOL (APR 2020)

(a) Notwithstanding any other provision of this contract, advance payments will be made for contract performance in accordance with the Determinations, Findings, and Authorization for Advance payment dated _____.

(b) Payments made in accordance with this clause shall be governed by the terms and conditions of the Advance Payment Pool Agreement between the United States of America and [insert the name of the Contractor]. The Agreement is incorporated in the contract by reference.

(c) When a letter of credit has not been issued to the Contractor in conjunction with the contract, payment will be by a dual payee Treasury check made payable to the Contractor or the disbursing office in the Advance Payment Pool Agreement and will be forwarded to that disbursing office for appropriate disposition.

(End of clause)

252.232-7001 Reserved.

252.232-7002 Progress Payments for Foreign Military Sales Acquisitions.

As prescribed in [232.502-4](#) -70(a), use the following clause:

PROGRESS PAYMENTS FOR FOREIGN MILITARY SALES ACQUISITIONS (MAY 2023)

If this contract includes foreign military sales (FMS) requirements, the Contractor shall—

- (a) Submit a separate progress payment requests for the FMS and U.S. line items in the contract;
- (b) Submit a supporting schedule showing the amount of each request distributed to each country's requirements; and
- (c) Identify in each progress payment request the contract requirements to which it applies (i.e., FMS or U.S.);
- (d) Calculate each request on the basis of the prices, costs (including costs to complete), subcontract financing, and progress payment liquidations of the contract requirements to which it applies; and

(e) Distribute costs among the countries in a manner acceptable to the Administrative Contracting Officer.

(End of clause)

252.232-7003 Electronic Submission of Payment Requests and Receiving Reports.

As prescribed in [232.7004](#) (a), use the following clause:

ELECTRONIC SUBMISSION OF PAYMENT REQUESTS AND RECEIVING REPORTS (DEC 2018)

(a) *Definitions.* As used in this clause—

“Contract financing payment” means an authorized Government disbursement of monies to a contractor prior to acceptance of supplies or services by the Government.

(1) Contract financing payments include—

(i) Advance payments;

(ii) Performance-based payments;

(iii) Commercial advance and interim payments;

(iv) Progress payments based on cost under the clause at Federal Acquisition Regulation (FAR) 52.232-16, Progress Payments;

(v) Progress payments based on a percentage or stage of completion (see FAR 32.102(e)), except those made under the clause at FAR 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at FAR 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and

(vi) Interim payments under a cost reimbursement contract, except for a cost reimbursement contract for services when Alternate I of the clause at FAR 52.232-25, Prompt Payment, is used.

(2) Contract financing payments do not include—

(i) Invoice payments;

(ii) Payments for partial deliveries; or

(iii) Lease and rental payments.

“Electronic form” means any automated system that transmits information electronically from the initiating system to affected systems.

“Invoice payment” means a Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

(1) Invoice payments include—

(i) Payments for partial deliveries that have been accepted by the Government;

(ii) Final cost or fee payments where amounts owed have been settled between the Government and the contractor;

(iii) For purposes of subpart 32.9 only, all payments made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, and the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and

(iv) Interim payments under a cost-reimbursement contract for services when Alternate I of the clause at 52.232-25, Prompt Payment, is used.

(2) Invoice payments do not include contract financing payments.

“Payment request” means any request for contract financing payment or invoice payment submitted by the Contractor under this contract or task or delivery order.

“Receiving report” means the data prepared in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense Federal Acquisition Regulation Supplement.

(b) Except as provided in paragraph (d) of this clause, the Contractor shall submit payment requests and receiving reports in electronic form using Wide Area WorkFlow (WAWF). The Contractor shall prepare and furnish to the Government a receiving report at the time of each delivery of supplies or services under this contract or task or delivery order.

(c) Submit payment requests and receiving reports to WAWF in one of the following electronic formats:

(1) Electronic Data Interchange.

(2) Secure File Transfer Protocol.

(3) Direct input through the WAWF website.

(d) The Contractor may submit a payment request and receiving report using methods other than WAWF only when—

(1) The Contractor has requested permission in writing to do so, and the Contracting Officer has provided instructions for a temporary alternative method of submission of payment requests and receiving reports in the contract administration data section of this contract or task or delivery order;

(2) DoD makes payment for commercial transportation services provided under a Government rate tender or a contract for transportation services using a DoD-approved electronic third party payment system or other exempted vendor payment/invoicing system (e.g., PowerTrack, Transportation Financial Management System, and Cargo and Billing System);

(3) DoD makes payment on a contract or task or delivery order for rendered health care services using the TRICARE Encounter Data System; or

(4) The Governmentwide commercial purchase card is used as the method of payment, in which case submission of only the receiving report in WAWF is required.

(e) Information regarding WAWF is available at <https://wawf.eb.mil/>.

(f) In addition to the requirements of this clause, the Contractor shall meet the requirements of the appropriate payment clauses in this contract when submitting payment requests.

(End of clause)

252.232-7004 DoD Progress Payment Rates.

As prescribed in [232.502-4](#) -70(b), use the following clause:

DOD PROGRESS PAYMENT RATES (OCT 2014)

If the Contractor is a small business concern, the Progress Payments clause of this contract is modified to change each mention of the progress payment rate and liquidation rate (excepting paragraph (k), Limitations on Undefined Contract Actions) to 90 percent.

(End of clause)

252.232-7005 Reimbursement of Subcontractor Advance Payments—DoD Mentor-Protégé Program.

As prescribed in [232.412-70](#) (b), use the following clause:

REIMBURSEMENT OF SUBCONTRACTOR ADVANCE PAYMENTS—DOD MENTOR-PROTÉGÉ PROGRAM (MAR 2024)

(a) The Government will reimburse the Contractor for any advance payments made by the Contractor, as a mentor firm, to a protege firm, pursuant to an approved mentor-protége agreement, provided—

(1) The Contractor's subcontract with the protege firm includes a provision substantially the same as FAR 52.232-12, Advance Payments;

(2) The Contractor has administered the advance payments in accordance with the policies of FAR Subpart 32.4; and

(3) The Contractor agrees that any financial loss resulting from the failure or inability of the protege firm to repay any unliquidated advance payments is the sole financial responsibility of the Contractor.

(b) For a fixed price type contract, advance payments made to a protege firm shall be paid and administered as if they were 100 percent progress payments. The Contractor shall include as a separate attachment with each Standard Form (SF) 1443, Contractor's Request for Progress Payment, a request for reimbursement of advance payments made to a protege firm. The attachment shall provide a separate calculation of lines 14a through 14e of SF 1443 for each protege, reflecting the status of advance payments made to that protege.

(c) For cost reimbursable contracts, reimbursement of advance payments shall be made via public voucher. The Contractor shall show the amounts of advance payments made to each protege on the public voucher, in the form and detail directed by the cognizant contracting officer or contract auditor.

(End of clause)

252.232-7006 Wide Area WorkFlow Payment Instructions.

As prescribed in [232.7004](#) (b), use the following clause:

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) *Definitions.* As used in this clause—

“Department of Defense Activity Address Code (DoDAAC)” is a six position code that uniquely identifies a unit, activity, or organization.

“Document type” means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

“Local processing office (LPO)” is the office responsible for payment certification when payment certification is done external to the entitlement system.

“Payment request” and “receiving report” are defined in the clause at [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports.

(b) *Electronic invoicing.* The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports.

(c) *WAWF access.* To access WAWF, the Contractor shall—

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) *WAWF training.* The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the “Web Based Training” link on the WAWF home page at <https://wawf.eb.mil/>

(e) *WAWF methods of document submission.* Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) *WAWF payment instructions.* The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) *Document type.* The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items—

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

(Contracting Officer: Insert either “Invoice 2in1” or the applicable invoice and receiving report document type(s) for fixed price line items for services.)

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF “combo” document type to create some combinations of invoice and receiving report in one step.]

(3) *Document routing.* The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
--------------------	----------------------------

Pay Official DoDAAC	
Issue By DoDAAC	
Admin DoDAAC**	
Inspect By DoDAAC

Ship From Code	
Mark For Code	
Service Approver (DoDAAC)	
Service Acceptor (DoDAAC)	
Accept at Other DoDAAC	
LPO DoDAAC	
DCAA Auditor DoDAAC	
Other DoDAAC(s)	

(*Contracting Officer: Insert applicable DoDAAC information. If multiple ship to/acceptance locations apply, insert "See Schedule" or "Not applicable.")

(**Contracting Officer: If the contract provides for progress payments or performance-based payments, insert the DoDAAC for the contract administration office assigned the functions under FAR 42.302(a)(13).)

(4) *Payment request.* The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) *Receiving report.* The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) *WAWF point of contact.*

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

(Contracting Officer: Insert applicable information or "Not applicable.")

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

(End of clause)

252.232-7007 Limitation of Governments Obligation.

As prescribed in [232.706-70](#) , use the following clause:

LIMITATION OF GOVERNMENT'S OBLIGATION (APR 2014)

(a) Contract line item(s) [*Contracting Officer insert after negotiations*] is/are incrementally funded. For this/these item(s), the sum of \$ [*Contracting Officer insert after negotiations*] of the total price is presently available for payment and allotted to this contract. An allotment schedule is set forth in paragraph (j) of this clause.

(b) For item(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government's convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled "Termination for Convenience of the Government." As used in this clause, the total amount payable by

the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit, and estimated termination settlement costs for those item(s).

(c) Notwithstanding the dates specified in the allotment schedule in paragraph (j) of this clause, the Contractor will notify the Contracting Officer in writing at least ninety days prior to the date when, in the Contractor's best judgment, the work will reach the point at which the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable item(s). The notification will state (1) the estimated date when that point will be reached and (2) an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds identified in paragraph (j) of this clause, or to a mutually agreed upon substitute date. The notification will also advise the Contracting Officer of the estimated amount of additional funds that will be required for the timely performance of the item(s) funded pursuant to this clause, for a subsequent period as may be specified in the allotment schedule in paragraph (j) of this clause or otherwise agreed to by the parties. If after such notification additional funds are not allotted by the date identified in the Contractor's notification, or by an agreed substitute date, the Contracting Officer will terminate any item(s) for which additional funds have not been allotted, pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(d) When additional funds are allotted for continued performance of the contract line item(s) identified in paragraph (a) of this clause, the parties will agree as to the period of contract performance which will be covered by the funds. The provisions of paragraphs (b) through (d) of this clause will apply in like manner to the additional allotted funds and agreed substitute date, and the contract will be modified accordingly.

(e) If, solely by reason of failure of the Government to allot additional funds, by the dates indicated below, in amounts sufficient for timely performance of the contract line item(s) identified in paragraph (a) of this clause, the Contractor incurs additional costs or is delayed in the performance of the work under this contract and if additional funds are allotted, an equitable adjustment will be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the item(s), or in the time of delivery, or both. Failure to agree to any such equitable adjustment hereunder will be a dispute concerning a question of fact within the meaning of the clause entitled "Disputes."

(f) The Government may at any time prior to termination allot additional funds for the performance of the contract line item(s) identified in paragraph (a) of this clause.

(g) The termination provisions of this clause do not limit the rights of the Government under the clause entitled "Default." The provisions of this clause are limited to the work and allotment of funds for the contract line item(s) set forth in paragraph (a) of this clause. This clause no longer applies once the contract is fully funded except with regard to the rights or obligations of the parties concerning equitable adjustments negotiated under paragraphs (d) and (e) of this clause.

(h) Nothing in this clause affects the right of the Government to terminate this contract pursuant to the clause of this contract entitled "Termination for Convenience of the Government."

(i) Nothing in this clause shall be construed as authorization of voluntary services whose acceptance is otherwise prohibited under 31 U.S.C. 1342.

(j) The parties contemplate that the Government will allot funds to this contract in accordance with the following schedule:

On execution of contract	\$ _____
(month) (day), (year)	\$ _____
(month) (day), (year)	\$ _____
(month) (day), (year)	\$ _____

(End of clause)

252.232-7008 Assignment of Claims (Overseas).

As prescribed in [232.806](#) (a)(1), use the following clause:

ASSIGNMENT OF CLAIMS (OVERSEAS) (JUN 1997)

(a) No claims for monies due, or to become due, shall be assigned by the Contractor unless—

- (1) Approved in writing by the Contracting Officer;
- (2) Made in accordance with the laws and regulations of the United States of America; and
- (3) Permitted by the laws and regulations of the Contractor's country.

(b) In no event shall copies of this contract or of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret," "Secret," or "Confidential" be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive such documents. However, a copy of any part or all of this contract so marked may be furnished, or any information contained herein may be disclosed, to such assignee upon the Contracting Officer's prior written authorization.

(c) Any assignment under this contract shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment may be made to one party as agent or trustee for two or more parties participating in such financing. On each invoice or voucher submitted for payment under this contract to which any assignment applies, and for which direct payment thereof is to be made to an assignee, the Contractor shall—

- (1) Identify the assignee by name and complete address; and
- (2) Acknowledge the validity of the assignment and the right of the named assignee to receive payment in the amount invoiced or vouchered.

(End of clause)

252.232-7009 Mandatory Payment by Governmentwide Commercial Purchase Card.

As prescribed in [232.1110](#), use the following clause:

MANDATORY PAYMENT BY GOVERNMENTWIDE COMMERCIAL PURCHASE CARD (MAY 2018)

The Contractor agrees to accept the Governmentwide commercial purchase card as the method of payment for orders or calls valued at or below the micro-purchase threshold in part 202 of the Defense Federal Acquisition Regulation Supplement, under this contract or agreement.

(End of clause)

252.232-7010 Levies on Contract Payments.

As prescribed in [232.7102](#), use the following clause:

LEVIES ON CONTRACT PAYMENTS (DEC 2006)

(a) 26 U.S.C. 6331(h) authorizes the Internal Revenue Service (IRS) to continuously levy up to 100 percent of contract payments, up to the amount of tax debt.

(b) When a levy is imposed on a payment under this contract and the Contractor believes that the levy may result in an inability to perform the contract, the Contractor shall promptly notify the Procuring Contracting Officer in writing, with a copy to the Administrative Contracting Officer, and shall provide—

- (1) The total dollar amount of the levy;
- (2) A statement that the Contractor believes that the levy may result in an inability to perform the contract, including rationale and adequate supporting documentation; and
- (3) Advice as to whether the inability to perform may adversely affect national security, including rationale and adequate supporting documentation.

(c) DoD shall promptly review the Contractor's assessment, and the Procuring Contracting Officer shall provide a written notification to the Contractor including—

- (1) A statement as to whether DoD agrees that the levy may result in an inability to perform the contract; and
- (2)(i) If the levy may result in an inability to perform the contract and the lack of performance will adversely affect national security, the total amount of the monies collected that should be returned to the Contractor; or
- (ii) If the levy may result in an inability to perform the contract but will not impact national security, a recommendation that the Contractor promptly notify the IRS to attempt to resolve the tax situation.

(d) Any DoD determination under this clause is not subject to appeal under the Contract Disputes Act.

(End of clause)

252.232-7011 Payments in Support of Emergencies and Contingency Operations.

As prescribed in [232.908](#), use the following clause:

PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS (MAY 2013)

- (a) Definitions of pertinent terms are set forth in sections 2.101, 32.001, and 32.902 of the Federal Acquisition Regulation.
- (b) Notwithstanding any other payment clause in this contract, the Government will make invoice payments under the terms and conditions specified in this clause. The Government considers payment as being made on the day a check is dated or the date of an electronic funds transfer.
- (c) Invoice payments.
 - (1) Due date.
 - (i) Payment will be made as soon as possible once a proper invoice is received and matched with the contract and the receiving/acceptance report.
 - (ii) If the contract does not require submission of an invoice for payment (e.g., periodic lease payments), the due date will be as specified in the contract.
 - (2) Contractor's invoice. The Contractor shall prepare and submit invoices to the designated billing office specified in the contract. A proper invoice should include the items listed in paragraphs (c)(2)(i) through (c)(2)(x) of this clause.
 - (i) Name and address of the Contractor.
 - (ii) Invoice date and invoice number. (The Contractor should date invoices as close as possible to the date of the mailing or transmission.)
 - (iii) Contract number or other authorization for supplies delivered or services performed (including order number and contract line item number).
 - (iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed.
 - (v) Shipping and payment terms (e.g., shipment number and date of shipment, discount for prompt payment terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading.
 - (vi) Name and address of Contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment).
 - (vii) Name (where practicable), title, phone number, and mailing address of person to notify in the event of a defective invoice.
 - (viii) Taxpayer Identification Number (when required). The taxpayer identification number is required for all payees subject to the U.S. Internal Revenue Code.
 - (ix) Electronic funds transfer banking information.
 - (A) The Contractor shall include electronic funds transfer banking information on the invoice only if required elsewhere in this contract.
 - (B) If electronic funds transfer banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct electronic funds transfer banking information in accordance with the applicable solicitation provision (e.g., FAR 52.232-38, Submission of Electronic Funds Transfer Information with Offer), contract clause (e.g., FAR 52.232-33, Payment by Electronic Funds Transfer—System for Award Management, or FAR 52.232-34, Payment by Electronic Funds Transfer-Other Than System for Award Management), or applicable agency procedures.
 - (C) Electronic funds transfer banking information is not required if the Government waived the requirement to pay by electronic funds transfer.
 - (x) Any other information or documentation required by the contract (e.g., evidence of shipment).
 - (3) Discounts for prompt payment. The designated payment office will take cost-effective discounts if the payment is made within the discount terms of the contract.
 - (4) Contract financing payment. If this contract provides for contract financing, the Government will make contract financing payments in accordance with the applicable contract financing clause.

(5) Overpayments. If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment, including the—

(A) Circumstances of the overpayment (e.g., duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected contract line item or subline item, if applicable; and

(D) Contractor point of contact; and

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(d) This clause is applicable until otherwise notified by the Contracting Officer. Upon notification by issuance of a contract modification, the appropriate FAR Prompt Payment clause in the contract becomes applicable.

(End of clause)

252.232-7012 Performance-Based Payments—Whole-Contract Basis.

As prescribed in [232.1005-70](#) (a)(1), use the following clause:

PERFORMANCE-BASED PAYMENTS—WHOLE-CONTRACT BASIS (DEC 2022)

(a) Performance-based payments shall form the basis for the contract financing payments provided under this contract, and shall apply to the whole contract. The performance-based payments schedule (Contract Attachment ____) describes the basis for payment, to include identification of the individual payment events, evidence of completion, and amount of payment due upon completion of each event.

(b) In accordance with 10 U.S.C. 3802(c), the Contractor's financial statements shall be in compliance with Generally Accepted Accounting Principles in order to receive performance-based payments.

(c)(1) The Contractor shall, in addition to providing the information required by FAR 52.232-32, submit information for all payment requests using the following format:

Current performance-based payment(s) event(s) addressed by this request:		
Contractor shall identify—	Amount	Totals
(1a) Negotiated value of all previously completed performance-based payment(s) event(s);		
(1b) Negotiated value of the current performance-based payment(s) event(s);		
(1c) Cumulative negotiated value of performance-based payment(s) events completed to date (1a) + (1b); and		
(2) Total costs incurred to date.		

(2) Incurred cost is determined by the Contractor's accounting books and records, to which the Contractor shall provide access upon request of the Contracting Officer. An acceptable accounting system in accordance with DFARS [252.242-7006](#) is not required for reporting of incurred costs under this clause. If the Contractor's accounting system is not capable of tracking costs on a job order basis, the Contractor shall provide a realistic approximation of the allocation of incurred costs attributable to this contract in accordance with the Contractor's accounting system. FAR 52.232-32(m) does not require certification of incurred costs.

(d) *Security for financing.*

(1) Title to the property described in paragraph (f) of the clause at FAR 52.232-32, Performance-Based Payments, is the preferred security for receipt of performance-based payments.

(2)(i) If the Contractor's accounting system is not capable of identifying and tracking through the build cycle the property that is allocable and properly chargeable to this contract, the Contracting Officer may consider acceptance of one or a combination of the following alternative forms of security sufficient to constitute adequate security for the performance-based payments and so specify in the contract, consistent with FAR 32.202-4:

(A) A paramount lien on assets.

(B) An irrevocable letter of credit from a federally insured financial institution.

(C) A bond from a surety, acceptable in accordance with FAR part 28.

(D) A guarantee of repayment from a person or corporation of demonstrated liquid net worth, connected by significant ownership interest to the Contractor.

(E) Title to identified Contractor assets of adequate worth.

(ii) Paragraph (f) of the clause at FAR 52.232-32 does not apply to the extent that the Contractor and the Contracting Officer agree on alternative forms of security. In the event the Contractor fails to provide adequate security, as required in this contract, no financing payment will be made under this contract. Upon receipt of adequate security, financing payments will be made, including all previous payments to which the Contractor is entitled, in accordance with the terms of the provisions for contract financing. If at any time the Contracting Officer determines that the security provided by the Contractor is insufficient, the Contractor shall promptly provide such additional security as the Contracting Officer determines necessary. In the event the Contractor fails to provide such additional security, the Contracting Officer may collect or liquidate such security that has been provided and suspend further payments to the Contractor; and the Contractor shall repay to the Government the amount of unliquidated financing payments as the Contracting Officer at his sole discretion deems repayable.

(End of clause)

252.232-7013 Performance-Based Payments—Deliverable-Item Basis.

As prescribed in [232.1005-70](#) (a)(2), use the following clause:

PERFORMANCE-BASED PAYMENTS-DELIVERABLE-ITEM BASIS (DEC 2022)

(a) Performance-based payments shall form the basis for the contract financing payments provided under this contract and shall apply to Contract Line Item Numbers (CLIN(s)) *[Contracting Officer insert applicable CLIN(s)]*. The performance-based payments schedule (Contract Attachment ____) describes the basis for payment, to include identification of the individual payment events, CLINs to which each event applies, evidence of completion, and amount of payment due upon completion of each event.

(b) In accordance with 10 U.S.C. 3802(c), the Contractor's financial statements shall be in compliance with Generally Accepted Accounting Principles in order to receive performance-based payments.

(c)(1) The Contractor shall, in addition to providing the information required by FAR 52.232-32, submit information for all payment requests using the following format:

Current performance-based payment(s) event(s) addressed by this request:		
Contractor shall identify—	Amount	Totals
(1a) Negotiated value of all previously completed performance-based payment(s) event(s);		
(1b) Negotiated value of the current performance-based payment(s) event(s);		
(1c) Cumulative negotiated value of performance-based payment(s) event(s) completed to date (1a) + (1b); and		

(2) Total costs incurred to date.		
-----------------------------------	--	--

(2) Incurred cost is determined by the Contractor's accounting books and records, to which the Contractor shall provide access upon request of the Contracting Officer. An acceptable accounting system in accordance with DFARS [252.242-7006](#) is not required for reporting of incurred costs under this clause. If the Contractor's accounting system is not capable of tracking costs on a job order basis, the Contractor shall provide a realistic approximation of the allocation of incurred costs attributable to this contract in accordance with the Contractor's accounting system. FAR 52.232-32(m) does not require certification of incurred costs.

(d) *Security for financing.*

(1) Title to the property described in paragraph (f) of the clause at FAR 52.232-32, Performance-Based Payments, is the preferred security for receipt of performance-based payments.

(2)(i) If the Contractor's accounting system is not capable of identifying and tracking through the build cycle the property that is allocable and properly chargeable to this contract, the Contracting Officer may consider acceptance of one or a combination of the following alternative forms of security sufficient to constitute adequate security for the performance-based payments and so specify in the contract, consistent with FAR 32.202-4:

(A) A paramount lien on assets.

(B) An irrevocable letter of credit from a federally insured financial institution.

(C) A bond from a surety, acceptable in accordance with FAR part 28.

(D) A guarantee of repayment from a person or corporation of demonstrated liquid net worth, connected by significant ownership interest to the Contractor.

(E) Title to identified Contractor assets of adequate worth.

(ii) Paragraph (f) of the clause at FAR 52.232-32 does not apply to the extent that the Contractor and the Contracting Officer agree on alternative forms of security. In the event the Contractor fails to provide adequate security, as required in this contract, no financing payment will be made under this contract. Upon receipt of adequate security, financing payments will be made, including all previous payments to which the Contractor is entitled, in accordance with the terms of the provisions for contract financing. If at any time the Contracting Officer determines that the security provided by the Contractor is insufficient, the Contractor shall promptly provide such additional security as the Contracting Officer determines necessary. In the event the Contractor fails to provide such additional security, the Contracting Officer may collect or liquidate such security that has been provided and suspend further payments to the Contractor; and the Contractor shall repay to the Government the amount of unliquidated financing payments as the Contracting Officer at his sole discretion deems repayable.

(End of clause)

252.232-7014 Reserved

252.232-7015 Performance-Based Payments—Representation.

As prescribed in [232.1005-70](#) (b), use the following provision:

PERFORMANCE-BASED PAYMENTS—REPRESENTATION (DEC 2022)

(a) In accordance with 10 U.S.C. 3802(c), the Contractor's financial statements shall be in compliance with Generally Accepted Accounting Principles in order to receive performance-based payments.

(b) The Offeror represents that its financial statements are ☐ are not ☐ in compliance with Generally Accepted Accounting Principles.

(End of provision)

252.232-7016 Notice of Progress Payments or Performance-Based Payments.

As prescribed in [232.1005-70](#) (c), insert the following provision:

NOTICE OF PROGRESS PAYMENTS OR PERFORMANCE-BASED PAYMENTS (APR 2020)

(a) The need for customary progress payments in accordance with subpart 32.5 of the Federal Acquisition Regulation (FAR) or performance-based payments in accordance with FAR subpart 32.10 will not be considered as a handicap or adverse factor in the award of the contract.

(b) This solicitation includes a FAR and Defense Federal Acquisition Regulation Supplement (DFARS) clause for performance-based payments and a FAR clause for progress payments. The resultant contract will include either performance-based payments or progress payments, not both, except as may be authorized on separate orders subject to FAR 32.1003(c).

(1) The performance-based payments clauses will be included in the contract if—

(i) The Offeror has provided positive representation in response to DFARS [252.232-7015](#), Performance-Based Payments—Representation;

(ii) The Offeror proposes a performance-based payment arrangement in accordance with FAR 52.232-28, Invitation to Propose Performance-Based Payments, including proposed events and timing, event completion criteria, event values, and expected expenditure profile; and

(iii) The Offeror and the Government reach agreement on all aspects of the arrangement.

(2) If performance-based payments clauses are not included in the resultant contract, the progress payments clause included in this solicitation will be included in any resultant contract, modified or altered if necessary in accordance with FAR 52.232-16 and its Alternate I. Even though the progress payments clause is included in the contract, the clause shall be inoperative during any time the contractor's accounting system and controls are determined by the Government to be inadequate for segregation and accumulation of contract costs.

(End of provision)

252.232-7017 Reserved.

252.232-7018 Progress Payments-Multiple Lots.

As prescribed in [232.502-4-70\(c\)](#), use the following clause:

PROGRESS PAYMENTS-MULTIPLE LOTS (MAY 2023)

(a) *Definitions.* As used in this clause—

“Lot” means one or more fixed-price deliverable line items or deliverable subline items representing a single, severable group where the sum of the costs for each group is segregated and a single progress payment rate is used.

“Multiple lots” means more than one lot on a single contract where progress payment proration is performed on a lot-wide, versus contract-wide, basis.

(b) When submitting progress payment requests under the billing instructions in Federal Acquisition Regulation (FAR) clause 52.232-16, Progress Payments, or Defense Federal Acquisition Regulation Supplement (DFARS) clause [252.232-7002](#), Progress Payments for Foreign Military Sales Acquisitions, of this contract, the Contractor shall—

(1) Submit separate progress payment requests for each lot identified in the contract;

(2) Identify the contract price for the lot as the sum of all fixed-priced line items identified to the lot, in accordance with FAR [32.501-3](#);

(3) Identify the lot on each progress payment request to which the request applies;

(4) Calculate each request on the basis of the price, costs (including the cost to complete), subcontractor financing, and progress payment liquidations of the lot to which it applies; and

(5) Distribute costs among lots in a manner acceptable to the Administrative Contracting Officer.

(c) Submit a separate progress payment request for U.S. and FMS requirements in accordance with the DFARS clause [252.232-7002](#), Progress Payments for Foreign Military Sales Acquisitions, of this contract.

(End of clause)

252.233 RESERVED**252.233-7000 Reserved.****252.233-7001 Choice of Law (Overseas).**

As prescribed in [233.215-70](#) , use the following clause:

CHOICE OF LAW (OVERSEAS) (JUN 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for the hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

252.234 RESERVED**252.234-7001 Notice of Earned Value Management System.**

As prescribed in [234.203](#) (1), use the following provision:

NOTICE OF EARNED VALUE MANAGEMENT SYSTEM (APR 2008)

(a) If the offeror submits a proposal in the amount of \$50,000,000 or more—

(1) The offeror shall provide documentation that the Cognizant Federal Agency (CFA) has determined that the proposed Earned Value Management System (EVMS) complies with the EVMS guidelines in the American National Standards Institute/Electronic Industries Alliance Standard 748, Earned Value Management Systems (ANSI/EIA-748) (current version at time of solicitation). The Government reserves the right to perform reviews of the EVMS when deemed necessary to verify compliance.

(2) If the offeror proposes to use a system that has not been determined to be in compliance with the requirements of paragraph (a)(1) of this provision, the offeror shall submit a comprehensive plan for compliance with the guidelines in ANSI/EIA-748.

(i) The plan shall—

(A) Describe the EVMS the offeror intends to use in performance of the contract, and how the proposed EVMS complies with the EVMS guidelines in ANSI/EIA-748;

(B) Distinguish between the offeror's existing management system and modifications proposed to meet the EVMS guidelines;

(C) Describe the management system and its application in terms of the EVMS guidelines;

(D) Describe the proposed procedure for administration of the EVMS guidelines as applied to subcontractors; and

(E) Describe the process the offeror will use to determine subcontractor compliance with ANSI/EIA-748.

(ii) The offeror shall provide information and assistance as required by the Contracting Officer to support review of the plan.

(iii) The offeror's EVMS plan must provide milestones that indicate when the offeror anticipates that the EVMS will be compliant with the guidelines in ANSI/EIA-748.

(b) If the offeror submits a proposal in an amount less than \$50,000,000—

(1) The offeror shall submit a written description of the management procedures it will use and maintain in the performance of any resultant contract to comply with the requirements of the Earned Value Management System clause of the contract. The description shall include—

(i) A matrix that correlates each guideline in ANSI/EIA-748 (current version at time of solicitation) to the corresponding process in the offeror's written management procedures; and

(ii) The process the offeror will use to determine subcontractor compliance with ANSI/EIA-748.

(2) If the offeror proposes to use an EVMS that has been determined by the CFA to be in compliance with the EVMS guidelines in ANSI/EIA-748, the offeror may submit a copy of the documentation of such determination instead of the written description required by paragraph (b)(1) of this provision.

(c) The offeror shall identify the subcontractors (or the subcontracted effort if subcontractors have not been selected) to whom the EVMS requirements will apply. The offeror and the Government shall agree to the subcontractors or the subcontracted effort selected for application of the EVMS requirements. The offeror shall be responsible for ensuring that the selected subcontractors comply with the requirements of the Earned Value Management System clause of the contract.

(End of provision)

252.234-7002 Earned Value Management System.

As prescribed in [234.203](#) (2), use the following clause:

EARNED VALUE MANAGEMENT SYSTEM (JAN 2025)

(a) *Definitions.* As used in this clause—

“Acceptable earned value management system” means an earned value management system that generally complies with system criteria in paragraph (b) of this clause.

“Earned value management system” means an earned value management system that complies with the earned value management system guidelines in the ANSI/EIA-748.

“Material weakness” means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

(1) Probable; or

(2) More than remote but less than likely (section 806 of Pub. L. 116-283).

(b) *System criteria.* In the performance of this contract, the Contractor shall use—

(1) An Earned Value Management System (EVMS) that complies with the EVMS guidelines in the American National Standards Institute/Electronic Industries Alliance Standard 748, Earned Value Management Systems (ANSI/EIA-748); and

(2) Management procedures that provide for generation of timely, reliable, and verifiable information for the Contract Performance Report (CPR) and the Integrated Master Schedule (IMS) required by the CPR and IMS data items of this contract.

(c) If this contract has a value of \$50 million or more, the Contractor shall use an EVMS that has been determined to be acceptable by the Cognizant Federal Agency (CFA). If, at the time of award, the Contractor’s EVMS has not been determined by the CFA to be in compliance with the EVMS guidelines as stated in paragraph (b)(1) of this clause, the Contractor shall apply its current system to the contract and shall take necessary actions to meet the milestones in the Contractor’s EVMS plan.

(d) If this contract has a value of less than \$50 million, the Government will not make a formal determination that the Contractor’s EVMS complies with the EVMS guidelines in ANSI/EIA-748 with respect to the contract. The use of the Contractor’s EVMS for this contract does not imply a Government determination of the Contractor’s compliance with the EVMS guidelines in ANSI/EIA-748 for application to future contracts. The Government will allow the use of a Contractor’s EVMS that has been formally reviewed and determined by the CFA to be in compliance with the EVMS guidelines in ANSI/EIA-748.

(e) The Contractor shall submit notification of any proposed substantive changes to the EVMS procedures and the impact of those changes to the CFA. If this contract has a value of \$50 million or more, unless a waiver is granted by the CFA, any EVMS changes proposed by the Contractor require approval of the CFA prior to implementation. The CFA will advise the Contractor of the acceptability of such changes as soon as practicable (generally within 30 calendar days) after receipt of the Contractor’s notice of proposed changes. If the CFA waives the advance approval requirements, the Contractor shall disclose EVMS changes to the CFA at least 14 calendar days prior to the effective date of implementation.

(f) The Government will schedule integrated baseline reviews as early as practicable, and the review process will be conducted not later than 180 calendar days after—

(1) Contract award;

(2) The exercise of significant contract options; and

(3) The incorporation of major modifications.

During such reviews, the Government and the Contractor will jointly assess the Contractor's baseline to be used for performance measurement to ensure complete coverage of the statement of work, logical scheduling of the work activities, adequate resourcing, and identification of inherent risks.

(g) The Contractor shall provide access to all pertinent records and data requested by the Contracting Officer or duly authorized representative as necessary to permit Government surveillance to ensure that the EVMS complies, and continues to comply, with the performance criteria referenced in paragraph (b) of this clause.

(h) When indicated by contract performance, the Contractor shall submit a request for approval to initiate an over-target baseline or over-target schedule to the Contracting Officer. The request shall include a top-level projection of cost and/or schedule growth, a determination of whether or not performance variances will be retained, and a schedule of implementation for the rebaselining. The Government will acknowledge receipt of the request in a timely manner (generally within 30 calendar days).

(i) Material weaknesses.

(1) The Contracting Officer will provide an initial determination to the Contractor, in writing, of any material weaknesses. The initial determination will describe the underlying deficiency in sufficient detail to allow the Contractor to understand the weakness or deficiency.

(2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies material weaknesses in the Contractor's EVMS. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.

(3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—

(i) Remaining material weaknesses;

(ii) The adequacy of any proposed or completed corrective action;

(iii) System noncompliance, when the Contractor's existing EVMS fails to comply with the earned value management system guidelines in the ANSI/EIA-748; and

(iv) System disapproval, if initial EVMS validation is not successfully completed within the timeframe approved by the Contracting Officer, or if the Contracting Officer determines that the Contractor's earned value management system contains one or more material weaknesses in high-risk guidelines in ANSI/EIA-748 standards (guidelines 1, 3, 6, 7, 8, 9, 10, 12, 16, 21, 23, 26, 27, 28, 30, or 32). When the Contracting Officer determines that the existing earned value management system contains one or more material weaknesses in one or more of the remaining 16 guidelines in ANSI/EIA-748 standards, the Contracting Officer will use discretion to disapprove the system based on input received from functional specialists and the auditor.

(4) If the Contractor receives the Contracting Officer's final determination of material weaknesses, the Contractor shall, within 45 days of receipt of the final determination, either correct the material weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the material weaknesses.

(j) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's EVMS, and the contract includes the clause at [252.242-7005](#), Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(k) Subcontracts. With the exception of paragraphs (i) and (j) of this clause, the Contractor shall require its subcontractors to comply with EVMS requirements as follows:

(1) For subcontracts valued at \$50 million or more, the following subcontractors shall comply with the requirements of this clause:

[Contracting Officer to insert names of subcontractors (or subcontracted effort if subcontractors have not been selected) designated for application of the EVMS requirements of this clause.]

(2) For subcontracts valued at less than \$50 million, the following subcontractors shall comply with the requirements of this clause, excluding the requirements of paragraph (c) of this clause:

[Contracting Officer to insert names of subcontractors (or subcontracted effort if subcontractors have not been selected) designated for application of the EVMS requirements of this clause.]

(End of clause)

252.234-7003 Notice of Cost and Software Data Reporting System.

Basic. As prescribed in [234.7101](#) (a) and (a)(1), use the following provision:

NOTICE OF COST AND SOFTWARE DATA REPORTING SYSTEM—BASIC (NOV 2014)

- (a) This solicitation includes—
 - (1) The Government-approved cost and software data reporting (CSDR) plan for the contract, DD Form 2794; and
 - (2) The related Resource Distribution Table.
- (b) As part of its proposal, the Offeror shall—
 - (1) Describe the process to be used to satisfy the requirements of the DoD 5000.04-M-1, CSDR Manual, and the Government-approved CSDR plan for the proposed contract;
 - (2) Demonstrate how contractor cost and data reporting (CCDR) will be based, to the maximum extent possible, upon actual cost transactions and not cost allocations;
 - (3) Demonstrate how the data from its accounting system will be mapped into the standard reporting categories required in the CCDR data item descriptions;
 - (4) Describe how recurring and nonrecurring costs will be segregated;
 - (5) Provide comments on the adequacy of the CSDR contract plan and related Resource Distribution Table; and
 - (6) Submit the DD Form 1921, Cost Data Summary Report, and DD Form 1921-1, Functional Cost-Hour Report, with its pricing proposal.
- (c) CSDR reporting will be required for subcontractors at any tier with a subcontract that exceeds \$50 million. The offeror shall identify, by providing comments on the Resource Distribution Table, the subcontractors, or, if the subcontractors have not been selected, the subcontracted effort in this category.

(End of provision)

Alternate I. As prescribed in [234.7101](#) (a) and (a)(2), use the following provision, which uses a different paragraph (c) than the basic provision:

NOTICE OF COST AND SOFTWARE DATA REPORTING SYSTEM
—ALTERNATE I (NOV 2014)

- (a) This solicitation includes—
 - (1) The Government-approved cost and software data reporting (CSDR) plan for the contract, DD Form 2794; and
 - (2) The related Resource Distribution Table.
- (b) As part of its proposal, the Offeror shall—
 - (1) Describe the process to be used to satisfy the requirements of the DoD 5000.04-M-1, CSDR Manual, and the Government-approved CSDR plan for the proposed contract;
 - (2) Demonstrate how contractor cost and data reporting (CCDR) will be based, to the maximum extent possible, upon actual cost transactions and not cost allocations;
 - (3) Demonstrate how the data from its accounting system will be mapped into the standard reporting categories required in the CCDR data item descriptions;
 - (4) Describe how recurring and nonrecurring costs will be segregated;
 - (5) Provide comments on the adequacy of the CSDR contract plan and related Resource Distribution Table; and
 - (6) Submit the DD Form 1921, Cost Data Summary Report, and DD Form 1921-1, Functional Cost-Hour Report, with its pricing proposal.
- (c) CSDR reporting will be required for subcontractors for selected subcontracts identified in the CSDR contract plan as requiring such reporting. The offeror shall identify, by providing comments on the Resource Distribution Table, the subcontractors, or, if the subcontractors have not been selected, the subcontracted effort.

(End of provision)

252.234-7004 Cost and Software Data Reporting System.

Basic. As prescribed in [234.7101](#) (b) and (b)(1), use the following clause:

COST AND SOFTWARE DATA REPORTING SYSTEM—BASIC (NOV 2014)

- (a) In the performance of this contract, the Contractor shall use—

(1) A documented standard cost and software data reporting (CSDR) process that satisfies the guidelines contained in the DoD 5000.04-M-1, CSDR Manual;

(2) Management procedures that provide for generation of timely and reliable information for the contractor cost data reports (CCDRs) and software resources data reports (SRDRs) required by the CCDR and SRDR data items of this contract; and

(3) The Government-approved CSDR plan for this contract, DD Form 2794, and the related Resource Distribution Table as the basis for reporting in accordance with the required CSDR data item descriptions (DIDs).

(b) The Contractor shall require CSDR reporting from subcontractors at any tier with a subcontract that exceeds \$50 million. If, for subcontracts that exceed \$50 million, the Contractor changes subcontractors or makes new subcontract awards, the Contractor shall notify the Government.

(End of clause)

Alternate I. As prescribed in [234.7101](#) (b) and (b)(2), use the following clause, which uses a different paragraph (b) than the basic clause:

**COST AND SOFTWARE DATA REPORTING SYSTEM—ALTERNATE I
(NOV 2014)**

(a) In the performance of this contract, the Contractor shall use—

(1) A documented standard cost and software data reporting (CSDR) process that satisfies the guidelines contained in the DoD 5000.04-M-1, CSDR Manual;

(2) Management procedures that provide for generation of timely and reliable information for the contractor cost data reports (CCDRs) and software resources data reports (SRDRs) required by the CCDR and SRDR data items of this contract; and

(3) The Government-approved CSDR plan for this contract, DD Form 2794, and the related Resource Distribution Table as the basis for reporting in accordance with the required CSDR data item descriptions (DIDs).

(b) The Contractor shall require CSDR reporting from selected subcontractors identified in the CSDR contract plan as requiring such reporting. If the Contractor changes subcontractors or makes new awards for selected subcontract effort, the Contractor shall notify the Government.

(End of clause)

252.235 RESERVED

252.235-7000 Indemnification Under 10 U.S.C. 3861—Fixed Price.

As prescribed in [235.070-3](#), use the following clause:

INDEMNIFICATION UNDER 10 U.S.C. 3861—FIXED PRICE (DEC 2022)

(a) This clause provides for indemnification under 10 U.S.C. 3861 if the Contractor meets all the terms and conditions of this clause.

(b) Claims, losses, and damages covered—

(1) Claims by third persons for death, bodily injury, sickness, or disease, or the loss, damage, or lost use of property. Claims include those for reasonable expenses of litigation or settlement. The term “third persons” includes employees of the contractor;

(2) The loss, damage, and lost use of the Contractor's property, but excluding lost profit; and

(3) Loss, damage, or lost use of the Government's property.

(c) The claim, loss, or damage—

(1) Must arise from the direct performance of this contract;

(2) Must not be compensated by insurance or other means, or be within deductible amounts of the Contractor's insurance;

(3) Must result from an unusually hazardous risk as specifically defined in the contract;

(4) Must not result from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, managers, superintendents, or other equivalent representatives who have supervision or direction of—

- (i) All or substantially all of the Contractor's business;
- (ii) All or substantially all of the Contractor's operations at any one plant or separate location where this contract is being performed; or
- (iii) A separate and complete major industrial operation connected with the performance of this contract;
- (5) Must not be a liability assumed under any contract or agreement (except for subcontracts covered by paragraph (h) of this clause), unless the Contracting Officer (or in contracts with the Department of the Navy, the Department) specifically approved the assumption of liability; and
- (6) Must be certified as just and reasonable by the Secretary of the department or designated representative.
- (d) The Contractor shall buy and maintain, to the extent available, insurance against unusually hazardous risks in the form, amount, period(s) of time, at the rate(s), and with such insurers, as the Contracting Officer (or, for Navy contracts, the Department) may from time to time require and approve. If the cost of this insurance is higher than the cost of the insurance the Contractor had as of the date of the contract, the Government shall reimburse the Contractor for the difference in cost, as long as it is properly allocable to this contract and is not included in the contract price. The Government shall not be liable for claims, loss, or damage if insurance was available and is either required or approved under this paragraph.
- (e) A reduction of the insurance coverage maintained by the Contractor on the date of the execution of this contract shall not increase the Government's liability under this clause unless the Contracting Officer consents, and the contract price is equitably adjusted, if appropriate, to reflect the Contractor's consideration for the Government's assumption of increased liability.
- (f) *Notice.* The Contractor shall—
 - (1) Promptly notify the Contracting Officer of any occurrence, action, or claim that might trigger the Government's liability under this clause;
 - (2) Furnish the proof or evidence of any claim, loss, or damage in the form and manner that the Government requires; and
 - (3) Immediately provide copies of all pertinent papers that the Contractor receives or has received.
- (g) The Government may direct, participate in, and supervise the settlement or defense of the claim or action. The Contractor shall comply with the Government's directions and execute any authorizations required.
- (h) *Flowdown.* The Government shall indemnify the Contractor if the Contractor has an obligation to indemnify a subcontractor under any subcontract at any tier under this contract for the unusually hazardous risk identified in this contract only if—
 - (1) The Contracting Officer gave prior written approval for the Contractor to provide in a subcontract for the Contractor to indemnify the subcontractor for unusually hazardous risks defined in this contract;
 - (2) The Contracting Officer approved those indemnification provisions;
 - (3) The subcontract indemnification provisions entitle the Contractor, or the Government, or both, to direct, participate in, and supervise the settlement or defense of relevant actions and claims; and
 - (4) The subcontract provides the same rights and duties, the same provisions for notice, furnishing of papers and the like, between the Contractor and the subcontractor, as exist between the Government and the Contractor under this clause.
- (i) The Government may discharge its obligations under paragraph (h) of this clause by making payments directly to subcontractors or to persons to whom the subcontractors may be liable.
- (j) The rights and obligations of the parties under this clause shall survive the termination, expiration, or completion of this contract.

(End of clause)

252.235-7001 Indemnification Under 10 U.S.C. 3861—Cost Reimbursement.

As prescribed in [235.070-3](#), use the following clause:

INDEMNIFICATION UNDER 10 U.S.C. 3861—COST REIMBURSEMENT(DEC 2022)

- (a) This clause provides for indemnification under 10 U.S.C. 3861 if the Contractor meets all the terms and conditions of this clause.
- (b) Claims, losses, and damages covered—

(1) Claims by third persons for death, bodily injury, sickness, or disease, or the loss, damage, or lost use of property. Claims include those for reasonable expenses of litigation or settlement. The term "third persons" includes employees of the Contractor;

(2) The loss, damage, and lost use of the Contractor's property, but excluding lost profit; and

(3) Loss, damage, or lost use of the Government's property.

(c) The claim, loss, or damage—

(1) Must arise from the direct performance of this contract;

(2) Must not be compensated by insurance or other means, or be within deductible amounts of the Contractor's insurance;

(3) Must result from an unusually hazardous risk as specifically defined in the contract;

(4) Must not result from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, managers, superintendents, or other equivalent representatives who have supervision or direction of—

(i) All or substantially all of the Contractor's business;

(ii) All or substantially all of the Contractor's operations at any one plant or separate location where this contract is being performed; or

(iii) A separate and complete major industrial operation connected with the performance of this contract;

(5) Must not be a liability assumed under any contract or agreement (except for subcontracts covered by paragraph (i) of this clause), unless the Contracting Officer (or in contracts with the Department of the Navy, the Department) specifically approved the assumption of liability; and

(6) Must be certified as just and reasonable by the Secretary of the department or designated representative.

(d) A reduction of the insurance coverage maintained by the Contractor on the date of the execution of this contract shall not increase the Government's liability under this clause unless the Contracting Officer consents, and the contract price is equitably adjusted, if appropriate, to reflect the Contractor's consideration for the Government's assumption of increased liability.

(e) *Notice.* The Insurance—Liability to Third Persons clause of this contract applies also to claims under this clause. In addition, the Contractor shall—

(1) Promptly notify the Contracting Officer of any occurrence, action, or claim that might trigger the Government's liability under this clause;

(2) Furnish the proof or evidence of any claim, loss, or damage in the form and manner that the Government requires; and

(3) Immediately provide copies of all pertinent papers that the contractor receives or has received.

(f) The Government may direct, participate in, and supervise the settlement or defense of the claim or action. The Contractor shall comply with the Government's directions, and execute any authorizations required.

(g) The Limitation of Cost clause of this contract does not apply to the Government's obligations under this clause. The obligations under this clause are excepted from the release required by the Allowable Cost, Fee, and Payment clause of this contract.

(h) Under this clause, a claim, loss, or damage arises from the direct performance of this contract if the cause of the claim, loss, or damage occurred during the period of performance of this contract or as a result of the performance of this contract.

(i) *Flowdown.* The Government shall indemnify the Contractor if the Contractor has an obligation to indemnify a subcontractor under any subcontract at any tier under this contract for the unusually hazardous risk identified in this contract only if—

(1) The Contracting Officer gave prior written approval for the Contractor to provide in a subcontract for the Contractor to indemnify the subcontractor for unusually hazardous risks defined in this contract;

(2) The Contracting Officer approved those indemnification provisions;

(3) The subcontract indemnification provisions entitle the Contractor, or the Government, or both, to direct, participate in, and supervise the settlement or defense of relevant actions and claims; and

(4) The subcontract provides the same rights and duties, the same provisions for notice, furnishing of paper and the like, between the Contractor and the subcontractor, as exist between the Government and the Contractor under this clause.

(j) The Government may discharge its obligations under paragraph (i) of this clause by making payments directly to subcontractors or to persons to whom the subcontractors may be liable.

(k) The rights and obligations of the parties under this clause shall survive the termination, expiration, or completion of this contract.

(End of clause)

252.235-7002 Animal Welfare.

As prescribed in [235.072](#) (a), use the following clause:

ANIMAL WELFARE (DEC 2014)

(a)(1) The Contractor shall register its research, development, test, and evaluation or training facility with the Secretary of Agriculture in accordance with 7 U.S.C. 2136 and 9 CFR subpart C, and section 2.30, unless otherwise exempt from this requirement by meeting the conditions in 7 U.S.C. 2136 and 9 CFR parts 1 through 4 for the duration of the activity. The Contractor shall have its proposed animal use approved in accordance with Department of Defense Instruction (DoDI) 3216.01, Use of Animals in DoD Programs, by a DoD Component Headquarters Oversight Office. The Contractor shall furnish evidence of such registration and approval to the Contracting Officer before beginning work under this contract.

(2) The Contractor shall make its animals, and all premises, facilities, vehicles, equipment, and records that support animal care available during business hours and at other times mutually agreeable to the Contractor and the United States Department of Agriculture Office of Animal and Plant Health Inspection Service (USDA/APHIS) representative, personnel representing the DoD component oversight offices, as well as the Contracting Officer, to ascertain that the Contractor is compliant with 7 U.S.C. 2131-2159 and 9 CFR parts 1 through 4.

(b) The Contractor shall acquire animals in accordance with DoDI 3216.01, current at time of award (<http://www.dtic.mil/whs/directives/corres/pdf/321601p.pdf>).

(c) The Contractor agrees that the care and use of animals will conform with the pertinent laws of the United States, regulations of the Department of Agriculture, and policies and procedures of the Department of Defense (see 7 U.S.C. 2131 *et seq.*, and 9 CFR subchapter A, parts 1 through 4, DoDI 3216.01, Army Regulation 40-33/ SECNAVINST 3900.38C/ AFMAN 40-401(I)/DARPAINST 18/USUHSINST 3203). The Contractor shall also comply with DoDI 1322.24, Medical Readiness Training, if this contract includes acquisition of training.

(d) The Contracting Officer may immediately suspend, in whole or in part, work and further payments under this contract for failure to comply with the requirements of paragraphs (a) through (c) of this clause.

(1) The suspension will stay in effect until the Contractor complies with the requirements.

(2) Failure to complete corrective action within the time specified by the Contracting Officer may result in termination of this contract and, if applicable, removal of the Contractor's name from the approved vendor list for live animals used in medical training.

(e) The Contractor may request registration of its facility by contacting USDA/APHIS/AC, 4700 River Road, Unit 84, Riverdale, MD 20737-1234, or via the APHIS Animal Care website at: <http://www.aphis.usda.gov/wps/portal/aphis/ourfocus/animalwelfare>.

(f) The Contractor shall include the substance of this clause, including this paragraph (f), in all subcontracts involving research, development, test, and evaluation or training that use live vertebrate animals.

(End of clause)

252.235-7003 Frequency Authorization.

Basic. As prescribed in [235.072](#) (b) and (b)(1), use the following clause:

FREQUENCY AUTHORIZATION—BASIC (MAR 2014)

(a) The Contractor shall obtain authorization for radio frequencies required in support of this contract.

(b) For any experimental, developmental, or operational equipment for which the appropriate frequency allocation has not been made, the Contractor shall provide the technical operating characteristics of the proposed electromagnetic radiating device to the Contracting Officer during the initial planning, experimental, or developmental phase of contract performance.

(c) The Contracting Officer shall furnish the procedures for obtaining radio frequency authorization.

(d) The Contractor shall include this clause, including this paragraph (d), in all subcontracts requiring the development, production, construction, testing, or operation of a device for which a radio frequency authorization is required.

(End of clause)

Alternate I. As prescribed in [235.072](#) (b) and (b)(2), use the following clause, which uses a different paragraph (c) than the basic clause:

FREQUENCY AUTHORIZATION—ALTERNATE I (MAR 2014)

(a) The Contractor shall obtain authorization for radio frequencies required in support of this contract.

(b) For any experimental, developmental, or operational equipment for which the appropriate frequency allocation has not been made, the Contractor shall provide the technical operating characteristics of the proposed electromagnetic radiating device to the Contracting Officer during the initial planning, experimental, or developmental phase of contract performance.

(c) The contractor shall use DD Form 1494, Application for Equipment Frequency Allocation, to obtain radio frequency authorization.

(d) The Contractor shall include this clause, including this paragraph (d), in all subcontracts requiring the development, production, construction, testing, or operation of a device for which a radio frequency authorization is required.

(End of clause)

252.235-7004 Protection of Human Subjects.

As prescribed in [235.072](#) (e), use the following clause:

PROTECTION OF HUMAN SUBJECTS (JUL 2009)

(a) *Definitions.* As used in this clause—

(1) “Assurance of compliance” means a written assurance that an institution will comply with requirements of 32 CFR Part 219, as well as the terms of the assurance, which the Human Research Protection Official determines to be appropriate for the research supported by the Department of Defense (DoD) component (32 CFR 219.103).

(2) “Human Research Protection Official (HRPO)” means the individual designated by the head of the applicable DoD component and identified in the component’s Human Research Protection Management Plan as the official who is responsible for the oversight and execution of the requirements of this clause, although some DoD components may use a different title for this position.

(3) “Human subject” means a living individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual, or identifiable private information (32 CFR 219.102(f)). For example, this could include the use of human organs, tissue, and body fluids from individually identifiable living human subjects as well as graphic, written, or recorded information derived from individually identifiable living human subjects.

(4) “Institution” means any public or private entity or agency (32 CFR 219.102(b)).

(5) “Institutional Review Board (IRB)” means a board established for the purposes expressed in 32 CFR Part 219 (32 CFR 219.102(g)).

(6) “IRB approval” means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and Federal requirements (32 CFR 219.102(h)).

(7) “Research” means a systematic investigation, including research, development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for purposes of 32 CFR Part 219, whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities (32 CFR 219.102(d)).

(b) The Contractor shall oversee the execution of the research to ensure compliance with this clause. The Contractor shall comply fully with 32 CFR Part 219 and DoD Directive 3216.02, applicable DoD component policies, 10 U.S.C. 980, and, when applicable, Food and Drug Administration policies and regulations.

(c) The Contractor shall not commence performance of research involving human subjects that is covered under 32 CFR Part 219 or that meets exemption criteria under 32 CFR 219.101(b), or expend funding on such effort, until and unless the conditions of either the following paragraph (c)(1) or (c)(2) have been met:

(1) The Contractor furnishes to the HRPO, with a copy to the Contracting Officer, an assurance of compliance and IRB approval and receives notification from the Contracting Officer that the HRPO has approved the assurance as appropriate for the research under the Statement of Work and also that the HRPO has reviewed the protocol and accepted the IRB approval for compliance with the DoD component policies. The Contractor may furnish evidence of an existing assurance of compliance for acceptance by the HRPO, if an appropriate assurance has been approved in connection with previous research. The Contractor shall notify the Contracting Officer immediately of any suspensions or terminations of the assurance.

(2) The Contractor furnishes to the HRPO, with a copy to the Contracting Officer, a determination that the human research proposed meets exemption criteria in 32 CFR 219.101(b) and receives written notification from the Contracting Officer that the exemption is determined acceptable. The determination shall include citation of the exemption category under 32 CFR 219.101(b) and a rationale statement. In the event of a disagreement regarding the Contractor's furnished exemption determination, the HRPO retains final judgment on what research activities or classes of research are covered or are exempt under the contract.

(d) DoD staff, consultants, and advisory groups may independently review and inspect the Contractor's research and research procedures involving human subjects and, based on such findings, DoD may prohibit research that presents unacceptable hazards or otherwise fails to comply with DoD procedures.

(e) Failure of the Contractor to comply with the requirements of this clause will result in the issuance of a stop-work order under Federal Acquisition Regulation clause 52.242-15 to immediately suspend, in whole or in part, work and further payment under this contract, or will result in other issuance of suspension of work and further payment for as long as determined necessary at the discretion of the Contracting Officer.

(f) The Contractor shall include the substance of this clause, including this paragraph (f), in all subcontracts that may include research involving human subjects in accordance with 32 CFR Part 219, DoD Directive 3216.02, and 10 U.S.C. 980, including research that meets exemption criteria under 32 CFR 219.101(b). This clause does not apply to subcontracts that involve only the use of cadaver materials.

(End of clause)

252.235-7005 Reserved.

252.235-7006 Reserved.

252.235-7007 Reserved.

252.235-7008 Reserved.

252.235-7009 Reserved.

252.235-7010 Acknowledgment of Support and Disclaimer.

As prescribed in [235.072](#) (c), use the following clause:

ACKNOWLEDGMENT OF SUPPORT AND DISCLAIMER (MAY 1995)

(a) The Contractor shall include an acknowledgment of the Government's support in the publication of any material based on or developed under this contract, stated in the following terms: This material is based upon work supported by the (name of contracting agency(ies)) under Contract No. (Contracting agency(ies) contract number(s)).

(b) All material, except scientific articles or papers published in scientific journals, must, in addition to any notices or disclaimers by the Contractor, also contain the following disclaimer: Any opinions, findings and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the (name of contracting agency(ies)).

(End of clause)

252.235-7011 Final Scientific or Technical Report.

As prescribed in [235.072](#) (d), use the following clause:

FINAL SCIENTIFIC OR TECHNICAL REPORT (DEC 2019)

The Contractor shall—

(a) Submit an electronic copy of the approved final scientific or technical report, not a summary, delivered under this contract to the Defense Technical Information Center (DTIC)] through the web-based input system at <https://discover.dtic.mil/submit-documents/> as required by DoD Instruction 3200.12, DoD Scientific and Technical Information Program (STIP). Include a completed Standard Form (SF) 298, Report Documentation Page, in the document, or complete the web-based SF 298.

(b) For instructions on submitting multi-media reports, follow the instructions at <https://discover.dtic.mil/submit-documents/>.

(c) Email classified reports (up to Secret) to dtic.belvoir.da.mbx.tr@mail.smil.mil. If a SIPRNET email capability is not available, follow the classified submission instructions at <https://discover.dtic.mil/submit-documents/>.

(End of clause)

252.236 RESERVED**252.236-7000 Modification Proposals—Price Breakdown.**

As prescribed in [236.570](#) (a), use the following clause:

MODIFICATION PROPOSALS—PRICE BREAKDOWN (DEC 1991)

(a) The Contractor shall furnish a price breakdown, itemized as required and within the time specified by the Contracting Officer, with any proposal for a contract modification.

(b) The price breakdown—

(1) Must include sufficient detail to permit an analysis of profit, and of all costs for—

- (i) Material;
- (ii) Labor;
- (iii) Equipment;
- (iv) Subcontracts; and
- (v) Overhead; and

(2) Must cover all work involved in the modification, whether the work was deleted, added, or changed.

(c) The Contractor shall provide similar price breakdowns to support any amounts claimed for subcontracts.

(d) The Contractor's proposal shall include a justification for any time extension proposed.

(End of clause)

252.236-7001 Contract Drawings and Specifications.

As prescribed in [236.570](#) (a), use the following clause:

CONTRACT DRAWINGS AND SPECIFICATIONS (AUG 2000)

(a) The Government will provide to the Contractor, without charge, one set of contract drawings and specifications, except publications incorporated into the technical provisions by reference, in electronic or paper media as chosen by the Contracting Officer.

(b) The Contractor shall—

- (1) Check all drawings furnished immediately upon receipt;
- (2) Compare all drawings and verify the figures before laying out the work;
- (3) Promptly notify the Contracting Officer of any discrepancies;
- (4) Be responsible for any errors that might have been avoided by complying with this paragraph (b); and

(5) Reproduce and print contract drawings and specifications as needed.

(c) In general—

(1) Large-scale drawings shall govern small-scale drawings; and

(2) The Contractor shall follow figures marked on drawings in preference to scale measurements.

(d) Omissions from the drawings or specifications or the misdescription of details of work that are manifestly necessary to carry out the intent of the drawings and specifications, or that are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed details of the work. The Contractor shall perform such details as if fully and correctly set forth and described in the drawings and specifications.

(e) The work shall conform to the specifications and the contract drawings identified on the following index of drawings:

Title	File		Drawing No.
-------	------	--	-------------

(End of clause)

252.236-7002 Obstruction of Navigable Waterways.

As prescribed in [236.570](#) (b)(1), use the following clause:

OBSTRUCTION OF NAVIGABLE WATERWAYS (DEC 1991)

(a) The Contractor shall—

(1) Promptly recover and remove any material, plant, machinery, or appliance which the contractor loses, dumps, throws overboard, sinks, or misplaces, and which, in the opinion of the Contracting Officer, may be dangerous to or obstruct navigation;

(2) Give immediate notice, with description and locations of any such obstructions, to the Contracting Officer; and

(3) When required by the Contracting Officer, mark or buoy such obstructions until the same are removed.

(b) The Contracting Officer may—

(1) Remove the obstructions by contract or otherwise should the Contractor refuse, neglect, or delay compliance with paragraph (a) of this clause; and

(2) Deduct the cost of removal from any monies due or to become due to the Contractor; or

(3) Recover the cost of removal under the Contractor's bond.

(c) The Contractor's liability for the removal of a vessel wrecked or sunk without fault or negligence is limited to that provided in Sections 15, 19, and 20 of the River and Harbor Act of March 3, 1899 (33 U.S.C. 410 *et. seq.*).

(End of clause)

252.236-7003 Payment for Mobilization and Preparatory Work.

As prescribed in [236.570](#) (b)(2), use the following clause:

PAYMENT FOR MOBILIZATION AND PREPARATORY WORK (JAN 1997)

(a) The Government will make payment to the Contractor under the procedures in this clause for mobilization and preparatory work under item no. _____.

(b) Payments will be made for actual payments by the Contractor on work preparatory to commencing actual work on the construction items for which payment is provided under the terms of this contract, as follows—

(1) For construction plant and equipment exceeding \$25,000 in value per unit (as appraised by the Contracting Officer at the work site) acquired for the execution of the work;

(2) Transportation of all plant and equipment to the site;

(3) Material purchased for the prosecution of the contract, but not to be incorporated in the work;

(4) Construction of access roads or railroads, camps, trailer courts, mess halls, dormitories or living quarters, field headquarters facilities, and construction yards;

(5) Personal services; and

(6) Hire of plant.

- (c) Requests for payment must include—
- (1) An account of the Contractor's actual expenditures;
 - (2) Supporting documentation, including receipted bills or copies of payrolls and freight bills; and
 - (3) The Contractor's documentation—
 - (i) Showing that it has acquired the construction plant, equipment, and material free from all encumbrances;
 - (ii) Agreeing that the construction plant, equipment, and material will not be removed from the site without the written permission of the Contracting Officer; and
 - (iii) Agreeing that structures and facilities prepared or erected for the prosecution of the contract work will be maintained and not dismantled prior to the completion and acceptance of the entire work, without the written permission of the Contracting Officer.
- (d) Upon receiving a request for payment, the Government will make payment, less any prescribed retained percentage, if—
- (1) The Contracting Officer finds the—
 - (i) Construction plant, material, equipment, and the mobilization and preparatory work performed are suitable and necessary to the efficient prosecution of the contract; and
 - (ii) Preparatory work has been done with proper economy and efficiency.
 - (2) Payments for construction plant, equipment, material, and structures and facilities prepared or erected for prosecution of the contract work do not exceed—
 - (i) The Contractor's cost for the work performed less the estimated value upon completion of the contract; and
 - (ii) 100 percent of the cost to the contractor of any items having no appreciable salvage value; and
 - (iii) 75 percent of the cost to the contractor of items which do have an appreciable salvage value.
- (e)(1) Payments will continue to be made for item no. _____, and all payments will be deducted from the contract price for this item, until the total deductions reduce this item to zero, after which no further payments will be made under this item.
- (2) If the total of payments so made does not reduce this item to zero, the balance will be paid to the Contractor in the final payment under the contract.
- (3) The retained percentage will be paid in accordance with the Payments to Contractor clause of this contract.
- (f) The Contracting Officer shall determine the value and suitability of the construction plant, equipment, materials, structures and facilities. The Contracting Officer's determinations are not subject to appeal.

(End of clause)

252.236-7004 Payment for Mobilization and Demobilization.

As prescribed in [236.570](#) (b)(2), use the following clause:

PAYMENT FOR MOBILIZATION AND DEMOBILIZATION (DEC 1991)

- (a) The Government will pay all costs for the mobilization and demobilization of all of the Contractor's plant and equipment at the contract lump sum price for this item.
- (1) _____ percent of the lump sum price upon completion of the contractor's mobilization at the work site.
 - (2) The remaining _____ percent upon completion of demobilization.
- (b) The Contracting Officer may require the Contractor to furnish cost data to justify this portion of the bid if the Contracting Officer believes that the percentages in paragraphs (a)(1) and (2) of this clause do not bear a reasonable relation to the cost of the work in this contract.
- (1) Failure to justify such price to the satisfaction of the Contracting Officer will result in payment, as determined by the Contracting Officer, of—
- (i) Actual mobilization costs at completion of mobilization;
 - (ii) Actual demobilization costs at completion of demobilization; and
 - (iii) The remainder of this item in the final payment under this contract.
- (2) The Contracting Officer's determination of the actual costs in paragraph (b)(1) of this clause is not subject to appeal.

(End of clause)

252.236-7005 Airfield Safety Precautions.

As prescribed in [236.570](#) (b)(3), use the following clause. At some airfields, the width of the primary surface is 1,500 feet (750 feet on each side of the runway centerline). In such instances, substitute the proper width in the clause.

AIRFIELD SAFETY PRECAUTIONS (DEC 1991)

(a) *Definitions.* As used in this clause—

(1) “Landing areas” means—

(i) The primary surfaces, comprising the surface of the runway, runway shoulders, and lateral safety zones. The length of each primary surface is the same as the runway length. The width of each primary surface is 2,000 feet (1,000 feet on each side of the runway centerline);

(ii) The “clear zone” beyond the ends of each runway, i.e., the extension of the primary surface for a distance of 1,000 feet beyond each end of each runway;

(iii) All taxiways, plus the lateral clearance zones along each side for the length of the taxiways (the outer edge of each lateral clearance zone is laterally 250 feet from the far or opposite edge of the taxiway, e.g., a 75-foot-wide taxiway would have a combined width of taxiway and lateral clearance zones of 425 feet); and

(iv) All aircraft parking aprons, plus the area 125 feet in width extending beyond each edge all around the aprons.

(2) “Safety precaution areas” means those portions of approach-departure clearance zones and transitional zones where placement of objects incident to contract performance might result in vertical projections at or above the approach-departure clearance, or the transitional surface.

(i) The “approach-departure clearance surface” is an extension of the primary surface and the clear zone at each end of each runway, for a distance of 50,000 feet, first along an inclined (glide angle) and then along a horizontal plane, both flaring symmetrically about the runway centerline extended.

(A) The inclined plane (glide angle) begins in the clear zone 200 feet past the end of the runway (and primary surface) at the same elevation as the end of the runway. It continues upward at a slope of 50:1 (1 foot vertically for each 50 feet horizontally) to an elevation of 500 feet above the established airfield elevation. At that point the plane becomes horizontal, continuing at that same uniform elevation to a point 50,000 feet longitudinally from the beginning of the inclined plane (glide angle) and ending there.

(B) The width of the surface at the beginning of the inclined plane (glide angle) is the same as the width of the clear zone. It then flares uniformly, reaching the maximum width of 16,000 feet at the end.

(ii) The “approach-departure clearance zone” is the ground area under the approach-departure clearance surface.

(iii) The “transitional surface” is a sideways extension of all primary surfaces, clear zones, and approach-departure clearance surfaces along inclined planes.

(A) The inclined plane in each case begins at the edge of the surface.

(B) The slope of the incline plane is 7:1 (1 foot vertically for each 7 feet horizontally). It continues to the point of intersection with the—

(1) Inner horizontal surface (which is the horizontal plane 150 feet above the established airfield elevation);

or

(2) Outer horizontal surface (which is the horizontal plane 500 feet above the established airfield elevation), whichever is applicable.

(iv) The “transitional zone” is the ground area under the transitional surface. (It adjoins the primary surface, clear zone, and approach-departure clearance zone.)

(b) *General.*

(1) The Contractor shall comply with the requirements of this clause while—

(i) Operating all ground equipment (mobile or stationary);

(ii) Placing all materials; and

(iii) Performing all work, upon and around all airfields.

(2) The requirements of this clause are in addition to any other safety requirements of this contract.

(c) The Contractor shall—

(1) Report to the Contracting Officer before initiating any work;

(2) Notify the Contracting Officer of proposed changes to locations and operations;

(3) Not permit either its equipment or personnel to use any runway for purposes other than aircraft operation without permission of the Contracting Officer, unless the runway is—

- (i) Closed by order of the Contracting Officer; and
- (ii) Marked as provided in paragraph (d)(2) of this clause;
- (4) Keep all paved surfaces, such as runways, taxiways, and hardstands, clean at all times and, specifically, free from small stones which might damage aircraft propellers or jet aircraft;
- (5) Operate mobile equipment according to the safety provisions of this clause, while actually performing work on the airfield. At all other times, the Contractor shall remove all mobile equipment to locations—
 - (i) Approved by the Contracting Officer;
 - (ii) At a distance of at least 750 feet from the runway centerline, plus any additional distance; and
 - (iii) Necessary to ensure compliance with the other provisions of this clause; and
- (6) Not open a trench unless material is on hand and ready for placing in the trench. As soon as practicable after material has been placed and work approved, the Contractor shall backfill and compact trenches as required by the contract. Meanwhile, all hazardous conditions shall be marked and lighted in accordance with the other provisions of this clause.
- (d) *Landing areas.* The Contractor shall—
 - (1) Place nothing upon the landing areas without the authorization of the Contracting Officer;
 - (2) Outline those landing areas hazardous to aircraft, using (unless otherwise authorized by the Contracting Officer) red flags by day, and electric, battery-operated low-intensity red flasher lights by night;
 - (3) Obtain, at an airfield where flying is controlled, additional permission from the control tower operator every time before entering any landing area, unless the landing area is marked as hazardous in accordance with paragraph (d)(2) of this clause;
 - (4) Identify all vehicles it operates in landing areas by means of a flag on a staff attached to, and flying above, the vehicle. The flag shall be three feet square, and consist of a checkered pattern of international orange and white squares of 1 foot on each side (except that the flag may vary up to ten percent from each of these dimensions);
 - (5) Mark all other equipment and materials in the landing areas, using the same marking devices as in paragraph (d)(2) of this clause; and
 - (6) Perform work so as to leave that portion of the landing area which is available to aircraft free from hazards, holes, piles of material, and projecting shoulders that might damage an airplane tire.
- (e) *Safety precaution areas.* The Contractor shall—
 - (1) Place nothing upon the safety precaution areas without authorization of the Contracting Officer;
 - (2) Mark all equipment and materials in safety precaution areas, using (unless otherwise authorized by the Contracting Officer) red flags by day, and electric, battery-operated, low-intensity red flasher lights by night; and
 - (3) Provide all objects placed in safety precaution areas with a red light or red lantern at night, if the objects project above the approach-departure clearance surface or above the transitional surface.

(End of clause)

252.236-7006 Cost Limitation.

As prescribed in [236.570](#) (b)(4), use the following provision:

COST LIMITATION (JAN 1997)

- (a) Certain items in this solicitation are subject to statutory cost limitations. The limitations are stated in the Schedule.
- (b) An offer which does not state separate prices for the items identified in the Schedule as subject to a cost limitation may be considered nonresponsive.
- (c) Prices stated in offers for items subject to cost limitations shall include an appropriate apportionment of all costs, direct and indirect, overhead, and profit.
- (d) Offers may be rejected which—
 - (1) Are materially unbalanced for the purpose of bringing items within cost limitations; or
 - (2) Exceed the cost limitations, unless the limitations have been waived by the Government prior to award.

(End of provision)

252.236-7007 Additive or Deductive Items.

As prescribed in [236.570](#) (b)(5), use the following provision:

ADDITIVE OR DEDUCTIVE ITEMS (DEC 1991)

- (a) The low offeror and the items to be awarded shall be determined as follows—
 - (1) Prior to the opening of bids, the Government will determine the amount of funds available for the project.
 - (2) The low offeror shall be the Offeror that—
 - (i) Is otherwise eligible for award; and
 - (ii) Offers the lowest aggregate amount for the first or base bid item, plus or minus (in the order stated in the list of priorities in the bid schedule) those additive or deductive items that provide the most features within the funds determined available.
 - (3) The Contracting Officer shall evaluate all bids on the basis of the same additive or deductive items.
 - (i) If adding another item from the bid schedule list of priorities would make the award exceed the available funds for all offerors, the Contracting Officer will skip that item and go to the next item from the bid schedule of priorities; and
 - (ii) Add that next item if an award may be made that includes that item and is within the available funds.
- (b) The Contracting Officer will use the list of priorities in the bid schedule only to determine the low offeror. After determining the low offeror, an award may be made on any combination of items if—
 - (1) It is in the best interest of the Government;
 - (2) Funds are available at the time of award; and
 - (3) The low offeror's price for the combination to be awarded is less than the price offered by any other responsive, responsible offeror.
- (c) *Example.* The amount available is \$100,000. Offeror A's base bid and four additives (in the order stated in the list of priorities in the bid Schedule) are \$85,000, \$10,000, \$8,000, \$6,000, and \$4,000. Offeror B's base bid and four additives are \$80,000, \$16,000, \$9,000, \$7,000, and \$4,000. Offeror A is the low offeror. The aggregate amount of offeror A's bid for purposes of award would be \$99,000, which includes a base bid plus the first and fourth additives. The second and third additives were skipped because each of them would cause the aggregate bid to exceed \$100,000.

(End of provision)

252.236-7008 Contract Prices—Bidding Schedules.

As prescribed in [236.570](#) (b)(6), use the following provision:

CONTRACT PRICES—BIDDING SCHEDULES (DEC 1991)

- (a) The Government's payment for the items listed in the Bidding Schedule shall constitute full compensation to the Contractor for—
 - (1) Furnishing all plant, labor, equipment, appliances, and materials; and
 - (2) Performing all operations required to complete the work in conformity with the drawings and specifications.
- (b) The Contractor shall include in the prices for the items listed in the Bidding Schedule all costs for work in the specifications, whether or not specifically listed in the Bidding Schedule.

(End of provision)

252.236-7009 Reserved.**252.236-7010 Overseas Military Construction—Preference for United States Firms.**

As prescribed in [236.570](#) (c)(1), use the following provision:

OVERSEAS MILITARY CONSTRUCTION—PREFERENCE FOR UNITED STATES FIRMS (JAN 1997)

- (a) *Definition.* “United States firm,” as used in this provision, means a firm incorporated in the United States that complies with the following:
 - (1) The corporate headquarters are in the United States;

(2) The firm has filed corporate and employment tax returns in the United States for a minimum of 2 years (if required), has filed State and Federal income tax returns (if required) for 2 years, and has paid any taxes due as a result of these filings; and

(3) The firm employs United States citizens in key management positions.

(b) *Evaluation.* Offers from firms that do not qualify as United States firms will be evaluated by adding 20 percent to the offer.

(c) *Status.* The offeror _____ is, _____ is not a United States firm.

(End of provision)

252.236-7011 Overseas Architect-Engineer Services—Restriction to United States Firms.

As prescribed in [236.609-70](#), use the following provision:

OVERSEAS ARCHITECT-ENGINEER SERVICES—RESTRICTION TO UNITED STATES FIRMS (JAN 1997)

(a) *Definition.* “United States firm,” as used in this provision, means a firm incorporated in the United States that complies with the following:

(1) The corporate headquarters are in the United States;

(2) The firm has filed corporate and employment tax returns in the United States for a minimum of 2 years (if required), has filed State and Federal income tax returns (if required) for 2 years, and has paid any taxes due as a result of these filings; and

(3) The firm employs United States citizens in key management positions.

(b) *Restriction.* Military construction appropriations acts restrict award of a contract, resulting from this solicitation, to a United States firm or a joint venture of United States and host nation firms.

(c) *Status.* The offeror confirms, by submission of its offer, that it is a United States firm or a joint venture of United States and host nation firms.

(End of provision)

252.236-7012 Military Construction on Kwajalein Atoll—Evaluation Preference.

As prescribed in [236.570](#) (c)(2), use the following provision:

MILITARY CONSTRUCTION ON KWAJALEIN ATOLL—EVALUATION PREFERENCE (MAR 1998)

(a) *Definitions.* As used in this provision—

(1) “Marshallese firm” means a local firm incorporated in the Marshall Islands, or otherwise legally organized under the laws of the Marshall Islands, that—

(i) Is more than 50 percent owned by citizens of the Marshall Islands; or

(ii) Complies with the following:

(A) The firm has done business in the Marshall Islands on a continuing basis for not less than 3 years prior to the date of issuance of this solicitation;

(B) Substantially all of the firm’s directors of local operations, senior staff, and operating personnel are resident in the Marshall Islands or are U.S. citizens; and

(C) Most of the operating equipment and physical plant are in the Marshall Islands.

(2) “United States firm” means a firm incorporated in the United States that complies with the following:

(i) The corporate headquarters are in the United States;

(ii) The firm has filed corporate and employment tax returns in the United States for a minimum of 2 years (if required), has filed State and Federal income tax returns (if required) for 2 years, and has paid any taxes due as a result of these filings; and

(iii) The firm employs United States citizens in key management positions.

(b) *Evaluation.* Offers from firms that do not qualify as United States firms or Marshallese firms will be evaluated by adding 20 percent to the offer, unless application of the factor would not result in award to a United States firm.

(c) *Status*. The offeror is _____ a United States firm; _____ a Marshallese firm; _____ Other.

(End of provision)

252.236-7013 Requirement for Competition Opportunity for American Steel Producers, Fabricators, and Manufacturers.

As prescribed in [236.570](#) (d), use the following clause:

REQUIREMENT FOR COMPETITION OPPORTUNITY FOR AMERICAN
STEEL PRODUCERS, FABRICATORS, AND MANUFACTURERS (JAN 2023)

(a) *Definition*. “Construction material,” as used in this clause, means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work.

(b) The Contractor shall provide American steel producers, fabricators, and manufacturers the opportunity to compete when acquiring steel as a construction material (e.g., steel beams, rods, cables, plates).

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in any subcontract that involves the acquisition of steel as a construction material, including subcontracts for the acquisition of commercial products.

(End of clause)

252.237 RESERVED

252.237-7000 Notice of Special Standards of Responsibility.

As prescribed in [237.270](#) (e)(1), use the following provision:

NOTICE OF SPECIAL STANDARDS OF RESPONSIBILITY (DEC 1991)

(a) To be determined responsible, the Offeror must meet the general standards of responsibility set forth at FAR 9.104-1 and the following criteria, as described in Chapter 3, General Standards, of “Government Auditing Standards.”

- (1) Qualifications;
- (2) Independence; and
- (3) Quality Control.

(b) “Government Auditing Standards” is issued by the Comptroller General of the United States and is available for sale from the:

Superintendent of Documents U.S. Government Printing Office Washington, DC 20401
Stock number 020-000-00243-3.

(c) The apparently successful Offeror, before award, shall give the Contracting Officer evidence that it is licensed by the cognizant licensing authority in the state or other political jurisdiction where the Offeror operates its professional practice.

(End of provision)

252.237-7001 Compliance with Audit Standards.

As prescribed in [237.270](#) (e)(2), use the following clause:

COMPLIANCE WITH AUDIT STANDARDS (MAY 2000)

The Contractor, in performance of all audit services under this contract, shall comply with “Government Auditing Standards” issued by the Comptroller General of the United States.

(End of clause)

252.237-7002 Reserved.

252.237-7003 Requirements.

As prescribed in [237.7003](#) (a) and (a)(1), use the following clause:

REQUIREMENTS (DEC 1991)

(a) Except as provided in paragraphs (c) and (d) of this clause, the Government will order from the Contractor all of its requirements in the area of performance for the supplies and services listed in the schedule of this contract.

(b) Each order will be issued as a delivery order and will list—

- (1) The supplies or services being ordered;
- (2) The quantities to be furnished;
- (3) Delivery or performance dates;
- (4) Place of delivery or performance;
- (5) Packing and shipping instructions;
- (6) The address to send invoices; and
- (7) The funds from which payment will be made.

(c) The Government may elect not to order supplies and services under this contract in instances where the body is removed from the area for medical, scientific, or other reason.

(d) In an epidemic or other emergency, the contracting activity may obtain services beyond the capacity of the Contractor's facilities from other sources.

(e) Contracting Officers of the following activities may order services and supplies under this contract—

(End of clause)

252.237-7004 Area of Performance.

As prescribed in [237.7003](#) (a) and (a)(2), use the following clause:

AREA OF PERFORMANCE (DEC 1991)

(a) The area of performance is as specified in the contract.

(b) The Contractor shall take possession of the remains at the place where they are located, transport them to the Contractor's place of preparation, and later transport them to a place designated by the Contracting Officer.

(c) The Contractor will not be reimbursed for transportation when both the place where the remains were located and the delivery point are within the area of performance.

(d) If remains are located outside the area of performance, the Contracting Officer may place an order with the Contractor under this contract or may obtain the services elsewhere. If the Contracting Officer requires the Contractor to transport the remains into the area of performance, the Contractor shall be paid the amount per mile in the schedule for the number of miles required to transport the remains by a reasonable route from the point where located to the boundary of the area of performance.

(e) The Contracting Officer may require the Contractor to deliver remains to any point within 100 miles of the area of performance. In this case, the Contractor shall be paid the amount per mile in the schedule for the number of miles required to transport the remains by a reasonable route from the boundary of the area of performance to the delivery point.

(End of clause)

252.237-7005 Performance and Delivery.

As prescribed in [237.7003](#) (a) and (a)(3), use the following clause:

PERFORMANCE AND DELIVERY (DEC 1991)

(a) The Contractor shall furnish the material ordered and perform the services specified as promptly as possible but not later than 36 hours after receiving notification to remove the remains, excluding the time necessary for the Government to inspect and check results of preparation.

(b) The Government may, at no additional charge, require the Contractor to hold the remains for an additional period not to exceed 72 hours from the time the remains are casketed and final inspection completed.

(End of clause)

252.237-7006 Subcontracting.

As prescribed in [237.7003](#) (a) and (a)(4), use the following clause:

SUBCONTRACTING (DEC 1991)

The Contractor shall not subcontract any work under this contract without the Contracting Officer's written approval. This clause does not apply to contracts of employment between the Contractor and its personnel.

(End of clause)

252.237-7007 Termination for Default.

As prescribed in [237.7003](#) (a) and (a)(5), use the following clause:

TERMINATION FOR DEFAULT (DEC 1991)

(a) This clause supplements and is in addition to the Default clause of this contract.

(b) The Contracting Officer may terminate this contract for default by written notice without the ten day notice required by paragraph (a)(2) of the Default clause if—

(1) The Contractor, through circumstances reasonably within its control or that of its employees, performs any act under or in connection with this contract, or fails in the performance of any service under this contract and the act or failures may reasonably be considered to reflect discredit upon the Department of Defense in fulfilling its responsibility for proper care of remains;

(2) The Contractor, or its employees, solicits relatives or friends of the deceased to purchase supplies or services not under this contract. (The Contractor may furnish supplies or arrange for services not under this contract, only if representatives of the deceased voluntarily request, select, and pay for them.);

(3) The services or any part of the services are performed by anyone other than the Contractor or the Contractor's employees without the written authorization of the Contracting Officer;

(4) The Contractor refuses to perform the services required for any particular remains; or

(5) The Contractor mentions or otherwise uses this contract in its advertising in any way.

(End of clause)

252.237-7008 Group Interment.

As prescribed in [237.7003](#) (a) and (a)(6), use the following clause:

GROUP INTERMENT (DEC 1991)

The Government will pay the Contractor for supplies and services provided for remains interred as a group on the basis of the number of caskets furnished, rather than on the basis of the number of persons in the group.

(End of clause)

252.237-7009 Permits.

As prescribed in [237.7003](#) (a) and (a) (7), use the following clause:

PERMITS (DEC 1991)

The Contractor shall meet all State and local licensing requirements and obtain and furnish all necessary health department and shipping permits at no additional cost to the Government. The Contractor shall ensure that all necessary health department permits are in order for disposition of the remains.

(End of clause)

252.237-7010 Prohibition on Interrogation of Detainees by Contractor Personnel.

As prescribed in [237.173-5](#), use the following clause:

PROHIBITION ON INTERROGATION OF DETAINEES BY CONTRACTOR PERSONNEL (JAN 2023)

(a) *Definitions.* As used in this clause—

“Detainee” means any person captured, detained, held, or otherwise under the effective control of DoD personnel (military or civilian) in connection with hostilities. This includes, but is not limited to, enemy prisoners of war, civilian internees, and retained personnel. This does not include DoD personnel or DoD contractor personnel being held for law enforcement purposes.

“Interrogation of detainees” means a systematic process of formally and officially questioning a detainee for the purpose of obtaining reliable information to satisfy foreign intelligence collection requirements.

(b) Contractor personnel shall not interrogate detainees.

(c) *Subcontracts.* The Contractor shall include the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for commercial products, that may require subcontractor personnel to interact with detainees in the course of their duties.

(End of clause)

252.237-7011 Preparation History.

As prescribed in [237.7003](#) (a) and (a)(8), use the following clause:

PREPARATION HISTORY (DEC 1991)

For each body prepared, or for each casket handled in a group interment, the Contractor shall state briefly the results of the embalming process on a certificate furnished by the Contracting Officer.

(End of clause)

252.237-7012 Instruction to Offerors (Count-of-Articles).

As prescribed in [237.7101](#) (a), use the following provision:

INSTRUCTION TO OFFERORS (COUNT-OF-ARTICLES) (DEC 1991)

- (a) The Offeror shall include unit prices for each item in a lot. Unit prices shall include all costs to the Government of providing the services, including pickup and delivery charges.
- (b) Failure to offer on any item in a lot shall be cause for rejection of the offer on that lot. The Contracting Officer will evaluate offers based on the estimated quantities in the solicitation.
- (c) Award generally will be made to a single offeror for all lots. However, the Contracting Officer may award by individual lot when it is more advantageous to the Government.
- (d) Prospective offerors may inspect the types of articles to be serviced. Contact the Contracting Officer to make inspection arrangements.

(End of provision)

252.237-7013 Instruction to Offerors (Bulk Weight).

As prescribed in [237.7101](#) (b), use the following provision:

INSTRUCTION TO OFFERORS (BULK WEIGHT) (DEC 1991)

- (a) Offers shall be submitted on a unit price per pound of serviced laundry. Unit prices shall include all costs to the Government of providing the service, including pickup and delivery charges.
- (b) The Contracting Officer will evaluate bids based on the estimated pounds of serviced laundry stated in the solicitation.
- (c) Award generally will be made to a single offeror for all lots. However, the Contracting Officer may award by individual lot when it is more advantageous to the Government.
- (d) Prospective offerors may inspect the types of articles to be serviced. Contact the Contracting Officer to make inspection arrangements.

(End of provision)

252.237-7014 Loss or Damage (Count-of-Articles).

As prescribed in [237.7101](#) (c), use the following clause:

LOSS OR DAMAGE (COUNT-OF-ARTICLES) (DEC 1991)

- (a) The count-of-articles will be—
 - (1) The count of the Contracting Officer; or
 - (2) The count agreed upon as a result of a joint count by the Contractor and the Contracting Officer at the time of delivery to the Contractor.
- (b) The Contractor shall—
 - (1) Be liable for return of the number and kind of articles furnished for service under this contract; and
 - (2) Shall indemnify the Government for any loss or damage to such articles.
- (c) The Contractor shall pay to the Government the value of any lost or damaged property using Federal supply schedule price lists. If the property is not on these price lists, the Contracting Officer shall determine a fair and reasonable price.
- (d) The Contracting Officer will allow credit for any depreciation in the value of the property at the time of loss or damage. The Contracting Officer and the Contractor shall mutually determine the amount of the allowable credit.
- (e) Failure to agree upon the value of the property or on the amount of credit due will be treated as a dispute under the Disputes clause of this contract.
- (f) In case of damage to any property that the Contracting Officer and the Contractor agree can be satisfactorily repaired, the Contractor may repair the property at its expense in a manner satisfactory to the Contracting Officer, rather than make payment under paragraph (c) of this clause.

(End of clause)

252.237-7015 Loss or Damage (Weight of Articles).

As prescribed in [237.7101](#) (d), use the following clause:

LOSS OR DAMAGE (WEIGHT OF ARTICLES) (DEC 1991)

- (a) The Contractor shall—
 - (1) Be liable for return of the articles furnished for service under this contract; and
 - (2) Indemnify the Government for any articles delivered to the Contractor for servicing under this contract that are lost or damaged, and in the opinion of the Contracting Officer, cannot be repaired satisfactorily.
- (b) The Contractor shall pay to the Government _____ per pound for lost or damaged articles. The Contractor shall pay the Government only for losses which exceed the maximum weight loss in paragraph (e) of this clause.
- (c) Failure to agree on the amount of credit due will be treated as a dispute under the Disputes clause of this contract.
- (d) In the case of damage to any articles that the Contracting Officer and the Contractor agree can be satisfactorily repaired, the Contractor shall repair the articles at its expense in a manner satisfactory to the Contracting Officer.
- (e) The maximum weight loss allowable in servicing the laundry is _____ percent of the weight recorded on delivery tickets when the laundry is picked up. Any weight loss in excess of this amount shall be subject to the loss provisions of this clause.

(End of clause)

252.237-7016 Delivery Tickets.

Basic. As prescribed in [237.7101](#) (e) and (e)(1), use the following clause:

DELIVERY TICKETS—BASIC (NOV 2014)

- (a) The Contractor shall complete delivery tickets in the number of copies required and in the form approved by the Contracting Officer, when it receives the articles to be serviced.
- (b) The Contractor shall include one copy of each delivery ticket with its invoice for payment.

(End of clause)

Alternate I. As prescribed in [237.7101](#) (e) and (e)(2), use the following clause, which includes paragraphs (c), (d), and (e) not included in the basic clause:

DELIVERY TICKETS—ALTERNATE I (NOV 2014)

- (a) The Contractor shall complete delivery tickets in the number of copies required and in the form approved by the Contracting Officer, when it receives the articles to be serviced.
- (b) The Contractor shall include one copy of each delivery ticket with its invoice for payment.
- (c) Before the Contractor picks up articles for service under this contract, the Contracting Officer will ensure that—
 - (1) Each bag contains only articles within a single bag type as specified in the schedule; and
 - (2) Each bag is weighed and the weight and bag type are identified on the bag.
- (d) The Contractor shall, at time of pickup—
 - (1) Verify the weight and bag type and record them on the delivery ticket; and
 - (2) Provide the Contracting Officer, or representative, a copy of the delivery ticket.
- (e) At the time of delivery, the Contractor shall record the weight and bag type of serviced laundry on the delivery ticket. The Contracting Officer will ensure that this weight and bag type are verified at time of delivery.

(End of clause)

Alternate II. As prescribed in [237.7101](#) (e) and (e)(3), use the following clause, which includes paragraphs (c), (d), and (e) not included in the basic clause:

DELIVERY TICKETS—ALTERNATE II (NOV 2014)

- (a) The Contractor shall complete delivery tickets in the number of copies required and in the form approved by the Contracting Officer, when it receives the articles to be serviced.
- (b) The Contractor shall include one copy of each delivery ticket with its invoice for payment.
- (c) Before the Contractor picks up articles for service under this contract, the Contracting Officer will ensure that each bag is weighed and that the weight is identified on the bag.

(d) The Contractor, at time of pickup, shall verify and record the weight on the delivery ticket and shall provide the Contracting Officer, or representative, a copy of the delivery ticket.

(e) At the time of delivery, the Contractor shall record the weight of serviced laundry on the delivery ticket. The Contracting Officer will ensure that this weight is verified at time of delivery.

(End of clause)

252.237-7017 Individual Laundry.

As prescribed in [237.7101](#) (f), use the following clause:

INDIVIDUAL LAUNDRY (DEC 1991)

(a) The Contractor shall provide laundry service under this contract on both a unit bundle and on a piece-rate bundle basis for individual personnel.

(b) The total number of pieces listed in the “Estimated Quantity” column in the schedule is the estimated amount of individual laundry for this contract. The estimate is for information only and is not a representation of the amount of individual laundry to be ordered. Individuals may elect whether or not to use the laundry services.

(c) Charges for individual laundry will be on a per unit bundle or a piece-rate basis. The Contractor shall provide individual laundry bundle delivery tickets for use by the individuals in designating whether the laundry is a unit bundle or a piece-rate bundle. An individual laundry bundle will be accompanied by a delivery ticket listing the contents of the bundle.

(d) The maximum number of pieces to be allowed per bundle is as specified in the schedule and as follows—

(1) Bundle consisting of 26 pieces, including laundry bag. This bundle will contain approximately _____ pieces of outer garments which shall be starched and pressed. Outer garments include, but are not limited to, shirts, trousers, jackets, dresses, and coats.

(2) Bundle consisting of 13 pieces, including laundry bag. This bundle will contain approximately _____ pieces of outer garments which shall be starched and pressed. Outer garments include, but are not limited to, shirts, trousers, jackets, dresses, and coats.

(End of clause)

252.237-7018 Special Definitions of Government Property.

As prescribed in [237.7101](#) (g), use the following clause:

SPECIAL DEFINITIONS OF GOVERNMENT PROPERTY (DEC 1991)

Articles delivered to the Contractor to be laundered or dry-cleaned, including any articles which are actually owned by individual Government personnel, are Government-owned property, not Government-furnished property. Government-owned property does not fall under the requirements of any Government-furnished property clause of this contract.

(End of clause)

252.237-7019 Training for Contractor Personnel Interacting with Detainees.

As prescribed in [237.171-4](#), use the following clause:

TRAINING FOR CONTRACTOR PERSONNEL INTERACTING WITH DETAINEES (JAN 2023)

(a) *Definitions.* As used in this clause—

“Combatant Commander” means the commander of a unified or specified combatant command established in accordance with 10 U.S.C. 161.

“Detainee” means a person in the custody or under the physical control of the Department of Defense on behalf of the United States Government as a result of armed conflict or other military operation by United States armed forces.

“Personnel interacting with detainees” means personnel who, in the course of their duties, are expected to interact with detainees.

(b) *Training requirement.* This clause implements Section 1092 of the National Defense Authorization Act for Fiscal Year 2005 (Pub. L. 108-375).

(1) The Combatant Commander responsible for the area where a detention or interrogation facility is located will arrange for training to be provided to contractor personnel interacting with detainees. The training will address the international obligations and laws of the United States applicable to the detention of personnel, including the Geneva Conventions. The Combatant Commander will arrange for a training receipt document to be provided to personnel who have completed the training.

(2)(i) The Contractor shall arrange for its personnel interacting with detainees to—

(A) Receive the training specified in paragraph (b)(1) of this clause—

(1) Prior to interacting with detainees, or as soon as possible if, for compelling reasons, the Contracting Officer authorizes interaction with detainees prior to receipt of such training; and

(2) Annually thereafter; and

(B) Provide a copy of the training receipt document specified in paragraph (b)(1) of this clause to the Contractor for retention.

(ii) To make these arrangements, the following points of contact apply:

[Contracting Officer to insert applicable point of contact information cited in PGI [237.171-3](#) (b).]

(3) The Contractor shall retain a copy of the training receipt document(s) provided in accordance with paragraphs (b) (1) and (2) of this clause until the contract is closed, or 3 years after all work required by the contract has been completed and accepted by the Government, whichever is sooner.

(c) *Subcontracts.* The Contractor shall include the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for commercial services, that may require subcontractor personnel to interact with detainees in the course of their duties.

(End of clause)

252.237-7020 Reserved.

252.237-7021 Reserved.

252.237-7022 Services at Installations Being Closed.

As prescribed in [237.7402](#), use the following clause:

SERVICES AT INSTALLATIONS BEING CLOSED (MAY 1995)

Professional employees shall be used by the local government to provide services under this contract to the extent that professionals are available in the area under the jurisdiction of such government.

(End of clause)

252.237-7023 Continuation of Essential Contractor Services.

As prescribed in [237.7603](#)(a), use the following clause:

CONTINUATION OF ESSENTIAL CONTRACTOR SERVICES (OCT 2010)

(a) *Definitions.* As used in this clause—

(1) “Essential contractor service” means a service provided by a firm or individual under contract to DoD to support mission-essential functions, such as support of vital systems, including ships owned, leased, or operated in support of military missions or roles at sea; associated support activities, including installation, garrison, and base support services; and similar services provided to foreign military sales customers under the Security Assistance Program. Services are essential if the effectiveness of defense systems or operations has the potential to be seriously impaired by the interruption of these services, as determined by the appropriate functional commander or civilian equivalent.

(2) “Mission-essential functions” means those organizational activities that must be performed under all circumstances to achieve DoD component missions or responsibilities, as determined by the appropriate functional commander or civilian

equivalent. Failure to perform or sustain these functions would significantly affect DoD's ability to provide vital services or exercise authority, direction, and control.

(b) The Government has identified all or a portion of the contractor services performed under this contract as essential contractor services in support of mission essential functions. These services are listed in attachment ___, Mission-Essential Contractor Services, dated _____.

(c)(1) The Mission-Essential Contractor Services Plan submitted by the Contractor, is incorporated in this contract.

(2) The Contractor shall maintain and update its plan as necessary. The Contractor shall provide all plan updates to the Contracting Officer for approval.

(3) As directed by the Contracting Officer, the Contractor shall participate in training events, exercises, and drills associated with Government efforts to test the effectiveness of continuity of operations procedures and practices.

(d)(1) Notwithstanding any other clause of this contract, the contractor shall be responsible to perform those services identified as essential contractor services during crisis situations (as directed by the Contracting Officer), in accordance with its Mission-Essential Contractor Services Plan.

(2) In the event the Contractor anticipates not being able to perform any of the essential contractor services identified in accordance with paragraph (b) of this section during a crisis situation, the Contractor shall notify the Contracting Officer or other designated representative as expeditiously as possible and use its best efforts to cooperate with the Government in the Government's efforts to maintain the continuity of operations.

(e) The Government reserves the right in such crisis situations to use Federal employees, military personnel or contract support from other contractors, or to enter into new contracts for essential contractor services.

(f) Changes. The Contractor shall segregate and separately identify all costs incurred in continuing performance of essential services in a crisis situation. The Contractor shall notify the Contracting Officer of an increase or decrease in costs within ninety days after continued performance has been directed by the Contracting Officer, or within any additional period that the Contracting Officer approves in writing, but not later than the date of final payment under the contract. The Contractor's notice shall include the Contractor's proposal for an equitable adjustment and any data supporting the increase or decrease in the form prescribed by the Contracting Officer. The parties shall negotiate an equitable price adjustment to the contract price, delivery schedule, or both as soon as is practicable after receipt of the Contractor's proposal.

(g) The Contractor shall include the substance of this clause, including this paragraph (g), in subcontracts for the essential services.

(End of clause)

252.237-7024 Notice of Continuation of Essential Contractor Services.

As prescribed in [237.7603](#)(b), use the following provision:

NOTICE OF CONTINUATION OF ESSENTIAL CONTRACTOR SERVICES (OCT 2010)

(a) *Definitions.* "Essential contractor service" and "mission-essential functions" have the meanings given in the clause at [252.237-7023](#), Continuation of Essential Contractor Services, in this solicitation.

(b) The offeror shall provide with its offer a written plan describing how it will continue to perform the essential contractor services listed in attachment ___, Mission Essential Contractor Services, dated _____, during periods of crisis. The offeror shall—

(1) Identify provisions made for the acquisition of essential personnel and resources, if necessary, for continuity of operations for up to 30 days or until normal operations can be resumed;

(2) Address in the plan, at a minimum—

(i) Challenges associated with maintaining essential contractor services during an extended event, such as a pandemic that occurs in repeated waves;

(ii) The time lapse associated with the initiation of the acquisition of essential personnel and resources and their actual availability on site;

(iii) The components, processes, and requirements for the identification, training, and preparedness of personnel who are capable of relocating to alternate facilities or performing work from home;

(iv) Any established alert and notification procedures for mobilizing identified "essential contractor service" personnel; and

(v) The approach for communicating expectations to contractor employees regarding their roles and responsibilities during a crisis.

(End of provision)

252.237-7025 Preaward Transparency Requirements for Firms Offering to Support Department of Defense Audits—Representation and Disclosure.

As prescribed in [237.270\(e\)\(3\)](#), use the following provision:

**PREAWARD TRANSPARENCY REQUIREMENTS FOR FIRMS OFFERING TO SUPPORT
DEPARTMENT OF DEFENSE AUDITS—REPRESENTATION AND DISCLOSURE (OCT 2022)**

(a) *Representation.* The Offeror represents that within the 3-year period preceding this offer, the Offeror and/or any of its principals or employees have [] have not [] been the subject of disciplinary proceedings before an entity with the authority to enforce compliance with rules or laws applying to audit services or audit remediation services offered by the Offeror, that—

- (1) Are not yet fully adjudicated or settled; or
- (2) Were fully adjudicated or settled against the Offeror and/or its principals or employees.

(b) *Disclosure.* If the Offeror checked “have” in the representation in paragraph (a) of this provision, the Offeror shall, at a minimum, disclose for each such proceeding—

- (1) The entity hearing the case;
- (2) The case or file number; and
- (3) The allegation or conduct at issue and, if fully adjudicated or settled, a brief description of the outcome.

(c) *Treatment of statements.* The Government will safeguard and treat as confidential all statements provided pursuant to this provision where the statement has been marked “confidential” or “proprietary” by the Offeror. Statements so marked will not be released by the Government to the public pursuant to a request under the Freedom of Information Act, 5 U.S.C. 552, without prior notification to the Offeror and opportunity for the Offeror to claim an exemption from release. The Government will treat any statement provided pursuant to this provision as confidential to the extent required by any other applicable law.

(End of provision)

252.237-7026 Postaward Transparency Requirements for Firms that Support Department of Defense Audits.

As prescribed in [237.270\(e\)\(4\)](#), use the following clause:

**POSTAWARD TRANSPARENCY REQUIREMENTS FOR FIRMS
THAT SUPPORT DEPARTMENT OF DEFENSE AUDITS (OCT 2022)**

(a) Prior to each contract action under this contract (including renewal or modification), the Contractor shall disclose the details of any disciplinary proceedings, with respect to the firm and/or its principals or employees, before an entity with the authority to enforce compliance with rules or laws applying to audit services or audit remediation services offered by the Contractor, and whether there has been any change with regard to previously reported proceedings since the last contract action.

(b) The disclosure shall, at a minimum, include—

- (1) The entity hearing the case;
- (2) The case or file number; and
- (3) A brief description of the allegation or conduct at issue and, if fully adjudicated or settled, a brief description of the outcome.

(c) The Government will safeguard and treat as confidential all statements provided pursuant to this clause where the statement has been marked “confidential” or “proprietary” by the Contractor. Statements so marked will not be released by the Government to the public pursuant to a request under the Freedom of Information Act, 5 U.S.C. 552, without prior notification to the Contractor and opportunity for the Contractor to claim an exemption from release. The Government will treat any statement provided pursuant to this clause as confidential to the extent required by any other applicable law.

(End of clause)

252.237-7027 Transfer and Adoption of Military Animals.

As prescribed in 237.7804, use the following clause:

TRANSFER AND ADOPTION OF MILITARY ANIMALS (FEB 2024)

(a) Definition. As used in this clause—

Contract working dog means a dog that—

- (1) Performs a service for DoD pursuant to a contract; and
- (2) Is trained and kenneled by an entity that provides such a dog pursuant to such a contract.

(b) In accordance with 10 U.S.C. 2387, if the Contracting Officer determines that the service life of a contract working dog has terminated, the dog will be transferred to the Department of the Air Force, 341st Training Squadron, for veterinary screening and care, reclassification as a military animal, and placement for adoption in accordance with 10 U.S.C. 2583.

(c) The service life of a contract working dog may be terminated if the Contracting Officer determines that—

- (1) The final contractual obligation of the dog preceding transfer is with DoD; and
- (2) The dog cannot be used by another department or agency of the Federal Government due to age, injury, or performance.

(End of clause)

252.239 RESERVED**252.239-7000 Protection Against Compromising Emanations.**

As prescribed in [239.7103](#) (a), use the following clause:

PROTECTION AGAINST COMPROMISING EMANATIONS (OCT 2019)

(a) The Contractor shall provide or use only information technology, as specified by the Government, that has been accredited to meet the appropriate information assurance requirements of—

(1) The National Security Agency National TEMPEST Standards (NSTISSAM TEMPEST 1-92, Compromising Emanations Laboratory Test Requirements, Electromagnetics (U)); or

(2) Other standards specified by this contract, including the date through which the required accreditation is current or valid for the contract.

(b) Upon request of the Contracting Officer, the Contractor shall provide documentation supporting the accreditation.

(c) The Government may, as part of its inspection and acceptance, conduct additional tests to ensure that information technology delivered under this contract satisfies the information assurance standards specified. The Government may conduct additional tests—

- (1) At the installation site or contractor's facility; and
- (2) Notwithstanding the existence of valid accreditations of information technology prior to the award of this contract.

(d) Unless otherwise provided in this contract under the Warranty of Supplies or Warranty of Systems and Equipment clause, the Contractor shall correct or replace accepted information technology found to be deficient within 1 year after proper installations.

(1) The correction or replacement shall be at no cost to the Government.

(2) Should a modification to the delivered information technology be made by the Contractor, the 1-year period applies to the modification upon its proper installation.

(3) This paragraph (d) applies regardless of f.o.b. point or the point of acceptance of the deficient information technology.

(End of clause)

252.239-7001 Information Assurance Contractor Training and Certification.

As prescribed in [239.7103](#) (b), use the following clause:

INFORMATION ASSURANCE CONTRACTOR TRAINING AND CERTIFICATION (JAN 2008)

(a) The Contractor shall ensure that personnel accessing information systems have the proper and current information assurance certification to perform information assurance functions in accordance with DoD 8570.01-M, Information Assurance Workforce Improvement Program. The Contractor shall meet the applicable information assurance certification requirements, including—

(1) DoD-approved information assurance workforce certifications appropriate for each category and level as listed in the current version of DoD 8570.01-M; and

(2) Appropriate operating system certification for information assurance technical positions as required by DoD 8570.01-M.

(b) Upon request by the Government, the Contractor shall provide documentation supporting the information assurance certification status of personnel performing information assurance functions.

(c) Contractor personnel who do not have proper and current certifications shall be denied access to DoD information systems for the purpose of performing information assurance functions.

(End of clause)

252.239-7002 Access.

As prescribed in [239.7411](#) (a), use the following clause:

ACCESS (DEC 1991)

(a) Subject to military security regulations, the Government shall permit the Contractor access at all reasonable times to Contractor furnished facilities. However, if the Government is unable to permit access, the Government at its own risk and expense shall maintain these facilities and the Contractor shall not be responsible for the service involving any of these facilities during the period of nonaccess, unless the service failure results from the Contractor's fault or negligence.

(b) During periods when the Government does not permit Contractor access, the Government will reimburse the Contractor at mutually acceptable rates for the loss of or damage to the equipment due to the fault or negligence of the Government. Failure to agree shall be a dispute concerning a question of fact within the meaning of the Disputes clause of this contract.

(End of clause)

252.239-7003 Reserved.

252.239-7004 Orders for Facilities and Services.

As prescribed in [239.7411](#) (a), use the following clause:

ORDERS FOR FACILITIES AND SERVICES (SEP 2019)

(a) *Definitions.* As used in this clause—

“Governmental regulatory body” means the Federal Communications Commission, any statewide regulatory body, or any body with less than statewide jurisdiction when operating under the state authority. Regulatory bodies whose decisions are not subject to judicial appeal and regulatory bodies which regulate a company owned by the same entity that creates the regulatory body are not governmental regulatory bodies.

(b) The Contractor shall acknowledge a communication service authorization or other type order for supplies and facilities by—

(1) Commencing performance after receipt of an order; or

(2) Written acceptance by a duly authorized representative.

(c) The Contractor shall furnish the services and facilities under this agreement/contract in accordance with all applicable tariffs, rates, charges, regulations, requirements, terms, and conditions of—

(1) Service and facilities furnished or offered by the Contractor to the general public or the Contractor's subscribers; or

(2) Service as lawfully established by a governmental regulatory body.

(d) The Government will not prepay for services.

(e) For nontariffed services, the Contractor shall charge the Government at the lowest rate and under the most favorable terms and conditions for similar service and facilities offered to any other customer.

(f) Recurring charges for services and facilities shall, in each case, start with the satisfactory beginning of service or provision of facilities or equipment and are payable monthly in arrears.

(g) Expediting charges are costs necessary to get services earlier than normal. Examples are overtime pay or special shipment. When authorized, expediting charges shall be the additional costs incurred by the Contractor and the subcontractor. The Government shall pay expediting charges only when—

(1) They are provided for in the tariff established by a governmental regulatory body; or

(2) They are authorized in a communication service authorization or other contractual document.

(h) When services normally provided are technically unacceptable and the development, fabrication, or manufacture of special equipment is required, the Government may—

(1) Provide the equipment; or

(2) Direct the Contractor to acquire the equipment or facilities. If the Contractor acquires the equipment or facilities, the acquisition shall be competitive, if practicable.

(i) If at any time the Government defers or changes its orders for any of the services but does not cancel or terminate them, the amount paid or payable to the Contractor for the services deferred or modified shall be equitably adjusted under applicable tariffs filed by the Contractor with the regulatory commission in effect at the time of deferral or change. If no tariffs are in effect, the Government and the Contractor shall equitably adjust the rates by mutual agreement. Failure to agree on any adjustment shall be a dispute concerning a question of fact within the meaning of the Disputes clause of this contract.

(End of clause)

252.239-7005 Reserved.

252.239-7006 Reserved.

252.239-7007 Cancellation or Termination of Orders.

As prescribed in [239.7411](#) (a), use the following clause:

CANCELLATION OR TERMINATION OF ORDERS (SEP 2019)

(a) Definitions.

“Actual nonrecoverable costs” means the installed costs of the facilities and equipment, less cost of reusable materials, and less net salvage value.

“Basic cancellation liability” means the actual nonrecoverable cost, which the Government shall reimburse the Contractor at the time services are cancelled.

“Basic termination liability” means the nonrecoverable cost amortized in equal monthly increments throughout the liability period.

“Installed costs” means the actual cost of equipment and materials specifically provided or used, plus the actual cost of installing (including engineering, labor, supervision, transportation, rights-of-way, and any other items which are chargeable to the capital accounts of the Contractor), less any costs the government may have directly reimbursed the Contractor under the Special Construction and Equipment Charges clause of this agreement/contract.

“Net salvage value” means the salvage value less the cost of removal.

(b) If the Government cancels any of the services ordered under this agreement/contract, before the services are made available to the Government, or terminates any of these services after they are made available to the Government, the Government will reimburse the Contractor for the actual nonrecoverable costs the Contractor has reasonably incurred in providing facilities and equipment for which the Contractor has no foreseeable reuse. The Government will not reimburse the Contractor for any actual nonrecoverable costs incurred after notice of award, but prior to execution of the order.

(c) When feasible, the Contractor shall reuse cancelled or terminated facilities or equipment to minimize the charges to the Government.

(d) If at any time the Government requires that telecommunications facilities or equipment be relocated within the Contractor's service area, the Government will have the option of paying the costs of relocating the facilities or equipment in lieu of paying any termination or cancellation charge under this clause. The basic cancellation liability or basic termination

liability applicable to the facilities or equipment in their former location shall continue to apply to the facilities and equipment in their new location. Monthly recurring charges shall continue to be paid during the period.

(e) When there is another requirement or foreseeable reuse in place of cancelled or terminated facilities or equipment, no charge shall apply and the basic cancellation liability or basic termination liability shall be appropriately reduced. When feasible, the Contractor shall promptly reuse discontinued channels or facilities, including equipment for which the Government is obligated to pay a minimum service charge.

(f) The amount of the Government's liability upon cancellation or termination of any of the services ordered under this agreement/contract will be determined under applicable tariffs governing cancellation and termination charges which—

(1) Are filed by the Contractor with a governmental regulatory body, as defined in the Rates, Charges, and Services clause of this agreement/contract;

(2) Are in effect on the date of termination; and

(3) Provide specific cancellation or termination charges for the facilities and equipment involved or show how to determine the charges.

(g) The amount of the Government's liability upon cancellation or termination of any of the services ordered under this agreement/contract, which are not subject to a governmental regulatory body, will be determined under a mutually agreed schedule in the communication services authorization (CSA) or other contractual document.

(h) If no applicable tariffs are in effect on the date of cancellation or termination or set forth in the applicable CSA or other contractual document, the Government's liability will be determined under the following settlement procedures—

(1) The Contractor agrees to provide the Contracting Officer, in such reasonable detail as the Contracting Officer may require, inventory schedules covering all items of property or facilities in the Contractor's possession, the cost of which is included in the Basic Cancellation or Termination Liability for which the Contractor has no foreseeable reuse.

(2) The Contractor shall use its best efforts to sell property or facilities when the Contractor has no foreseeable reuse or when the Government has not exercised its option to take title under the Title to Telecommunications Facilities and Equipment clause of this agreement/contract. The Contractor shall apply any proceeds of the sale to reduce any payments by the Government to the Contractor under a cancellation or termination settlement.

(3) The Contractor shall record actual nonrecoverable costs under established accounting procedures prescribed by the cognizant governmental regulatory authority or, if no such procedures have been prescribed, under generally accepted accounting procedures applicable to the provision of telecommunication services for public use.

(4) The net salvage value shall be deducted from the Contractor's installed cost. In determining net salvage value, the Contractor shall consider the foreseeable reuse of the facilities and equipment by the Contractor. The Contractor shall make allowance for the cost of dismantling, removal, reconditioning, and disposal of the facilities and equipment when necessary either for the sale of facilities or their reuse by the Contractor in another location.

(5) Upon termination of services, the Government will reimburse the Contractor for the nonrecoverable cost less such costs amortized to the date services are terminated and establish the liability period as mutually agreed to but not to exceed ten years. In the case of either a cancellation or a termination, the Government's presumed maximum liability will be capped by the unpaid non-recurring charges and the monthly recurring charges set out in the contract/agreement. The presumed maximum liability for monthly recurring charges shall be capped at monthly recurring charges for the minimum service period and any required notice period.

(6) When the basic cancellation liability or basic termination liability established by the CSA or other contractual document is based on estimated costs, the Contractor agrees to settle on the basis of actual cost at the time of cancellation or termination.

(7) The Contractor agrees that, if after settlement but within the termination liability period of the services, should the Contractor make reuse of equipment or facilities which were treated as nonreusable or nonsalvage in the settlement, the Contractor shall reimburse the Government for the value of the equipment or facilities.

(8) The Contractor agrees to exclude—

(i) Any costs which are not included in determining cancellation and termination charges under the Contractor's standard practices or procedures; and

(ii) Charges not ordinarily made by the Contractor for similar facilities or equipment, furnished under similar circumstances.

(i) The Government may, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the cancelled or terminated portion of this agreement/contract. The Government may make these payments if the Contracting Officer determines that the total of the payments

is within the amount the Contractor is entitled. If the total of the payments is in excess of the amount finally agreed or determined to be due under this clause, the Contractor shall pay the excess to the Government upon demand.

(j) Failure to agree shall be a dispute concerning a question of fact within the meaning of the Disputes clause.

(End of clause)

252.239-7008 Reserved.

252.239-7009 Representation of Use of Cloud Computing.

As prescribed in [239.7604](#) (a), use the following provision:

REPRESENTATION OF USE OF CLOUD COMPUTING (SEP 2015)

(a) *Definition.* “Cloud computing,” as used in this provision, means a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. This includes other commercial terms, such as on-demand self-service, broad network access, resource pooling, rapid elasticity, and measured service. It also includes commercial offerings for software-as-a-service, infrastructure-as-a-service, and platform-as-a-service.

(b) The Offeror shall indicate by checking the appropriate blank in paragraph (c) of this provision whether the use of cloud computing is anticipated under the resultant contract.

(c) *Representation.* The Offeror represents that it—

_____ Does anticipate that cloud computing services will be used in the performance of any contract or subcontract resulting from this solicitation.

_____ Does not anticipate that cloud computing services will be used in the performance of any contract or subcontract resulting from this solicitation.

(End of provision)

252.239-7010 Cloud Computing Services.

As prescribed in [239.7604](#) (b), use the following clause:

CLOUD COMPUTING SERVICES (JAN 2023)

(a) *Definitions.* As used in this clause—

“Authorizing official,” as described in DoD Instruction 8510.01, Risk Management Framework (RMF) for DoD Information Technology (IT), means the senior Federal official or executive with the authority to formally assume responsibility for operating an information system at an acceptable level of risk to organizational operations (including mission, functions, image, or reputation), organizational assets, individuals, other organizations, and the Nation.

“Cloud computing” means a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. This includes other commercial terms, such as on-demand self-service, broad network access, resource pooling, rapid elasticity, and measured service. It also includes commercial offerings for software-as-a-service, infrastructure-as-a-service, and platform-as-a-service.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Government data” means any information, document, media, or machine readable material regardless of physical form or characteristics, that is created or obtained by the Government in the course of official Government business.

“Government-related data” means any information, document, media, or machine readable material regardless of physical form or characteristics that is created or obtained by a contractor through the storage, processing, or communication of

Government data. This does not include contractor's business records e.g. financial records, legal records etc. or data such as operating procedures, software coding or algorithms that are not uniquely applied to the Government data.

"Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

"Media" means physical devices or writing surfaces including, but not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which information is recorded, stored, or printed within an information system.

"Spillage" security incident that results in the transfer of classified or controlled unclassified information onto an information system not accredited (i.e., authorized) for the appropriate security level.

(b) *Cloud computing security requirements.* The requirements of this clause are applicable when using cloud computing to provide information technology services in the performance of the contract.

(1) If the Contractor indicated in its offer that it "does not anticipate the use of cloud computing services in the performance of a resultant contract," in response to provision [252.239-7009](#), Representation of Use of Cloud Computing, and after the award of this contract, the Contractor proposes to use cloud computing services in the performance of the contract, the Contractor shall obtain approval from the Contracting Officer prior to utilizing cloud computing services in performance of the contract.

(2) The Contractor shall implement and maintain administrative, technical, and physical safeguards and controls with the security level and services required in accordance with the Cloud Computing Security Requirements Guide (SRG) (version in effect at the time the solicitation is issued or as authorized by the Contracting Officer) found at <https://public.cyber.mil/dccs/dccs-documents/> unless notified by the Contracting Officer that this requirement has been waived by the DoD Chief Information Officer.

(3) The Contractor shall maintain within the United States or outlying areas all Government data that is not physically located on DoD premises, unless the Contractor receives written notification from the Contracting Officer to use another location, in accordance with DFARS [239.7602-2](#) (a).

(c) *Limitations on access to, and use and disclosure of Government data and Government-related data.*

(1) The Contractor shall not access, use, or disclose Government data unless specifically authorized by the terms of this contract or a task order or delivery order issued hereunder.

(i) If authorized by the terms of this contract or a task order or delivery order issued hereunder, any access to, or use or disclosure of, Government data shall only be for purposes specified in this contract or task order or delivery order.

(ii) The Contractor shall ensure that its employees are subject to all such access, use, and disclosure prohibitions and obligations.

(iii) These access, use, and disclosure prohibitions and obligations shall survive the expiration or termination of this contract.

(2) The Contractor shall use Government-related data only to manage the operational environment that supports the Government data and for no other purpose unless otherwise permitted with the prior written approval of the Contracting Officer.

(d) *Cloud computing services cyber incident reporting.* The Contractor shall report all cyber incidents that are related to the cloud computing service provided under this contract. Reports shall be submitted to DoD via <http://dibnet.dod.mil/>.

(e) *Malicious software.* The Contractor or subcontractors that discover and isolate malicious software in connection with a reported cyber incident shall submit the malicious software in accordance with instructions provided by the Contracting Officer.

(f) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in the cyber incident report (see paragraph (d) of this clause) and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(g) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(h) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (f) of this clause.

(i) *Records management and facility access.*

(1) The Contractor shall provide the Contracting Officer all Government data and Government-related data in the format specified in the contract.

(2) The Contractor shall dispose of Government data and Government-related data in accordance with the terms of the contract and provide the confirmation of disposition to the Contracting Officer in accordance with contract closeout procedures.

(3) The Contractor shall provide the Government, or its authorized representatives, access to all Government data and Government-related data, access to contractor personnel involved in performance of the contract, and physical access to any Contractor facility with Government data, for the purpose of audits, investigations, inspections, or other similar activities, as authorized by law or regulation.

(j) *Notification of third party access requests.* The Contractor shall notify the Contracting Officer promptly of any requests from a third party for access to Government data or Government-related data, including any warrants, seizures, or subpoenas it receives, including those from another Federal, State, or local agency.

The Contractor shall cooperate with the Contracting Officer to take all measures to protect Government data and Government-related data from any unauthorized disclosure.

(k) *Spillage.* Upon notification by the Government of a spillage, or upon the Contractor's discovery of a spillage, the Contractor shall cooperate with the Contracting Officer to address the spillage in compliance with agency procedures.

(l) *Subcontracts.* The Contractor shall include this clause, including this paragraph (l), in all subcontracts that involve or may involve cloud services, including subcontracts for commercial services.

(End of clause)

252.239-7011 Special Construction and Equipment Charges.

As prescribed in [239.7411](#) (b), use the following clause:

SPECIAL CONSTRUCTION AND EQUIPMENT CHARGES (DEC 1991)

(a) The Government will not directly reimburse the Contractor for the cost of constructing any facilities or providing any equipment, unless the Contracting Officer authorizes direct reimbursement.

(b) If the Contractor stops using facilities or equipment which the Government has, in whole or part, directly reimbursed, the Contractor shall allow the Government credit for the value of the facilities or equipment attributable to the Government's contribution. Determine the value of the facilities and equipment on the basis of their foreseeable reuse by the Contractor at the time their use is discontinued or on the basis of the net salvage value, whichever is greater. The Contractor shall promptly pay the Government the amount of any credit.

(c) The amount of the direct special construction charge shall not exceed—

- (1) The actual costs to the Contractor; and
- (2) An amount properly allocable to the services to be provided to the Government.

(d) The amount of the direct special construction charge shall not include costs incurred by the Contractor which are covered by—

- (1) A cancellation or termination liability; or
- (2) The Contractor's recurring or other nonrecurring charges.

(e) The Contractor represents that—

(1) Recurring charges for the services, facilities, and equipment do not include in the rate base any costs that have been reimbursed by the Government to the Contractor; and

(2) Depreciation charges are based only on the cost of facilities and equipment paid by the Contractor and not reimbursed by the Government.

(f) If it becomes necessary for the Contractor to incur costs to replace any facilities or equipment, the Government shall assume those costs or reimburse the Contractor for replacement costs at mutually acceptable rates under the following circumstances—

- (1) The Government paid direct special construction charges; or
- (2) The Government reimbursed the Contractor for those facilities or equipment as a part of the recurring charges; and
- (3) The need for replacement was due to circumstances beyond the control and without the fault of the Contractor.

(g) Before incurring any costs under paragraph (f) of this clause, the Government shall have the right to terminate the service under the Cancellation or Termination of Orders clause of this contract.

(End of clause)

252.239-7012 Title to Telecommunication Facilities and Equipment.

As prescribed in [239.7411](#) (b), use the following clause:

TITLE TO TELECOMMUNICATION FACILITIES AND EQUIPMENT (DEC 1991)

(a) Title to all Contractor furnished facilities and equipment used under this agreement/contract shall remain with the Contractor even if the Government paid the costs of constructing the facilities or equipment. A mutually accepted communications service authorization may provide for exceptions.

(b) The Contractor shall operate and maintain all telecommunication facilities and equipment used under this agreement/contract whether the Government or the Contractor has title.

(End of clause)

252.239-7013 Term of Agreement and Continuation of Services.

Basic. As prescribed in [239.7411](#) (c)(1), use the following clause:

TERM OF AGREEMENT AND CONTINUATION OF SERVICES–BASIC (OCT 2019)

(a) This basic agreement is not a contract. The Government incurs liability only upon issuance of a communication service authorization, which is a contract that incorporates the terms and conditions of this basic agreement.

(b) This agreement shall continue in force from year to year, unless terminated by either party by 30 days' written notice. Termination of this basic agreement does not terminate or cancel any communication service authorizations issued under this basic agreement prior to the termination.

(c) Communication service authorizations issued under this basic agreement may be modified to incorporate the terms and conditions of a new basic agreement negotiated with the Contractor.

(End of clause)

Alternate I. As prescribed in [239.7411](#) (c)(2), use the following clause, which uses a different paragraph (c) than the basic clause and adds a new paragraph (d).

TERM OF AGREEMENT AND CONTINUATION OF SERVICES–ALTERNATE I (OCT 2019)

(a) This basic agreement is not a contract. The Government incurs liability only upon issuance of a communication service authorization, which is a contract that incorporates the terms and conditions of this basic agreement.

(b) This agreement shall continue in force from year to year, unless terminated by either party by 30 days' written notice. Termination of this basic agreement does not terminate or cancel any communication service authorizations issued under this basic agreement prior to the termination.

(c) The Contractor's current communication services authorizations have been modified to incorporate the terms and conditions of this basic agreement.

(1) All current communication service authorizations issued by _____ that incorporate Basic Agreement Number _____, dated _____, are modified to incorporate this basic agreement.

(2) Current communication service authorizations, issued by the activity in paragraph (c)(1) of this clause, that incorporate other agreements with the Contractor may also be modified to incorporate this basic agreement.

(d) Communication service authorizations issued under this basic agreement may be modified to incorporate a new basic agreement with the Contractor.

(End of clause)

252.239-7014 Reserved.**252.239-7015 Reserved.****252.239-7016 Telecommunications Security Equipment, Devices, Techniques, and Services.**

As prescribed in [239.7411](#) (d), use the following clause:

TELECOMMUNICATIONS SECURITY EQUIPMENT, DEVICES, TECHNIQUES, AND SERVICES (DEC 1991)

(a) *Definitions.* As used in this clause—

(1) “Securing” means the application of Government-approved telecommunications security equipment, devices, techniques, or services to contractor telecommunications systems.

(2) “Sensitive information” means any information the loss, misuse, or modification of which, or unauthorized access to, could adversely affect the national interest or the conduct of Federal programs, or the privacy to which individuals are entitled under 5 U.S.C. 552a (the Privacy Act), but which has not been specifically authorized under criteria established by an Executive Order or Act of Congress to be kept secret in the interest of national defense or foreign policy.

(3) “Telecommunications systems” means voice, record, and data communications, including management information systems and local data networks that connect to external transmission media, when employed by Government agencies, contractors, and subcontractors to transmit—

(i) Classified or sensitive information;

(ii) Matters involving intelligence activities, cryptologic activities related to national security, the command and control of military forces, or equipment that is an integral part of a weapon or weapons system; or

(iii) Matters critical to the direct fulfillment of military or intelligence missions.

(b) This solicitation/contract identifies classified or sensitive information that requires securing during telecommunications and requires the Contractor to secure telecommunications systems. The Contractor agrees to secure information and systems at the following location: (Identify the location.)

(c) To provide the security, the Contractor shall use Government-approved telecommunications equipment, devices, techniques, or services. A list of the approved equipment, etc. may be obtained from (identify where list can be obtained). Equipment, devices, techniques, or services used by the Contractor must be compatible or interoperable with (list and identify the location of any telecommunications security equipment, device, technique, or service currently being used by the technical or requirements organization or other offices with which the Contractor must communicate).

(d) Except as may be provided elsewhere in this contract, the Contractor shall furnish all telecommunications security equipment, devices, techniques, or services necessary to perform this contract. The Contractor must meet ownership eligibility conditions for communications security equipment designated as controlled cryptographic items.

(e) The Contractor agrees to include this clause, including this paragraph (e), in all subcontracts which require securing telecommunications.

(End of clause)

252.239-7017 Notice of Supply Chain Risk.

As prescribed in [239.7306](#) (a), use the following provision:

NOTICE OF SUPPLY CHAIN RISK (DEC 2022)

(a) Definitions. “Supply chain risk,” as used in this provision, means the risk that an adversary may sabotage, maliciously introduce unwanted function, or otherwise subvert the design, integrity, manufacturing, production, distribution, installation, operation, or maintenance of a covered system so as to surveil, deny, disrupt, or otherwise degrade the function, use, or operation of such system (10 U.S.C. 3252).

(b) In order to manage supply chain risk, the Government may use the authorities provided by section 10 U.S.C. 3252. In exercising these authorities, the Government may consider information, public and non-public, including all-source intelligence, relating to an offeror and its supply chain.

(c) If the Government exercises the authority provided in 10 U.S.C. 3252 to limit disclosure of information, no action undertaken by the Government under such authority shall be subject to review in a bid protest before the Government Accountability Office or in any Federal court.

(End of provision)

252.239-7018 Supply Chain Risk.

As prescribed in [239.7306](#) (b), use the following clause:

SUPPLY CHAIN RISK (DEC 2022)

(a) *Definitions.* As used in this clause—

“Information technology” (see 40 U.S.C 11101(6)) means, in lieu of the definition at FAR 2.1, any equipment, or interconnected system(s) or subsystem(s) of equipment, that is used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the agency.

(1) For purposes of this definition, equipment is used by an agency if the equipment is used by the agency directly or is used by a contractor under a contract with the agency that requires—

(i) Its use; or

(ii) To a significant extent, its use in the performance of a service or the furnishing of a product.

(2) The term “information technology” includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources.

(3) The term “information technology” does not include any equipment acquired by a contractor incidental to a contract.

“Supply chain risk,” means the risk that an adversary may sabotage, maliciously introduce unwanted function, or otherwise subvert the design, integrity, manufacturing, production, distribution, installation, operation, or maintenance of a covered system so as to surveil, deny, disrupt, or otherwise degrade the function, use, or operation of such system (see 10 U.S.C. 3252).

(b) The Contractor shall mitigate supply chain risk in the provision of supplies and services to the Government.

(c) In order to manage supply chain risk, the Government may use the authorities provided by 10 U.S.C. 3252. In exercising these authorities, the Government may consider information, public and non-public, including all-source intelligence, relating to a Contractor’s supply chain.

(d) If the Government exercises the authority provided in 10 U.S.C. 3252 to limit disclosure of information, no action undertaken by the Government under such authority shall be subject to review in a bid protest before the Government Accountability Office or in any Federal court.

(End of clause)

252.241 RESERVED**252.241-7000 Superseding Contract.**

As prescribed in [241.501-70](#) (a), use the following clause:

SUPERSEDING CONTRACT (DEC 1991)

This contract supersedes contract No. _____, dated _____ which provided similar services. Any capital credits accrued to the Government, any remaining credits due to the Government under the connection charge, or any termination liability are transferred to this contract, as follows:

CAPITAL CREDITS: (List years and accrued credits by year and separate delivery points.)

OUTSTANDING CONNECTION CHARGE CREDITS: (List by month and year the amount credited and show the remaining amount of outstanding credits due the Government.)

TERMINATION LIABILITY CHARGES: (List by month and year the amount of monthly facility cost recovered and show the remaining amount of facility cost to be recovered.)

(End of clause)

252.241-7001 Government Access.

As prescribed in [241.501-70](#) (b), use the following clause:

GOVERNMENT ACCESS (DEC 1991)

Authorized representatives of the Government may have access to the Contractor's on-base facilities upon reasonable notice or in case of emergency.

(End of clause)

252.242 RESERVED

252.242-7000 Reserved.

252.242-7001 Reserved.

252.242-7002 Reserved.

252.242-7003 Reserved.

252.242-7004 Material Management and Accounting System.

As prescribed in [242.7204](#), use the following clause:

MATERIAL MANAGEMENT AND ACCOUNTING SYSTEM (JAN 2025)

(a) *Definitions.* As used in this clause—

“Acceptable material management and accounting system” means a material management and accounting system that generally complies with the system criteria in paragraph (d) of this clause.

“Contractor” means a business unit as defined in Federal Acquisition Regulation (FAR) 2.101.

“Material management and accounting system (MMAS)” means the Contractor’s system or systems for planning, controlling, and accounting for the acquisition, use, issuing, and disposition of material. Material management and accounting systems may be manual or automated. They may be stand-alone systems, or they may be integrated with planning, engineering, estimating, purchasing, inventory, accounting, or other systems.

“Material weakness” means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

- (1) Probable; or
- (2) More than remote but less than likely (section 806 of Pub. L. 116-283).

“Valid time-phased requirements” means material that is—

- (1) Needed to fulfill the production plan, including reasonable quantities for scrap, shrinkage, yield, etc.; and
- (2) Charged or billed to contracts or other cost objectives in a manner consistent with the need to fulfill the production plan.

(b) *General.* The Contractor shall—

- (1) Maintain an MMAS that—
 - (i) Reasonably forecasts material requirements;
 - (ii) Ensures that costs of purchased and fabricated material charged or allocated to a contract are based on valid time-phased requirements; and
 - (iii) Maintains a consistent, equitable, and unbiased logic for costing of material transactions; and
- (2) Assess its MMAS and take reasonable action to comply with the MMAS standards in paragraph (e) of this clause.

(c) *Disclosure and maintenance requirements.* The Contractor shall—

- (1) Have policies, procedures, and operating instructions that adequately describe its MMAS;
- (2) Provide to the Administrative Contracting Officer (ACO), upon request, the results of internal reviews that it has conducted to ensure compliance with established MMAS policies, procedures, and operating instructions; and
- (3) Disclose significant changes in its MMAS to the ACO at least 30 days prior to implementation.

(d) *System criteria.* The MMAS shall have adequate internal controls to ensure system and data integrity, and shall—

- (1) Have an adequate system description including policies, procedures, and operating instructions that comply with the FAR and Defense FAR Supplement;

(2) Ensure that costs of purchased and fabricated material charged or allocated to a contract are based on valid time-phased requirements as impacted by minimum/economic order quantity restrictions.

(i) A 98 percent bill of material accuracy and a 95 percent master production schedule accuracy are desirable as a goal in order to ensure that requirements are both valid and appropriately time-phased.

(ii) If systems have accuracy levels below these, the Contractor shall provide adequate evidence that—

(A) There is no material harm to the Government due to lower accuracy levels; and

(B) The cost to meet the accuracy goals is excessive in relation to the impact on the Government;

(3) Provide a mechanism to identify, report, and resolve system control weaknesses and manual override. Systems should identify operational exceptions, such as excess/residual inventory, as soon as known;

(4) Provide audit trails and maintain records (manual and those in machine-readable form) necessary to evaluate system logic and to verify through transaction testing that the system is operating as desired;

(5) Establish and maintain adequate levels of record accuracy, and include reconciliation of recorded inventory quantities to physical inventory by part number on a periodic basis. A 95 percent accuracy level is desirable. If systems have an accuracy level below 95 percent, the Contractor shall provide adequate evidence that—

(i) There is no material harm to the Government due to lower accuracy levels; and

(ii) The cost to meet the accuracy goal is excessive in relation to the impact on the Government;

(6) Provide detailed descriptions of circumstances that will result in manual or system generated transfers of parts;

(7) Maintain a consistent, equitable, and unbiased logic for costing of material transactions as follows:

(i) The Contractor shall maintain and disclose written policies describing the transfer methodology and the loan/pay-back technique.

(ii) The costing methodology may be standard or actual cost, or any of the inventory costing methods in 48 CFR 9904.411-50(b). The Contractor shall maintain consistency across all contract and customer types, and from accounting period to accounting period for initial charging and transfer charging.

(iii) The system should transfer parts and associated costs within the same billing period. In the few instances where this may not be appropriate, the Contractor may accomplish the material transaction using a loan/pay-back technique. The “loan/pay-back technique” means that the physical part is moved temporarily from the contract, but the cost of the part remains on the contract. The procedures for the loan/pay-back technique must be approved by the ACO. When the technique is used, the Contractor shall have controls to ensure—

(A) Parts are paid back expeditiously;

(B) Procedures and controls are in place to correct any overbilling that might occur;

(C) Monthly, at a minimum, identification of the borrowing contract and the date the part was borrowed; and

(D) The cost of the replacement part is charged to the borrowing contract;

(8) Where allocations from common inventory accounts are used, have controls (in addition to those in paragraphs (d) (2) and (7) of this clause) to ensure that—

(i) Reallocations and any credit due are processed no less frequently than the routine billing cycle;

(ii) Inventories retained for requirements that are not under contract are not allocated to contracts; and

(iii) Algorithms are maintained based on valid and current data;

(9) Have adequate controls to ensure that physically commingled inventories that may include material for which costs are charged or allocated to fixed-price, cost-reimbursement, and commercial contracts do not compromise requirements of any of the standards in paragraphs (d)(1) through (8) of this clause. Government-furnished material shall not be—

(i) Physically commingled with other material; or

(ii) Used on commercial work; and

(10) Be subjected to periodic internal reviews to ensure compliance with established policies and procedures.

(e) Material weaknesses.

(1) The Contracting Officer will provide an initial determination to the Contractor, in writing, of any material weaknesses. The initial determination will describe the underlying deficiencies in sufficient detail to allow the Contractor to understand the weaknesses or deficiencies.

(2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies material weaknesses in the Contractor’s MMAS. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.

(3) The Contracting Officer will evaluate the Contractor’s response and notify the Contractor, in writing, of the Contracting Officer’s final determination concerning—

(i) Remaining material weaknesses;

(ii) The adequacy of any proposed or completed corrective action; and

(iii) System disapproval if the Contracting Officer determines that one or more material weaknesses remain.

(f) If the Contractor receives the Contracting Officer's final determination of material weaknesses, the Contractor shall, within 45 days of receipt of the final determination, either correct the material weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the material weaknesses.

(g) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's MMAS, and the contract includes the clause at [252.242-7005](#), Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(End of clause)

252.242-7005 Contractor Business Systems.

As prescribed in [242.7001](#), use the following clause:

CONTRACTOR BUSINESS SYSTEMS (JAN 2025)

(a) This clause only applies to covered contracts that are subject to the Cost Accounting Standards under 41 U.S.C. chapter 15, as implemented in regulations found at 48 CFR 9903.201-1 (see the FAR Appendix).

(b) *Definitions.* As used in this clause—

“Acceptable contractor business systems” means contractor business systems that comply with the terms and conditions of the applicable business system clauses listed in the definition of “contractor business systems” in this clause.

“Contractor business systems” means—

(1) Accounting system, if this contract includes the clause at [252.242-7006](#), Accounting System Administration;

(2) Earned value management system, if this contract includes the clause at [252.234-7002](#), Earned Value Management System;

(3) Estimating system, if this contract includes the clause at [252.215-7002](#), Cost Estimating System Requirements;

(4) Material management and accounting system, if this contract includes the clause at [252.242-7004](#), Material Management and Accounting System;

(5) Property management system, if this contract includes the clause at [252.245-7003](#), Contractor Property Management System Administration; and

(6) Purchasing system, if this contract includes the clause at [252.244-7001](#), Contractor Purchasing System Administration.

“Material weakness” means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

(1) Probable; or

(2) More than remote but less than likely (section 806 of Pub. L. 116-283).

(c) General. The Contractor shall establish and maintain acceptable business systems in accordance with the terms and conditions of this contract.

(d) Material weaknesses.

(1) The Contractor shall respond, in writing, within 30 days to an initial determination that there are one or more material weaknesses in one or more of the Contractor's business systems.

(2) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the final determination as to whether the Contractor's business system contains material weaknesses. If the Contracting Officer determines that the Contractor's business system contains material weaknesses, the final determination will include a notice to withhold payments.

(e) Withholding payments.

(1) If the Contracting Officer issues the final determination with a notice to withhold payments for material weaknesses in a contractor business system required under this contract, the Contracting Officer will withhold 5 percent of amounts due from progress payments and performance-based payments, and direct the Contractor, in writing, to withhold 5 percent from its billings on interim cost vouchers on cost-reimbursement, labor-hour, and time-and-materials contracts until the Contracting Officer has determined that the Contractor has corrected all material weaknesses as directed by the Contracting

Officer's final determination. The Contractor shall, within 45 days of receipt of the notice, either correct the weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the weaknesses.

(2) If the Contractor submits an acceptable corrective action plan within 45 days of receipt of a notice of the Contracting Officer's intent to withhold payments, and the Contracting Officer, in consultation with the auditor or functional specialist, determines that the Contractor is effectively implementing such plan, the Contracting Officer will reduce withholding directly related to the material weaknesses covered under the corrective action plan, to 2 percent from progress payments and performance-based payments, and direct the Contractor, in writing, to reduce the percentage withheld on interim cost vouchers to 2 percent until the Contracting Officer determines the Contractor has corrected all material weaknesses as directed by the Contracting Officer's final determination. However, if at any time, the Contracting Officer determines that the Contractor has failed to follow the accepted corrective action plan, the Contracting Officer will increase withholding from progress payments and performance-based payments, and direct the Contractor, in writing, to increase the percentage withheld on interim cost vouchers to the percentage initially withheld, until the Contracting Officer determines that the Contractor has corrected all material weaknesses as directed by the Contracting Officer's final determination.

(3) Payment withhold percentage limits.

(i) The total percentage of payments withheld on amounts due under each progress payment, performance-based payment, or interim cost voucher, on this contract shall not exceed—

(A) Five percent for one or more material weaknesses in any single contractor business system; and

(B) Ten percent for material weaknesses in multiple contractor business systems.

(ii) If this contract contains pre-existing withholds, and the application of any subsequent payment withholds will cause withholding under this clause to exceed the payment withhold percentage limits in paragraph (e)(3)(i) of this clause, the Contracting Officer will reduce the payment withhold percentage in the final determination to an amount that will not exceed the payment withhold percentage limits.

(4) For the purpose of this clause, payment means any of the following payments authorized under this contract:

(i) Interim payments under—

(A) Cost-reimbursement contracts;

(B) Incentive type contracts;

(C) Time-and-materials contracts;

(D) Labor-hour contracts.

(ii) Progress payments.

(iii) Performance-based payments.

(5) Payment withholding shall not apply to payments on fixed-price line items where performance is complete and the items were accepted by the Government.

(6) The withholding of any amount or subsequent payment to the Contractor shall not be construed as a waiver of any rights or remedies the Government has under this contract.

(7) Notwithstanding the provisions of any clause in this contract providing for interim, partial, or other payment withholding on any basis, the Contracting Officer may withhold payment in accordance with the provisions of this clause.

(8) The payment withholding authorized in this clause is not subject to the interest-penalty provisions of the Prompt Payment Act.

(f) Correction of weaknesses .

(1) The Contractor shall notify the Contracting Officer, in writing, when the Contractor has corrected the business system's weaknesses.

(2) Once the Contractor has notified the Contracting Officer that all weaknesses have been corrected, the Contracting Officer will take one of the following actions:

(i) If the Contracting Officer determines that the Contractor has corrected all material weaknesses as directed by the Contracting Officer's final determination, the Contracting Officer will, as appropriate, discontinue the withholding of progress payments and performance-based payments, and direct the Contractor, in writing, to discontinue the payment withholding from billings on interim cost vouchers under this contract associated with the Contracting Officer's final determination, and authorize the Contractor to bill for any monies previously withheld that are not also being withheld due to other material weaknesses. Any payment withholding under this contract due to other material weaknesses will remain in effect until the Contracting Officer determines that those material weaknesses are corrected.

(ii) If the Contracting Officer determines that the Contractor still has material weaknesses, the Contracting Officer will continue the withholding of progress payments and performance-based payments, and the Contractor shall continue

withholding amounts from its billings on interim cost vouchers in accordance with paragraph (e) of this clause, and not bill for any monies previously withheld.

(iii) If the Contracting Officer determines, based on the evidence submitted by the Contractor, that there is a reasonable expectation that the corrective actions have been implemented and are expected to correct the material weaknesses, the Contracting Officer will discontinue withholding payments, release any payments previously withheld directly related to the material weaknesses identified in the Contractor notification, direct the Contractor, in writing, to discontinue the payment withholding from billings on interim cost vouchers associated with the Contracting Officer's final determination, and authorize the Contractor to bill for any monies previously withheld.

(iv) If, within 90 days of receipt of the Contractor notification that the Contractor has corrected the material weaknesses, the Contracting Officer has not made a determination in accordance with paragraph (f)(2)(i), (ii), or (iii) of this clause, the Contracting Officer will reduce withholding directly related to the material weaknesses identified in the Contractor notification by at least 50 percent of the amount being withheld from progress payments and performance-based payments, and direct the Contractor, in writing, to reduce the payment withholding from billings on interim cost vouchers directly related to the material weaknesses identified in the Contractor notification by a specified percentage that is at least 50 percent, but not authorize the Contractor to bill for any monies previously withheld until the Contracting Officer makes a determination in accordance with paragraph (f)(2)(i), (ii), or (iii) of this clause.

(v) At any time after the Contracting Officer reduces or discontinues the withholding of progress payments and performance-based payments, or directs the Contractor to reduce or discontinue the payment withholding from billings on interim cost vouchers under this contract, if the Contracting Officer determines that the Contractor has failed to correct the material weaknesses identified in the Contractor's notification, the Contracting Officer will reinstate or increase withholding from progress payments and performance-based payments, and direct the Contractor, in writing, to reinstate or increase the percentage withheld on interim cost vouchers to the percentage initially withheld, until the Contracting Officer determines that the Contractor has corrected all material weaknesses as directed by the Contracting Officer's final determination.

(End of clause)

252.242-7006 Accounting System Administration.

As prescribed in [242.7503](#), use the following clause:

ACCOUNTING SYSTEM ADMINISTRATION (JAN 2025)

(a) *Definitions.* As used in this clause—

“Acceptable accounting system” means a system that complies with the system criteria in paragraph (c) of this clause to provide reasonable assurance that—

- (1) Applicable laws and regulations are complied with;
- (2) The accounting system and cost data are reliable;
- (3) Risk of misallocations and mischarges are minimized; and
- (4) Contract allocations and charges are consistent with billing procedures.

“Accounting system” means the Contractor's system or systems for accounting methods, procedures, and controls established to gather, record, classify, analyze, summarize, interpret, and present accurate and timely financial data for reporting in compliance with applicable laws, regulations, and management decisions, and may include subsystems for specific areas such as indirect and other direct costs, compensation, billing, labor, and general information technology.

Material weakness means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

- (1) Probable; or
- (2) More than remote but less than likely (section 806 of Pub. L. 116-283).

(b) *General.* The Contractor shall establish and maintain an acceptable accounting system. Failure to maintain an acceptable accounting system, as defined in this clause, shall result in the withholding of payments if the contract includes the clause at [252.242-7005](#), Contractor Business Systems, and also may result in disapproval of the system.

(c) *System criteria.* The Contractor's accounting system shall provide for—

- (1) A sound internal control environment, accounting framework, and organizational structure;

- (2) Proper segregation of direct costs from indirect costs;
- (3) Identification and accumulation of direct costs by contract;
- (4) A logical and consistent method for the accumulation and allocation of indirect costs to intermediate and final cost objectives;
- (5) Accumulation of costs under general ledger control;
- (6) Reconciliation of subsidiary cost ledgers and cost objectives to general ledger;
- (7) Approval and documentation of adjusting entries;
- (8) Management reviews or internal audits of the system to ensure compliance with the Contractor's established policies, procedures, and accounting practices;
- (9) A timekeeping system that identifies employees' labor by intermediate or final cost objectives;
- (10) A labor distribution system that charges direct and indirect labor to the appropriate cost objectives;
- (11) Interim (at least monthly) determination of costs charged to a contract through routine posting of books of account;
- (12) Exclusion from costs charged to Government contracts of amounts which are not allowable in terms of Federal Acquisition Regulation (FAR) part 31, Contract Cost Principles and Procedures, and other contract provisions;
- (13) Identification of costs by contract line item and by units (as if each unit or line item were a separate contract), if required by the contract;
- (14) Segregation of preproduction costs from production costs, as applicable;
- (15) Cost accounting information, as required—
 - (i) By contract clauses concerning limitation of cost (FAR 52.232-20), limitation of funds (FAR 52.232-22), or allowable cost and payment (FAR 52.216-7); and
 - (ii) To readily calculate indirect cost rates from the books of accounts;
- (16) Billings that can be reconciled to the cost accounts for both current and cumulative amounts claimed and comply with contract terms;
- (17) Adequate, reliable data for use in pricing follow-on acquisitions; and
- (18) Accounting practices in accordance with standards promulgated by the Cost Accounting Standards Board, if applicable, otherwise, Generally Accepted Accounting Principles.
- (d) Material weaknesses .
 - (1) The Contracting Officer will provide an initial determination to the Contractor, in writing, of any material weaknesses. The initial determination will describe the underlying deficiency in sufficient detail to allow the Contractor to understand the weakness or deficiency.
 - (2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies material weaknesses in the Contractor's accounting system. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.
 - (3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—
 - (i) Remaining material weaknesses;
 - (ii) The adequacy of any proposed or completed corrective action; and
 - (iii) System disapproval, if the Contracting Officer determines that one or more material weaknesses remain.
 - (e) If the Contractor receives the Contracting Officer's final determination of material weaknesses, the Contractor shall, within 45 days of receipt of the final determination, either correct the material weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the material weaknesses.
 - (f) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's accounting system, and the contract includes the clause at [252.242-7005](#) , Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(End of clause)

252.243 RESERVED

252.243-7000 Reserved.

252.243-7001 Pricing of Contract Modifications.

As prescribed in [243.205-70](#) , use the following clause:

PRICING OF CONTRACT MODIFICATIONS (DEC 1991)

When costs are a factor in any price adjustment under this contract, the contract cost principles and procedures in FAR Part 31 and DFARS Part 231, in effect on the date of this contract, apply.

(End of clause)

252.243-7002 Requests for Equitable Adjustment.

As prescribed in [243.205-71](#) , use the following clause:

REQUESTS FOR EQUITABLE ADJUSTMENT (DEC 2022)

- (a) The amount of any request for equitable adjustment to contract terms shall accurately reflect the contract adjustment for which the Contractor believes the Government is liable. The request shall include only costs for performing the change, and shall not include any costs that already have been reimbursed or that have been separately claimed. All indirect costs included in the request shall be properly allocable to the change in accordance with applicable acquisition regulations.
- (b) In accordance with 10 U.S.C. 3862(a), any request for equitable adjustment to contract terms that exceeds the simplified acquisition threshold shall bear, at the time of submission, the following certificate executed by an individual authorized to certify the request on behalf of the Contractor:

I certify that the request is made in good faith, and that the supporting data are accurate and complete to the best of my knowledge and belief.	
	(Official’s Name)
	(Title)

- (c) The certification in paragraph (b) of this clause requires full disclosure of all relevant facts, including—
- (1) Certified cost or pricing data, if required, in accordance with subsection 15.403-4 of the Federal Acquisition Regulation (FAR); and
- (2) Data other than certified cost or pricing data, in accordance with subsection [215.403-5](#) of the FAR, including actual cost data and data to support any estimated costs, even if certified cost or pricing data are not required.
- (d) The certification requirement in paragraph (b) of this clause does not apply to—
- (1) Requests for routine contract payments; for example, requests for payment for accepted supplies and services, routine vouchers under a cost-reimbursement type contract, or progress payment invoices; or
- (2) Final adjustments under an incentive provision of the contract.

(End of clause)

252.244 RESERVED

252.244-7000 Subcontracts for Commercial Products or Commercial Services.

As prescribed in [244.403](#) , use the following clause:

SUBCONTRACTS FOR COMMERCIAL PRODUCTS OR COMMERCIAL SERVICES (NOV 2023)

(a) The Contractor shall not include the terms of any Federal Acquisition Regulation (FAR) clause or Defense Federal Acquisition Regulation Supplement (DFARS) clause in subcontracts for commercial products or commercial services at any tier under this contract, unless

(1) For DFARS clauses, it is so specified in the particular clause; or

(2) For FAR clauses, the clause is listed at FAR 12.301(d) or it is so specified in paragraph (e)(1) of the clause at FAR 52.212-5 or paragraph (b)(1) of the clause at FAR 52.244-6, as applicable. (Section 847(b)(1)(B), Pub. L. 114-328)

(b)(1) In accordance with 10 U.S.C. 3457(c), the Contractor shall treat as commercial products any items valued at less than \$10,000 per item that were purchased by the Contractor for use in the performance of multiple contracts with the Department of Defense and other parties and are not identifiable to any particular contract when purchased.

(2) The Contractor shall ensure that any items to be used in performance of this contract, that are treated as commercial products pursuant to paragraph (b)(1) of this clause, meet all terms and conditions of this contract that are applicable to commercial products or commercial services in accordance with the clause at FAR [52.244-6](#) and paragraph (a) of this clause.

(c) Subcontracts. The Contractor shall include the terms of this clause, including this paragraph (c), in subcontracts awarded under this contract, including subcontracts for the acquisition of commercial products or commercial services.

(End of clause)

252.244-7001 Contractor Purchasing System Administration.

Basic. As prescribed in [244.305-71](#) and [244.305-71](#) (a), use the following clause:

CONTRACTOR PURCHASING SYSTEM ADMINISTRATION-BASIC (JAN 2025)

(a) *Definitions.* As used in this clause—

“Acceptable purchasing system” means a purchasing system that complies with the system criteria in paragraph (c) of this clause.

[*Material weakness* means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

(1) Probable; or

(2) More than remote but less than likely (section 806 of Pub. L. 116-283).

“Purchasing system” means the Contractor’s system or systems for purchasing and subcontracting, including make-or-buy decisions, the selection of vendors, analysis of quoted prices, negotiation of prices with vendors, placing and administering of orders, and expediting delivery of materials.

(b) *General.* The Contractor shall establish and maintain an acceptable purchasing system. Failure to maintain an acceptable purchasing system, as defined in this clause, may result in disapproval of the system by the Contracting Officer and/or withholding of payments.

(c) *System criteria.* The Contractor’s purchasing system shall—

(1) Have an adequate system description including policies, procedures, and purchasing practices that comply with the Federal Acquisition Regulation (FAR) and the Defense Federal Acquisition Regulation Supplement (DFARS);

(2) Ensure that all applicable purchase orders and subcontracts contain all flowdown clauses, including terms and conditions and any other clauses needed to carry out the requirements of the prime contract;

(3) Maintain an organization plan that establishes clear lines of authority and responsibility;

(4) Ensure all purchase orders are based on authorized requisitions and include a complete and accurate history of purchase transactions to support vendor selected, price paid, and document the subcontract/purchase order files which are subject to Government review;

(5) Establish and maintain adequate documentation to provide a complete and accurate history of purchase transactions to support vendors selected and prices paid;

(6) Apply a consistent make-or-buy policy that is in the best interest of the Government;

(7) Use competitive sourcing to the maximum extent practicable, and ensure debarred or suspended contractors are properly excluded from contract award;

(8) Evaluate price, quality, delivery, technical capabilities, and financial capabilities of competing vendors to ensure fair and reasonable prices;

- (9) Require management level justification and adequate cost or price analysis, as applicable, for any sole or single source award;
- (10) Perform timely and adequate cost or price analysis and technical evaluation for each subcontractor and supplier proposal or quote to ensure fair and reasonable subcontract prices;
- (11) Document negotiations in accordance with FAR 15.406-3;
- (12) Seek, take, and document economically feasible purchase discounts, including cash discounts, trade discounts, quantity discounts, rebates, freight allowances, and company-wide volume discounts;
- (13) Ensure proper type of contract selection and prohibit issuance of cost-plus-a-percentage-of-cost subcontracts;
- (14) Maintain subcontract surveillance to ensure timely delivery of an acceptable product and procedures to notify the Government of potential subcontract problems that may impact delivery, quantity, or price;
- (15) Document and justify reasons for subcontract changes that affect cost or price;
- (16) Notify the Government of the award of all subcontracts that contain the FAR and DFARS flowdown clauses that allow for Government audit of those subcontracts, and ensure the performance of audits of those subcontracts;
- (17) Enforce adequate policies on conflict of interest, gifts, and gratuities, including the requirements of 41 U.S.C. chapter 87, Kickbacks;
- (18) Perform internal audits or management reviews, training, and maintain policies and procedures for the purchasing department to ensure the integrity of the purchasing system;
- (19) Establish and maintain policies and procedures to ensure purchase orders and subcontracts contain mandatory and applicable flowdown clauses, as required by the FAR and DFARS, including terms and conditions required by the prime contract and any clauses required to carry out the requirements of the prime contract, including the requirements of [252.246-7007](#), Contractor Counterfeit Electronic Part Detection and Avoidance System, if applicable;
- (20) Provide for an organizational and administrative structure that ensures effective and efficient procurement of required quality materials and parts at the best value from responsible and reliable sources, including the requirements of [252.246-7007](#), Contractor Counterfeit Electronic Part Detection and Avoidance System, if applicable;
- (21) Establish and maintain selection processes to ensure the most responsive and responsible sources for furnishing required quality parts and materials and to promote competitive sourcing among dependable suppliers so that purchases are reasonably priced and from sources that meet contractor quality requirements, including the requirements of [252.246-7007](#), Contractor Counterfeit Electronic Part Detection and Avoidance System, and the item marking requirements of [252.211-7003](#), Item Unique Identification and Valuation, if applicable;
- (22) Establish and maintain procedures to ensure performance of adequate price or cost analysis on purchasing actions;
- (23) Establish and maintain procedures to ensure that proper types of subcontracts are selected, and that there are controls over subcontracting, including oversight and surveillance of subcontracted effort; and
- (24) Establish and maintain procedures to timely notify the Contracting Officer, in writing, if—
 - (i) The Contractor changes the amount of subcontract effort after award such that it exceeds 70 percent of the total cost of the work to be performed under the contract, task order, or delivery order. The notification shall identify the revised cost of the subcontract effort and shall include verification that the Contractor will provide added value; or
 - (ii) Any subcontractor changes the amount of lower-tier subcontractor effort after award such that it exceeds 70 percent of the total cost of the work to be performed under its subcontract. The notification shall identify the revised cost of the subcontract effort and shall include verification that the subcontractor will provide added value as related to the work to be performed by the lower-tier subcontractor(s).
- (d) Material weaknesses .
 - (1) The Contracting Officer will provide notification of initial determination to the Contractor, in writing, of any material weaknesses. The initial determination will describe the underlying deficiency in sufficient detail to allow the Contractor to understand the weakness or deficiency.
 - (2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies material weaknesses in the Contractor's purchasing system. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.
 - (3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—
 - (i) Remaining material weaknesses;
 - (ii) The adequacy of any proposed or completed corrective action; and
 - (iii) System disapproval, if the Contracting Officer determines that one or more material weaknesses remain.

(e) If the Contractor receives the Contracting Officer's final determination of material weaknesses, the Contractor shall, within 45 days of receipt of the final determination, either correct the material weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the weaknesses.

(f) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's purchasing system, and the contract includes the clause at [252.242-7005](#), Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(End of clause)

Alternate I. As prescribed in [244.305-71](#) and [244.305-71](#) (b), use the following clause, which amends paragraph (c) of the basic clause by deleting paragraphs (c)(1) through (c)(18) and (c)(22) through (c)(24), and revising and renumbering paragraphs (c)(19) through (c)(21) of the basic clause.

CONTRACTOR PURCHASING SYSTEM ADMINISTRATION—ALTERNATE I (JAN 2025)

The following paragraphs (a) through (f) of this clause do not apply unless the Contractor is subject to the Cost Accounting Standards under 41 U.S.C. chapter 15, as implemented in regulations found at 48 CFR 9903.201-1.

(a) *Definitions.* As used in this clause—

“Acceptable purchasing system” means a purchasing system that complies with the system criteria in paragraph (c) of this clause.

“Material weakness” means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

(1) Probable; or

(2) More than remote but less than likely (section 806 of Pub. L. 116-283).

“Purchasing system” means the Contractor's system or systems for purchasing and subcontracting, including make-or-buy decisions, the selection of vendors, analysis of quoted prices, negotiation of prices with vendors, placing and administering of orders, and expediting delivery of materials.

(b) *Acceptable purchasing system.* The Contractor shall establish and maintain an acceptable purchasing system. Failure to maintain an acceptable purchasing system, as defined in this clause, may result in disapproval of the system by the Contracting Officer and/or withholding of payments.

(c) *System criteria.* The Contractor's purchasing system shall—

(1) Establish and maintain policies and procedures to ensure purchase orders and subcontracts contain mandatory and applicable flowdown clauses, as required by the FAR and DFARS, including terms and conditions required by the prime contract and any clauses required to carry out the requirements of the prime contract, including the requirements of [252.246-7007](#), Contractor Counterfeit Electronic Part Detection and Avoidance System;

(2) Provide for an organizational and administrative structure that ensures effective and efficient procurement of required quality materials and parts at the best value from responsible and reliable sources, including the requirements of [252.246-7007](#), Contractor Counterfeit Electronic Part Detection and Avoidance System, and, if applicable, the item marking requirements of [252.211-7003](#), Item Unique Identification and Valuation; and

(3) Establish and maintain selection processes to ensure the most responsive and responsible sources for furnishing required quality parts and materials and to promote competitive sourcing among dependable suppliers so that purchases are from sources that meet contractor quality requirements, including the requirements of [252.246-7007](#), Contractor Counterfeit Electronic Part Detection and Avoidance System.

(d) *Material weaknesses.*

(1) The Contracting Officer will provide notification of initial determination to the Contractor, in writing, of any material weaknesses. The initial determination will describe the underlying deficiency in sufficient detail to allow the Contractor to understand the weaknesses or deficiency.

(2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies material weaknesses in the Contractor's purchasing system. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.

(3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—

- (i) Remaining material weaknesses;
- (ii) The adequacy of any proposed or completed corrective action; and
- (iii) System disapproval, if the Contracting Officer determines that one or more material weaknesses remain.

(e) If the Contractor receives the Contracting Officer's final determination of material weaknesses, the Contractor shall, within 45 days of receipt of the final determination, either correct the material weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the weaknesses.

(f) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's purchasing system, and the contract includes the clause at [252.242-7005](#), Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(End of clause)

252.245 RESERVED

252.245-7000 Government-Furnished Mapping, Charting, and Geodesy Property.

As prescribed in [245.107](#) (2), use the following clause:

GOVERNMENT-FURNISHED MAPPING, CHARTING, AND GEODESY PROPERTY (APR 2012)

(a) *Definition.* "Mapping, charting, and geodesy (MC&G) property" means geodetic, geomagnetic, gravimetric, aeronautical, topographic, hydrographic, cultural, and toponymic data presented in the form of topographic, planimetric, relief, or thematic maps and graphics; nautical and aeronautical charts and publications; and in simulated, photographic, digital, or computerized formats.

(b) The Contractor shall not duplicate, copy, or otherwise reproduce MC&G property for purposes other than those necessary for performance of the contract.

(c) At the completion of performance of the contract, the Contractor, as directed by the Contracting Officer, shall either destroy or return to the Government all Government-furnished MC&G property not consumed in the performance of this contract.

(End of clause)

252.245-7001 Reserved.

252.245-7002 Reserved.

252.245-7003 Contractor Property Management System Administration.

As prescribed in [245.107](#) (3), insert the following clause:

CONTRACTOR PROPERTY MANAGEMENT SYSTEM ADMINISTRATION (JAN 2025)

(a) *Definitions.* As used in this clause—

"Acceptable property management system" means a property system that complies with the system criteria in paragraph

(c) of this clause.

"Material weakness" means a deficiency or combination of deficiencies in the internal control over information in contractor business systems, such that there is a reasonable possibility that a material misstatement of such information will not be prevented, or detected and corrected, on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is—

- (1) Probable; or
- (2) More than remote but less than likely (section 806 of Pub. L. 116-283).

"Property management system" means the Contractor's system or systems for managing and controlling Government property.

(b) *General.* The Contractor shall establish and maintain an acceptable property management system. Failure to maintain an acceptable property management system, as defined in this clause, may result in disapproval of the system by the Contracting Officer and/or withholding of payments.

(c) *System criteria.* The Contractor's property management system shall be in accordance with paragraphs (b) and (f) of the contract clause at Federal Acquisition Regulation 52.245-1.

(d) *Material weaknesses.*

(1) The Contracting Officer will provide an initial determination to the Contractor, in writing, of any material weaknesses. The initial determination will describe the underlying deficiency in sufficient detail to allow the Contractor to understand the weaknesses or deficiency.

(2) The Contractor shall respond within 30 days to a written initial determination from the Contracting Officer that identifies material weaknesses in the Contractor's property management system. If the Contractor disagrees with the initial determination, the Contractor shall state, in writing, its rationale for disagreeing.

(3) The Contracting Officer will evaluate the Contractor's response and notify the Contractor, in writing, of the Contracting Officer's final determination concerning—

(i) Remaining material weaknesses;

(ii) The adequacy of any proposed or completed corrective action; and

(iii) System disapproval, if the Contracting Officer determines that one or more material weaknesses remain.

(e) If the Contractor receives the Contracting Officer's final determination of material weaknesses, the Contractor shall, within 45 days of receipt of the final determination, either correct the material weaknesses or submit an acceptable corrective action plan showing milestones and actions to eliminate the material weaknesses.

(f) *Withholding payments.* If the Contracting Officer makes a final determination to disapprove the Contractor's property management system, and the contract includes the clause at [252.242-7005](#), Contractor Business Systems, the Contracting Officer will withhold payments in accordance with that clause.

(End of clause)

252.245-7004 Reserved.

252.245-7005 Management and Reporting of Government Property.

As prescribed in [245.107 Contract clauses](#), (4), use the following clause:

MANAGEMENT AND REPORTING OF GOVERNMENT PROPERTY (JAN 2024)

(a) *Definitions.* As used in this clause—

“As is” means that the Government makes no warranty with respect to the serviceability and/or suitability of the Government property for contract performance and that the Government will not pay for any repairs, replacement, and/or refurbishment of the property.

“Commercial and Government Entity (CAGE) code” means—

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or government entity by unique location; or

(2) An identifier assigned by a member of the North Atlantic Treaty Organization (NATO) or by the NATO Support and Procurement Agency (NSPA) to entities located outside the United States and its outlying areas that the DLA Commercial and Government Entity (CAGE) Branch records and maintains in the CAGE master file. This type of code is known as a NATO CAGE (NCAGE) code.

“Contractor-acquired property,” “contractor inventory,” “Government property,” “Government-furnished property,” and “loss of Government property” have the meanings given in the Federal Acquisition Regulation (FAR) [52.245-1](#), Government Property, clause of this contract.

“Demilitarization” means the act of eliminating the functional capabilities and inherent military design features from DoD personal property. Methods and degree range from removal and destruction of critical features to total destruction by cutting, tearing, crushing, mangling, shredding, melting, burning, etc.

“Export-controlled items” has the meaning given in the Defense Federal Acquisition Regulation Supplement (DFARS) [252.225-7048 Export-Controlled Items](#), Export-Controlled Items, clause of this contract.

“Ineligible transferee” means an individual, an entity, or a country—

(1) Excluded from Federal programs by the General Services Administration as identified in the System for Award Management Exclusions located at <https://sam.gov>;

(2) Delinquent on obligations to the U.S. Government under surplus sales contracts;

(3) Designated by the Department of Defense as ineligible, debarred, or suspended from defense contracts; or

(4) Subject to denial, debarment, or other sanctions under export control laws and related laws and regulations, and orders administered by the Department of State, the Department of Commerce, the Department of Homeland Security, or the Department of the Treasury.

“Item unique identification” means a system of assigning, reporting, and marking DoD property with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items.

“National stock number” means a 13-digit stock number used to identify items of supply. It consists of a four-digit Federal Supply Code and a nine-digit National Item Identification Number.

“Reparable item” means an item, typically in unserviceable condition, furnished to the contractor for maintenance, repair, modification, or overhaul.

“Scrap” means property that has no value except for its basic material content. For purposes of demilitarization, scrap is defined as recyclable waste and discarded materials derived from items that have been rendered useless beyond repair, rehabilitation, or restoration such that the item’s original identity, utility, form, fit, and function have been destroyed. Items can be classified as scrap if processed by cutting, tearing, crushing, mangling, shredding, or melting. Intact or recognizable components and parts are not “scrap.”

“Serially-managed item” means an item designated by DoD to be uniquely tracked, controlled, or managed in maintenance, repair, and/or supply systems by means of its serial number or unique item identifier.

“Serviceable or usable property” means property with potential for reutilization or sale as is or with minor repairs or alterations. “Supply condition code” means a classification of materiel in terms of readiness for issue and use or to identify action underway to change the status of materiel. “Unique item identifier (UII)” means a set of data elements marked on an item that is globally unique and unambiguous. The term includes a concatenated UII or a DoD recognized unique identification equivalent.

(b) Reporting Government property.

(1) The Contractor shall use the Government Furnished Property (GFP) module of the Procurement Integrated Enterprise Environment (PIEE) to—

(i) Report receipt of GFP; (ii) Report the transfer of GFP to another DoD contract;

(iii) Report the shipment of GFP to the Government or to a contractor. The GFP module generates the electronic equivalent of the DD Form 1149, DD Form 1348-1, or other required shipping documents;

(iv) Report when serially-managed items of GFP are incorporated into a higher-level component, assembly, or end item;

(v) Report the loss of Government property in accordance with paragraph (f)(1)(vii) of the FAR [52.245-1](#) clause of this contract;

(vi) Complete the plant clearance inventory schedule in accordance with paragraph (j)(2) of the FAR [52.245-1](#) clause of this contract, unless disposition instructions are otherwise included in this contract. The GFP module generates the electronic equivalent of the Standard Form (SF) 1428, Inventory Disposal Schedule; and (vii) Submit a request to buy back or to convert to GFP items of Contractor-acquired property.

(2) Information regarding the GFP module is available in the GFP Module Vendor Guide at <https://dodprocurementtoolbox.com/site-pages/gfp-resources>. Users may also register for access to the GFP module and obtain training on the PIEE home page at <https://piee.eb.mil>.

(3) In complying with paragraphs (b)(1)(i) through (iv) of this clause, the Contractor shall report the updated status of the property to the GFP module within 7 business days of the date the change in status occurs, unless otherwise specified in the contract.

(4) The Contractor shall use Wide Area WorkFlow in accordance with DFARS Appendix F, Material Inspection and Receiving Report, to report the shipment of reparable items after completion of repair, maintenance, modification, or overhaul.

(5) When Government property is in the possession of subcontractors, the Contractor shall ensure that reporting is accomplished using the data elements required in paragraph (c) of this clause.

(c) *Records of Government property.* To facilitate reporting of Government property to the GFP module, the Contractor's property records, in addition to the requirements of paragraph (f)(1)(iii) of the FAR [52.245-1](#) clause of this contract, shall enable recording of the following data elements:

- (1) National stock number (NSN). If an NSN is not available, use either the combination of the manufacturer's CAGE code and part number, or model number.
- (2) CAGE code on the accountable Government contract.
- (3) Received/sent (shipped) date.
- (4) Accountable Government contract number.
- (5) Serial number (for serially-managed items that do not have a UII); and
- (6) Supply condition code (only required for reporting of reparable items). For information on Federal supply condition codes, see DLM 4000.25, Defense Logistics Management Standards (DLMS), Volume 2, Supply Standards and Procedures, Appendix 2.5 at <https://www.dla.mil/HQ/InformationOperations/DLMS/elibrary/manuals/v2/>.

(d) *Marking, reporting, and UII registration of GFP requirements.* The Contractor—

- (1) Shall assign the UII and mark the reparable items identified as serially managed in the GFP attachment to this contract with an item unique identification (IUID) data matrix, when the technical drawing for the item is accessible to the Contractor and includes IUID data matrix location and marking method;
- (2) Shall report the UII either before or during shipment of the repaired item;
- (3) Is not required to mark items that were previously marked with an IUID data matrix and registered in accordance with DFARS [252.211-7003 Item Unique Identification and Valuation](#), Item Unique Identification and Valuation; and
- (4) Shall assign a new UII, then mark and register the item, when the conditions of paragraph (d)(1) are met, if an item is found to be marked but not registered in the IUID Registry.

(e) *Disposing of Government property.*

(1) The Contractor shall complete the plant clearance inventory schedule using the plant clearance capability of the GFP module of the PIEE to generate an electronic equivalent of the SF 1428, Inventory Disposal Schedule. The plant clearance inventory schedule requires the following:

- (i) If known, the applicable Federal supply code (FSC) for all items, except items in scrap condition.
 - (ii) If known, the manufacturer name for all aircraft components under Federal supply group 16 or 17 and FSCs 2620, 2810, 2915, 2925, 2935, 2945, 2995, 4920, 5821, 5826, 5841, 6340, and 6615.
 - (iii) The manufacturer name, make, model number, model year, and serial number for all aircraft under FSCs 1510 and 1520.
- (2) If the schedules are acceptable, the plant clearance officer will confirm acceptance in the GFP module plant clearance capability, which will transmit a notification to the Contractor. The electronic acceptance is equivalent to the DD Form 1637, Notice of Acceptance of Inventory.

(f) *Demilitarization, mutilation, and destruction.* If demilitarization, mutilation, or destruction of contractor inventory is required, the Contractor shall demilitarize, mutilate, or destroy contractor inventory, in accordance with the terms and conditions of the contract and consistent with Defense Demilitarization Manual, DoD Manual (DoDM) 4160.28-M, edition in effect as of the date of this contract. If the property is available for purchase, the plant clearance officer may authorize the purchaser to demilitarize, mutilate, or destroy as a condition of sale provided the property is not inherently dangerous to public health and safety.

(g) *Classified Contractor inventory.* The Contractor shall dispose of classified contractor inventory in accordance with applicable security guides and regulations or as directed by the Contracting Officer.

(h) *Inherently dangerous Contractor inventory.* Contractor inventory that is dangerous to public health or safety shall not be disposed of unless rendered innocuous or until adequate safeguards are provided.

(i) Contractor inventory located in foreign countries. Consistent with contract terms and conditions, property disposition shall be in accordance with foreign and U.S. laws and regulations, including laws and regulations involving export controls, host nation requirements, final governing standards, and government-to-government agreements. The Contractor's responsibility to comply with all applicable laws and regulations regarding export-controlled items exists independent of, and is not established or limited by, the information provided by this clause.

(j) *Disposal of scrap.*

(1) Contractor scrap procedures.

(i) The Contractor shall include, within its property management procedure, a process for the accountability and management of Government-owned scrap. The process shall, at a minimum, provide for the effective and efficient disposition

of scrap, including sales to scrap dealers, so as to minimize costs, maximize sales proceeds, and contain the necessary internal controls for mitigating the improper release of non-scrap property.

(ii) The Contractor may commingle Government and contractor-owned scrap and provide routine disposal of scrap, with plant clearance officer concurrence, when determined to be effective and efficient.

(2) Scrap warranty. The plant clearance officer may require the Contractor to secure from scrap buyers a DD Form 1639, Scrap Warranty.

(k) *Sale of surplus Contractor inventory.*

(1) Sales procedures.

(i) The Contractor shall conduct sales of contractor inventory (both useable property and scrap) in accordance with the requirements of this contract and plant clearance officer direction. The Contractor shall include in its invitation for bids the sales terms and conditions provided by the plant clearance officer.

(ii) The Contractor may conduct internet-based sales, to include use of a third party.

(iii) If the Contractor wishes to bid on the sale, the Contractor or its employees shall submit bids to the plant clearance officer prior to soliciting bids from other prospective bidders.

(iv) The Contractor shall solicit bids to obtain adequate competition. Negotiated sales are subject to obtaining such competition as is feasible under the circumstances of the negotiated sale.

(v) The Contractor shall solicit bids at least 15 calendar days before bid opening to allow adequate opportunity to inspect the property and prepare bids.

(vi) For large sales, the Contractor may use summary lists of items offered as bid sheets with detailed descriptions attached.

(vii) In addition to providing notice of the proposed sale to prospective bidders, the Contractor may, when the results are expected to justify the additional expense, display a notice of the proposed sale in appropriate public places, e.g., publish a sales notice on the internet, in appropriate trade journals or magazines, and in local newspapers.

(viii) The plant clearance officer or designated Government representative will witness the bid opening. The Contractor shall submit the bid abstract in electronic format to the plant clearance officer within 2 days of bid opening. If the Contractor is unable to submit the bid abstract electronically, the Contractor may submit 2 copies of the abstract manually within 2 days of bid opening. The plant clearance officer will not approve award to any bidder who is an ineligible transferee.

(2) Required terms and conditions for sales contracts. The Contractor shall include the following terms and conditions in sales contracts:

(i) For sales contracts or other documents transferring title: "The Purchaser certifies that the property covered by this contract will be used in [insert name of country]. In the event of resale or export by the Purchaser of any of the property, the Purchaser agrees to obtain the appropriate U.S. and foreign export or re-export license approval."

(ii) For sales contracts that require demilitarization, mutilation, or destruction of property:

"The following items [insert list provided by plant clearance officer] require demilitarization, mutilation, or destruction by the Purchaser. Additional instructions are provided in accordance with Defense Demilitarization Manual, DoDM 4160.28-M, edition in effect as of the date of this sales contract. A Government representative will certify and verify demilitarization of items. Prepare demilitarization certificates in accordance with DoDM 4160.28, Volume 2, section 4.5, DEMIL Certificate (see figure 2, Example DEMIL Certificate)."

(iii) Removal and title transfer:

"Property requiring demilitarization shall not be removed, and title shall not pass to the Purchaser, until demilitarization has been accomplished and verified by a Government representative."

(iv) Assumption of cost incident to demilitarization:

"The Purchaser agrees to assume all costs incident to the demilitarization and to restore the working area to its present condition after removing the demilitarized property."

(v) Failure to demilitarize:

"If the Purchaser fails to demilitarize, mutilate, or destroy the property as specified in the sales contract, the Contractor may, upon giving 10 days written notice to the Purchaser—

(A) Repossess, demilitarize, and return the property to the Purchaser, in which case the Purchaser hereby agrees to pay to the Contractor, prior to the return of the property, all costs incurred by the Contractor in repossessing, demilitarizing, and returning the property;

(B) Repossess, demilitarize, and resell the property, and charge the defaulting Purchaser with all costs incurred by the Contractor. The Contractor shall deduct these costs from the purchase price and refund the balance of the purchase price,

if any, to the Purchaser. In the event the costs exceed the purchase price, the defaulting Purchaser hereby agrees to pay these costs to the Contractor; or

(C) Repossess and resell the property under similar terms and conditions, and charge the defaulting Purchaser with all costs incurred by the Contractor. The Contractor shall deduct these costs from the original purchase price and refund the balance of the purchase price, if any, to the defaulting Purchaser. Should the excess costs to the Contractor exceed the purchase price, the defaulting Purchaser hereby agrees to pay these costs to the Contractor.”

(l) *Restrictions on purchase or retention of Contractor inventory.* The Contractor may not knowingly sell the inventory to any person or that person's agent, employee, or household member if that person—

(1) Is a civilian employee of DoD or the U.S. Coast Guard;

(2) Is a member of the Armed Forces of the United States, including the U.S. Coast Guard; or

(3) Has any functional or supervisory responsibilities for or within DoD's property disposal, disposition, or plant clearance programs or for the disposal of contractor inventory.

(m) *Proceeds from sales of surplus property.* Unless otherwise provided in the contract, the proceeds of any sale, purchase, or retention shall be—

(1) Forwarded to the Contracting Officer;

(2) Credited to the Government as part of the settlement agreement pursuant to the termination of the contract;

(3) Credited to the price or cost of the contract; or

(4) Applied as otherwise directed by the Contracting Officer.

(End of clause)

252.246 RESERVED

252.246-7000 Reserved.

252.246-7001 Warranty of Data.

Basic. As prescribed in [246.710](#) (1) and (1)(i), use the following clause:

WARRANTY OF DATA—BASIC (MAR 2014)

(a) *Definition.* “Technical data” has the same meaning as given in the clause in this contract entitled Rights in Technical Data and Computer Software.

(b) *Warranty.* Notwithstanding inspection and acceptance by the Government of technical data furnished under this contract, and notwithstanding any provision of this contract concerning the conclusiveness of acceptance, the Contractor warrants that all technical data delivered under this contract will at the time of delivery conform with the specifications and all other requirements of this contract. The warranty period shall extend for three years after completion of the delivery of the line item of data (as identified in DD Form 1423, Contract Data Requirements List) of which the data forms a part; or any longer period specified in the contract.

(c) *Contractor Notification.* The Contractor agrees to notify the Contracting Officer in writing immediately of any breach of the above warranty which the Contractor discovers within the warranty period.

(d) *Remedies.* The following remedies shall apply to all breaches of the warranty, whether the Contractor notifies the Contracting Officer in accordance with paragraph (c) of this clause or if the Government notifies the Contractor of the breach in writing within the warranty period:

(1) Within a reasonable time after such notification, the Contracting Officer may—

(i) By written notice, direct the Contractor to correct or replace at the Contractor's expense the nonconforming technical data promptly; or

(ii) If the Contracting Officer determines that the Government no longer has a requirement for correction or replacement of the data, or that the data can be more reasonably corrected by the Government, inform the Contractor by written notice that the Government elects a price or fee adjustment instead of correction or replacement.

(2) If the Contractor refuses or fails to comply with a direction under paragraph (d)(1)(i) of this clause, the Contracting Officer may, within a reasonable time of the refusal or failure—

(i) By contract or otherwise, correct or replace the nonconforming technical data and charge the cost to the Contractor; or

- (ii) Elect a price or fee adjustment instead of correction or replacement.
- (3) The remedies in this clause represent the only way to enforce the Government's rights under this clause.
- (e) The provisions of this clause apply anew to that portion of any corrected or replaced technical data furnished to the Government under paragraph (d)(1)(i) of this clause.

(End of clause)

Alternate I. As prescribed in [246.710](#) (1) and (1)(ii), use the following clause, which uses a different paragraph (d)(3) than the basic clause:

WARRANTY OF DATA—ALTERNATE I (MAR 2014)

(a) *Definition*. “Technical data” has the same meaning as given in the clause in this contract entitled “Rights in Technical Data and Computer Software.”

(b) *Warranty*. Notwithstanding inspection and acceptance by the Government of technical data furnished under this contract, and notwithstanding any provision of this contract concerning the conclusiveness of acceptance, the Contractor warrants that all technical data delivered under this contract will at the time of delivery conform with the specifications and all other requirements of this contract. The warranty period shall extend for three years after completion of the delivery of the line item of data (as identified in DD Form 1423, Contract Data Requirements List) of which the data forms a part; or any longer period specified in the contract.

(c) *Contractor Notification*. The Contractor agrees to notify the Contracting Officer in writing immediately of any breach of the above warranty which the Contractor discovers within the warranty period.

(d) *Remedies*. The following remedies shall apply to all breaches of the warranty, whether the Contractor notifies the Contracting Officer in accordance with paragraph (c) of this clause or if the Government notifies the Contractor of the breach in writing within the warranty period:

(1) Within a reasonable time after such notification, the Contracting Officer may—

(i) By written notice, direct the Contractor to correct or replace at the Contractor's expense the nonconforming technical data promptly; or

(ii) If the Contracting Officer determines that the Government no longer has a requirement for correction or replacement of the data, or that the data can be more reasonably corrected by the Government, inform the Contractor by written notice that the Government elects a price or fee adjustment instead of correction or replacement.

(2) If the Contractor refuses or fails to comply with a direction under paragraph (d)(1)(i) of this clause, the Contracting Officer may, within a reasonable time of the refusal or failure—

(i) By contract or otherwise, correct or replace the nonconforming technical data and charge the cost to the Contractor; or

(ii) Elect a price or fee adjustment instead of correction or replacement.

(3) In addition to the remedies under paragraphs (d)(1) and (2) of this clause, the Contractor shall be liable to the Government for all damages to the Government as a result of the breach of warranty.

(i) The additional liability under paragraph (d)(3) of this clause shall not exceed 75 percent of the target profit.

(ii) If the breach of the warranty is with respect to the data supplied by an equipment subcontractor, the limit of the Contractor's liability shall be—

(A) Ten percent of the total subcontract price in a firm-fixed-price subcontract;

(B) Seventy-five percent of the total subcontract fee in a cost-plus-fixed-fee or cost-plus-award-fee subcontract;

or

(C) Seventy-five percent of the total subcontract target profit or fee in a fixed-price-incentive or cost-plus-incentive subcontract.

(iii) Damages due the Government under the provisions of this warranty are not an allowable cost.

(iv) The additional liability in paragraph (d)(3) of this clause shall not apply—

(A) With respect to the requirements for product drawings and associated lists, special inspection equipment (SIE) drawings and associated lists, special tooling drawings and associated lists, SIE operating instructions, SIE descriptive documentation, and SIE calibration procedures under MIL-T-31000, General Specification for Technical Data Packages, Amendment 1, or MIL-T-47500, General Specification for Technical Data Packages, Supp 1, or drawings and associated lists under level 2 or level 3 of MIL-D-1000A, Engineering and Associated Data Drawings, or DoD-D-1000B, Engineering

and Associated Lists Drawings (Inactive for New Design) Amendment 4, Notice 1; or drawings and associated lists under category E or I of MIL-D-1000, Engineering and Associated Lists Drawings, provided that the data furnished by the Contractor was current, accurate at time of submission, and did not involve a significant omission of data necessary to comply with the requirements; or

(B) To defects the Contractor discovers and gives written notice to the Government before the Government discovers the error.

(e) The provisions of this clause apply anew to that portion of any corrected or replaced technical data furnished to the Government under paragraph (d)(1)(i) of this clause.

(End of clause)

Alternate II. As prescribed in [246.710](#) (1) and (1)(iii), use the following clause, which uses a different paragraph (d)(3) than the basic clause:

WARRANTY OF DATA—ALTERNATE II (MAR 2014)

(a) *Definition.* “Technical data” has the same meaning as given in the clause in this contract entitled “Rights in Technical Data and Computer Software.”

(b) *Warranty.* Notwithstanding inspection and acceptance by the Government of technical data furnished under this contract, and notwithstanding any provision of this contract concerning the conclusiveness of acceptance, the Contractor warrants that all technical data delivered under this contract will at the time of delivery conform with the specifications and all other requirements of this contract. The warranty period shall extend for three years after completion of the delivery of the line item of data (as identified in DD Form 1423, Contract Data Requirements List) of which the data forms a part; or any longer period specified in the contract.

(c) *Contractor Notification.* The Contractor agrees to notify the Contracting Officer in writing immediately of any breach of the above warranty which the Contractor discovers within the warranty period.

(d) *Remedies.* The following remedies shall apply to all breaches of the warranty, whether the Contractor notifies the Contracting Officer in accordance with paragraph (c) of this clause or if the Government notifies the Contractor of the breach in writing within the warranty period:

(1) Within a reasonable time after such notification, the Contracting Officer may—

(i) By written notice, direct the Contractor to correct or replace at the Contractor's expense the nonconforming technical data promptly; or

(ii) If the Contracting Officer determines that the Government no longer has a requirement for correction or replacement of the data, or that the data can be more reasonably corrected by the Government, inform the Contractor by written notice that the Government elects a price or fee adjustment instead of correction or replacement.

(2) If the Contractor refuses or fails to comply with a direction under paragraph (d)(1)(i) of this clause, the Contracting Officer may, within a reasonable time of the refusal or failure—

(i) By contract or otherwise, correct or replace the nonconforming technical data and charge the cost to the Contractor; or

(ii) Elect a price or fee adjustment instead of correction or replacement.

(3) In addition to the remedies under paragraphs (d)(1) and (2) of this clause, the Contractor shall be liable to the Government for all damages to the Government as a result of the breach of the warranty.

(i) The additional liability under paragraph (d)(3) of this clause shall not exceed ten percent of the total contract price.

(ii) If the breach of the warranty is with respect to the data supplied by an equipment subcontractor, the limit of the Contractor's liability shall be—

(A) Ten percent of the total subcontract price in a firm-fixed-price subcontract;

(B) Seventy-five percent of the total subcontract fee in a cost-plus-fixed-fee or cost-plus-award-fee subcontract;

or

(C) Seventy-five percent of the total subcontract target profit or fee in a fixed-price-incentive or cost-plus-incentive subcontract.

(iii) The additional liability specified in paragraph (d)(3) of this clause shall not apply—

(A) With respect to the requirements for product drawings and associated lists, special inspection equipment (SIE) drawings and associated lists, special tooling drawings and associated lists, SIE operating instructions, SIE descriptive documentation, and SIE calibration procedures under MIL-T-31000, General Specification for Technical Data Packages, Amendment 1, or MIL-T-47500, General Specification for Technical Data Packages, Supp 1, or drawings and associated lists under level 2 or level 3 of MIL-D-1000A, Engineering and Associated Data Drawings, or DoD-D-1000B, Engineering and Associated Lists Drawings (Inactive for New Design) Amendment 4, Notice 1; or drawings and associated lists under category E or I of MIL-D-1000, Engineering and Associated Lists Drawings, provided that the data furnished by the Contractor was current, accurate at time of submission, and did not involve a significant omission of data necessary to comply with the requirements; or

(B) To defects the Contractor discovers and gives written notice to the Government before the Government discovers the error.

(e) The provisions of this clause apply anew to that portion of any corrected or replaced technical data furnished to the Government under paragraph (d)(1)(i) of this clause.

(End of clause)

252.246-7002 Warranty of Construction (Germany).

As prescribed in [246.710](#) (2), use the following clause:

WARRANTY OF CONSTRUCTION (GERMANY) (JUN 1997)

(a) In addition to any other representations in this contract, the Contractor warrants, except as provided in paragraph (j) of this clause, that the work performed under this contract conforms to the contract requirements and is free of any defect of equipment, material, or design furnished or workmanship performed by the Contractor or any subcontractor or supplier at any tier.

(b) This warranty shall continue for the period(s) specified in Section 13, VOB, Part B, commencing from the date of final acceptance of the work under this contract. If the Government takes possession of any part of the work before final acceptance, this warranty shall continue for the period(s) specified in Section 13, VOB, Part B, from the date the Government takes possession.

(c) The Contractor shall remedy, at the Contractor's expense, any failure to conform or any defect. In addition, the Contractor shall remedy, at the Contractor's expense, any damage to Government-owned or -controlled real or personal property when that damage is the result of—

(1) The Contractor's failure to conform to contract requirements; or

(2) Any defect of equipment, material, or design furnished or workmanship performed.

(d) The Contractor shall restore any work damaged in fulfilling the terms and conditions of this clause.

(e) The Contracting Officer shall notify the Contractor, in writing, within a reasonable period of time after the discovery of any failure, defect, or damage.

(f) If the Contractor fails to remedy any failure, defect, or damage within a reasonable period of time after receipt of notice, the Government shall have the right to replace, repair, or otherwise remedy the failure, defect, or damage at the Contractor's expense.

(g) With respect to all warranties, express or implied, from subcontractors, manufacturers, or suppliers for work performed and materials furnished under this contract, the Contractor shall—

(1) Obtain all warranties that would be given in normal commercial practice;

(2) Require all warranties to be executed in writing, for the benefit of the Government, if directed by the Contracting Officer; and

(3) Enforce all warranties for the benefit of the Government as directed by the Contracting Officer.

(h) In the event the Contractor's warranty under paragraph (b) of this clause has expired, the Government may bring suit at its expense to enforce a subcontractor's, manufacturer's, or supplier's warranty.

(i) Unless a defect is caused by the Contractor's negligence, or the negligence of a subcontractor or supplier at any tier, the Contractor shall not be liable for the repair of any defects of material or design furnished by the Government or for the repair of any damage resulting from any defect in Government-furnished material or design.

(j) This warranty shall not limit the Government's right under the Inspection clause of this contract, with respect to latent defects, gross mistakes, or fraud.

(End of clause)

252.246-7003 Notification of Potential Safety Issues.

As prescribed in [246.370](#) (a), use the following clause:

NOTIFICATION OF POTENTIAL SAFETY ISSUES (JAN 2023)

(a) *Definitions.* As used in this clause—

“Credible information” means information that, considering its source and the surrounding circumstances, supports a reasonable belief that an event has occurred or will occur.

“Critical safety item” means a part, subassembly, assembly, subsystem, installation equipment, or support equipment for a system that contains a characteristic, any failure, malfunction, or absence of which could have a safety impact.

“Safety impact” means the occurrence of death, permanent total disability, permanent partial disability, or injury or occupational illness requiring hospitalization; loss of a weapon system; or property damage exceeding \$1,000,000.

“Subcontractor” means any supplier, distributor, vendor, or firm that furnishes supplies or services to or for the Contractor or another subcontractor under this contract.

(b) The Contractor shall provide notification, in accordance with paragraph (c) of this clause, of—

(1) All nonconformances for parts identified as critical safety items acquired by the Government under this contract; and

(2) All nonconformances or deficiencies that may result in a safety impact for systems, or subsystems, assemblies, subassemblies, or parts integral to a system, acquired by or serviced for the Government under this contract.

(c) The Contractor—

(1) Shall notify the Administrative Contracting Officer (ACO) and the Procuring Contracting Officer (PCO) as soon as practicable, but not later than 72 hours, after discovering or acquiring credible information concerning nonconformances and deficiencies described in paragraph (b) of this clause; and

(2) Shall provide a written notification to the ACO and the PCO within 5 working days that includes—

- (i) A summary of the defect or nonconformance;
- (ii) A chronology of pertinent events;
- (iii) The identification of potentially affected items to the extent known at the time of notification;
- (iv) A point of contact to coordinate problem analysis and resolution; and
- (v) Any other relevant information.

(d) The Contractor—

(1) Is responsible for the notification of potential safety issues occurring with regard to an item furnished by any subcontractor; and

(2) Shall facilitate direct communication between the Government and the subcontractor as necessary.

(e) Notification of safety issues under this clause shall be considered neither an admission of responsibility nor a release of liability for the defect or its consequences. This clause does not affect any right of the Government or the Contractor established elsewhere in this contract.

(f) *Subcontracts.* (1) The Contractor shall include the substance of this clause, including this paragraph (f), in subcontracts for—

- (i) Parts identified as critical safety items;
- (ii) Systems and subsystems, assemblies, and subassemblies integral to a system; or
- (iii) Repair, maintenance, logistics support, or overhaul services for systems and subsystems, assemblies, subassemblies, and parts integral to a system.

(2) For those subcontracts, including subcontracts for commercial products or commercial services, described in paragraph (f)(1) of this clause, the Contractor shall require the subcontractor to provide the notification required by paragraph (c) of this clause to—

- (i) The Contractor or higher-tier subcontractor; and

(ii) The ACO and the PCO, if the subcontractor is aware of the ACO and the PCO for the contract.

(End of clause)

252.246-7004 Safety of Facilities, Infrastructure, and Equipment for Military Operations.

As prescribed in [246.270-4](#), use the following clause:

SAFETY OF FACILITIES, INFRASTRUCTURE, AND EQUIPMENT FOR MILITARY OPERATIONS (OCT 2010)

(a) *Definition.* “Discipline Working Group,” as used in this clause, means representatives from the DoD Components, as defined in MIL-STD-3007F, who are responsible for the unification and maintenance of the Unified Facilities Criteria (UFC) documents for a particular discipline area.

(b) The Contractor shall ensure, consistent with the requirements of the applicable inspection clause in this contract, that the facilities, infrastructure, and equipment acquired, constructed, installed, repaired, maintained, or operated under this contract comply with Unified Facilities Criteria (UFC) 1-200-01 for—

- (1) Fire protection;
- (2) Structural integrity;
- (3) Electrical systems;
- (4) Plumbing;
- (5) Water treatment;
- (6) Waste disposal; and
- (7) Telecommunications networks.

(c) The Contractor may apply a standard equivalent to or more stringent than UFC 1-200-01 upon a written determination of the acceptability of the standard by the Contracting Officer with the concurrence of the relevant Discipline Working Group.

(End of clause)

252.246-7005 Notice of Warranty Tracking of Serialized Items.

As prescribed in [246.710](#) (3)(i), use the following provision:

NOTICE OF WARRANTY TRACKING OF SERIALIZED ITEMS (MAR 2016)

(a) *Definitions.* “Duration,” “enterprise,” “enterprise identifier,” “fixed expiration,” “item type,” “serialized item,” “starting event,” “unique item identifier,” “usage,” “warranty administrator,” “warranty guarantor,” and “warranty tracking” are defined in the clause at [252.246-7006](#), Warranty Tracking of Serialized Items.

(b) *Reporting of data for warranty tracking and administration.*

(1) The Offeror shall provide the information required by the attachment entitled “Warranty Tracking Information” on each contract line item number, subline item number, or exhibit line item number for warranted items with its offer. Information required in the warranty attachment for each warranted item shall include such information as duration, fixed expiration, item type, starting event, usage, warranty administrator enterprise identifier, and warranty guarantor enterprise identifier.

(2) The successful offeror will be required to provide the following information no later than when the warranted items are presented for receipt and/or acceptance, in accordance with the clause at [252.246-7006](#) —

(A) The unique item identifier for each warranted item required by the attachment entitled “Warranty Tracking Information;” and

(B) All information required by the attachment entitled “Source of Repair Instructions” for each warranted item.

(3) For additional information on warranty attachments, see the “Warranty and Source of Repair” training and “Warranty and Source of Repair Tracking User Guide” accessible on the Product Data Reporting and Evaluation Program (PDREP) website at https://www.pdrep.csd.disa.mil/pdrep_files/other/wsr.htm.

(End of provision)

252.246-7006 Warranty Tracking of Serialized Items.

As prescribed in [246.710](#) (3)(ii), use the following clause:

WARRANTY TRACKING OF SERIALIZED ITEMS (MAR 2016)

(a) *Definitions.* As used in this clause—

“Duration” means the warranty period. This period may be a stated period of time, amount of usage, or the occurrence of a specified event, after formal acceptance of delivery, for the Government to assert a contractual right for the correction of defects.

“Enterprise” means the entity (e.g., a manufacturer or vendor) responsible for granting the warranty and/or assigning unique item identifiers to serialized warranty items.

“Enterprise identifier” means a code that is uniquely assigned to an enterprise by an issuing agency.

“First use” means the initial or first-time use of a product by the Government.

“Fixed expiration” means the date the warranty expires and the Contractor’s obligation to provide for a remedy or corrective action ends.

“Installation” means the date a unit is inserted into a higher level assembly in order to make that assembly operational.

“Issuing agency” means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for International Standards Organization/International Electrotechnical Commission, located at http://www.aimglobal.org/?Reg_Authority15459.

“Item type” means a coded representation of the description of the item being warranted, consisting of the codes C - component procured separate from end item, S - subassembly procured separate from end item or subassembly, E - embedded in component, subassembly or end item parent, and P - parent end item.

“Starting event” means the event or action that initiates the warranty, such as first use or upon installation.

“Serialized item” means each item produced is assigned a serial number that is unique among all the collective tangible items produced by the enterprise, or each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment within the enterprise identifier. The enterprise is responsible for ensuring unique serialization within the enterprise identifier or within the part, lot, or batch numbers, and that serial numbers, once assigned, are never used again.

“Unique item identifier” means a set of data elements marked on an item that is globally unique and unambiguous.

“Usage” means the quantity and an associated unit of measure that specifies the amount of a characteristic subject to the contractor’s obligation to provide for remedy or corrective action, such as a number of miles, hours, or cycles.

“Warranty administrator” means the organization specified by the guarantor for managing the warranty.

“Warranty guarantor” means the enterprise that provides the warranty under the terms and conditions of a contract.

“Warranty repair source” means the organization specified by a warranty guarantor for receiving and managing warranty items that are returned by a customer.

“Warranty tracking” means the ability to trace a warranted item from delivery through completion of the effectivity of the warranty.

(b) *Reporting of data for warranty tracking and administration.*

(1) The Contractor shall provide the information required by the attachment entitled “Warranty Tracking Information” on each contract line item number, subline item number, or exhibit line item number for warranted items no later than the time of award. Information required in the warranty attachment shall include such information as duration, fixed expiration, item type, starting event, usage, warranty administrator enterprise identifier, and warranty guarantor enterprise identifier.

(2) The Contractor shall provide the following information no later than when the warranted items are presented for receipt and/or acceptance—

(A) The unique item identifier for each warranted item required by the attachment entitled “Warranty Tracking Information;” and

(B) The warranty repair source information and instructions for each warranted item required by the attachment entitled “Source of Repair Instructions.”

(3) The Contractor shall submit the data for warranty tracking to the Contracting Officer with a copy to the requiring activity and the Contracting Officer Representative.

(4) For additional information on warranty attachments, see the “Warranty and Source of Repair” training and “Warranty and Source of Repair Tracking User Guide” accessible on the Product Data Reporting and Evaluation Program (PDREP) website at https://www.pdrep.csd.disa.mil/pdrep_files/other/wsr.htm.

(c) *Reservation of rights.* The terms of this clause shall not be construed to limit the Government's rights or remedies under any other contract clause.

(End of clause)

252.246-7007 Contractor Counterfeit Electronic Part Detection and Avoidance System.

As prescribed in [246.870-3](#) (a), use the following clause:

CONTRACTOR COUNTERFEIT ELECTRONIC PART DETECTION AND AVOIDANCE SYSTEM (JAN 2023)

The following paragraphs (a) through (e) of this clause do not apply unless the Contractor is subject to the Cost Accounting Standards under 41 U.S.C. chapter 15, as implemented in regulations found at 48 CFR 9903.201-1.

(a) *Definitions.* As used in this clause—

“Authorized aftermarket manufacturer” means an organization that fabricates a part under a contract with, or with the express written authority of, the original component manufacturer based on the original component manufacturer's designs, formulas, and/or specifications.

“Authorized supplier” means a supplier, distributor, or an aftermarket manufacturer with a contractual arrangement with, or the express written authority of, the original manufacturer or current design activity to buy, stock, repackage, sell, or distribute the part.

“Contract manufacturer” means a company that produces goods under contract for another company under the label or brand name of that company.

“Contractor-approved supplier” means a supplier that does not have a contractual agreement with the original component manufacturer for a transaction, but has been identified as trustworthy by a contractor or subcontractor.

“Counterfeit electronic part” means an unlawful or unauthorized reproduction, substitution, or alteration that has been knowingly mismarked, misidentified, or otherwise misrepresented to be an authentic, unmodified electronic part from the original manufacturer, or a source with the express written authority of the original manufacturer or current design activity, including an authorized aftermarket manufacturer. Unlawful or unauthorized substitution includes used electronic parts represented as new, or the false identification of grade, serial number, lot number, date code, or performance characteristics.

“Electronic part” means an integrated circuit, a discrete electronic component (including, but not limited to, a transistor, capacitor, resistor, or diode), or a circuit assembly (section 818(f)(2) of Pub. L. 112-81).

“Obsolete electronic part” means an electronic part that is no longer available from the original manufacturer or an authorized aftermarket manufacturer.

“Original component manufacturer” means an organization that designs and/or engineers a part and is entitled to any intellectual property rights to that part.

“Original equipment manufacturer” means a company that manufactures products that it has designed from purchased components and sells those products under the company's brand name.

“Original manufacturer” means the original component manufacturer, the original equipment manufacturer, or the contract manufacturer.

“Suspect counterfeit electronic part” means an electronic part for which credible evidence (including, but not limited to, visual inspection or testing) provides reasonable doubt that the electronic part is authentic.

(b) *Acceptable counterfeit electronic part detection and avoidance system.* The Contractor shall establish and maintain an acceptable counterfeit electronic part detection and avoidance system. Failure to maintain an acceptable counterfeit electronic part detection and avoidance system, as defined in this clause, may result in disapproval of the purchasing system by the Contracting Officer and/or withholding of payments and affect the allowability of costs of counterfeit electronic parts or suspect counterfeit electronic parts and the cost of rework or corrective action that may be required to remedy the use or inclusion of such parts (see DFARS [231.205-71](#)).

(c) *System criteria.* A counterfeit electronic part detection and avoidance system shall include risk-based policies and procedures that address, at a minimum, the following areas:

(1) The training of personnel.

(2) The inspection and testing of electronic parts, including criteria for acceptance and rejection. Tests and inspections shall be performed in accordance with accepted Government- and industry-recognized techniques. Selection of tests and inspections shall be based on minimizing risk to the Government. Determination of risk shall be based on the assessed probability of receiving a counterfeit electronic part; the probability that the inspection or test selected will detect a

counterfeit electronic part; and the potential negative consequences of a counterfeit electronic part being installed (e.g., human safety, mission success) where such consequences are made known to the Contractor.

(3) Processes to abolish counterfeit parts proliferation.

(4) Risk-based processes that enable tracking of electronic parts from the original manufacturer to product acceptance by the Government, whether the electronic parts are supplied as discrete electronic parts or are contained in assemblies, in accordance with paragraph (c) of the clause at [252.246-7008](#), Sources of Electronic Parts (also see paragraph (c)(2) of this clause).

(5) Use of suppliers in accordance with the clause at [252.246-7008](#).

(6) Reporting and quarantining of counterfeit electronic parts and suspect counterfeit electronic parts. Reporting is required to the Contracting Officer and to the Government-Industry Data Exchange Program (GIDEP) when the Contractor becomes aware of, or has reason to suspect that, any electronic part or end item, component, part, or assembly containing electronic parts purchased by the DoD, or purchased by a Contractor for delivery to, or on behalf of, the DoD, contains counterfeit electronic parts or suspect counterfeit electronic parts. Counterfeit electronic parts and suspect counterfeit electronic parts shall not be returned to the seller or otherwise returned to the supply chain until such time that the parts are determined to be authentic.

(7) Methodologies to identify suspect counterfeit parts and to rapidly determine if a suspect counterfeit part is, in fact, counterfeit.

(8) Design, operation, and maintenance of systems to detect and avoid counterfeit electronic parts and suspect counterfeit electronic parts. The Contractor may elect to use current Government- or industry-recognized standards to meet this requirement.

(9) Flow down of counterfeit detection and avoidance requirements, including applicable system criteria provided herein, to subcontractors at all levels in the supply chain that are responsible for buying or selling electronic parts or assemblies containing electronic parts, or for performing authentication testing.

(10) Process for keeping continually informed of current counterfeiting information and trends, including detection and avoidance techniques contained in appropriate industry standards, and using such information and techniques for continuously upgrading internal processes.

(11) Process for screening GIDEP reports and other credible sources of counterfeiting information to avoid the purchase or use of counterfeit electronic parts.

(12) Control of obsolete electronic parts in order to maximize the availability and use of authentic, originally designed, and qualified electronic parts throughout the product's life cycle.

(d) Government review and evaluation of the Contractor's policies and procedures will be accomplished as part of the evaluation of the Contractor's purchasing system in accordance with [252.244-7001](#), Contractor Purchasing System Administration—Basic, or Contractor Purchasing System Administration—Alternate I.

(e) *Subcontracts*. The Contractor shall include the substance of this clause, excluding the introductory text and including only paragraphs (a) through (e), in subcontracts, including subcontracts for commercial products, for electronic parts or assemblies containing electronic parts.

(End of clause)

252.246-7008 Sources of Electronic Parts.

As prescribed in [246.870-3](#) (b), use the following clause:

SOURCES OF ELECTRONIC PARTS (JAN 2023)

(a) *Definitions*. As used in this clause—

“Authorized aftermarket manufacturer” means an organization that fabricates a part under a contract with, or with the express written authority of, the original component manufacturer based on the original component manufacturer's designs, formulas, and/or specifications.

“Authorized supplier” means a supplier, distributor, or an aftermarket manufacturer with a contractual arrangement with, or the express written authority of, the original manufacturer or current design activity to buy, stock, repackage, sell, or distribute the part.

“Contract manufacturer” means a company that produces goods under contract for another company under the label or brand name of that company.

“Contractor-approved supplier” means a supplier that does not have a contractual agreement with the original component manufacturer for a transaction, but has been identified as trustworthy by a contractor or subcontractor.

“Electronic part” means an integrated circuit, a discrete electronic component (including, but not limited to, a transistor, capacitor, resistor, or diode), or a circuit assembly (section 818(f)(2) of Pub. L. 112-81).

“Original component manufacturer” means an organization that designs and/or engineers a part and is entitled to any intellectual property rights to that part.

“Original equipment manufacturer” means a company that manufactures products that it has designed from purchased components and sells those products under the company's brand name.

“Original manufacturer” means the original component manufacturer, the original equipment manufacturer, or the contract manufacturer.

(b) *Selecting suppliers.* In accordance with section 818(c)(3) of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112-81), as amended by section 817 of the National Defense Authorization Act for Fiscal Year 2015 (Pub. L. 113-291) and section 885 of the National Defense Authorization Act for Fiscal Year 2016 (Pub. L. 114-92), the Contractor shall—

(1) First obtain electronic parts that are in production by the original manufacturer or an authorized aftermarket manufacturer or currently available in stock from—

(i) The original manufacturers of the parts;

(ii) Their authorized suppliers; or

(iii) Suppliers that obtain such parts exclusively from the original manufacturers of the parts or their authorized suppliers;

(2) If electronic parts are not available as provided in paragraph (b)(1) of this clause, obtain electronic parts that are not in production by the original manufacturer or an authorized aftermarket manufacturer, and that are not currently available in stock from a source listed in paragraph (b)(1) of this clause, from suppliers identified by the Contractor as contractor-approved suppliers, provided that—

(i) For identifying and approving such contractor-approved suppliers, the Contractor uses established counterfeit prevention industry standards and processes (including inspection, testing, and authentication), such as the DoD-adopted standards at <https://assist.dla.mil>;

(ii) The Contractor assumes responsibility for the authenticity of parts provided by such contractor-approved suppliers; and

(iii) The Contractor's selection of such contractor-approved suppliers is subject to review, audit, and approval by the Government, generally in conjunction with a contractor purchasing system review or other surveillance of purchasing practices by the contract administration office, or if the Government obtains credible evidence that a contractor-approved supplier has provided counterfeit parts. The Contractor may proceed with the acquisition of electronic parts from a contractor-approved supplier unless otherwise notified by DoD; or

(3)(i) Take the actions in paragraph (b)(3)(ii) of this clause if the Contractor—

(A) Obtains an electronic part from—

(1) A source other than any of the sources identified in paragraph (b)(1) or (b)(2) of this clause, due to nonavailability from such sources; or

(2) A subcontractor (other than the original manufacturer) that refuses to accept flowdown of this clause; or

(B) Cannot confirm that an electronic part is new or previously unused and that it has not been comingled in supplier new production or stock with used, refurbished, reclaimed, or returned parts.

(ii) If the contractor obtains an electronic part or cannot confirm an electronic part pursuant to paragraph (b)(3)(i) of this clause—

(A) Promptly notify the Contracting Officer in writing. If such notification is required for an electronic part to be used in a designated lot of assemblies to be acquired under a single contract, the Contractor may submit one notification for the lot, providing identification of the assemblies containing the parts (e.g., serial numbers);

(B) Be responsible for inspection, testing, and authentication, in accordance with existing applicable industry standards; and

(C) Make documentation of inspection, testing, and authentication of such electronic parts available to the Government upon request.

(c) *Traceability.* If the Contractor is not the original manufacturer of, or authorized supplier for, an electronic part, the Contractor shall—

(1) Have risk-based processes (taking into consideration the consequences of failure of an electronic part) that enable tracking of electronic parts from the original manufacturer to product acceptance by the Government, whether the electronic part is supplied as a discrete electronic part or is contained in an assembly;

(2) If the Contractor cannot establish this traceability from the original manufacturer for a specific electronic part, be responsible for inspection, testing, and authentication, in accordance with existing applicable industry standards; and

(3)(i) Maintain documentation of traceability (paragraph (c)(1) of this clause) or the inspection, testing, and authentication required when traceability cannot be established (paragraph (c)(2) of this clause) in accordance with FAR subpart 4.7; and

(ii) Make such documentation available to the Government upon request.

(d) *Government sources.* Contractors and subcontractors are still required to comply with the requirements of paragraphs (b) and (c) of this clause, as applicable, if—

(1) Authorized to purchase electronic parts from the Federal Supply Schedule;

(2) Purchasing electronic parts from suppliers accredited by the Defense Microelectronics Activity; or

(3) Requisitioning electronic parts from Government inventory/stock under the authority of [252.251-7000](#), Ordering from Government Supply Sources.

(i) The cost of any required inspection, testing, and authentication of such parts may be charged as a direct cost.

(ii) The Government is responsible for the authenticity of the requisitioned parts. If any such part is subsequently found to be counterfeit or suspect counterfeit, the Government will—

(A) Promptly replace such part at no charge; and

(B) Consider an adjustment in the contract schedule to the extent that replacement of the counterfeit or suspect counterfeit electronic parts caused a delay in performance.

(e) *Subcontracts.* The Contractor shall include the substance of this clause, including this paragraph (e), in subcontracts, including subcontracts for commercial products, that are for electronic parts or assemblies containing electronic parts, unless the subcontractor is the original manufacturer.

(End of clause)

252.247 RESERVED

252.247-7000 Hardship Conditions.

As prescribed in [247.270-4](#) (a), use the following clause:

HARDSHIP CONDITIONS (AUG 2000)

(a) If the Contractor finds unusual ship, dock, or cargo conditions associated with loading or unloading a particular cargo, that will work a hardship on the Contractor if loaded or unloaded at the basic commodity rates, the Contractor shall—

(1) Notify the Contracting Officer before performing the work, if feasible, but no later than the vessel sailing time; and

(2) Submit any associated request for price adjustment to the Contracting Officer within 10 working days of the vessel sailing time.

(b) Unusual conditions include, but are not limited to, inaccessibility of place of stowage to the ship's cargo gear, side port operations, and small quantities of cargo in any one hatch.

(c) The Contracting Officer will investigate the conditions promptly after receiving the notice. If the Contracting Officer finds that the conditions are unusual and do materially affect the cost of loading or unloading, the Contracting Officer will authorize payment at the applicable man-hour rates set forth in the schedule of rates of this contract.

(End of clause)

252.247-7001 Reserved.

252.247-7002 Revision of Prices.

As prescribed in [247.270-4](#) (b), use the following clause:

REVISION OF PRICES (DEC 1991)

(a) *Definition.* “Wage adjustment,” as used in this clause, means a change in the wages, salaries, or other terms or conditions of employment which—

- (1) Substantially affects the cost of performing this contract;
- (2) Is generally applicable to the port where work under this contract is performed; and
- (3) Applies to operations by the Contractor on non-Government work as well as to work under this contract.

(b) *General.* The prices fixed in this contract are based on wages and working conditions established by collective bargaining agreements, and on other conditions in effect on the date of this contract. The Contracting Officer and the Contractor may agree to increase or decrease such prices in accordance with this clause.

(c) *Demand for negotiation.*

(1) At any time, subject to the limitations specified in this clause, either the Contracting Officer or the Contractor may deliver to the other a written demand that the parties negotiate to revise the prices under this contract.

(2) No such demand shall be made before 90 days after the date of this contract, and thereafter neither party shall make a demand having an effective date within 90 days of the effective date of any prior demand. However, this limitation does not apply to a wage adjustment during the 90 day period.

(3) Each demand shall specify a date (the same as or subsequent to the date of the delivery of the demand) as to when the revised prices shall be effective. This date is the effective date of the price revision.

(i) If the Contractor makes a demand under this clause, the demand shall briefly state the basis of the demand and include the statements and data referred to in paragraph (d) of this clause.

(ii) If the demand is made by the Contracting Officer, the Contractor shall furnish the statements and data within 30 days of the delivery of the demand.

(d) *Submission of data.* At the times specified in paragraphs (c)(3)(i) and (ii) of this clause, the Contractor shall submit—

(1) A new estimate and breakdown of the unit cost and the proposed prices for the services the Contractor will perform under this contract after the effective date of the price revision, itemized to be consistent with the original negotiations of the contract;

(2) An explanation of the difference between the original (or last preceding) estimate and the new estimate;

(3) Such relevant operating data, cost records, overhead absorption reports, and accounting statements as may be of assistance in determining the accuracy and reliability of the new estimate;

(4) A statement of the actual costs of performance under this contract to the extent that they are available at the time of the negotiation of the revision of prices under this clause; and

(5) Any other relevant data usually furnished in the case of negotiations of prices under a new contract. The Government may examine and audit the Contractor's accounts, records, and books as the Contracting Officer considers necessary.

(e) *Negotiations.*

(1) Upon the filing of the statements and data required by paragraph (d) of this clause, the Contractor and the Contracting Officer shall negotiate promptly in good faith to agree upon prices for services the Contractor will perform on and after the effective date of the price revision.

(2) If the prices in this contract were established by competitive negotiation, they shall not be revised upward unless justified by changes in conditions occurring after the contract was awarded.

(3) The agreement reached after each negotiation will be incorporated into the contract by supplemental agreement.

(f) *Disagreements.* If, within 30 days after the date on which statements and data are required pursuant to paragraph (c) of this clause, the Contracting Officer and the Contractor fail to agree to revised prices, the failure to agree shall be resolved in accordance with the Disputes clause of this contract. The prices fixed by the Contracting Officer will remain in effect for the balance of the contract, and the Contractor shall continue performance.

(g) *Retroactive changes in wages or working conditions.*

(1) In the event of a retroactive wage adjustment, the Contractor or the Contracting Officer may request an equitable adjustment in the prices in this contract.

(2) The Contractor shall request a price adjustment within 30 days of any retroactive wage adjustment. The Contractor shall support its request with—

(i) An estimate of the changes in cost resulting from the retroactive wage adjustment;

(ii) Complete information upon which the estimate is based; and

(iii) A certified copy of the collective bargaining agreement, arbitration award, or other document evidencing the retroactive wage adjustment.

(3) Subject to the limitation in paragraph (g)(2) of this clause as to the time of making a request, completion or termination of this contract shall not affect the Contractor's right under paragraph (g) of this clause.

(4) In case of disagreement concerning any question of fact, including whether any adjustment should be made, or the amount of such adjustment, the disagreement will be resolved in accordance with the Disputes clause of this contract.

(5) The Contractor shall notify the Contracting Officer in writing of any request by or on behalf of the employees of the Contractor which may result in a retroactive wage adjustment. The notice shall be given within 20 days after the request, or if the request occurs before contract execution, at the time of execution.

(End of clause)

252.247-7003 Pass-Through of Motor Carrier Fuel Surcharge Adjustment to the Cost Bearer.

As prescribed in [247.207](#), use the following clause:

PASS-THROUGH OF MOTOR CARRIER FUEL SURCHARGE ADJUSTMENT TO THE COST BEARER (JAN 2023)

(a) This clause implements section 884 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417).

(b) Unless an exception is authorized by the Contracting Officer, the Contractor shall pass through any motor carrier fuel-related surcharge adjustments to the person, corporation, or entity that directly bears the cost of fuel for shipment(s) transported under this contract.

(c) *Subcontracts*. The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for commercial products or commercial services, with motor carriers, brokers, or freight forwarders.

(End of clause)

252.247-7004 Reserved.

252.247-7005 Reserved.

252.247-7006 Reserved.

252.247-7007 Liability and Insurance.

As prescribed in [247.270-4](#) (c), use the following clause:

LIABILITY AND INSURANCE (DEC 1991)

(a) The Contractor shall be—

(1) Liable to the Government for loss or damage to property, real and personal, owned by the Government or for which the Government is liable;

(2) Responsible for, and hold the Government harmless from, loss of or damage to property not included in paragraph (a)(1); and

(3) Responsible for, and hold the Government harmless from, bodily injury and death of persons, resulting either in whole or in part from the negligence or fault of the Contractor, its officers, agents, or employees in the performance of work under this contract.

(b) For the purpose of this clause, all cargo loaded or unloaded under this contract is agreed to be property owned by the Government or property for which the Government is liable.

(1) The amount of the loss or damage as determined by the Contracting Officer will be withheld from payments otherwise due the Contractor.

(2) Determination of liability and responsibility by the Contracting Officer will constitute questions of fact within the meaning of the Disputes clause of this contract.

(c) The general liability and responsibility of the Contractor under this clause are subject only to the following specific limitations. The Contractor is not responsible to the Government for, and does not agree to hold the Government harmless from, loss or damage to property or bodily injury to or death of persons if—

(1) The unseaworthiness of the vessel, or failure or defect of the gear or equipment furnished by the Government, contributed jointly with the fault or negligence of the Contractor in causing such damage, injury, or death; and

(i) The Contractor, his officers, agents, and employees, by the exercise of due diligence, could not have discovered such unseaworthiness or defect of gear or equipment; or

(ii) Through the exercise of due diligence could not otherwise have avoided such damage, injury, or death.

(2) The damage, injury, or death resulted solely from an act or omission of the Government or its employees, or resulted solely from proper compliance by officers, agents, or employees of the Contractor with specific directions of the Contracting Officer.

(d) The Contractor shall at its own expense acquire and maintain insurance during the term of this contract, as follows—

(1) Standard workmen's compensation and employer's liability insurance and longshoremen's and harbor workers' compensation insurance, or such of these as may be proper under applicable state or Federal statutes.

(i) The Contractor may, with the prior approval of the Contracting Officer, be a self-insurer against the risk of this paragraph (d)(1).

(ii) This approval will be given upon receipt of satisfactory evidence that the Contractor has qualified as a self-insurer under applicable provision of law.

(2) Bodily injury liability insurance in an amount of not less than \$300,000 on account of any one occurrence.

(3) Property damage liability insurance (which shall include any and all property, whether or not in the care, custody, or control of the Contractor) in an amount of not less than \$300,000 for any one occurrence.

(e) Each policy shall provide, by appropriate endorsement or otherwise, that cancellation or material change in the policy shall not be effective until after a 30 day written notice is furnished the Contracting Officer.

(f) The Contractor shall furnish the Contracting Officer with satisfactory evidence of the insurance required in paragraph (d) before performance of any work under this contract.

(g) The Contractor shall, at its own cost and expense, defend any suits, demands, claims, or actions, in which the United States might be named as a co-defendant of the Contractor, resulting from the Contractor's performance of work under this contract. This requirement is without regard to whether such suit, demand, claim, or action was the result of the Contractor's negligence. The Government shall have the right to appear in such suit, participate in defense, and take such actions as may be necessary to protect the interest of the United States.

(h) It is expressly agreed that the provisions in paragraphs (d) through (g) of this clause shall not in any manner limit the liability or extend the liability of the Contractor as provided in paragraphs (a) through (c) of this clause.

(i) The Contractor shall—

(1) Equitably reimburse the Government if the Contractor is indemnified, reimbursed, or relieved of any loss or damage to Government property;

(2) Do nothing to prevent the Government's right to recover against third parties for any such loss or damage; and

(3) Furnish the Government, upon the request of the Contracting Officer, at the Government's expense, all reasonable assistance and cooperation in obtaining recovery, including the prosecution of suit and the execution of instruments of assignment in favor of the Government.

(End of clause)

252.247-7008 Reserved.

252.247-7009 Reserved.

252.247-7010 Reserved.

252.247-7011 Reserved.

252.247-7012 Reserved.

252.247-7013 Reserved.

252.247-7014 Demurrage.

As prescribed in [247.271-3](#) (c), use the following clause:

DEMURRAGE (DEC 1991)

The Contractor shall be liable for all demurrage, detention, or other charges as a result of its failure to load or unload trucks, freight cars, freight terminals, vessel piers, or warehouses within the free time allowed under applicable rules and tariffs.

(End of clause)

252.247-7015 Reserved.**252.247-7016 Contractor Liability for Loss or Damage.**

As prescribed in [247.271-3](#) (d), use the following clause:

CONTRACTOR LIABILITY FOR LOSS OR DAMAGE (DEC 1991)

(a) *Definitions.* As used in this clause—

“Article” means any shipping piece or package and its contents.

“Schedule” means the level of service for which specific types of traffic apply as described in DoD 4500.34-R, Personal Property Traffic Management Regulation.

(b) For shipments picked up under Schedule I, Outbound Services, or delivered under Schedule II, Inbound Services—

(1) If notified within one year after delivery that the owner has discovered loss or damage to the owner's property, the Contractor agrees to indemnify the Government for loss or damage to the property which arises from any cause while it is in the Contractor's possession. The Contractor's liability is—

(i) *Non-negligent damage.* For any cause, other than the Contractor's negligence, indemnification shall be at a rate not to exceed sixty cents per pound per article.

(ii) *Negligent damage.* When loss or damage is caused by the negligence of the Contractor, the liability is for the full cost of satisfactory repair or for the current replacement value of the article.

(2) The Contractor shall make prompt payment to the owner of the property for any loss or damage for which the Contractor is liable.

(3) In the absence of evidence or supporting documentation which places liability on a carrier or another contractor, the destination contractor shall be presumed to be liable for the loss or damage, if timely notified.

(c) For shipments picked up or delivered under Schedule III, Intra-City and Intra-Area—

(1) If notified of loss or damage within 75 days following delivery, the Contractor agrees to indemnify the Government for loss or damage to the owner's property.

(2) The Contractor's liability shall be for the full cost of satisfactory repair, or for the current replacement value of the article less depreciation, up to a maximum liability of \$1.25 per pound times the net weight of the shipment.

(3) The Contractor has full salvage rights to damaged items which are not repairable and for which the Government has received compensation at replacement value.

252.247-7023 Transportation of Supplies by Sea.

Basic. As prescribed in [247.574](#) (a) and (a)(1), use the following clause:

TRANSPORTATION OF SUPPLIES BY SEA—BASIC (OCT 2024)

(a) *Definitions.* As used in this clause—

"Foreign-flag vessel" means any vessel that is not a U.S.-flag vessel.

"Ocean transportation" means any water-borne transportation aboard a ship, vessel, boat, barge, ferry, or the like outside the internal waters of the United States as defined in [33 CFR 2.24](#).

"Subcontractor" means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract.

"Supplies" means supplies that are clearly identifiable for eventual use by or owned by DoD at the time of transportation by sea, or are otherwise transported by DoD, regardless of ownership or use by DoD. An item is clearly identifiable for eventual use by DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

"U.S.-flag vessel" means either a vessel belonging to the United States or a vessel of the United States as that term is defined in [46 U.S.C. 116](#).

(b) If the transportation of supplies by sea is anticipated under this contract, the Contractor shall—

(1) Notify the Contracting Officer and Maritime Administration (MARAD) at Cargo.Marad@dot.gov —

(i) Within 3 business days after contract award; or

(ii) Immediately prior to the shipment departure date necessary to meet delivery schedules, whichever is earlier; and

(2) Include in the notification—

(i) A statement of the Contractor's intent to transport supplies by sea;

(ii) The contract number; and

(iii) The task-order or delivery-order number, when applicable.

(c)(1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract.

(2) A subcontractor transporting supplies by sea under this contract shall use U.S.-flag vessels if—

(i) This contract is a construction contract; or

(ii) The supplies being transported are—

(A) Other than commercial products; or

(B) Commercial products that—

(1) The Contractor is reselling or distributing to the Government without adding value (generally, the Contractor does not add value to items that it subcontracts for f.o.b. destination shipment);

(2) Are shipped in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations; or

(3) Are commissary or exchange cargoes transported outside of the Defense Transportation System in accordance with 10 U.S.C. 2643.

(d) The Contractor and its subcontractors may request, via the Contracting Officer, a waiver of the requirement to use a U.S.-flag vessel, or identification of any available U.S.-flag vessels, if the Contractor or a subcontractor sufficiently explains that—

(1) U.S.-flag vessels are not available at a fair and reasonable rate for commercial vessels of the United States; or

(2) U.S.-flag vessels are otherwise not available.

(e) The Contractor must submit any request for use of foreign-flag vessels in writing to the Contracting Officer at least 45 days prior to the sailing date necessary to meet its delivery schedules. The Contracting Officer will process requests submitted after such date(s) as expeditiously as possible, however, if a DoD waiver is not approved prior to the shipper's sailing date, this will not of itself constitute a compensable delay under this or any other clause of this contract. Requests shall contain at a minimum—

(1) Type, weight, and cube of cargo;

(2) Required shipping date(s) and required delivery date(s);

(3) Special handling and discharge requirements;

(4) Loading and discharge points;

(5) Name of shipper and consignee;

(6) Prime contract number; and

(7) A documented description of current, diligent efforts made to secure U.S.-flag vessels, including points of contact (with names and telephone numbers) with at least two U.S.-flag carriers contacted. Copies of quotes will suffice for this purpose. Copies of telephone notes, emails, and other relevant communications will otherwise be considered for this purpose.

(f) The Contractor shall, within 30 days after each shipment covered by this clause, provide the Contracting Officer and MARAD at Cargo.Marad@dot.gov, Attention: Military Team, one copy of the rated on board vessel operating carrier's ocean bill of lading, which shall contain the following information:

- (1) Prime contract number;
- (2) Name of vessel;
- (3) Vessel flag of registry;
- (4) Date of loading;
- (5) Port of loading;
- (6) Port of final discharge;
- (7) Description of commodity;
- (8) Gross weight in pounds and cubic feet if available;
- (9) Total ocean freight in U.S. dollars; and
- (10) Name of the carrier.

(g) If this contract exceeds the simplified acquisition threshold, the Contractor shall provide with its final invoice under this contract a representation that to the best of its knowledge and belief—

- (1) No ocean transportation was used in the performance of this contract;
- (2) Ocean transportation was used and only U.S.-flag vessels were used for all ocean shipments under the contract;
- (3) Ocean transportation was used, and the Contractor had received a prior-approved waiver for U.S.-flag vessels for all foreign-flag ocean transportation; or
- (4) Ocean transportation was used and some or all of the shipments were made on foreign-flag vessels without the written consent of DoD. The Contractor shall describe these shipments in the following format:

	ITEM DESCRIPTION	CONTRACT LINE ITEMS	QUANTITY
TOTAL			

(h) If this contract exceeds the simplified acquisition threshold and the final invoice does not include the required representation, the Government will reject and return it to the Contractor as an improper invoice for the purposes of the Prompt Payment clause of this contract. In the event there has been unauthorized use of foreign-flag vessels in the performance of this contract, the Contracting Officer is entitled to equitably adjust the contract, based on the unauthorized use.

(i) If the Contractor did not anticipate transporting any supplies by sea at the time of contract award and, therefore, did not provide the notification required by paragraph (b) of this clause, but prior to shipment of supplies, the Contractor learns that supplies will be transported by sea, the Contractor shall—

- (1) Provide the notification required by paragraph (b) of this clause to the Contracting Officer and MARAD as soon as it is known that supplies will be transported by sea; and
- (2) Comply with all the terms and conditions of this clause.

(j) *Subcontracts*. In the award of subcontracts, for the types of supplies described in paragraph (c)(2) of this clause, including subcontracts for commercial products, the Contractor shall flow down the requirements of this clause as follows:

- (1) The Contractor shall insert the substance of this clause, including this paragraph (j), in subcontracts that exceed the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.
- (2) The Contractor shall insert the substance of paragraphs (a) through (f) of this clause, and this paragraph (j), in subcontracts that are at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.

(End of clause)

Alternate I. As prescribed in [247.574](#) (a) and (a)(2), use the following clause, which uses a different paragraph (c) than the basic clause:

TRANSPORTATION OF SUPPLIES BY SEA—ALTERNATE I (OCT 2024)

(a) *Definitions.* As used in this clause—

"Foreign-flag vessel" means any vessel that is not a U.S.-flag vessel.

"Ocean transportation" means any water-borne transportation aboard a ship, vessel, boat, barge, ferry, or the like outside the internal waters of the United States as defined in [33 CFR 2.24](#).

"Subcontractor" means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract.

"Supplies" means supplies that are clearly identifiable for eventual use by or owned by DoD at the time of transportation by sea, or are otherwise transported by DoD, regardless of ownership or use by DoD. An item is clearly identifiable for eventual use by DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

"U.S.-flag vessel" means either a vessel belonging to the United States or a vessel of the United States as that term is defined in [46 U.S.C. 116](#).

(b) If the transportation of supplies by sea is anticipated under this contract, the Contractor shall—

(1) Notify the Contracting Officer and Maritime Administration (MARAD) at Cargo.Marad@dot.gov —

(i) Within 3 business days after contract award; or

(ii) Immediately prior to the shipment departure date necessary to meet delivery schedules, whichever is earlier; and

(2) Include in the notification—

(i) A statement of the Contractor's intent to transport supplies by sea;

(ii) The contract number; and

(iii) The task-order or delivery-order number, when applicable.

(c)(1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract.

(2) A subcontractor transporting supplies by sea under this contract shall use U.S.-flag vessels if the supplies being transported are—

(i) Other than commercial products; or

(ii) Commercial products that—

(A) The Contractor is reselling or distributing to the Government without adding value (generally, the Contractor does not add value to items that it subcontracts for f.o.b. destination shipment);

(B) Are shipped in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations (Note: This contract requires shipment of commercial products in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations); or

(C) Are commissary or exchange cargoes transported outside of the Defense Transportation System in accordance with 10 U.S.C. 2643.

(d) The Contractor and its subcontractors may request, via the Contracting Officer, a waiver of the requirement to use a U.S.-flag vessel, or identification of any available U.S.-flag vessels, if the Contractor or a subcontractor sufficiently explains that—

(1) U.S.-flag vessels are not available at a fair and reasonable rate for commercial vessels of the United States; or

(2) U.S.-flag vessels are not available at a fair and reasonable rate for commercial vessels of the United States; or

(e) The Contractor must submit any request for use of foreign-flag vessels in writing to the Contracting Officer at least 45 days prior to the sailing date necessary to meet its delivery schedules. The Contracting Officer will process requests submitted after such date(s) as expeditiously as possible, however, if a DoD waiver is not approved prior to the shipper's sailing date, this will not of itself constitute a compensable delay under this or any other clause of this contract. Requests shall contain at a minimum—

(1) Type, weight, and cube of cargo;

(2) Required shipping date(s) and required delivery date(s);

(3) Special handling and discharge requirements;

(4) Loading and discharge points;

(5) Name of shipper and consignee;

(6) Prime contract number; and

(7) A documented description of current, diligent efforts made to secure U.S.-flag vessels, including points of contact (with names and telephone numbers) with at least two U.S.-flag carriers contacted. Copies of quotes will suffice for this purpose. Copies of telephone notes, emails, and other relevant communications will otherwise be considered for this purpose.

(f) The Contractor shall, within 30 days after each shipment covered by this clause, provide the Contracting Officer and MARAD at Cargo.Marad@dot.gov, Attention: Military Team, one copy of the rated on board vessel operating carrier's ocean bill of lading, which shall contain the following information:

- (1) Prime contract number;
- (2) Name of vessel;
- (3) Vessel flag of registry;
- (4) Date of loading;
- (5) Port of loading;
- (6) Port of final discharge;
- (7) Description of commodity;
- (8) Gross weight in pounds and cubic feet if available;
- (9) Total ocean freight in U.S. dollars; and
- (10) Name of the carrier.

(g) If this contract exceeds the simplified acquisition threshold, the Contractor shall provide with its final invoice under this contract a representation that to the best of its knowledge and belief—

- (1) No ocean transportation was used in the performance of this contract;
- (2) Ocean transportation was used and only U.S.-flag vessels were used for all ocean shipments under the contract;
- (3) Ocean transportation was used, and the Contractor had received a prior-approved waiver for U.S.-flag vessels for all foreign-flag ocean transportation; or
- (4) Ocean transportation was used and some or all of the shipments were made on foreign-flag vessels without the written consent of DoD. The Contractor shall describe these shipments in the following format:

	ITEM DESCRIPTION	CONTRACT LINE ITEMS	QUANTITY
TOTAL			

(h) If this contract exceeds the simplified acquisition threshold and the final invoice does not include the required representation, the Government will reject and return it to the Contractor as an improper invoice for the purposes of the Prompt Payment clause of this contract. In the event there has been unauthorized use of foreign-flag vessels in the performance of this contract, the Contracting Officer is entitled to equitably adjust the contract, based on the unauthorized use.

(i) If the Contractor did not anticipate transporting any supplies by sea at the time of contract award and, therefore, did not provide the notification required by paragraph (b) of this clause, but prior to shipment of the supplies, the Contractor learns that supplies will be transported by sea, the Contractor shall—

- (1) Provide the notification required by paragraph (b) of this clause to the Contracting Officer and MARAD as soon as it is known that supplies will be transported by sea; and
- (2) Comply with all the terms and conditions of this clause.

(j) *Subcontracts.* In the award of subcontracts for the types of supplies described in paragraph (c)(2) of this clause, including subcontracts for commercial products, the Contractor shall flow down the requirements of this clause as follows:

- (1) The Contractor shall insert the substance of this clause, including this paragraph (j), in subcontracts that exceed the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.
- (2) The Contractor shall insert the substance of paragraphs (a) through (f) of this clause, and this paragraph (j), in subcontracts that are at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.

(End of clause)

Alternate II. As prescribed in [247.574](#) (a) and (a)(3), use the following clause, which uses a different paragraph (c) than the basic clause:

TRANSPORTATION OF SUPPLIES BY SEA—ALTERNATE II (OCT 2024)

(a) *Definitions.* As used in this clause—

"Foreign-flag vessel" means any vessel that is not a U.S.-flag vessel.

"Ocean transportation" means any water-borne transportation aboard a ship, vessel, boat, barge, ferry, or the like outside the internal waters of the United States as defined in [33 CFR 2.24](#).

"Subcontractor" means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract.

"Supplies" means supplies that are clearly identifiable for eventual use by or owned by DoD at the time of transportation by sea, or are otherwise transported by DoD, regardless of ownership or use by DoD. An item is clearly identifiable for eventual use by DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

U.S.-flag vessel means either a vessel belonging to the United States or a vessel of the United States as that term is defined in [46 U.S.C. 116](#).

(b) If the transportation of supplies by sea is anticipated under this contract, the Contractor shall—

(1) Notify the Contracting Officer and Maritime Administration (MARAD) at Cargo.Marad@dot.gov —

(i) Within 3 business days after contract award; or

(ii) Immediately prior to the shipment departure date necessary to meet delivery schedules, whichever is earlier; and

(2) Include in the notification—

(i) A statement of the Contractor's intent to transport supplies by sea;

(ii) The contract number; and

(iii) The task-order or delivery-order number, when applicable.

(c)(1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract.

(2) A subcontractor transporting supplies by sea under this contract shall use U.S.-flag vessels if the supplies being transported are—

(i) Other than commercial products; or

(ii) Commercial products that—

(A) The Contractor is reselling or distributing to the Government without adding value (generally, the Contractor does not add value to items that it subcontracts for f.o.b. destination shipment);

(B) Are shipped in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations; or

(C) Are commissary or exchange cargoes transported outside of the Defense Transportation System in accordance with 10 U.S.C. 2643 (Note: This contract requires transportation of commissary or exchange cargoes outside of the Defense Transportation System in accordance with 10 U.S.C. 2643).

(d) The Contractor and its subcontractors may request, via the Contracting Officer, a waiver of the requirement to use a U.S.-flag vessel, or identification of any available U.S.-flag vessels, if the Contractor or a subcontractor sufficiently explains that—

(1) U.S.-flag vessels are not available at a fair and reasonable rate for commercial vessels of the United States; or

(2) U.S.-flag vessels are otherwise not available.

(e) The Contractor must submit any request for use of foreign-flag vessels in writing to the Contracting Officer at least 45 days prior to the sailing date necessary to meet its delivery schedules. The Contracting Officer will process requests submitted after such date(s) as expeditiously as possible, however, if a DoD waiver is not approved prior to the shipper's sailing date, this will not of itself constitute a compensable delay under this or any other clause of this contract. Requests shall contain at a minimum—

(1) Type, weight, and cube of cargo;

(2) Required shipping date(s) and required delivery date(s);

(3) Special handling and discharge requirements;

(4) Loading and discharge points;

(5) Name of shipper and consignee;

(6) Prime contract number; and

(7) A documented description of current, diligent efforts made to secure U.S.-flag vessels, including points of contact (with names and telephone numbers) with at least two U.S.-flag carriers contacted. Copies of quotes will suffice for this purpose. Copies of telephone notes, emails, and other relevant communications will otherwise be considered for this purpose.

(f) The Contractor shall, within 30 days after each shipment covered by this clause, provide the Contracting Officer and MARAD at Cargo.Marad@dot.gov, Attention: Military Team, one copy of the rated on board vessel operating carrier's ocean bill of lading, which shall contain the following information:

- (1) Prime contract number;
- (2) Name of vessel;
- (3) Vessel flag of registry;
- (4) Date of loading;
- (5) Port of loading;
- (6) Port of final discharge;
- (7) Description of commodity;
- (8) Gross weight in pounds and cubic feet if available;
- (9) Total ocean freight in U.S. dollars; and
- (10) Name of the carrier.

(g) If this contract exceeds the simplified acquisition threshold, the Contractor shall provide with its final invoice under this contract a representation that to the best of its knowledge and belief—

- (1) No ocean transportation was used in the performance of this contract;
- (2) Ocean transportation was used and only U.S.-flag vessels were used for all ocean shipments under the contract;
- (3) Ocean transportation was used, and the Contractor had received a prior-approved waiver for U.S.-flag vessels for all foreign-flag ocean transportation; or
- (4) Ocean transportation was used and some or all of the shipments were made on foreign-flag vessels without the written consent of DoD. The Contractor shall describe these shipments in the following format:

	ITEM DESCRIPTION	CONTRACT LINE ITEMS	QUANTITY
TOTAL			

(h) If this contract exceeds the simplified acquisition threshold and the final invoice does not include the required representation, the Government will reject and return it to the Contractor as an improper invoice for the purposes of the Prompt Payment clause of this contract. In the event there has been unauthorized use of foreign-flag vessels in the performance of this contract, the Contracting Officer is entitled to equitably adjust the contract, based on the unauthorized use.

(i) If the Contractor did not anticipate transporting any supplies by sea at the time of contract award, and, therefore, did not provide the notification required by paragraph (b) of this clause, but prior to shipment of the supplies, the Contractor learns after the award of the contract that supplies will be transported by sea, the Contractor shall—

- (1) Provide the notification required by paragraph (b) of this clause to the Contracting Officer and MARAD as soon as it is known that supplies will be transported by sea; and
- (2) Comply with all the terms and conditions of this clause.

(j) *Subcontracts*. In the award of subcontracts for the types of supplies described in paragraph (c)(2) of this clause, including subcontracts for commercial products, the Contractor shall flow down the requirements of this clause as follows:

- (1) The Contractor shall insert the substance of this clause, including this paragraph (j), in subcontracts that exceed the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.
- (2) The Contractor shall insert the substance of paragraphs (a) through (f) of this clause, and this paragraph (j), in subcontracts that are at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.

(End of clause)

252.247-7024 Reserved.**252.247-7025 Reflagging or Repair Work.**

As prescribed in [247.574](#) (b), use the following clause:

REFLAGGING OR REPAIR WORK (OCT 2024)

(a) *Definitions.* As used in this clause—

"Corrective and preventive maintenance or repair" means—

(1) Maintenance or repair actions performed as a result of a failure in order to return or restore equipment to acceptable performance levels; and

(2) Scheduled maintenance or repair actions to prevent or discover functional failures.

"Reflagging or repair work" means work performed on a vessel—

(1) To enable the vessel to meet applicable standards to become a vessel of the United States; or

(2) To convert the vessel to a more useful military configuration.

(b) *Requirement.* Unless DoD waives this requirement, the Contractor shall ensure performance of the following in the United States or its outlying areas:

(1) Reflagging or repair work, if the reflagging or repair work is performed—

(i) On a vessel for which the Contractor submitted an offer in response to the solicitation for this contract; and

(ii) Prior to acceptance of the vessel by the Government.

(2) Corrective and preventive maintenance or repair work for the duration of the contract, to the greatest extent practicable.

(End of clause)

252.247-7026 Evaluation Preference for Use of Domestic Shipyards — Applicable to Acquisition of Carriage by Vessel for DoD Cargo in the Coastwise or Noncontiguous Trade.

As prescribed in [247.574](#) (c), use the following provision:

EVALUATION PREFERENCE FOR USE OF DOMESTIC SHIPYARDS — APPLICABLE TO ACQUISITION OF CARRIAGE BY VESSEL FOR DOD CARGO IN THE COASTWISE OR NONCONTIGUOUS TRADE (OCT 2024)

(a) *Definitions.* As used in this provision—

"Covered vessel" means a vessel—

(1) Owned, operated, or controlled by the offeror; and

(2) Qualified to engage in the carriage of cargo in the coastwise or noncontiguous trade under [46 U.S.C. 12112](#) and [50501](#) and [46 U.S.C. chapter 551](#).

"Foreign shipyard" means a shipyard that is not a U.S. shipyard.

"Overhaul, repair, and maintenance work" means work requiring a shipyard period greater than or equal to 5 calendar days.

"U.S. shipyard" means a shipyard that is located in any State of the United States or in Guam.

(b) This solicitation includes an evaluation criterion that considers the extent to which the Offeror has had overhaul, repair, and maintenance work for covered vessels performed in U.S. shipyards.

(c) The Offeror shall provide the following information with its offer, addressing all covered vessels for which overhaul, repair, and maintenance work has been performed during the period covering the current calendar year, up to the date of proposal submission, and the preceding four calendar years:

(1) Name of vessel.

(2) Description and cost of qualifying shipyard work performed in U.S. shipyards.

(3) Description and cost of qualifying shipyard work performed in foreign shipyards and whether—

(i) Such work was performed as emergency repairs in foreign shipyards due to accident, emergency, Act of God, or an infirmity to the vessel, and safety considerations warranted taking the vessel to a foreign shipyard; or

(ii) Such work was paid for or reimbursed by the U.S. Government.

(4) Names of shipyards that performed the work.

- (5) Inclusive dates of work performed.
- (d) Offerors are responsible for submitting accurate information. The Contracting Officer—
 - (1) Will use the information to evaluate offers in accordance with the criteria specified in the solicitation; and
 - (2) Reserves the right to request supporting documentation if determined necessary in the proposal evaluation process.
- (e) The Department of Defense will provide the information submitted in response to this provision to the congressional defense committees, as required by section 1017 of [Public Law 109-364](#) ([10 U.S.C. 2631 note](#)).

(End of provision)

252.247-7027 Riding Gang Member Requirements.

As prescribed in [247.574](#) (d), use the following clause:

RIDING GANG MEMBER REQUIREMENTS (MAY 2018)

- (a) Definition. “Riding gang member,” as used in this clause, has the same definition as “riding gang member” in title 46 U.S.C. 2101.
- (b) Requirements relating to riding gang members. Notwithstanding 46 U.S.C. 8106, the Contractor shall ensure each riding gang member holds a valid U.S. Merchant Mariner's Document issued under 46 U.S.C. chapter 73, or a transportation security card issued under section 70105 of such title.
- (c) Exemption.
 - (1) An individual is exempt from the requirements of paragraph (b) of this clause and shall not be treated as a riding gang member for the purposes of section 8106 of title 46, if that individual is on a vessel for purposes other than engaging in the operation or maintenance of the vessel and is—
 - (i) One of the personnel who accompanies, supervises, guards, or maintains unit equipment aboard a ship, commonly referred to as supercargo personnel;
 - (ii) One of the force protection personnel of the vessel;
 - (iii) A specialized repair technician; or
 - (iv) An individual who is otherwise required by the Secretary of Defense or designee to be aboard the vessel.
 - (2) Any individual who is exempt under paragraph (c)(1) of this clause must pass a DoD background check before going aboard the vessel.
 - (i) The Contractor shall—
 - (A) Render all necessary assistance to U.S. Armed Forces personnel with respect to the identification and screening of exempted individuals. This will require, at a minimum, the Contractor to submit the name and other biographical information necessary to the Government official specified in the contract for the purposes of conducting a background check; and
 - (B) Deny access or immediately remove any individual(s) from the vessel deemed unsuitable for any reason by the Government agency conducting the background checks. The Contractor agrees to replace any such individual promptly and require such replacements to fully comply with all screening requirements.
 - (ii) **The head of the contracting activity may waive this requirement if the individual possesses a valid U.S. Merchant Mariner's Document issued under 46 U.S.C., chapter 73, or a transportation security card issued under section 70105 of such title.**
 - (3) An individual exempted under paragraph (c)(1) of this clause is not treated as a riding gang member and shall not be counted as an individual in addition to the crew for the purposes of 46 U.S.C. 3304.

(End of clause)

252.247-7028 Application for U.S. Government Shipping Documentation/Instructions.

As prescribed in [247.207](#), use the following clause:

APPLICATION FOR U.S. GOVERNMENT SHIPPING DOCUMENTATION/INSTRUCTIONS (JUN 2012)

- (a) Except as provided in paragraph (b) of this clause, the Contractor shall request bills of lading by submitting a DD Form 1659, Application for U.S. Government Shipping Documentation/Instructions, to the—

- (1) Transportation Officer, if named in the contract schedule; or
- (2) Contract administration office.

(b) If an automated system is available for shipment requests, use service/agency systems (e.g., Navy's Global Freight Management–Electronic Transportation Acquisition (GFM-ETA) and Financial Air Clearance Transportation System (FACTS) Shipment Processing Module, Air Force's Cargo Movement Operations System, DCMA's Shipment Instruction Request (SIR) E-tool, and DLA's Distribution Standard System Vendor Shipment Module in lieu of DD Form 1659.

(End of clause)

252.249 RESERVED

252.249-7000 Special Termination Costs.

As prescribed in [249.501-70](#), use the following clause:

SPECIAL TERMINATION COSTS (DEC 1991)

(a) *Definition.* "Special termination costs," as used in this clause, means only costs in the following categories as defined in Part 31 of the Federal Acquisition Regulation (FAR)—

- (1) Severance pay, as provided in FAR 31.205-6(g);
- (2) Reasonable costs continuing after termination, as provided in FAR 31.205-42(b);
- (3) Settlement of expenses, as provided in FAR 31.205-42(g);
- (4) Costs of return of field service personnel from sites, as provided in FAR 31.205-35 and FAR 31.205-46(c); and
- (5) Costs in paragraphs (a)(1), (2), (3), and (4) of this clause to which subcontractors may be entitled in the event of termination.

(b) Notwithstanding the Limitation of Cost/Limitation of Funds clause of this contract, the Contractor shall not include in its estimate of costs incurred or to be incurred, any amount for special termination costs to which the Contractor may be entitled in the event this contract is terminated for the convenience of the Government.

(c) The Contractor agrees to perform this contract in such a manner that the Contractor's claim for special termination costs will not exceed \$_____. The Government shall have no obligation to pay the Contractor any amount for the special termination costs in excess of this amount.

(d) In the event of termination for the convenience of the Government, this clause shall not be construed as affecting the allowability of special termination costs in any manner other than limiting the maximum amount of the costs payable by the Government.

(e) This clause shall remain in full force and effect until this contract is fully funded.

(End of clause)

252.249-7001 Reserved.

252.249-7002 Notification of Anticipated Contract Termination or Reduction.

As prescribed in [249.7004](#), use the following clause:

NOTIFICATION OF ANTICIPATED CONTRACT TERMINATION OR REDUCTION (DEC 2022)

(a) *Definitions.* As use in this clause—

"Major defense program" means a program that is carried out to produce or acquire a major system (as defined in 10 U.S.C. 3041(a)).

(b) *Scope.* This clause implements section 1372 of the National Defense Authorization Act for Fiscal Year 1994 (Pub. L. 103-160) and section 824 of the National Defense Authorization Act for Fiscal Year 1997 ([Pub. L. 104-201](#)), which are intended to help establish benefit eligibility under the Workforce Innovation and Opportunity Act (29 U.S.C. chapter 32) for employees of DoD contractors and subcontractors adversely affected by contract terminations or substantial reductions under major defense programs.

(c) *Notice to employees and state and local officials.* (1) Within 2 weeks after the Contracting Officer notifies the Contractor that contract funding will be terminated or substantially reduced, the Contractor shall provide notice of such anticipated termination or reduction to—

- (i) Each employee representative of the Contractor's employees whose work is directly related to the defense contract; or
- (ii) If there is no such representative, each such employee;
- (iii) The State or entity designated by the State to carry out rapid response activities described in the Workforce Innovation and Opportunity Act ([29 U.S.C. 3174\(a\)\(2\)\(A\)\(i\)](#)); and
- (iv) The chief elected official of the unit of general local government within which the adverse effect may occur.

(2) The notice provided an employee under paragraph (c)(1) of this clause shall have the same effect as a notice of termination to the employee for the purposes of determining whether such employee is eligible for training, adjustment assistance, and employment services under the Workforce Innovation and Opportunity Act (29 U.S.C. Chapter 32).

(d) *Notice to subcontractors.* Not later than 60 days after the Contractor receives the Contracting Officer's notice of the anticipated termination or reduction, the Contractor shall—

(1) Provide notice of the anticipated termination or reduction to each first-tier subcontractor with a subcontract that equals or exceeds the threshold specified in Defense Federal Acquisition Regulation Supplement (DFARS) [249.7003\(c\)\(1\)](#) at the time of the notice; and

(2) Require that each such subcontractor—

- (i) Provide notice to each of its subcontractors with a subcontract that equals or exceeds the threshold specified in DFARS [249.7003\(c\)\(2\)\(i\)](#) at the time of the notice; and
- (ii) Impose a similar notice and flowdown requirement to subcontractors with subcontracts that equal or exceed the threshold specified in DFARS [249.7003\(c\)\(2\)\(ii\)](#) at the time of the notice.

(End of clause)

252.251 RESERVED

252.251-7000 Ordering From Government Supply Sources.

As prescribed in [251.107](#), use the following clause:

ORDERING FROM GOVERNMENT SUPPLY SOURCES (AUG 2012)

(a) When placing orders under Federal Supply Schedules, Personal Property Rehabilitation Price Schedules, or Enterprise Software Agreements, the Contractor shall follow the terms of the applicable schedule or agreement and authorization. Include in each order:

(1) A copy of the authorization (unless a copy was previously furnished to the Federal Supply Schedule, Personal Property Rehabilitation Price Schedule, or Enterprise Software Agreement contractor).

(2) The following statement:

Any price reductions negotiated as part of an Enterprise Software Agreement issued under a Federal Supply Schedule contract shall control. In the event of any other inconsistencies between an Enterprise Software Agreement, established as a Federal Supply Schedule blanket purchase agreement, and the Federal Supply Schedule contract, the latter shall govern.

(3) The completed address(es) to which the Contractor's mail, freight, and billing documents are to be directed.

(b) When placing orders under nonmandatory schedule contracts and requirements contracts, issued by the General Services Administration (GSA) Office of Information Resources Management, for automated data processing equipment, software and maintenance, communications equipment and supplies, and teleprocessing services, the Contractor shall follow the terms of the applicable contract and the procedures in paragraph (a) of this clause.

(c) When placing orders for Government stock on a reimbursable basis, the Contractor shall—

(1) Comply with the requirements of the Contracting Officer's authorization, using FEDSTRIP or MILSTRIP procedures, as appropriate;

(2) Use only the GSA Form 1948-A, Retail Services Shopping Plate, when ordering from GSA Self-Service Stores;

(3) Order only those items required in the performance of Government contracts; and

(4) Pay invoices from Government supply sources promptly. For purchases made from DoD supply sources, this means within 30 days of the date of a proper invoice. The Contractor shall annotate each invoice with the date of receipt.

For purposes of computing interest for late Contractor payments, the Government's invoice is deemed to be a demand for payment in accordance with the Interest clause of this contract. The Contractor's failure to pay may also result in the DoD supply source refusing to honor the requisition (see DFARS [251.102](#) (f)) or in the Contracting Officer terminating the Contractor's authorization to use DoD supply sources. In the event the Contracting Officer decides to terminate the authorization due to the Contractor's failure to pay in a timely manner, the Contracting Officer shall provide the Contractor with prompt written notice of the intent to terminate the authorization and the basis for such action. The Contractor shall have 10 days after receipt of the Government's notice in which to provide additional information as to why the authorization should not be terminated. The termination shall not provide the Contractor with an excusable delay for failure to perform or complete the contract in accordance with the terms of the contract, and the Contractor shall be solely responsible for any increased costs.

(d) When placing orders for Government stock on a non-reimbursable basis, the Contractor shall—

(1) Comply with the requirements of the Contracting Officer's authorization; and

(2) When using electronic transactions to submit requisitions on a non-reimbursable basis only, place orders by authorizing contract number using the Defense Logistics Management System (DLMS) Supplement to Federal Implementation Convention 511R, Requisition; and acknowledge receipts by authorizing contract number using the DLMS Supplement 527R, Receipt, Inquiry, Response and Material Receipt Acknowledgement.

(e) Only the Contractor may request authorization for subcontractor use of Government supply sources. The Contracting Officer will not grant authorizations for subcontractor use without approval of the Contractor.

(f) Government invoices shall be submitted to the Contractor's billing address, and Contractor payments shall be sent to the Government remittance address specified below:

Contractor's Billing Address (include point of contact and telephone number):

Government Remittance Address (include point of contact and telephone number):

(End of clause)

252.251-7001 Use of Interagency Fleet Management System (IFMS) Vehicles and Related Services.

As prescribed in [251.205](#), use the following clause:

USE OF INTERAGENCY FLEET MANAGEMENT SYSTEM (IFMS) VEHICLES AND RELATED SERVICES (DEC 1991)

(a) The Contractor, if authorized use of IFMS vehicles, shall submit requests for five or fewer vehicles and related services in writing to the appropriate General Services Administration (GSA) Regional Customer Service Bureau, Attention: Motor Equipment Activity. Submit requests for more than five vehicles to GSA headquarters: General Services Administration, FTM, Washington, DC 20406. Include the following in each request:

(1) Two copies of the agency authorization to obtain vehicles and related services from GSA.

(2) The number of vehicles and related services required and the period of use.

(3) A list of the Contractor's employees authorized to request vehicles and related services.

(4) A list of the makes, models, and serial numbers of Contractor-owned or leased equipment authorized to be serviced.

(5) Billing instructions and address.

(b) The Contractor should make requests for any unusual quantities of vehicles as far in advance as possible.

(c) The Contractor shall establish and enforce suitable penalties for employees who use or authorize the use of Government vehicles for other than performance of Government contracts.

(d) The Contractor shall assume, without the right of reimbursement from the Government, the cost or expense of any use of IFMS vehicles and services not related to the performance of the contract.

(e) Only the Contractor may request authorization for subcontractor use of IFMS vehicles. The Contracting Officer will not grant authorization for subcontractor use without approval of the Contractor.

(End of clause)

252.270 RESERVED**252.270-7000 Pilot Program to Incentivize Contracting with Employee-Owned Businesses—Representation.**

As prescribed in [270.105](#)(a), use the following provision:

PILOT PROGRAM TO INCENTIVIZE CONTRACTING WITH EMPLOYEE-OWNED BUSINESSES—REPRESENTATION (NOV 2024)

(a) *Definition.* As used in this provision, qualified business has the meaning given in the Defense Federal Acquisition Regulation Supplement [252.270-7002](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses, clause of this solicitation.

(b) *Representation.* The Offeror represents that it is a qualified business.

(End of provision)

252.270-7001 Pilot Program to Incentivize Contracting with Employee-Owned Businesses—Subcontracting Certification.

As prescribed in [270.105](#)(b), use the following provision:

PILOT PROGRAM TO INCENTIVIZE CONTRACTING WITH EMPLOYEE-OWNED BUSINESSES—SUBCONTRACTING CERTIFICATION (NOV 2024)

(a) *Definition.* As used in this provision, *qualified business* has the meaning given in the Defense Federal Acquisition Regulation Supplement [252.270-7002](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses, clause of this solicitation.

(b) *Limitations on subcontracting.* The Offeror certifies that in performance of the contract it will not expend more than 50 percent of the amount paid under the contract on subcontracts unless—

- (1) The subcontract is awarded to a qualified business;
- (2) The contract is for products and the subcontract is for materials not available from another qualified business; or
- (3) A waiver is granted.

(End of clause)

252.270-7002 Pilot Program to Incentivize Contracting with Employee-Owned Businesses.

As prescribed in [270.105](#)(c), use the following clause:

PILOT PROGRAM TO INCENTIVIZE CONTRACTING WITH EMPLOYEE-OWNED BUSINESSES (NOV 2024)

(a) *Definition.* As used in this clause—

Qualified business means an S corporation as defined in [26 U.S.C. 1361\(a\)\(1\)](#) for which 100 percent of the outstanding stock is held through an employee stock ownership plan as defined in [26 U.S.C. 4975\(e\)\(7\)](#).

(b) *Limitations on subcontracting.* In performance of the contract, the Contractor shall not expend more than 50 percent of the amount paid under the contract on subcontracts, unless—

- (1) The subcontract is awarded to a qualified business;
- (2) The contract is for products and the subcontract is for materials not available from another qualified business; or
- (3) A waiver is granted.

(c) *Reporting requirement.* Not later than 30 days after the end of the contract period of performance, the Contractor shall submit to the Contracting Officer the following information in writing:

- (1) The number of years the Contractor has been wholly-owned by its employee stock ownership plan.
- (2) Challenges, if any, the Contractor experienced in attracting and retaining a talented workforce in a competitive market due to the Contractor's corporate ownership structure.
- (3) Challenges, if any, the Contractor experienced that hinder its ability to contract with DoD to scale its technologies and capabilities due to the Contractor's corporate ownership structure.

(4) Challenges, if any, the Contractor experienced, due to its corporate ownership structure, in obtaining capital necessary to bridge funding gaps, for example, between prototype demonstration and full-scale development.

(End of clause)

Subpart 253.2 - PRESCRIPTION OFFFORMS

253.213 Simplified acquisition procedures (SF's 18, 30, 44, 1165, 1449, and OF's 336, 347, and 348).

(f) DoD uses the DD Form 1155, Order for Supplies or Services, instead of OF 347; and OF 336, Continuation Sheet, instead of OF 348. Follow the procedures at PGI [253.213](#) (f) for use of forms.

253.213-70 Completion of DD Form 1155, Order for Supplies or Services.

Follow the procedures at PGI [253.213-70](#) for completion of DD Form 1155.

253.209 Contractor qualifications.

253.209-1 Responsible prospective contractors.

(a) *SF 1403, Preaward Survey of Prospective Contractor (General).*

(i) The factors in Section III, Block 19, generally mean—

(A) *Technical Capability.* An assessment of the prospective contractor's key management personnel to determine if they have the basic technical knowledge, experience, and understanding of the requirements necessary to produce the required product or provide the required service.

(B) *Production Capability.* An evaluation of the prospective contractor's ability to plan, control, and integrate manpower, facilities, and other resources necessary for successful contract completion. This includes—

(1) An assessment of the prospective contractor's possession of, or the ability to acquire, the necessary facilities, material, equipment, and labor; and

(2) A determination that the prospective contractor's system provides for timely placement of orders and for vendor follow-up and control.

(C) *Quality Assurance Capability.* An assessment of the prospective contractor's capability to meet the quality assurance requirements of the proposed contract. It may involve an evaluation of the prospective contractor's quality assurance system, personnel, facilities, and equipment.

(D) *Financial Capability.* A determination that the prospective contractor has or can get adequate financial resources to obtain needed facilities, equipment, materials, etc.

(E) *Accounting System and Related Internal Controls.* An assessment by the auditor of the adequacy of the prospective contractor's accounting system and related internal controls as defined in [242.7501](#), Definition. Normally, a contracting officer will request an accounting system review when soliciting and awarding cost-reimbursement or incentive type contracts, or contracts which provide for progress payments based on costs or on a percentage or stage of completion.

(ii) The factors in Section III, Block 20, generally mean—

(A) *Government Property Control.* An assessment of the prospective contractor's capability to manage and control Government property.

(B) *Transportation.* An assessment of the prospective contractor's capability to follow the laws and regulations applicable to the movement of Government material, or overweight, oversized, hazardous cargo, etc.

(C) *Packaging.* An assessment of the prospective contractor's ability to meet all contractual packaging requirements including preservation, unit pack, packing, marking, and unitizing for shipment.

(D) *Security Clearance.* A determination that the prospective contractor's facility security clearance is adequate and current. (When checked, the surveying activity will refer this factor to the Defense Security Service (DSS)).

(E) *Plant Safety.* An assessment of the prospective contractor's ability to meet the safety requirements in the solicitation.

(F) *Environmental/Energy Consideration.* An evaluation of the prospective contractor's ability to meet specific environmental and energy requirements in the solicitation.

(G) *Flight Operations and Flight Safety.* An evaluation of the prospective contractor's ability to meet flight operation and flight safety requirements on solicitations involving the overhaul and repair of aircraft.

(H) *Other.* If the contracting officer wants an assessment of other than major factors A-E and other factors A-G, check this factor. Explain the desired information in the Remarks sections.

253.204 RESERVED**253.215 Contracting by negotiation.****253.215-70 DD Form 1547, Record of Weighted Guidelines Application.**

Follow the procedures at PGI [253.215-70](#) for completing DD Form 1547.

PART 270 - DEFENSE CONTRACTING PROGRAMS

<i>Sec.</i>			
270.000	Scope of part.	270.102	Policy.
	Subpart 270.1 - Pilot Program to Incentivize Contracting with	270.103	Limitations.
	Employee-Owned Businesses	270.104	Procedures.
270.100	Scope of subpart.	270.105	Solicitation provisions and contract clause.
270.101	Definition.		

This page intentionally left blank.

270.000 Scope of part.

This part has been created to facilitate promulgation of additional DFARS coverage of defense-specific contracting programs that do not properly fall under DFARS subchapter D, Socioeconomic Programs, and neither implement nor supplement existing FAR part 19 or parts 22 through 25.

Subpart 270.1 - Pilot Program to Incentivize Contracting with Employee-Owned Businesses**270.100 Scope of subpart.**

(a) This subpart implements section 874 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2022 (Pub. L. 117-81; 10 U.S.C. 3204 note) and section 872 of the NDAA for FY 2024 (Pub. L. 118-31; 10 U.S.C. 3204 note). Sections 874 and 872 authorize the establishment of a pilot program that allows for the noncompetitive award of certain follow-on contracts to contractors that meet the definition of a qualified business (see [270.101](#)).

(b) The authority to award contracts under this subpart expires on December 27, 2029.

270.101 Definition.

As used in this subpart—

Qualified business means an S corporation as defined in [26 U.S.C. 1361\(a\)\(1\)](#) for which 100 percent of the outstanding stock is held through an employee stock ownership plan as defined in [26 U.S.C. 4975\(e\)\(7\)](#).

270.102 Policy.

(a) The contracting officer may only award one sole-source, follow-on contract to the incumbent contractor if—

- (1) The contractor has represented that it is a qualified business; and
- (2) The contract is for the continued development, production, or provision of products or services that are the same as or substantially similar to those procured under the prior contract awarded to the contractor by or for DoD.

(b) The contracting officer shall justify the use of a sole-source contract in accordance with [FAR 6.303](#) and [6.304](#) and cite [FAR 6.302-5](#) as the exception to full and open competition.

270.103 Limitations.

(a) Participation in the pilot program is subject to approval by the Under Secretary of Defense (Acquisition and Sustainment), Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy). Only a contracting officer may submit an application to participate in the pilot program. See PGI 270.104(a).

(b) Contracting officers shall only award—

(1) One sole-source, follow-on contract per predecessor contract to the incumbent contractor unless waived by the head of the contracting activity, delegable to a level no lower than one level above the contracting officer;

(2) Contracts to qualified businesses that have a minimum performance rating of satisfactory for the predecessor contract in the Contractor Performance Assessment Reporting System (see FAR subpart 42.15); and

(3) Contracts to qualified businesses that have certified they will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not qualified businesses, except for subcontracts for materials not available from another qualified business when the contract is for products, unless waived by the head of the contracting activity, delegable to a level no lower than one level above the contracting officer.

270.104 Procedures.

See PGI 270.104 for procedures and information concerning the pilot program.

270.105 Solicitation provisions and contract clause.

(a) Use the provision at [252.270-7000](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses—Representation, in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial products and commercial services, except for solicitations solely for the acquisition of commercially available off-the-shelf (COTS) items, that include the clause at [252.270-7002](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses.

(b) Unless waived in accordance with [270.103\(b\)\(3\)](#), use the provision at [252.270-7001](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses—Subcontracting Certification, in solicitations, including solicitations using [FAR part 12](#) procedures for the acquisition of commercial products and commercial services, except for solicitations solely

for the acquisition of COTS items, that include the clause at 2 [252.270-7002](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses.

(c) Use the clause at [252.270-7002](#), Pilot Program to Incentivize Contracting with Employee-Owned Businesses, in solicitations and contracts, including solicitations and contracts using [FAR part 12](#) procedures for the acquisition of commercial products and commercial services, except for solicitations and contracts solely for the acquisition of COTS items, for approved pilot program acquisitions.

Part 1 —Charter

1. There is created the Armed Services Board of Contract Appeals which is hereby designated as the authorized representative of the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, and the Secretary of the Air Force, in hearing, considering and determining appeals by contractors from decisions of contracting officers or their authorized representatives or other authorities on disputed questions. These appeals may be taken (a) pursuant to the Contract Disputes Act of 1978 (41 U.S.C. Sections 7101-7109), (b) pursuant to the provisions of contracts requiring the decision by the Secretary of Defense or by a Secretary of a Military Department or their duly authorized representative, or (c) pursuant to the provisions of any directive whereby the Secretary of Defense or the Secretary of a Military Department or their authorized representative has granted a right of appeal not contained in the contract on any matter consistent with the contract appeals procedure. The Board may determine contract disputes for other departments and agencies by agreement as permitted by law. The Board shall operate under general policies established or approved by the Under Secretary of Defense responsible for acquisition and may perform other duties as directed not inconsistent with the Contract Disputes Act of 1978. The Board shall decide the matters before it independently.

2. Membership of the Board shall consist of attorneys at law who have been qualified in the manner prescribed by the Contract Disputes Act of 1978. Appointment of Board members shall be made by the Secretary of Defense. Members of the Board are hereby designated Administrative Judges. There shall be designated from among the appointed Judges of the Board a Chairman and two or more Vice Chairmen. Designation of the Chairman and Vice Chairmen shall be made by the Secretary of Defense, of nominees from Judges of the Board recommended by the Under Secretary of Defense responsible for acquisition, in coordination with the General Counsel of the Department of Defense, and the Assistant Secretaries of the Military Departments responsible for acquisition. When there is a vacancy, the incumbent is unavailable, or for appropriate Board administrative reasons, the Under Secretary of Defense responsible for acquisition or the Chairman may designate a Judge of the Board to serve as an Acting Chairman or Acting Vice Chairman.

3. The Chairman of the Board shall be responsible for establishing appropriate divisions of the Board to provide for the most effective and expeditious handling of appeals. The Chairman shall have authority to establish procedures for the issuance of Board decisions. The Chairman may refer an appeal of unusual difficulty, significant precedential importance, or serious dispute within the normal decision process for decision by a Senior Deciding Group established by the Chairman which shall have the authority to overturn prior Board precedent.

4. It shall be the duty and obligation of the Judges of the Armed Services Board of Contract Appeals to decide appeals on the record of the appeal to the best of their knowledge and ability in accordance with applicable contract provisions and in accordance with law and regulation pertinent thereto.

5. Any Judge of the Board or any examiner, designated by the Chairman, shall be authorized to hold hearings, examine witnesses, and receive evidence and argument. A Judge of the Board shall have authority to administer oaths and issue subpoenas as specified in the Contract Disputes Act of 1978. In cases of contumacy or refusal to obey a subpoena, the Chairman may request orders of the court in the manner prescribed in the Contract Disputes Act of 1978.

6. The Board shall have all powers necessary and incident to the proper performance of its duties. The Board has the authority to issue methods of procedure and rules and regulations for its conduct and for the preparation and presentation of appeals and issuance of opinions.

7. The Chairman shall be responsible for the internal organization of the Board and for its administration. The Chairman shall provide within approved ceilings for the staffing of the Board with non-Judge personnel, including hearing examiners, as may be required for the performance of the functions of the Board. The Chairman shall appoint a Recorder of the Board. All personnel shall be responsible to and shall function under the direction, supervision and control of the Chairman.

8. The Board will be serviced by the Department of the Army for administrative support as required for its operations. Administrative support will include budgeting, funding, fiscal control, manpower control and utilization, personnel administration, security administration, supplies, and other administrative services. The Departments of the Army, Navy, Air Force and the Office of the Secretary of Defense will participate in financing the Board's operations on an equal basis and to the extent determined by the Under Secretary of Defense (Comptroller). The cost of processing appeals for departments and agencies other than those in the Department of Defense will be reimbursed.

9. Within 30 days following the close of a fiscal year, the Chairman shall forward a report of the Board's transactions and proceedings for the preceding fiscal year to the Under Secretary of Defense responsible for acquisition, the General Counsel of the Department of Defense, and the Assistant Secretaries of the Military Departments responsible for acquisition.

10. The Board shall have a seal bearing the following inscription: “Armed Services Board of Contract Appeals.” This seal shall be affixed to all authentications of copies of records and to such other instruments as the Board may determine.

11. This revised charter is effective upon the date of the signature of the Secretary of Defense.

APPROVED:

Patrick M. Shanahan
Acting Secretary of Defense

(signed 23 May 2019)

ARMED SERVICES BOARD OF CONTRACT APPEALS

Part 2 -Rules

Approved 15 July 1963

PREFACE

I. JURISDICTION FOR CONSIDERING APPEALS

The Armed Services Board of Contract Appeals (referred to herein as the Board) has jurisdiction to decide any appeal from a final decision of a contracting officer, pursuant to the Contract Disputes Act, 41 U.S.C. 7101-7109, or its Charter, 48 CFR Chap. 2, App. A, Pt. 1, relative to a contract made by the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the National Aeronautics and Space Administration or any other department or agency, as permitted by law.

II. LOCATION AND ORGANIZATION OF THE BOARD

(a) The Board's address is Skyline Six, Room 703, 5109 Leesburg Pike, Falls Church, VA 220413208; telephone 703-681-8500 (general), 703-681-8502 (Recorder). The Board's facsimile number is 703-681-8535. The Board's Recorder's email address is asbca.recorder@mail.mil. The Board's website address is <http://www.asbca.mil>.

(b) The Board consists of a Chairman, two or more Vice Chairmen, and other Members, all of whom are attorneys at law duly licensed by a state, commonwealth, territory, or the District of Columbia. Board Members are designated Administrative Judges.

(c) There are a number of divisions of the Board, established by the Chairman in such manner as to provide for the most effective and expeditious handling of appeals. The Chairman and a Vice Chairman act as members of each division. Hearings may be held by an Administrative Judge or by a duly authorized examiner. Except for appeals processed under the expedited or accelerated procedure (see Rules 12.2(c) and 12.3(c)), the decision of a majority of a division constitutes the decision of the Board, unless the Chairman refers the appeal to the Board's Senior Deciding Group (consisting of the Chairman, Vice Chairmen, all division heads, and the Judge who drafted the decision), in which event a decision of a majority of that group constitutes the decision of the Board. Appeals referred to the Senior Deciding Group are those of unusual difficulty or significant precedential importance, or that have occasioned serious dispute within the normal division decision process.

(d) The Board will to the fullest extent practicable provide informal, expeditious, and inexpensive resolution of disputes.

RULES

Rule 1. Appeals

(a) Taking an Appeal—For appeals subject to the Contract Disputes Act, notice of an appeal shall be in writing and mailed or otherwise furnished to the Board within 90 days from the date of receipt of a contracting officer's decision. The appellant (contractor) should also furnish a copy of the notice of appeal to the contracting officer. For appeals not subject to the Contract Disputes Act, the contractor should refer to the Disputes clause in its contract for the time period in which it must file a notice of appeal.

(1) Where the contractor has submitted a claim of \$100,000 or less to the contracting officer and has requested a written decision within 60 days from receipt of the request, and the contracting officer has not provided a decision within that period, or where such a contractor request has not been made and the contracting officer has not issued a decision within a reasonable time, the contractor may file a notice of appeal as provided in paragraph (a) of this Rule, citing the failure of the contracting officer to issue a decision.

(2) Where the contractor has submitted a properly certified claim over \$100,000 to the contracting officer or has submitted a claim that involves no monetary amount, and the contracting officer, within 60 days of receipt of the claim,

fails to issue a decision or fails to provide the contractor with a reasonable date by which a decision will be issued, and the contracting officer has failed to issue a decision within a reasonable time, the contractor may file a notice of appeal as provided in paragraph (a) of this Rule, citing the failure of the contracting officer to issue a decision.

(3) A reasonable time shall be determined by taking into account such factors as the size and complexity of the claim and the adequacy of the information provided by the contractor to support the claim.

(4) Where an appeal is before the Board pursuant to paragraph (a)(1) or (a)(2) of this Rule, the Board may, at its option, stay further proceedings pending issuance of a final decision by the contracting officer within such period of time as is determined by the Board.

(5) In lieu of filing a notice of appeal under paragraph (a)(1) or (a)(2) of this Rule, the contractor may petition the Board to direct the contracting officer to issue a decision in a specified period of time as determined by the Board.

(b) Contents of Notice of Appeal—A notice of appeal shall indicate that an appeal is being taken and should identify the contract by number, the department and/or agency involved in the dispute, the decision from which the appeal is taken, and the amount in dispute, if any. A copy of the contracting officer's final decision, if any, should be attached to the notice of appeal. The notice of appeal should be signed by the appellant or by the appellant's duly authorized representative or attorney. The complaint referred to in Rule 6 may be filed with the notice of appeal, or the appellant may designate the notice of appeal as a complaint, if it otherwise fulfills the requirements of a complaint.

(c) Docketing of Appeal—When a notice of appeal has been received by the Board, it will be docketed. The Board will provide a written notice of docketing to the appellant and to the Government.

Rule 2. Filing Documents

(a) Documents may be filed with the Board by the following methods:

(1) Governmental Postal Service—Documents may be filed via a governmental postal service. Filing occurs when the document, properly addressed and with sufficient postage, is transferred into the custody of the postal service. Contact the Recorder before submitting classified documents.

(2) Courier—Documents may be filed via courier. Filing occurs when the document is delivered to the Board. Contact the Recorder before submitting classified documents.

(3) Electronic Mail—Documents, except appeal files submitted pursuant to Rule 4, hearing exhibits, classified documents, and documents submitted in camera or under a protective order, may be filed via electronic mail (email). Email attachments should be in PDF format and the attachments may not exceed 10 megabytes total. The transmittal email should include the ASBCA docket number(s), if applicable, and the name of the appellant in the "Subject:" line. Filing occurs upon receipt by the Board's email server. When a document is successfully filed via email, the document should not also be submitted by any other means, unless so directed by the Board. Submit emails to: <mailto:asbca.recorder@mail.mil>.

(4) Facsimile Transmission—Documents, except appeal files submitted pursuant to Rule 4, hearing exhibits, classified documents, and documents submitted in camera or under a protective order, may be filed via facsimile (fax) machine. Due to equipment constraints, transmissions over 10 pages should not be made absent Board permission. Filing occurs upon receipt by the Board. When a document is successfully filed via fax, the document should not also be submitted by any other means, unless so directed by the Board.

(b) Copies to Opposing Party—The party filing any document with the Board will send a copy to the opposing party unless the Board directs otherwise, noting on the document filed with the Board that a copy has been so furnished.

Rule 3. Service Upon Other Parties

Documents may be served personally or by mail, addressed to the party upon whom service is to be made, unless the parties have agreed to an alternate means of service. Subpoenas shall be served as provided in Rule 22.

Rule 4. Preparation, Content, Organization, Forwarding, and Status of Appeal File

(a) Duties of the Government—Within 30 days of notice that an appeal has been filed, the Government shall transmit to the Board and the appellant an appeal file consisting of the documents the Government considers relevant to the appeal, including:

(1) The decision from which the appeal is taken;

(2) The contract, including pertinent specifications, amendments, plans, and drawings;

(3) All correspondence between the parties relevant to the appeal, including any claim in response to which the decision was issued.

The Government's appeal file may be supplemented at such times as are fair and reasonable and as ordered by the Board.

(b) Duties of the Appellant—Within 30 days after receipt of a copy of the Government’s appeal file, the appellant shall transmit to the Board and the Government any documents not contained therein that the appellant considers relevant to the appeal. Appellant’s appeal file may be supplemented at such times as are fair and reasonable and as ordered by the Board.

(c) Organization of Appeal File—Documents in the appeal file may be originals or legible copies, and shall be arranged in chronological order where practicable, tabbed with sequential numbers, and indexed to identify the contents of the file. Any document without internal page numbers shall have page numbers added. All documents must be in English or include an English translation. Documents shall be submitted in 3-ring binders, with spines not wider than 3 inches wide, with labels identifying the name of the appeal, ASBCA number and tab numbers contained in each volume, on the front and spine of each volume. Each volume shall contain an index of the documents contained in the entire Rule 4 submission.

(d) Status of Documents in Appeal File—Documents contained in the appeal file are considered, without further action by the parties, as part of the record upon which the Board will render its decision. However, a party may object, for reasons stated, to the admissibility of a particular document reasonably in advance of hearing or, if there is no hearing, of settling the record, or in any case as ordered by the Board. If such objection is made, the Board will constructively remove the document from the appeal file and permit the party offering the document to move its admission as evidence in accordance with Rules 10, 11, and 13.

Rule 5. Time, Computation, and Extensions

(a) Where practicable, actions should be taken in less time than the time allowed. Where appropriate and justified, however, extensions of time will be granted. All requests for extensions of time should be in writing and indicate that the other party was contacted to seek its concurrence.

(b) In computing any period of time, the day of the event from which the designated period of time begins to run will not be included, but the last day of the period will be included unless it is a Saturday, Sunday, or a Federal holiday, in which event the period will run to the next business day.

Rule 6. Pleadings

(a) Appellant—Within 30 days after receipt of notice of docketing of the appeal, the appellant shall file with the Board a complaint setting forth simple, concise, and direct statements of each of its claims. The complaint shall also set forth the basis, with appropriate reference to contract provisions, of each claim and the dollar amount claimed, if any. This pleading shall fulfill the generally recognized requirements of a complaint, although no particular form is required. Should the complaint not be timely received, the appellant’s claim and notice of appeal may be deemed to set forth its complaint if, in the opinion of the Board, the issues before the Board are sufficiently defined, and the parties will be notified.

(b) Government—Within 30 days from receipt of the complaint, or the aforesaid notice from the Board, the Government shall file with the Board an answer thereto. The answer shall admit or deny the allegations of the complaint and shall set forth simple, concise, and direct statements of the Government’s defenses to each claim asserted by the appellant, including any affirmative defenses. Should the answer not be timely received, the Board may enter a general denial on behalf of the Government, and the parties will be notified.

(c) Foreign Law—A party who intends to raise an issue concerning the law of a foreign country shall give notice in its pleadings or other reasonable written notice. The Board, in determining foreign law, may consider any relevant material or source, including testimony, whether or not submitted by a party or admissible under Rules 10, 11, or 13. The determination of foreign law shall be treated as a ruling on a question of law.

(d) Further Pleadings—The Board upon its own initiative or upon motion may order a party to make a more definite statement of the complaint or answer, or to reply to an answer. The Board may permit either party to amend its pleading upon conditions fair to both parties. When issues within the proper scope of the appeal, but not raised by the pleadings, are tried by express or implied consent of the parties, or by permission of the Board, they shall be treated in all respects as if they had been raised therein. In such instances, motions to amend the pleadings to conform to the proof may be entered, but are not required. If evidence is objected to at a hearing on the ground that it is not within the issues raised by the pleadings, it may be admitted within the proper scope of the appeal, provided however, that the objecting party may be granted an opportunity to meet such evidence.

Rule 7. Motions

(a) Motions Generally—The Board may entertain and rule upon motions and may defer ruling as appropriate. The Board will rule on motions so as to secure, to the fullest extent practicable, the informal, expeditious, and inexpensive resolution of

appeals. All motions should be filed as separate documents with an appropriate heading describing the motion. Oral argument on motions is subject to the discretion of the Board.

(b) Jurisdictional Motions—Any motion addressed to the jurisdiction of the Board should be promptly filed. An evidentiary hearing to address disputed jurisdictional facts will be afforded on application of either party or by order of the Board. The Board may defer its decision on the motion pending hearing on the merits. The Board may at any time and on its own initiative raise the issue of its jurisdiction, and shall do so by an appropriate order, affording the parties an opportunity to be heard thereon.

(c) Summary Judgment Motions—

(1) To facilitate disposition of such a motion, the parties should adhere to the following procedures. Where the parties agree that disposition by summary judgment or partial summary judgment is appropriate, they may file a stipulation of all material facts necessary for the Board to rule on the motion. Otherwise, the moving party should file with its motion a “Statement of Undisputed Material Facts,” setting forth the claimed undisputed material facts in separate, numbered paragraphs. The non-moving party should file a “Statement of Genuine Issues of Material Fact,” responding to each numbered paragraph proposed, demonstrating, where appropriate, the existence of material facts in dispute and if appropriate propose additional facts. The moving party and the non-moving party should submit a memorandum of law supporting or opposing summary judgment.

(2) In deciding motions for summary judgment, the Board looks to Rule 56 of the Federal Rules of Civil Procedure for guidance. The parties should explicitly state and support by specific evidence all facts and legal arguments necessary to sustain a party’s position. Each party should cite to the record and attach any additional evidence upon which it relies (e.g., affidavits, declarations, excerpts from depositions, answers to interrogatories, admissions). The Board may accept a fact properly proposed and supported by one party as undisputed, unless the opposing party properly responds and establishes that it is in dispute.

(d) Response to Motions—A non-moving party has 30 days from receipt of a motion to file its response, unless a different period is ordered by the Board. A moving party has 30 days from receipt of a non-moving party’s response to file a reply, unless a different period is ordered by the Board.

Rule 8. Discovery

(a) General Policy and Protective Orders—The parties are encouraged to engage in voluntary discovery procedures. Within 45 days after the pleadings have been filed, the parties must confer concerning each party’s discovery needs, including the scheduling of discovery and the production of electronically stored information. Absent stipulation or a Board order, no discovery may be served prior to this conference. Any motion pertaining to a discovery dispute shall include a statement that the movant has in good faith attempted to resolve the discovery dispute without involvement of the Board. In connection with any discovery procedure, the Board may issue orders to protect a party or person from annoyance, embarrassment, or undue burden or expense. Those orders may include limitations on the scope, method, time, and place for discovery, and provisions for governing the disclosure of information or documents. Any discovery under this Rule shall be subject to the provisions of Rule 16 with respect to sanctions.

(b) Depositions—When Permitted—Subject to paragraph (a) of this Rule, a party may take, or the Board may upon motion order the taking of, testimony of any person by deposition upon oral examination or written interrogatories before any officer authorized to administer oaths at the place of examination, for use as evidence or for purpose of discovery. The Board expects the parties to make persons under their control available for deposition. The motion for an order shall specify whether the purpose of the deposition is discovery or for use as evidence.

(1) Depositions—Orders—The time, place, and manner of taking depositions shall be as mutually agreed by the parties, or failing such agreement, governed by order of the Board.

(2) Depositions—Use as Evidence—No testimony taken by deposition shall be considered as part of the evidence in the hearing of an appeal until such testimony is offered and received in evidence at such hearing. It will not ordinarily be received in evidence if the deponent can testify at the hearing. The deposition may be used to contradict or impeach the testimony of the deponent given at a hearing. In cases submitted on the record, the Board may receive depositions to supplement the record.

(3) Depositions—Expenses—Each party shall bear its own expenses associated with the taking of any deposition, absent an agreement by the parties or a Board order to the contrary.

(4) Depositions—Subpoenas—Where appropriate, a party may request the issuance of a subpoena under the provisions of Rule 22.

(c) Interrogatories, Requests for Admissions, Requests for Production—Subject to paragraph (a) of this Rule, a party may serve, or the Board may upon motion order:

(1) Written interrogatories to be answered separately in writing, signed under oath and answered or objected to within 45 days after service;

(2) A request for the admission of specified facts and/or of the authenticity of any documents, to be answered or objected to within 45 days after service, the factual statements and/or the authenticity of the documents to be deemed admitted upon failure of a party to respond to the request; and

(3) A request for the production, inspection, and copying of any documents, electronic or otherwise, or objects, not privileged, which reasonably may lead to the discovery of admissible evidence, to be answered or objected to within 45 days after service. The Board may allow a shorter or longer time.

Rule 9. Pre-Hearing or Pre-Submission Conference

The Board may, upon its own initiative, or upon the request of either party, arrange a conference or order the parties to appear before an Administrative Judge or examiner for a conference to address any issue related to the prosecution of the appeal.

Rule 10. Hearings

(a) Where and When Held—Hearings will be held at such times and places determined by the Board to best serve the interests of the parties and the Board.

(b) Unexcused Absence—The unexcused absence of a party at the time and place set for hearing will not be occasion for delay. In the event of such absence, the hearing will proceed and the evidentiary record will consist solely of the evidence of record at the conclusion of the hearing, except as ordered otherwise by the Board.

(c) Nature of Hearings—Hearings shall be as informal as may be reasonable and appropriate under the circumstances. The parties may offer such evidence as they deem appropriate and as would be admissible under the Federal Rules of Evidence or in the sound discretion of the presiding Administrative Judge or examiner. The Federal Rules of Evidence are not binding on the Board but may guide the Board's rulings. The parties may stipulate the testimony that would be given by a witness if the witness were present. The Board may require evidence in addition to that offered by the parties.

(d) Examination of Witnesses—Witnesses will be examined orally under oath or affirmation, unless the presiding Administrative Judge or examiner shall otherwise order. If the testimony of a witness is not given under oath or affirmation, the Board may advise the witness that his or her testimony may be subject to any provision of law imposing penalties for knowingly making false representations in connection with claims.

(e) Interpreters—In appropriate cases, the Board may order that an interpreter be used. An interpreter must be qualified and must be placed under oath or affirmation to give a complete and true translation.

(f) Transcripts—Testimony and argument at hearings will be reported verbatim, unless the Board otherwise orders. The Board will contract for a reporter. No other recordings of the proceedings will be made.

Rule 11. Submission Without a Hearing

(a) Either party may elect to waive a hearing and to submit its case upon the record. Submission of a case without hearing does not relieve the parties from the necessity of proving the facts supporting their allegations or defenses. Affidavits, declarations, depositions, admissions, answers to interrogatories, and stipulations may be employed in addition to the Rule 4 file if moved and accepted into evidence. Such submissions may be supplemented by briefs. The Board may designate, with notice to the parties, any document to be made part of the record.

(b) As appropriate, the Board may also rely on pleadings, prehearing conference memoranda, orders, briefs, stipulations and other documents contained in the Board's file.

(c) Except as the Board may otherwise order, no evidence will be received after notification by the Board that the record is closed.

(d) The weight to be given to any evidence will rest within the discretion of the Board. The Board may require either party, with appropriate notice to the other party, to submit additional evidence on any matter relevant to the appeal.

(e) The record will at all reasonable times be available for inspection by the parties at the offices of the Board.

Rule 12. Optional Small Claims (Expedited) and Accelerated Procedures

12.1 Elections to Utilize Small Claims (Expedited) and Accelerated Procedures

(a) In appeals where the amount in dispute is \$50,000 or less, or in the case of a small business concern (as defined in the Small Business Act and regulations under that Act), \$150,000 or less, the appellant may elect to have the appeal processed under a Small Claims (Expedited) procedure requiring decision of the appeal, whenever possible, within 120 days after the Board receives written notice of the appellant's election to utilize this procedure. The details of this procedure appear in section 12.2 of this Rule. An appellant may elect the Accelerated procedure rather than the Small Claims (Expedited) procedure for any appeal where the amount in dispute is \$50,000 or less.

(b) In appeals where the amount in dispute is \$100,000 or less, the appellant may elect to have the appeal processed under an Accelerated procedure requiring decision of the appeal, whenever possible, within 180 days after the Board receives written notice of the appellant's election to utilize this procedure. The details of this procedure appear in section 12.3 of this Rule.

(c) The appellant's election of either the Small Claims (Expedited) procedure or the Accelerated procedure shall be made by written notice within 60 days after receipt of notice of docketing, unless such period is extended by the Board for good cause. The election, once made, may not be changed or withdrawn except with permission of the Board and for good cause.

(d) The 45-day conference required by Rule 8(a) does not apply to Rule 12 appeals.

12.2 Small Claims (Expedited) Procedure

(a) In appeals proceeding under the Small Claims (Expedited) procedure, the following time periods shall apply:

(1) Within 10 days from the Government's receipt of the appellant's notice of election of the Small Claims (Expedited) procedure, the Government shall send the Board a copy of the contract, the contracting officer's final decision, and the appellant's claim letter or letters, if any. Any other documents required under Rule 4 shall be submitted in accordance with times specified in that Rule unless the Board otherwise directs.

(2) Within 15 days after the Board has acknowledged receipt of the appellant's notice of election, the assigned Administrative Judge should take the following actions, if feasible, in a pre-hearing conference:

- (i) Identify and simplify the issues;
- (ii) Establish a simplified procedure, including discovery, appropriate to the particular appeal involved;
- (iii) Determine whether either party elects a hearing, and if so, fix a time and place therefor; and
- (iv) Establish an expedited schedule for the timely resolution of the appeal.

(b) Pleadings, discovery, and other prehearing activity will be allowed only as consistent with the requirement to conduct a hearing, or if no hearing is elected, to close the record on a date that will allow the timely issuance of the decision. The Board may shorten time periods prescribed or allowed under these Rules as necessary to enable the Board to decide the appeal within the 120-day period.

(c) Written decisions by the Board in appeals processed under the Small Claims (Expedited) procedure will be short and will contain only summary findings of fact and conclusions. Decisions will be rendered for the Board by a single Administrative Judge. If there has been a hearing, the Administrative Judge presiding at the hearing may at the conclusion of the hearing and after entertaining such oral argument as deemed appropriate, render on the record oral summary findings of fact, conclusions, and a decision of the appeal. Whenever such an oral decision is rendered, the Board will subsequently furnish the parties an authenticated copy of such oral decision for record and payment purposes and to establish the starting date for the period for filing a motion for reconsideration under Rule 20.

(d) A decision under Rule 12.2 shall have no value as precedent, and in the absence of fraud, shall be final and conclusive and may not be appealed or set aside.

12.3 Accelerated Procedure

(a) In appeals proceeding under the Accelerated procedure, the parties are encouraged, to the extent possible consistent with adequate presentation of their factual and legal positions, to waive pleadings, discovery, and briefs. The Board may shorten time periods prescribed or allowed under these Rules as necessary to enable the Board to decide the appeal within the 180-day period.

(b) Within 30 days after the Board has acknowledged receipt of the appellant's notice of election, the assigned Administrative Judge should take the following actions, if feasible, in a pre-hearing conference:

- (1) Identify and simplify the issues;
- (2) Establish a simplified procedure, including discovery, appropriate to the particular appeal involved;

- (3) Determine whether either party elects a hearing, and if so, fix a time and place therefor; and
- (4) Establish an accelerated schedule for the timely resolution of the appeal.
- (c) Written decisions by the Board in appeals processed under the Accelerated procedure will normally be short and contain only summary findings of fact and conclusions. Decisions will be rendered for the Board by a single Administrative Judge with the concurrence of a Vice Chairman, or by a majority among these two and the Chairman in case of disagreement.

12.4 Motions for Reconsideration in Rule 12 Appeals

Motions for reconsideration of appeals decided under either the Small Claims (Expedited) procedure or the Accelerated procedure need not be decided within the original 120-day or 180day limit, but all such motions will be processed and decided promptly so as to be consistent with the intent of this Rule.

Rule 13. Settling the Record in Appeals with a Hearing

- (a) The record upon which the Board's decision will be rendered consists of the documents admitted under Rule 4, the documents admitted into evidence as hearing exhibits, together with the hearing transcript. The Board may designate with notice to the parties, any document to be made part of the record.
- (b) As appropriate, the Board may also rely on pleadings, pre-hearing conference memoranda, orders, briefs, stipulations, and other documents contained in the Board's file.
- (c) Except as the Board may otherwise order, no evidence will be received after completion of an oral hearing.
- (d) The weight to be given to any evidence will rest within the discretion of the Board. The Board may require either party, with appropriate notice to the other party, to submit additional evidence on any matter relevant to the appeal.
- (e) The record will at all reasonable times be available for inspection by the parties at the offices of the Board.

Rule 14. Briefs

- (a) Pre-Hearing Briefs—The Board may require the parties to submit pre-hearing briefs. If the Board does not require pre-hearing briefs, either party may, upon appropriate and sufficient notice to the other party, furnish a pre-hearing brief to the Board.
- (b) Post-Hearing Briefs—Post-hearing briefs may be submitted upon such terms as may be directed by the presiding Administrative Judge or examiner at the conclusion of the hearing.

Rule 15. Representation

- (a) An individual appellant may represent his or her interests before the Board; a corporation may be represented by one of its officers; and a partnership or joint venture by one of its members; or any of these by an attorney at law duly licensed in any state, commonwealth, territory, the District of Columbia, or in a foreign country. Anyone representing an appellant shall file a written notice of appearance with the Board.
- (b) The Government shall be represented by counsel. Counsel for the Government shall file a written notice of appearance with the Board.

Rule 16. Sanctions

If any party fails to obey an order issued by the Board, the Board may impose such sanctions as it considers necessary to the just and expeditious conduct of the appeal.

Rule 17. Dismissal or Default for Failure to Prosecute or Defend

Whenever the record discloses the failure of either party to file documents required by these Rules, respond to notices or correspondence from the Board, comply with orders of the Board, or otherwise indicates an intention not to continue the prosecution or defense of an appeal, the Board may, in the case of a default by the appellant, issue an order to show cause why the appeal should not be dismissed with prejudice for failure to prosecute. In the case of a default by the Government, the Board may issue an order to show cause why the Board should not act thereon pursuant to Rule 16. If good cause is not shown, the Board may take appropriate action.

Rule 18. Suspensions; Dismissal Without Prejudice

- (a) The Board may suspend the proceedings by agreement of the parties for settlement discussions, or for good cause shown.

(b) In certain cases, appeals docketed before the Board are required to be placed in a suspense status and the Board is unable to proceed with disposition thereof for reasons not within the control of the Board. Where the suspension has continued, or may continue, for an inordinate length of time, the Board may dismiss such appeals from its docket for a period of time without prejudice to their restoration. Unless either party or the Board moves to reinstate the appeal within the time period set forth in the dismissal order, or if no time period is set forth, within one year from the date of the dismissal order, the dismissal shall be deemed to be with prejudice.

Rule 19. Decisions

(a) Decisions of the Board will be made in writing and authenticated copies of the decision will be sent simultaneously to both parties. All orders and decisions, except those as may be required by law to be held confidential, will be available to the public. Decisions of the Board will be made solely upon the record.

(b) Any monetary award shall be promptly paid.

(c) In awards that may be paid from the Judgment Fund, 31 U.S.C. 1304, the Recorder will forward the required forms to each party with the decision. If the parties do not contemplate an appeal or motion for reconsideration, they will execute the forms indicating that no judicial review will be sought. The Government agency will forward the required forms with a copy of the decision to the Department of the Treasury for certification of payment.

(d) When the parties settle an appeal in favor of the appellant, they may file with the Board a stipulation setting forth the amount of the settlement due to the appellant. By joint motion, the parties may request that the Board issue a decision in the nature of a consent judgment, awarding the stipulated amount to the appellant. These decisions will be processed in accordance with paragraph (c) of this Rule.

(e) After a decision has become final the Board may, upon request of a party and after notice to the other party, grant the withdrawal of original exhibits, or any part thereof. The Board may require the substitution of true copies of exhibits or any part thereof as a condition of granting permission for such withdrawal.

Rule 20. Motion for Reconsideration

A motion for reconsideration may be filed by either party. It shall set forth specifically the grounds relied upon to grant the motion. The motion must be filed within 30 days from the date of the receipt of a copy of the decision of the Board by the party filing the motion. An opposing party must file any cross-motion for reconsideration within 30 days from its receipt of the motion for reconsideration. Extensions in the period to file a motion will not be granted. Extensions to file a memorandum in support of a timely-filed motion may be granted.

Rule 21. Remand from Court

Whenever any Court remands an appeal to the Board for further proceedings, each of the parties shall, within 30 days of receipt of such remand, submit a report to the Board recommending procedures to be followed so as to comply with the Court's remand. The Board will consider the reports and enter an order governing the remanded appeal.

Rule 22. Subpoenas

(a) Voluntary Cooperation—Each party is expected:

(1) To cooperate and make available witnesses and evidence under its control as requested by the other party without issuance of a subpoena, and

(2) To secure voluntary attendance of desired third-party witnesses and production of desired third-party books, records, documents, or tangible things whenever possible.

(b) General—Upon written request of either party, or on his or her own initiative, an Administrative Judge may issue a subpoena requiring:

(1) Testimony at a deposition—The deposing of a witness in the city or county where the witness resides or is employed or transacts business in person, or at another location convenient for the witness that is specifically determined by the Board;

(2) Testimony at a hearing—The attendance of a witness for the purpose of taking testimony at a hearing; and

(3) Production of books and records—The production by the witness at the deposition or hearing of books and records (including electronically stored information and other tangible things) designated in the subpoena.

(c) Request for Subpoena—

(1) A request for subpoena shall normally be filed at least:

(i) 15 days before a scheduled deposition where the attendance of a witness at a deposition is sought; or

(ii) 30 days before a scheduled hearing where the attendance of a witness at a hearing is sought.

(2) The Board may honor a request for subpoena not made within the time limitations set forth in paragraph (c)(1) of this Rule.

(3) A request for a subpoena shall state the reasonable scope and general relevance to the case of the testimony and of any books and records sought. The Board may require resubmission of a request that does not provide this information.

(d) Requests to Quash or Modify—Upon written request by the person subpoenaed or by a party, made within 10 days after service but in any event not later than the time specified in the subpoena for compliance, the Board may quash or modify the subpoena if it is unreasonable or oppressive or for other good cause shown, or require the person in whose behalf the subpoena was issued to advance the reasonable cost of producing subpoenaed books and papers. Where circumstances require, the Board may act upon such a request at any time after a copy of the request has been served upon the opposing party.

(e) Form of Subpoena—

(1) Every subpoena shall state the name of the Board and the caption of the appeal, and shall command each person to whom it is directed to attend and give testimony, and if appropriate, to produce specified books and records at a time and place therein specified. In issuing a subpoena to a requesting party, the Administrative Judge will sign the subpoena, enter the name of the witness and may otherwise leave it blank. The party to whom the subpoena is issued shall complete the subpoena before service.

(2) Where the witness is located in a foreign country, a letter rogatory may be issued and served under the circumstances and in the manner provided in 28 U.S.C. 1781.

(f) Service—

(1) The party requesting issuance of a subpoena shall arrange for service.

(2) A subpoena requiring the attendance of a witness at a deposition or hearing may be served in any state, commonwealth, territory, or the District of Columbia. A subpoena may be served by a United States marshal or deputy marshal, or by any other person who is not a party and not less than 18 years of age. Service of a subpoena upon a person named therein shall be made by personally delivering a copy to that person and tendering the fees for one day's attendance and the mileage provided by 28 U.S.C. 1821 or other applicable law. However, where the subpoena is issued on behalf of the Government, payment need not be tendered in advance of attendance.

(3) The party at whose instance a subpoena is issued shall be responsible for the payment of fees and mileage of the witness and of the officer who serves the subpoena. The failure to make payment of such charges on demand may be deemed by the Board as a sufficient ground for striking such evidence as the Board deems appropriate.

(g) Contumacy or Refusal to Obey a Subpoena—In case of contumacy or refusal to obey a subpoena by a person who resides, is found, or transacts business within the jurisdiction of a United States District Court, the Board may apply to the Court through the Attorney General of the United States for an order requiring the person to appear before the Board to give testimony or produce evidence or both. Any failure of any such person to obey the order of the Court may be punished by the Court as a contempt thereof.

Rule 23. Ex Parte Communications

No member of the Board or of the Board's staff shall entertain, nor shall any person directly or indirectly involved in an appeal, submit to the Board or the Board's staff, ex parte, any evidence, explanation, analysis, or advice, whether written or oral, regarding any matter at issue in an appeal. This Rule does not apply to consultation among Board members or its staff or to ex parte communications concerning the Board's administrative functions or procedures.

Rule 24. Effective Date

These rules and addendums are applicable to appeals processed under the Contract Disputes Act (CDA), 41 U.S.C. 7101-7109, and other appeals to the extent consistent with law. They apply to all appeals filed on or after the date of final publication in the Federal Register, and to those appeals filed before that date, unless that application is inequitable or unfair.

ADDENDUM I

EQUAL ACCESS TO JUSTICE ACT PROCEDURES

(a) Definitions—

For the purpose of these procedures:

(1) "Equal Access to Justice Act," or "EAJA," means 5 U.S.C. 504, as amended;

(2) "Board" means the Armed Services Board of Contract Appeals; and

(3) "Contract Disputes Act" means the Contract Disputes Act, 41 U.S.C. 71017109 (CDA).

(b) Scope of procedures—These procedures are intended to assist the parties in the processing of EAJA applications for award of fees and other expenses incurred in connection with appeals pursuant to the CDA.

(c) Eligibility of applicants—

(1) To be eligible for an EAJA award, an applicant must be a party appellant that has prevailed in a CDA appeal before the Board and must be one of the following:

(i) An individual with a net worth which did not exceed \$2,000,000 at the time the appeal was filed; or

(ii) Any owner of an unincorporated business, or any partnership, corporation, association, unit of local Government, or organization, the net worth of which does not exceed \$7,000,000 and which does not have more than 500 employees; except:

(A) Certain charitable organizations or cooperative associations; and

(B) For the purposes of 5 U.S.C. 504(a)(4), a small entity as defined in 5 U.S.C. 601, need not comply with any net worth requirement (see 5 U.S.C. 504(b)(1)(B)).

(2) For the purpose of eligibility, the net worth and number of employees of an applicant shall be determined as of the date the underlying CDA appeal was filed with the Board.

(d) Standards of awards—A prevailing eligible applicant shall receive an award of fees and expenses incurred in connection with a CDA appeal, unless the position of the Government over which the applicant prevailed was substantially justified, or if special circumstances make the award unjust.

(e) Allowable fees and other expenses—

(1) Fees and other expenses must be reasonable. Awards will be based upon the prevailing market rates, subject to paragraph (e)(2) of this section, for the kind and quality of services furnished by attorneys, agents, and expert witnesses.

(2) No award for the fee of an attorney or agent may exceed \$125 per hour. No expert witness shall be compensated at a rate in excess of the highest rate of compensation for expert witnesses paid by the agency involved.

(3) The reasonable cost of any study, analysis, engineering report, test, or project, prepared on behalf of a party may be awarded, to the extent that the study or other matter was necessary in connection with the appeal and the charge for the service does not exceed the prevailing rate for similar services.

(f) Time for filing of applications—An application may be filed after an appellant has prevailed in the CDA appeal within 30 days after the Board's disposition of the appeal has become final.

(g) Application contents—

(1) An EAJA application shall comply with each of the following:

(i) Show that the applicant is a prevailing party;

(ii) Show that the applicant is eligible to receive an award;

(iii) Allege that the position of the government was not substantially justified; and

(iv) Show the amount of fees and other expenses sought, including an itemized statement thereof.

(2) An original and one copy of the application and exhibits should be filed with the Board. The applicant will forward one copy to the Government.

(3) When a compliant application has been timely filed, the Board, in order to obtain more detailed information, may require supplementation of the application.

(h) Net worth exhibit—Each applicant for which a determination of net worth is required under the EAJA should provide with its application a detailed net worth exhibit showing the net worth of the applicant when the CDA appeal was filed. The exhibit may be in any form convenient to the applicant that provides full disclosure of assets, liabilities, and net worth.

(i) Fees and other expenses exhibit—The application should be accompanied by a detailed fees and other expenses exhibit fully documenting the fees and other expenses, including the cost of any study, analysis, engineering report, test, or project, for which an award is sought. The date and a description of all services rendered or costs incurred should be indicated. A separate itemized statement should be submitted for each professional firm or individual whose services are covered by the application showing the hours spent in connection with the CDA appeal by each individual, a description of the particular services performed by specific date, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by any other person or entity for the services provided. The Board may require the applicant to provide vouchers, receipts, or other substantiation for any expenses sought.

(j) Answer to application—

(1) Within 30 days after receipt by the Government of an application, the Government may file an answer. Unless the Government requests an extension of time for filing or files a statement of intent to negotiate under paragraph (2) below, failure to file an answer within the 30-day period may be treated by the Board at its discretion as a general denial to the application on behalf of the Government.

(2) If the Government and the applicant believe that the matters raised in the application can be resolved by mutual agreement, they may jointly file a statement of intent to negotiate a settlement. Filing of this statement will extend the time for filing an answer for an additional 30 days. Further extensions may be requested by the parties.

(3) The answer will explain in detail any objections to the award requested and identify the facts relied upon in support of the Government's position.

(4) An original and one copy of the answer should be filed with the Board. The Government will forward one copy to the applicant.

(k) Reply—Within 15 days after receipt of an answer, the applicant may file a reply. An original and one copy of the reply will be filed with the Board. The applicant will forward one copy to the Government.

(l) Award proceedings—

(1) The Board may enter an order prescribing the procedure to be followed or take such other action as may be deemed appropriate under the EAJA. Further proceedings will be held only when necessary for full and fair resolution of the issues arising from the application.

(2) A request that the Board order further proceedings under this paragraph will describe the disputed issues, explain why the additional proceedings are deemed necessary to resolve the issues and specifically identify any information sought and its relationship to the disputed issues.

(m) Evidence—

(1) Decisions on the merits—When a CDA appeal is decided on the merits, other than by a consent judgment, the record relating to whether the Government's position under the EAJA was substantially justified will be limited to the record in the CDA appeal. Evidence relevant to other issues in the award proceeding may be submitted.

(2) Other dispositions—When a CDA appeal is settled, or decided by a consent judgment, either party in proceedings under the EAJA may, for good cause shown, supplement the record established in the CDA appeal with affidavits and other supporting evidence relating to whether the position of the agency was substantially justified or other issues in the award proceeding.

(n) Decision—Decisions under the EAJA will be rendered by the Administrative Judge or a majority of the judges who would have participated in a motion for reconsideration of the underlying CDA appeal. The decision of the Board will include written findings and conclusions and the basis therefor. The Board's decision on an application for fees and other expenses under the EAJA will be the final administrative decision regarding the EAJA application.

(o) Motions for reconsideration—Either party may file a motion for reconsideration. Motions for reconsideration must be filed within 30 days of receipt of the Board's EAJA decision. Extensions in the period to file a motion will not be granted. Extensions to file a memorandum in support of a timely filed motion may be granted.

(p) Payment of Awards—The Board's EAJA awards will be paid directly by the contracting agency over which the applicant prevailed in the underlying CDA appeal.

ADDENDUM II

ALTERNATIVE METHODS OF DISPUTE RESOLUTION

1. The Contract Disputes Act (CDA), 41 U.S.C. 7105(g)(1), states that boards of contract appeals "shall ... to the fullest extent practicable provide informal, expeditious, and inexpensive resolution of disputes". Resolution of a dispute at the earliest stage feasible, by the fastest and least expensive method possible, benefits both parties. To that end, the parties are encouraged to consider Alternative Dispute Resolution (ADR) procedures for pre-claim and pre-final decision matters, as well as appeals pending before the Board. The Board may also conduct ADRs for any Federal agency. However, if the matter is not pending before the Board under its CDA jurisdiction, any settlement may not be paid out of the Judgment Fund.

2. The ADR methods described in this Addendum are intended to suggest techniques that have worked in the past. Any appropriate method that brings the parties together in settlement, or partial settlement, of their disputes is a good method. The ADR methods listed are not intended to preclude the parties' use of other ADR techniques that do not require the Board's participation, such as settlement negotiations, fact-finding conferences or procedures, mediation, or minitrials not involving use of the Board's personnel. Any method, or combination of methods, including one that will result in a binding decision, may be selected by the parties without regard to the dollar amount in dispute.

3. The parties must jointly request ADR procedures at the Board. The request must be approved by the Board. The Board may also schedule a conference to explore the desirability and selection of an ADR method and related procedures.

If an ADR involving the Board's participation is requested and approved by the Board, a Neutral will be appointed. If an Administrative Judge has already been assigned to an appeal, the same judge will normally be assigned to be the Neutral in an ADR. If an Administrative Judge has not yet been assigned to the appeal, or if the subject of the ADR is a matter pending before the contracting officer prior to any appeal, the Board will appoint an Administrative Judge to be the Neutral. In such instances, as well as situations in which the parties prefer that an assigned Administrative Judge not be appointed to serve as the Neutral, the parties may submit a list of at least three preferred Administrative Judges and the Board will endeavor to accommodate their preferences.

4. To facilitate full, frank and open discussion and presentations, any Neutral who has participated in a non-binding ADR procedure that has failed to resolve the underlying dispute will be recused from further participation in the matter unless the parties expressly agree otherwise in writing and the Board concurs. Further, the recused Neutral will not discuss the merits of the dispute or substantive matters involved in the ADR proceedings with other Board personnel.

5. Written material prepared specifically for use in an ADR proceeding, oral presentations made at an ADR proceeding, and all discussions in connection with such proceedings between the parties and the Neutral are confidential and, unless otherwise specifically agreed by the parties, inadmissible as evidence in any pending or future Board proceeding involving the parties or matter in dispute. However, evidence otherwise admissible before the Board is not rendered inadmissible because of its use in the ADR proceeding.

6. The ADR method and the procedures and requirements implementing the ADR method will be prescribed by the written agreement of the parties and approved by the Board. ADR methods can be used successfully at any stage of the litigation.

7. The following are examples of ADR methods commonly used at the Board:

(a) Nonbinding—

Mediations: A Neutral is an Administrative Judge who will not normally hear or have any formal or informal decision-making authority in the matter and who is appointed for the purpose of facilitating settlement. In many circumstances, settlement can be fostered by a frank, in-depth discussion of the strengths and weaknesses of each party's position with the Neutral. The agenda for meetings with the Neutral will be flexible to accommodate the requirements of the case. To further the settlement effort, the Neutral may meet with the parties either jointly or individually. A Neutral's recommendations are not binding on the parties. When this method is selected, the ADR agreement must contain a provision in which the parties and counsel agree not to subpoena the Neutral in any legal action or administrative proceeding of any kind to produce any notes or documents related to the ADR proceeding or to testify concerning any such notes or documents or concerning his/her thoughts or impressions.

(b) Binding—

Summary Proceeding With Binding Decision: A summary proceeding with binding decision is a procedure whereby the resolution of the appeal is expedited and the parties try their appeal informally before an Administrative Judge. A binding "bench" decision may be issued upon conclusion of the proceeding, or a binding summary written decision will be issued by the judge no later than ten days following the later of conclusion of the proceeding or receipt of a transcript. The parties must agree in the ADR agreement that all decisions, rulings, and orders by the Board under this method shall be final, conclusive, not appealable, and may not be set aside, except for fraud. All such decisions, rulings, and orders will have no precedential value. Prehearing, hearing, and post-hearing procedures and rules applicable to appeals generally will be modified or eliminated to expedite resolution of the appeal.

(c) Other Agreed Methods—

The parties and the Board may agree upon other informal methods, binding or nonbinding that are structured and tailored to suit the requirements of the individual case.

8. The above-listed ADR procedures are intended to shorten and simplify the Board's more formalized procedures. Generally, if the parties resolve their dispute by agreement, they benefit in terms of cost and time savings and maintenance or restoration of amicable relations. The Board will not view the parties' participation in ADR proceedings as a sign of weakness. Any method adopted for dispute resolution depends upon both parties having a firm, good faith commitment to resolve their differences. Absent such intention, the best structured dispute resolution procedure is unlikely to be successful.

ARMED SERVICES BOARD OF CONTRACT APPEALS

This page intentionally left blank.

Part 1 -Charter

1. There is created the Armed Services Board of Contract Appeals which is hereby designated as the authorized representative of the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy and the Secretary of the Air Force, in hearing, considering and determining appeals by contractors from decisions of contracting officers or their authorized representatives or other authorities on disputed questions. These appeals may be taken (a) pursuant to the Contract Disputes Act of 1978 (41 U.S.C. Sect. 601, et seq.), (b) pursuant to the provisions of contracts requiring the decision by the Secretary of Defense or by a Secretary of a Military Department or their duly authorized representative, or (c) pursuant to the provisions of any directive whereby the Secretary of Defense or the Secretary of a Military Department or their authorized representative has granted a right of appeal not contained in the contract on any matter consistent with the contract appeals procedure. The Board may determine contract disputes for other departments and agencies by agreement as permitted by law. The Board shall operate under general policies established or approved by the Under Secretary of Defense for Acquisition, Technology and Logistics and may perform other duties as directed not inconsistent with the Contract Disputes Act of 1978.

2. Membership of the Board shall consist of attorneys at law who have been qualified in the manner prescribed by the Contract Disputes Act of 1978. Members of the Board are hereby designated Administrative Judges. There shall be appointed from the Judges of the Board a Chairman and two or more Vice-Chairmen. Appointment of the Chairman and Vice-Chairmen and other Judges of the Board shall be made by the Under Secretary of Defense for Acquisition, Technology and Logistics, the General Counsel of the Department of Defense, and the Assistant Secretaries of the Military Departments responsible for acquisition. The Chairman may designate a Judge of the Board to serve as an Acting Chairman or Acting Vice Chairman.

3. It shall be the duty and obligation of the Judges of the Armed Services Board of Contract Appeals to decide appeals on the record of the appeal to the best of their knowledge and ability in accordance with applicable contract provisions and in accordance with law and regulation pertinent thereto.

4. The Chairman of the Board shall be responsible for establishing appropriate divisions of the Board to provide for the most effective and expeditious handling of appeals. The Chairman shall designate one Judge of each division as the division head. The Chairman may refer an appeal of unusual difficulty, significant precedential importance, or serious dispute within the normal decision process for decision by the senior deciding group. The division heads and the Chairman and Vice-Chairmen, together with, if applicable, the author of the decision so referred, shall constitute the senior deciding group of the Board. The decision of the Board in cases so referred to the senior deciding group shall be by majority vote of the participating Judges of that group. A majority of the Judges of a division shall constitute a quorum for the transaction of the business of each, respectively. Decisions of the Board shall be by majority vote of the Judges of a division participating and the Chairman and a Vice-Chairman, unless the Chairman refers the appeal for decision by the senior deciding group. An appeal involving a small claim as defined by the Contract Disputes Act of 1978 may be decided by a single Judge or fewer Judges of the Board than herein before provided for cases of unlimited dollar amount, under accelerated or expedited procedures as provided in the Rules of the Board and the Contract Disputes Act of 1978.

5. The Board shall have all powers necessary and incident to the proper performance of its duties. The Board has the authority to issue methods of procedure and rules and regulations for its conduct and for the preparation and presentation of appeals and issuance of opinions.

6. Any Judge of the Board or any examiner, designated by the Chairman, shall be authorized to hold hearings, examine witnesses, and receive evidence and argument. A Judge of the Board shall have authority to administer oaths and issue subpoenas as specified in the Contract Disputes Act of 1978. In cases of contumacy or refusal to obey a subpoena, the Chairman may request orders of the court in the manner prescribed in the Contract Disputes Act of 1978.

7. The Chairman shall be responsible for the internal organization of the Board and for its administration. He shall provide within approved ceilings for the staffing of the Board with non-Judge personnel, including hearing examiners, as may be required for the performance of the functions of the Board. The Chairman shall appoint a Recorder of the Board. All personnel shall be responsible to and shall function under the direction, supervision and control of the Chairman. Judges shall decide cases independently.

8. The Board will be serviced by the Department of the Army for administrative support as required for its operations. Administrative support will include budgeting, funding, fiscal control, manpower control and utilization, personnel administration, security administration, supplies, and other administrative services. The Departments of the Army, Navy, Air Force and the Office of the Secretary of Defense will participate in financing the Board's operations on an equal basis and to the extent determined by the Under Secretary of Defense (Comptroller). The cost of processing appeals for departments and agencies other than those in the Department of Defense will be reimbursed.

9. Within 30 days following the close of a calendar quarter, the Chairman shall forward a report of the Board's proceedings for the quarter to the Under Secretary of Defense for Acquisition, Technology and Logistics, the General Counsel of the Department of Defense, the Assistant Secretaries of the Military Departments responsible for acquisition, and to the Director of the Defense Logistics Agency. The Chairman of the Board will also furnish the Secretary of Defense, the General Counsel of the Department of Defense, the Secretaries of the Military Departments, and the Director of the Defense Logistics Agency, an annual report containing an account of the Board's transactions and proceedings for the preceding fiscal year.

10. The Board shall have a seal bearing the following inscription: "Armed Services Board of Contract Appeals." This seal shall be affixed to all authentications of copies of records and to such other instruments as the Board may determine.

11. This revised charter is effective May 14, 2007.

APPROVED:

Kenneth J. Krieg
Under Secretary of Defense
(Acquisition, Technology and Logistics)

(signed)

William J. Haynes II

Part 1 -INTRODUCTION

F-101 General.

(a) This appendix contains procedures and instructions for the use, preparation, and distribution of the Wide Area Work Flow (WAWF) Receiving Report (RR), WAWF Repairable Receiving Report (WAWF RRR), the WAWF Energy RR, and commercial shipping/packing lists used to document Government contract quality assurance. The WAWF RR is the electronic equivalent of the DD Form 250, Material Inspection and Receiving Report (MIRR). The WAWF Energy RR is the electronic equivalent of the DD Form 250 for overland shipments and DD Form 250-1, Tanker/Barge Material Inspection and Receiving Report, for waterborne shipments. The WAWF RRR is the electronic equivalent of the DD Form 250 for repair, maintenance, or overhaul of Government-furnished property.

(b) The use of the DD Form 250 series documents is on an exception basis (see DFARS (a)) because use of the WAWF RR is now required by most DoD contracts. WAWF provides for electronic preparation and documentation of acceptance of supplies and services, and electronic invoicing. In addition WAWF allows the printing of a RR that can be used as a packing list or when a signed copy is required.

F-102 Applicability.

(a) DFARS [252.232-7003](#), Electronic Submission of Payment Requests and Receiving Reports, requires payment requests and receiving reports using WAWF in nearly all cases.

(b) When DoD provides quality assurance or acceptance services for non-DoD activities, prepare a MIRR using the instructions in this appendix, unless otherwise specified in the contract.

F-103 Use.

(a) The WAWF RR, WAWF RRR, and the DD Form 250 are multipurpose reports used—

- (1) To provide evidence of Government contract quality assurance at origin or destination;
- (2) To provide evidence of acceptance at origin, destination, or other;
- (3) For packing lists;
- (4) For receiving;
- (5) For shipping;

(6) As a contractor invoice (the WAWF RR, WAWF RRR, or DD Form 250 alone cannot be used as an invoice, however the option exists to create an invoice from the Receiving Report or a Combo (Invoice and Receiving Report) both of which minimize data entry); and

(7) As commercial invoice support.

(b) Do not use the WAWF RR, WAWF RRR, or the DD Form 250 for shipments—

(1) By subcontractors, unless the subcontractor is shipping directly to the Government; or

(2) Of contract inventory. The WAWF Property Transfer document should be used for this type of shipment. Training for the preparation of this document type is available at <https://wawftraining.eb.mil>, under the Property Transfer and Receipt section.

(c) The contractor prepares the WAWF RR, WAWF RRR, or the DD Form 250, except for entries that an authorized Government representative is required to complete. When using a paper DD Form 250, the contractor shall furnish sufficient copies of the completed form, as directed by the Government representative.

(d) Use the WAWF Energy RR or the DD Form 250-1:

(1) For bulk movements of petroleum products by tanker or barge to cover—

- (i) Origin or destination acceptance of cargo; or
- (ii) Shipment or receipt of Government owned products.

(2) To send quality data to the point of acceptance in the case of origin inspection on FOB destination deliveries or preinspection at product source. Annotate the forms with the words “INSPECTED FOR QUALITY ONLY.”

(e) In addition to the above uses, the WAWF RR and WAWF RRR provide additional functionality, not provided by the paper DD Form 250 that complies with the following requirements:

(1) Item Unique Identification (IUID), when the clause at DFARS , Item Unique Identification and Valuation is used in the contract, reporting of IUID data is required. WAWF captures the IUID data and forwards the data to the IUID registry after acceptance. WAWF shall be used to report Unique Item Identifiers (UIIs) at the line item level, unless an exception to WAWF applies, and can also be used to report UIIs embedded at the line item level.

(2) Radio Frequency Identification (RFID), when the clause at DFARS , Radio Frequency Identification, is used in the contract, WAWF will capture the RFID information and forward the data to the receiving location. Using WAWF is the only way a contractor can comply with the clause to furnish RFID data via an Advance Shipping Notice (ASN). The RFID information may be added at time of submission, or via the WAWF Pack Later functionality after acceptance.

(3) Reporting of Government-furnished property, when the clause at DFARS , Reporting of Government-Furnished Property, is used in the contract, use of the WAWF RRR will capture the shipment of Government-furnished property items after acceptance of repair services and forward the data to the IUID registry. WAWF is the only way a contractor can report the transfer of Government-furnished property items in the IUID registry.

F-104 Application.

(a) WAWF RR and DD Form 250.

(1) Use the WAWF RR or DD Form 250 for delivery of contract line, subline, exhibit line, or exhibit subline items. Do not use the WAWF RR or DD Form 250 for those exhibit line or exhibit subline items on a DD Form 1423, Contract Data Requirements List, that indicate no DD Form 250 is required.

(2) If the shipped to, marked for, shipped from, mode of shipment, contract quality assurance and acceptance data are the same for more than one shipment made on the same day under the same contract, contractors may prepare one WAWF RR or DD Form 250 to cover all such shipments.

(3) If the volume of the shipment precludes the use of a single car, truck, or other vehicle, prepare a separate WAWF RR or DD Form 250 for the contents of each vehicle.

(4) When a shipment is consigned to an Air Force activity and the shipment includes items of more than one Federal supply class (FSC) or material management code (MMC), prepare a separate WAWF RR or DD Form 250 for items of each of the FSCs or MMCs in the shipment. However, the cognizant Government representative may authorize a single WAWF RR or DD Form 250, listing each of the FSCs or MMCs included in the shipment on a separate continuation sheet. The MMC appears as a suffix to the national stock number applicable to the item.

(5) Consolidation of Petroleum Shipments on a Single WAWF RR or DD Form 250.

(i) Contiguous United States. Contractors may consolidate multiple car or truck load shipments of petroleum made on the same day, to the same destination, against the same contract line item, on one WAWF RR or DD Form 250. To permit verification of motor deliveries, assign each load a load number which can be identified to the shipment number in Block 2 of the DD Form 250. Include a shipping document (commercial or Government) with each individual load showing as a minimum—

- (A) The shipper;
- (B) Shipping point;
- (C) Consignee;
- (D) Contract and line item number;
- (E) Product identification;
- (F) Gross gallons (bulk only);
- (G) Loading temperature (bulk only);
- (H) American Petroleum Institute gravity (bulk only);
- (I) Identification of carrier's equipment;
- (J) Serial number of all seals applied; and
- (K) Signature of supplier's representative.

When acceptance is at destination, the receiving activity retains the shipping document(s) to verify the entries on the consignee copy of the DD Form 250 forwarded by the contractor (reference F-401, Table 1) before signing Block 21b.

(ii) Overseas. The same criteria as for contiguous United States applies, except the consolidation period may be extended, if acceptable to the receiving activity, shipping activity, Government finance office, and the authorized Government representative having cognizance at the contractor's facility. In addition, the contractor may include more than one contract line item in each WAWF RR or DD Form 250 if the shipped to, marked for, shipped from, mode of shipment, contract quality assurance, and acceptance data are the same for all line items.

(6) Consolidation of Coal Shipments on a Single WAWF RR or DD 250. Contractors may consolidate multiple railcar or truck shipments of coal made on the same day, to the same destination, against the same contract line items, on one WAWF RR or DD 250. To permit verification of truck deliveries, assign each load a load number which can be identified to the shipment number in Block 2 of the DD Form 250 and the analytical test report. Include a commercial shipping document with each individual truck load showing as a minimum—

- (i) The shipper;
- (ii) The name or names;
- (iii) Location and shipping point of the mine or mines from which the coal originates;
- (iv) The contract number;
- (v) The exact size of the coal shipped; and
- (vi) A certified weighmaster's certification of weight for the truckload.

Include a waybill with each rail shipment showing the identical information. To permit verification of rail deliveries, identify each railcar number comprising the shipment to the shipment number in Block 2 of the DD Form 250 and the analytical test report. When acceptance is at destination, the receiving activity must retain the shipping document(s) to verify the entries on the consignee copy of the DD Form 250.

(b) WAWF RRR or DD Form 250. Use as in paragraph (a) of this section for delivery of services for repair, overhaul, or maintenance.

(c) WAWF Energy RR or the DD Form 250-1.

- (1) Use a separate form for each tanker or barge cargo loaded.
- (2) The contractor may report more than one barge in the same tow on a single form if on the same contract and consigned to the same destination.
- (3) When liftings involve more than one contract, prepare separate forms to cover the portion of cargo loaded on each contract.
- (4) Prepare a separate form for each product or grade of product loaded.
- (5) Use a separate document for each tanker or barge cargo and each grade of product discharged.
- (6) For discharge, the contractor may report more than one barge in the same tow on a single form if from the same loading source.

Part 2 -CONTRACT QUALITY ASSURANCE ON SHIPMENTS BETWEEN CONTRACTORS

F-201 Procedures.

Follow the procedures at PGI F-201 for evidence of required Government contract quality assurance at a subcontractor's facility.

This page intentionally left blank.

Part 3 -PREPARATION OF THE WIDE AREA WORKFLOW (WAWF) RECEIVING REPORT (RR), WAWF REPARABLE RECEIVING REPORT (WAWF RRR), AND WAWF ENERGY RR

F-301 Preparation instructions.

(a) General.

(1) Preparation instructions and training for the WAWF RR are available at <https://wawftraining.eb.mil>. The instructions on preparing a WAWF RR are part of the Vendor Training section.

(2) Prime contractors can direct subcontractors to prepare and submit documents in WAWF by giving their subcontractors access to WAWF via the creation of a Commercial and Government Entity (CAGE) extension to the prime CAGE.

(3) If the contract is in Electronic Data Access (EDA) (DoD's contract repository), then the WAWF system will automatically populate all available and applicable contract data.

(i) When source acceptance is required, WAWF will populate the "Inspect By" with the "Admin by" Department of Defense Activity Address Code (DoDAAC). The vendor shall change the DoDAAC if Government Source Inspection (GSI) is performed at other than the "Admin By."

(ii) Any fields that have been pre-filled may be changed.

(iii) WAWF will also verify that CAGE codes are valid and active in the System for Award Management (SAM), and that DoDAACs and Military Assistance Program Address Codes (MAPACs) are valid in Defense Automatic Addressing System (DAAS).

(4) WAWF will populate the address information for CAGE codes, DODAACs, and MAPACs from SAM and DAAS. These sites are the DoD definitive sources for address information. Any fields that have been pre-filled may be changed or additional information added.

(5) Do not include classified information in WAWF.

(b) Completion instructions.

(1) CONTRACT NO/DELIVERY ORDER NO.

(i) For stand-alone contracts, enter the 13-position alpha-numeric basic Procurement Instrument Identifier (PIID) of the contract. For task and delivery orders numbered in accordance with FAR 4.1603 and DFARS [204.1603](#), enter the 13-character order number. The contract or agreement number under which the order was placed may be omitted from the WAWF RR. Alternatively, the contractor may choose to enter the contract number on the WAWF RR in addition to the 13-character order number. If the order has only a four-position alpha-numeric call or order serial number, enter both the 13-position basic contract PIID and the four-position order number.

(ii) Except as indicated in paragraph (b)(1)(iii) of this appendix, do not enter supplementary numbers used in conjunction with basic PIIDs to identify—

(A) Modifications of contracts and agreements;

(B) Modifications to calls or orders; or

(C) Document numbers representing contracts written between contractors.

(iii) When shipping instructions are furnished and shipment is made before receipt of the confirming contract modification (SF 30, Amendment of Solicitation/Modification of Contract), enter a comment in the Misc. Info Tab to this effect. This will appear in the Comments section of the printed WAWF RR.

(2) SHIPMENT NO.

(i) The shipment number format requires first three data positions to be alpha, fourth position alpha-numeric and last three positions numeric, e.g., DFAR001 or DAR0001. Any document used as a packing list must include the shipment number information.

(A) The prime contractor shall control and assign the shipment number prefix. The shipment number shall consist of three alphabetic characters for each "Shipped From" address. The shipment number prefix shall be different for each "Shipped From" address and shall remain constant throughout the life of the contract. The prime contractor may assign separate prefixes when shipments are made from different locations within a facility identified by one "Shipped From" address.

(B) Number the first shipment 0001 for shipments made under the contract or contract and order number from each "Shipped From" address, or shipping location within the "Shipped From" address. Consecutively number all subsequent

shipments with the identical shipment number prefix. While shipments should be created sequentially they can be released and accepted out of sequence.

(1) Use alpha-numeric serial numbers when more than 9,999 numbers are required. Serially assign alpha-numeric numbers with the alpha in the first position (the letters I and O shall not be used) followed by the three-position numeric serial number. Use the following alpha-numeric sequence:

A000 through A999 (10,000 through 10,999)
 B000 through B999 (11,000 through 11,999)
 Z000 through Z999 (34,000 through 34,999)

(2) When this series is completely used, the shipment number prefix will have to be changed when the series is completely used. WAWF will not allow duplicate shipment numbers to be created against a contract or contract and delivery order.

(ii) Reassign the shipment number of the initial shipment where a "Replacement Shipment" is involved (see paragraph (b)(16)(iv)(F) of this appendix).

(iii) The prime contractor shall control deliveries and on the final shipment of the contract shall end the shipment number with a "Z." Where the final shipment is from other than the prime contractor's plant, the prime contractor may elect either to—

(A) Direct the subcontractor making the final shipment to end that shipment number with a "Z"; or

(B) Upon determination that all subcontractors have completed their shipments, to correct the DD Form 250 (see F-304) covering the final shipment made from the prime contractor's plant by addition of a "Z" to that shipment number.

(iv) Contractors follow the procedures in F-305 to use commercial invoices.

(3) DATE SHIPPED. Enter the date the shipment is released to the carrier or the date the services are completed. If the shipment will be released after the date of contract quality assurance and/or acceptance, enter the estimated date of release. When the date is estimated, enter an "E" or select an "E" from the drop down menu in the "Estimated" block after the date. Do not delay submission of the WAWF RR for lack of entry of the actual shipping date. Correction of the WAWF RR is not required to show the actual shipping date (see F-303). Once the document is submitted the shipment date cannot be changed.

(4) B/L TCN. When applicable, enter—

(i) The commercial or Government bill of lading number after "B/L;" WAWF provides the capability to separately and correctly identify the Government Bill of Lading (GBL) from a Commercial Bill of Lading (CBL). An authorized user will select whether the entered bill of lading number is either a GBL number or a CBL number.

(ii) The transportation control number must be a 17 alpha/numeric digit min/max field, and WAWF provides the capability to enter two secondary transportation tracking numbers.

(5) LINE HAUL MODE. Select the Line Haul Mode of Shipment code from a drop down menu in WAWF.

(6) INSPECTION AND ACCEPTANCE POINT. Enter an "S" for Origin or "D" for Destination. In addition to "S" and "D," WAWF allows acceptance at Other (O). For purposes of conforming to contract, "O" is equivalent to "D". In WAWF, destination acceptance is performed by the "Ship to" DODAAC organization and "Other" permits the acceptance of destination documents at a location other than the "Ship to." The goods or services will be shipped to one location and the paperwork will be routed to another location for the actual acceptance.

(7) PRIME CONTRACTOR/CODE. Enter the prime CAGE code to which the contract was awarded.

(8) ADMINISTERED BY/CODE. Enter the DoDAAC code of the contract administration office cited in the contract.

(9) SHIPPED FROM/CODE

(i) Enter the CAGE or DoDAAC code of the "Shipped From" location. If it is the same as the CAGE code leave blank.

(ii) For performance of services line items which do not require delivery of items upon completion of services, enter the code of the location at which the services were performed. As mentioned in (i) above, if identical to the prime CAGE code leave blank.

(10) FOB. Enter an "S" for Origin or "D" for Destination as specified in the contract. Enter an alphabetic "O" if the "FOB" point cited in the contract is other than origin or destination.

(11) PAYMENT WILL BE MADE BY/CODE. Enter the DoDAAC code of the payment office cited in the contract.

(12) SHIPPED TO/CODE. Enter the DoDAAC, MAPAC, or CAGE code from the contract or shipping instructions.

(13) MARKED FOR/CODE. Enter the code from the contract or shipping instructions. Only valid DoDAACs, MAPACs, or CAGE codes can be entered. Vendors should use the WAWF "Mark for Rep" and "Mark for Secondary" fields

for textual marking information specified in the contract. Enter the three-character project code when provided in the contract or shipping instructions.

(14) ITEM NO. Enter the item number used in the contract. Use a valid 4 or 6 character line item number under the Uniform Contract Line Item Numbering System (see 204.71). Line item numbers with 6 characters with numbers in the final two positions are not deliverable or billable.

(15) STOCK/PART NUMBER/DESCRIPTION.

(i) Enter the following for each line item:

(A) The national stock number (NSN) or noncatalog number. If the contract contains NSNs as well as other identification (e.g. part numbers) the contractor should place the NSN information in the Stock Part Number field and the remaining numbers in the line item description field. The data entered in the NSN field must reflect the NSN of the material item being shipped and should be a valid NSN, 13 positions in length. In the "Type" drop-down field, select the corresponding type for the data entered. If no National Stock Number (NSN) or other valid "Type" is available, the word "NONE" may be entered for the Stock/Part Number, with a corresponding "Type" of any value other than NSN selected from the drop-down box.

(B) In the description field, if required by the contract for control purposes, enter: the make, model, serial number, lot, batch, hazard indicator, or similar description.

(C) The Military Standard Requisitioning and Issue Procedures (MILSTRIP) must be placed on the MILSTRIP Tab, not in the line item description field. Enter the MILSTRIP data for each CLIN when MILSTRIP data is identified in the contract.

(ii) For service line items, select SV for "SERVICE" in the type field followed by as short a description as is possible in the description field. Some examples of service line items are maintenance, repair, alteration, rehabilitation, engineering, research, development, training, and testing.

(A) For WAWF RRRs, the "Ship To" code is the DoDAAC, MAPAC, or CAGE code from the contract or shipping instructions.

(B) For service line items not using a WAWF RRR, the "Ship To" code and the "Unit" shall be filled out. The "Ship To" code is the destination Service Acceptor Code for WAWF. If source inspected and accepted, enter the service performance location as the "Ship To" code.

(iii) For all contracts administered by the Defense Contract Management Agency, with the exception of fast pay procedures, enter the gross weight of the shipment.

(iv) In the description field enter the following as appropriate (entries may be extended through Block 20).

(A) Enter in capital letters any special handling instructions/limits for material environmental control, such as temperature, humidity, aging, freezing, shock, etc.

(B) When a shipment is chargeable to Navy appropriation 17X4911, enter the appropriation, bureau control number (BCN), and authorization accounting activity (AAA) number (e.g., 17X4911-14003-104).

(C) When the Navy transaction type code (TC), "2T" or "7T" is included in the appropriation data, enter "TC 2T" or "TC 7T."

(D) When an NSN is required by but not cited in a contract and has not been furnished by the Government, the contractor may make shipment without the NSN at the direction of the contracting officer. Enter the authority for such shipment.

(E) When Government furnished property (GFP) is included with or incorporated into the line item, enter the letters "GFP."

(F) On shipments of Government furnished aeronautical equipment (GFAE) under Air Force contracts, enter the assignment AERNO control number, e.g., "AERNO 60-6354."

(G) For items shipped with missing components, enter and complete the following:

"Item(s) shipped short of the following component(s): NSN or comparable identification _____, Quantity _____, Estimated Value _____, Authority _____"
--

(H) When shipment is made of components which were short on a prior shipment, enter and complete the following:

"These components were listed as shortages on shipment number _____, date shipped _____"

(I) When shipments involve drums, cylinders, reels, containers, skids, etc., designated as returnable under contract provisions, enter and complete the following:

“Return to _____, Quantity _____, Item _____, Ownership (Government/contractor).”

(J) Enter the total number of shipping containers, the type of containers, and the container number(s) assigned for the shipment.

(K) On foreign military sales (FMS) shipments, enter the special markings, and FMS case identifier from the contract. Also enter the gross weight.

(L) When test/evaluation results are a condition of acceptance and are not available prior to shipment, the following note shall be entered if the shipment is approved by the contracting officer:

“Note: Acceptance and payment are contingent upon receipt of approved test/evaluation results.”

The contracting officer will advise—

(1) The consignee of the results (approval/disapproval); and

(2) The contractor to withhold invoicing pending attachment of the approved test/evaluation results.

(M) For clothing and textile contracts containing a bailment clause, enter the words “GFP UNIT VALUE.”

(N) When the initial unit incorporating an approved value engineering change proposal (VECP) is shipped, enter the following statement:

This is the initial unit delivered which incorporates VECP

No. _____, Contract Modification

No. _____, dated _____

(16) QUANTITY SHIPPED/RECEIVED.

(i) Enter the quantity shipped, using the unit of measure in the contract for payment. When a second unit of measure is used for purposes other than payment, enter the appropriate quantity in the description field.

(ii) On the final shipment of a line item of a contract containing a clause permitting a variation of quantity and an underrun condition exists, the prime contractor shall choose the Ship Advice Code “Z”. Where the final shipment is from other than the prime contractor's plant and an underrun condition exists, the prime contractor may elect to direct the subcontractor making the final shipment to choose the Ship Advice Code “Z”;

(iii) When the Government is performing destination acceptance the acceptor should enter actual quantity received in apparent good condition in the “Qty. Accepted” field of the Acceptor Line Item Tab.

(17) UNIT OF MEASURE. Enter the abbreviation of the unit measure as indicated in the contract for payment. Where a second unit of measure is indicated in the contract for purposes other than payment or used for shipping purposes, enter the second unit of measure in the description field. Authorized abbreviations are listed in MIL-STD-129, Marking for Shipping and Storage and in the WAWF Unit of Measure Table Link. For example, LB for pound, SH for sheet.

(18) UNIT PRICE. When using the WAWF RRR, the unit price is the price of the repair, overhaul, or maintenance service from the contract.

(i) The contractor may, at its option, enter unit prices on the WAWF RR, except when the contract has IUID requirements and the receiving report is being processed in WAWF, the unit price must represent the acquisition cost that will be recorded in the IUID registry. Therefore, in such cases, the unit price is required. See DFARS [252.211-7003](#), Item Unique Identification and Valuation.

(ii) The Contractor shall enter unit prices for each item of property fabricated or acquired for the Government and delivered to a contractor as Government furnished property (GFP). Get the unit price from Section B of the contract. If the unit price is not available, use an estimate. The estimated price should be the contractor's estimate of what the items cost the Government. When the price is estimated, enter

“Estimated Unit Price” in the description field. When delivering GFP via WAWF to another contractor, WAWF will initiate a property transfer if the vendor who is initiating the WAWF RR is also registered as a vendor property shipper in WAWF and the vendor receiving the property is also a vendor property receiver in WAWF.

(iii) For clothing and textile contracts containing a bailment clause, enter the cited Government furnished property unit value as "GFP UNIT VALUE" in the description field.

(iv) For all copies of DD Forms 250 for FMS shipments, enter actual prices, if available. If actual prices are not available, use estimated prices. When the price is estimated, enter an "E" after the price.

(19) AMOUNT. WAWF will calculate and populate the amount by multiplying the unit price times the quantity.

(20) CONTRACT QUALITY ASSURANCE (CQA).

(i) The words "conform to contract" contained in the text above the signature block in the WAWF RR Header Tab relate to quality and to the quantity of the items on the report. Enter notes taking exception in Misc. Info Tab comment field or on attached supporting documents with an appropriate block cross-reference.

(ii) When a shipment is authorized under an alternative release procedure, contractors will execute the alternative release procedure in WAWF by including the appropriate indicator in the electronic transaction rather than through inclusion or attachment of the text of the certificate. The alternative release procedure only provides for release of shipment; Government acceptance must still be indicated by a Government official's signature on the WAWF RR.

(iii) When contract terms provide for use of Certificate of Conformance and shipment is made under these terms, contractors will execute Certificates in WAWF by including the appropriate indicator in the electronic transaction rather than through inclusion or attachment of the text of the certificate. Government acceptance must still be indicated by a Government official's signature on the WAWF RR.

(iv) ORIGIN.

(A) The authorized Government representative must:—

(1) Place an "X" in the appropriate CQA and/or acceptance box(es) to show origin CQA and/or acceptance;

and

(2) Sign and date.

WAWF will enter the typed, stamped, or printed name, title, email address, and commercial telephone number.

(B) When fast pay procedures apply, the contractor or subcontractor shall select "FAST PAY" when creating the WAWF RR. When CQA is required, the authorized Government representative shall execute the block as required by paragraph (A).

(v) DESTINATION. When CQA and acceptance or acceptance is at destination, the authorized Government representative must—

(A) Place an "X" in the appropriate box(es); and

(B) Sign and date.

WAWF will enter the typed, stamped, or printed name, title, email address, and commercial telephone number.

(21) CONTRACTOR USE ONLY. MISC. INFO. Self explanatory.

F-302 Mode/method of shipment codes.

CODE	DESCRIPTION
A	Motor, truckload
B	Motor, less than truckload
C	Van (unpacked, uncrated personal or Government property)
D	Driveaway, truckaway, towaway
E	Bus

F	Air Mobility Command (Channel and Special Assignment Airlift Mission)
G	Surface parcel post
H	Air parcel post
I	Government trucks, for shipment outside local delivery area
J	Air, small package carrier
K	Rail, carload 1/
L	Rail, less than carload 1/
M	Surface, freight forwarder
N	LOGAIR
O	Organic military air (including aircraft of foreign governments)
P	Through Government Bill of Lading (TGBL)
Q	Commercial air freight (includes regular and expedited service provided by major airlines; charters and air taxis)
R	European Distribution System or Pacific Distribution System
S	Scheduled Truck Service (STS) (applies to contract carriage, guaranteed traffic routings and/or scheduled service)
T	Air freight forwarder
U	QUICKTRANS
V	SEAVAN

W	Water, river, lake, coastal (commercial)
X	Bearer, walk-thru (customer pickup of material)
Y	Military Intratheater Airlift Service
Z	Military Sealift Command (MSC) (controlled contract or arranged space)
2	Government watercraft, barge, lighter
3	Roll-on Roll-off (RORO) service
4	Armed Forces Courier Service (ARFCOS)
5	Surface, small package carrier
6	Military official mail (MOM)
7	Express mail
8	Pipeline
9	Local delivery by Government or commercial truck (includes on base transfers; deliveries between air, water, or motor terminals; and adjacent activities). Local delivery areas are identified in commercial carriers' tariffs which are filed and approved by regulatory authorities.

1/Includes trailer/container-on-flat-car (excluding SEAVAN).

F-303 Consolidated shipments.

When individual shipments are held at the contractor's plant for authorized transportation consolidation to a single bill of lading, the contractor may prepare the WAWF RR or WAWF RRR at the time of CQA or acceptance prior to the time of actual shipment.

F-304 Correction instructions.

Functionality for correcting a WAWF RR or WAWF RRR is available for Defense Contract Management Agency administered contracts paid using the Mechanization of Contract Administration Services system with source acceptance. Preparation instructions and training for corrections is available at <https://wawftraining.eb.mil>. The instructions are part of the Vendor Training section.

F-305 Invoice instructions.

Contractors shall submit payment requests and receiving reports in accordance with paragraph (b) of the clause at DFARS [252.232-7003](#) unless one of the exceptions in paragraph (d) of that clause applies.

F-306 Packing list instructions.

(a) Contractors may use a WAWF processed RR or the WAWF RRR, as a packing list. WAWF provides an option to print the RR or RRR. Contractors can print a RR or RRR from a system other than WAWF if a signed copy is required. In such cases, the contractor shall print the WAWF RR or RRR only after a signature is applied by the Government inspector or authorized acceptor in WAWF. Copies printed from the contractor's system shall be annotated with "\\original signed in WAWF\\" in lieu of the inspector or acceptor's signature. Ensure a copy is visible on the outside and one is placed inside the package.

(b) If the contract requires Government source inspection and acceptance at origin, the contractor shall ensure that its packaging documentation includes a RR or RRR that documents inspection, acceptance, or both by the Government inspector or authorized acceptor. A paper DD Form 250 may be used in lieu of WAWF generated RRs or RRRs when one of the exceptions in paragraph (d) of the clause at DFARS [252.232-7003](#) applies.

F-307 Receiving instructions.

If CQA and acceptance or acceptance of supplies is required upon arrival at destination, see F-301(b)(20)(v) for instructions.

Part 4 -PREPARATION OF THE DD FORM 250 AND DD FORM 250C

F-401 Preparation instructions.

(a) General.

- (1) Dates must use nine spaces consisting of the four digits of the year, three-position alphabetic month abbreviation, and two digits for the day. For example, 2000AUG07, 2000SEP24.
- (2) Addresses must consist of the name, street address/P.O. box, city, state, and ZIP code.
- (3) Enter to the right of and on the same line as the word "Code" in Blocks 9 through 12 and in Block 14—
 - (i) The Commercial and Government Entity Handbook (H4/H8) code;
 - (ii) The DoD activity address code (DoDAAC) as it appears in the DoD Activity Address Directory (DoDAAD), DoD 4000.25-6-M; or
 - (iii) The Military Assistance Program Address Directory (MAPAD) code.
- (4) Enter the DoDAAC, CAGE (H4/H8), or MAPAD code in Block 13.
- (5) The data entered in the blocks at the top of the DD Form 250c must be identical to the comparable entries in Blocks 1, 2, 3, and 6 of the DD Form 250.
- (6) Enter overflow data from the DD Form 250 in Block 16 or in the body of the DD Form 250c with an appropriate cross-reference. Do not number or distribute additional DD Form 250c sheets, solely for continuation of Block 23 data as part of the MIRR.
- (7) Do not include classified information in the MIRR. MIRRs must not be classified.

(b) Completion instructions.

- (1) Block 1—PROCUREMENT INSTRUMENT IDENTIFICATION (CONTRACT) NO. See paragraph F-301(b)(1).
- (2) Block 2—SHIPMENT NO. See F-301(b)(2), SHIPMENT NO. When the series is completely used, change the shipment number prefix and start with 0001.

(3) Block 3—DATE SHIPPED. Enter the date the shipment is released to the carrier or the date the services are completed. If the shipment will be released after the date of CQA and/or acceptance, enter the estimated date of release. When the date is estimated, enter an "E" after the date. Do not delay distribution of the MIRR for entry of the actual shipping date. Reissuance of the MIRR is not required to show the actual shipping date (see F-403).

(4) Block 4—B/L TCN. When applicable, enter—

- (i) The commercial or Government bill of lading number after "B/L;"
- (ii) The transportation control number after "TCN" (when a TCN is assigned for each line item on the DD Form 250 under Block 16 instructions, insert "See Block 16"); and
- (iii) The initial (line haul) mode of shipment code in the lower right corner of the block (see F-402).

(5) Block 5—DISCOUNT TERMS.

- (i) The contractor may enter the discount in terms of percentages on all copies of the MIRR.
- (ii) Use the procedures in F-406 when the MIRR is used as an invoice.

(6) Block 6—INVOICE NO./DATE.

(i) The contractor may enter the invoice number and actual or estimated date of invoice submission on all copies of the MIRR. When the date is estimated, enter an "E" after the date. Do not correct MIRRs other than invoice copies to reflect the actual date of invoice submission.

- (ii) Use the procedures in F-406 when the MIRR is used as an invoice.

(7) Block 7—PAGE/OF. Consecutively number the pages of the MIRR. On each page enter the total number of pages of the MIRR.

(8) Block 8—ACCEPTANCE POINT. Enter an "S" for Origin or "D" for destination.

(9) Block 9—PRIME CONTRACTOR/CODE. Enter the code and address.

(10) Block 10—ADMINISTERED BY/CODE. Enter the code and address of the contract administration office cited in the contract.

(11) Block 11—SHIPPED FROM/CODE/FOB.

- (i) Enter the code and address of the "Shipped From" location. If identical to Block 9, enter "See Block 9."

(ii) For performance of services line items which do not require delivery of items upon completion of services, enter the code and address of the location at which the services were performed. If the DD Form 250 covers performance at multiple locations, or if identical to Block 9, enter "See Block 9."

(iii) Enter on the same line and to the right of "FOB" an "S" for Origin or "D" for Destination as specified in the contract. Enter an alphabetic "O" if the "FOB" point cited in the contract is other than origin or destination.

(iv) For destination or origin acceptance shipments involving discount terms, enter "DISCOUNT EXPEDITE" in at least one-half inch outline-type style letters across Blocks 11 and 12. Do not obliterate other information in these blocks.

(12) Block 12—PAYMENT WILL BE MADE BY/CODE. Enter the code and address of the payment office cited in the contract.

(13) Block 13—SHIPPED TO/CODE. Enter the code and address from the contract or shipping instructions.

(14) Block 14—MARKED FOR/CODE. Enter the code and address from the contract or shipping instructions. When three-character project codes are provided in the contract or shipping instructions, enter the code in the body of the block, prefixed by "Proj"; do not enter in the Code block.

(15) Block 15—ITEM NO. See paragraph F301(b)(14) with the exception to F301(b)(2)(B)2 that line item numbers not in accordance with the Uniform Contract Line Item Numbering System may be entered without regard to positioning.

(16) Block 16—STOCK/PART NO./DESCRIPTION.

(i) Use single or double spacing between line items when there are less than four line items. Use double spacing when there are four or more line items. Enter the following for each line item:

(A) The national stock number (NSN) or noncatalog number. Where applicable, include a prefix or suffix. If a number is not provided, or it is necessary to supplement the number, include other identification such as the manufacturer's name or Federal supply code (as published in Cataloging Handbook H4-1), and the part number. Show additional part numbers in parentheses or slashes. Show the descriptive noun of the item nomenclature and if provided, the Government assigned management/material control code. The contractor may use the following technique in the case of equal kind supply items. The first entry shall be the description without regard to kind. For example, "Shoe-Low Quarter-Black," "Resistor," "Vacuum Tube," etc. Below this description, enter the contract line item number in Block 15 and Stock/Part number followed by the size or type in Block 16.

(B) On the next printing line, if required by the contract for control purposes, enter: the make, model, serial number, lot, batch, hazard indicator, or similar description.

(C) On the next printing lines enter—

(1) The MIPR number prefixed by "MIPR" or the MILSTRIP requisition number(s) when provided in the contract; or

(2) Shipping instructions followed on the same line (when more than one requisition is entered) by the unit for payment and the quantity shipped against each requisition.

Example:

V04696-185-750XY19059A	—	EA 5
N0018801776038XY3211BA	—	EA 200
AT650803050051AAT6391J	—	EA 1000

(D) When a TCN is assigned for each line item, enter on the next line the transportation control number prefixed by "TCN."

(ii) For service line items, enter the word "SERVICE" followed by as short a description as is possible in no more than 20 additional characters. Some examples of service line items are maintenance, repair, alteration, rehabilitation, engineering, research, development, training, and testing. Do not complete Blocks 4, 13, and 14 when there is no shipment of material.

(iii) For all contracts administered by the Defense Contract Management Agency, with the exception of fast pay procedures, enter and complete the following:

Gross Shipping Wt. _____
State weight in pounds only.

(iv) Starting with the next line, enter the following as appropriate (entries may be extended through Block 20). When entries apply to more than one line item in the MIRR, enter them only once after the last line item entry. Reference applicable line item numbers.

(A) Enter in capital letters any special handling instructions/limits for material environmental control, such as temperature, humidity, aging, freezing, shock, etc.

(B) When a shipment is chargeable to Navy appropriation 17X4911, enter the appropriation, bureau control number (BCN), and authorization accounting activity (AAA) number (e.g., 17X4911-14003-104).

(C) When the Navy transaction type code (TC), "2T" or "7T" is included in the appropriation data, enter "TC 2T" or "TC 7T."

(D) When an NSN is required by but not cited in a contract and has not been furnished by the Government, the contractor may make shipment without the NSN at the direction of the contracting officer. Enter the authority for such shipment.

(E) When Government furnished property (GFP) is included with or incorporated into the line item, enter the letters "GFP."

(F) When shipment consists of replacements for supplies previously furnished, enter in capital letters "REPLACEMENT SHIPMENT." (See F-401, Block 17, for replacement indicators.)

(G) On shipments of Government furnished aeronautical equipment (GFAE) under Air Force contracts, enter the assignment AERNO control number, e.g., "AERNO 60-6354."

(H) For items shipped with missing components, enter and complete the following:

"Item(s) shipped short of the following component(s): NSN or comparable identification _____, Quantity _____, Estimated Value _____, Authority _____"

(I) When shipment is made of components which were short on a prior shipment, enter and complete the following:

"These components were listed as shortages on shipment number _____, date shipped _____"

(J) When shipments involve drums, cylinders, reels, containers, skids, etc., designated as returnable under contract provisions, enter and complete the following:

"Return to _____, Quantity _____, Item _____, Ownership (Government/contractor)."

(K) Enter the total number of shipping containers, the type of containers, and the container number(s) assigned for the shipment.

(L) On foreign military sales (FMS) shipments, enter the special markings, and FMS case identifier from the contract. Also enter the gross weight.

(M) When test/evaluation results are a condition of acceptance and are not available prior to shipment, the following note shall be entered if the shipment is approved by the contracting officer:

"Note: Acceptance and payment are contingent upon receipt of approved test/evaluation results."

The contracting officer will advise—

(1) The consignee of the results (approval/disapproval); and

(2) The contractor to withhold invoicing pending attachment of the approved test/evaluation results.

(N) The copy of the DD Form 250 required to support payment for destination acceptance (top copy of those with shipment) or ARP origin acceptance shall be identified as follows: enter "PAYMENT COPY" in approximately one-half inch outline type style letters with "FORWARD TO BLOCK 12 ADDRESS" in approximately one-quarter inch letters immediately below. Do not obliterate any other entries.

(O) For clothing and textile contracts containing a bailment clause, enter the words "GFP UNIT VALUE."

(P) When the initial unit incorporating an approved value engineering change proposal (VECP) is shipped, enter the following statement:

This is the initial unit delivered which incorporates VECP

No. _____, Contract Modification

No. _____, dated _____

(17) Block 17—QUANTITY SHIPPED/RECEIVED.

(i) Enter the quantity shipped, using the unit of measure in the contract for payment. When a second unit of measure is used for purposes other than payment, enter the appropriate quantity directly below in parentheses.

(ii) On the final shipment of a line item of a contract containing a clause permitting a variation of quantity and an underrun condition exists, the prime contractor shall enter a "Z" below the last digit of the quantity. Where the final shipment is from other than the prime contractor's plant and an underrun condition exists, the prime contractor may elect either to—

(A) Direct the subcontractor making the final shipment to enter a "Z" below the quantity; or

(B) Upon determination that all subcontractors have completed their shipments, correct the DD Form 250 (see F-405) covering the final shipment of the line item from the prime contractor's plant by addition of a "Z" below the quantity. Do not use the "Z" on deliveries which equal or exceed the contract line item quantity.

(iii) For replacement shipments, enter "A" below the last digit of the quantity, to designate first replacement, "B" for second replacement, etc. Do not use the final shipment indicator "Z" on underrun deliveries when a final line item shipment is replaced.

17. QUANTITY

SHIP/REC'D

1000

(10)

Z

(iv) If the quantity received is the same quantity shipped and all items are in apparent good condition, enter by a check mark. If different, enter actual quantity received in apparent good condition below quantity shipped and circle. The receiving activity will annotate the DD Form 250 stating the reason for the difference.

(18) Block 18—UNIT. Enter the abbreviation of the unit measure as indicated in the contract for payment. Where a second unit of measure is indicated in the contract for purposes other than payment or used for shipping purposes, enter the second unit of measure directly below in parentheses. Authorized abbreviations are listed in MIL-STD-129, Marking for Shipping and Storage. For example, LB for pound, SH for sheet.

18. UNIT

LB

(SH)

(19) Block 19—UNIT PRICE. The contractor may, at its option, enter unit prices on all MIRR copies, except as a minimum:

(i) The contractor shall enter unit prices on all MIRR copies for each item of property fabricated or acquired for the Government and delivered to a contractor as Government furnished property (GFP). Get the unit price from Section B of the contract. If the unit price is not available, use an estimate. The estimated price should be the contractor's estimate of what the items will cost the Government. When the price is estimated, enter an "E" after the unit price.

(ii) Use the procedures in F-406 when the MIRR is used as an invoice.

(iii) For clothing and textile contracts containing a bailment clause, enter the cited Government furnished property unit value opposite "GFP UNIT VALUE" entry in Block 16.

(iv) Price all copies of DD Forms 250 for FMS shipments with actual prices, if available. If actual price are not available, use estimated prices. When the price is estimated, enter an "E" after the price.

(20) Block 20—AMOUNT. Enter the extended amount when the unit price is entered in Block 19.

(21) Block 21—CONTRACT QUALITY ASSURANCE (CQA).

(i) The words “conform to contract” contained in the printed statements in Blocks 21a and 21b relate to quality and to the quantity of the items on the report. Do not modify the statements. Enter notes taking exception in Block 16 or on attached supporting documents with an appropriate block cross-reference.

(ii) When a shipment is authorized under alternative release procedure, attach or include the appropriate contractor signed certificate on the top copy of the DD Form 250 copies distributed to the payment office or attach or include the appropriate contractor certificate on the contract administration office copy when contract administration (Block 10 of the DD Form 250) is performed by the Defense Contract Management Agency.

(iii) When contract terms provide for use of Certificate of Conformance and shipment is made under these terms, the contractor shall enter in capital letters “CERTIFICATE OF CONFORMANCE” in Block 21a on the next line following the CQA and acceptance statements. Attach or include the appropriate contractor signed certificate on the top copy of the DD Form 250 copies distributed to the payment office or attach or include the appropriate certificate on the contract administration office copy when contract administration (Block 10 of the DD Form 250) is performed by the Defense Contract Management Agency. In addition, attach a copy of the signed certificate to, or enter on, copies of the MIRR sent with shipment.

(iv) ORIGIN.

(A) The authorized Government representative must—

(1) Place an “X” in the appropriate CQA and/or acceptance box(es) to show origin CQA and/or acceptance. When the contract requires CQA at destination in addition to origin CQA, enter an asterisk at the end of the statement and an explanatory note in Block 16;

(2) Sign and date;

(3) Enter the typed, stamped, or printed name, title, mailing address, and commercial telephone number.

(B) When alternative release procedures apply—

(1) The contractor or subcontractor shall complete the entries required under paragraph (A) and enter in capital letters “ALTERNATIVE RELEASE PROCEDURE” on the next line following the printed CQA/acceptance statement.

(2) When acceptance is at origin and contract administration is performed by an office other than the Defense Contract Management Agency, the contractor shall furnish the four payment office copies of the MIRR to the authorized Government representative for dating and signing of one copy and forwarding of all copies to the payment office.

(3) When acceptance is at origin and contract administration is performed by the Defense Contract Management Agency, furnish the contract administration office copy of the MIRR to the authorized Government representative for dating and signing and forwarding to the contract administration office (see F-501, Table 1).

(C) When fast pay procedures apply, the contractor or subcontractor shall enter in capital letters “FAST PAY” on the next line following the printed CQA/acceptance statement. When CQA is required, the authorized Government representative shall execute the block as required by paragraph (A).

(D) When Certificate of Conformance procedures apply, inspection or inspection and acceptance are at source, and the contractor's Certificate of Conformance is required, the contractor shall enter in capital letters “CERTIFICATE OF CONFORMANCE” as required by paragraph (b)(21)(iii) of this appendix.

(1) For contracts administered by an office other than the Defense Contract Management Agency, furnish the four payment office copies of the MIRR to the authorized Government representative for dating and signing of one copy, and forwarding of all copies to the payment office.

(2) For contracts administered by the Defense Contract Management Agency, furnish the contract administration office copy of the MIRR to the authorized Government representative for dating and signing and forwarding to the contract administration office (see F-401, Table 1).

(3) When acceptance is at destination, no entry shall be made other than “CERTIFICATE OF CONFORMANCE.”

(v) DESTINATION.

(A) When acceptance at origin is indicated in Block 21a, make no entries in Block 21b.

(B) When CQA and acceptance or acceptance is at destination, the authorized Government representative must—

(1) Place an “X” in the appropriate box(es);

(2) Sign and date; and

(3) Enter typed, stamped, or printed name, title, mailing address, and commercial telephone number.

(C) When “ALTERNATIVE RELEASE PROCEDURE” is entered in Block 21a and acceptance is at destination, the authorized Government representative must complete the entries required by paragraph (b)(21)(v)(B) of this appendix.

(D) Forward the executed payment copy or MILSCAP format identifier PKN or PKP to the payment office cited in Block 12 within four work days (five days when MILSCAP Format is used) after delivery and acceptance of the shipment by the receiving activity. Forward one executed copy of the final DD Form 250 to the contract administration office cited in Block 10 for implementing contract closeout procedures.

(E) When "FAST PAY" is entered in Block 21a, make no entries in this block.

(22) Block 22—RECEIVER'S USE. The authorized representative of the receiving activity (Government or contractor) must use this block to show receipt, quantity, and condition. The authorized representative must—

(i) Enter the date the supplies arrived. For example, when off-loading or in-checking occurs subsequent to the day of arrival of the carrier at the installation, the date of the carrier's arrival is the date received for purposes of this block;

(ii) Sign; and

(iii) Enter typed, stamped, or printed name, title, mailing address, and commercial telephone number.

(23) Block 23—CONTRACTOR USE ONLY. Self explanatory.

F-402 Mode/method of shipment codes. See paragraph F302.

F-403 Consolidated shipments.

When individual shipments are held at the contractor's plant for authorized transportation consolidation to a single bill of lading, the contractor may prepare the DD Forms 250 at the time of CQA or acceptance prior to the time of actual shipment (see Block 3).

F-404 Multiple consignee instructions.

The contractor may prepare one MIRR when the identical line item(s) of a contract are to be shipped to more than one consignee, with the same or varying quantities, and the shipment requires origin acceptance. Prepare the MIRR using the procedures in this appendix with the following changes:

(a) Blocks 2, 4, 13, and, if applicable, 14—Enter "See Attached Distribution List."

(b) Block 15—The contractor may group item numbers for identical stock/part number and description.

(c) Block 17—Enter the "total" quantity shipped by line item or, if applicable, grouped identical line items.

(d) Use the DD Form 250c to list each individual "Shipped To" and "Marked For" with—

(1) Code(s) and complete shipping address and a sequential shipment number for each;

(2) Line item number(s);

(3) Quantity;

(4) MIPR number(s), preceded by "MIPR," or the MILSTRIP requisition number, and quantity for each when provided in the contract or shipping instructions; and

(5) If applicable, bill of lading number, TCN, and mode of shipment code.

(e) The contractor may omit those distribution list pages of the DD Form 250c that are not applicable to the consignee. Provide a complete MIRR for all other distribution.

F-405 Correction instructions.

Make a new revised MIRR or correct the original when, because of errors or omissions, it is necessary to correct the MIRR after distribution has been made. Use data identical to that of the original MIRR. Do not correct MIRRs for Blocks 19 and 20 entries. Make the corrections as follows—

(a) Circle the error and place the corrected information in the same block; if space is limited, enter the corrected information in Block 16 referencing the error page and block. Enter omissions in Block 16 referencing omission page and block. For example—

2. SHIPMENT NO.	17. QUANTITY
(AAA0001)	SHIP/REC'D
See Block 16	19
	(17)

16. STOCK/PART NO. DESCRIPTION**CORRECTIONS:**

Refer Block 2: Change shipment No.
AAA001 to AAA0010 on all pages of the
MIRR.

Refer Blocks 15, 16, 17, and 18, page 2:
Delete in entirety Line Item No. 0006. This
item was not shipped.

(b) When corrections have been made to entries for line items (Block 15) or quantity (Block 17), enter the words "CORRECTIONS HAVE BEEN VERIFIED" on page 1. The authorized Government representative will date and sign immediately below the statement. This verification statement and signature are not required for other corrections.

(c) Clearly mark the pages of the MIRR requiring correction with the words "CORRECTED COPY." Avoid obliterating any other entries. Where corrections are made only on continuation sheets, also mark page number 1 with the words "CORRECTED COPY."

(d) Page 1 and only those continuation pages marked "CORRECTED COPY" shall be distributed to the initial distribution. A complete MIRR with corrections shall be distributed to new addressee(s) created by error corrections.

F-406 Invoice instructions.

(a) Contractors shall submit payment requests and receiving reports in electronic form, unless an exception in DFARS [232.7002](#) applies. Contractor submission of the material inspection and receiving information required by this appendix by using the WAWF electronic form (see paragraph (b) of the clause at DFARS [252.232-7003](#)) fulfills the requirement for an MIRR.

(b) If the contracting officer authorizes the contractor to submit an invoice in paper form, the Government encourages, but does not require, the contractor to use the MIRR as an invoice, in lieu of a commercial form. If commercial forms are used, identify the related MIRR shipment number(s) on the form. If using the MIRR as an invoice, prepare the MIRR and forward the required number of copies to the payment office as follows:

- (1) Complete Blocks 5, 6, 19, and 20. Block 6 shall contain the invoice number and date. Column 20 shall be totaled.
- (2) Mark in letters approximately one inch high, first copy: "ORIGINAL INVOICE," for all invoice submissions; and three copies: "INVOICE COPY," when the payment office requires four copies. Questions regarding the appropriate number of copies (i.e., one or four) should be directed to the applicable payment office.
- (3) Forward the appropriate number of copies to the payment office (Block 12 address), except when acceptance is at destination and a Navy finance office will make payment, forward to destination.
- (4) Separate the copies of the MIRR used as an invoice from the copies of the MIRR used as a receiving report.

F-407 Packing list instructions.

Contractors may use copies of the MIRR as a packing list. The packing list copies are in addition to the copies of the MIRR required for standard distribution (see F-501). Mark them "PACKING LIST."

F-408 Receiving instructions.

When the MIRR is used for receiving purposes, local directives shall prescribe procedures. If CQA and acceptance or acceptance of supplies is required upon arrival at destination, see F-401(b)(21)(v) for instructions.

This page intentionally left blank.

Part 5 -DISTRIBUTION OF WIDE AREA WORKFLOW RECEIVING REPORT (WAWF RR), DD FORM 250 AND DD FORM 250C

F-501 Distribution of WAWF RR.

Use of the WAWF electronic form satisfies the distribution requirements of this appendix, except for the copies required to accompany shipment.

F- 502 Distribution of DD FORM 250 AND DD FORM 250C.

(a) The contractor is responsible for distributing the DD Form 250, Material Inspection and Receiving Report (MIRR) including mailing and payment of postage.

(b) Contractors shall distribute MIRRs using the instructions in Tables 1 and 2.

(c) Contractors shall distribute MIRRs on non-DoD contracts using this appendix as amended by the contract.

(d) Contractors shall make distribution promptly, but no later than the close of business of the work day following—

(1) Signing of the DD Form 250 (Block 21a) by the authorized Government representative; or

(2) Shipment when authorized under terms of alternative release, certificate of conformance, or fast pay procedures; or

(3) Shipment when CQA and acceptance are to be performed at destination.

(e) Do not send the consignee copies (via mail) on overseas shipments to port of embarkation (POE). Send them to consignee at APO/FPO address.

(f) Copies of the MIRR forwarded to a location for more than one recipient shall clearly identify each recipient.

Material Inspection and Receiving Report Table 1 - Standard Distribution

Standard distribution	Number of copies
With Shipment *	2
Consignee (via mail)	1
(For Navy procurement, include unit price.)	
(For foreign military sales, consignee copies are not required.)	
Contract Administration Office (CAO)	1
(Forward direct to address in Block 10 except when addressee is a Defense Contract Management Agency (DCMA) office and a certificate of conformance or the alternative release procedures (see F-301, Block 21) is involved, and acceptance is at origin; then, forward through the authorized Government representative.)	
Purchasing Office	1
Payment Office **	2
(Forward direct to address in Block 12 except -	
(i) When address in Block 10 is a DCMA office and payment office in Block 12 is the Defense Finance and Accounting Service, Columbus Center, do not make distribution to the Block 12 addressee;	
(ii) When address in Block 12 is the Defense Finance and Accounting Service, Columbus Center/Albuquerque Office (DFAS-CO/ALQ), Kirtland AFB, NM, attach only one copy to the required number of copies of the contractor's invoice;	

Standard distribution	Number of copies
(iii) When acceptance is at destination and a Navy finance office will make payment, forward to destination; and	
(iv) When a certificate of conformance or the alternative release procedures (see F-301, Block 21) are involved and acceptance is at origin, forward the copies through the authorized Government representative.)	
ADP Point for CAO (applicable to Air Force only)	1
(When DFAS-CO/ALQ is the payment office in Block 12, send one copy to DFAS-CO/ALQ immediately after signature. If submission of delivery data is made electronically, distribution of this hard copy need not be made to DFAS-CO/ALQ.)	
CAO of Contractor Receiving GFP	1
(For items fabricated or acquired for the Government and shipped to a contractor as Government furnished property, send one copy directly to the CAO cognizant of the receiving contractor, ATTN: Property Administrator (see DoD 4105.59-H).)	

* Attach as follows:

TYPE OF SHIPMENT	LOCATION
Carload or truckload	Affix to the shipment where it will be readily visible and available upon receipt.
Less than carload or truckload	Affix to container number one or container truckload bearing lowest number.
Mail, including parcel post	Attach to outside or include in the package. Include a copy in each additional package of multi-package shipments.
Pipeline, tank car, or railroad cars for coal movements	Forward with consignee copies.

** Payment by Defense Finance and Accounting Service, Columbus Center will be based on the source acceptance copies of DD Forms 250 forwarded to the contract administration office.

Material Inspection and Receiving Report Table 2 - Special Distribution

As required	Address	Number of copies
Each: Navy Status Control Activity, Army, Air Force, DLA Inventory Control Manager	Address specified in contract	* 1
Quality Assurance Representative	Address specified by the assigned quality assurance representative	1

As required	Address	Number of copies
Transportation Office issuing GBL (attach to GBL memorandum copy)	CAO address unless otherwise specified in the contract	1
Purchasing Office other than office issuing contract	Address specified in the contract	1
Foreign Military Sales Representative	Address specified in the contract	8
Military Assistance Advisory Group (Grant Aid shipments)	U.S. Military Advisory Group, Military Attache, Mission, or other designated agency address as specified in the contract	1
Army Foreign Military Sales	Commander, U.S. Army Security Assistance Command, ATTN: AMSAC-OL, 54 "M" Avenue, Suite 1, New Cumberland, PA 17070-5096	1
Air Force On shipments of new production of aircraft and missiles, class 1410 missiles, 1510 aircraft (fixed wing, all types), 1520 aircraft (rotary wing), 1540 gliders, 1550 target drones	HQ Air Force Materiel Command, LGX-AVDO, Area A, Building 262, Room N142, 4375 Chidlaw Road, Wright-Patterson AFB, OH 45433-5006	1
When above items are delivered to aircraft modification centers	DCMA	1
Foreign Military Sales/Military Assistance Program (Grant Aid) shipments to Canada	National Defence Headquarters, Ottawa, Ontario Canada, K1A OK4 ATTN: DPSUPS3	1
Other than Canada	Address in the contract	1
When consignee is an Air National Guard Activity	Consignee address (Block 13), ATTN: Property Officer	3
Navy		
Navy Foreign Military Sales	Naval Inventory Control Point Deputy Commander for International Programs (NAVICP Code P761), 700 Robbins Avenue, Philadelphia, PA 19111-5095	2
When typed code (TC) 2T or 7T is shown in Block 16, or when shipment is consigned to another contractor's plant for a Government representative or when Block 16 indicates shipment includes GFP	Naval Inventory Control Point (Code 0142) for aviation type material, 700 Robbins Avenue, Philadelphia, PA 19111-5098 and Naval Inventory Control Point (Code 0143) for all other material 5450 Carlisle Pike, PO Box 2020, Mechanicsburg, PA 17055-0788	2
Bulk Petroleum Shipments	Cognizant Defense Fuel Region (see Table 4)	1

This page intentionally left blank.

Part 6 -PREPARATION OF THE DD FORM 250-1 (LOADING REPORT)

F-601 Instructions.

Prepare the DD Form 250-1 using the following instructions when applied to a tanker or barge cargo lifting. If space is limited, use abbreviations. The block numbers correspond to those on the form.

(a) Block 1—TANKER/BARGE. Line out “TANKER” or “BARGE” as appropriate and place an “X” to indicate loading report.

(b) Block 2—INSPECTION OFFICE. Enter the name and location of the Government office conducting the inspection.

(c) Block 3—REPORT NO. Number each form consecutively, starting with number 1, to correspond to the number of shipments made against the contract. If shipment is made from more than one location against the same contract, use this numbering system at each location.

(d) Block 4—AGENCY PLACING ORDER ON SHIPPER, CITY, STATE AND/OR LOCAL ADDRESS (LOADING). Enter the applicable Government activity.

(e) Block 5—DEPARTMENT. Enter military department owning product being shipped.

(f) Block 6—PRIME CONTRACT OR P.O. NO. Enter the contract or purchase order number.

(g) Block 7—NAME OF PRIME CONTRACTOR, CITY, STATE AND/OR LOCAL ADDRESS (LOADING). Enter the name and address of the contractor as shown in the contract.

(h) Block 8—STORAGE CONTRACT. Enter storage contract number if applicable.

(i) Block 9—TERMINAL OR REFINERY SHIPPED FROM, CITY, STATE AND/OR LOCAL ADDRESS. Enter the name and location of the contractor facility from which shipment is made. Also enter delivery point in this space as either “FOB Origin” or “FOB Destination.”

(j) Block 10—ORDER NO. ON SUPPLIER. Enter number of the delivery order, purchase order, subcontract or suborder placed on the supplier.

(k) Block 11—SHIPPED TO: (RECEIVING ACTIVITY, CITY, STATE AND/OR LOCAL ADDRESS). Enter the name and geographical address of the consignee as shown on the shipping order.

(l) Block 12—B/L NUMBER. If applicable, enter the initials and number of the bill of lading. If a commercial bill of lading is later authorized to be converted to a Government bill of lading, show “Com. B/L to GB/L.”

(m) Block 13—REQN. OR REQUEST NO. Enter number and date from the shipping instructions.

(n) Block 14—CARGO NO. Enter the cargo number furnished by the ordering office.

(o) Block 15—VESSEL. Enter the name of tanker or barge.

(p) Block 16—DRAFT ARRIVAL. Enter the vessel's draft on arrival.

(q) Block 17—DRAFT SAILING. Enter the vessel's draft on completion of loading.

(r) Block 18—PREVIOUS TWO CARGOES. Enter the type of product constituting previous two cargoes.

(s) Block 19—PRIOR INSPECTION. Leave blank.

(t) Block 20—CONDITION OF SHORE PIPELINE. Enter condition of line (full or empty) before and after loading.

(u) Block 21—APPROPRIATION (LOADING). Enter the appropriation number shown on the contract, purchase order or distribution plan. If the shipment is made from departmentally owned stock, show “Army, Navy, or Air Force (as appropriate) owned stock.”

(v) Block 22—CONTRACT ITEM NO. Enter the contract item number applicable to the shipment.

(w) Block 23—PRODUCT. Enter the product nomenclature and grade as shown in the contract or specification, the stock or class number, and the NATO symbol.

(x) Block 24—SPECIFICATIONS. Enter the specification and amendment number shown in the contract.

(y) Block 25—STATEMENT OF QUANTITY. Enter in the “LOADED” column, the net barrels, net gallons, and long tons for the cargo loaded. NOTE: If more than 1/2 of 1 percent difference exists between the ship and shore quantity figures, the contractor shall immediately investigate to determine the cause of the difference. If necessary, prepare corrected documents; otherwise, put a statement in Block 28 as to the probable or actual cause of the difference.

(z) Block 26—STATEMENT OF QUALITY.

(1) Under the heading “TESTS” list all inspection acceptance tests of the specification and any other quality requirements of the contract.

(2) Under the heading “SPECIFICATION LIMITS” list the limits or requirements as stated in the specification or contract directly opposite each entry in the “TESTS” column. List waivers to technical requirements.

(3) Under the heading “TEST RESULTS” list the test results applicable to the storage tank or tanks from which the cargo was lifted. If more than one storage tank is involved, list the tests applicable to each tank in separate columns headed

by the tank number, the date the product in the tank was approved, and the quantity loaded from the tank. Each column shall also list such product characteristics as amount and type of corrosion inhibitor, etc.

(aa) Block 27—TIME STATEMENT. Line out “DISCHARGE” and “DISCHARGING.” Complete all applicable entries of the time statement using local time. Take these dates and times from either the vessel or shore facility log. The Government representative shall ensure that the logs are in agreement on those entries used. If the vessel and shore facility logs are not in agreement, the Government representative will explain the reasons in Block 28—REMARKS. Do not enter the date and time the vessel left berth on documents placed aboard the vessel. The date and time shall appear on all other copies. Express all dates in sequence of day, month, and year with the month spelled out or abbreviated (e.g., 10 Sept. 67). The term FINISHED BALLAST DISCHARGE is meant to include all times needed to complete deballasting and mopping/drying of ship's tanks. The inspection of ship's tanks for loading is normally performed immediately upon completion of drying tanks.

(bb) Block 28—REMARKS. Use this space for reporting:

(1) All delays, their cause and responsible party (vessel, shore facility, Government representative, or other).

(2) Details of loading abnormalities such as product losses due to overflow, leaks, delivery of product from low level in shore tanks, etc.

(3) In the case of multiple consignees, enter each consignee, the amount consigned to each, and if applicable, the storage contract numbers appearing on the delivery order.

(4) When product title is vested in the U.S. Government, insert in capital letters “U.S. GOVERNMENT OWNED CARGO.” If title to the product remains with the contractor and inspection is performed at source with acceptance at destination, insert in capital letters “CONTRACTOR OWNED CARGO.”

(5) Seal numbers and location of seals. If space is not adequate, place this information on the ullage report or an attached supplemental sheet.

(cc) Block 29—COMPANY OR RECEIVING TERMINAL. Line out “OR RECEIVING TERMINAL” and get the signature of the supplier's representative.

(dd) Block 30—CERTIFICATION BY GOVERNMENT REPRESENTATIVE. Line out “DISCHARGED.” The Government representative shall date and sign the form to certify inspection and acceptance, as applicable, by the Government. The name of the individual signing this certification, as well as the names applied in Blocks 29 and 31, shall be typed or hand lettered. The signature in Block 30 must agree with the typed or lettered name to be acceptable to the paying office.

(ee) Block 31—CERTIFICATION BY MASTER OR AGENT. Obtain the signature of the master of the vessel or its agent.

Part 7 -PREPARATION OF THE DD FORM 250-1 (DISCHARGE REPORT)

F-701 Instructions.

Prepare the DD Form 250-1 using the following instructions when applied to a tanker or barge discharge. If space is limited, use abbreviations. The block numbers correspond to those on the form.

(a) Block 1—TANKER/BARGE. Line out “TANKER” or “BARGE” as applicable and place an “X” to enter discharge report.

(b) Block 2—INSPECTION OFFICE. Enter Government activity performing inspection on the cargo received.

(c) Block 3—REPORT NO. Leave blank.

(d) Block 4—AGENCY PLACING ORDER ON SHIPPER, CITY, STATE AND/OR LOCAL ADDRESS (LOADING). Enter Government agency shown on loading report.

(e) Block 5—DEPARTMENT. Enter Department owning product being received.

(f) Block 6—PRIME CONTRACT OR P.O. NO. Enter the contract or purchase order number shown on the loading report.

(g) Block 7—NAME OF PRIME CONTRACTOR, CITY, STATE AND/OR LOCAL ADDRESS (LOADING). Enter the name and location of contractor who loaded the cargo.

(h) Block 8—STORAGE CONTRACT. Enter the number of the contract under which material is placed in commercial storage where applicable.

(i) Block 9—TERMINAL OR REFINERY SHIPPED FROM, CITY, STATE AND/OR LOCAL ADDRESS. Enter source of cargo.

(j) Block 10—ORDER NO. ON SUPPLIER. Make same entry appearing on loading report.

(k) Block 11—SHIPPED TO: (RECEIVING ACTIVITY, CITY, STATE AND/OR LOCAL ADDRESS). Enter receiving activity's name and location.

(l) Block 12—B/L NUMBER. Enter as appears on loading report.

(m) Block 13—REQN. OR REQUEST NO. Leave blank.

(n) Block 14—CARGO NO. Enter cargo number shown on loading report.

(o) Block 15—VESSEL. Enter name of tanker or barge discharging cargo.

(p) Block 16—DRAFT ARRIVAL. Enter draft of vessel upon arrival at dock.

(q) Block 17—DRAFT SAILING. Enter draft of vessel after discharging.

(r) Block 18—PREVIOUS TWO CARGOES. Leave blank.

(s) Block 19—PRIOR INSPECTION. Enter the name and location of the Government office which inspected the cargo loading.

(t) Block 20—CONDITION OF SHORE PIPELINE. Enter condition of line (full or empty) before and after discharging.

(u) Block 21—APPROPRIATION (LOADING). Leave blank.

(v) Block 22—CONTRACT ITEM NO. Enter the item number shown on the loading report.

(w) Block 23—PRODUCT. Enter information appearing in Block 23 of the loading report.

(x) Block 24—SPECIFICATIONS. Enter information appearing in Block 24 of the loading report.

(y) Block 25—STATEMENT OF QUANTITY. Enter applicable data in proper columns.

(1) Take “LOADED” figures from the loading report.

(2) Determine quantities discharged from shore tank gauges at destination.

(3) If a grade of product is discharged at more than one point, calculate the loss or gain for that product by the final discharge point.

Report amounts previously discharged on discharge reports prepared by the previous discharge points. Transmit volume figures by routine message to the final discharge point in advance of mailed documents to expedite the loss or gain calculation and provide proration data when more than one department is involved.

(4) The loss or gain percentage shall be entered in the “PERCENT” column followed by “LOSS” or “GAIN,” as applicable.

(5) On destination acceptance shipments, accomplish the “DISCHARGED” column only, unless instructed to the contrary.

(z) Block 26—STATEMENT OF QUALITY.

(1) Under the heading “TESTS” enter the verification tests performed on the cargo preparatory to discharge.

(2) Under “SPECIFICATION LIMITS” enter the limits, including authorized departures (if any) appearing on the loading report, for the tests performed.

(3) Enter the results of tests performed under the heading “TEST RESULTS.”

(aa) Block 27—TIME STATEMENT. Line out “LOAD” and “LOADING.” Complete all applicable entries of the time statement using local time. Take the dates and times from either the vessel or shore facility log. The Government representative shall ensure that these logs are in agreement with entries used. If the vessel and shore facility logs are not in agreement, the Government representative will explain the reason(s) in Block 28—REMARKS. Do not enter the date and time the vessel left berth on documents placed aboard the vessel. The date and time shall appear on all other copies. Express all dates in sequence of day, month, and year with the month spelled out or abbreviated (e.g., 10 Sept. 67).

(bb) Block 28—REMARKS. Use this space for reporting important facts such as:

(1) Delays, their cause, and responsible party (vessel, shore facility, Government representative, or others).

(2) Abnormal individual losses contributing to the total loss. Enter the cause of such losses as well as actual or estimated volumes involved. Such losses shall include, but not be restricted to, product remaining aboard (enter tanks in which contained), spillages, line breaks, etc. Note where gravity group change of receiving tank contents results in a fictitious loss or gain. Note irregularities observed on comparing vessel ullages obtained at loading point with those at the discharge point if they indicate an abnormal transportation loss or contamination.

(cc) Block 29—COMPANY OR RECEIVING TERMINAL. Line out “COMPANY OR.” Secure the signature of a representative of the receiving terminal.

(dd) Block 30—CERTIFICATION BY GOVERNMENT REPRESENTATIVE. Line out “LOADED.” The Government representative shall date and sign the form to certify inspection and acceptance, as applicable, by the Government. The name of the individual signing the certification as well as the names applied in Blocks 29 and 31 shall be typed or hand lettered on the master or all copies of the form. The signature in Block 30 must agree with the typed or lettered name to be acceptable to the paying office.

(ee) Block 31—CERTIFICATION BY MASTER OR AGENT. Obtain the signature of the master of the vessel or the vessel's agent.

Part 8 -DISTRIBUTION OF THE DD FORM 250-1

F-801 Distribution.

Follow the procedures at PGI F-801 for distribution of DD Form 250-1.

F-802 Corrected DD Form 250-1.

Follow the procedures at PGI F-802 when corrections to DD Form 250-1 are needed.

APPENDIX H - DEBARMENT AND SUSPENSION PROCEDURES

Sec.

H-100 Scope.

H-101 Notification.

H-102 Nature of proceeding.

H-103 Presentation of matters in opposition.

H-104 Fact-finding.

H-105 Timing requirements.

H-106 Subsequent to fact-finding.

This page intentionally left blank.

H-100 Scope.

This appendix provides uniform debarment and suspension procedures to be followed by all debarring and suspending officials.

This page intentionally left blank.

H-101 Notification.

Contractors will be notified of the proposed debarment or suspension in accordance with FAR 9.406-3 or 9.407-3. A copy of the record which formed the basis for the decision by the debarring and suspending official will be made available to the contractor. If there is a reason to withhold from the contractor any portion of the record, the contractor will be informed of what is withheld and the reasons for such withholding.

This page intentionally left blank.

H-102 Nature of proceeding.

There are two distinct proceedings which may be involved in the suspension or debarment process. The first is the presentation of matters in opposition to the suspension or proposed debarment by the contractor. The second is fact-finding which occurs only in cases in which the contractor's presentation of matters in opposition raises a genuine dispute over one or more material facts. In a suspension action based upon an indictment or in a proposed debarment action based upon a conviction or civil judgment, there will be no fact-finding proceeding concerning the matters alleged in the indictment, or the facts underlying the convictions or civil judgment. However, to the extent that the proposed action stems from the contractor's affiliation with an individual or firm indicted or convicted, or the subject of a civil judgment, fact-finding is permitted if a genuine dispute of fact is raised as to the question of affiliation as defined in FAR 9.403.

This page intentionally left blank.

H-103 Presentation of matters in opposition.

(a) In accordance with FAR 9.406-3(c) and 9.407-3(c), matters in opposition may be presented in person, in writing, or through a representative. Matters in opposition may be presented through any combination of the foregoing methods, but if a contractor desires to present matters in person or through a representative, any written material should be delivered at least 5 working days in advance of the presentation. Usually, all matters in opposition are presented in a single proceeding. A contractor who becomes aware of a pending indictment or allegations of wrongdoing that the contractor believes may lead to suspension or debarment action may contact the debarring and suspending official or designee to provide information as to the contractor's present responsibility.

(b) An in-person presentation is an informal meeting, nonadversarial in nature. The debarring and suspending official and/or other agency representatives may ask questions of the contractor or its representative making the presentation. The contractor may select the individuals who will attend the meeting on the contractor's behalf; individual respondents or principals of a business firm respondent may attend and speak for themselves.

(c) In accordance with FAR 9.406-3(c) and 9.407-3(c), the contractor may submit matters in opposition within 30 days from receipt of the notice of suspension or proposed debarment.

(d) The opportunity to present matters in opposition to debarment includes the opportunity to present matters concerning the duration of the debarment.

This page intentionally left blank.

H-104 Fact-finding.

(a) The debarring and suspending official will determine whether the contractor's presentation has raised a genuine dispute of material fact(s). If the debarring and suspending official has decided against debarment or continued suspension, or the provisions of FAR 9.4 preclude fact-finding, no fact-finding will be conducted. If the debarring and suspending official has determined a genuine dispute of material fact(s) exists, a designated fact-finder will conduct the fact-finding proceeding. The proceeding before the fact-finder will be limited to a finding of the facts in dispute as determined by the debarring and suspending official.

(b) The designated fact-finder will establish the date for a fact-finding proceeding, normally to be held within 45 working days of the contractor's presentation of matters in opposition. An official record will be made of the fact-finding proceeding.

(c) The Government's representative and the contractor will have an opportunity to present evidence relevant to the facts at issue. The contractor may appear in person or through a representative in the fact-finding proceeding.

(d) Neither the Federal Rules of Evidence nor the Federal Rules of Civil Procedure govern fact-finding. Hearsay evidence may be presented and will be given appropriate weight by the fact-finder.

(e) Witnesses may testify in person. Witnesses will be reminded of the official nature of the proceeding and that any false testimony given is subject to criminal prosecution. Witnesses are subject to cross-examination.

This page intentionally left blank.

H-105 Timing requirements.

All timing requirements set forth in these procedures may be extended by the debarring and suspending official for good cause.

This page intentionally left blank.

H-106 Subsequent to fact-finding.

- (a) Written findings of fact will be prepared by the fact-finder as mandated by FAR 9.406-3(d)(2)(i) and 9.407-3(d)(2)(i).
- (b) The fact-finder will determine the disputed fact(s) by a preponderance of the evidence. A copy of the findings of fact will be provided to the debarring and suspending official, the Government's representative, and the contractor.
- (c) The debarring and suspending official will determine whether to continue the suspension or to debar the contractor based upon the entire administrative record, including the findings of fact.
- (d) Prompt written notice of the debarring and suspending official's decision will be sent to the contractor and any affiliates involved, in compliance with FAR 9.406-3(e) and 9.407-3(d)(4).

This page intentionally left blank.

I-100 Purpose.

(a) This appendix implements the DoD Mentor-Protégé Program (referred to as the Program) authorized under 10 U.S.C. 4902. The purpose of the Program is to provide incentives to DoD contractors to furnish eligible small business concerns with assistance designed to—

(1) Enhance the capabilities of eligible small business concerns to perform as subcontractors and suppliers under DoD contracts and other contracts and subcontracts; and

(2) Increase the participation of such business concerns as subcontractors and suppliers under DoD contracts, other Federal Government contracts, and commercial contracts.

(b) Under the Program, eligible companies approved as mentor firms will enter into mentor-protégé agreements with eligible protégé firms to provide appropriate developmental assistance to enhance the capabilities of the protégé firms to perform as subcontractors and suppliers. DoD may provide the mentor firm with either cost reimbursement or credit against applicable subcontracting goals established under contracts with DoD or other Federal agencies.

(c) DoD will measure the overall success of the Program by the extent to which the Program results in—

(1) An increase in the dollar value of contract and subcontract awards to protégé firms (under DoD contracts, contracts awarded by other Federal agencies, and commercial contracts) from the date of their entry into the Program until 5 years after the conclusion of the agreement;

(2) An increase in the number and dollar value of subcontracts awarded to a protégé firm (or former protégé firm) by its mentor firm (or former mentor firm); and

(3) An increase in protégé participation in DoD science and technology programs; and

(4) An increase in job creation of protégé firms from the date of execution of the mentor-protégé agreement until 5 years after completion of the mentor-protégé agreement.

(d) This policy sets forth the procedures for participation in the Program applicable to companies that are interested in receiving—

(1) Reimbursement through a separate contract line item in a DoD contract or a separate contract with DoD; or

(2) Credit toward applicable subcontracting goals for costs incurred under the Program.

This page intentionally left blank.

I-101 Definitions.

As used in this appendix—

"Affiliation" means, with respect to a relationship between a mentor firm and a protege firm, a relationship described under 13 CFR 121.103.

"Eligible entity employing the severely disabled" means a business entity operated on a for-profit or nonprofit basis that—

(1) Uses rehabilitative engineering to provide employment opportunities for severely disabled individuals and integrates severely disabled individuals into its workforce;

(2) Employs severely disabled individuals at a rate that averages not less than 20 percent of its total workforce;

(3) Employs each severely disabled individual in its workforce generally on the basis of 40 hours per week; and

(4) Pays not less than the minimum wage prescribed pursuant to section 6 of the Fair Labor Standards Act (29 U.S.C. 206) to those employees who are severely disabled individuals.

"Severely disabled individual" means an individual who is blind or severely disabled as defined in 41 U.S.C. 8501.

This page intentionally left blank.

I-102 Participant eligibility.

- (a) To be eligible to participate as a mentor, an entity must—
 - (1) Be eligible for the award of Federal contracts;
 - (2) Demonstrate that it—
 - (i) Is qualified to provide assistance that will contribute to the purpose of the Program;
 - (ii) Is of good financial health and character;
 - (iii) Is not on a Federal list of debarred or suspended contractors; and
 - (iv) Is an other than small business concern, unless approved by the Director of the Office of Small Business Programs (OSBP), Office of the Under Secretary of Defense, Acquisition and Sustainment (OUSD(A&S)), in accordance with 13 CFR 121.103 regarding “affiliation and relationship”; and
 - (3) Be capable of imparting value to a protégé firm because of experience gained as a DoD contractor or through knowledge of general business operations and Government contracting, as demonstrated by evidence that such entity—
 - (i) Received DoD contracts and subcontracts equal to or greater than \$25 million during the previous fiscal year;
 - (ii) Is a prime contractor to DoD with an active subcontracting plan;
 - (iii) Has graduated from the 8(a) Business Development Program and provides documentation of its ability to serve as a mentor; or
 - (iv) Is otherwise capable to assist in the development of protégé firms and is approved by the Director OSBP, OUSD(A&S).
- (b) To be eligible to participate as a protege, an entity must be—
 - (1) A small business concern;
 - (2) Eligible for the award of Federal contracts;
 - (3) Not more than the Small Business Administration (SBA) size standard for its primary North American Industry Classification System (NAICS) code;
 - (4) Not owned or managed by individuals or entities that directly or indirectly have stock options or convertible securities in the mentor firm; and
 - (5) At least one of the following:
 - (i) A qualified HUBZone small business concern.
 - (ii) A women-owned small business concern.
 - (iii) A service-disabled veteran-owned small business concern.
 - (iv) An entity owned and controlled by an Indian tribe.
 - (v) An entity owned and controlled by a Native Hawaiian organization.
 - (vi) An entity owned and controlled by socially and economically disadvantaged individuals.
 - (vii) A qualified organization employing severely disabled individuals.
 - (viii) A nontraditional defense contractor.
 - (ix) An entity that currently provides goods or services in the private sector that are critical to enhancing the capabilities of the defense supplier base and fulfilling key DoD needs.
- (c) Mentor firms may rely in good faith on a written representation that the entity meets the requirements of paragraph (b) of this section, except that a mentor firm is required to confirm a protege's status as a HUBZone small business concern (see FAR 19.703(d)).
- (d) If at any time the SBA (or DoD in the case of entities employing severely disabled individuals) determines that a protege is ineligible, assistance that the mentor firm furnishes to the protege after the date of the determination may not be considered assistance furnished under the Program.
- (e) A mentor firm may not enter into an agreement with a protege firm if SBA has made a determination of affiliation. If SBA has not made such a determination and if the DoD (OSBP) has reason to believe, based on SBA's regulations regarding affiliation, that the mentor firm is affiliated with the protege firm, then DoD OSBP will request a determination regarding affiliation from SBA.
- (f) A company may not be approved for participation in the Program as a mentor firm if, at the time of requesting participation in the Program, it is currently debarred or suspended from contracting with the Federal Government pursuant to FAR subpart 9.4.
- (g) If the mentor firm is suspended or debarred while performing under an approved mentor-protege agreement, the mentor firm—
 - (1) May continue to provide assistance to its protege firms in accordance with the approved mentor-protege agreement entered into prior to the imposition of such suspension or debarment;

(2) May not be reimbursed or take credit for any costs of providing developmental assistance to its protege firm, incurred more than 30 days after the imposition of such suspension or debarment; and

(3) Must promptly give notice of its suspension or debarment to its protege firm and the Director, OSBP, of the cognizant military department or defense agency.

(h) Within 30 days of any change in status affecting eligibility, mentors and protégés must give notice and explanation of pertinent facts to each other, the Director of OSBP, OUSD(A&S), and the Director, OSBP, of the military department or defense agency.

I-103 Incentives for mentors.

(b) Mentors incurring costs through September 30, 2026, pursuant to ~~an approved~~ **[a]** mentor-protégé agreement **[approved prior to December 23, 2022, and mentors incurring costs pursuant to a mentor-protégé agreement approved on or after December 23, 2023,]** may be eligible for—

- (a) Credit toward the attainment of its applicable subcontracting goals for unreimbursed costs incurred in providing developmental assistance to its protégé firm(s);
- (b) Reimbursement pursuant to the execution of a separately priced contract line item added to a contract; or
- (c) Reimbursement pursuant to entering into a separate DoD contract upon determination by the Director, OSBP, of the cognizant military department or defense agency that unusual circumstances justify using a separate contract.

This page intentionally left blank.

I-104 Selection of protege firms.

(a) Mentor firms will be solely responsible for selecting protege firms that qualify under I-102(b). Mentor firms are encouraged to identify and select concerns that have not previously received significant prime contract awards from DoD or any other Federal agency.

(b) The selection of protege firms by mentor firms may not be protested, except as in paragraph (c) of this section.

(c) Any interested party may file a protest of the selection of a protégé firm directly with the Director, OSBP, OUSD(A&S) or the Director, OSBP, of the cognizant military department or defense agency. In the event of a protest regarding the size or status of an entity selected to be a protege firm, the Director, OSBP, OUSD(A&S), or the Director, OSBP, of the military department or defense agency must refer the protest to the SBA to resolve in accordance with 13 CFR Part 121 (with respect to size) or other parts of title 13 of the CFR or this appendix (with respect to the protégé's socioeconomic status). The Director, OSBP, OUSD(A&S), or the Director, OSBP, of the military department or defense agency shall decide protests concerning all other aspects of a protégé's eligibility for the Program (e.g., nontraditional defense contractor or entity employing the severely disabled).

(d) For purposes of the Small Business Act, no determination of affiliation or control (either direct or indirect) may be found between a protege firm and its mentor firm on the basis that the mentor firm has agreed to furnish (or has furnished) to its protege firm, pursuant to a mentor-protege agreement, any form of developmental assistance described in I-106(d).

(e) A protege firm may not be a party to more than one DoD mentor-protege agreement at a time, and may only participate in the Program during the 5-year period beginning on the date the protege firm enters into its first mentor-protege agreement.

This page intentionally left blank.

I-105 Mentor approval process.

(a) An entity seeking to participate as a mentor must apply to the Mentor-Protégé Program Director, OSBP, OUSD(A&S), to establish its initial eligibility as a mentor.

(b) The application must provide the following information:

(1) A statement that the entity meets the requirements in I-102(a), specifying the criteria in I-102(a)(3) under which the entity is applying.

(2) A summary of the entity's historical and recent activities and accomplishments under its small and disadvantaged business utilization program.

(3) The total dollar amount of DoD contracts and subcontracts that the entity received during the 2 preceding fiscal years. (Show prime contracts and subcontracts separately per year.)

(4) The total dollar amount of all other Federal agency contracts and subcontracts that the entity received during the 2 preceding fiscal years. (Show prime contracts and subcontracts separately per year.)

(5) The total dollar amount of subcontracts that the entity awarded under DoD contracts during the 2 preceding fiscal years.

(6) The total dollar amount of subcontracts that the entity awarded under all other Federal agency contracts during the 2 preceding fiscal years.

(7) The total dollar amount and percentage of subcontracts that the entity awarded to firms qualifying under I-102(b)(5)(i) through (vii) during the 2 preceding fiscal years. (Show DoD subcontract awards separately.) If the entity was required to submit a Summary Subcontract Report (SSR) in the Electronic Subcontracting Reporting System, the request must include copies of the final reports for the 2 preceding fiscal years.

(8) Information on the company's ability to provide developmental assistance to its eligible proteges.

(c) A template of the mentor application is available at: <https://business.defense.gov/Programs/Mentor-Prot%C3%A9g%C3%A9-Program/MPP-Resources/>.

(d) Companies that apply for participation and are not approved will be provided the reasons and an opportunity to submit additional information for reconsideration.

This page intentionally left blank.

I-106 Development of mentor-protege agreements.

(a) Prospective mentors and their proteges may choose to execute letters of intent prior to negotiation of mentor-protege agreements.

(b) The agreements should be structured after completion of a preliminary assessment of the developmental needs of the protege firm and mutual agreement regarding the developmental assistance to be provided to address those needs and enhance the protege's ability to perform successfully under contracts or subcontracts.

(c) A mentor firm may not require a protege firm to enter into a mentor-protege agreement as a condition for award of a contract by the mentor firm, including a subcontract under a DoD contract awarded to the mentor firm.

(d) The mentor-protege agreement may provide for the mentor firm to furnish any or all of the following types of developmental assistance:

(1) Assistance by mentor firm personnel in—

(i) General business management, including organizational management, financial management, and personnel management, marketing and technology commercialization, compliance systems, and overall business planning;

(ii) Engineering and technical matters such as production, inventory control, manufacturing, test and evaluation, and quality assurance; acquisition or transfer of hardware, tooling, or software; and technology transfer and transition; and

(iii) Any other assistance designed to develop the capabilities of the protege firm under the developmental program described in I-107(g).

(2) Award of subcontracts to the protege firm under DoD contracts or other contracts on a noncompetitive basis.

(3) Payment of progress payments for the performance of subcontracts by a protege firm in amounts as provided for in the subcontract; but in no event may any such progress payment exceed 100 percent of the costs incurred by the protege firm for the performance of the subcontract. Provision of progress payments by a mentor firm to a protege firm at a rate other than the customary rate for the firm must be implemented in accordance with [FAR 32.504\(c\)](#).

(4) Advance payments under such subcontracts. The mentor firm must administer advance payments in accordance with [FAR subpart 32.4](#).

(5) Loans.

(6) Assistance that the mentor firm obtains for the protege firm from one or more of the following:

(i) Small Business Development Centers established pursuant to section 21 of the Small Business Act (15 U.S.C. 648).

(ii) Entities providing procurement technical assistance pursuant to 10 U.S.C. Chapter 388 (Procurement Technical Assistance Cooperative Agreement Program).

(iii) Historically Black colleges and universities.

(iv) Minority institutions of higher education.

(v) Women's business centers described in section 29 of the Small Business Act (15 U.S.C. 656).

(vi) Manufacturing innovation institutes.

(e) Pursuant to FAR 31.109, approved mentor firms seeking either reimbursement or credit are strongly encouraged to enter into an advance agreement with the contracting officer responsible for determining final indirect cost rates under FAR 42.705. The purpose of the advance agreement is to establish the accounting treatment of the costs of the developmental assistance pursuant to the mentor-protege agreement prior to the incurring of any costs by the mentor firm. An advance agreement is an attempt by both the Government and the mentor firm to avoid possible subsequent dispute based on questions related to reasonableness, allocability, or allowability of the costs of developmental assistance under the Program. Absent an advance agreement, mentor firms are advised to establish the accounting treatment of such costs and to address the need for any changes to their cost accounting practices that may result from the implementation of a mentor-protege agreement, prior to incurring any costs, and irrespective of whether costs will be reimbursed or credited.

(f) Developmental assistance provided under an approved mentor-protege agreement is distinct from, and must not duplicate, any effort that is the normal and expected product of the award and administration of the mentor firm's subcontracts. Costs associated with the latter must be accumulated and charged in accordance with the contractor's approved accounting practices; they are not considered developmental assistance costs eligible for either credit or reimbursement under the Program.

(g) The agreement shall demonstrate, through its execution, how it will contribute to the overall mission of DoD and/or fill or address an identified critical gap or vulnerability. Focus areas include, but are not limited to, manufacturing, research and development, and knowledge-based services.

This page intentionally left blank.

I-107 Elements of a mentor-protege agreement.

Each mentor-protege agreement shall contain—

- (a) The name, address, email address, and telephone number of the mentor and protege points of contact;
- (b) The NAICS code(s) that represent the contemplated supplies or services to be provided by the protege firm to the mentor firm and a statement that, at the time the agreement is submitted for approval, the protege firm does not exceed the size standard in I-102(b)(3);
- (c) A statement that the protege firm is eligible to participate in accordance with I-102(b);
- (d) A statement that the mentor is eligible to participate in accordance with I-102(a);
- (e) Assurances that—
 - (1) The mentor firm does not share, directly or indirectly, with the protege firm ownership or management of the protege firm;
 - (2) The mentor firm does not have an agreement, at the time the mentor firm enters into a mentor-protege agreement, to merge with the protege firm;
 - (3) The owners and managers of the mentor firm are not the parent, child, spouse, sibling, aunt, uncle, niece, nephew, grandparent, grandchild, or first cousin of an owner or manager of the protege firm;
 - (4) The mentor firm has not, during the 2-year period before entering into a mentor-protege agreement, employed any officer, director, principal stock holder, managing member, or key employee of the protege firm;
 - (5) The mentor firm has not engaged in a joint venture with the protege firm during the 2-year period before entering into a mentor-protege agreement, unless such joint venture was approved by SBA prior to making any offer on a contract;
 - (6) The mentor firm is not, directly or indirectly, the primary party providing contracts to the protege firm, as measured by the dollar value of the contracts; and
 - (7) The SBA has not made a determination of affiliation or control;
- (f) A preliminary assessment of the developmental needs of the protege firm;
- (g) A developmental program for the protege firm, including—
 - (1) The type of assistance the mentor will provide to the protege and how that assistance will—
 - (i) Increase the protege's ability to participate in DoD, Federal, and/or commercial contracts and subcontracts; and
 - (ii) Increase small business subcontracting opportunities in industry categories where eligible proteges or other small business firms are not dominant in the company's vendor base;
 - (2) Factors to assess the protege firm's developmental progress under the Program, including specific milestones for providing each element of the identified assistance;
 - (3) A description of the quantitative and qualitative benefits to DoD from the agreement, if applicable; and
 - (4) Goals for additional awards for which the protege firm can compete outside the Program;
- (h) The assistance the mentor will provide to the protege firm in understanding Federal contract regulations, including the FAR and DFARS, after award of a subcontract under the Program, if applicable;
- (i) An estimate of the dollar value and type of subcontracts that the mentor firm will award to the protege firm, and the period of time over which the subcontracts will be awarded;
- (j) A statement from the protege firm indicating its commitment to comply with the requirements for reporting and for review of the agreement during the duration of the agreement and for 5 years thereafter;
- (k) A program participation term for the agreement that does not exceed 23 years. The agreement may be extended for a period not to exceed 2 years if approved by the Director, OSBP, OUSD(A&S). The Director, OSBP, of the cognizant military department or defense agency will submit requests for an extension of the agreement to the Director, OSBP, OUSD(A&S) for approval. The request will include a justification describing the unusual circumstances that warrant a term in excess of 3 years;
- (l) Procedures for the mentor firm to notify the protege firm in writing at least 30 days in advance of the mentor firm's intent to voluntarily withdraw its participation in the Program. A mentor firm may voluntarily terminate its mentor-protege agreement(s) only if it no longer wants to be a participant in the Program as a mentor firm. Otherwise, a mentor firm must terminate a mentor-protege agreement for cause;
- (m) Procedures for the mentor firm to terminate the mentor-protege agreement for cause which provide that—
 - (1) The mentor firm must furnish the protege firm a written notice of the proposed termination, stating the specific reasons for such action, at least 30 days in advance of the effective date of such proposed termination;
 - (2) The protege firm must have 30 days to respond to such notice of proposed termination, and may rebut any findings believed to be erroneous and offer a remedial program;

(3) Upon prompt consideration of the protege firm's response, the mentor firm must either withdraw the notice of proposed termination and continue the protege firm's participation, or issue the notice of termination; and

(4) The decision of the mentor firm regarding termination for cause, conforming with the requirements of this section, will be final and is not reviewable by DoD;

(n) Procedures for a protege firm to notify the mentor firm in writing at least 30 days in advance of the protege firm's intent to voluntarily terminate the mentor-protege agreement;

(o) Additional terms and conditions as may be agreed upon by both parties; and

(p) Signatures and dates for both parties to the mentor-protege agreement.

I-108 Submission and approval of mentor-protege agreements.

- (a) Upon solicitation or as determined by the cognizant military department or defense agency, mentors will submit—
 - (1) A mentor application pursuant to I-105, if the mentor has not been previously approved to participate;
 - (2) A signed mentor-protege agreement pursuant to I-107;
 - (3) A statement as to whether the mentor is seeking credit or reimbursement of costs incurred;
 - (4) The estimated cost of the technical assistance to be provided, broken out per year;
 - (5) A justification if program participation term is greater than 3 years (agreements may not exceed 5 years) (see I-107(k)); and
 - (6) For reimbursable agreements, a specific justification for developmental costs in excess of \$1 million per year.
- (b) When seeking reimbursement of costs, the military department or defense agency may require additional information.
- (c) The mentor-protege agreement must be approved by the Director, OSBP, of the military department or defense agency prior to incurring costs eligible for credit.
- (d) The cognizant military department or defense agency will execute a contract modification or a separate contract, if justified pursuant to I-103(b)(3), prior to the mentor's incurring costs eligible for reimbursement.
- (e) Credit agreements that are not associated with an existing DoD program and/or military department or defense agency will be submitted for approval to the Director, OSBP, Defense Contract Management Agency (DCMA), via the mentor's cognizant administrative contracting officer.
- (f) A prospective mentor that has identified Program funds to be made available from a DoD program manager must provide the information in paragraph (a) of this section through the program manager to the Director, OSBP, of the military department or defense agency with a letter signed by the program manager indicating the amount of funding that has been identified for the developmental assistance program.

This page intentionally left blank.

I-109 Reimbursable agreements.

The following provisions apply to all reimbursable mentor-protege agreements including agreements that provide for both reimbursement and subcontracting credit:

(a) Assistance provided in the form of progress payments to a protege firm in excess of the customary progress payment rate for the firm will be reimbursed only if implemented in accordance with FAR 32.504(c).

(b) Assistance provided in the form of advance payments will be reimbursed only if the payments have been provided to a protege firm under subcontract terms and conditions similar to those in the clause at FAR 52.232-12, Advance Payments. Reimbursement of any advance payments will be made pursuant to the inclusion of the clause at DFARS [252.232-7005](#), Reimbursement of Subcontractor Advance Payments—DoD Mentor-Protege Program, in appropriate contracts. In requesting reimbursement, the mentor firm agrees that the risk of any financial loss due to the failure or inability of a protege firm to repay any unliquidated advance payments will be the sole responsibility of the mentor firm.

(c) The primary forms of developmental assistance authorized for reimbursement under the Program are identified in I-106(d). On a case-by-case basis, Directors, OSBP, of the military departments or defense agencies at their discretion, may approve additional incidental expenses for reimbursement, provided these expenses do not exceed 10 percent of the total estimated cost of the agreement.

(d) The total amount reimbursed to a mentor firm for costs of assistance furnished to a protege firm in a fiscal year may not exceed \$1 million unless the Director, OSBP, of the military department or defense agency determines in writing that unusual circumstances justify reimbursement at a higher amount. Request for authority to reimburse in excess of \$1 million must detail the unusual circumstances and must be endorsed and submitted by the program manager to the Director, OSBP, of the military department or defense agency.

(e) DoD may not reimburse any fee to the mentor firm for services provided to the protege firm pursuant to I-106(d) (6) or for business development expenses incurred by the mentor firm under a contract awarded to the mentor firm while participating in a joint venture with the protege firm.

(f) Developmental assistance costs that are incurred pursuant to an approved reimbursable mentor-protege agreement, and have been charged to, but not reimbursed through, a separate contract, or through a separately priced contract line item added to a DoD contract, will not be otherwise reimbursed, as either a direct or indirect cost, under any other DoD contract, irrespective of whether the costs have been recognized for credit against applicable subcontracting goals.

This page intentionally left blank.

I-110 Credit agreements.

Sections I-110.1 and I-110.2 apply to all credit agreements, including agreements that provide for both credit and reimbursement.

I-110.1 Program provisions applicable to credit agreements.

(a) Developmental assistance costs incurred by a mentor firm for providing assistance to a protege firm pursuant to an approved credit mentor-protege agreement may be credited as if the costs were incurred under a subcontract award to that protege, for the purpose of determining the performance of the mentor firm in attaining an applicable subcontracting goal established under any contract containing a subcontracting plan pursuant to the clause at FAR 52.219-9, Small Business Subcontracting Plan, or the provisions of the DoD Test Program for Negotiation of Comprehensive Small Business Subcontracting Plans. Unreimbursed developmental assistance costs incurred for a protege firm that is an eligible entity employing severely disabled individuals may be credited toward the mentor firm's small disadvantaged business subcontracting goal, even if the protege firm is not a small disadvantaged business concern.

(b) Costs that have been reimbursed through inclusion in indirect expense pools may also be credited as subcontract awards for determining the performance of the mentor firm in attaining an applicable subcontracting goal established under any contract containing a subcontracting plan. However, costs that have not been reimbursed because they are not reasonable, allocable, or allowable will not be recognized for crediting purposes.

(c) Other costs that are not eligible for reimbursement pursuant to I-106(d) may be recognized for credit only if requested, identified, and incorporated in an approved mentor-protege agreement.

(d) The amount of credit a mentor firm may receive for any such unreimbursed developmental assistance costs must be equal to—

(1) Four times the total amount of such costs attributable to assistance provided by small business development centers, historically Black colleges and universities, minority institutions, and procurement technical assistance centers.

(2) Three times the total amount of such costs attributable to assistance furnished by the mentor's employees.

(3) Two times the total amount of other such costs incurred by the mentor in carrying out the developmental assistance program.

I-110.2 Credit adjustments.

(a) Adjustments may be made to the amount of credit claimed if the Director, OSBP, OUSD(A&S), determines that—

(1) A mentor firm's performance in the attainment of its subcontracting goals through actual subcontract awards declined from the prior fiscal year without justifiable cause; and

(2) Imposition of such a limitation on credit appears to be warranted to prevent abuse of this incentive for the mentor firm's participation in the Program.

(b) The mentor firm must be afforded the opportunity to explain the decline in small business subcontract awards before imposition of any such limitation on credit. In making the final decision to impose a limitation on credit, the Director, OSBP, OUSD(A&S), must consider—

(1) The mentor firm's overall small business participation rates (in terms of percentages of subcontract awards and dollars awarded) as compared to the participation rates existing during the 2 fiscal years prior to the firm's admission to the Program;

(2) The mentor firm's aggregate prime contract awards during the prior 2 fiscal years and the total amount of subcontract awards under such contracts; and

(3) Such other information the mentor firm may wish to submit.

(c) The decision of the Director, OSBP, OUSD(A&S), regarding the imposition of a limitation on credit will be final.

This page intentionally left blank.

I-111 Agreement terminations.

(a) Mentors and/or protégés must send a copy of any termination notice to the Director, OSBP, OUSD(A&S) or the Director, OSBP, of the cognizant military department or defense agency that approved the agreement, and the DCMA small business professional responsible for conducting the annual review pursuant to I-113.

(b) For reimbursable agreements, mentors must also send copies of any termination to the program manager and to the contracting officer.

(c) Termination of a mentor-protege agreement will not impair the obligations of the mentor firm to perform pursuant to its contractual obligations under Government contracts and subcontracts.

(d) Termination of all or part of the mentor-protege agreement will not impair the obligations of the protege firm to perform pursuant to its contractual obligations under any contract awarded to the protege firm by the mentor firm.

(e) Mentors and proteges will follow provisions of the mentor-protege agreement developed in compliance with I-107(l) through (n).

(f) The Director, OSBP, OUSD(A&S) or the Director, OSBP, of the military department or defense agency is authorized to terminate the mentor-protégé agreement for the convenience of the Government (to include national security grounds, funding limits, statutory requirements, or other considerations), as well as for cause upon written findings (e.g., either of the participants' failure to perform or provide adequate assurance of performance; failure to comply with laws, regulations, and policies; conflicts of interest; or default under any provisions of a DoD contract or agreement).

This page intentionally left blank.

I-112 Reporting requirements.

I-112.1 Reporting requirements applicable to Individual Subcontract Reports (ISR), Summary Subcontract Reports (SSR) and Standard Forms 294.

(a) Amounts credited toward applicable subcontracting goal(s) for unreimbursed costs under the Program must be separately identified on the appropriate ISR, SSR or SF 294 from the amounts credited toward the goal(s) resulting from the award of actual subcontracts to protege firms. The combination of the two must equal the mentor firm's overall accomplishment toward the applicable goal(s).

(b) A mentor firm may receive credit toward the attainment of an applicable subcontracting goal for each subcontract awarded by the mentor firm to an entity that qualifies as a protege firm pursuant to I-102(b).

I-112.2 Program specific reporting requirements.

(a) Mentors must report on the progress made under active mentor-protege agreements semiannually for the periods ending March 31st and September 30st throughout the Program participation term of the agreement. The September 30th report must address the entire fiscal year.

(1) Reports are due 30 days after the close of each reporting period.

(2) Each report must include the following data on performance under the mentor-protege agreement:

(i) Dollars obligated (for reimbursable agreements).

(ii) Expenditures.

(iii) Dollars credited, if any, toward applicable subcontracting goals as a result of developmental assistance provided to the protege and a copy of the ISR or SF 294 and/or SSR for each contract where developmental assistance was credited.

(iv) Any new awards of subcontracts on a competitive or noncompetitive basis to the protege firm under DoD contracts or other contracts, including the value of such subcontracts.

(v) All technical or management assistance provided by mentor firm personnel for the purposes described in I-106(d).

(vi) Any extensions, increases in the scope of work, or additional payments not previously reported for prior awards of subcontracts on a competitive or noncompetitive basis to the protege firm under DoD contracts or other contracts, including the value of such subcontracts.

(vii) The amount of any payment of progress payments or advance payments made to the protege firm for performance under any subcontract made under the Program.

(viii) Any loans made by the mentor firm to the protege firm.

(ix) All Federal contracts awarded to the mentor firm and the protege firm as a joint venture, designating whether the award was a restricted competition or a full and open competition.

(x) Any assistance obtained by the mentor firm for the protege firm from the entities listed at I-106(d)(6).

(xi) Whether there have been any changes to the terms of the mentor-protege agreement.

(xii) A narrative describing the following:

(A) The success developmental assistance provided under I-106(d) has had in addressing the developmental needs of the protege firm.

(B) The impact on DoD contracts, including but not limited to the transition of innovative technology into a program of record.

(C) Any problems encountered.

(D) Any milestones achieved in the protege firm's developmental program.

(E) Impact of the agreement in terms of capabilities enhanced, certifications received, and technology transferred.

(3) A recommended reporting format and guidance for its submission are available at <https://business.defense.gov/Programs/Mentor-Prot%C3%A9g%C3%A9-Program/MPP-Resources/>.

(b) The protege must provide data, annually by October 31st, on the progress made during the prior fiscal year by the protege in employment, revenues, and participation in DoD contracts during—

(1) Each fiscal year of the Program participation term; and

(2) Each of the 2 fiscal years following the expiration of the Program participation term.

(c) The protege report required by paragraph (b) of this section may be provided as part of the mentor report for the period ending September 30th required by paragraph (a) of this section.

(d) Progress reports must be submitted—

(1) For credit agreements, to the Director, OSBP, of the military department or defense agency that approved the agreement, and the mentor's cognizant DCMA administrative contracting officer; and

(2) For reimbursable agreements, to the Director, OSBP, of the military department or defense agency, the contracting officer, the DCMA administrative contracting officer, and the program manager.

I-113 Performance reviews.

DCMA will conduct annual performance reviews of the progress and accomplishments realized under approved mentor-protege agreements. These reviews must verify data provided on the semiannual reports and must provide information as to—

(a) Whether all costs reimbursed to the mentor firm under the agreement were reasonably incurred to furnish assistance to the protege in accordance with the mentor-protege agreement and applicable regulations and procedures; and

(b) Whether the mentor and protege accurately reported progress made by the protege in employment, revenues, and participation in DoD contracts during the Program participation term and for 5 fiscal years following the expiration of the Program participation term.

PGI 201.109 Statutory acquisition-related dollar thresholds - adjustment for inflation.

Statutory acquisition-related dollar thresholds are reviewed every 5 years to calculate adjustment for inflation, as required by Section 807 of the National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375). The matrix showing the most recent escalation adjustments of statutory acquisition-related dollar thresholds in the DFARS is available [here](#).

PGI 201.170 Peer reviews.

(a) DoD components may request a Defense Pricing, Contracting, and Acquisition Policy (DPCAP) led peer review for procurements that would not otherwise require a DPCAP-led peer review.

(b) Military departments and defense agencies shall, on or about June 30 and December 31 of each year, submit recommended best practices and lessons learned from competitive acquisition peer reviews under major defense acquisition programs to osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil. Submissions that have broad applicability may be selected for posting at <https://www.acq.osd.mil/asda/dpc/cp/policy/peer-reviews.html>.

PGI 201.170-1 Objectives of peer reviews.

The objectives of peer reviews are to—

- (a) Ensure that DoD contracting officers are implementing policy and regulations in a consistent and appropriate manner;
- (b) Continue to improve the quality of contracting processes throughout DoD; and

(c) Facilitate cross-sharing of best practices and lessons learned throughout DoD DPCAP maintains a compilation of peer review lessons learned and best practices that is available at <https://www.acq.osd.mil/asda/dpc/cp/policy/peer-reviews.html> for competitive peer reviews and at <https://www.acq.osd.mil/asda/dpc/pcf/docs/ss-peer-reviews/Sole-Source-Peer-Reviews-Best-Practices-V1.0-14June21.pdf> for noncompetitive peer reviews.

PGI 201.170-2 Pre-award peer reviews.

(a) Pre-award peer reviews for competitive acquisitions shall be conducted prior to each of the following three phases of the acquisition:

- (1) Issuance of the solicitation.
- (2) Request for final proposal revisions (if applicable).
- (3) Contract award.

(b) Pre-award peer reviews for non-competitive acquisitions shall be conducted prior to each of the following two phases of the acquisition:

- (1) Negotiation.
- (2) Contract award.

PGI 201.170-3 Administration of peer reviews.

(a) The results and recommendations that are products of peer reviews are intended to be advisory in nature; however, in the event the Peer Review report includes a recommendation that is identified as “significant” and the contracting officer does not intend to follow that recommendation, the senior procurement official of the contracting activity for the reviewed organization must be made aware of this fact before action is taken (or inaction, as applicable) that is contrary to the recommendation. Reviews will be conducted in a manner that preserves the authority, judgment, and discretion of the contracting officer and the senior officials of the requiring activity.

(b) Peer review teams should be comprised of senior contracting officials and attorneys as appropriate. Teams may include civilian employees or military personnel external to the department, agency, or component that is the subject of the peer review.

(c) Reviews are generally, conducted remotely. However, a peer review may be conducted at the location of the executing contracting organization when appropriate.

(d) A list of the documents that must be made available to the competitive peer review team, along with the specific elements the team will examine, is provided at paragraph (g) of this PGI section. A list of the documents that must be made available to the noncompetitive peer review team, along with a link to the noncompetitive peer review preparation checklist, is provided at paragraph (h) of this PGI section.

(e) The review team observations and recommendations will be communicated to the contracting officer and the senior procurement official immediately upon completion of a review.

(f) The contracting officer shall document the disposition of all peer review recommendations (i.e., state whether the recommendation will be followed and, if not, why not) as a signed memorandum for the record in the applicable contract file. For competitive acquisitions, the contracting officer shall submit this memorandum to osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil prior to the next phase peer review or prior to contract award for phase 3 reviews. For noncompetitive acquisitions, the contracting officer shall submit this memorandum to osd.pentagon.ousd-a-s.mbx.dpc-pcf@mail.mil prior to the phase 2 review or prior to contract award for phase 2 reviews.

(g) *Competitive acquisition preaward peer review required documents and elements.* Submit any required peer review documents to osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil.

(1) *Required documents.* At a minimum, peer review teams shall have access to the following documents, as applicable, at least 5 business days prior to the scheduled date of a peer review:

- (i) The most recent acquisition decision memorandum for the program.
- (ii) The acquisition strategy, or acquisition plan.
- (iii) The source selection plan.
- (iv) The draft for phase 1 or final request for proposals (RFP) and all amendments, with a synopsis of what, if any, RFP requirements (technical and contractual) were changed and why.
- (v) The source selection evaluation board (SSEB) analysis and findings to ensure the evaluation of offers was consistent with the source selection plan and RFP criteria.
- (vi) Any meeting minutes memorializing discussions between the Government and offerors.

(vii) All evaluation notices generated as a result of deficiencies in the offerors' proposals as well as the offerors' responses to those evaluation notices.

(viii) All minutes memorializing the conduct of source selection advisory council (SSAC) deliberations held to date.

(ix) The offerors' responses to the request for final proposal revision.

(x) The final SSAC deliberation.

(xi) The final source selection authority (SSA) determination and source selection decision.

(xii) Award/incentive fee arrangements, documentation of any required head of the contracting activity determinations and findings regarding non-availability of objective criteria.

(2) Peer review teams may make recommendations on any aspect of the procurement, including the following:

(i) The process was well understood by both Government and Industry.

(ii) Source selection was carried out in accordance with the source selection plan and RFP.

(iii) The SSEB evaluation was clearly documented.

(iv) The SSAC advisory panel recommendation was clearly documented.

(v) The SSA decision was clearly derived from the conduct of the source selection process.

(vi) All source selection documentation is consistent with the Section M evaluation criteria.

(vii) The business arrangement.

(h) *Noncompetitive acquisition preaward peer review required documents and noncompetitive peer review preparation checklist.* Submit any required peer review documents to osd.pentagon.ousd-a-s.mbx.dpc-pcf@mail.mil.

(1) Required documents. At a minimum, peer review teams shall have access to the following documents, as applicable, at least 5 business days prior to the scheduled date of a peer review:

(i) Preliminary price negotiation memorandum/business clearance for phase 1 or price negotiation memorandum/business clearance for phase 2, including all listed attachments.

(ii) Summary documents to support a discussion of salient aspects of the acquisition, e.g., business/contract clearance charts. Special charts do not need to be developed for the peer review.

(iii) The anticipated or negotiated language of clauses affecting the price or the business arrangement, e.g., economic price adjustment, performance-based payments, incentive or award-fee/award-term provisions, terms establishing price adjustment when using demand bands, reopener clauses, exchange rate clauses, or other clauses.

(iv) Award-fee plan and documentation of any required head of the contracting activity determination and findings regarding nonavailability of objective criteria (see FAR [16.401](#)(e)(1));

(v) Defense Contract Audit Agency audits and Defense Contract Management Agency technical and/or price analyses, upon request.

(vi) The proposed performance-based payments schedule and Government analysis, if use of performance-based payments is contemplated.

(vii) Any other documents deemed necessary by the review team.

(2) *Noncompetitive peer review checklist.* The noncompetitive peer review preparation checklist is available at <https://www.acq.osd.mil/asda/dpc/pcf/docs/ss-peer-reviews/Sole-Source-Peer-Review-Preparation-and-Checklist-8Apr21.pdf>. The checklist identifies frequently addressed areas of emphasis. It is recommended that acquisition teams review these listed areas of interest in advance of releasing a request for proposal.

PGI 201.3 -AGENCY ACQUISITION REGULATIONS

PGI 201.301 Policy.

(b)(i) Contract clauses and solicitation provisions developed by departments and agencies (local clauses) that constitute a significant revision, as defined at FAR 1.501-1, shall be—

(A) Published for public comment in the Federal Register in accordance with FAR 1.501; and

(B) Approved in accordance with DFARS [201.304](#).

(ii) A local clause is considered a significant revision, as defined at FAR 1.501-1, if the clause—

(A) Contains a new certification requirement for contractors or offerors that is not imposed by statute (see FAR 1.107 and DFARS [201.107](#) and [201.304](#)(2));

(B) Constitutes a deviation (as defined at FAR 1.401) from the parts and subparts identified at DFARS [201.402](#)(1); or

(C) Will be used on a repetitive basis; and

(I) Imposes a new requirement for the collection of information from 10 or more members of the public (see FAR 1.106); or

(2) Has any cost or administrative impact on contractors or offerors beyond that contained in the FAR or DFARS.

(iii) A local clause is not considered a significant revision as defined at FAR 1.501-1, if the clause—

(A) Is for a single-use intended to meet the needs of an individual acquisition (e.g. a clause developed as a result of negotiations and documented in the business clearance or similar document), except for clauses that constitute a deviation (as defined at FAR 1.401) from the parts and subparts identified at DFARS [201.402](#)(1); or

(B) May be used on a repetitive basis and has no new or additional cost or administrative impact on contractors or offerors beyond any cost or administrative impact contained in existing FAR or DFARS coverage.

PGI 201.304 Agency control and compliance procedures.

(4) Plans for controlling the use of clauses or provisions other than those prescribed by the FAR or DFARS (local clauses), as required by DFARS [201.304](#)(4), shall include procedures to ensure that a local clause—

(A) Is evaluated to determine whether the local clause constitutes a significant revision (see [201.301](#) (b));

(B) Is numbered in accordance with FAR 52.1 and DFARS 252.1 (see [252.103](#));

(C) Is accompanied by a prescription in the appropriate part and subpart of the department or agency FAR supplement where the subject matter of the clause receives its primary treatment;

(D) If it constitutes a significant revision—

(I) Is published for public comment in the Federal Register in accordance with FAR 1.501 and DFARS 201.501;

(2) Complies with the Paperwork Reduction Act 1980 (44 USC chapter 35), in accordance with FAR 1.106 and 1.301;

(3) As a matter of policy, complies with the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*); and

(4) Is approved in accordance with DFARS [201.304](#); and

(E) Is published with a prescription as a final rule in the Federal Register in order to amend the department or agency's chapter of Title 48 of the Code of Federal Regulations (CFR), if it is to be used on a repetitive basis.

(5)(A) Prior to publication for public comment in the Federal Register of a local clause that constitutes a significant revision (see [201.301](#) (b)), departments and agencies shall submit, in accordance with agency procedures, the following information electronically via email to the Director, Defense Acquisition Regulation (DAR) Council, at osd.pentagon.ousd-a-s.mbx.dfars@mail.mil:

(I) The name of the requesting department or agency.

(2) The name, email address and phone number of the point of contact for the local clause and the department or agency clause control point of contact.

(3) A detailed rationale for the request, to include—

(i) Why existing FAR or DFARS clauses or provisions do not satisfy, or could not be tailored to meet, the department or agency's needs;

(ii) What contracting problem or situation will be avoided, corrected, or improved if the local clause is approved; and

(iii) Identification of other DoD Components that have expressed interest in use of the clause for consideration for incorporation into the DFARS.

(4) The draft rule to be published in the Federal Register to solicit public comments on the proposal to amend the department and agency's chapter of Title 48 of the CFR to incorporate the local clause.

(5) The initial regulatory flexibility analysis. For additional information on the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) see Appendix 8 of the FAR Operating Guide accessible via the Defense Acquisition Regulation System (DARS) website at <http://www.acq.osd.mil/dpap/dars/about.html>.

(6) If applicable, the request package to be submitted to the Office of Management and Budget for any new information collection requirement imposed by the local clause. For additional information on the Paperwork Reduction Act (44 USC Chapter 35) see Appendix 9 of the FAR Operating Guide accessible via the DARS website at <http://www.acq.osd.mil/dpap/dars/about.html>.

(7) Evidence of coordination with the department or agency's legal counsel.

(8) Evidence of coordination with the appropriate stakeholders (e.g., Chief Information Officer, Office of Small Business Programs, etc.).

(B) The Director, DAR Council, shall—

(1) Determine whether the local clause unnecessarily duplicates coverage currently contained within the FAR or DFARS;

(2) Determine whether the local clause constitutes a deviation from the FAR or DFARS (see FAR 1.401) and requires approval in accordance with DFARS 201.4;

(3) Coordinate the local clause with the appropriate stakeholders;

(4) Coordinate local clauses, as appropriate, with the DAR Council for consideration of the local clause for incorporation in the DFARS; and

(5) Provide recommendations regarding the local clause package.

(C) Requests for Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP), approval of local clauses that have been published for public comment in the Federal Register, shall be submitted electronically via email through the Director, DAR Council, at osd.pentagon.ousd-a-s.mbx.dfars@mail.mil and shall include the following:

(1) A memorandum requesting Principal Director, DPCAP, approval of the local clause.

(2) A copy of the notice of the rule published in the Federal Register.

(3) A copy of all public comments received in response to the Federal Register notice.

(4) An analysis of, and responses to, any public comments received.

(5) The draft final rule to be published in the Federal Register to amend the department or agency's chapter of Title 48 of the CFR to incorporate the local clause.

(6) The final regulatory flexibility analysis. For additional information on the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) see Appendix 8 of the FAR Operating Guide accessible via the DARS website at <http://www.acq.osd.mil/dpap/dars/about.html>.

(7) If applicable, a copy of the Office of Management and Budget's approval of any new information collection requirement imposed by the local clause. For additional information on the Paperwork Reduction Act (44 USC chapter 35) see Appendix 9 of the FAR Operating Guide accessible via the DARS website at <http://www.acq.osd.mil/dpap/dars/about.html>.

(8) Evidence of coordination with the department or agency's legal counsel.

(9) Evidence of coordination with the appropriate stakeholders (e.g., Chief Information Officer, Office of Small Business Programs, etc.).

(10) A copy of any initial recommendations received from the Director, DAR Council on the proposed rule.

PGI 201.6 -CAREER DEVELOPMENT, CONTRACTING AUTHORITY, AND RESPONSIBILITIES

PGI 201.602 Contracting officers.

PGI 201.602-2 Responsibilities.

Contracting officers shall inform all individuals performing on their behalf of their delegated roles and responsibilities, and the relationships among the parties.

(d)(i) When designating Department of State personnel as a contracting officer's representative (COR for contracts executed by DoD in support of Department of State in Iraq), follow the procedures in the Director, Defense Procurement and Acquisition Policy memorandum dated July 11, 2011, Contracting Officer's Representative Designation—Iraq.

(ii) DoD COR certification standards define minimum COR competencies, experience, and training requirements according to the nature and complexity of the requirement and contract performance risk. These COR certification standards should be considered when developing service requirements, soliciting proposals, and performing surveillance during contract performance. The DoD standards and policy are provided in DoD Instruction 5000.72, DoD Standard for Contracting Officer's Representative (COR) Certification.

(iii) Guidance on the appointment and duties of CORs is provided in the DoD COR Guidebook.

(iv) DoD agencies and components shall use the Joint Appointment Module (JAM), within in the Procurement Integrated Enterprise Environment (PIEE), to electronically track COR nominations, appointments, terminations, and training certifications for contracts assigned a COR. Components shall use the Surveillance and Performance Monitoring (SPM) Module, located in the PIEE, for all other contract surveillance actions. Further guidance on the use of JAM and SPM Module is available at <https://wawf.eb.mil> <https://piee.eb.mil/piee-landing/>.

(v) A COR assists in the technical monitoring or administration of a contract.

(A) Unless an exemption at [201.602-2\(d\)\(v\)\(A\) or \(B\)](#) applies, contracting officers shall designate a COR for all service contracts, and supply contracts with cost-reimbursable line items including both firm-fixed-price and other than firm-fixed-price contracts, awarded by a DoD component or by any other Federal agency on behalf of DoD within 3 business days of contract award. The surveillance activities performed by CORs should be tailored to the dollar value/complexity of the specific contract for which they are designated. For geographically dispersed large contracts with multiple task orders, contracting officers should consider appointing multiple or alternate CORs to assist with surveillance duties. These CORs should have specific duties based on criteria, such as geographic region or distinct task areas, to avoid conflicting or duplicative direction. Contracting officers may exempt service contracts from this requirement when the following three conditions are met:

(1) The contract will be awarded using simplified acquisition procedures;

(2) The requirement is not complex; and

(3) The contracting officer documents the file, in writing, with the specific reasons why the appointment of a COR is unnecessary.

(B) For cost reimbursement contracts that are not service contracts, contracting officers shall either retain or delegate surveillance activities to a COR or DCMA.

(C) The contracting officer shall ensure the written designation required by FAR 1.602-2(d)(7) is maintained in JAM or the SPM Module.

(vi) A COR shall maintain an electronic COR Surveillance file in the SPM Module for each contract assigned. This file must include, at a minimum—

(A) A copy of the contracting officer's letter of designation and other documentation describing the COR's duties and responsibilities; and

(B) Documentation of actions taken in accordance with the delegation of authority.

(vii) Contracting officers shall, at a minimum—

(A) Review the COR's files within 6 months of contract award and then annually based on the risks, complexity, and value of the contract, as appropriate. The contracting officer may review COR files more frequently in subsequent years when it is beneficial to contract oversight. The results of the contracting officer's review shall be documented in the SPM Module; and

(B) Within 30 days of completing the review of the COR's files, provide feedback on the COR's performance to the COR's supervisor and discuss any inadequacies with the COR (see Department of Defense Instruction 5000.72, DoD Standard for Contracting Officer's Representative Certification", Enclosure 3, Procedures, paragraph 1.i).

(viii) Prior to contract closeout, the COR will ensure the COR Surveillance files for the assigned contract are complete and available to the contracting officer .

PGI 204.1 -CONTRACT EXECUTION

PGI 204.101 Contracting officer's signature.

- (1) Include the contracting officer's telephone number and, when available, e-mail/Internet address on contracts and modifications.
- (2) The contracting officer may sign bilateral modifications of a letter contract before signature by the contractor.

This page intentionally left blank.

PGI 204.2 -CONTRACT DISTRIBUTION

PGI 204.201 Procedures.

(1) The procuring contracting officer (PCO) retains the original signed contract for the contract file. Administrative contracting officers and termination contracting officers provide the original of each modification to the PCO for retention in the contract file. Unless otherwise directed by department/agency procedures, the office issuing the orders maintains the original of orders under basic ordering agreements and the original of provisioning orders; and

(2) Ensure that distribution of contracts and modifications is consistent with security directives.

(3) Use the following distribution procedures instead of those at FAR 4.201(b) through (f):

(i) Contracts and modifications shall be distributed electronically (except as provided at DFARS [204.270-1\(a\)](#)) using the following methods:

(A) Indexed Portable Document Format files shall be sent via the Global Exchange system (GEX) to the Electronic Document Access (EDA) (<http://eda.ogden.disa.mil>) system to provide a human-readable copy of contract documents.

(B) Electronic data files depicting the contract shall be sent in at least one of the following formats via the GEX to EDA and to systems supporting specific offices as set forth in paragraph (ii) below. (Note that the GEX can be used to translate from the formats below to other formats. Organizations should send both formats in parallel unless validation failures have been eliminated.)

(I) American National Standards Institute X.12 Electronic Data Interchange standard transaction sets 850 and 860.

(2) Department of Defense Procurement Data Standard (PDS) Extensible Markup Language (XML) format: <https://www.acq.osd.mil/asda/dpc/ce/ds/procurement-data-standard.html>.

(ii) After contract execution, provide an electronic data file copy of the contract and modifications in either X.12 or PDS XML to the following:

(A) The contract administration office, if the contracting officer delegates contract administration to another office (see FAR Subpart 42.2). The contracting officer also should provide the contract administration office with a copy of the contract distribution list, indicating those offices that should receive copies of modifications, and any changes to the list as they occur.

(B) The payment office. Provide any modification that changes the payment office to both the new and the old payment offices.

(C) Each accounting office whose funds are cited in the contract.

(D) Each consignee specified in the contract. A transshipping terminal is not a consignee. The Defense Logistics Agency (DLA) is authorized to prescribe alternate procedures for distribution of contract documents in DLA Europe and Africa.

(E) The military interdepartmental purchase request requiring activity in the case of coordinated acquisition.

(F) The receiving activity, if the contract or modification provides initial or amended shipping instructions under DFARS [204.1603\(b\)\(2\)\(ii\)\(I\)\(ii\)](#) and *(iii)*.

(iii) Provide electronic notice of award via EDA to the following:

(A)(I) The appropriate Defense Contract Audit Agency (DCAA) office, as listed in DCAAP 5100.1, Directory of DCAA Offices, or as obtained through the DCAA cognizant field audit office locator, both available via the Internet at <http://www.dcaa.mil>, if the contract or modification is one of the following types:

(i) Cost-reimbursement.

(ii) Time-and-materials.

(iii) Labor-hour.

(iv) Fixed-price with provisions for redetermination, cost incentives, economic price adjustment based on cost, or cost allowability.

(v) Any other contract that requires audit service.

(2) If there is a question as to the appropriate DCAA field audit office, request the assistance of the DCAA financial liaison advisor or the nearest DCAA field audit office.

(B) Those organizations required to perform contract administration support functions (e.g., when manufacturing is performed at multiple sites, provide a copy to the contract administration office cognizant of each location).

(C) The cognizant administrative contracting officer when the contract is not assigned for administration but contains a Cost Accounting Standards clause. Indicate that the copy is provided “For Cost Accounting Standards Administration Only” (see FAR 30.601(b)); and

(D) The cognizant Defense Security Service office listed in DoD 5100.76-M, Physical Security of Sensitive Conventional Arms, Ammunition, and Explosives, when the clause at DFARS [252.223-7007](#), Safeguarding Sensitive Conventional Arms, Ammunition, and Explosives, is included in the contract. An extract of the pertinent information can be provided instead of the contract.

(iv) If electronic distribution is not available, provide one paper copy to each location identified in paragraphs (3)(i) through (iii) of this section.

PGI 204.270 Electronic Data Access.

PGI 204.270-2 Procedures.

(a) Contracting officers shall maintain an account in Wide Area WorkFlow (WAWF), which provides access to Electronic Document Access (EDA) to ensure their ability to validate and verify data and documents distributed to EDA, as necessary.

(b) Agencies shall perform, upon deployment of any contract writing system or other source of contractual documents to be posted to EDA, an analysis to verify adequate controls are in place to ensure that contract documents including attachments, and contract data posted to EDA are accurate representations of the contract. Analyses performed shall include the following—

(1) For documents posted in document formats (e.g., Portable Document Format (PDF)), verification that the electronic versions of contract documents posted to EDA are accurate representations of the contract; however, the electronic version is not required to display visual signatures; and

(2) For data sent to EDA in the data standards at [204.201](#), review of the data posted to EDA against the contract documents verified under [204.270](#) (b)(1) to ensure the contract data rendered in EDA is an accurate representation of the underlying contract. To facilitate this review process, all feeds of data to EDA in the Procurement Data Standard are initially placed in a view only evaluation mode, where the data is not available to other systems or outside users pending verification. Upon completion of the review of data, contracting organizations shall notify the EDA program office of the results of the review, with a list of the issuing offices of the contractual actions, the identifier of the system sending the actions, the version or versions of the data standards to which the review applies, and the locations of the systems sending the actions, directing one of the following decisions—

(i) Delete all data sent to date (in this case the system remains in evaluation status pending further review);

(ii) Delete all data sent to date, and change all subsequent data from 'evaluation' to 'compliant' status; or

(iii) Retain all data sent to date, and change all subsequent data from 'evaluation' to 'compliant' status.

(c) *Contract deficiency reports.*

(1) Contracting officers and all individuals tasked with creating, managing, or viewing contract deficiency reports (CDRs) shall establish and maintain an account in WAWF.

(2) Agencies that award or administer contracts, or perform pay office functions, should assign individuals within their organization to create, manage, and view CDRs within WAWF based on the following CDR user roles: initiator, reviewer, assignee, and view only.

(3) The contracting officer shall correct contract deficiencies identified in a CDR and document the steps taken to resolve the deficiency in the CDR.

(4) *The CDR process.*

(i) *Creation.* A CDR is created when a deficiency is identified in the procurement instrument. A list of types of CDR deficiencies is available at <https://www.acq.osd.mil/asda/dpc/ce/ds/procurement-data-standard.html>. The specifics of the deficiency shall be documented in the description in enough detail to provide the assignee an understanding of the problem.

(ii) *Approval.* Once a CDR is created, the initiator shall route the CDR to their local approval official for review.

(iii) *Assignment.* Once a CDR is approved, it is routed to the appropriate contracting activity for action.

(iv) *Acceptance.* A CDR must be accepted or returned by the contracting activity. If a CDR is determined to have been incorrectly assigned, the contracting activity can reassign the CDR to the proper organization (if known) or reject the CDR.

(v) *Resolution.* The assignee shall document the actions taken to resolve a CDR. If a modification has been issued to resolve the deficiency, it shall be identified in the CDR. Once all deficiencies identified on a CDR have been resolved, mark the CDR as resolved. All CDRs should be resolved within 30 days of approval.

(vi) *Close*. After resolution of a CDR, the initiator of the CDR can accept the resolution and manually close the CDR or return it to the assignee for further action. CDRs not manually closed or returned by the initiator to the assignee within 60 days after resolution will automatically be closed. Once the CDR is closed, a notification is generated advising that the CDR is closed.

(5) Additional information on the CDR module of WAWF is available at <https://wawf.eb.mil>.

This page intentionally left blank.

PGI 204.4 -SAFEGUARDING CLASSIFIED INFORMATION WITHIN INDUSTRY

PGI 204.402 -General.

- (1) The use of “Not Releasable to Foreign Nationals” (NOFORN) caveat on Department of Defense (DoD) Information, to include contract documents, shall not be applied to non-intelligence information except for Naval Nuclear Propulsion Information and the National Disclosure Policy document (NDP-1).
- (2) Agencies shall not restrict procurements on the basis of foreign origin but rather on the level of security clearance required by industry to submit an offer and perform on the contract.

PGI 204.403 Responsibilities of contracting officers.

(1) Consistent with the requirements at FAR Subpart 4.403, contracting officers shall ensure that solicitations, to include any Broad Agency Announcement (BAA) or notice to industry, that requires industry access to classified information and/or controlled unclassified information (see policy memos), shall contain one or more of the following:

- (i) Draft DoD Form DD 254, DoD Contract Security Classification Specification.

See Defense Security Service (DSS) guide for the preparation of the DD Form 254 at <http://www.dss.mil/isp/tools.html> and select “A Guide for the Preparation of a DD Form 254”.

- (ii) The clause at FAR 52.204-2, Security Requirements.

(iii) Detailed agency instructions for industry requirements to request access to classified information and/or controlled unclassified information. Agency instructions shall clearly reference and be in accordance with the National Industrial Security Program Operating Manual (NISPOM) (DoD 5220-22-M) and Industrial Security Regulation (DoD 5220.22-R).

- (iv) The following is a template of agency instructions to industry:

“Offerors must have a valid U.S. security clearance of *[to be filled in by the contracting officer]* or higher in order to respond to this RFP (Announcement), because the RFP (Announcement) includes an annex (information) classified at the *[to be filled in by the contracting officer]* level which will be released only to offerors possessing the appropriate clearance. All classified material must be handled in accordance with the National Industrial Security Program Operating Manual (NISPOM) (DoD 5220-22-M) and Industrial Security Regulation (DoD 5220.22-R).”

- (2) Fundamental research project determination.

(i) Projects being scoped as fundamental research may include the entire contract effort or a specified portion of the statement of work, and must be documented in the written determination and in the contract.

(ii) The determination of fundamental research shall occur when the project is added to the statement of work, either prior to award or during a contract modification that modified the statement of work.

(iii) Fundamental research is defined in the USD(A&S) memorandum on Fundamental Research, dated May 24, 2010.

- (iv) See clause [252.204-7000](#)(a)(3), concerning disclosure of information for fundamental research projects.

This page intentionally left blank.

PGI 204.6 -CONTRACT REPORTING

As used in this subpart, the unique entity identifier is currently the Data Universal Numbering System (DUNS) number.

PGI 204.601 Definitions.

As used in this subpart, the unique entity identifier (UEI) is currently the UEI assigned by the System for Award Management (SAM).

PGI 204.602 General.

(1) *Helpful documents.* The Federal Procurement Data System (FPDS) website at <https://www.fpds.gov> provides useful documents and on-line training to assist with FPDS data entry. Key manuals can be found at the top of the website homepage under the “Training” and “Worksite” drop-down links to include:

(i) *FPDS Data Element Dictionary.* The data dictionary outlines relevant information for each data field. The Data Dictionary identifies whether a data field is “Required,” “Optional,” “Propagates from the base action,” “Not Applicable,” or “System Generated,” for each type of data entry screen (Awards, Indefinite-Delivery Vehicles, and Transactions/Modifications). It also identifies the source of data entry (e.g., Contracting Officer, (SAM), FPDS); the format of the field; and whether the field input is derived from entries in other fields. At the back of the Data Dictionary is a useful summary.

(ii) *FPDS Data Validations.* This document identifies all the validation rules that are applied to data entry. The majority of the rules apply Governmentwide. DoD specific validation rules appear at “5.5.1 DoD Specific Validations.”

(iii) *FPDS Users Manual.* This manual provides guidance on the various types of data entry screens and addresses whether a particular field is: “[R]” – requires contracting officer/buyer entry; “[A]” – pre-populated by FPDS or a contract writing system, if using machine-to-machine process; or “[C]” – calculated by FPDS for each type of data entry screen. However, the nature of the field is determined based on Governmentwide requirements. To determine DoD-specific requirements, refer to J3 “DoD Use Case Summary” in the FPDS Data Element Dictionary. The FPDS User Manual is not a policy document; it is intended only for general guidance. Refer to this PGI section for specific FPDS reporting entries.

(2) *Reporting technical or policy issues.*

(i) *Technical issues.* To report an FPDS technical issue—

(A)(1) Users of the Standard Procurement System (SPS) should contact their local SPS Help Desk (authorized SPS caller);

(2) Users of other contract writing systems should contact the local contract writing system administrator to determine the appropriate procedures; and

(3) Web users should contact their local system administrator, who will then contact the FPDS Help Desk; or

(B) If the issue is an obvious FPDS technical issue that needs to be documented and corrected by the system, the user should contact the Federal Service Desk (FSD), by telephone at 866-606-8220 (U.S. or DSN), or 334-206-7828 (International), or submit a comment or request at www.fsd.gov. When e-mailing FSD, also send a copy to the applicable agency representative identified in paragraph (2)(iii) of this section.

(ii) *Policy issues.* Report policy issues to the applicable agency representative identified in paragraph (2)(iii) of this section.

(iii) *Agency representatives.* Department and component FPDS representatives and their contact information can be found on the Defense Pricing, Contracting, and Acquisition Policy website at <https://www.acq.osd.mil/asda/dpc/ce/cap/fpds.html#data-improvement> under “Additional Resources.”

PGI 204.604 Responsibilities.

(1) The OSD Procurement Data Improvement Plan, posted at <https://www.acq.osd.mil/asda/dpc/ce/cap/data-improvement.html>, applies to each of the military services and agencies with procurement authority, and identifies the data validation requirements and responsibilities that support the annual Department of Defense certification identified at FAR 4.604(c). These review requirements encompass contract action reports submitted to FPDS, terminations for default and other documents submitted to the Federal Awardee Performance and Integrity Information System (FAPIIS), and other reporting and posting requirements.

(2) Contract action reports (CARs) must be completed in compliance with the timelines established in FAR 4.604(b)(2) and (3). CARs or their data are not available for public view or for non-DoD use until 90 days after the “Date Signed” data element in order to minimize risk to military operations.

PGI 204.606 Reporting data.

The use of generic UEIs is limited to those rare circumstances outlined at FAR 4.605(c). Use generic UEIs only for the purposes of reporting contract award data to the FPDS. In cases where generic codes are required for reporting, use both the generic UEI and its associated CAGE code. Do not enter a generic UEI, used for reporting to FPDS, nor a generic CAGE code that corresponds to a generic UEI, on any contractual document. Using the generic codes on actual contract actions masks the true identity of the vendor and makes any accurate electronic processing of invoices, receiving reports, and payments impossible; and it can, in fact, result in misdirected payments. As a reminder FAR [Subpart 4.18](#) requires each contractor be identified by its actual CAGE code on contract actions; there is no exemption to the requirement for an actual CAGE code.

(1) Methods of reporting to FPDS.

(i) *Individual contract action report (CAR) (one CAR per contract action).* The normal method of reporting to FPDS is through the use of individual CARs.

(A) An individual CAR is required to be reported for each of the following types of awards regardless of the estimated value of the award:

(1) Indefinite-delivery contract.

(2) Blanket purchase agreement (prescribed by FAR [parts 8 or 13](#)).

(3) Basic ordering agreement.

(4) Basic agreement (only if the agreement has a value and potential obligations greater than \$0).

(5) Task and delivery orders and calls issued under any agreement or indefinite-delivery contract (including Federal Supply Schedules, Governmentwide acquisition contracts, or multi-agency contracts).

(6) Modification to any contract, agreement, order, or call where a CAR is required for the base award regardless of the amount being obligated or deobligated on the modification.

(B)(1) An individual CAR is required to be reported for each of the following types of awards when the award process was conducted using other than micro-purchase procedures and the value is greater than the micro-purchase threshold (MPT):

(i) Purchase order.

(ii) Definitive contract.

(2) Although a contract action report is not required for these awards when micro-purchase procedures were followed and the value is less than the MPT, it is encouraged as a best practice if the award was not accomplished using the Governmentwide commercial purchase card (GPC) or a Standard Form 44. Additionally, when the purchase order or definitive contract being awarded is in response to a contingency, an individual report is required when the value of the award is greater than \$25,000, not the MPT of \$35,000 referenced in FAR [part 2](#).

(C) See paragraphs (1)(ii) and (iii) of this section for exceptions to individual reporting.

(ii) *Multiple CARs (more than one CAR per contract action).*

(A) Prepare multiple CARs if the contract or order award is anticipated to include both foreign funding and U.S. funding.

(B) The determination of whether multiple CARs are needed for the situations described in paragraph (1)(ii)(A) of this section is made when the contract or order is awarded. Contracting officers are not required to delete and re-enter CARs in FPDS as multiple CARs if, during the life of the contract or order, subsequent unanticipated modifications make the award eligible for multiple CARs.

(C) The following multiple CAR transaction identification numbers have been established for reporting multiple CARs and shall be used by all DoD contracting offices. Do not use transaction numbers other than "0" if the requirements for multiple CARs in paragraphs (1)(ii)(A) and (B) of this section do not apply at the time of contract or order award. When reporting modifications, include the transaction number that was reported on the initial base award in order to properly identify the referenced contract action report. If the situation described in paragraph (1)(ii)(A) of this section exists, transaction numbers should be assigned based on foreign military sales (FMS) and non-FMS rather than by type of contract pricing arrangement. Do not use multiple CARs with transaction numbers other than "0" if the entire award is expected to be funded by foreign funding.

Transaction Type	Transaction Number
No multiple CARs	0
FMS	14

Non-FMS

16

(iii) *Express reporting (consolidated reporting of multiple contract actions, to be submitted at least monthly).*

(A) Express reporting may be used for—

(1) Multiple contract actions against a single contract or agreement, when monthly volume of actions is such that individual contract action reporting is overly burdensome (e.g., orders placed by the Defense Commissary Agency; installation housing maintenance; and recurring blanket purchase agreement actions);

(2) Multiple contract actions accomplished away from the contracting office, such as ships away from home port; contingency, humanitarian, or peacekeeping operations; or other remote deployments;

(3) Multiple delivery orders that use the GPC as both the method of purchase and payment under Federal Supply Schedules, Governmentwide acquisition contracts (GWACs), blanket purchase agreements (BPAs), basic ordering agreements (BOAs), and other indefinite-delivery type contracts;

(4) Multiple contract actions for energy-related supplies and associated services accomplished by Defense Logistics Agency (DLA) Energy; and

(5) Orders under communications service agreements for local dial tone services, in accordance with agency procedures.

(B) When express reports reflect more than one contractor for overseas actions or consolidated delivery orders made using the GPC where identification of the contract or agreement is not possible, use the appropriate generic UEI.

(C) When express reports are used, sum all of the actions and enter in the “Number of Actions” data field. Also sum all of the obligations and enter in the “Action Obligation,” “Base and Exercised Options Value,” and “Base and All Options Value” data fields. Express reports shall be submitted no less frequently than monthly.

(D) When express reports are used, the contracting officer must maintain a log of individual actions being summarized on the express reports and ensure it is available for audit purposes. Logs must include the following, at a minimum, for each action: procurement instrument identifier (PIID) used for the express report under which action is summarized, referenced indefinite-delivery vehicles (IDV) PIID (if the express report is summarizing task/delivery/call orders), date of award, obligation amount, vendor name, and UEI (if known).

(2) *Actions not reported.* In addition, to the types of actions listed in FAR 4.606(c), do not report the following types of actions to FPDS:

(i) Orders placed by ordering officers against IDVs awarded by—

(A) The United States Transportation Command (USTRANSCOM) or its components for decentralized transportation-related services. USTRANSCOM will report these orders. Contracting officers shall submit consolidated reports of orders (bookings/bills of lading) at least annually to USTRANSCOM; or

(B) DLA Energy for energy-related supplies and associated services using defensewide working capital funds. DLA Energy will report these orders. It is the responsibility of the contracting office to ensure that orders placed against these vehicles using other than defensewide working capital funds are reported to FPDS.

(ii) Contracts, agreements, or orders that are themselves classified.

(3) *Specific instructions for entering data in FPDS.*

(i) Contracting officers shall choose the correct FPDS format (e.g., purchase order, basic ordering agreement (BOA), blanket purchase agreement (BPA)) to report the award of a new contract, agreement, or order. Note that prior to fiscal year (FY)10, DoD offices reported BOAs and BPAs as IDCs in FPDS; BPA calls issued under those pre-FY10 reported BPAs are reported using the task/delivery order format in FPDS. BPA calls issued under DoD issued BPAs reported FY10 or later or any civilian agency issued BPA should be reported using the BPA call format.

(ii) The remaining instructions in this section cover the different sections of an FPDS contract action report, as presented to the user in the system. Not every data element is addressed here, as many are self-explanatory. Users should also consult the FPDS User Manual referenced in PGI [204.602](#) (1)(iii) for more complete descriptions and examples. Also, the instructions in this section use data field names based on what is shown to the user while entering data in FPDS; for more specific information, review the FPDS Data Element Dictionary referenced in PGI [204.602](#) (1)(i).

(iii) *FPDS Entry – Document Information Section.*

(A) Enter the new contract, agreement, or order number in the “Procurement Instrument Identifier” data field. Note that new awards will be reflected as Modification 0 in FPDS.

(B) If the action is a BPA awarded against a Federal Supply Schedule, enter the Federal Supply Schedule contract number in the “Referenced IDV ID” data field.

(C) If the action is a delivery order awarded against a Federal Supply Schedule, Governmentwide acquisition contract (GWAC), BOA, or other IDC; enter that contract or BOA number in the “Referenced IDV ID” data field.

(D) If the action is a BPA call awarded against a BPA, enter the BPA number in the “Referenced IDV ID” data field.

(E) If the action is a modification, enter the contract, agreement, or order number in the “Procurement Instrument Identifier” data field and the modification number in the “Modification Number” data field.

(F) If multiple reports are required by paragraph (1)(ii) of this section, then enter the appropriate transaction number in the “Transaction Number” data field.

(G) If the award is associated with a solicitation, enter the solicitation number in the “Solicitation ID” data field.

(H) If the award is associated with an initiative identified in FPDS (e.g., American Recovery and Reinvestment Act), choose the appropriate value in the “Treasury Account Symbol Initiative” data field.

(iv) *FPDS Entry – Treasury Account Symbol (TAS) data fields.*

(A) TAS data fields are no longer required to be entered in FPDS (as of July 2016) and should be left blank; however, if correcting TAS data fields on a previously reported contract action report follow the instructions in this section.

(B) The TAS should be provided by the requiring organization with the purchase request, and is often part of the line of accounting. The list of valid TAS is maintained by the Department of Treasury in the FASTBook; an on-line version of the FASTBook is available at <http://www.fms.treas.gov/fastbook/index.html>. Each TAS reported to FPDS includes a character agency identifier and a four character main account code (example: 97 0100). Some TAS also require a three character subaccount code. Note that the Department of Treasury FASTBook indicates a transition from a two character agency identifier to a three character agency identifier. However at this time, DoD contracting officers are advised to drop the leading zero (0) from a three character agency identifier, and enter the next two characters in FPDS (e.g., 097 becomes 97).

(C) Report the TAS on CARs for each contract action with an obligation amount other than \$0. The TAS that is reported on a CAR should represent the predominant type of funding in terms of absolute dollars obligated and deobligated on the specific contract action being reported.

(D) For contract actions awarded by working capital funds offices, and the original type of funds received from the customer are not tied to specific procurements or otherwise identifiable, use the TAS that represents the working capital funds provided.

(E) For contract actions funded by foreign governments, and those funds are not considered under the Foreign Military Financing Program identified by the Department of Treasury in its FASTBook, in order to report the action to FPDS using the code that most closely approximates the use of the funds, then enter—

(1) 97 0100 (Operation and Maintenance, Defense-Wide, Defense) as the TAS for requirements that can be categorized as operations and maintenance in nature;

(2) 97 0300 (Procurement, Defense-Wide) as the TAS for requirements that can be categorized as procurement in nature; or

(3) 97 0400 (Research, Development, Test, and Evaluation, Defense-Wide) as the TAS for requirements that can be categorized as research and development in nature.

(F) USTRANSCOM should use 97 0100 (Operation and Maintenance, Defense-Wide, Defense) as the TAS when reporting the consolidated orders of from their decentralized transportation-related services contracts.

(v) *FPDS Entry – Dates Section.*

(A) The “Date Signed” data field represents the date the contracting officer signed or otherwise awarded the contract action.

(B) The “Effective Date” data field represents the date the period of performance begins. For actions where an authorization to proceed was given prior to the signed contract action, use the date of the authorization in this data element.

(C) The date entered in the “Completion Date” data field shall be the latest period of performance / delivery date of all of the exercised line items on the contract or order. This data field shall be updated on the contract action report used to report the modification whenever line items are added or exercised by modification that extend the period of performance / delivery date beyond what was previously entered, including the exercise of any option years.

(D) The date entered in the “Estimated Ultimate Completion Date” data field shall be the latest period of performance / delivery date of all line items on the contract or order, including unexercised line items and option years. This data field shall be updated on the contract action report used to report the modification whenever line items are added or changed by modification that extend the period of performance/delivery date beyond what was previously entered.

(E) The date entered in the “Last Date to Order” data field on IDCs, BOAs, and BPAs shall be the last date allowed by the contract for the contractor to accept orders. This data field shall be updated whenever this date is changed by modification from what was previously entered.

(F) The “Solicitation Date” data field generally represents the date an invitation for bids, request for quotations, or request for proposals was issued to potential bidders or offerors. However, follow the instructions below for other situations where an invitation for bids, request for quotations, or request for proposals is not issued:

(1) When the action is the award of an order using existing pre-priced line items under an ordering instrument where no proposal is required (i.e., there are no elements of the delivery or performance to negotiate)—

(i) *Orders under single-award indefinite delivery vehicles, BPA calls under single-award BPAs issued under FAR part 8, and BPA calls under BPAs issued under FAR part 13.* Use the date the procurement-ready requirements package (including funded purchase request or MIPR) was provided to the contracting office as the “Solicitation Date”. If unknown, use the date of the award of the order as the “Solicitation Date”.

(ii) *Orders under multiple-award indefinite delivery contracts and BPA calls issued under multiple-award BPAs issued under FAR part 8.* Use the date of the survey of the multiple-award contracts or BPAs prices in accordance with FAR part 8 or 16 procedures.

(2) When the action is the award of a contract under a broad agency announcement (BAA), use the date when a final (not draft) combined synopsis/solicitation is issued as the “Solicitation Date” except—

(i) For two-step BAAs, including white paper submissions for review, selection, and subsequent request for full proposals, the “Solicitation Date” is the date when the contracting officer signs the proposal request;

(ii) Under BAAs with calls, the “Solicitation Date” is the date when the individual call is issued; or

(iii) For open BAAs, when white papers and/or proposals are accepted for review over an extended period (typically open for a year or longer), the “Solicitation Date” is either the date when the contracting officer signs a proposal request (white papers) or the date on which the proposal is submitted, whichever is earlier.

(3) For awards made in response to unsolicited proposals, the “Solicitation Date” is the date when the offeror is notified of proposal acceptance for negotiations and/or award.

(4) For orders placed under indefinite-delivery contracts or agreements, do not use the solicitation date from the indefinite-delivery contract or agreement as the date issued in the “Solicitation Date” field unless the order was awarded at the same time as the indefinite-delivery contract or agreement.

(5) For new indefinite-delivery contracts awarded under a multiple-award solicitation’s on-ramp procedures that were awarded at least 3 months after the initial round of indefinite-delivery contracts were awarded, enter the date the awardee provided a proposal as the “Solicitation Date.”

(vi) *FPDS Entry – Amounts Section.*

(A) When entering a net deobligation on a contract action, include the minus (-) sign.

(B) The amount entered in the “Base and Exercised Options Value” for new awards shall be the total value (represented in U.S. dollars and cents) of all the exercised line items on the contract or order regardless of whether they are partially or fully funded. This data field shall be updated on the contract action report used to report the modification whenever the current value of the contract or order is changed by modification, including when options are exercised. When reporting such a modification, report the net value of the change itself in “Current” field; FPDS will calculate the new total Base and Exercised Options Value. When an Administrative Contracting Officer (ACO) executes a modification and the previous value reported in FPDS is incorrect, the ACO shall notify the procuring contract office of the discrepancy and enter the appropriate value in the “Current” field of the “Base and Exercised Options Value” to ensure a correct total is represented. The ACO shall document the correction of the discrepancy in the contract file.

(C) The amount entered in the “Base and All Options Value” for new awards shall be the total potential value of the award (represented in U.S. dollars and cents) (e.g., total price, total not-to-exceed amount, maximum award amount, etc.), including the value of all unexercised line items and options. For blanket purchase agreements and basic ordering agreements, enter the total expected amount for orders that will be issued. Note: on IDV formats in FPDS, this data element is named “Base and All Options Value (Total Contract Value).”

(1) For each IDC resulting from a solicitation where multiple awards were contemplated, this is the maximum for that resulting specific contract. Note: this amount is not always the same as the ceiling for the program under which multiple contracts were awarded. Each contract shall have a specific ceiling identified for that specific period (see FAR 16.504(a)(4)(ii)).

(2) This data field shall be updated on the contract action report used to report the modification whenever the total potential value is changed by modification, including changes made as a result of overruns or claims. When

reporting such a modification, report the net value of the change itself in “Current” field; FPDS will calculate the new total Base and All Options Value. When an ACO executes a modification and the previous value reported in FPDS is incorrect, the ACO shall notify the procuring contract office of the discrepancy and enter the appropriate value in the “Current” field of the “Base and All Options Value” to ensure a correct total is represented. The ACO shall document the discrepancy correction in the contract file.

(D) The amount entered in the “Action Obligation” for new awards shall be the total value of all the obligated funds on the contract or order, represented in U.S. dollars and cents. When reporting a modification, report the net value of the change in funding accomplished by the modification in the “Current” field; FPDS will calculate the new total action obligation value. When an ACO executes a modification and the previous value reported in FPDS is incorrect, the ACO shall notify the procuring contract office of the discrepancy and enter the appropriate value in the “Current” field of the “Action Obligation Value” field to ensure a correct total is represented. The ACO shall document the discrepancy correction in the contract file.

(E) The amount entered in the “Total Estimated Order Value” for new IDC awards shall be the total estimated value of all anticipated orders to be placed under the contract. For DoD, this value should match the “Base and All Options” value, as DoD does not obligate funds on indefinite-delivery contracts themselves.

(vii) *FPDS Entry – Purchaser Information Section.*

(A) Enter the contracting office’s DoD Activity Address Code (DoDAAC) in as the “Contracting Office ID” data field.

(B) If the requiring organization is a DoD organization, enter the DoDAAC for the requiring office in the “Funding Office ID” data field. This is normally the DoDAAC that is included on the purchase request in the purchase request number. If the contract action is supporting working capital funded efforts and the specific requiring office is unknown, enter the DoDAAC for the working capital funded office. Do not enter the DoDAAC from the contracting office in the “Funding Office ID” field unless the contracting office is also the requiring organization.

(C) If the requiring organization is not a DoD organization, enter the Funding Office ID provided on the interagency agreement in the “Funding Office ID” data field.

(D) Choose the appropriate value in the “Foreign Funding” data field as to whether or not the action includes foreign funding that is identified as FMS. If the action does not include foreign funds, choose “Not Applicable.”

(viii) *FPDS Entry – Contractor Information Section.*

(A) Enter the UEI for the vendor in the “Unique Entity Identifier” data field. This UEI will be used to pull the associated current registration from the SAM database.

(B) If a SAM exception applies to the procurement, ensure the correct exception is chosen from the “SAM Exception” data field. In this case the UEI entered in the “Unique Entity Identifier” data field will be used to pull the contractor’s name and location information from SAM’s UEI database instead of SAM active registrations.

(ix) *FPDS Entry – Contract Data Section.*

(A) On the contract action report used to report the base award, choose the type of contract pricing in the “Type of Contract” data field that is applicable to the predominant amount of the action, based on the value of the line items. This value will automatically populate any subsequent contract action reports for modifications.

(B) If the procurement is for services, enter the appropriate Inherently Governmental Functions indicator:

(1) “Closely Associated” means functions that are closely associated with inherently governmental functions; those contractor duties that could expand to become inherently governmental functions without sufficient management controls or oversight on the part of the Government. Office of Federal Procurement Policy (OFPP) Policy Letter 11–01, Performance of Inherently Governmental and Critical Functions, provides examples of work that is inherently governmental and therefore must be performed by Federal employees and work that is closely associated with inherently governmental functions that may be performed by either Federal employees or contractors.

(2) “Critical Functions” means functions that are necessary to the agency being able to effectively perform and maintain control of its mission and operations. Typically, critical functions are recurring and long-term in duration.

(3) “Other Functions” means neither “Closely Associated Functions” nor “Critical Functions.”

(4) For services that include performing both “Closely Associated” and “Critical Functions,” select “Closely Associated, Critical Functions.”

(5) If services include performing “Other Functions” and either “Closely Associated” or “Critical Functions,” select only the “Closely Associated” or “Critical Functions” value.

(C) Enter “Yes” in the “Multiyear Contract” field if the procurement is a multiyear contract in accordance with FAR 17.1; otherwise enter “No.”

(D) Enter the full name of the program, not an acronym or abbreviation, in the “Major Program” field if there is an associated program name. Contracts and agreements with ordering provisions established as multi-agency contracts or for wide use within an agency shall always include a program name in order to ensure they are correctly represented in the Interagency Contract Directory (ICD) (see FAR 7.105(b)(1) for website).

(E) If the procurement is as a result of a requirement responding specifically to a National Interest Action that is listed in this field (for example, “Hurricane Sandy” or “Operation Enduring Freedom (OEF),”) then select the appropriate value. Otherwise, enter “None.”

(F) For indefinite-delivery contracts, enter the appropriate type of IDC in the “Type of IDC” field: Indefinite Quantity, Requirements, or Definite Quantity.

(G) For IDVs in the “Multiple or Single Award IDV” field:

(1) Select “Multiple Award” when the contract action is—

(i) One of several indefinite-delivery indefinite-quantity (IDIQ) contracts awarded under a single solicitation in accordance with FAR 16.504(c);

(ii) One of several blanket purchase agreements (BPAs) awarded against a Federal Supply Schedule in accordance with FAR 8.405-3;

(iii) Any other IDIQ contract that an agency enters into with two or more sources under the same solicitation that requires contracting officers to compare or compete their requirements among several vendors; or

(iv) A part 13 BPA or Basic Ordering Agreement (BOA) with multiple awards.

(2) Select “Single Award” when the contract does not satisfy any of the above criteria for a multiple award.

(H) When reporting the initial award of IDCs and agreements that allow orders to be placed by other contracting offices, enter the acronym or short abbreviation of the program name for the program supported by the contract or agreement with ordering provisions in the “Program Acronym” field. Contracts and agreements with ordering provisions established as multi-agency contracts or for wide use within an agency shall always include an acronym or abbreviated program name, and the first five characters of this field shall be:

(1) “FSSI-” for a federal strategic sourcing initiative (FSSI) vehicle.

(2) “MMAC-” for a multiple-award multi-agency contract.

(3) “SMAC-” for a single-award multi-agency contract.

(4) “MBPA-” for a blanket purchase agreement available for use outside of the Department of Defense.

(5) “AGYV-” for an agency-wide acquisition vehicle. For the purpose of this section, an agency-wide acquisition vehicle is an IDC, BPA, or basic ordering agreement intended for the sole use of the Department of Defense. These may be for DoD-wide use or limited to one or more specific Military Services or Defense Agencies.

(I) In the “Cost or Pricing Data” field, enter “Yes” if certified cost and pricing data were obtained. Enter “Not Obtained – Waived” if the requirement for certified cost and pricing data was waived. Enter “No” if certified cost or pricing data were not obtained and no waiver was required. See FAR 15.403 for the requirements for certified cost and pricing data.

(J) Enter “Yes” in the “Purchase Card as Payment Method” field if the GPC was used as the method of payment or as both the method of purchase and payment for the contract action. Enter “No” if neither was the case.

(K) In the “Un definitized Action” field, enter “Letter Contract” if the procurement is a letter contract that meets the description in FAR 16.603-1. Enter “Other Un definitized Action” if the procurement is for any other unpriced action that shall be subsequently definitized. Enter “No” if neither of these situations is applicable.

(L) Enter “Yes” in the “Performance Based Service Acquisition” field if the procurement is for services and performance based acquisition procedures were used. Enter “No” if the procurement is for services and performance based acquisition procedures were not used. Enter “Not Applicable” if the procurement is not for services.

(M) In the “Contingency Humanitarian Peacekeeping Operation” field, enter “Contingency” if the procurement is in response to a contingency operation as defined in 10 U.S.C. 101(a)(13) or “Humanitarian” if the procurement is in response to a humanitarian or peacekeeping operation as defined in 10 U.S.C. 3015(2). Otherwise, enter “Not Applicable.”

(N) In the “Cost Accounting Standards Clause” field, enter “Yes” if the procurement was subject to cost accounting standards (CAS) and the associated clauses were included in the contract. Enter “No – CAS Waiver Approved” if the procurement is subject to CAS but a waiver was approved. Enter “Not Applicable” if neither situation applies.

(O) *Consolidated Contract.*

(1) Enter “Consolidated Requirements” when the requirements meet the definition of “Consolidation or consolidated requirement” at FAR 2.101 but a written determination was not made because the estimated value of the requirements were at or below \$2 million, or the requirements are bundled and a written determination for bundling is required.

(2) Enter “Consolidated Requirements with Written Determination” when the requirements meet the definition of “Consolidation or consolidated requirement” at FAR 2.101 and a written determination is made in accordance with FAR 7.107-2.

(3) Enter “Consolidated Requirements Under FAR 7.107-1(b) Exceptions” when the requirements meet the definition of “Consolidation or consolidated requirement” at FAR 2.101 but do not require a written determination in accordance with FAR 7.107-1(b).

(4) Enter “Not Consolidated” when the requirements do not meet the definition of “Consolidation or consolidated requirement” at FAR 2.101.

(P) Enter “1” in the “Number of Actions” data field unless using Express Reporting procedures described in paragraph (1)(iii) of this section.

(x) *FPDS Entry – Legislative Mandates Section.*

(A) For the “Clinger-Cohen Act,” “Labor Standards,” “Materials, Supplies, Articles, and Equipment,” and “Construction Wage Rate Requirements” data elements, answer “Yes” if the acts apply to any of the line items on the award. Choose “Not Applicable” if the act itself is not applicable based on implementation requirements in the FAR for each act (see FAR subparts 22.10, 22.6, and 22.4, respectively), or choose “No” if the act is applicable, but the associated clauses were not included in the award. For the “Clinger-Cohen Act,” choose “No” if either the Act is not applicable or the planning requirements from the act were not accomplished.

(B) Indicate in the “Interagency Contracting Authority” data field if the action is subject to the Economy Act, a different statutory authority, or if interagency authorities are not applicable. If the contracting officer selects “Other Statutory Authority” in the “Interagency Contracting Authority,” they shall enter the name of the other authority in the associated text box.

(C) In the “Additional Reporting” data field, select each value that represents reporting to be accomplished by the contractor that is required by the contract. Multiple values may be selected.

(1) If none of the reporting requirements apply, select “None of the Above.”

(2) Select “Service Contract Inventory FAR 4.17” if FAR clause 52.204-14, Service Contract Reporting Requirements, is present in the contract.

(3) Select “Employment Eligibility Verification (52.222-54)” if FAR clause 52.222-54, Employment Eligibility Verification, is included in the contract or if 52.212-5, Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial, is included in the contract and sub-paragraph (34) is checked for 52.222-54, Employment Eligibility Verification.

(xi) *FPDS Entry – Principal Place of Performance Section.*

(A) For supplies, the data entered in this section shall reflect the predominant place where manufacturing occurred or where procured finished products were taken out of inventory. Do not enter the Government delivery location. When the manufacturing or inventory location is unknown, and the contractor has not provided a separate address for the place of performance in FAR provision 52.214-14 or 52.215-6 with its offer, enter the contractor’s physical address that corresponds with its registration in the System for Award Management (SAM) that is identified by its UEI and CAGE code.

(B) For services, identify the location that represents the predominant place the services are performed. For services that start performance in one location and complete performance in a different location, such as transportation and cargo shipment services, the completion or destination location shall be entered. If the contract or order has multiple destination locations, enter the location where the predominant amount is being delivered.

(C) For place of performance based in the United States, ensure the zip code + 4 data element is entered. This will populate the city and state fields accordingly. Zip codes and their +4 extensions can be identified at the United States Postal Service website (www.usps.com). When a “+4” extension cannot be determined for a zip code (for example, in a highly rural area or at a location with a vanity address), choose the “+4” extension that represents the area nearest to the place of performance.

(xii) *FPDS Entry – Contract Marketing Data Section.* This section applies to IDVs (i.e., BOAs, BPAs, and IDCs) only.

(A) Enter the website in the “Website URL” data field where a new user would find the best information about ordering under the vehicle. This is an optional field, but each multi-agency contract being reported should include one.

(B) In the “Who Can Use” data field, choose the value that best represents which agencies are allowed to have their contracting officers place orders under the vehicle. If only the office that awarded the IDV is allowed to place orders under the vehicle, choose “Only My Agency”. Do not list codes or text under the “Codes” or “Other” options unless the vehicle only allows very specific parts of agencies to place orders.

(C) Include in the “Email Contact” data element the specific email of the contracting officer responsible for the IDV who is able to answer questions concerning ordering. A group email address may only be used in this field if it is continuously monitored.

(D) Enter the maximum dollar value of each order that may be issued under the vehicle in the “Individual Order / Call Limit” field.

(E) Enter the fee charged to the ordering agency for allowing the ordering agency to place an order under the specific vehicle. The fee may be identified as a fixed percentage, an upper and lower amount if based on a varying factor, or as “no fee.” This is not the fee paid to a contracting office for placing an order on behalf of a requiring office.

(F) Enter a brief description of ordering instructions in the “Ordering Procedure” data field. If the “Website URL” field is entered, this field is not required to be completed; however, ensure that the website provided gives the user enough information to be able to place an order.

(xiii) *FPDS Entry – Product or Service Information Section.*

(A) For the “Product or service code (PSC)” data field choose the code that best represents the predominant amount of supplies or services being procured on the award. The list of active PSCs for use in FPDS reporting is available on the FPDS website under the “Worksite” section under “Reference.”

(B) For the “Principal NAICS code” data field, enter the NAICS code that best represents the type of industry related to the predominant amount of supplies or services being procured on the award. If the award was a result of a solicitation that included any of the following provisions, use the NAICS code that was included in the provision: 52.204-8, Annual Representations and Certifications; 52.212-3, Offeror Representations and Certifications – Commercial Products and Commercial Services; or 52.219-1, Small Business Program Representations. The list of active NAICS codes for use in FPDS reporting is available on the FPDS website under the “Worksite” section under “Reference”.

(C) *Contract bundling.*

(1) Enter “Bundled Requirements” when the requirements meet the definition of “Bundling” at FAR [2.101](#).

(2) Enter “Substantially Bundled Requirements” when the requirements meet the definition of “Bundling” at FAR [2.101](#) but has an estimated value outlined at FAR [7.107-4](#), Substantial bundling.

(3) Enter “Bundled Requirements Under a FAR [7.107-1\(b\)](#) Exception” when the requirements meet the definition of “Bundling” at FAR [2.101](#) but do not require a written determination in accordance with FAR 7.107-1(b).

(4) Enter “Not Bundled” when the requirements do not meet the definition of “Bundling” at FAR [2.101](#).

(D) Enter in the “DoD Acquisition Program” data field—

(1) The Centralized Unique Program Identification (CUPID), also known as a program number, when the acquisition is part of an acquisition program for which a CUPID has been designated. The CUPID is the unique authoritative identifier for all DoD acquisition programs. CUPIDs are 3 alphanumeric characters. If needed, use the code look-up table provided for the data element in the CAR to identify the appropriate code.

(2) The appropriate following code if a new award is associated with one of the following programs or activities:

(i) ZBL – for Performance-Based Logistics (PBL) support.

(ii) ZRS – for Randolph-Sheppard Act dining facilities.

(iii) ZBC – for Base Realignment and Closure (BRAC) environmental activities.

(iv) ZDE – for Defense environmental and restoration programs.

(v) ZOP – for other environmental programs.

(vi) ZSE – for Environmental Protection Agency (EPA) Superfund activities.

(vii) ZSF – prescribed under a Status of Forces Agreement (SOFA).

(3) “000” if neither (1) or (2) in this section apply.

(E) Enter the country code where products were manufactured or performance of services occurred in the “Country of Product or Service Origin” data field. If needed, use the code look-up table provided for the data element in the CAR to identify the code for a country.

(F) *Place of Manufacture.*

(1) Choose “Not a Manufactured End Product” when the procurement is for services or for unmanufactured end products (e.g., ores, food, animals).

(2) Choose “Manufactured Outside the U.S. – Use Outside the U.S.” when the procurement is for supplies acquired for use outside the United States.

(3) If the procurement is for supplies to be used inside the United States, choose one of the following:

(i) “Manufactured in the U.S.” when the supplies that are considered domestic end products (see FAR 25.101).

(ii) “Manufactured Outside the U.S. – Trade Agreements” when the supplies are acquired subject to a Trade Agreement (see FAR 25.4) where the Buy American Act requirements have been waived.

(iii) The exception to the Buy American Act that was used in the procurement when the supplies are considered foreign end products (see FAR 25.103):

(A) “Manufactured Outside the U.S. – Public Interest.”

(B) “Manufactured Outside the U.S. – Domestic Nonavailability.”

(C) “Manufactured Outside the U.S. – Unreasonable Cost.”

(D) “Manufactured Outside the U.S. – Resale.”

(E) “Manufactured Outside the U.S. – Commercial Information Technology.”

(F) “Manufactured Outside the U.S. – Qualifying Country.” Only choose “Manufactured Outside the United States – Qualifying Country” if the country of product or service origin is one of the current qualifying countries at DFARS [225.003](#).

(G) In the “Domestic or Foreign Entity” data field, choose the most applicable answer regarding the ownership of the contractor.

(H) Indicate whether Government Furnished Property (GFP), (see FAR 45.101), is included on the award in the “GFE/GFP Provided Under This Action” data field.

(I) When reporting modifications to previously reported award, the CAR should carry the same value for this data element as was on the CAR for the initial award unless the modification itself is specifically adding GFP where the originally was none. There is no need to create a CAR solely to report the return of GFP at the end of performance.

(2) When reporting task, delivery, or call orders under indefinite-delivery contracts or agreements, this data element reflects whether GFP is or is not included specifically as a part of the order itself. The value for the underlying contract or agreement is collected separately.

(I) For the “Description of requirement” data field

(I) Enter a short description of what is being procured by the action. This should be entered in plain English with no acronyms or military jargon such that the public can understand what is being acquired by the Department. Do not use national stock numbers, part numbers, or other identifiers without also including associated plain English descriptions.

(2) When reporting modifications, do not use this field to explain what type of procurement process is accomplished (e.g., exercise option year, incremental funding); continue to address what is being procured.

(3) When establishing a contract with an option or line item pursuant to DFARS 234.005-1, also enter “831 Authority”.

(J) For the “Recovered materials/sustainability” data field, choose the value from the list below that reflects the requirements of sustainability incorporated into the contract or order. If there is a combination of the attributes on the contract that does not exist in the list below, choose the one from the list that most closely reflects the situation on the contract.

(1) *FAR 52.223-4 included.* Use when the contract includes the requirement for recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4, Recovered Material Certification, was included in the solicitation.

(2) *FAR 52.223-4 and 52.223-9 included.* Use when the contract includes the requirement for recovered materials in accordance with FAR Subpart 23.4, provision 52.223-4 was included in the solicitation, and clause 52.223-9 is included in the contract.

(3) *No clauses included and no sustainability included.* Use when the contract includes neither requirements nor provisions/clauses for recovered materials or energy efficient, biobased, or environmentally preferable products or services.

(4) *Energy efficient.* Use when the contract includes the requirement for energy efficient products or services in accordance with FAR Subpart 23.2.

(5) *Biobased.* Use when the contract includes the requirement for biobased products or services in accordance with FAR Subpart 23.4.

(6) *Environmentally preferable.* Use when the contract includes the requirement for environmentally preferable products or services in accordance with FAR Subpart 23.7.

(7) *FAR 52.223-4 and energy efficient.* Use when the contract includes the requirement for–

(i) Recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4 was included in the solicitation; and

(ii) Energy efficient products or services in accordance with FAR Subpart 23.2.

(8) *FAR 52.223-4 and biobased*. Use when the contract includes the requirement for–

(i) Recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4 was included in the solicitation; and

(ii) Biobased products or services in accordance with FAR Subpart 23.4.

(9) *FAR 52.223-4 and environmentally preferable*. Use when the contract includes the requirement for–

(i) Recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4 was included in the solicitation; and

(ii) Environmentally preferable products or services in accordance with FAR Subpart 23.7.

(10) *FAR 52.223-4, biobased and energy efficient*. Use when the contract includes the requirement for–

(i) Recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4 was included in the solicitation;

(ii) Energy efficient products or services in accordance with FAR Subpart 23.2; and

(iii) Biobased products or services in accordance with FAR Subpart 23.4.

(11) *FAR 52.223-4, biobased and environmentally preferable*. Use when the contract includes the requirement for–

(i) Recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4 was included in the solicitation;

(ii) Biobased products or services in accordance with FAR Subpart 23.4; and

(iii) Environmentally preferable products or services in accordance with FAR Subpart 23.7.

(12) *FAR 52.223-4, biobased, energy efficient and environmentally preferable*. Use when the contract includes the requirement for–

(i) Recovered materials in accordance with FAR Subpart 23.4 and provision 52.223-4 was included in the solicitation;

(ii) Energy efficient products or services in accordance with FAR Subpart 23.2;

(iii) Biobased products or services in accordance with FAR Subpart 23.4; and

(iv) Environmentally preferable products or services in accordance with FAR Subpart 23.7.

(xiv) *FPDS Entry – Competition Information Section*.

(A) *Solicitation procedures*. Select the appropriate entry from the following list:

(1) *Simplified Acquisition*. Report this code for competitive and noncompetitive contract actions that used simplified acquisition procedures in accordance with FAR part 13. However, if the action is noncompetitive and the reason for other than full and open competition is other than “Authorized by Statute,” “Authorized Resale,” or “SAP Noncompetition,” then enter “Only One Source Solicited” as the solicitation procedure. (Note that most times when in conflict, the reason for other than full and open competition takes precedence over the type of solicitation procedure used.)

(2) *Only One Source Solicited*. Use this code if no solicitation procedure was used or only one source is solicited for the action.

(3) *Negotiated Proposal/Quote*. Use this code for competitive contract actions that use negotiated procedures (FAR parts 12, 13, or 15).

(4) *Sealed Bid*. Use this code for contract actions using sealed bid procedures (FAR part 14).

(5) *Two Step*. Use this code for contract actions that use a combination of sealed bids and negotiated procedures (FAR 6.102).

(6) *Architect-Engineer FAR 6.102*. Use this code if the action resulted from selection of sources for architect-engineer contracts pursuant to FAR 6.102(d)(1).

(7) *Basic Research*. Use this code if the action resulted from a competitive selection of basic research proposals pursuant to FAR 6.102(d)(2).

(8) *Alternative Sources*. Use this code if the action resulted from use of procedures that provided for full and open competition after exclusion of sources to establish or maintain alternative sources pursuant to FAR 6.202.

(9) *Subject to Multiple Award Fair Opportunity*. FPDS will automatically populate this entry for orders placed against multiple award contracts (to include Federal Supply Schedules) and FAR part 8 BPAs (and orders issued under such BPAs that are subject to fair opportunity pursuant to FAR 16.505(b)(1)).

(B) *Extent Competed*. Select the appropriate entry from the following list. The extent competed for any modification or order against a task order or delivery order contract pulls from the basic contract and is shown in the “Extent competed for referenced IDV” data field.

(1) *Competed under SAP*. Report this for competitive contract actions that were awarded using FAR part 13 Simplified Acquisition Procedures (i.e., solicitation procedures were “Simplified Acquisition”).

(2) *Full and Open Competition (F&OC)*. Report this if the contract action resulted from an award pursuant to FAR 6.102(a), Sealed bids; FAR 6.102(b), Competitive proposals; FAR 6.102(c), Combination; or any other competitive method that did not exclude sources of any type.

(3) *F&OC after Exclusion of Sources*. Report this when sources are excluded before competition. (Note: This terminology is broader than FAR Subpart 6.2, which includes set-aside actions and actions to establish or maintain alternate sources, in that it also includes actions justified by a justification and approval that provided for competition).

(4) *Not Available for Competition*. Report this if the contract action is not available for competition (i.e., contract actions where the solicitation procedure was “Only One Source” and the reason not competed is “Authorized by Statute,” “International Agreement,” “Utilities,” or “Authorized Resale.”) Note that sole source awards for 8a firms, HUBZone firms, and service-related disabled veteran-owned concerns should always be identified as “Authorized by Statute” as the reason for other than full and open competition.

(5) *Not Competed under SAP*. Report this for non-competitive contract actions that were awarded using FAR part 13, Simplified Acquisition Procedures (i.e., solicitation procedures were “Simplified Acquisition”).

(6) *Not Competed*. Report this when the contract action is not competed and the solicitation procedures are “Only One Source.”

(C) *Type of Set-Aside*.

(1) If the contract action is a result of a set-aside or sole source authorized under part 19 of the FAR, choose the applicable value. In order to indicate a FAR part 19 set-aside or sole source on an order under a multiple-award contract, see paragraph (F) of this section.

(2) Note that the type of set-aside is collected on the original award. In the case of a task or delivery order being reported, the user will see the type of set-aside from the original contract in the “Type Set Aside” data element. The “Type of Set-Aside Source” data element is system generated to indicate whether the data in the “Type Set Aside” data element was entered on the specific CAR being viewed or if it was pre-populated from the original contract award.

(D) *SBIR/STTR*. Ensure the “SBIR/STTR” data field is completed if the contract action is a result of a Small Business Innovative Research (SBIR) or Small Technology Transfer Research (STTR) Program. SBIR and STTR Phase III awards require that a previous SBIR or STTR award exists.

(E) *Other than Full and Open Competition*.

(1) *Simplified Acquisition Procedures (SAP)*. Select only “SAP Non-Competition,” “Authorized by Statute” if a sole source set-aside shall also be noted, or “Authorized for Resale” when the award is noncompetitive and simplified acquisition procedures were used. Do not choose other values from the list.

(2) *Other than Simplified Acquisition Procedures*. Select from available values the one that matches the FAR part 6 authority referenced in the Justification & Authorization document for using other than competitive procedures. Do not choose “SAP Non-competition.”

(3) *Acquiring Products or Services from Afghanistan*. When DFARS [225.7703-1](#)(a)(2) or (3) procedures are used to limit competition to products or services from Afghanistan, or to award a contract to a particular source or sources from Afghanistan, select “Authorized by Statute” in the “Other than Full and Open Competition” data field.

(F) *Fair Opportunity/Limited Sources*. This field is the basis for determining whether competition is provided for on orders placed against multiple-award contracts (to include DoD contracts, Governmentwide Acquisition Contracts, Federal Supply Schedules, and BPAs issued under the Federal Supply Schedules). If a Federal Supply Schedule contract or a Governmentwide multiple-award contract is not coded as a multiple-award vehicle, thereby preventing completion of this field, the FPDS user should advise the agency FPDS so that the contracting office for the multiple-award contract can be notified and pursue correction.

(1) *Urgency*. Report this if the action was justified pursuant to FAR 8.405- 6(a)(1)(i)(A) or 16.505(b)(2)(i)(A).

(2) *Only One Source*. Other – Report if the action was justified pursuant to FAR 8.405-6(a)(1)(i)(B) or 16.505(b)(2)(i)(B).

(3) *Follow-On Delivery Order Following Competitive Initial Order*. Report this if the action was justified pursuant to FAR 8.405-6(a)(1)(i)(C) or 16.505(b)(2)(i)(C).

(4) *Minimum Guarantee*. Report this if it was necessary to place an order to satisfy a minimum amount guaranteed to the contractor. See FAR 16.505(b)(2)(i)(D).

(5) *Other Statutory Authority*. Report this if a statute expressly authorizes or requires that the purchase be made from a specified source. See FAR 16.505(b)(2)(i)(E).

(6) *Fair Opportunity Given*. Report this if fair opportunity was given pursuant to FAR 16.505(b)(1).

(7) *Competitive Set-Aside*. Report this if the order was set aside pursuant to FAR 19.502-4(c) and a subset of multiple-award contract holders meeting the set-aside criteria were provided fair opportunity to submit an offer. If this value is selected, also choose the appropriate set-aside in the “Type of Set-Aside” field. Do not select this value if the original multiple award contract itself was set-aside or partially set-aside.

(8) *Sole Source*. Report this if the order was issued pursuant to FAR 19.502-4(c) and awarded to a single contract holder meeting the socio-economic criteria without providing fair opportunity to other multiple-award contract holders. If this value is selected, also choose the appropriate value in the “Type of Set-Aside” field.

(G) If an award did not provide for full and open competition; or in the case of simplified acquisition, did not provide the maximum extent of competition practicable; select the value in the “Other Than Full and Open Competition” field that represents the justification used.

(H) In the “Commercial Product or Commercial Service Acquisition Procedures” data field, indicate whether commercial procedures were—

- (1) Used for commercial products or commercial services;
- (2) Used for supplies or services pursuant to FAR 12.102(f);
- (3) Used for services pursuant to FAR 12.102(g); or
- (4) Not used.

(I) In the “Simplified Procedures for Certain Commercial Products or Commercial Services” data field, indicate if the contract action utilized procedures under FAR subpart 13.5.

(J) In the “A-76 Action” data field, indicate if the contract action resulted from an A-76 / FAIR Act competitive sourcing process. Note, however, that DoD is currently under a moratorium from procuring services using these procedures. See PGI [207.302](#) for more information.

(K) In the “Local Area Set Aside” data field, indicate if the contract action resulted from a local area set-aside in accordance with FAR 26.202.

(L) In the “FedBizOpps” data field, enter “Yes” if the award was greater than \$25,000 in value and subject to FAR 5.2 synopsis requirements. Enter “No” if the award was greater than \$25,000 in value, but an exception to synopsis requirements applied.

Enter “Not Applicable” if the award was less than or equal to \$25,000 in value.

(M) *Number of Offers*.

(1) Enter the specific number of offers received in response to the solicitation. In the case of contracts awarded as a result of a Broad Agency Announcement, enter the number of proposals received under the specific announcement. In the case of orders under a multiple-award contract (including Federal Supply Schedules and GWACs), BOAs, and BPAs, enter the number of offers received for the specific order.

(2) Note that the “Number of Offers Received” is collected on the original award. In the case of a task or delivery order being reported, the user will see the number of offers from the original contract in the “IDV Number of Offers” data element. The “Number of Offers Source” data element is system generated to indicate whether the data in the “Number of Offers Received” data element was entered on the specific CAR being viewed or if it was pre-populated from the original contract award.

(xv) *FPDS Entry – Preference Programs / Other Data Section*.

(A) *Contracting Officer’s Business Size Selection—*

(1) When entering a new contract, purchase order, or agreement award in FPDS, contracting officers shall ensure they appropriately choose “Small Business” or “Other than Small Business” in the “Contracting Officer’s Determination of Business Size” data field according to the NAICS code applied to the award, its associated size standard, and the contractor’s response to provision 52.212-3 or 52.219-1. The contracting officer shall enter “Other than Small Business” for awards where the contractor has not certified to its status in one of these provisions.

(2) If the “Contracting Officer’s Determination of Business Size” data field is completed with “Small Business”, the contractor’s other socio-economic information that it has entered or the Small Business Administration (SBA) has provided to the System for Award Management (SAM) database will be included in the contract action report. This includes designations such as SBA-Certified 8(a), Women-owned Small Business, Service Disabled Veteran Owned.

(3) Contracting officers will not be allowed to identify types of set-asides in FPDS unless the “Contracting Officer’s Determination of Business Size” field is completed with “Small Business,” and other required socio-economic designations are present in the Contractor’s SAM record (e.g., contractor shall have the SBA-Certified 8(a) designation in order to identify an 8(a) type set-aside in FPDS).

(4) All subsequent modifications and delivery orders under the initial award will be automatically populated with the same designations.

(B) *Subcontracting Plan*. Select whether a subcontracting plan is required for the contract action, and, if so, which type applies from the following values:

- (1) Plan Not Required;
- (2) Plan Not Included, No Subcontracting Possibilities;
- (3) Individual Subcontracting Plan;
- (4) Commercial Subcontracting Plan; or
- (5) DoD Comprehensive Subcontracting Plan.

(4) *Reporting modifications to FPDS*.

(i) Modifications against previously reported contracts, agreements, and orders are required to be reported to FPDS if they include any obligation or deobligation amount. They are also required to be reported to FPDS if there is no obligation or deobligation amount and involve a change to the data reported in any data field in the contract action report (e.g., vendor name, completion date, place of performance).

(ii) Contracting officers should choose the “Reason for Modification” value that best represents the purpose of the modification action. If more than one reason for modification applies, choose the more specific value. When a name, address, UEI, or CAGE code change occurs as the result of the modification, choose “Novation,” “Vendor UEI Change,” or “Vendor Address Change,” per the instructions at paragraphs (4)(v), (vi), and (vii), rather than other values that may also apply to the action (e.g., Exercise Option).

(iii) Do not use “Close Out” as the reason for modification in FPDS unless the modification being reported actually accomplishes the close out of the award.

(iv) DoD offices shall not use the “Transfer Action” value in the “Reason for Modification” field unless transferring the contract to a non-DoD contracting office (e.g., Department of Interior).

(v) Modifications for novations (see FAR Subpart 42.12 and DFARS subpart 242.12) shall use “Novation Agreement” in the “Reason for Modification” field.

(A) When this value is used, the contracting officer shall enter the appropriate UEI for the contractor in the modification contract action report. FPDS will then bring over the current vendor name and address from the contractor’s SAM record for that UEI into the modification contract action report. Subsequent contract action reports will show the updated UEI and vendor name.

(B) When this value is used, FPDS also allows the contracting officer to update the “Contracting Officer’s Determination of Business Size” data field. The contracting officer shall ensure that the contractor’s current size status is appropriately recorded on the modification contract action report. Subsequent contract action reports will reflect the size entered on this modification contract action report (see FAR subparts 19.301-2 and 19.301-3).

(vi) Modifications for contractor name changes that do not require a novation (see FAR Subpart 42.12 and DFARS Subpart 242.12) shall use “Vendor UEI Change” in the “Reason for Modification” field. When this value is used, the contracting officer shall enter the appropriate UEI for the contractor in the modification contract action report. FPDS will then bring over the current vendor name and address from the contractor’s SAM record for that UEI into the modification contract action report. Subsequent contract action reports will show the updated UEI and vendor name.

(vii) Modifications for contractor address changes that do not require a novation shall use “Vendor Address Change” in the “Reason for Modification” field. When this value is used, FPDS will bring over the current address from the contractor’s SAM record into the modification contract action report. Subsequent contract action reports will show the updated address.

(viii) Modifications for re-representation actions (see FAR 19.301-2 and 19.301-3) shall use either “Re-representation” or “Re-representation of Non-Novated Merger/Acquisition”, as appropriate, in the “Reason for Modification” field. When this value is used, FPDS allows the contracting officer to update the “Contracting Officer’s Determination of Business Size” data field. The contracting officer shall ensure that the contractor’s current size status is appropriately recorded on the modification contract action report. Subsequent contract action reports will reflect the size entered on this modification contract action report.

(ix) When a modification is reported with “Termination for Default” or “Termination for Cause” in the “Reason for Modification” data field, the user must also report the termination to the Federal Awardee Performance and Integrity Information System (FAPIS) in accordance with FAR 42.1503(h) requirements.

(5) *Reporting awards where the GPC is both the method of purchase and payment.*

(i) Do not report open-market purchases (i.e., not under a Federal Supply schedule, agreement, or contract) made with the GPC valued less than the micro-purchase threshold to FPDS.

(ii) Purchases made using the GPC as the method of both purchase and payment under federal schedules, agreements, or contracts are required to be reported to FPDS regardless of value. Contracting offices shall ensure all such purchases made by their authorized cardholders are reported to FPDS no less frequently than monthly. Any individual purchase valued greater than \$25,000 shall be reported individually to FPDS. For individual purchases valued less than \$25,000, there are three acceptable methods for reporting to FPDS. They are, in preferred order of use—

(A) Report each order individually to FPDS;

(B) Report a consolidated express report to FPDS using the delivery order or BPA call format that references the individual contract or BPA, respectively; or

(C) Report a consolidated express report to FPDS using the purchase order format that uses the generic UEI R5NWZ87HPLX4 for “GPC Consolidated Reporting” or U9X7H1UVY6U5 for “GPC Foreign Contractor Consolidated Reporting”, as appropriate, as the identifier. Note that when a generic UEI is used to report these actions, only “Other than Small Business” is allowed as the “Contracting Officer’s Determination of Business Size” selection.

(iii) For orders placed on FedMall, contracting officers are not required to separately report such awards to FPDS.

(6) *Using generic UEIs .*

(i) Generic UEIs may only be used for reporting to FPDS in accordance with FAR 4.605(c) or paragraph (5)(ii)(C) of this section. Note that if a generic UEI is used on the report to FPDS, systems that prepopulate data based on the UEI reported to FPDS may not be able to use the UEI for further reporting on that contract action because the contractor identification information is not accurately reflected. For example, assessing officials cannot report past performance reports to the Contractor Performance Assessment Reporting System (CPARS) (see FAR Subpart 42.15) if a generic UEI was used to report the action to FPDS. Additionally, some reporting requirements placed on the contractor, such as subcontract reporting required by FAR subparts 4.14 and 19.7, are not able to be completed. Therefore, it is important that the use of generic UEIs in reporting to FPDS be rare and only when necessary.

(ii) The following generic UEIs are available for use in contract reporting only if the conditions in FAR 4.605(c) or paragraph (5)(ii)(C) of this section apply:

(A) UEI LX9KAH68DKV5 – Student Workers in Laboratories. Used to report actions awarded to student workers providing goods/services in Government laboratories (or other Government facilities) when obtaining a UEI would place a financial hardship on the student. Corresponding CAGE code in the System for Award Management (SAM): 35HL9.

(B) UEI LN9PU5M2YZN5 – Miscellaneous Foreign Awardees. Used to report actions awarded to vendors located outside the United States providing goods/services when a specific UEI is not available. Corresponding CAGE code in SAM: 35KC0.

(C) UEI L2UVLEUTJU39 – Spouses of Service Personnel. Used to report actions awarded to service personnel dependents located and providing goods/services outside the United States when obtaining a UEI would place a financial hardship on the dependent. Corresponding CAGE code in SAM: 3JDV7.

(D) UEI KBD2CJ5JXJV5 – Navy Vessel Purchases In Foreign Ports. Used to report actions awarded to vendors located outside the United States providing goods/services in support of vessels located in foreign ports when a specific UEI is not available. Corresponding CAGE code in SAM: 35KD3.

(E) UEI JKRMS84PMND5 – Foreign Utility Consolidated Reporting. Used to report procurement actions awarded to vendors located outside the United States providing utilities goods/services when a specific UEI is not available. Corresponding CAGE code in SAM: 3JDX5.

(F) UEI KA5HQCLKUVW1 – Domestic Awardees (Undisclosed). Used to report actions awarded to vendors located in the United States where identifying the vendor could cause harm to the mission or the vendor (for example, domestic shelters). Corresponding CAGE code in SAM: 3JEH0.

(G) UEI NN2NGPDNCK23 – Foreign Awardees (Undisclosed). Used to report actions awarded to vendors located outside the United States when identifying the vendor could cause harm to the mission or the vendor. Corresponding CAGE code in SAM: 3JEV3.

(H) UEI R5NWZ87HPLX4 – GPC Consolidated Reporting. Used to report orders and calls issued via the GPC under indefinite-delivery type contracts and agreements to businesses located in the United States, and the UEI for the vendor is not available to the office reporting the action. Corresponding CAGE code in SAM: 3JDW4.

(I) UEI U9X7H1UVY6U5 – GPC Foreign Contractor Consolidated Reporting. Used to report orders and calls issued via the GPC under indefinite delivery type contracts and agreements to businesses located outside the United States, and the UEI for the vendor is not available to the office reporting the action. Corresponding CAGE code in SAM: 3JDV9.

(7) Contract Action Report Status.

(i) The “Status” data element on contract action reports indicates whether an award is still open or officially “closed” and applies to the family of actions comprising the contract or order (i.e., includes all modifications to that contract or order). Values in this field will either be null (blank), indicating that the contract is still open; or “Closed,” indicating the contract or order has completed closeout activities in accordance with FAR 4.804, as supplemented. Awards without the “Closed” status are assumed to still be open and either still within the established delivery dates or period of performance, or in a post-performance period preparing for closeout.

(ii) The “Status” is changed to “Closed” in one of three ways:

(A) User reports a modification using “Closeout” in the “Reason for Modification” field. This should be rare and only occur when a modification being issued actually closes the award in that modification (not just prepares for it). If a contract action report is finalized with “Closeout” as the value, it will no longer be able to be corrected by the user. Users will need to contact the FPDS help desk to perform any corrections.

(B) User with “Closeout” privileges in FPDS marks the award as closed. This will be rare in DoD; only the DoD and Service lead system administrators will be given these privileges.

(C) An agency system sends a “Close” notice via web services to FPDS.

(iii) When the “Status” is changed to “Closed” that status is applied to the contract or order and all of its subsequent modifications. Closed notices received for task, delivery, and call orders placed under IDCs or agreements do not cause the IDC or agreement to be closed. Closed notices received for IDCs or agreements do not cause task, delivery, and call orders placed under them to be closed.

(iv) Once a contract or order, and its modifications, has been marked as “Closed” the user or agency cannot change the status and will need to contact the FPDS help desk to remove the status if it was marked in error.

PGI 204.8 -CONTRACT FILES

PGI 204.804 Closeout of contract files.

(1) Data supporting contract closeout (e.g., DD Form 1594, Contract Completion Statement) are electronically transmitted throughout DoD. Defense Logistics Manual 4000.25, Defense Logistics Management Standards (DLMS), Volume 7, Contract Administration, Chapter 4, Contract Completion Status Reporting, available at <https://www.dla.mil/Defense-Data-Standards/Publications/Vol-7-Administration/>, contains detailed instructions regarding closeout and electronic data transmission.

(i) The administration office closeout date for file purposes will be the date in Block 9d of the DD Form 1594 or agency equivalent.

(ii) If the contracting office must do a major closeout action that will take longer than 3 months after the date shown in Block 9d of the DD Form 1594—

(A) The purchasing office closeout date for file purposes will be the date in Block 10e of the DD Form 1594 or agency equivalent; and

(B) The contracting office shall notify the contract administration office of the revised closeout date by either sending a copy of the completed DD Form 1594 or by electronically transmitting the data.

(iii) Completion of block 10 is not required, when the contracting office accepts the closeout date in block 9d of the DD Form 1594 (or agency equivalent) and the contract completion statement is posted to the Electronic Data Access (EDA) system as required by PGI 204.804-2.

(iv) Closeouts posted to EDA are considered part of the contract file and do not need to be duplicated in any other version of the contract file.

(v) A contract modification is not needed to deobligate excess funds when block 5 is completed, and this deobligation will occur upon distribution of the contract completion statement. Send a notification and a copy of the contract completion statement to the comptroller to allow general ledger reconciliation.

(vi) A contract qualifies for an automated closeout process if the contract—

(A) Only has firm-fixed-price line items;

(B) Does not exceed \$500,000; and

(C) Does not include any of the following provision and clauses:

(1) FAR 52.211-11, Liquidated Damages—Supplies, Services, or Research and Development.

(2) FAR 52.216-7, Allowable Cost and Payment.

(3) FAR 52.227-9, Refund of Royalties.

(4) FAR 52.227-11, Patent Rights—Ownership by the Contractor.

(5) FAR 52.227-13, Patent Rights—Ownership by the Government.

(6) FAR 52.232-16, Progress Payments.

(7) FAR 52.232-29, Terms for Financing of Purchases of Commercial Products and Commercial Services.

(8) FAR 52.232-30, Installment Payments for Commercial Products and Commercial Services.

(9) FAR 52.232-32, Performance-Based Payments.

(10) FAR 52.245-1, Government Property.

(11) FAR 52.248-1, Value Engineering.

(D) DoD components may add further limitations to ensure all contract requirements have been completed prior to closeout.

(E) Basic ordering agreements, blanket purchase agreements, and indefinite-delivery contracts can be automatically closed using automated contract closeout procedures after all orders are closed and the ordering period has expired.

(3)(iv) A department or agency requesting a waiver of any provisions of acquisition law or regulation to carry out the closeout procedures shall forward the request and any supporting documentation to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) via email to osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil. The Principal Director, Defense Pricing, Contracting, and Acquisition Policy, will forward the request to USD(A&S), as appropriate.

PGI 204.804-1 Closeout by the office administering the contract.

(1) Locally developed forms or a statement of completion may be used instead of the DD Form 1594, Contract Completion Statement, and use the administration office closeout date. Whichever method is used, the form shall be retained

in the contract file and copies sent to EDA and financial systems using the American National Standards Institute (ANSI) X12 Electronic Data Interchange (EDI) 567 transaction set.

(2) For contracts valued above the simplified acquisition threshold and not subject to the automated closeout procedures at PGI 204.804-3, prepare a DD Form 1597, Contract Closeout Check List (or agency equivalent), to ensure that all required contract actions have been satisfactorily accomplished.

PGI 204.804-2 Closeout of the contracting office files if another office administers the contract.

(1) When an office other than the contracting office administers the contract, the administering office shall—

(i) Provide the contracting office an interim contract completion statement when the contract is physically completed using the ANSI X12 567;

(ii) Prepare a DD Form 1597, Contract Closeout Check List or agency equivalent, if necessary, to determine that all the required actions have been completed;

(iii) Initiate DD Form 1593, Contract Administration Completion Record, if necessary to obtain statements from other organizational elements that they have completed the actions for which they are responsible; and

(iv) Upon final payment—

(A) Process a DD Form 1594 or the electronic equivalent verifying that all contract administration office actions have been completed; and

(B) Send the original DD Form 1594 or the electronic equivalent to the contracting office for filing in the contract file and send a copy to EDA and financial systems using the ANSI X12 567.

(2) If the administrative contracting officer (ACO) cannot close out a contract within the specified time period (see FAR 4.804-1), the ACO shall notify the procuring contracting officer (PCO) within 45 days after the expiration of the time period of—

(i) The reasons for the delay; and

(ii) The new target date for closeout.

(3) If the contract still is not closed out by the new target date, the ACO shall again notify the PCO with the reasons for delay and a new target date.

PGI 204.804-4 Physically completed contracts.

A basic ordering agreement, blanket purchase agreement, or an indefinite-delivery contract can be closed after—

(i) All orders have been closed; and

(ii) The ordering period has expired.

PGI 204.804-5 Procedures for closing out contract files.

When the Governmentwide commercial purchase card is the sole method of payment—

(1) The contractor's final invoice is not required to close a contract or order; and

(2) The contract completion statement—

(i) Does not require the final voucher number and date;

(ii) Does not require the final invoice number and date; however

(iii) Requires the final acceptance date.

(3) Additional guidance on the Governmentwide commercial purchase card can be found at <https://www.acq.osd.mil/asda/dpc/ce/pc/docs-guides.html>.

PGI 204.11 -SYSTEM FOR AWARD MANAGEMENT

PGI 204.1103 Procedures.

The System for Award Management (SAM) website at <https://www.sam.gov> provides useful documents and online training to assist with SAM navigation and data entry. User guides and demonstration videos can be found in the User Help section after clicking the HELP link at the top of the website homepage. The former Central Contractor Registration and Online Representations and Certifications Application data can be located in the Entity Management area of SAM, which can be accessed by navigating the following path after logging into the SAM website: Select Tab - MYSAM, Tab - Data Access and Tab - Entity Management.

(i) Use SAM as the primary source of contractor information for contract award and administration, to include supporting contract writing, management, and administration systems. Do not request or use contractor information from other sources, unless another source is specifically authorized. At a minimum, supporting systems shall use SAM as the authoritative source for the following data elements, as applicable by system, when SAM is required in accordance with FAR [subpart 4.11](#):

- (A) Data Universal Number System (DUNS) number.
 - (B) DUNS+4 number.
 - (C) Commercial and Government Entity (CAGE) code.
 - (D) Taxpayer Identification Number (TIN).
 - (E) Legal business name.
 - (F) Doing business as (DBA) name.
 - (G) Physical address.
 - (H) Mailing address.
 - (I) Electronic Funds Transfer (EFT) information (includes American Banking Association (ABA) routing number, account number, and account Type) and any additional EFT indicators.
- (ii) Ensure that SAM nondisclosure requirements regarding TIN and EFT information are followed.

This page intentionally left blank.

PGI 204.16 -UNIFORM PROCUREMENT INSTRUMENT IDENTIFIERS

PGI 204.1601 Policy.

(b) *Transition of PIID numbering.* Components are encouraged to transition to the Procurement Instrument Identifier (PIID) numbering schema as soon as possible, but no later than the date specified at DFARS [204.1601\(b\)](#).

(c)(i) A continued contract is issued solely for administrative reasons. When issuing a continued contract, the contracting officer shall perform the following tasks:

(A) Obtain approval at a level above the contracting officer before issuance of the continued contract.

(B) Assign a PIID to the continued contract that is different from the PIID assigned to the predecessor contract, using the uniform PIID numbering system prescribed in FAR 4.1603 and DFARS [204.1603](#). The predecessor contract will retain the PIID originally assigned to it.

(C) Find a clear breaking point (e.g., between issuance of orders, exercise of options, or establishment of a new line of accounting) to issue the continued contract.

(D) Clearly segregate contractual requirements for purposes of Government inspection, acceptance, payment, and closeout. Supplies already delivered and services already performed under the predecessor contract will remain under the predecessor contract. This will allow the predecessor contract to be closed out when all inspection, acceptance, payment, and other closeout issues associated with supplies delivered and services performed under the predecessor contract are complete.

(E) Include in the continued contract all terms and conditions of the predecessor contract that pertain to the supplies and services yet to be delivered or performed. At the time it is issued, the continued contract may not in any way alter the prices or terms and conditions established in the predecessor contract.

(F) Provide advance notice to the contractor before issuance of the continued contract, to include the PIID and the effective date of the continued contract.

(G) Modify the predecessor contract to—

(1) Reflect any necessary administrative changes such as transfer of Government property, and make the Government property accountable under the continued contract;

(2) Clearly state that future performance (e.g., issuance of orders or exercise of options) will be accomplished under the continued contract; and

(3) Specify the administrative reason for issuing the continued contract.

(H) Reference the predecessor contract PIID on the face page of the continued contract to ensure traceability.

(ii) Sample language for the administrative modification to the predecessor contract follows:

This modification is issued for administrative purposes to facilitate continued contract performance due to [state the reason for assigning an additional PIID]. This modification is authorized in accordance with FAR 4.1601 and DFARS [204.1601](#).

Supplies and services already acquired under this contract number shall remain solely under this contract number for purposes of Government inspection, acceptance, payment, and closeout. All future [delivery orders] [task orders] [options exercised] will be accomplished under continued contract [insert contract number].

PGI 204.1603 Procedures.

(a)(3)(A)(3) Legacy contract writing systems authorized to use the letter T in position 9 of the PIID for automated requests for quotation include the following:

(i) Department of Navy's Item Management and Procurement (ITIMP) system.

(ii) Defense Logistics Agency's Enterprise Business System (EBS).

(4) Positions 10 through 17. Positions 10 through 13 of a DoD-issued PIID shall not be a sequence of four zeroes (i.e., "0000").

(b) Elements of a supplementary PIID.

(1) Position 1. Use a "U" in position 1 (e.g., "U00001") in lieu of an "A" or "P", as necessary, to process draft modifications through contract writing systems and associated applications. Change the "U" to an "A" or "P" prior to award to comply with FAR and DFARS standards.

(2) *Positions 2 through 6.* Examples of proper numbering for positions 2 through 6 are as follows:

Normal modification	Provisioned items order (reserved for exclusive use by the Air Force only)	Shipping Instructions					
00001 — 99999		K0001 —	K9999	S0001 —	S9999		
then		KA001 —	KZ999	SA001 —	SZ999		
A0001 — A9999		L0001 —	L9999	T0001 —	T9999		
B0001 — B9999		LA001 —	LZ999	TA001 —	TZ999		
and so on to		M0001 —	M9999	U0001 —	U9999		
H0001 — H9999		MA001 —	MZ999	UA001 —	UZ999		
then		N0001 —	N9999	V0001 —	V9999		
J0001 — J9999		NA001 —	NZ999	VA001 —	VZ999		
then		P0001 —	P9999	W0001 —	W9999		
R0001 — R9999		PA001 —	PZ999	WA001 —	WZ999		
then		Q0001 —	Q9999	X0001 —	X9999		
AA001 — HZ999		QA001 —	QZ999	XA001 —	XZ999		
then							
JA001 — JZ999				Y0001 —	Y9999		
RA001 — RZ999				YA001 —	YZ999		

(3) If the contract administration office is changing the contract administration or disbursement office for the first time and is using computer generated modifications to notify many offices, it uses the six position supplementary number ARZ999. If either office has to be changed again during the life of the contract, the supplementary number will be ARZ998, and on down as needed.

PGI 204.1670 Cross reference to Federal Procurement Data System.

The following matrices should be used as a cross reference between the terms used in the FAR, DFARS, and the Federal Procurement Data System (FPDS).

STRUCTURE OF REQUIRED IDENTIFIERS	
Key and Description	Format
A - DoD Procurement Instrument Identifier (PIID)	Consists of the concatenation of the following four fields:

Enterprise Identifier - DODAAC of contracting office	Fiscal Year in which award is made	Procurement Instrument Type Code	Serialized Identifier
Six alpha-numeric characters excluding I and O	Two numeric characters	One alpha character excluding I and O	Four alpha-numeric characters excluding I and O. 0000 is not an acceptable value.
B - DoD Order Number (Supplementary PIID)	Four alpha-numeric characters excluding I and O. A and P are prohibited in the first position. 0000 is not an acceptable value. <i>(NOTE: Four character supplementary PIID order numbers are only allowed to be issued through FY16. Subsequently, all orders must be in the format shown above in section A of this table. DoD activities are encouraged to transition as soon as possible in FY16 to this new method for numbering orders under DoD contracts and agreements. Transition must be completed no later than October 1, 2016.)</i>		

C - DoD Procurement Instrument Modification Identifier (Supplementary PIID)	Six alpha-numeric characters beginning with A or P, excluding I and O. P00000 and A00000 are not acceptable values.
D - DoD Order Modification Identifier (Supplementary PIID)	Two alpha-numeric characters excluding I and O. 00 is not an acceptable value. <i>(NOTE: Two character supplementary PIID modification numbers are only allowed to be issued to DoD orders issued through FY16. Modification to DoD orders issued after the transition to the new method of numbering orders under DoD contracts and agreements must be in the form shown in section C of this table.</i>
E - Non DoD Procurement Instrument Number	4 to 50 Alpha-numeric characters
ELEMENTS NEEDED TO IDENTIFY A DEPARTMENT OF DEFENSE PROCUREMENT ACTION	
Procurement Instrument Action Type	Required as shown below to uniquely identify the action.

Reference Procurement Instrument (Reference Use Only)	Procurement Instrument Identifier (PIID) (Contract Number)		Modification Number Order Number	
BPA or Order under a Schedule or other non-DoD Instrument		E	A	
Order against a BPA under a Schedule (FY16 and later)	E	A	A	
Order against a BPA under a Schedule (Pre- FY16)	E	A	B	
DoD Contract, Purchase Order, BOA, BPA not under a Schedule, or other instrument		A		
Order against a DoD Contract, BOA, BPA not under a Schedule, or other instrument (FY16 and later)		A	A	
Order against a DoD Contract, BOA, BPA not under a Schedule or other instrument (Pre-FY16)		A	B	
Modification to a BPA or Order under a Schedule or other non- DoD instrument	E	A		C
Modification to an Order against a BPA under a Schedule (FY16 and later)	E	A	A	C

Modification to an Order against a BPA under a Schedule (Pre-FY16)	E	A	B	D
Modification to a DoD Contract, Purchase Order, BOA, BPA not under a Schedule, or other instrument		A		C

Modification to an Order against a DoD Contract, BOA, or BPA not under a schedule (FY16 and later)		A	A	C
Modification to an Order against a DoD Contract, BOA, or BPA not under a schedule (Pre-FY16)		A	B	D

FPDS Crosswalk	FPDS FIELD NAME			
REF_IDV_PIID	REF_IDV_MODIFICATION_NUMBER	PIID	MODIFICATION_NUMBER	
BPA or Order under a Schedule or other non-DoD Instrument	E	Use 0	A	Use 0
Order against a BPA under a Schedule (FY16 and later)	A	Use 0	A	Use 0
Order against a BPA under a Schedule (Pre-FY16)	A	Use 0	B*	Use 0
DoD Contract, Purchase Order, BOA, BPA not under a Schedule, or other instrument			A	Use 0
Order against a DoD Contract, BOA, BPA not under a Schedule, or other instrument (FY16 and later)	A	Use 0	A	C
Order against a DoD Contract, BOA, BPA not under a Schedule, or other instrument (Pre-FY16)	A	Use 0	B*	D*

Modification to a BPA or Order under a Schedule or other non-DoD Instrument			A	C
Modification to an Order against a BPA under a Schedule (FY16 and later)	A	Use 0	A	C
Modification to an Order against a BPA under a Schedule (Pre-FY16)	A	Use 0	B*	D*
Modification to a DoD Contract, Purchase Order, BOA, BPA not under a Schedule, or other instrument			A	C
Modification to an Order against a DoD Contract, BOA, or BPA not under a Schedule (FY16 and later)	A	Use 0	A	C
Modification to an Order against a DoD Contract, BOA, or BPA not under a Schedule (Pre-FY16)	A	Use 0	B*	D*
* Note that FPDS strips leading zeroes, so that modification 02 to order 0024 is shown as modification 2 to order 24.

PGI 204.18 -COMMERCIAL AND GOVERNMENT ENTITY CODE

PGI 204.1870 Procedures.

PGI 204.1870-1 Instructions to contracting officers.

Contracting officers shall—

(a) Assist offerors in obtaining the required Commercial and Government Entity (CAGE) codes. Note that if an offeror's facility requires security clearance in accordance with a potential contract, the offeror is required to have a CAGE code assigned to that facility. If the facility is a location other than the offeror's office submitting the proposal, that facility is not required to be separately registered in the System for Award Management (SAM) in order to have a CAGE code assigned. Offerors may be directed to the DLA CAGE Branch (see PGI [204.1870-2](#) (c) for contact information);

(b) Not deny a potential offeror a solicitation package because the offeror does not have a CAGE code, unique entity identifier, or TIN;

(c) Not require a contractor to register sections or locations of their organization in SAM for reasons not already required by clauses present in their contracts in order to obtain a CAGE code; and

(d) Not require a contractor to obtain new CAGE codes or change CAGE code records assigned to their locations solely for Government administration purposes (such as a result of a Government reorganization, change in Government contracting officer or office) or for distinction in Government systems beyond physical address and Electronic Funds Transfer (EFT) data.

PGI 204.1870-2 Maintenance of the CAGE file.

The following information and procedures are provided to assist contracting officers.

(a) *Assignment of CAGE codes for entities located in the United States or its outlying areas.*

(1) CAGE codes are assigned per legal entity at individual physical addresses (i.e., the same entity at the same physical address will not be assigned two or more CAGE codes). The only exception to this rule is when an entity has a registration in the SAM with multiple EFT addresses identified by multiple EFT indicators. In this case, each EFT indicator record is assigned a separate CAGE code to assist in correct processing of payments.

(2) CAGE codes are not assigned to mailing addresses; a physical address shall be provided. Neither U.S. Post Office boxes nor addresses that can be identified as belonging to commercial mail and/or shipping provider locations will be accepted as physical addresses.

(3) CAGE codes are not assigned to entities where the provided physical address is identified as a short-term virtual location, such as mobile offices, commercial packaging/ mailing facilities (e.g., UPS stores, FedEx stores), mailbox rentals and certain business incubator locations if the majority of the operations are not performed from that incubator location. A sole proprietor, partnership, corporate entity, or other business organization shall have a principal place of business, even if it is a home office, from where the business operates and record books are maintained. In that case, a home address of an officer of the company or board member would be required.

(4) Individuals who register in SAM as sole proprietors are assigned CAGE codes. However, there may not be multiple CAGE codes assigned to the same location even if the entity names are differentiated by establishing a Limited Liability Corporation (LLC) (e.g., "John Smith" and "John Smith, LLC"). Additionally, the standard for the legal business name for sole proprietors, driven by Internal Revenue Service (IRS) standards, is the use of the individual's personal name. Any additional name used for the sole proprietorship should be identified as a doing business as (DBA) name (e.g., "John Smith" is the legal business name, "Smith Construction" is the DBA).

(5) Authorized agents or brokers may be assigned CAGE codes for identification and processing purposes. A single CAGE code will be assigned to the agent or broker entity in addition to any codes assigned to the entities represented by the agent or broker (i.e., only one code will be assigned to a specific agent or broker entity regardless of the number of firms represented by that agent or broker). Codes will not be assigned to an agent or broker in care of the entity being represented or in any way infer that the agent or broker is a separate establishment bearing the name of the entity represented by the agent or broker.

(6) There are some cases where both the owner of real property and a separate legal entity located at the same address as the real property each are required to have CAGE codes assigned. Examples are an office building owner and a tenant in the office building, or a land owner and a company using all or a portion of the land to farm. Additional cases exist where two separate entities may lease office space in the same building and both require CAGE codes. In both of these situations, the most specific physical address will be requested (i.e., specific additions of suites, floors, or room numbers) to distinguish

between the two entities. If no more specific physical address is able to be identified, then documentation such as that listed in PGI [204.1870-2](#) (c)(3)(i)(A) will be requested to ensure that the entities are separate legal entities.

(b) *NCAGE code assignment for entities located outside the United States and its outlying areas managed via established NATO processes.* SAM records received by the CAGE code system for validation shall—

(1) Include an NCAGE that has been received from the NATO Support Agency's (NSPA's) common database. The frequency with which local country code bureaus update the common database differs by the country. While most updates occur within a week, it can take up to a month to process. The CAGE code system will hold a validation request from SAM for three (3) days before rejecting it because the NCAGE does not appear to exist; and

(2) Include a legal business name and physical address that matches the address on the NSPA database in order to be validated.

(c) *Changes of information on the CAGE code record.*

(1) The DLA CAGE Branch accepts written requests for changes to CAGE files from the following sources:

(i) The company, organization, or sole proprietor entity identified by the code, if located in the United States or its outlying areas.

(A) For CAGE records for which there is a corresponding registration in SAM, the entity shall update and submit their SAM registration for validation. If the update includes a change to the entity's legal business name, the additional steps at PGI [204.1870-2](#) (c)(3)(i)(C) will be necessary.

(B) For CAGE records for which there is not a corresponding registration in SAM, the entity shall use company letterhead to request a change to their CAGE code record. Submit requests for changes to CAGE files, when there is not a corresponding SAM record, at <https://cage.dla.mil> or using a DD Form 2051 (available at <http://dtic.mil/whs/directives/forms/eforms/dd2051.pdf>). The form may be emailed to cagemail@dlamail.mil, or a hard copy mailed to—

DLA CAGE Branch

74 Washington Avenue

Battle Creek, MI 49037

Telephone Number: toll-free 877-352-2255

(ii) The Government contracting office on agency letterhead.

(iii) The Government contract administration office on agency letterhead.

(2) The DLA CAGE branch refers requests for changes to CAGE files from entities located outside the United States and its outlying areas as follows:

(i) Entities located in a NATO or NATO-sponsored nation shall contact their codification bureau. A listing of codification bureaus is found at <http://www.nato.int/structur/AC/135/main/links/contacts.htm>.

(ii) Entities located in a country that is neither in NATO nor sponsored by NATO shall contact the NATO Support Agency (NSPA) at ncage@nspa.nato.int or request update after searching for their CAGE code at <https://eportal.nspa.nato.int/AC135Public/scage/CageList.aspx>.

(3) When a request is received by DLA (either directly or via an entity-updated SAM registration submitted for validation) that includes a change to the entity's legal business name as recorded within the CAGE file, the DLA team will contact the entity and process the request in accordance with the following procedure:

(i) If the entity indicates that it does not hold any active federal Government contracts or any outstanding invoices on a physically complete contract, the entity will be asked to provide the following to DLA—

(A) Signed legal documentation that confirms the formal name change and accurately reflects the change requested. Examples of acceptable documentation include: Articles of Incorporation, Articles of Organization, Bill of Sale, Asset Purchase Agreement, Secretary of State documentation, and Legal Merger or Acquisition documentation. DLA will not accept Internal Review Service (IRS) documentation or validation, as the IRS does not require the use of the legal business name. Sole proprietors will need to provide their filings for one of the following: Fictitious Business Name, Assumed Name, Trade Style Name, or Business License. DLA may use information found at state government websites in lieu of requesting documentation from the entity to confirm the name if it is available;

(B) Written statement that they do not have active federal contracts or any outstanding invoices on a physically complete contract; and

(C) After receipt of the documentation in (A) and (B), DLA will process the change. If the initial request was received from SAM as a part of the CAGE validation process, the processed change will be communicated back to SAM.

(ii) If the entity indicates it does hold active Federal Government contracts, the entity will be asked to provide an indication in writing (may be provided by email) if the change in legal business name is a result of an acquisition, merger, or

other situation related to recognition of a successor in interest to Federal Government contracts when contractor assets are transferred, which would necessitate a novation agreement be executed.

(A) If the entity indicates that the change in legal business name is not a result of an acquisition merger or other situation as indicated above; the entity will be asked to confirm, in writing (may be provided by email) that it has advised each of the respective Government contracting officers necessary to process name-change agreements in accordance with FAR Subpart 42.12 requirements. Additionally, DLA will ask the entity to provide a copy of the change-of-name agreement (see FAR 42.1205) signed by the entity. DLA will not process a change to the CAGE file without a copy of the signed change-of-name agreement, or confirmation from the cognizant Government contracting officer that processing a change to the CAGE file prior to the signed change-of-name agreement being completed is permissible. Note that the modification action that incorporates the change-of-name agreement into the contract is an acceptable method of providing the change-of-name agreement. However, if the modification is not able to be issued until the CAGE code information is updated, the change-of-name agreement itself will suffice.

(B) If the entity indicates that the change in legal business name is a result of an acquisition, merger, or other situation as indicated above, DLA will request the entity to provide the Novation Agreement that has been executed by the cognizant Government contracting officer (see FAR 42.1204) as well as the contact information for that contracting officer. DLA may, based on the content of the Novation Agreement, request that the contracting officer provide additional information regarding any Government interest in whether CAGE codes are transferred to the successor in interest. DLA will not process a change to the CAGE file without a copy of the executed Novation Agreement, or confirmation from the cognizant Government contracting officer that processing a change to the CAGE file prior to the novation agreement being completed is permissible. Note that the modification action that incorporates the Novation Agreement into the contract is an acceptable method of providing the Novation Agreement. However, if the modification is not able to be issued until the CAGE code information is updated, the Novation Agreement itself will suffice.

(1) When contacted by DLA in relation to a name change resulting from a novation, contracting officers shall provide DLA the following information:

- (i) Name(s), address(es), and code(s) of the contractor(s) transferring the original contractual rights and obligations (transferor).
- (ii) Name(s), address(es), and code(s) (if any) of the entity who is the successor in interest (transferee).
- (iii) Name(s), address(es), and code(s) (if any) of the entity who is retaining or receiving the rights to the technical data.
- (iv) Description of the circumstances surrounding the novation agreement and especially the relationship of each entity to the other.

(2) Note that if the name change request was received as a part of a registration from SAM update, and this situation applies, the update will be sent back to SAM as rejected by CAGE validation if a copy of the executed Novation Agreement or confirmation from the cognizant Government contracting officer is not available within 10 business days. The entity may resubmit the update in SAM with the changed legal name at such point this information becomes available.

(4) If the initial request was received from SAM as a part of the CAGE validation process, a processed change will be communicated back to SAM.

(5) Note that DLA does not follow the process outlined in (c)(3) above for minor changes in the legal business name received from SAM during validation, such as changing an “and” to “&”; inserting or removing abbreviations, such as changing “Co.” to “Company”; inserting or removing a space between words in an entity’s name; or inserting or removing acronyms or wording identifying a type of incorporated status, such as “Inc.” or “LLC”. These changes are processed and communicated back to SAM.

PGI 204.71 -UNIFORM CONTRACT LINE ITEM NUMBERING SYSTEM

PGI 204.7103 Contract line items.

(a) Separately identifiable contract line and subline items (i.e., all except those with characteristics described in DFARS [204.7103-1\(a\)\(2\)\(iii\)](#) or [204.7104-1\(a\)](#)) shall include a description of the item or service being procured, the associated Product or Service Code (PSC), the quantity, a unit of measure, defined acceptance and inspection locations and requirements, and the delivery schedule or performance period. Contracts for contingency operations shall include the project code at the line item level on each contract action. The list of applicable codes is maintained at http://www.dla.mil/j-6/dlms/elibrary/ServicePoints/CD_ProjCd_nopoc.docx. The contracting officer is responsible for coordinating any changes from the purchase request to the contract with the requiring activity.

(1) The list of active PSCs is available on the Federal Procurement Data System website under the 'Worksite' section under 'Reference'.

(2) The list of available units of measure is on the Defense Pricing, Contracting, and Acquisition Policy website at https://www.acq.osd.mil/asda/dpc/ce/ds/docs/pds/Line_Item_UoM_List.xlsx.

(3) Delivery and acceptance locations shall be defined using Activity Address Codes published in (1) DoD Activity Address Directory (DODAAD), DoD 4000.25-6-M, or (2) Military Assistance Program Address Directory System (MAPAD), DoD 4000.25-8-M and available for verification at <https://www.daas.dla.mil/daasinq/default.asp>.

(4) No activity shall be assigned acceptance responsibility unless that activity has acceptors registered in Wide Area WorkFlow (WAWF). Available roles for an Activity Address Code can be verified at the Active DoDAACs & Roles link on the WAWF homepage at <https://wawf.eb.mil/>.

(b) Fixed price line items shall include unit prices and total prices. Cost type line items shall not include unit prices, but shall contain the appropriate elements in accordance with FAR part 16. Not separately priced line items shall be so labeled. The notation "No Charge" shall not be used.

(c) The requirements at paragraph (a) and (b) shall be included in the appropriate parts of the contract Schedule.

(d) In structuring line items, especially on fixed-price contracts, due consideration shall be given to the effect of the chosen units of measure on administration and payment. No contract line item shall contain a quantity less than the number of deliveries anticipated on the line item. Contracting officers shall consider the need for periodic deliveries and payments in selecting a unit of measure. Included in this analysis shall be the impact of any financing arrangements under FAR part 32.

(i) Supplies: Line item quantities shall match the actual count of the supplies to be provided. For instance, if more than one delivery is expected, the quantity cannot be "1."

(ii) Services: Line item quantities shall match the frequency with which performance will be reviewed, and on fixed-price line items, payment made. For example, a contract with a twelve-month period of performance should have a quantity and unit of measure suited to how the contract will be managed. If the intent is to review, accept, and pay for the services monthly, then the quantity should be 12, with a unit of measure such as "Months" or "Lots." If the intent is to review, accept, and pay for the services quarterly, then the quantity should be 4, with a unit of measure such as "Lot". If the quantity used is 1, then no payment for delivery can occur until the end of the period of performance. Services with tangible deliveries, such as repairs, shall be structured like supply line items.

(e) The following examples illustrate when the requirements at paragraph (a) apply—

(1) Separately identifiable subline items. The rule applies to subline items 0001AA and 0001AB. It does not apply to the line item 0001, because it does not have a deliverable.

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Widgets				
0001AA	Red painted widgets	6	EA	\$10.00	\$60.00
0001AB	Unpainted widgets	6	EA	\$9.50	\$57.00

(2) Informational subline items. The rule applies to line item 0001. It does not apply to subline items 000101, 000102, and 000103 because they do not have deliverables.

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Widget implementation Joint Service Study	1	LOT	\$60,000	\$60,000
000101	Army funding (AA: \$20,000)				
000102	Navy funding (AB: \$20,000)				
000103	Air Force funding (AC: \$20,000)				

(3) Line item with no subline items. The rule applies.

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Red painted widgets	6	EA	\$10.00	\$60.00

(4) Line item is parent to an exhibit. The rule applies to the exhibit lines.

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	See exhibit A (\$117.00)				
A001	Red painted widgets	6	EA	\$10.00	\$60.00
A002	Unpainted widgets	6	EA	\$9.50	\$57.00

(5) Line is parent to a subline item which refers to an exhibit. The rule applies to the exhibit lines.

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Widget program				
0001AA	Design and develop widgets	1	LOT	\$500.00	\$500.00
0001AB	See exhibit A (\$117.00)				
A001	Red painted widgets	6	EA	\$10.00	\$60.00
A002	Unpainted widgets	6	EA	\$9.50	\$57.00

PGI 204.7103-2 Numbering procedures.

(a) Contract line items shall consist of four numeric digits 0001 through 9999. Do not use numbers beyond 9999. Within a given contract, the item numbers shall be sequential but need not be consecutive.

(b) The contract line item number shall be the same as the solicitation line item number unless there is a valid reason for using different numbers.

(c) Once a contract line item number has been assigned, it shall not be assigned to another, different, contract line item in the same contract.

PGI 204.7104 Contract subline items.

PGI 204.7104-2 Numbering procedures.

(a) Number subline items by adding either two numeric characters or two alpha characters to the basic contract line item number.

(1) *Information subline item numbers.* Use numeric characters only for information subline items, running 01 through 99. Do not use spaces or special characters to separate the subline item number from the contract line item number that is its root. For example, if the contract line item number is 0001, the first three subline items would be 000101, 000102, and 000103. Do not use a designation more than once within a contract line item.

(2) Separately identified subline items. Use alpha characters only for separately identified subline items, running AA through ZZ. Do not use spaces or special characters to separate the subline item number from the contract line item number that is its root. For example, if the contract line item number is 0001, the first three subline items would be 0001AA, 0001AB, and 0001AC.

(i) Do not use the letters I or O as alpha characters.

(ii) Use all 24 available alpha characters in the second position before selecting a different alpha character for the first position. For example, AA, AB, AC, through AZ before beginning BA, BB, and BC.

(b) Within a given contract line item, the subline item numbers shall be sequential but need not be consecutive.

(c) Exhibits may be used as an alternative to setting forth in the schedule a long list of contract subline items. If exhibits are used, create a contract subline item citing the exhibit's identifier. See DFARS [204.7105](#).

(d) If a contract line item involves ancillary functions, like packaging and handling, transportation, payment of state or local taxes, or use of reusable containers, and these functions are normally performed by the contractor and the contractor is normally entitled to reimbursement for performing these functions, do not establish a separate subline item solely to account for these functions. However, do identify the functions in the contract schedule. If an offeror separately prices these functions, the contracting officer may establish separate subline items for the functions; however, the separate subline items must conform to the requirements of DFARS [204.7104-1](#).

(e) The following examples illustrate subline items numbering—

(1) Subline items structured to identify destinations for identical items, identically priced (delivery schedule shall be established for each subline item, not the contract line item).

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	NSN 1615-00-591-6620 Shim, Aluminum Alloy,... Apbl, Rotor, Helicopter PRON A1-9-63821-M1- M1 ACRN:AA				
0001AA	A3168R-9030-4025 A2537M IPD: 2 RDD: 334 PROJ: 501	10	EA	\$100.00	\$1,000.00
0001AB	A3168R-9030-4026 A51AXB IPD: 2 RDD: 325 PROJ: 502	10	EA	\$100.00	\$1,000.00
0001AC	A3168R-9030-4027 A67KBCM IPD: 2 RDD: 349 PROJ: 503	15	EA	\$100.00	\$1,500.00

(2) Subline items structured to identify destinations for identical items, not identically priced (delivery schedule shall be established for each subline item, not the contract line item).

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
----------	------------------	----------	------	------------	--------

0001	NSN 1615-00-591-6620 Shim, Aluminum Alloy,... Apbl, Rotor, Helicopter PRON A1-9-63821-M1- M1 ACRN:AA				
0001AA	A3168R-9030-4025 A2537M IPD: 2 RDD: 334 PROJ: 501	10	EA	\$100.00	\$1,000.00
0001AB	A3168R-9030-4026 A51AXB IPD: 2 RDD: 325 PROJ: 502	20	EA	\$99.00	\$1,980.00
0001AC	A3168R-9030-4027 A67KBCM IPD: 2 RDD: 349 PROJ: 503	30	EA	\$98.00	\$2,940.00

NOTE: Difference in prices for identical items is due to separate destinations for FOB destination delivery.

(3) Subline items structured to identify different sizes of an item that are identically priced (delivery schedule shall be established for each subline item, not the contract line item).

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0013	Boots Insulated, Cold Weather White, Type II, Class I		PR	\$38.35	\$13,422.50
0013AA	8430-00-655-5541 Size 5N	50			
0013AB	8430-00-655-5544 Size 8N	70			
0013AC	8430-00-655-5551 Size 9N	30			
0013AD	8430-00-655-5535 Size 9R	200			

NOTE: Unit price and total amount shown at line item level rather than at subline item level.

(4) Subline items structured to identify different sizes of an item that are not identically priced (delivery schedule shall be established for each subline item, not the contract line item).

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0002	Body Armor Ground Troops Variable Type Small Arms, Fragmentation Protective Nylon Felt Vest, Front and Back Plates, Ceramic Plate, Type I				
0002AA	First Article	1	LO	NSP	
0002AB	8470-00-141-0935 Medium Regular	1936	SE	\$331.77	\$642,306.72
0002AC	8470-00-141-0936 Large Regular	625	SE	\$355.77	\$222,356.25
0002AD	8470-00-141-0937, Medium Long	1237	SE	\$346.77	\$428,954.49
0002AE	8470-00-141-0938, Large Long	804	SE	\$365.77	\$294,079.08

(5) Subline items structured to provide the capability for relating subordinate separately priced packaging costs to the overall contract line item. (Separate delivery schedules shall be established for the subline item identifying the contractor's product and for the subline item identifying packaging. No schedule will be established for the contract line item.)

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	6105-00-635-6568 50380 Ref No 63504-WZ Armature Motor ACRN: AA				
0001AA	6105-00-635-6568 50380 Ref No 63504-WZ Armature Motor ACRN: AA	2	EA	\$2,895.87	\$5,791.74
0001AB	Packaging ACRN:AA	2	EA	\$289.58	\$579.16

(6) Subline items structured to identify different accounting classifications for identical items (delivery schedule shall be established for each subline item, not the contract line item).

AJ: 17X150518350315069100000192B000000000000000000

PGI 204.7105 Contract exhibits and attachments.

(a) *Use of exhibits.*

(1) Exhibits may be used instead of putting a long list of contract line items or subline items in the contract schedule. Exhibits are particularly useful in buying spare parts.

- (2) When using exhibits, establish a contract line or subline item and refer to the exhibit.
- (3) Identify exhibits individually.
- (4) Each exhibit shall apply to only one contract line item or subline item.
- (5) More than one exhibit may apply to a single contract line item.
- (6) Data items on a DD Form 1423, Contract Data Requirements List, may be either separately priced or not separately priced.
 - (i) Separately priced. When data are separately priced, enter the price in Section B of the contract.
 - (ii) Not separately priced. Include prices in a priced contract line item or subline item.
- (7) The contracting officer may append attachments to exhibits, as long as the attachment does not identify a deliverable requirement that has not been established by a contract line item or subline item or exhibit line item.
- (8) Include exhibit line items and associated information in the electronically distributed contract documents identified in PGI [204.201](#) (3)(i)(A) and (B).
- (b) *Numbering exhibits and attachments.*
 - (1) Use alpha characters to identify exhibits. The alpha characters shall be either single or double capital letters. Do not use the letters I or O.
 - (2) Once an identifier has been assigned to an exhibit, do not use it on another exhibit in the same contract.
 - (3) The identifier shall always appear in the first or first and second positions of all applicable exhibit line item numbers.
 - (4) If the exhibit has more than one page, cite the procurement instrument identification number, exhibit identifier, and applicable contract line or subline item number on each page.
 - (5) Use numbers to identify attachments.
- (c) *Numbering exhibit line items.*
 - (1) Criteria for establishing. The criteria for establishing exhibit line items are the same as those for establishing contract line items (see DFARS [204.7103](#)).
 - (2) Procedures for numbering.
 - (i) Number items in an exhibit in a manner similar to contract line items.
 - (ii) Number line items using a four-position number.
 - (A) The first position or the first and second position contain the exhibit identifier.
 - (B) The third and fourth positions contain the alpha or numeric character serial numbers assigned to the line item when using a double letter exhibit identifier. The second, third and fourth positions contain the alpha or numeric character serial numbers assigned to the line item when using a single letter exhibit identifier.
 - (iii) Exhibit line item numbers shall be sequential within the exhibit.
 - (3) Examples.
 - (i) Two-position serial number for double letter exhibit identifier.

Cumulative No. of Line Items	Serial Number Sequence
1-33	01 thru 09, then 0A thru 0Z, then
34-67	10 thru 19, then 1A thru 1Z, then
68-101	20 thru 29, then 2A thru 2Z, then
102-135	30 thru 39, then 3A thru 3Z, then
136-169	40 thru 49, then 4A thru 4Z, then
170-203	50 thru 59, then 5A thru 5Z, then
204-237	60 thru 69, then 6A thru 6Z, then
238-271	70 thru 79, then 7A thru 7Z, then
272-305	80 thru 89, then 8A thru 8Z, then
306-339	90 thru 99, then 9A thru 9Z, then
340-373	A0 thru A9, then AA thru AZ, then
374-407	B0 thru B9, then BA thru BZ, then
408-441	C0 thru C9, then CA thru CZ, then
442-475	D0 thru D9, then DA thru DZ, then
476-509	E0 thru E9, then EA thru EZ, then
510-543	F0 thru F9, then FA thru FZ, then
544-577	G0 thru G9, then GA thru GZ, then
578-611	H0 thru H9, then HA thru HZ, then
612-645	J0 thru J9, then JA thru JZ, then
646-679	K0 thru K9, then KA thru KZ, then
680-713	L0 thru L9, then LA thru LZ, then
714-747	M0 thru M9, then MA thru MZ, then
748-781	N0 thru N9, then NA thru NZ, then
782-815	P0 thru P9, then PA thru PZ, then
816-849	Q0 thru Q9, then QA thru QZ, then
850-883	R0 thru R9, then RA thru RZ, then
884-917	S0 thru S9, then SA thru SZ, then
918-951	T0 thru T9, then TA thru TZ, then
952-985	U0 thru U9, then UA thru UZ, then
986-1019	V0 thru V9, then VA thru VZ, then
1020-1053	W0 thru W9, then WA thru WZ, then
1054-1087	X0 thru X9, then XA thru XZ, then
1088-1121	Y0 thru Y9, then YA thru YZ, then
1122-1155	Z0 thru Z9, then ZA thru ZZ

(ii) Three-position numbers.

Cumulative No. of Line Items	Serial Number Sequence
1-33	01 thru 009, then 00A thru 00Z, then
34-67	010 thru 019, then 01A thru 01Z, then
68-101	020 thru 029, then 02A thru 02Z, then
102-135	030 thru 039, then 03A thru 03Z and so on to
136-305	

306-339	090 thru 099, then 09A thru 09Z, then
340-373	0A0 thru 0A9, then 0AA thru 0AZ, then
374-407	0B0 thru 0B9, then 0BB thru 0BZ, then
408-441	0C0 thru 0C9, then 0CA thru 0CZ, and so on to
442-1121	0Z0 thru 0Z9, then 0ZA thru 0ZZ, then
1122-1155	100 thru 109, then 10A thru 10Z, then
1156-1189	110 thru 119, then 11A thru 11Z, then
1190-1223	120 thru 129, then 12A thru 12Z, and so on to
1224-1257	190 thru 199, then 19A thru 19Z, then
1258-1461	1A0 thru 1A9, then 1AA thru 1AZ, then
1462-1495	1B0 thru 1B9, then 1BA thru 1BZ, and so on to
1496-1529	1Z0 thru 1Z9, then 1ZA thru 1ZB, then
1530-1563	200 thru 109, then 10A thru 10Z, then
1564-2277	210 thru 219, then 21A thru 21Z, then
2278-2311	220 thru 229, then 22A thru 22Z, and so on to
2312-2345	290 thru 299, then 29A thru 29Z, then

PGI 204.7107 Contract accounting classification reference number (ACRN) and agency accounting identifier (AAI).

(a) Establishing the contract ACRN.

(1) The contracting office issuing the contract is responsible for assigning ACRNs. This authority shall not be delegated. If more than one office will use the contract (e.g., ordering officers, other contracting officers), the contract must contain instructions for assigning ACRNs.

(2) ACRNs shall be established in accordance with the following guidelines:

(i) Do not use the letters I and O.

(ii) In no case shall an ACRN apply to more than one accounting classification citation, nor shall more than one ACRN be assigned to one accounting classification citation.

(b) Establishing an AAI. An AAI, as detailed <http://www.acq.osd.mil/dpap/policy/policyvault/USA002246-09-DPAP.pdf>, is a six-digit data element that identifies a system in which accounting for specific funds is performed. The funding office will provide to the contracting office the AAI associated with the funding for each line item.

(c) Capturing accounting and appropriations data in procurement. Procurement instruments shall identify the funding used for the effort in one of two ways.

(1) In legacy system environments where the contracting and accounting processes are not sufficiently integrated to ensure use of the Procurement Instrument Identifiers (PIIDs) (see DFARS Subpart 204.16) and line item numbers as common keys, the contract shall include the accounting and appropriations data and ACRN as follows:

(i) Show the ACRN as a detached prefix to the accounting classification citation in the accounting and appropriations data block or, if there are too many accounting classification citations to fit reasonably in that block, in section G (Contract Administration Data).

(ii) ACRNs need not prefix accounting classification citations if the accounting classification citations are present in the contract only for the transportation officer to cite to Government bills of lading.

(iii) If the contracting officer is making a modification to a contract and using the same accounting classification citations, which have had ACRNs assigned to them, the modification need cite only the ACRNs in the accounting and appropriations data block or on the continuation sheets.

(iv) Showing the ACRN in the contract. If there is more than one ACRN in a contract, all the ACRNs will appear in several places in the schedule (e.g., ACRN: AA).

(A) Ship-to/mark-for block. Show the ACRN beside the identity code of each activity in the ship-to/mark-for block unless only one accounting classification citation applies to a line item or subline item. Only one ACRN may be assigned to the same ship-to/mark-for within the same contract line or subline item number unless multiple accounting classification citations apply to a single nonseverable deliverable unit such that the item cannot be related to an individual accounting classification citation.

(B) Supplies/services column.

(1) If only one accounting classification citation applies to a line item or a subline item, the ACRN shall be shown in the supplies/services column near the item description.

(2) If more than one accounting classification citation applies to a single contract line item, identify each assigned ACRN and the amount of associated funds using informational subline items (see DFARS [204.7104-1\(a\)](#)).

(2) The contract shall include AAIs and ACRNs in system environments where the accounting systems are able to use PIIDs and line item numbers as common keys to enable traceability of funding to contract actions. Include AAIs and ACRNs as follows:

(i) Showing the ACRN in the contract. If there is more than one ACRN in a contract, all the ACRNs will appear in several places in the schedule (e.g., ACRN: AA).

(A) Ship-to/mark-for block. Show the ACRN beside the identity code of each activity in the ship-to/mark-for block unless only one accounting classification citation applies to a line item or subline item. Only one ACRN may be assigned to the same ship-to/mark-for within the same contract line or subline item number unless multiple accounting classification citations apply to a single nonseverable deliverable unit such that the item cannot be related to an individual accounting classification citation.

(B) Supplies/services column.

(1) If only one accounting classification citation applies to a line item or a subline item, the ACRN shall be shown in the supplies/services column near the item description.

(2) If more than one accounting classification citation applies to a single contract line item, identify each assigned ACRN and the amount of associated funds using informational subline items (see DFARS [204.7104-1\(a\)](#)).

(ii) Showing the AAI in the contract. If there is more than one AAI in a contract, show the AAI in the supplies/services column of the Schedule next to the ACRN. A sample showing the AAI is as follows:

ITEM NO	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0002	BRU-32 B/A Ejector Bomb Rack	23	Each	\$22,206.00	\$510,738.00

MILSTRIP: N0001906P7PM230

PURCHASE REQUEST NUMBER: 0010144885-0001

ACRN: AA

AAI: 050119

PGI 204.7108 Payment instructions.

(a) *Scope.* This section applies to contracts and orders that are funded by multiple accounting classification reference number (ACRN) citations and—

(1) Include deliverable line items or deliverable subline items (see FAR 4.1005-1) that are funded by multiple ACRNs; or

(2) Authorize financing payments.

(b) For contracts and orders covered by this subpart—

(1) The contracting officer shall insert the table at paragraph (b)(2), or a link to the table at (b)(2) (https://www.acq.osd.mil/dpap/dars/pgi/pgi_hm/current/PGI204_71.htm#payment_instructions) in Section G of the contract, or equivalent. When some, but not all, of the fixed-price line items in a contract are subject to contract financing payments, the contracting officer shall clearly identify to which line items the payment clause(s) included in Section I of the contract apply.

(2) The payment office shall allocate and record the amounts paid from the ACRNs in the contract using the table in this paragraph (b)(2) based on the type of payment request submitted (see DFARS [252.232-7006](#)) and the type of effort identified by the Product Service Code for each deliverable line item or subline item (see FAR 4.1005-1).

For Government Use Only					
Contract/Order Payment Clause	Type of Payment Request	Supply	Service	Construction	Payment Office Allocation Method
52.212-4 (Alt I), Contract Terms and Conditions—Commercial Products and Commercial Services; 52.216-7, Allowable Cost and Payment; 52.232-7, Payments Under Time-and-Materials and Labor-Hour Contracts	Cost Voucher	X	X	N/A	Line item specific proration. If there is more than one ACRN within a deliverable contract line item, the funds will be allocated in the same proportion as the amount of funding currently unliquidated for each ACRN on the line item billed.
52.232-1, Payments; 252.217-7007, Payments (vessel repair and alterations)	Navy Shipbuilding Invoice (Fixed Price)	X	X	N/A	Line item specific by fiscal year. If there is more than one ACRN within a deliverable line or deliverable subline item, the funds will be allocated using the oldest funds first. In the event of a deliverable line or deliverable subline item with two or more ACRNs with the same fiscal year, those amounts will be prorated to the available unliquidated funds for that year.

For Government Use Only					
Contract/Order Payment Clause	Type of Payment Request	Supply	Service	Construction	Payment Office Allocation Method
52.232-1, Payments; 52.232-2, Payments under Fixed-Price Research and Development Contracts; 52.232-3, Payments under Personal Services Contracts; 52.232-4, Payments under Transportation Contracts and Transportation-Related Services Contracts; and 52.232-6, Payments under Communication Service Contracts with Common Carriers	Invoice	X	X	N/A	Line item specific proration. If there is more than one ACRN within a deliverable line item or deliverable subline item, the funds will be allocated in the same proportion as the amount of funding currently unliquidated for each ACRN on the deliverable line or deliverable subline item for which payment is requested.
52.232-5, Payments Under Fixed-Price Construction Contracts	Construction and Facilities Management Invoice	N/A	N/A	X	Line item specific by fiscal year. If there is more than one ACRN within a deliverable line or deliverable subline item, the funds will be allocated using the oldest funds first. In the event of a deliverable line or deliverable subline item with two or more ACRNs with the same fiscal year, those amounts will be prorated to the available unliquidated funds for that year.
52.232-16, Progress Payments (excluding contracts with multiple lot progress payments)	Progress Payment*	X	X	N/A	Contract-wide proration. Funds shall be allocated in the same proportion as the amount of funding currently unliquidated for each ACRN. Progress payments are considered contract level financing, and the “contract price” shall reflect the fixed-price portion of the contract per FAR 32.501-3.

For Government Use Only					
Contract/Order Payment Clause	Type of Payment Request	Supply	Service	Construction	Payment Office Allocation Method
52.232-16, Progress Payments 252.232-7018, Progress Payments- Multiple Lots	Progress Payment*	X	X	N/A	Lot-wide proration (applies to lots specifically identified in the contract). If there is more than one ACRN within a lot, the funds will be allocated in the same proportion as the amount of funding currently unliquidated for each ACRN on the lot for which payment is requested. See paragraph (c) of this section for multiple lot CLIN structure.
52.232-29, Terms for Financing of Purchases of Commercial Products and Commercial Services;; 52.232-30, Installment Payments for Commercial Products and Commercial Services	Commercial Product and Commercial Service; Financing*	X	X	N/A	Specified in approved payment. The contracting officer shall specify the amount to be paid and the account(s) to be charged for each payment approval in accordance with FAR 32.207(b)(2).
52.232-32, Performance-Based Payments	Performance-Based Payments*	X	X	N/A	Specified in approved payment. The contracting officer shall specify the amount to be paid and the account(s) to be charged for each payment approval in accordance with FAR 32.1007(b)(2).
252.232-7002 , Progress Payments for Foreign Military Sales Acquisitions	Progress Payment*	X	X	N/A	Allocate costs among line items and countries in a manner acceptable to the Administrative Contracting Officer.

For Government Use Only					
Contract/Order Payment Clause	Type of Payment Request	Supply	Service	Construction	Payment Office Allocation Method
*Liquidation of Financing Payments. Liquidation will be applied by the payment office against those ACRNs which are identified by the payment instructions for the delivery payment and in keeping with the liquidation provision of the applicable contract financing clause (i.e., progress payment, performance-based payment, or commercial product and commercial service financing).					

(c) The following example illustrates a contract with multiple lots. Note that each lot is specifically identified in Section B of the Schedule in the event lot-wide proration will be used in accordance with DFARS 252.232-7018, Progress Payments-Multiple Lots. Note also that cost-reimbursement line items are not included in the request for progress payment.

Section B – Supplies or services and prices/costs.

ITEM NO.	SUPPLIES/ SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
	Lot 1 (FYXX)				
0001	Lot 1 ABC Vehicle (FFP)

PGI 204.72 -CONTRACTOR IDENTIFICATION

No Current PGI Text.

This page intentionally left blank.

PGI 204.73 -SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING

PGI 204.7303 Procedures.

PGI 204.7303-1 General.

(a) The contracting officer will be notified by the requiring activity when a solicitation is expected to result in a contract, task order, or delivery order that will involve—

- (1) Covered defense information; or
- (2) Operationally critical support.

(b) The contracting officer shall—

(1) Ensure that the requiring activity provides a work statement or specification that includes the identification of covered defense information or operationally critical support consistent with paragraph (a).

(2) Ensure that the solicitation and resultant contract, task order, or delivery order includes the requirement (such as a contract data requirements list), as provided by the requiring activity, for the contractor to apply markings, when appropriate, on covered defense information.

PGI 204.7303-2 Safeguarding controls and requirements.

(a) When an offeror proposes to vary from any of the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations,” in accordance with paragraph (c)(2) of the solicitation provision at DFARS [252.204-7008](#), or in accordance with paragraphs (b)(2)(ii)(B) of DFARS clause [252.204-7012](#), the contracting officer shall submit the offeror’s explanation of the proposed variance to the DoD Chief Information Officer via email at osd.dibcsia@mail.mil for adjudication.

(b) For additional information on safeguarding controls and requirements, see the Frequently Asked Questions document at http://www.acq.osd.mil/dpap/pdi/network_penetration_reporting_and_contracting.html.

PGI 204.7303-3 Cyber incident and compromise reporting.

(a) When a cyber incident is reported by a contractor, the DoD Cyber Crime Center (DC3) will send an unclassified encrypted email containing the cyber incident report to the contracting officer(s) identified on the Incident Collection Format (ICF). The DC3 may request the contracting officer send a digitally signed e-mail to DC3.

(1) The procuring contracting officer (PCO) shall notify the requiring activities that have contracts identified in the ICF. In cases where an administrative contracting officer (ACO) receives the cyber incident report, in lieu of the PCO, the ACO shall notify the PCO for each affected contract, who will then notify the requiring activity.

(2) In cases of cyber incidents involving multiple contracts, the DoD components will collaboratively designate a single contracting officer to coordinate additional actions required of the contractor, on behalf of the affected DoD components. The requiring activity will notify the contracting officer once a lead is designated.

(3) If the requiring activity requests an assessment of compliance with the requirements of the clause at DFARS [252.204-7012](#) related to the cyber incident, the contracting officer shall—

(i) Consult with the DoD component Chief Information Officer (CIO)/cyber security office;

(ii) Request a description of the contractor’s implementation of the security requirements in NIST SP 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (see <http://dx.doi.org/10.6028/NIST.SP.800-171>) in order to support evaluation of whether any of the controls were inadequate, or if any of the controls were not implemented at the time of the incident; and

(iii) Provide a copy of the assessment of contractor compliance to the requiring activity, the DoD CIO at osd.dibcsia@mail.mil, and the other contracting officers listed in the cyber incident report.

(b) When requested by the contractor, the contracting officer shall provide the contractor with the “Instructions for Malware Submission” document available at http://www.acq.osd.mil/dpap/pdi/docs/Instructions_for_Malware_Submission.docx. The contracting officer should never receive malicious software directly from the contractor.

(c) If the requiring activity requests access to contractor information or equipment, in accordance with DFARS [252.204-7012](#)(f), the contracting officer shall provide a written request to the contractor.

(d) For additional information on cyber incident reporting, see the Frequently Asked Questions document at http://www.acq.osd.mil/dpap/pdi/network_penetration_reporting_and_contracting.html.

PGI 204.7303-4 DoD damage assessment activities.

(a) Prior to initiating damage assessment activities, the contracting officer shall verify that any contract identified in the cyber incident report includes the clause at DFARS [252.204-7012](#). If the contracting officer determines that a contract identified in the report does not contain the clause, the contracting officer shall notify the requiring activity that damage assessment activities, if required, may be determined to constitute a change to the contract.

(b) In cases of cyber incidents involving multiple contracts, a single contracting officer will be designated to coordinate with the contractor regarding media submission (see [204.7303-3](#) (a)(2)).

(c) If the requiring activity requests the contracting officer to obtain media, as defined in DFARS [252.204-7012](#), from the contractor, the contracting officer shall—

(1) Provide a written request for the media;

(2) Provide the contractor with the “Instructions for Media Submission” document available at http://www.acq.osd.mil/dpap/dars/pgi/docs/Instructions_for_Submitting_Media.docx; and

(3) Provide a copy of the request to DC3, electronically via email at dcise@dc3.mil, and the requiring activity.

(d) If the contracting officer is notified by the requiring activity that media are not required, the contracting officer shall notify the contractor and simultaneously provide a copy of the notice to DC3 and the requiring activity.

(e) The contracting officer shall document the action taken as required by paragraph (c) or (d) of this section, in the contract file.

(f) Upon receipt of the contractor media, DC3 will confirm receipt in writing to the contractor and the requesting contracting officer.

(g) Once the requiring activity determines that the damage assessment activities are complete, the requiring activity will provide the contracting officer with a report documenting the actions taken to close out the cyber incident.

PGI 204.76 -SUPPLIER PERFORMANCE RISK SYSTEM

PGI 204.7603 Procedures.

The Supplier Performance Risk System (SPRS) provides item risk, price risk, and supplier risk assessment on end products and price risk and supplier risk assessment on services. SPRS provides item and price risk for end products using the material identifiers listed in paragraphs (a)(1)(i) through (v). SPRS also provides a supplier risk score for the contractor that provided the product or services. The contracting officer may consider item risk, price risk, and supplier risk assessments to determine the performance risk of the offeror or product and to assess the risk of ongoing contractor performance.

(a) *Item risk.*

(1) SPRS provides the contracting officer warnings and mitigation strategies for end products identified by military departments or defense agencies as high risk (due to diminishing manufacturing sources and material shortages, history of counterfeiting, etc.). End products are identified by one or more of the following material identifiers:

- (i) National Stock Number (NSN).
- (ii) Internet Blog Serial Number (IBSN).
- (iii) Universal Product Code (UPC).
- (iv) Global Standards 1 (GS1).
- (v) Manufacturer Commercial and Government Entity (CAGE) and part number.

(2) *Presolicitation.* For items identified as high risk in SPRS or by the requiring activity in purchase requests, the contracting officer shall mitigate this risk by including a clause that addresses first article approval or certificate of conformance in the solicitation or by applying other risk mitigation strategies.

(b) *Price risk.* SPRS provides the contracting officer warning of possible over- or under-payment risks based on historical purchase data.

(c) *Supplier risk.* SPRS provides the contracting officer a score for the assessment of the contractor's performance. The supplier risk score includes data associated with the contractor's quality and delivery data.

(d) *Evaluation of quotations or offers for supplies.* During the evaluation of the offers received for supplies or services that contain supplies, the contracting officer shall consider the risk assessments available in SPRS.

(e) *Award and documentation.*

(1) In determining a price fair and reasonable, the contracting officer shall review the price risk data provided in SPRS and follow the procedures at FAR [13.106](#) or [15.4](#) to make an award decision. In the event that price risk has been identified, the contracting officer shall perform further price analysis.

(2) In assessing offeror performance capabilities, the contracting officer shall review the supplier risk data provided in SPRS and tailor the contract oversight for risk. Mitigate supplier risk by—

(i) Including clauses to strengthen oversight (e.g., a clause that addresses first article testing or certificate of conformance); and

(ii) Removing discretionary clauses to recognize successful performance (e.g., a clause that addresses first article testing).

(3) The contracting officer shall document the contract file on any action taken as a result of information obtained from SPRS.

PGI PART 205 - PUBLICIZING CONTRACT ACTIONS

Sec.

PGI 205.1 - DISSEMINATION OF INFORMATION
PGI 205.102 Availability of solicitations.
PGI Availability of DoD solicitations.
205.102-70

PGI 205.2 - SYNOPSES OF PROPOSED CONTRACT ACTIONS
PGI 205.205 Special situations.
PGI 205.207 Preparation and transmittal of synopses.

This page intentionally left blank.

PGI 205.1 - DISSEMINATION OF INFORMATION

PGI 205.102 Availability of solicitations.

PGI 205.102-70 Availability of DoD solicitations.

(a) *Policy.* The Solicitation Module within the Procurement Integrated Enterprise Environment, accessible at <https://piee.eb.mil>, provides DoD a secure and auditable mechanism to request and receive proposals or quotes from industry.

(1) The Solicitation Module—

- (i) Provides a single face to industry for accessing DoD solicitations and attachments;
- (ii) Ensures time stamps for submissions are collected electronically, and records are retained in the contract file;
- (iii) Provides a means to upload very large and varied solicitation attachments;
- (iv) Provides the ability to restrict access to a limited group of identified offerors; and
- (v) Automatically posts the required synopsis or other presolicitation notice, solicitation, or combined synopsis and solicitation, as applicable, in the Governmentwide point of entry (<https://www.sam.gov>) in accordance with FAR subpart 5.2.

(b) *Procedures.* Effective October 1, 2026, unless an exception applies, contracting officers shall use the Solicitation Module for publishing unclassified solicitations and for receiving offers and quotes.

(1) Exceptions.

- (i) The Solicitation Module may be used, but is not required, for—
 - (A) Requests for offers or quotes when limiting competition to a single source;
 - (B) Actions using simplified acquisition procedures in accordance with FAR subpart 13.3;
 - (C) Actions using emergency acquisition flexibilities in accordance with FAR subpart 18.2; or
 - (D) Actions to be awarded outside the United States.
- (ii) The Solicitation Module may not be used for the following types of actions until the capability is developed in the Module:
 - (A) Broad agency announcements.
 - (B) Requests for offers or quotes for task orders or delivery orders under indefinite-delivery type contracts, blanket purchase agreements, or basic ordering agreements.

This page intentionally left blank.

PGI 205.2 - SYNOPSIS OF PROPOSED CONTRACT ACTIONS

PGI 205.205 Special situations.

(h) Notice regarding timely definitization of equitable adjustments for change orders under construction contracts. To obtain definitization data for requests for equitable adjustment to include in solicitations for construction contracts, access the PALT/Protest/REA Tracker module in the Procurement Integrated Enterprise Environment (PIEE) website at <https://piee.eb.mil>. Search the PALT/Protest/REA Tracker for the applicable military department or defense agency data and—

(i) If data exists, download the table and include it as an attachment to the solicitation notice in the Governmentwide point of entry (GPE); or

(ii) If no data exists, then include the following statement in the Description section of the solicitation notice: “No data is available regarding the timely definitization of equitable adjustments for change orders under construction contracts.” (See PGI 236.211(b)(2) for reporting data on definitization of equitable adjustments.)

(iii) Include a description of military department or defense agency policies or procedures, in addition to that outlined in FAR 43.204, that apply to definitization of equitable adjustments for change orders under construction contracts. This description may be provided in a notice by including an address of an agency-specific, publicly available website containing this information.

(iv) If the military department or defense agency does not have agency-specific procedures, include the following statement: “There are no agency-specific policies or procedures that apply to the definitization of equitable adjustments for change orders under construction contracts.”

PGI 205.207 Preparation and transmittal of synopses.

(a)(i) *Notice numbering.*

(1) For a particular procurement, when submitting notices at different stages of the acquisition (i.e., sources sought notice, pre-solicitation notice, award notice), ensure the solicitation number is entered exactly the same way in order to allow all to be retrieved when a search is performed.

(2) Use only alpha-numeric characters in the solicitation and award number data elements in the GPE. Do not include hyphens, slashes, or other special characters.

(d) *Special notices for small business events.* When advertising an event for small businesses, post a 'special notice' notice type and ensure the "title" data field begins with "Small Business Event". This will enable the public to easily search the GPE using the small business event calendar on the website.

PGI 206.000 Scope of part.

For information on various approaches that may be used to competitively fulfill DoD requirements, see the Office of the Under Secretary of Defense for Acquisition and Sustainment [Guidelines for Creating and Maintaining a Competitive Environment for Supplies and Services in the Department of Defense](#).

PGI 206.001 Reserved**PGI 206.001-70 Exception for prototype projects for follow-on production contracts.**

(b) The following documents provide additional information on other transaction agreements:

- (1) The DoD Other Transaction Guide (<https://aaf.dau.edu/aaf/ot-guide/>);
- (2) USD(A&S) Memorandum, titled Authority for Use of Other Transactions for Prototype Projects Under 10, United States Code, Section 2371b, dated November 20, 2018 (https://aaf.dau.edu/wp-content/uploads/2018/11/Authority-for-Use-of-Other-Transactions-for-Prototype-Projects-Under-10_....pdf); and
- (3) USD Joint Memorandum, titled Definitions and Requirements for Other Transactions Under Title 10, United States Code, Section 2371b, dated November 20, 2018 (https://aaf.dau.edu/wp-content/uploads/2018/11/Definitions-and-Requirements-for-Other-Transactions-Under-Title-10_USC_S....pdf).

PGI 206.1 - FULL AND OPEN COMPETITION**PGI 206.102 Use of competitive procedures.****PGI 206.102-70 Other competitive procedures.**

(b) Approval of the Under Secretary of Defense for Research and Engineering is required prior to the award of a contract resulting from a prize competition that exceeds \$10,000 (see 10 U.S.C. 4025(c)(3)). The contracting officer shall obtain the approval from the program office and include it in the contract file.

This page intentionally left blank.

PGI 206.2 - FULL AND OPEN COMPETITION AFTER EXCLUSION OF SOURCES

PGI 206.202 Establishing or maintaining alternative sources.

(b)(i) Include the following information, as applicable, and any other information that may be pertinent, in the supporting documentation:

- (A) The acquisition history of the supplies or services, including sources, prices, quantities, and dates of award.
- (B) The circumstances that make it necessary to exclude the particular source from the contract action, including

— (1) The reasons for the lack of or potential loss of alternative sources; e.g., the technical complexity and criticality of the supplies or services; and

(2) The current annual requirement and projected needs for the supplies or services.

(C) Whether the existing source must be totally excluded from the contract action or whether a partial exclusion is sufficient.

(D) The potential effect of exclusion on the excluded source in terms of loss of capability to furnish the supplies or services in the future.

(E) When FAR 6.202(a)(1) is the authority, the basis for—

(1) The determination of future competition; and

(2) The determination of reduced overall costs. Include, as a minimum, a discussion of start-up costs, facility costs, duplicative administration costs, economic order quantities, and life cycle cost considerations.

(F) When FAR 6.202(a)(2) is the authority—

(1) The current annual and mobilization requirements for the supplies or services, citing the source of, or the basis for, the data;

(2) A comparison of current production capacity with that necessary to meet mobilization requirements;

(3) An analysis of the risks of relying on the present source; and

(4) A projection of the time required for a new source to acquire the necessary facilities and achieve the production capacity necessary to meet mobilization requirements.

(ii) The following is a sample format for Determination and Findings citing the authority of FAR 6.202(a):

Determination and Findings Authority to Exclude a Source In accordance with 10 U.S.C. 3203(a)(1), it is my determination that the following contract action may be awarded using full and open competition after exclusion of _____*: (Describe requirement.) Findings The exclusion of _____* Alternate 1: will increase or maintain competition for this requirement and is expected to result in a reduction of \$_____ in overall costs for the present and future acquisition of these supplies or services. (Describe how estimate was derived.)
--

Alternate 2: is in the interest of national defense because it will result in having a supplier available for furnishing these supplies or services in case of a national emergency or industrial mobilization. (Explain circumstances requiring exclusion of source.)

Alternate 3: is in the interest of national defense because it will result in establishment or maintenance of an essential engineering, research or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center. (Explain circumstances requiring exclusion of source.)

* Identify source being excluded.

PGI 206.3 - OTHER THAN FULL AND OPEN COMPETITION

PGI 206.302 Circumstances permitting other than full and open competition.

PGI 206.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

(d) *Limitations.* When utilizing the authority at FAR 6.302-1, the contracting officer shall post a request for information or a sources sought notice, and shall include the results of this inquiry in the justification required by FAR 6.303. This requirement to post may be waived by the Head of the Contracting Activity, or designee. The waiver authority may not be delegated lower than a general or flag officer or a member of the Senior Executive Service.

PGI 206.302-2 Unusual and compelling urgency.

(b) *Application.* The circumstances under which use of this authority may be appropriate include, but are not limited to, the following:

- (i) Supplies, services, or construction needed at once because of fire, flood, explosion, or other disaster.
- (ii) Essential equipment or repair needed at once to—
 - (A) Comply with orders for a ship;
 - (B) Perform the operational mission of an aircraft; or
 - (C) Preclude impairment of launch capabilities or mission performance of missiles or missile support equipment.
- (iii) Construction needed at once to preserve a structure or its contents from damage.
- (iv) Purchase requests citing an issue priority designator under DoD Manual 4140.01, Volume 5, DoD Supply Chain Materiel Management Procedures: Delivery of Material, of 4 or higher, or citing “Electronic Warfare QRC Priority.”

PGI 206.303 Justifications.

PGI 206.303-2 Content.

- (b)(i) Justifications citing the authority at FAR 6.302-1 to permit the use of other than full and open competition, shall—
 - (A) Include the results of the request for information or sources sought notice posted in accordance with PGI [206.302-1](#) (unless the requirement to post has been waived); and
 - (B) For non-competitive follow-on acquisitions of supplies or services previously awarded on a non-competitive basis, include a copy of the previous justification to assist the approval authority in determining whether the planned actions to remove any barriers to competition cited on the previous justification were completed.

PGI 206.304 Approval of the justification.

- (a)(S-70) For a non-competitive follow-on to a previous award for the same supply or service supported by a justification for other than full and open competition citing the authority at FAR 6.302-1—
 - (i) The justification shall include a copy of the previous justification to assist the approval authority in determining whether the planned actions to remove any barriers to competition cited on the previous justification were completed; and
 - (ii) The approval authority shall determine whether the planned actions were completed. If the actions were not completed, the justification for the follow-on acquisition shall be approved by the approval authority one-level above the approval authority for the previous justification (see FAR 6.304). If the previous justification was approved by the Senior Procurement Executive (SPE), the approval remains at the SPE level.

PGI 206.305 Availability of the justification.

See OUSD(A&S) DPAP memorandum, “Noncompetitive Contracts Awarded Based on Urgency,” dated April 13, 2015, for further guidance on the justification and approval documents required for contracts awarded using the unusual and compelling urgency exception.

PGI 207.108	Additional requirements for telecommuting.	PGI 207.470	Statutory requirements.
PGI 207.171	Component breakout.	PGI 207.5	-INHERENTLY GOVERNMENTAL FUNCTIONS
PGI	Procedures.	PGI 207.503	Policy.
207.171-4			

This page intentionally left blank.

PGI 207.1 -ACQUISITION PLANS

PGI 207.103 Agency-head responsibilities.

(h) Submit acquisition plans for procurement of conventional ammunition to—
Joint Program Executive Office Armaments and Ammunition
ATTN: SFAE-AA
Building 1
Picatinny Arsenal, NJ 07806-5000
Telephone: Commercial 973-724-7101; DSN 880-7101
Email: usarmy.pica.peo-ammo.list.zjs-section-806@mail.mil

PGI 207.105 Contents of written acquisition plans.

For acquisitions covered by DFARS [207.103](#)(d)(i)(A) and (B), correlate the plan to the DoD Future Years Defense Program, applicable budget submissions, and the decision coordinating paper/program memorandum, as appropriate. It is incumbent upon the planner to coordinate the plan with all those who have a responsibility for the development, management, or administration of the acquisition. The acquisition plan should be provided to the contract administration organization to facilitate resource allocation and planning for the evaluation, identification, and management of contractor performance risk.

(a) *Acquisition background and objectives.*

(1) *Statement of need.* Include—

(A) Applicability of an acquisition decision document, a milestone decision review, or a service review, as appropriate.

(B) The date approval for operational use has been or will be obtained. If waivers are requested, describe the need for the waivers.

(C) A milestone chart depicting the acquisition objectives.

(D) Milestones for updating the acquisition plan. Indicate when the plan will be updated. Program managers should schedule updates to coincide with DAB reviews and the transition from one phase to another (e.g., system development and demonstration to production and deployment).

(E) *Supplies and services.* To determine if acquisitions for supplies or services are covered by DFARS 208.7, acquisition officials shall use the AbilityOne Program Procurement List published by the Committee for Purchase From People Who Are Blind or Severely Disabled at http://www.abilityone.gov/procurement_list/index.html (see FAR 8.7).

(3)(i) Life-cycle cost. When acquiring tents or other temporary structures, consider total life-cycle costs in accordance with DFARS [215.101](#).

(8) *Acquisition streamlining.* See DoDD 5000.1, The Defense Acquisition System, and the Defense Acquisition Guidebook at <https://dag.dau.mil/Pages/Default.aspx>.

(b) *Plan of action.*

(2) *Competition.* For information on various approaches that may be used to competitively fulfill DoD requirements, see the Office of the Under Secretary of Defense for Acquisition and Sustainment Guidelines for Creating and Maintaining a Competitive Environment for Supplies and Services in the Department of Defense.

(4) *Acquisition considerations.* When supplies or services will be acquired by placing an order under a non-DoD contract (e.g., a Federal Supply Schedule contract), regardless of whether the order is placed by DoD or by another agency on behalf of DoD, address the method of ensuring that the order will be consistent with DoD statutory and regulatory requirements applicable to the acquisition and the requirements for use of DoD appropriated funds.

(5) *Budgeting and funding.* Include specific references to budget line items and program elements, where applicable, estimated production unit cost, and the total cost for remaining production.

(6) *Product or service descriptions.* For development acquisitions, describe the market research undertaken to identify commercial products or commercial services, commercial products or commercial services with modifications, or nondevelopmental items other than commercial products (see FAR Part 10) that could satisfy the acquisition objectives.

(14) *Logistics considerations.*

(i) Describe the extent of integrated logistics support planning, including total life cycle system management and performance-based logistics. Reference approved plans. See PGI 245.103-73 for information on reporting requirements for Government inventory held by contractors under sustainment contracts in accordance with DoD Manual 4140.01, Volume 6, DoD Supply Chain Materiel Management Procedures: Materiel Returns, Retention, and Disposition.

(ii)(1) Discuss the mission profile, reliability, and maintainability (R&M) program plan, R&M predictions, redundancy, qualified parts lists, parts and material qualification, R&M requirements imposed on vendors, failure analysis, corrective action and feedback, and R&M design reviews and trade-off studies. Also discuss corrosion prevention and mitigation plans.

(3)(iv) A department or agency requesting a waiver of any provisions of acquisition law or regulation to carry out the closeout procedures shall forward the request and any supporting documentation to the Office of the Principal Director, Defense Pricing and Contracting (Contract Policy) via email to osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil. The Principal Director, Defense Pricing, Contracting, and Acquisition Policy, will forward the request to USD(A&S), as appropriate.

(iii) For all acquisitions, see Subpart 227.71 regarding technical data and associated license rights, and Subpart 227.72 regarding computer software and associated license rights. For acquisitions involving major weapon systems and subsystems of major weapon systems, see the additional requirements at DFARS 207.106(S-70).

(iv) See DoD 4120.24-M, Defense Standardization Program (DSP) Policies and Procedures.

(S-70) Describe the extent of Computer-Aided Acquisition and Logistics Support (CALS) implementation (see MIL-STD-1840C, Automated Interchange of Technical Information).

(17) Environmental and energy conservation objectives.

(i) Discuss actions taken to ensure either elimination of or authorization to use class I ozone-depleting chemicals and substances (see DFARS Subpart 223.8).

(ii) Ensure compliance with DoDI 4715.23, Integrated Recycling and Solid Waste Management.

(20) Other considerations.

(A) National Technology and Industrial Base. For major defense acquisition programs, address the following (10 U.S.C. 4811(c))—

(1) An analysis of the capabilities of the national technology and industrial base to develop, produce, maintain, and support such program, including consideration of the following factors related to foreign dependency (10 U.S.C. 4816)—

(i) The availability of essential raw materials, special alloys, composite materials, components, tooling, and production test equipment for the sustained production of systems fully capable of meeting the performance objectives established for those systems; the uninterrupted maintenance and repair of such systems; and the sustained operation of such systems.

(ii) The identification of items specified in paragraph (b)(19)(A)(1)(i) of this section that are available only from sources outside the national technology and industrial base.

(iii) The availability of alternatives for obtaining such items from within the national technology and industrial base if such items become unavailable from sources outside the national technology and industrial base; and an analysis of any military vulnerability that could result from the lack of reasonable alternatives.

(iv) The effects on the national technology and industrial base that result from foreign acquisition of firms in the United States.

(2) Consideration of requirements for efficient manufacture during the design and production of the systems to be procured under the program.

(3) The use of advanced manufacturing technology, processes, and systems during the research and development phase and the production phase of the program.

(4) To the maximum extent practicable, the use of contract solicitations that encourage competing offerors to acquire, for use in the performance of the contract, modern technology, production equipment, and production systems (including hardware and software) that increase the productivity of the offerors and reduce the life-cycle costs.

(5) Methods to encourage investment by U.S. domestic sources in advanced manufacturing technology production equipment and processes through—

(i) Recognition of the contractor's investment in advanced manufacturing technology production equipment, processes, and organization of work systems that build on workers' skill and experience, and work force skill development in the development of the contract objective; and

(ii) Increased emphasis in source selection on the efficiency of production.

(6) Expanded use of commercial manufacturing processes rather than processes specified by DoD.

(7) Elimination of barriers to, and facilitation of, the integrated manufacture of commercial products or commercial services and items being produced under DoD contracts.

(8) Expanded use of commercial products or commercial services, commercial products or commercial services with modifications, or to the extent commercial products or commercial services that meet the agency's needs are not available, nondevelopmental items other than commercial products (see FAR part 10).

(9) Acquisition of major weapon systems as commercial products (see DFARS subpart [234.70](#)).

(B) *Industrial Capability (IC)*.

(1) Provide the program's IC strategy that assesses the capability of the U.S. industrial base to achieve identified surge and mobilization goals. If no IC strategy has been developed, provide supporting rationale for this position.

(2) If, in the IC strategy, the development of a detailed IC plan was determined to be applicable, include the plan by text or by reference. If the development of the IC plan was determined not to be applicable, summarize the details of the analysis forming the basis of this decision.

(3) If the program involves peacetime and wartime hardware configurations that are supported by logistics support plans, identify their impact on the IC plan.

(C) *Special considerations for acquisition planning for crisis situations*. Ensure that the requirements of DoD Instruction 1100.22, Policy and Procedures for Determining Workforce Mix, are addressed. Also—

(1) Acquisition planning must consider whether a contract is likely to be performed in crisis situations outside the United States and must develop appropriately detailed measures for inclusion in the contract. Combatant commanders establish operational plans identifying essential services that must continue during crisis. DoDI 1100.22 requires Combatant Commanders to develop contingency plans if they have a reasonable doubt that a contractor will continue to provide essential services during a mobilization or crisis. When planning the acquisition, consider these operational plans and the resources available to carry out these plans.

(2) During acquisition planning, identify which services have been declared so essential that they must continue during a crisis situation. A best practice is to create a separate section, paragraph, line, or other designation in the contract for these essential services so they can be tracked to an option or separate contract line item.

(3) The requirements for the contractor written plan for continuity of essential services and the criteria for assessing the sufficiency of the plan will be determined/tailored for each acquisition of essential services by the contracting officer in coordination with the functional manager. The contractor's written plan, including prices/cost, shall be considered and evaluated in conjunction with the technical evaluation of offers.

(4) Operational-specific contractor policies and requirements resulting from combatant commander "integrated planning" will be described in operation plans (OPLAN), operation orders (OPORD) or separate annexes, and must be incorporated into applicable contracts. The plans may include rules for theater entry, country clearance, use of weapons, living on-base, etc. Therefore, the requiring activity is responsible for obtaining pertinent OPLANs, OPORDs, and annexes (or unclassified extracts) from the affected combatant command or military service element or component and for ensuring that the contract is consistent with the theater OPLAN and OPORD.

(5) Ask the requiring activity to confirm that the appropriate personnel department has determined that inherently Governmental functions are not included in the contract requirements. If contract services will become inherently Governmental during a time of crisis, ensure that the contract states that work will be removed from the contract (temporarily or permanently) upon the occurrence of a triggering event (specified in the contract) or upon notice from the contracting officer that informs the contractor when its responsibility to perform affected duties will stop or restart. The contract should require the contractor to have a plan for restarting performance after the crisis ends.

(6) If the combatant commander's contingency plan requires military members to replace contractor employees during a crisis or contingency, acquisition planning must consider whether the contract should require the contractor to train military members to do that.

(7) For acquisitions that have or may have some portion of delivery of items or performance in a foreign country, address considerations and requirements set forth in DFARS [225.370](#), Contracts requiring performance or delivery in a foreign country; [225.371](#) , Contractor personnel supporting U.S. Armed Forces deployed outside the United States; [225.372](#) , Antiterrorism/force protection, and [225.373](#) , Contract administration in support of contingency operations.

(8) Contract administration planning considerations for contracts in support of contingency operations.

(i) When delegation of contract administration services to a contracting officer located in a different geographic area to support a contract for the delivery of items or performance in a joint operations area will or may occur, address the resourcing of contract administration and oversight personnel, including administrative contracting officers, quality assurance specialists, contract administrators, property administrators, and contracting officers' representatives.

(ii) If contract delivery of items or performance in support of contingency operations will or may occur in an austere, uncertain, or hostile environment, address the need for logistics support of contract administration and oversight personnel.

(iii) When some portion of contract delivery of items or performance may take place in a contingency area, address pertinent combatant commander or joint force commander requirements and considerations for contract administration. Such requirements will be maintained on the particular combatant commander operational contract support website, <https://www.acq.osd.mil/asda/dpc/cp/cc/aor.html>.

(iv) When contracts are awarded for performance in a contingency area, the head of the contracting activity is responsible for planning to ensure that contingency contracts will be closed in a timely manner considering personnel turnover and preaward, contract administration, and other contracting workload. A plan for reachback support of contract closeouts should be included, if required.

(9) For contracts that will incorporate the clause at DFARS [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, in accordance with DFARS [225.371-5\(a\)](#), or otherwise require accountability for contractor personnel, consider the requirements and resources necessary for both the Government and contractor to keep the Synchronized Predeployment and Operational Tracker (SPOT) current in accordance with the SPOT business rules available at the website provided at http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html.

(10) For contracts that will incorporate the clause at FAR 52.222-50, Combating Trafficking in Persons, consider the requirements and resources necessary for both the Government and contractor to implement and maintain compliance with Federal and DoD trafficking in persons requirements, including PGI [222.1703](#).

(D) *Software and software maintenance*. When acquiring software or software maintenance, see DFARS [212.212](#).

(E) *Procurement Support for Theater Security Cooperation Efforts*. When planning procurement support for theater security cooperation efforts (e.g., military exercises/training, base operations, weapons procurement, aviation fuels, construction, or the President's Emergency Plan for Aids Relief projects), planners should be aware that Department of State (DoS) missions (embassies and consulates) do not provide such contracting support; however, these missions can provide support for routine, non-complex services and supplies used by U.S. Government personnel, even if funded with foreign-military-sales case money (see DFARS PGI [225.78](#)). Planners shall take the following steps:

(1) Become familiar with DoS Cable 11 STATE 030953, "Procurement Roles and Responsibilities – General Services Officer and DoD Personnel" (see also DFARS PGI [225.78](#)).

(2) Request general guidance from the combatant-command coordinator on past practices in the particular location for which procurement support is to be requested;

(3) Contact the Defense Attaché Office and/or General Services Officer (normally the embassy/consulate contracting officer) at the DoS mission at least 60 days prior to the requirement, or as soon as practicable, to obtain information on—

(i) Availability of, and procedures associated with, requesting DoS mission procurement support;

(ii) Local sources of supplies and services; and

(iii) Business payment practices to support DoD procurement of specific theater security cooperation procurement requirements.

(4) Ascertain whether payment support is available from the DoS mission.

(5) When DoS contracting support is determined to be unavailable or not allowed, ensure the party of DoD military and/or civilians deploying to support the particular Theater Security Cooperation effort either pre-arranges DoD contracting support through reach-back, if possible, or if necessary, includes a warranted contracting officer, field-ordering officer, or credit-card holder, and, if necessary, a paying agent.

PGI 207.108 Additional requirements for telecommuting.

Contracting officers should avoid specifying unnecessarily restrictive places of performance, to the maximum extent practicable, in accordance with section 875 of the National Defense Authorization Act for Fiscal Year 2022.

PGI 207.171 Component breakout.

PGI 207.171-4 Procedures.

(1) *Responsibility*.

(i) Agencies are responsible for ensuring that—

(A) Breakout reviews are performed on components meeting the criteria in DFARS [207.171-3\(a\)](#) and (b);

- (B) Components susceptible to breakout are earmarked for consideration in future acquisitions;
- (C) Components earmarked for breakout are considered during requirements determination and appropriate decisions are made; and
- (D) Components are broken out when required.
- (ii) The program manager or other official responsible for the material program concerned is responsible for breakout selection, review, and decision.
- (iii) The contracting officer or buyer and other specialists (e.g., small business specialist, engineering, production, logistics, and maintenance) support the program manager in implementing the breakout program.
- (2) *Breakout review and decision.*
 - (i) A breakout review and decision includes—
 - (A) An assessment of the potential risks to the end item from possibilities such as delayed delivery and reduced reliability of the component;
 - (B) A calculation of estimated net cost savings (i.e., estimated acquisition savings less any offsetting costs); and
 - (C) An analysis of the technical, operational, logistics, and administrative factors involved.
 - (ii) The decision must be supported by adequate explanatory information, including an assessment by the end item contractor when feasible.
 - (iii) The following questions should be used in the decision process:
 - (A) Is the end item contractor likely to do further design or engineering effort on the component?
 - (B) Is a suitable data package available with rights to use it for Government acquisition? (Note that breakout may be warranted even though competitive acquisition is not possible.)
 - (C) Can any quality control and reliability problems of the component be resolved without requiring effort by the end item contractor?
 - (D) Will the component require further technical support (e.g., development of specifications, testing requirements, or quality assurance requirements)? If so, does the Government have the resources (manpower, technical competence, facilities, etc.) to provide such support? Or, can the support be obtained from the end item contractor (even though the component is broken out) or other source?
 - (E) Will breakout impair logistics support (e.g., by jeopardizing standardization of components)?
 - (F) Will breakout unduly fragment administration, management, or performance of the end item contract (e.g., by complicating production scheduling or preventing identification of responsibility for end item failure caused by a defective component)?
 - (G) Can breakout be accomplished without jeopardizing delivery requirements of the end item?
 - (H) If a decision is made to break out a component, can advance acquisition funds be made available to provide the new source any necessary additional lead time?
 - (I) Is there a source other than the present manufacturer capable of supplying the component?
 - (J) Has the component been (or is it going to be) acquired directly by the Government as a support item in the supply system or as Government-furnished equipment in other end items?
 - (K) Will the financial risks and other responsibilities assumed by the Government after breakout be acceptable?
 - (L) Will breakout result in substantial net cost savings? Develop estimates of probable savings in cost considering all offsetting costs such as increases in the cost of requirements determination and control, contracting, contract administration, data package purchase, material inspection, qualification or preproduction testing, ground support and test equipment, transportation, security, storage, distribution, and technical support.
 - (iv) If answers to the questions reveal conditions unfavorable to breakout, the program manager should explore whether the unfavorable conditions can be eliminated. For example, where adequate technical support is not available from Government resources, consider contracting for the necessary services from the end item contractor or other qualified source.
- (3) *Records.*
 - (i) The contracting activity shall maintain records on components reviewed for breakout. Records should evidence whether the components—
 - (A) Have no potential for breakout;
 - (B) Have been earmarked as potential breakout candidates; or
 - (C) Have been, or will be, broken out.
 - (ii) The program manager or other designated official must sign the records.
 - (iii) Records must reflect the facts and conditions of the case, including any assessment by the contractor, and the basis for the decision. The records must contain the assessments, calculations, and analyses discussed in paragraph 2 of this

section, including the trade-off analysis between savings and increased risk to the Government because of responsibility for Government-furnished equipment.

PGI 207.3 -CONTRACTOR VERSUS GOVERNMENT PERFORMANCE

PGI 207.302 Policy.

See the memorandum from Assistant Secretary of Defense (Manpower and Reserve Affairs) dated April 21, 2016, entitled “[Update on OMB Circular A-76 Public-Private Competition Prohibitions-FY 2016](#),” regarding the ongoing Governmentwide moratorium and restrictions on public-private competitions. The restrictions prohibit the conversion of any work currently performed (or designated for performance) by civilian personnel to contract performance.

PGI 208.002 Priorities for use of mandatory Government sources.

(a)(1)(i) The DLA Disposition Services Reutilization, Transfer, or Donation (RTD) Office maintains the DoD-wide inventory of available property. Information on available property in the DoD-wide inventory can be obtained by-

(A) Sending a request to the DLA Disposition Services RTD Office at: drmsrtd@dla.mil; or

(B) Searching the inventory on the DLA Disposition Service RTD website at <https://amps.dla.mil/oim>.

(ii) Information on gaining access to and searching for available property on the RTD website can be found at: <https://www.dla.mil/DispositionServices/DDSR/PropertySearch/PropertySearch/>.

(iii) General information on DLA Disposition Service's RTD Program can be found at: <https://www.dla.mil/DispositionServices/Offers/Reutilization.aspx>.

PGI 208.4 -FEDERAL SUPPLY SCHEDULES**PGI 208.405 Reserved****PGI 208.405-6 Limiting sources.**

For an order or blanket purchase agreement (BPA) exceeding the simplified acquisition threshold that is a follow-on to an order or BPA for the same supply or services previously issued based on a limiting sources justification citing the authority at FAR 8.405-6(a)(1)(i)(B) or (C)—

(1) The limited sources justification shall include a copy of the previous justification to assist the approval authority in determining whether the planned actions to remove any barriers that led to the restricted consideration cited on the previous justification were completed; and

(2) The approval authority shall determine whether the planned actions were completed. If the actions were not completed, the justification for the follow-on action must be approved by the approval authority one-level above the approval authority for the previous justification (see FAR 8.405-6(d)). If the previous justification was approved by the Senior Procurement Executive (SPE), the approval remains at the SPE level.

PGI 208.406 Ordering activity responsibilities.**PGI 208.406-1 Order placement.**

(1) When ordering from schedules, ordering offices—

(i) May use DD Form 1155, Order for Supplies or Services, to place orders for—

(A) Commercial products or commercial services at or below the simplified acquisition threshold; and

(B) Other than commercial products or commercial services at any dollar value (see PGI [213.307](#));

(ii) Shall use SF 1449, Solicitation/Contract/Order for Commercial Products and Commercial Services, to place orders for commercial products or commercial services exceeding the simplified acquisition threshold (see FAR 12.204); and

(iii) May use SF 1449 to place orders for other than commercial products or commercial services at any dollar value.

(2) Schedule orders may be placed orally if—

(i) The contractor agrees to furnish a delivery ticket for each shipment under the order (in the number of copies required by the ordering office). The ticket must include the—

(A) Contract number;

(B) Order number under the contract;

(C) Date of order;

(D) Name and title of person placing the order;

(E) Itemized listing of supplies or services furnished; and

(F) Date of delivery or shipment; and

(ii) Invoicing procedures are agreed upon. Optional methods of submitting invoices for payment are permitted, such as—

(A) An individual invoice with a receipted copy of the delivery ticket;

(B) A summarized monthly invoice covering all oral orders made during the month, with receipted copies of the delivery tickets (this option is preferred if there are many oral orders); or

(C) A contracting officer statement that the Government has received the supplies.

(3) For purchases where cash payment is an advantage, the use of imprest funds in accordance with DFARS [213.305](#) is authorized when—

- (i) The order does not exceed the threshold at FAR 13.305-3(a); and
- (ii) The contractor agrees to the procedure.
- (4) If permitted under the schedule contract, use of the Governmentwide commercial purchase card—
 - (i) Is mandatory for placement of orders valued at or below the micro-purchase threshold; and
 - (ii) Is optional for placement of orders valued above the micro-purchase threshold.

PGI 208.705 Procedures.

Ordering offices may use DD Form 1155, Order for Supplies or Services, to place orders with central nonprofit agencies.

**PGI 208.7 -ACQUISITIONFROM NONPROFIT AGENCIES
EMPLOYING PEOPLE WHO ARE BLIND OR SEVERELYDISABLED**

(See DFARS [208.7](#))

This page intentionally left blank.

PGI 208.70 -COORDINATED ACQUISITION

PGI 208.7002 Assignment authority.

PGI 208.7002-1 Acquiring department responsibilities.

The acquiring department generally is responsible under coordinated acquisition for—

- (1) Operational aspects of acquisition planning (phasing the submission of requirements to contracting, consolidating or dividing requirements, analyzing the market, and determining patterns for the phased placement of orders to avoid unnecessary production fluctuations and meet the needs of requiring departments at the lowest price);
- (2) Purchasing;
- (3) Performing or assigning contract administration, including follow-up and expediting of inspection and transportation; and
- (4) Obtaining licenses under patents and settling patent infringement claims arising out of the acquisition. (Acquiring departments must obtain approval from the department whose funds are to be charged for obtaining licenses or settling claims.)

PGI 208.7002-2 Requiring department responsibilities.

The requiring department is responsible for—

- (1) Ensuring compliance with the order of priority in FAR 8.001 for use of Government supply sources before submitting a requirement to the acquiring department for contracting action; and
- (2) Providing the acquiring department—
 - (i) The complete and certified documentation required by FAR 6.303-2(b). A requiring department official, equivalent to the appropriate level in FAR 6.304, must approve the documentation before submission of the military interdepartmental purchase request (MIPR) to the acquiring department;
 - (ii) Any additional supporting data that the acquiring department contracting officer requests (e.g., the results of any market survey or why none was conducted, and actions the requiring department will take to overcome barriers to competition in the future);
 - (iii) The executed determination and findings required by FAR 6.302-7(c)(1);
 - (iv) When a requiring department requests an acquiring department to contract for supplies or services using full and open competition after exclusion of sources, all data required by FAR 6.202(b)(2);
 - (v) When the requiring department specifies a foreign end product, any determinations required by DFARS Part 225 or FAR Part 25;
 - (vi) A complete definition of the requirements, including a list (or copies) of specifications, drawings, and other data required for the acquisition. The requiring department need not furnish Federal, military, departmental, or other specifications or drawings or data that are available to the acquiring department;
 - (vii) Justification required by FAR 17.205(a) for any option quantities requested;
 - (viii) A statement as to whether used or reconditioned material, former Government surplus property, or residual inventory will be acceptable, and if so—
 - (A) A list of any supplies that need not be new; and
 - (B) The basis for determining the acceptability of such supplies (see FAR 11.302(b));
 - (ix) A statement as to whether the acquiring department may exceed the total MIPR estimate and, if so, by what amount; and
 - (x) Unless otherwise agreed between the departments, an original and six copies of each MIPR and its attachments (except specifications, drawings, and other data).

PGI 208.7003 Applicability.

PGI 208.7003-1 Assignments under integrated materiel management (IMM).

(b) When an item assigned for IMM is to be acquired by the requiring activity under DFARS [208.7003-1\(a\)\(3\)](#), the contracting officer must—

- (i) Document the contract file with a statement of the specific advantage of local purchase for an acquisition exceeding the micro-purchase threshold in FAR Part 2; and

(ii) Ensure that a waiver is obtained from the IMM manager before initiating an acquisition exceeding the simplified acquisition threshold in FAR Part 2, if the IMM assignment is to the General Services Administration (GSA), the Defense Logistics Agency (DLA), or the Army Materiel Command (AMC). Submit requests for waiver—

PGI 208.7004 Procedures.

PGI 208.7004-1 Purchase authorization from requiring department.

(1) Requiring departments send their requirements to acquiring departments on either a DD Form 448, Military Interdepartmental Purchase Request (MIPR), or a DD Form 416, Requisition for Coal, Coke or Briquettes. A MIPR or a DD Form 416 is the acquiring department's authority to acquire the supplies or services on behalf of the requiring department.

(2) The acquiring department is authorized to create obligations against the funds cited in a MIPR without further referral to the requiring department. The acquiring department has no responsibility to determine the validity of a stated requirement in an approved MIPR, but it should bring apparent errors in the requirement to the attention of the requiring department.

(3) Changes that affect the contents of the MIPR must be processed as a MIPR amendment regardless of the status of the MIPR. The requiring department may initially transmit changes electronically or by some other expedited means, but must confirm changes by a MIPR amendment.

(4) The requiring department must submit requirements for additional line items of supplies or services not provided for in the original MIPR as a new MIPR. The requiring department may use a MIPR amendment for increased quantities only if

— (i) The original MIPR requirements have not been released for solicitation; and

(ii) The acquiring department agrees.

PGI 208.7004-2 Acceptance by acquiring department.

(1) Acquiring departments formally accept a MIPR by DD Form 448-2, Acceptance of MIPR, as soon as practicable, but no later than 30 days after receipt of the MIPR. If the 30 day time limit cannot be met, the acquiring department must inform the requiring department of the reason for the delay, and the anticipated date the MIPR will be accepted. The acquiring department must accept MIPRs in writing before expiration of the funds.

(2) The acquiring department in accepting a MIPR will determine whether to use Category I (reimbursable funds citation) or Category II (direct funds citation) methods of funding.

(i) Category I method of funding is used under the following circumstances and results in citing the funds of the acquiring department in the contract:

- (A) Delivery is from existing inventories of the acquiring department;
- (B) Delivery is by diversion from existing contracts of the acquiring department;
- (C) Production or assembly is through Government work orders in Government-owned plants;
- (D) Production quantities are allocated among users from one or more contracts, and the identification of specific quantities of the end item to individual contracts is not feasible at the time of MIPR acceptance;
- (E) Acquisition of the end items involves separate acquisition of components to be assembled by the acquiring department;
- (F) Payments will be made without reference to deliveries of end items (e.g., cost-reimbursement type contracts and fixed-price contracts with progress payment clauses); or
- (G) Category II method of funding is not feasible and economical.

(ii) Category II method of funding is used in circumstances other than those in paragraph (2)(i) of this subsection. Category II funding results in citation of the requiring department's funds and MIPR number in the resultant contract.

(3) When the acquiring departments accepts a MIPR for Category I funding—

(i) The DD Form 448-2, Acceptance of MIPR, is the authority for the requiring department to record the obligation of funds;

(ii) The acquiring department will annotate the DD Form 448-2 if contingencies, price revisions, or variations in quantities are anticipated. The acquiring department will periodically advise the requiring department, prior to submission of billings, of any changes in the acceptance figure so that the requiring department may issue an amendment to the MIPR, and the recorded obligation may be adjusted to reflect the current price;

(iii) If the acquiring department does not qualify the acceptance of a MIPR for anticipated contingencies, the price on the acceptance will be final and will be billed at time of delivery; and

(iv) Upon receipt of the final billing (SF 1080, Voucher for Transferring Funds), the requiring department may adjust the fiscal records accordingly without authorization from or notice to the acquiring department.

(4) When the MIPR is accepted for Category II funding, a conformed copy of the contract (see DFARS [204.802\(1\)\(ii\)](#)) is the authority to record the obligation. When all awards have been placed to satisfy the total MIPR requirement, any unused funds remaining on the MIPR become excess to the acquiring department. The acquiring department will immediately notify the requiring department of the excess funds by submitting an Acceptance of MIPR (DD Form 448-2). This amendment is authorization for the requiring department to withdraw the funds. The acquiring department is prohibited from further use of such excess funds.

(5) When the acquiring department requires additional funds to complete the contracting action for the requiring department, the request for additional funds must identify the exact items involved, and the reason why additional funds are required. The requiring department shall act quickly to—

- (i) Provide the funds by an amendment of the MIPR; or
- (ii) Reduce the requirements.

(6) The accepting activity of the acquiring department shall remain responsible for the MIPR even though that activity may split the MIPR into segments for action by other contracting activities.

PGI 208.7004-3 Use of advance MIPRs.

(1) An advance MIPR is an unfunded MIPR provided to the acquiring department in advance of the funded MIPR so that initial steps in planning the contract action can begin at an earlier date.

(2) In order to use an advance MIPR, the acquiring department and the requiring department must agree that its use will be beneficial. The departments may execute a blanket agreement to use advance MIPRs.

(3) The requiring department shall not release an advance MIPR to the acquiring department without obtaining proper internal approval of the requirement.

- (4) When advance MIPRs are used, mark "ADVANCE MIPR" prominently on the DD Form 448.
- (5) For urgent requirements, the advance MIPR may be transmitted electronically.
- (6) On the basis of an advance MIPR, the acquiring department may take the initial steps toward awarding a contract, such as obtaining internal coordination and preparing an acquisition plan. Acquiring departments may determine the extent of these initial actions but shall not award contracts on the basis of advance MIPRs.

PGI 208.7004-4 Cutoff dates for submission of Category II MIPRs.

- (1) Unless otherwise agreed between the departments, May 31 is the cutoff date for the receipt of MIPRs citing expiring appropriations which must be obligated by September 30 of that fiscal year. If circumstances arise that require the submission of MIPRs citing expiring appropriations after the cutoff date, the requiring department will communicate with the acquiring department before submission to find out whether the acquiring department can execute a contract or otherwise obligate the funds by the end of the fiscal year. Acquiring departments will make every effort to obligate funds for all such MIPRs accepted after the cutoff date. However, acceptance of a late MIPR does not constitute assurance by the acquiring department that all such funds will be obligated.
- (2) Nothing in these instructions is intended to restrict the processing of MIPRs when the acquiring department is capable of executing contracts or otherwise obligating funds before the end of the fiscal year.
- (3) The May 31 cutoff date does not apply to MIPRs citing continuing appropriations.

PGI 208.7004-5 Notification of inability to obligate on Category II MIPRs.

On August 1, the acquiring department will advise the requiring department of any Category II MIPRs on hand citing expiring appropriations it will be unable to obligate prior to the fund expiration date. If an unforeseen situation develops after August 1 that will prevent execution of a contract, the acquiring department will notify the requiring department as quickly as possible and will return the MIPR. The letter of transmittal returning the MIPR will authorize purchase by the requiring department and state the reason that the acquisition could not be accomplished.

PGI 208.7004-6 Cancellation of requirements.

- (1) Category I MIPRs. The requiring department will notify the acquiring department by electronic or other immediate means when cancelling all or part of the supplies or services requested in the MIPR. Within 30 days, the acquiring department will notify the requiring department of the quantity of items available for termination and the amount of funds in excess of the estimated settlement costs. Upon receipt of this information, the requiring department will issue a MIPR amendment to reduce the quantities and funds accordingly.
- (2) Category II MIPRs. The requiring department will notify the acquiring department electronically or by other immediate means when cancelling all or any part of the supplies or services requested in the MIPR.
 - (i) If the acquiring department has not entered into a contract for the supplies or services to be cancelled, the acquiring department will immediately notify the requiring department. Upon receipt of such notification, the requiring department shall initiate a MIPR amendment to revoke the estimated amount shown on the original MIPR for the cancelled items.
 - (ii) If the items to be cancelled have already been placed under contract—
 - (A) As soon as practicable, but in no event more than 45 days after receipt of the cancellation notice from the requiring department, the contracting officer shall issue a termination data letter to the requiring department (original and four copies) containing, as a minimum, the information in Table 8-1, Termination Data Letter.
 - (B) The termination contracting officer (TCO) will review the proceedings at least every 60 days to reassess the Government's probable obligation. If any additional funds are excess to the probable settlement requirements, or if it appears that previous release of excess funds will result in a shortage of the amount that will be required for settlement, the TCO will promptly notify the contracting office which will amend the termination data letter. The requiring department will process a MIPR amendment to reflect the reinstatement of funds within 30 days after receiving the amended termination data letter.
 - (C) Upon receipt of a copy of the termination settlement agreement, the requiring department will prepare a MIPR amendment, if required, to remove any remaining excess funds.

TABLE 8-1, TERMINATION DATA LETTER

SUBJECT:

Termination Data Re:

Contract No. _____ Termination
 No. _____
 Contract _____

(a) As termination action is now in progress on the above contract, the following information is submitted:

(1) Brief Description of items terminated.

(2) You are notified that the sum of \$ _____ is available for release under the subject contract. This sum represents the difference between \$ _____, the value of items terminated under the contract, and \$ _____, estimated to be required for settlement of the terminated contract. The estimated amount available for release is allocated by the appropriations cited on the contract as follows:

MIPR NO. _____ ACCOUNTING

CLASSIFICATION _____ AMOUNT _____

Total available for release at this time \$ _____

(b) Request you forward an amendment to MIPR _____ on DD Form 448-2 to reflect the reduced quantity and amount of funds available for release.

(c) Periodic reviews (not less than 60 days) will be made as termination proceedings progress to redetermine the Government's probable obligation.

 Contracting Officer

PGI 208.7004-7 Termination for default.

(1) When the acquiring department terminates a contract for default, it will ask the requiring department if the supplies or services to be terminated are still required so that repurchase action can be started.

(2) The requiring department will not deobligate funds on a contract terminated for default until receipt of a settlement modification or other written evidence from the acquiring department authorizing release of funds.

(3) On the repurchase action, the acquiring department will not exceed the unliquidated funds on the defaulted contract without receiving additional funds from the requiring department.

PGI 208.7004-8 Transportation funding.

The requiring department will advise the acquiring department or the transportation officer in the contract administration office of the fund account to be charged for transportation costs. The requiring department may cite the fund account on each MIPR or provide the funding cite to the transportation officer at the beginning of each fiscal year for use on Government bills of lading. When issuing a Government bill of lading, show the requiring department as the department to be billed and cite the appropriate fund account.

PGI 208.7004-9 Status reporting.

(1) The acquiring department will maintain a system of MIPR follow-up to inform the requiring department of the current status of its requests. In addition, the contract administration office will maintain a system of follow-up in order to advise the acquiring department on contract performance.

(2) If requested by the requiring department, the acquiring department will furnish the requiring department a copy of the solicitation when the MIPR is satisfied through Category II funding.

(3) Any reimbursement billings, shipping document, contractual documents, project orders, or related documentation furnished to the requiring department will identify the requiring department's MIPR number, quantities of items, and funding information.

PGI 208.7004-10 Administrative costs.

The acquiring department bears the administrative costs of acquiring supplies for the requiring department. However, when an acquisition responsibility is transferred to another department, funds appropriated or to be appropriated for administrative costs will transfer to the successor acquiring department. The new acquiring department must assume budget cognizance as soon as possible.

PGI 208.7006 Coordinated acquisition assignments.**PART 1 - ARMY ASSIGNMENTS**

Federal Supply Class Code	Commodity
1005 P*	Electronic Equipment Each department is assigned acquisition responsibility for those items which the department either designed or for which it sponsored development. See FSC 5821 under Navy listings for assignment of certain commercially developed radio sets (i.e., developed without the use of Government funds). Guns, through 30mm This partial assignment applies to guns, through 30mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Navy ordnance type guns; MK 11 and MK 12, 20mm gun; and aircraft gun mounts.
1010 P*	Guns, over 30mm up to 75mm This partial assignment applies to guns, over 30mm and up to 75mm, and parts and equipment therefor, as listed in Department of the Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type guns and aircraft gun mounts.
1015 P*	Guns, 75mm through 125mm This partial assignment applies to guns, 75mm through 125mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type guns.
1020 P*	Guns over 125mm through 150mm
1025 P*	Guns over 150mm through 200mm
1030 P*	Guns over 200mm through 300mm
1035 P*	Guns over 300mm These partial assignments apply to guns, over 125mm, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. They do not apply to Naval ordnance type guns.
1040	Chemical Weapons and Equipment
1055 P*	Launchers, Rocket and Pyrotechnic This partial assignment applies to launchers, rocket and pyrotechnic, as listed in Department of Army Supply Manuals/Catalogs does not apply to Naval ordnance type and airborne type, with the exception of 2.75 inch rocket launchers which are included in this partial FSC assignment to the Department of the Army.

Federal Supply Class Code	Commodity										
1090 P	Assemblies Interchangeable Between Weapons in Two or More Classes This partial assignment applies to the following items: National stock number nomenclature <table border="1"> <tr> <td>1090-563-7232</td><td>Staff Section, Class</td></tr> <tr> <td>1090-699-0633</td><td>Staff Section</td></tr> <tr> <td>1090-796-8760</td><td>Power Supply</td></tr> <tr> <td>1090-885-8451</td><td>Wrench Corrector</td></tr> <tr> <td>1090-986-9707</td><td>Reticle Assembly</td></tr> </table>	1090-563-7232	Staff Section, Class	1090-699-0633	Staff Section	1090-796-8760	Power Supply	1090-885-8451	Wrench Corrector	1090-986-9707	Reticle Assembly
1090-563-7232	Staff Section, Class										
1090-699-0633	Staff Section										
1090-796-8760	Power Supply										
1090-885-8451	Wrench Corrector										
1090-986-9707	Reticle Assembly										
("P" after the FSC number indicates a partial FSC assignment)											
1095 P*	Miscellaneous Weapons This partial assignment applies to miscellaneous weapons, and parts and equipment therefor, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type; line throwing guns (which are under DoD Coordinated Acquisition assignment to the Department of the Navy); and aircraft type miscellaneous weapons.										
1210 P*	Fire Control Directors										
1220 P*	Fire Control Computing Sights and Devices										
1230 P*	Fire Control Systems, Complete										
1240 P*	Optical Sighting and Ranging Equipment										
1250 P*	Fire Control Stabilizing Mechanisms										
1260 P*	Fire Control Designating and Indicating Equipment										
1265 P*	Fire Control Transmitting and Receiving Equipment, Except Airborne										
1285 P*	Fire Control Radar Equipment, Except Airborne										
1290 P*	Miscellaneous Fire Control Equipment The above nine partial FSC assignments apply to fire control equipment, as listed in Department of the Army Supply Manuals/Catalogs. They do not apply to Naval ordnance type and aircraft type.										
1305 P*	Ammunition, through 30mm This partial assignment applies to ammunition through 30mm as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type and ammunition for the MK 11 and MK 12, 20mm gun										

Federal Supply Class Code	Commodity
1310 P*	Ammunition, over 30mm up to 75mm This partial assignment applies to ammunition, over 30mm up to 75mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type and to 40mm ammunition (which is under DoD Coordinated Acquisition assignment to the Navy). The Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.
1315 P*	Ammunition, 75mm through 125mm This partial assignment applies to ammunition, 75mm through 125mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type. The Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.
1320 P*	Ammunition, over 125mm This partial assignment applies to ammunition over 125mm, as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Naval ordnance type. The Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions.
1325 P	Bombs This partial assignment applies to bombs as listed in Department of Army Supply Manuals/Catalogs. It does not apply to Navy assigned bombs as shown in list of assignments to the Navy; however, the Department of the Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions, and for other loading, assembling, and packing in excess of Navy owned capacity.
1330	Grenades

Federal Supply Class Code	Commodity
1340 P	Rockets and Rocket Ammunition This partial assignment applies to: 66mm Rocket, HEAT, M72 2.75" Rocket FFAR, Service and Practice Heads MK5 and Mods (HEAT) HE, M151 HE, XM229 (17 lb Warhead) HE, XM157 (Spotting Red) HE, XM158 (Spotting Yellow) MK61 Practice (5 lb Slug) XM230 Practice (10 lb) Motors MK4 and Mods (High Performance Aircraft) MK40 and Mods (Low Performance Aircraft) 3.5 inch Rocket Heat, M35 Practice, M36 Smoke, WP, M30 4.5 inch Motor, Drill, M24 HE, M32 Practice, M33 Incendiary and toxicological rockets, as listed in Army Supply Bulletins. It does not apply to Navy assigned rockets as shown in the list of assignments to the Navy. However, the Department of the Army is responsible for acquisition of filler and for filling of all smoke and toxicological rockets.
1345	Land Mines
1365	Military Chemical Agents
1370 P	Pyrotechnics This partial assignment does not apply to shipboard and aircraft pyrotechnics.
1375 P	Demolition Materials This partial assignment applies to Blasting Agents and supplies such as: Bangalore torpedo Blocks, demolition Caps, blasting, electric and nonelectric Charge, cratering Charge, shaped and demolition Chests, demolition platoon and squad Cord detonating Demolition equipment sets, with ancillary items Detonators, all types Dynamite Firing devices Fuze, safety Kit, demolition Lighter, fuse Machine, blasting Primer, percussion cap It does not apply to Navy underwater demolition requirements.

Federal Supply Class Code	Commodity
1376 P	Bulk Explosives This partial assignment applies to solid propellants and explosives such as: Ammonium Picrate (Explosive D) JAN-A-166A Trinitrotoluene (TNT) MIL-T-248A Tetryl JAN-T-339 Pentaerythrite Tetranitrate (PETN) JAN-P-387 RDX Composition B Composition B-3 Pentolite, 50 Composition C-3 Composition A-3 Composition A-4 Nitroguanidine (Picrate) It does not apply to production capacity for any of the above listed explosives at the U.S. Naval Propellant Plant, Indian Head, Maryland.
1377 P	Cartridge and Propellant Actuated Devices and Components This partial assignment is reserved pending Services agreement as to items to be included in the assignment.
1380	Military Biological Agents
1390 P*	Fuzes and Primers This partial assignment applies to Fuzes and Primers for Army assigned ammunition. It does not apply to Naval ordnance type, which is under DoD Coordinated Acquisition assignment to the Department of the Navy; and guided missile fuzes.
2210	Locomotives
2220	Rail Cars
2240	Locomotive and Rail Car Accessories and Components
2250	Track Materials, Railroad
2310 P	Passenger Motor Vehicles
2320 P	Trucks and Truck Tractors These two partial assignments apply to tactical vehicles and the following types of vehicles: Bus, convertible to ambulance Truck, 4 x 4, convertible to ambulance Truck 4 x 4 dump, 9,000 GVW, with cut-down cab These assignments do not apply to tracked landing vehicles which are not under DoD Coordinated Acquisition assignment, and airport crash rescue vehicles, which are under DoD Coordinated Acquisition assignment to the Department of the Air Force. With the exception of the types enumerated above, these assignments do not apply to commercial, non-tactical, passenger carrying vehicles and trucks which are assigned for DoD Coordinated Acquisition to the General Services Administration.

Federal Supply Class Code	Commodity
2330 P	Trailers This partial assignment does not apply to two wheel lubrication trailers, two wheel steam cleaning trailers, and troop transporter semitrailers which are not under DoD Coordinated Acquisition assignment, and airport crash rescue trailer units which are under DoD Coordinated Acquisition assignment to the Department of the Air Force.
2340 P	Motorcycles, Motor Scooters, and Bicycles This partial assignment does not apply to bicycles and tricycles.
2350	Tanks and Self-propelled Weapons
2430	Tractors, Track Laying, High-Speed
2510 P**	Vehicular Cab, Body, and Frame Structural Components
2520 P**	Vehicular Power Transmission Components
2530 P**	Vehicular Brake, Steering, Axle, Wheel, and Track Components
2540 P**	Vehicular Furniture and Accessories
2590 P**	Miscellaneous Vehicular Components
2610	Tires and Tubes, Pneumatic, except Aircraft
2630	Tires, solid and cushion
2640	Tire Rebuilding and Tire and Tube Repair Materials
2805 P**	Gasoline Reciprocating Engines, except Aircraft and Components
2910 P**	Engine Fuel System Components, Nonaircraft
2920 P**	Engine Electrical System Components, Nonaircraft
2930 P**	Engine Cooling System Components, Nonaircraft
2940 P**	Engine Air and Oil Filters, Strainers and Cleaners, Nonaircraft
2990 P**	Miscellaneous Engine Accessories, Nonaircraft
4210 P	Fire Fighting Equipment This partial assignment applies only to equipment developed by or under the sponsorship of the Department of the Army.
4230 P	Decontaminating and Impregnating Equipment This partial assignment applies only to items peculiar to chemical warfare.
4240 P	Safety and Rescue Equipment This partial assignment applies only to military respiratory protective equipment for chemical warfare.
5805 P	Telephone and Telegraph Equipment This partial assignment applies only to military (wire) equipment, field type.
5815 P	Teletype and Facsimile Equipment This partial assignment applies only to military (wire) equipment, field type.

Federal Supply Class Code	Commodity
5830 P	Intercommunication and Public Address Systems; except Airborne This partial assignment applies only to military (wire) equipment, field type.
6135 P	Batteries, Primary This partial assignment applies to MIL type, dry cell batteries, only.
6625 P	Electrical and Electronic Properties Measuring and Testing Instruments This partial assignment applies only to instruments for testing military (wire) equipment, field type.
6645 P	Time Measuring Instruments This partial assignment applies to the following watches; aircraft instrument panel clocks; cases and spare parts therefor: Master navigation watches; pocket watches; stop watches; second setting wrist watches; wrist watches; athletic timers; aircraft clocks; aircraft panel clocks; mechanical aircraft clocks; navigation watch cases; pocket watch cases; watch holders; watch case assemblies and watch movements.
6660 P	Meteorological Instruments and Apparatus Each department is assigned acquisition responsibility for those systems, instruments and end items in FSC 6660 which the department either designed or sponsored development. For purposes of this assignment, the developing department is the department which awarded the developmental contract, notwithstanding that other departments may have provided funds for the development.
6665 P	Hazard-Detecting Instruments and Apparatus This partial assignment applies only to items peculiar to chemical warfare.
6695 P	Combination and Miscellaneous Instruments This partial assignment applies to jewel bearings only.
6820 P	Dyes This partial assignment applies only to items peculiar to chemical warfare.
6910 P	Training Aids This partial assignment applies only to items peculiar to Army assignments under weapons, fire control equipment, ammunition and explosives, and chemical and biological warfare.
6920 P	Armament Training Devices This partial assignment applies to armament training devices as listed in Department of Army Catalogs SC 6910, ML/IL and SC 6920 ML/IL. It does not apply to clay pigeons in Department of Army Catalogs SC 6910, ML/IL and SC 6920 ML/IL. It does not apply to clay pigeons.
6940 P	Communication Training Devices This partial assignment applies only to code training sets, code practice equipment, and other telephone and telegraph training devices.
8130 P	Reels and Spools This partial assignment applies only to reels and spools for military (wire) equipment, field type.

Federal Supply Class Code	Commodity
8140 P	Ammunition Boxes, Packages, and Special Containers This partial assignment applies only to boxes, packages, and containers peculiar to Army assignments under ammunitions, explosives, and chemical and biological warfare as listed in Department of Army Catalog SC 8140 IL and SC 8140 ML.

*For contracting purposes, Naval ordnance comprises all arms, armor, and armament for the Department of the Navy and includes all offensive and defensive weapons, together with their components, controlling devices and ammunition used in executing the Navy's mission in National Defense (except small arms and those items of aviation ordnance acquired from the Army).

**These partial FSC assignments apply only to repair parts peculiar to combat and tactical vehicles. In addition, the assignment in FSC 2805 applies to military standard engines 1.5 HP through 20 HP and parts peculiar therefor. Balance of these FSCs are assigned to the

Defense Logistics Agency (DLA Land and Maritime)

PART 2 - NAVY ASSIGNMENTS

Federal Supply Class Code	Commodity
	Electronic Equipment Each department is assigned acquisition responsibility for those items which the department either designed or sponsored development. See FSC 5821 for assignment of certain commercially developed radio sets to the Department of the Navy (i.e., developed without the use of Government funds).
1095 P	Miscellaneous Weapons This partial assignment applies to line throwing guns only.
1310 P	Ammunition, over 30mm up to 75mm This partial assignment applies only to reels and spools for military.
1325 P	Bombs This partial assignment applies to armor-piercing; depth bombs; externally suspended low drag bombs; and components and practice bombs therefor, as listed in Ord Pamphlets, and the MK 43, Target Detecting Device. The Department of the Army is responsible for the acquisition of fillers and the loading, assembling, and packing of toxicological, incapacitating riot control, smoke and incendiary munitions, and for other loading, assembling, and packing in excess of Navy-owned capacity.

Federal Supply Class Code	Commodity
1340 P	Rockets and Rocket Ammunition This partial assignment applies to: Fuze, Rocket, V.T., MK93-0 2.25 inch Rocket SCAR, Practice Heads MK3 and Mods Motors MK15 and Mods MK16 and Mods 5 inch Rocket HVAR, service and practice Heads MK2 and Mods (common) MK6 and Mods (GP) MK4 and Mods (smoke) MK25 and Mods (ATAR) Motors MK10 and Mods 5 inch Rocket FFAR service and practice Heads MK24 and Mods (General Purposes) MK32 and Mods (Shaped Charged) MK26 and Mods (Illum) Motor MK16 and Mods The Department of the Army is responsible for acquisition of filler and for filling of all smoke and toxicological rockets.
1390 P	Fuzes and Primers This partial assignment applies to fuzes and primers for Navy assigned ammunition.
1550 P	Drones This partial assignment applies only to Drone, Model BQM34E.
("P" after the FSC number indicates a partial FSC assignment).	
1905 P	Combat Ships and Landing Vessels This partial assignment applies to landing vessels only.
1910 P	Transport Vessels, Passenger and Troop This partial assignment applies to ferryboats only.
1920	Fishing Vessels
1925	Special Service Vessels
1930	Barges and Lighters, Cargo
1935 P	Barges and Lighters, Special Purpose This partial assignment does not apply to derricks, pile drivers, rock cutters, concrete mixing plants, mechanical bank grader barges, other bank revetment barges, and barge power plants.
1940	Small Craft

Federal Supply Class Code	Commodity
1945 P	Pontoons and Floating Docks This partial assignment applies only to Naval Facilities Engineering Command type pontoons.
1950	Floating Drydocks
1990 P	Miscellaneous Vessels This partial assignment applies to commercial sailing vessels only.
2010	Ship and Boat Propulsion Components
2020	Rigging and Rigging Gear
2030	Deck Machinery
2040	Marine Hardware and Hull Items
2060	Commercial Fishing Equipment
2090	Miscellaneous Ship and Marine Equipment
2820 P	Steam Engines, Reciprocating and Components This partial assignment applies to marine main propulsion steam engines only.
2825 P	Steam Turbines and Components This partial assignment applies to marine steam turbines only.
4210 P	Fire Fighting Equipment This partial assignment applies only to fire fighting equipment developed by or under the sponsorship of the Department of Navy.
4410 P	Industrial Boilers This partial assignment applies only to boilers for use aboard those ships assigned to the Navy for coordinated acquisition.
4420 P	Heat Exchangers and Steam Condensers This partial assignment applies only to heat exchangers for use aboard those ships assigned to the Navy for coordinated acquisition.
4925 P	Ammunition Maintenance and Repair Shop Specialized Equipment This partial assignment applies to sets, kits, and outfits of tools and equipment for explosive ordnance as defined in military service regulations and documents.

Federal Supply Class Code	Commodity
5821 P	Radio and Television Communication Equipment, Airborne This partial assignment applies only to the following commercially developed radio sets. (The term “commercially developed” means that no Government funds were provided for development purposes.) HF-101, 102, 103, 104, 105, 106, 107, 108, 109, 111, 113, ARC-94, 102, 105, 110, 112, 119, 120; MRC-95, 108; VC-102, 104, 105, 106, 109, 110; and components of the foregoing including the 490T antenna coupler.
6125 P	Converters, Electrical, Rotating This partial assignment applies only to motor-generated sets for use aboard ships assigned to the Navy for coordinated acquisition.
6320 P	Shipboard Alarm and Signal System This partial assignment applies only to alarm systems, fire alarm systems, indicating systems, telegraph systems (signal and signaling) (less electronic type) for use aboard ships assigned to the Navy for coordinated acquisition.
6605 P	Navigational Instruments This partial assignment applies only to lifeboat and raft compasses, aircraft sextants, hand leads (soundings), lead reels, sounding machines and pelorus stands for use aboard ships assigned to the Navy for coordinated acquisition.
6645 P	Time Measuring Instruments This partial assignment applies to the following instruments, cases, and spare parts therefor: Chronometers including gimbal, padded, and make break circuit Clocks, alarm, boat, deck, direct reading, electrical, floor, interval timer, marine, mechanical, master control, master program, master regulating, mechanical message center, nurses, program, shelf, stop, wall, watchman's Counters, time period Meters, engine running time, hour recording, and electrical time totalizing Timers; bombing, engine hours, sequential, stop, and program Program control instrument Cases; chronometer, including gimbal and padded, chronometer carrying; makebreak circuit chronometer Cans, chronometer shipping and storage Clock keys; clock movements, clock motors
6650 P	Optical Instruments This partial assignment applies only to stands, telescope, for use aboard ships assigned to the Navy for coordinated acquisition.

Federal Supply Class Code	Commodity
6660 P	Meteorological Instruments and Apparatus Each department is assigned acquisition responsibility for those systems, instruments, and end items in FSC 6660 for which the department either designed or sponsored development. For purposes of this assignment, the developing department is the department which awarded the developmental contract, notwithstanding that other departments may have provided funds for the development.
6665 P	Hazard-Detecting Instruments and Apparatus This partial assignment applies only to hazard determining safety devices, for use aboard ships assigned to the Navy for coordinated acquisition.
8140 P	Ammunition Boxes, Packages, and Special Containers This partial assignment applies only to boxes, packages, and containers for 40mm ammunition.

PART 3 - AIR FORCE ASSIGNMENTS

Federal Supply Class Code	Commodity
	Electronic Equipment Each department is assigned acquisition responsibility for those items which the department either designed or sponsored development. See FSC 5821 under Navy listing for assignment of certain commercially developed radio sets (i.e., developed without the use of Government funds).
1550 P	Drones This partial assignment applies only to the following model drones: Model 147 Model 154 BQM 34A MQM 34D
2320 P	Trucks and Truck Tractors This partial assignment applies only to airport crash rescue vehicles.
2330 P	Trailers This partial assignment applies only to airport crash rescue trailer units.
4210 P	Fire Fighting Equipment This partial assignment applies only to fire fighting equipment developed by or under the sponsorship of the Department of the Air Force.
6660 P	Meteorological Instruments and Apparatus Each department is assigned acquisition responsibility for those systems, instruments, and end items in FSC 6660 for which the department either designed or sponsored development. The developing department is the department which awarded the developmental contract, notwithstanding that other departments may have provided funds for the development.

Federal Supply Class Code	Commodity
6710 P*	Cameras, Motion Picture This partial assignment does not apply to submarine periscope and underwater cameras.
6720 P*	Cameras, Still Picture This partial assignment does not apply to submarine periscope and underwater cameras.
6730 P*	Photographic Projection Equipment This partial assignment does not apply to 35mm theater projectors.
6740*	Photographic Developing and Finishing Equipment
6760*	Photographic Equipment and Accessories
6780*	Photographic Sets, Kits, and Outfits

("P" after the FSC number indicates a partial FSC assignment).

8820 P	Live Animals Not Raised for Food This partial assignment applies only to the following types of working dogs: Scout Sentry Patrol Mine/tunnel Tracker Detector-narcotic/contraband Sledge Bloodhound Water dog Patrol/detector
--------	---

*This partial FSC assignment does not apply to photographic equipment controlled by the Congressional Joint Committee on Printing and Micro-Film Equipment and Supplies.

9999	Miscellaneous Items	DSCP

FOOTNOTES:

¹ These assignments do not apply to items decentralized by the DLA Center Commander, i.e., designated for purchase by each military department, and to those items in DLA assigned federal supply classes, which may be assigned to GSA for supply management. In addition, see DFARS Subpart 208.70, which describes conditions under which a military service may purchase (contract for) military service supply managed items in DLA assigned federal supply classes. See notes 2 and 3 for further exceptions pertaining to certain DLA assignments.

² DLA assignments in FSC 2510, 2520, 2530, 2540, 2590, 2805, 2910, 2920, 2930, 2940, and 2990 do not apply to repair parts peculiar to combat and tactical vehicles, which are assigned for coordinated acquisition to the Department of the Army. In addition, the assignment in FSC 2805 does not apply to military standard engines 1.5 HP through 20 HP and parts peculiar therefor, which are assigned for coordinated acquisition to the Department of the Army.

³ This partial FSC assignment in FSC 4210 does not apply to Fire Fighting Equipment developed by or under the sponsorship of a military department. The contracting responsibility for such equipment is assigned to the department which developed or sponsored its development.

⁴ DLA has contracting responsibility for all the items in the classes of FS Group 65. In addition, DLA has contracting responsibility for all equipment and supplies related to the medical, dental, veterinary professions in Non-group 65 classes where the military medical services have the sole or prime interest in such items. The specific item coverage of these Non-group 65 items is published in the DoD section of the Federal Supply Catalog for medical material C3-1 through C3-12, inclusive.

⁵ This assignment includes health and comfort items listed in AR 700-23. It also includes resale items for commissary stores (including brand name items).

⁶ DLA centers are identified as follows—

DSCC — DLA Land and Maritime

DESC — DLA Energy

DSCR — DLA Aviation

DSCP — DLA Troop Support

DLA also serves as the head of the contracting activity for the Defense Media Center (DMC).

⁷ DLA Energy is responsible for contracting for only petroleum base items in FSC 6810 and 6850.

⁸ This partial FSC assignment in FSC 6115 does not apply to Mobile Electric Power Generating Sources (MEPGS). The contracting direction responsibility for MEPGS is assigned to the DoD Project Manager, Mobile Electric Power, by DoDD 4120.11. DoD components desiring to use other than the DoD Standard Family of Generator Sets, contained in MIL-STD 633, shall process a Request for Deviation in accordance with Joint Operating Procedures, AR 700-101, AFR 400-50, NAVMATINST 4120.100A, MCO 11310.8c and DLAR 4120.7, Subject: Management and Standardization of Mobile Electric Power Generating Sources, prior to initiating an acquisition.

⁹ This partial assignment applies only to secondary items not otherwise assigned, as listed in the applicable Federal Supply Catalog Management Data lists of each respective service.

¹⁰ This partial assignment applies to broadcasting, visual information, and graphics presentation communications equipment used by the American Forces Radio and Television Services, centralized visual information support activities, media centers, closed circuit educational and training programs, language training activities, combat camera units, and individual base visual information centers. This assignment does not apply to equipment with airborne applications. Examples of the types of equipment covered by this assignment include radio and television transmitters, video recording and playback equipment, video cameras, editing and switching equipment, electronic imaging equipment, language training equipment, monitors, audio equipment, and other nontactical, off-the-shelf, commercially available, nondevelopmental electronic equipment used to support broadcast and visual information missions.

PART 5 - DEFENSE THREAT REDUCTION AGENCY ASSIGNMENTS

Federal Supply Class Code	Commodity
1105	Nuclear Bombs
1110	Nuclear Projectiles
1115	Nuclear Warheads and Warhead Sections
1120	Nuclear Depth Charges
1125	Nuclear Demolition Charges
1127	Nuclear Rockets
1130	Conversion Kits, Nuclear Ordnance
1135	Fuzing and Firing Devices, Nuclear Ordnance
1140	Nuclear Components
1145	Explosive and Pyrotechnic Components, Nuclear Ordnance
1190	Specialized Test and Handling Equipment, Nuclear Ordnance
1195	Miscellaneous Nuclear Ordnance

In addition to the above, assignments to the Defense Threat Reduction Agency (DTRA) include all items for which DTRA provides logistics management or has integrated management responsibilities in accordance with the DTRA Charter.

PART 6 - ARMY ASSIGNMENTS

Federal Supply Class Code	Commodity

Federal Supply Class Code	Commodity
2310 P	Passenger Motor Vehicles
2320 P	Trucks and Truck Tractors These two partial assignments apply to all commercial, non-tactical, passenger carrying vehicles and trucks except the following types which are assigned for DoD Coordinated Acquisition to the Department of the Army— Bus, convertible to ambulance Truck, 4x4, convertible to ambulance Truck, 4x4, dump, 9,000 pounds GVW, with cut-down cab (See Army Coordinated Acquisition assignments in FSC 2310 and 2320.)
3540	Wrapping and Packaging Machinery
3550	Vending and Coin Operated Machines
3590	Miscellaneous Service and Trade Equipment
3750	Gardening Implements and Tools
5110	Hand Tools, Edged, Nonpowered
5120	Hand Tools, Nonedged, Nonpowered
5130	Hand Tools, Power Driven
5133	Drill Bits, Counterbores, and Countersinks; Hand and Machine
5136	Taps, Dies, and Collects; Hand and Machine
5140	Tool and Hardware Boxes
5180	Sets, Kits, and Outfits of Hand Tools
5210	Measuring Tools, Craftmen's
5345	Disks and Stones, Abrasive
5350	Abrasive Materials
5610	Mineral Construction Materials, Bulk
5620	Building Glass, Tile, Brick, and Block
5630	Pipe and Conduit, Nonmetallic
5640	Wallboard, Building Paper, and Thermal Insulation Materials
5650	Roofing and Siding Materials
5670	Architectural and Related Metal Products
5680 P*	Miscellaneous Construction Materials
7105	Household Furniture
7110	Office Furniture
7125	Cabinets, Lockers, Bins, and Shelving
7195	Miscellaneous Furniture and Fixtures
7220	Floor Coverings

Federal Supply Class Code	Commodity
7230	Draperies, Awnings, and Shades
7240	Household and Commercial Utility Containers
7290	Miscellaneous Household and Commercial Furnishings and Appliances
7330	Kitchen Hand Tools and Utensils
7340	Cutlery and Flatware
7350	Tableware
7410	Punched Card System Machines
7420	Accounting and Calculating Machines
(“P” after FSC number indicates partial FSC assignment.)	
7430	Typewriters and Office-type Composing Machines This assignment does not apply to machines controlled by the Congressional Joint Committee on Printing.
7450	Office-type Sound Recording and Reproducing Machines
7460	Visible Record Equipment
7490	Miscellaneous Office Machines This assignment does not apply to equipment controlled by the Congressional Joint Committee on Printing.
7510	Office Supplies This assignment does not apply to office supplies, including special inks, when DoD requirements of such items are acquired through Government Printing Office channels.
7520	Office Devices and Accessories This assignment does not apply to office devices and accessories when DoD requirements of such items are acquired through Government Printing Office channels.
7530	Stationery and Record Forms This assignment does not apply to stationery and record forms when DoD requirements of such items are acquired through Government Printing Office channels including those items covered by term contracts issued by GPO for tabulating cards and marginally punched continuous forms.
7710	Musical Instruments
7720	Musical Instrument Parts and Accessories
7730	Phonographs, Radios, and Television Sets; Home Type
7740	Phonograph Records
7810	Athletic and Sporting Equipment
7820	Games, Toys, and Wheeled Goods
7830	Recreational and Gymnastic Equipment

Federal Supply Class Code	Commodity
7910	Floor Polishers and Vacuum Cleaning Equipment
7920	Brooms, Brushes, Mops, and Sponges
7930	Cleaning and Polishing Compounds and Preparations
8010	Paints, Dopes, Varnishes, and Related Products
8020	Paint and Artists Brushes
8030	Preservative and Sealing Compounds
8040	Adhesives
8105	Bags and Sacks
8115	Boxes, Cartons and Crates
8135	Packaging and Packing Bulk Materials
8510	Perfumes, Toilet Preparations and Powders
8520	Toilet Soap, Shaving Preparations and Dentifrices
8530	Personal Toiletry Articles
8540	Toiletry Paper Products
8710	Forage and Feed
8720	Fertilizers
8730	Seeds and Nursery Stock
9310	Paper and Paperboard
	Signs, Advertising Displays, and Identification Plates
9910	Jewelry
9915	Collector's Items
9920	Smokers' Articles and Matches

FOOTNOTES:

These GSA assignments do not apply to items as described under FSC 7430, 7490, 7510, 7520, and 7530, and those items in the GSA assigned federal supply classes which have been retained for DLA supply management as listed in the applicable Federal Supply Catalog Management Data lists. In addition, see DFARS Subpart 208.70, which describes conditions under which a military service may contract for military service managed items in GSA assigned federal supply classes.

*This partial FSC assignment does not include landing mats which are assigned to the Defense Logistics Agency.

PGI 208.71 -ACQUISITION FOR NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA)

PGI 208.7102 Procedures.

PGI 208.7102-1 General.

(1) Departments and agencies shall not claim reimbursement for administrative costs incident to acquisitions for NASA, unless agreed otherwise prior to the time the services are performed.

(2) When contracting or performing field service functions for NASA, departments and agencies—

(i) Will use their own methods, except when otherwise required by the terms of the agreement; and

(ii) Normally will use their own funds and will not cite NASA funds on any defense obligation or payment document.

PGI 208.7102-2 Purchase request and acceptance.

(1) NASA will use NASA Form 523, NASA-Defense Purchase Request, to request acquisition of supplies or services.

(2) Except as provided in paragraph (4) of this subsection, departments and agencies will respond within 30 days to a NASA purchase request by forwarding DD Form 448-2, Acceptance of MIPR. Forward each DD Form 448-2 in quadruplicate and indicate action status as well as the name and address of the DoD acquisition activity for future use by the NASA initiator.

(3) To the extent feasible, all documents related to the NASA action will reference the NASA-Defense Purchase Request number and the item number when appropriate.

(4) Departments and agencies are not required to accept NASA-Defense Purchase Requests for common-use standard stock items that the supplying department has on hand or on order for prompt delivery at published prices.

PGI 208.7102-3 Changes in estimated total prices.

When a department or agency determines that the estimated total price (Block 6F, NASA Form 523) for NASA items is not sufficient to cover the required reimbursement, or is in excess of the amount required, the department/agency will forward a request for amendment to the NASA originating office. Indicate in the request a specific dollar amount, rather than a percentage, and include justification for any upward adjustment requested. Upon approval of a request, NASA will forward an amendment of its purchase request to the contracting activity.

PGI 208.7102-4 Payments.

Departments and agencies will submit SF 1080, Voucher for Transferring Funds, billings to the NASA office designated in Block 9 of the NASA-Defense Purchase Request, except where agreements provide that reimbursement is not required. Departments and agencies will support billings in the same manner as billings between departments and agencies.

This page intentionally left blank.

PGI 208.73 -USE OF GOVERNMENT-OWNED PRECIOUS METALS

PGI 208.7301 Definitions.

As used in this subpart—

“Dual pricing evaluation procedure” means a procedure where offerors submit two prices for precious metals bearing items—one based on Government-furnished precious metals and one based on contractor-furnished precious metals. The contracting officer evaluates the prices to determine which is in the Government's best interest.

“Precious Metals Indicator Code (PMIC)” means a single-digit, alpha-numeric code assigned to national stock numbered items in the Defense Integrated Data System Total Item Record used to indicate the presence or absence of precious metals in the item. PMICs and the content value of corresponding items are listed in DoD 4100.39-M, Federal Logistics Information System (FLIS) Procedures Manual, Volume 10, Chapter 4, Table 160.

PGI 208.7303 Procedures.

(1) Item managers and contracting officers will use the PMIC and/or other relevant data furnished with a purchase request to determine the applicability of this subpart.

(2) When an offeror advises of a precious metals requirement, the contracting officer shall use the procedures in Chapter 11 of DoD 4160.21-M, Defense Materiel Disposition Manual, to determine availability of required precious metal assets and current Government-furnished materiel (GFM) unit prices. If the precious metals are available, the contracting officer shall evaluate offers and award the contract on the basis of the offer that is in the best interest of the Government.

(3) When the clause prescribed by DFARS [208.7305](#) is included in a solicitation, the contracting officer shall ensure that Section B, Schedule of Supplies or Services and Prices, is structured to—

- (i) Permit insertion of alternate prices for each deliverable contract line item number that uses precious metals; and
- (ii) Use dual pricing evaluation procedures.

PGI 208.7304 Refined precious metals.

The following refined precious metals are currently managed by DSCP:

Precious Metal	National Stock Number (NSN)
Gold	9660-00-042-7733
Silver	9660-00-106-9432
Platinum Granules	9660-00-042-7768
Platinum Sponge	9660-00-151-4050
Palladium Granules	9660-00-042-7765
Palladium Sponge	9660-01-039-0320
Rhodium	9660-01-010-2625
Iridium	9660-00-011-1937
Ruthenium	9660-01-039-0313

This page intentionally left blank.

PGI 208.74 -ENTERPRISE SOFTWARE AGREEMENTS

PGI 208.7401 Definitions.

As used in this subpart—

“Golden Disk” means a purchased license or entitlement to distribute an unlimited or bulk number of copies of software throughout DoD.

“Software product manager” means the Government official who manages an enterprise software agreement.

PGI 208.7403 Acquisition procedures.

(1) After requirements are determined, the requiring official shall review the information at the ESI website to determine if the required commercial software or related services are available from DoD inventory (e.g., Golden Disks and DoD-wide software maintenance agreements). If the software or services are available, the requiring official shall fulfill the requirement from the DoD inventory.

(2) If the required commercial software or related services are not in the DoD inventory, and not on an ESA, the contracting officer or requiring official may fulfill the requirement by other means. Existing ESAs are listed on the ESI website.

(3) If the commercial software or related services are on an ESA, the contracting officer or requiring official shall review the terms and conditions and prices in accordance with otherwise applicable source selection requirements.

(4) If an ESA's terms and conditions and prices represent the best value to the Government, the contracting officer or requiring official shall fulfill the requirement for software or services through the ESA.

(5) If existing ESAs do not represent the best value to the Government, the software product manager (SPM) shall be given an opportunity to provide the same or a better value to the Government under the ESAs before the contracting officer or requiring official may continue with alternate acquisition methods.

(i) The contracting officer or requiring official shall notify the SPM of specific concerns about existing ESA terms and conditions or prices through the ESI webpage.

(ii) The SPM shall consider adjusting, within the scope of the ESA, terms and conditions or prices to provide the best value to the customer.

(A) Within 3 working days, the SPM shall—

(1) Update the ESA;

(2) Provide an estimated date by which the update will be accomplished; or

(3) Inform the contracting officer or requiring official that no change will be made to the ESA.

(B) If the SPM informs the contracting officer or requiring official that no change will be made to the ESA terms and conditions or prices, the contracting officer or requiring official may fulfill the requirement by other means.

(C) If the SPM does not respond within 3 working days or does not plan to adjust the ESA within 90 days, the contracting officer or requiring official may fulfill the requirement by other means.

(iii) A management official designated by the department or agency may waive the requirement to obtain commercial software or related services through an ESA after the steps in paragraphs (5)(i) and (5)(ii)(A) of this section are complete. The rationale for use of an alternate source shall be included in the waiver request and shall be provided to the SPM.

This page intentionally left blank.

PGI 209.1 -RESPONSIBLE PROSPECTIVE CONTRACTORS

PGI 209.105 RESERVED

PGI 209.105-1 Obtaining information.

(1) GSA's System for Award Management (SAM), which is available at <https://sam.gov>, identifies entities excluded throughout the U.S. Government (unless otherwise noted) from receiving Federal contracts or certain subcontracts and from certain types of Federal financial and non-financial assistance and benefits. The SAM website provides useful documents and online training to assist with SAM navigation and data entry. User Guides and Demonstration Videos can be found in the User Help section after clicking the HELP link at the top of the website homepage. The former Excluded Parties List System (EPLS) information is within the Performance Information functional area of SAM, and is maintained as "Exclusions" data. Exclusions are located in the Data Access area of SAM which can be accessed by navigating the following path after logging into the SAM website. Select Tab – MYSAM, Tab - Data Access, and Tab – Exclusions.

(i) Multiple agencies have the authority to suspend or debar entities from "doing business" with the Government. There are approximately 71 separate cause and treatment codes under which entities have been suspended or debarred or excluded. New exclusion records created in SAM will no longer be identified with cause and treatment codes. Exclusions will be associated with one of four exclusion types: Preliminarily Ineligible (Proceedings Pending), Ineligible (Proceedings Completed), Prohibition/Restriction, Voluntary Exclusion. Each cause and treatment code is linked to one exclusion type.

(ii) The exclusion type advises readers of the nature of the exclusion, debarment, or suspension and how those listed in the SAM Exclusions should be treated. However, the fact that an entity is listed in the SAM Exclusions does not necessarily mean the entity is ineligible for contract award. Review of the exclusion type is crucial in ensuring that listed entities are not deprived of their "liberty interest" in conducting business with the Government.

(iii) When the Department of Justice Bureau of Justice Assistance debars individuals under 10 U.S.C. 4656, they are placed in the SAM Exclusions under cause and treatment code FF (Reciprocal), which is now linked to exclusion type, Ineligible (Proceedings Completed). The records for individuals currently entered into EPLS and listed under this cause and treatment code can be found in the SAM Exclusions. Records created in EPLS have both a cause and treatment code and an exclusion type listed.

(2) The contracting officer shall consider the information available in the Supplier Performance Risk System during the evaluation of quotations and offers received in response to a solicitation and in the determination of the contractor's responsibility. In addition, the contracting officer shall document the contract file regarding any action taken as a result of information obtained from the Supplier Performance Risk System.

PGI 209.106 Preaward surveys.

PGI 209.106-1 Conditions for preaward surveys.

(a) If a preaward survey is requested, include the rationale in Block 23 of the SF 1403, Preaward Survey of Prospective Contractor (General).

PGI 209.106-2 Requests for preaward surveys.

(1) The surveying activity is the cognizant contract administration office as listed in the Federal Directory of Contract Administration Services Components, available at <https://pubapp.dema.mil/CASD/main.jsp>. When information is required as part of the survey on the adequacy of the contractor's accounting system or its suitability for administration of the proposed type of contract, the surveying activity will obtain the information from the auditor.

(2) Limited information may be requested by telephone.

(3) The contracting officer may request a formal survey by telephone but must confirm immediately with SF 1403, Preaward Survey of Prospective Contractor (General). For a formal survey, send original and three copies of SF 1403, including necessary drawings and specifications.

(i) List additional factors in Item H, Section III of the SF 1403 and explain them in Block 23. For example—

(A) Information needed to determine a prospective contractor's eligibility under the Walsh-Healey Public Contracts Act. (Note that the Walsh-Healey Public Contracts Act, Block 12 of Section I, only indicates what the contractor has represented its classification to be under Walsh-Healey.)

(B) Evaluation of a contractor as a planned producer when the offered item is or may appear on the Industrial Preparedness Planning List (IPPL). When the preaward survey results in a recommendation for award, ask the office

responsible for industrial preparedness planning to consider designating the prospective contractor as a planned producer. If the item is already on the IPPL or the prospective contractor is already a planned producer, note the information in Block 23.

(C) Evaluation of the prospective contractor's performance against small business subcontracting plans.

(4) On base level preaward surveys, technical personnel from the requiring installation should participate when there is concern about the ability of a prospective contractor to perform a base level service or construction contract.

(5) Allow more time for—

(i) Complex items;

(ii) New or inexperienced DoD contractors; and

(iii) Surveys with time-consuming requirements, e.g., secondary survey, accounting system review, financial capability analysis, or purchasing office participation.

(6) Only request those factors essential to the determination of responsibility. See DFARS [253.209-1\(a\)](#) for an explanation of the factors in Section III, Blocks 19 and 20 of the SF 1403.

PGI 209.170 Reserved.

PGI 209.170-3 Waiver of restriction.

The waiver authority terminates on October 1, 2026. For information on the roles of requiring activities and the Confucius Institute Waiver Program in the waiver process, see the Confucius Institute Waiver Program Guidance to U.S. Institutions of Higher Education, issued by the Office of the Under Secretary of Defense (Research and Engineering), Confucius Institute Waiver Program and available at <https://rt.cto.mil/wp-content/uploads/Confucius-Institute-Waiver-Program-Guidance-28Mar2023.pdf>.

PGI 209.2 -QUALIFICATIONS REQUIREMENTS

PGI 209.202 Policy.

(a)(1) The inclusion of qualification requirements in specifications for products that are to be included on a Qualified Products List, or manufactured by business firms included on a Qualified Manufacturers List, requires approval by the departmental standardization office in accordance with DoD 4120.24-M, Defense Standardization Program (DSP) Policies and Procedures. The inclusion of other qualification requirements in an acquisition or group of acquisitions requires approval by the chief of the contracting office.

PGI 209.270 Aviation and ship critical safety items.

PGI 209.270-4 Procedures.

(1) Policies and procedures applicable to aviation critical safety item design control activities are in DoD Manual 4140.01, Volume 11, DoD Supply Chain Materiel Management Procedures: Inventory Accountability and Special Management and Handling, DoD Aviation Critical Safety Item (CSI)/Flight Safety Critical Aircraft Part (FSCAP) Program. This regulation provides direction on establishing criticality determinations, identification of aviation critical safety items in the Federal Logistics Information System, and related requirements.

(2) Procedures for management of aviation critical safety items and ship critical safety items are available at <http://www.dscr.dla.mil/ExternalWeb/UserWeb/AviationEngineering/TechnicalOversight/CSI.htm>. This web site provides detailed life-cycle procedures for aviation and ship critical safety items, from initial identification through disposal, as well as a detailed list of definitions applicable to aviation and ship critical safety items.

This page intentionally left blank.

PGI 209.4 -DEBARMENT, SUSPENSION, AND INELIGIBILITY

PGI 209.405 Effect of listing.

(1) Environmental Protection Agency (EPA) responsibilities under Executive Order 11738, Providing for Administration of the Clean Air Act and the Federal Water Pollution Control Act With Respect to Federal Contracts, Grants, or Loans, have been delegated to the EPA Suspending and Debarment Official (EPA SDO).

(i) Submit notifications and reports required by DFARS [209.405\(b\)](#) to the EPA SDO at the following address:

Office of Grants and Debarments
U.S. Environmental Protection Agency
Ariel Rios Building
1200 Pennsylvania Avenue NW
Washington, DC 20640
Telephone: 202-564-5399

(ii) Unless agency procedures specify otherwise, coordinate submissions to the EPA SDO through the applicable agency suspending and debarment official.

(2) Executive Order 11738 is available at <http://www.epa.gov/isdc/eo11738.htm>.

(3) Contracting officers are required to review the System for Award Management (SAM) Exclusions twice, once after opening of bids/receipt of proposals (FAR 9.405(d)(1)) and again immediately prior to award (FAR 9.405(d)(4)). The contracting officer shall document the contract file for both searches; the documentation may include a copy of the SAM Exclusions search results.

PGI 209.406 Debarment.

PGI 209.406-3 Procedures.

(i) *Investigation and referral.* When referring any matter to the agency debarment and suspending official for consideration, provide the following specific information and documentation, to the extent practicable. Send two copies (one paper and one electronic) of each report, including enclosures.

(ii) For all referrals, provide the following:

(A) Name, address, and telephone number of the point of contact for the activity making the report.

(B) Name and address of the referred individual/contractor, CAGE code, and unique entity identifier, if applicable.

(C) Name and addresses of the members of the board, principal officers, partners, owners, and managers of the referred contractor.

(D) Name and addresses of all known affiliates, subsidiaries, or parent firms, and the nature of the business relationship to the referred individual/contractor.

(E) If a contracting office initiates the report, the comments and recommendations of the contracting officer and of each higher-level contracting review authority regarding—

(1) Whether to suspend or debar the contractor;

(2) Whether to apply limitations to the suspension or debarment;

(3) The period of any recommended debarment; and

(4) Whether to continue any current contracts with the contractor (or explain why a recommendation regarding current contracts is not included).

(F) To the extent that this information is available through FPDS-NG, a list of other agencies that hold current contracts with the referred individual/contractor.

(iii) For referrals based on judicial actions (indictments, convictions, civil judgments, etc.), provide the following:

(A) Copies of indictments, judgments, and sentencing actions.

(B) Copies of investigative reports when authorized by the investigative agency.

(C) Witness statements or affidavits when authorized by the investigative agency.

(D) If judicial action is contract-related, the contract number, description of supplies or services, and contract amount.

(iv) For “fact-based” referrals (no judicial action), for each contract affected by the misconduct or poor performance being reported, provide the following:

(A) The contract number, description of supplies or services, contract amount, percentage of completion, and amounts paid to and withheld from the contractor.

(B) Whether the contract is assigned under the Assignment of Claims Act and, if so, to whom.

(C) The contract fund citations involved, to expedite accurate return of funds to open accounts and commands, as appropriate.

(D) For any other contracts outstanding with the contractor or any of its affiliates, the contract number, description of supplies or services, and contract amount.

(E) A complete summary of all pertinent evidence and the status of any legal proceedings involving the contractor.

(F) An estimate of any damages sustained by the Government as a result of the contractor's action (explain how the estimate was calculated).

(G) A copy of pertinent extracts of each pertinent contract.

(H) Copies of investigative reports when authorized by the investigative agency.

(I) Witness statements or affidavits when authorized by the investigative agency.

(J) A copy of any available determinations of nonresponsibility in accordance with FAR 9.105-2(a)(1).

(K) Any other appropriate exhibits or documentation.

(b) Decision making process.

(i) The agency debarring and suspending official shall follow the procedures and decision making process stated in FAR 9.406-3(c) for proposed debarments and debarments) and FAR 9.407-3 (for suspensions), DFARS Appendix H, and any agency-specific procedures that are to be provided to the individual/contractor with the notice of proposed debarment or suspension, either by enclosure or electronic reference.

(ii) The absence of a referral in accordance with this section, or the absence of any information specified in this section, will not preclude the debarring and suspending official from making decisions to suspend, propose for debarment, or debar an individual/contractor.

(iii) The signature of the debarring and suspending official on the notice of suspension, proposed debarment, or debarment is sufficient evidence that the debarring and suspending official has made the specified decision.

(iv) If a debarring and suspending official determines that a referral lacks sufficient evidence of a cause for suspension or debarment, the debarring and suspending official may refer the matter for further review or investigation, as appropriate, by an appropriate agency or other Government entity, including a contracting activity, inspector general, auditing agency, or a criminal investigative agency.

PGI 209.407 Suspension.

PGI 209.407-3 Procedures.

Use similar procedures as in DFARS PGI [209.406-3](#) for suspensions.

PGI 209.5 -ORGANIZATIONAL AND CONSULTANT CONFLICTS OF INTEREST

PGI 209.503 [Reserved]

PGI 209.503-70 Waiver.

To process a waiver under DFARS 209.503-70, the contracting officer shall submit the waiver, in accordance with agency procedures, to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) (DPCAP/CP) at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

PGI 209.570 Limitations on contractors acting as lead system integrators.

PGI 209.570-1 Definitions.

The phrase “substantial portion of the work,” as used in the definition of “lead system integrator with system responsibility” in the clause at DFARS [252.209-7007](#), may relate to the dollar value of the effort or to the criticality of the effort to be performed.

PGI 209.570-3 Procedures.

(1) After assessing the offeror’s direct financial interests in the development or construction of any individual system or element of any system of systems, if the offeror—

(i) Has no direct financial interest in such systems, the contracting officer shall document the contract file to that effect and may then further consider the offeror for award of the contract;

(ii) Has a direct financial interest in such systems, but the exception in DFARS [209.570-2\(b\)\(2\)](#) applies, the contracting officer shall document the contract file to that effect and may then further consider the offeror for award of the contract;

(iii) Has a direct financial interest in such systems and the exception in DFARS [209.570-2\(b\)\(2\)](#) does not apply, but the conditions in DFARS [209.570-2\(b\)\(1\)\(i\)](#) and (ii) do apply, the contracting officer—

(A) Shall document the contract file to that effect;

(B) May, in coordination with program officials, request an exception for the offeror from the Secretary of Defense, in accordance with paragraph (2) of this subsection; and

(C) Shall not award to the offeror unless the Secretary of Defense grants the exception and provides the required certification to Congress; or

(iv) Has a direct financial interest in such systems and the exceptions in DFARS [209.570-2\(b\)\(1\)](#) and (2) do not apply, the contracting officer shall not award to the offeror.

(2)(i) To process an exception under DFARS [209.570-2\(b\)\(1\)](#), the contracting officer shall submit the request and appropriate documentation to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) (DPCAP/CP) at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

(ii) The DPCAP action officer will process the request through the Office of the Secretary of Defense and, if approved, to the appropriate committees of Congress. The contracting officer shall not award a contract to the affected offeror until notified by the DPCAP/CP action officer that the exception has been approved and transmitted to Congress.

PGI 209.571 Organizational conflicts of interest in major defense acquisition programs.

PGI 209.571-7 Systems engineering and technical assistance contracts.

Because of the special organizational conflict of interest restrictions that relate to systems engineering and technical assistance contracts, it is more practical to separate systems engineering and technical assistance-type work from design- and development-type work, and not include both types of work in the same task order or other contract vehicle.

PGI 210.002 Procedures.

(e)(ii) Contracting officers are encouraged to retain information on potential offerors that express an interest in an acquisition, in order to solicit feedback in instances when only one offer is received on a competitive solicitation (see PGI [215.371-2](#)).

(iii) Contracting officers should ensure that the contract file includes—

- (A) The methods used to conduct market research;
- (B) The timeframe in which market research was conducted;
- (C) The analysis of the capabilities of the potential sources that were identified during market research; and
- (D) Any conclusion(s) reached as a result of market research analysis.

PGI 210.070 Market research report guide for improving the tradecraft in services acquisition.

The “Market Research Report Guide for Improving the Tradecraft in Services Acquisition” is designed to effect the collection and sharing of standardized market research information across the Department. The guide is available for download at [https://www.acq.osd.mil/asda/dpc/cp/policy/docs/sa/2017_Market_Research_Guide_\(Final\).pdf](https://www.acq.osd.mil/asda/dpc/cp/policy/docs/sa/2017_Market_Research_Guide_(Final).pdf).

This page intentionally left blank.

PGI 211.70 -PURCHASE REQUESTS

PGI 211.7001 Procedures.

Requiring activities are responsible for developing and distributing purchase requests, except for the requirements for Military Interdepartmental Purchase Requests (MIPRs) (DD Form 448) addressed in [253.208-1](#).

(a) Agencies may use a combined numbering series for MIPRs and internal purchase requests, following the rules at [253.208-1](#) (c)(1) for both. If using a separate numbering sequence for internal purchase requests, procedures shall be in place to ensure that the same number cannot be assigned to both a MIPR and an internal purchase request. Use of a purely internal tracking number in addition to the purchase request number is authorized and supported by the data standards. Number the purchase request by using—

(1) The requiring activity's Department of Defense Activity Address Code (DODAAC), as described in DLM 4000.25 Volume 6, Chapter 2. DODAACs may be verified at <https://www.transactionservices.dla.mil/daasinq>.

(2) A serial number of eight alphanumeric characters, excluding "I" and "O"; and

(3) A revision number, with the original request being assigned zero and subsequent revisions or amendments being numbered consecutively.

(b) Prior to taking action on a purchase request, contracting officers shall ensure that the requiring activity has prepared the purchase requests in uniform contract format (see FAR 14.201-1 and 15.204), except for procurement of construction (see part 36), which should follow the current edition of the Construction Specifications Institute format. Purchase requests shall include all supporting documentation required by local contract procedures.

(c) Prior to taking action on a purchase request, contracting officers shall ensure that the purchase requests follow the line item rules and data requirements in DFARS [204.71](#). Purchase requests for individual supplies (i.e., not bulk commodities such as oil) shall identify whether the item to be acquired is subject to the item unique identification requirements of DFARS [211.274-2](#).

(d)(1) Purchase requests may be unfunded for planning purposes, partially funded, or fully funded.

(2) Funding data in purchase requests will, at a minimum, identify the following elements of the funding source: Department Code (e.g. 21 Army), Main Account (e.g. 1804, Operation and Maintenance, Navy), Subaccount (where applicable), and Fiscal Year. Lists of these codes are published in Supplement 1 to Volume I of the *Treasury Financial Manual, Federal Account Symbols and Titles*, generally referred to as [The FAST Book](#).

(3) Agencies shall have sufficient procedures in place to enable traceability of line items identified in the purchase request to those in the resulting contract. In developing such procedures, agencies shall ensure that provisions are made for circumstances in which the deliverables may be more completely defined during the process of soliciting offers and making an award.

(e) Contracting officers shall not obligate funds that have not been certified as currently available and suitable. All purchase requests shall be reviewed and certified after agreement on price and prior to award to ensure that the funds are—

(1) Suitable and available for the purpose and amount of the contract; and

(2) Traceable from the purchase request to the resultant contract.

(f) Purchase requests transmitted between requiring systems and contract writing systems shall be transmitted via the Global EXchange system (GEX) using the Purchase Request Data Standard Extensible Markup Language (XML) format at <https://www.acq.osd.mil/asda/dpc/ce/ds/procurement-data-standard.html>. Copies shall be sent via the GEX to the Electronic Data Access (EDA) system at <http://eda.ogden.disa.mil>. Requiring systems and contract writing systems may use a format that can be translated to or from the purchase request Data Standard (XML) format.

**PGI PART 212 - ACQUISITION OF COMMERCIAL
PRODUCTS AND COMMERCIAL SERVICES**

<i>Sec.</i>			
PGI 212.1	-ACQUISITION OF COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES	PGI 212.70	-PILOT PROGRAM FOR TRANSITION TO FOLLOW-ON CONTRACTING AFTER USE OF OTHER TRANSACTION AUTHORITY
PGI 212.102	Applicability.	PGI	Limitations.
PGI 212.4	-UNIQUE REQUIREMENTS REGARDING TERMS AND CONDITIONS FOR COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES	212.7003	
		PGI	Congressional notification.
		212.7005	

This page intentionally left blank.

PGI 212.1 -ACQUISITION OF COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES

PGI 212.102 Applicability.

(a)(iii) *Commercial product or commercial service determination.*

(A) *Making the commercial product or commercial service determination.*

(1) Before making a commercial product or commercial service determination, the contracting officer shall search the DoD Commercial Item Database at <https://piee.eb.mil> for the item and an associated commercial product or commercial service determination or the decision that the item is not commercial in accordance with the commercial product or commercial service definition at FAR [2.101](#).

(2) In accordance with [10 U.S.C. 2380](#)(b)(1), the contracting officer may—

(i) Request support from the Defense Contract Management Agency (DCMA) by sending an email to DCMA Commercial Item Group (CIG) at ;

(ii) Request support from the cognizant Defense Contract Audit Agency (DCAA) office;

(iii) Request support from other appropriate experts in DoD such as program office technical evaluators, program managers, cognizant engineers, or other contracting officers; or

(iv) Consider the views of appropriate public and private sector entities such as documents provided by the contractor asserting commerciality to include technical drawings, product or catalog descriptions, or national stock numbers.

(3) The contracting officer may make the commercial product or commercial service determination or the decision that the item is other than commercial in accordance with the commercial product or commercial service definition at FAR [2.101](#) or request a DCMA CIG contracting officer make the determination or the decision that the product or service is other than commercial in accordance with the commercial product or commercial service definition at FAR [2.101](#) by submitting a request to dcma.boston-ma.eastern-rc.mbx.Commercial@mail.mil. The contracting officer may withdraw the request at any point prior to the determination being made.

(B) *Documenting the commercial product or commercial service determination.*

(1) The contracting officer making the determination shall document the market research and rationale supporting a conclusion that the product or service is commercial or is other than commercial and include it in the contract file.

(2) Particular care must be taken when documenting determinations involving items that are of a type customarily used by the general public or by nongovernmental entities, “modifications of a type customarily available in the marketplace,” and items only “offered for sale, lease, or license to the general public” but not yet actually sold, leased, or licensed. In these situations, the documentation must clearly detail the particulars of the items and modifications of a type and sales offers. When such items lack sufficient market pricing information, additional diligence must be given to determinations that prices are fair and reasonable as required by FAR subpart 15.4.

(3) The contracting officer shall include the part number, the national stock number, or both, as applicable, in the commercial product or commercial service determination or the decision that the product or service does not meet the commercial product or commercial service definition at FAR [2.101](#).

(4) The contracting officer shall include the commercial product or commercial service determination or the decision that the product or service does not meet the commercial product or commercial service definition at FAR [2.101](#) in the contract file.

(C) *DoD commercial item database.* In accordance with [10 U.S.C. 3456](#) (b)(2), within 30 days of contract award, the contracting officer making the determination shall upload the signed commercial product or service determination or the decision that the item does not meet the commercial product or commercial service definition at FAR [2.101](#) to the DoD Commercial Item Database at <https://piee.eb.mil>. The only documentation that is required to be uploaded to the database is the commercial product or service determination or the decision that the item is other than commercial. Contracting officers shall avoid uploading any data marked as proprietary or controlled unclassified information to the Commercial Item Database. Additional information is available at <https://www.dcma.mil/commercial-item-group/>.

(D) *Prior commercial product or commercial service determination.*

(1) If a prior DoD commercial product or commercial service determination for the same product or service is made by a military department, defense agency, or another component of DoD, contracting officers may presume that the prior commercial product or commercial service determination shall serve as a determination for subsequent procurements of

such product or service, unless the process is followed to overturn the prior determination (see DFARS [212.102\(a\)\(ii\)\(B\)](#)). If there is no prior commercial product or commercial service determination, see PGI 212.102(a)(iii)(B).

(2) If the DoD Commercial Item Database contains a prior decision that a product or service does not meet the definition of a commercial product or commercial service at FAR [2.101](#), the contracting officer may use the prior decision to serve as the decision for subsequent procurements of the same product or service. To promote consistent acquisition procedures across DoD, contracting officers should consult contracting activities that regularly procure the product or service to understand the basis for determining that the product or service does not meet the commercial product or commercial service definition at FAR [2.101](#). If there is no prior commercial product or commercial service determination or prior decision that an product or service does not meet the definition of a commercial product or commercial service at FAR [2.101](#), see PGI 212.102(a)(iii)(B).

(v) *Commercial product or commercial service guidebook*. See the [Department of Defense Guidebook for Acquiring Commercial Items, Part A: Commercial Item Determination](#), for detailed guidance and practical examples on improving the consistency and timeliness of commercial product or commercial service determinations to include a template for new commercial product or commercial service determinations and for general information related to commercial products or commercial services.

**PGI 212.4 -UNIQUE REQUIREMENTS REGARDING TERMS AND CONDITIONS
FOR COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES**

This page intentionally left blank.

PGI 212.70 -PILOT PROGRAM FOR TRANSITION TO FOLLOW-ON CONTRACTING AFTER USE OF OTHER TRANSACTION AUTHORITY

PGI 212.7003 Limitations.

(a) Prior to awarding a contract in excess of \$100 million pursuant to a commercial solutions opening (CSO), contracting officers shall prepare a written determination for approval by the senior procurement executive that includes—

- (1) A description of the innovative commercial product, commercial service, or technology acquired;
 - (2) A description of the requirement, capability gap, or potential technological advancement with respect to which the innovative commercial product, commercial service, or technology acquired provides a solution or a potential new capability;
 - (3) A description of the efficacy of the effort to meet the mission needs of DoD or the relevant military department or defense agency;
 - (4) The proposed contract award amount; and
 - (5) The prospective contractor.
- (b) Include a copy of the approved determination in the contract file.

PGI 212.7005 Congressional notification.

Military departments and defense agencies shall provide notification to the congressional defense committees no later than 45 days after the award of a contract valued at more than \$100 million resulting from a CSO.

- (a) The contracting officer shall prepare a notice of award for the congressional defense committees that includes—
- (1) A description of the innovative commercial product, commercial service, or technology acquired;
 - (2) A description of the requirement, capability gap, or potential technological advancement with respect to which the innovative commercial product, commercial service, or technology acquired provides a solution or a potential new capability;
 - (3) The contract award amount; and
 - (4) The contractor awarded the contract.
- (b) Submit the notice of award in accordance with department/agency procedures.
- (c) Include a copy of the notice of award in the contract file.

PGI 213.1 -PROCEDURES

PGI 213.104 Promoting competition.

For information on the various approaches that may be used to competitively fulfill DoD requirements, see the Office of the Under Secretary of Defense for Acquisition and Sustainment Guidelines for Creating and Maintaining a Competitive Environment for Supplies and Services in the Department of Defense.

This page intentionally left blank.

PGI 213.2 -ACTIONS AT OR BELOW THE MICRO-PURCHASE THRESHOLD

PGI 213.201 General.

(g)(i) The higher micro-purchase thresholds in FAR 13.201(g) are authorized for purchases that have a clear and direct relationship to the support of a contingency operation; to facilitate defense against or recovery from cyber, nuclear, biological, chemical, or radiological attack; to support a request from the Secretary of State or the Administrator of the United States Agency for International Development to facilitate provision of international disaster assistance pursuant to 22 U.S.C. 2292 et seq.; or to support response to an emergency or major disaster (42 U.S.C. 5122).

(ii) "United States," as used in this section, is defined in FAR 2.101(b).

(iii) Except as provided in paragraph (iv) of this section, the following tables illustrate the micro-purchase threshold based on the physical location of the Government purchaser and, for services, the place of performance:

(A) For supplies—

Government Purchaser Physical Location	Authorized Micro-Purchase Threshold
Inside United States	\$20,000
Outside United States	\$35,000

(B) For services—

Government Purchaser Physical Location	Place of Performance	Authorized Micro-Purchase Threshold
Inside United States	Inside or outside United States	\$20,000
Outside United States	Inside United States	\$20,000
Outside United States	Outside United States	\$35,000

(iv)(A) Unless authorized by statute, Government purchasers physically located inside the United States are prohibited from using the micro-purchase threshold authorized for purchases made and/or with a place of performance outside the United States.

(B) The micro-purchase threshold for acquisitions subject to 41 U.S.C. chapter 67, Service Contract Labor Standards, remains \$2,500.

(C) The \$2,000 micro-purchase threshold for acquisitions of construction subject to 40 U.S.C. chapter 31, subchapter IV, Wage Rate Requirements (Construction), remains unchanged in the event of a declared contingency operation; a cyber, nuclear, biological, chemical, or radiological attack; a request from the Secretary of State or the Administrator of the United States Agency for International Development to facilitate provision of international disaster assistance pursuant to 22 U.S.C. 2292 et seq.; or an emergency or major disaster (42 U.S.C. 5122), regardless of the criteria described above.

(D) The micro-purchase thresholds in paragraph (g)(iii) of this section are not authorized for acquisitions supporting humanitarian or peacekeeping operations.

This page intentionally left blank.

PGI 213.3 -SIMPLIFIED ACQUISITION METHODS

PGI 213.301 Governmentwide commercial purchase card.

(1) A Governmentwide commercial purchase card program is a program that is authorized pursuant to a delegation of contracting authority and designation as a DoD contracting activity for the purpose of streamlining the purchase and payment processes for supplies and services by use of a Government-issued purchase card.

(2) Governmentwide commercial purchase card programs cannot be established or operated unless contracting authority is granted in accordance with governing laws and regulations, and delegated through a contracting activity identified at [202.101](#) . Further guidance regarding establishment, operation, and oversight of Governmentwide commercial purchase card programs can be found in the “Department of Defense Government Charge Card Guidebook for Establishing and Managing Purchase, Travel, and Fuel Card Programs” at <https://www.acq.osd.mil/asda/dpc/ce/pc/docs-guides.html> .

PGI 213.302 Purchase orders.

PGI 213.302-3 Obtaining contractor acceptance and modifying purchase orders.

Generally, use unilateral modifications (see FAR 43.103) for—

- (1) No-cost amended shipping instructions if—
 - (i) The amended shipping instructions modify a unilateral purchase order; and
 - (ii) The contractor agrees orally or in writing; and
- (2) Any change made before work begins if—
 - (i) The change is within the scope of the original order;
 - (ii) The contractor agrees;
 - (iii) The modification references the contractor’s oral or written agreement; and
 - (iv) Block 13D of Standard Form 30, Amendment of Solicitation/Modification of Contract, is annotated to reflect the authority for issuance of the modification.

PGI 213.306 SF 44, Purchase Order-Invoice-Voucher.

(a) (1) (A) Establish fuel card accounts—

(I) For DoD customers, contact the Service or Agency Component Program Manager (CPM) for fuel cards (see <http://www.desc.dla.mil/DCM/Files/CPMPOCs06022010.pdf>; and

(2) For non-DoD customers, contact the designated Account Manager identified at <http://www.desc.dla.mil/DCM/DCMPage.asp?pageid=41>.

(B) Purchases using the AIR Card® and SEA Card® shall follow the guidance found at <http://www.desc.dla.mil/DCM/DCMPage.asp?pageid=28>.

PGI 213.307 Forms.

(a) *Commercial products and commercial services.* If SF 1449 is not used, use DD Form 1155 in accordance with paragraph (b)(i) of this section.

(b) *Other than commercial products and commercial services.*

(i) Use DD Form 1155, Order for Supplies or Services, for purchases made using simplified acquisition procedures.

(A) The DD Form 1155 serves as a—

- (1) Purchase order or blanket purchase agreement;
- (2) Delivery order or task order;
- (3) Receiving and inspection report;
- (4) Property voucher;
- (5) Document for acceptance by the supplier; and
- (6) Public voucher, when used as—
 - (i) A delivery order;
 - (ii) The basis for payment of an invoice against blanket purchase agreements or basic ordering agreements when a firm-fixed-price has been established; or
 - (iii) A purchase order for acquisitions using simplified acquisition procedures.

(B) The DD Form 1155 is also authorized for use for—

- (1) Orders placed in accordance with FAR Subparts 8.4, 8.6, 8.7, and 16.5; and

(2) Classified acquisitions when the purchase is made within the United States or its outlying areas. Attach the DD Form 254, Contract Security Classification Specification, to the purchase order.

(ii) Do not use Optional Form 347, Order for Supplies or Services, or Optional Form 348, Order for Supplies or Services Schedule—Continuation.

(iii) Use Standard Form 30, Amendment of Solicitation/Modification of Contract, to—

(A) Modify a purchase order; or

(B) Cancel a unilateral purchase order.

PGI 215.1 -SOURCE SELECTION PROCESSES AND TECHNIQUES

PGI 215.101 RESERVED

PGI 215.101-2-70 Limitations and prohibitions.

(a) *Limitations.*

(1)(vi) Contracting officers shall obtain guidance from the requiring activity when it is unclear whether a supply is “predominately expendable in nature” or “nontechnical,” or has a “short life expectancy” or “short shelf life.” In such situations, contracting officers shall only use the lowest price technically acceptable source selection process if the requiring activity establishes that the goods to be procured are predominantly expendable in nature, are nontechnical, or have a short life expectancy or short shelf life.

(vii) The contracting officer shall document the contract file with a determination from the requiring activity that the lowest priced offer reflects full life-cycle costs for the supply or service. For additional information on life-cycle costs for supplies, see DoD Instruction 4140.01, DoD Supply Chain Material Management Policy. For services, full life-cycle costs are equal to the contract cost of the services.

This page intentionally left blank.

PGI 215.3 -SOURCE SELECTION

PGI 215.300 -Scope of subpart.

See the policy tab for Principal Director, Defense Pricing, Contracting, and Acquisition Policy memorandum dated August 20, 2022, entitled “[Department of Defense Source Selection Procedures](#),” that provides the procedures to be used within DoD when conducting negotiated, competitive acquisitions utilizing FAR [part 15](#) procedures.

PGI 215.303 Responsibilities.

(b)(2) The source selection plan—

(A) Shall be prepared and maintained by a person designated by the source selection authority or as prescribed by agency procedures; and

(B) Shall be coordinated with the contracting officer and senior advisory group, if any, within the source selection organization.

PGI 215.304 Evaluation factors and significant subfactors.

(c)(i)(A) Evaluation factors may include—

(1) The extent to which such firms are specifically identified in proposals;

(2) The extent of commitment to use such firms (for example, enforceable commitments are to be weighted more heavily than non-enforceable ones);

(3) The complexity and variety of the work small firms are to perform;

(4) The realism of the proposal;

(5) Past performance of the offerors in complying with requirements of the clauses at FAR 52.219-8, Utilization of Small Business Concerns, and 52.219-9, Small Business Subcontracting Plan; and

(6) The extent of participation of such firms in terms of the value of the total acquisition.

(v) Using authority granted in section 806 of Pub. L. 111-383 to exclude a source based on supply chain risk requires an evaluation factor for supply chain risk, as specified at DFARS 239.73. Evaluating supply chain risk requires review of the supply chain, including all information technology subcontractors and suppliers that are proposed for use at any time in the performance of the contract and may involve the use of all-source intelligence information. The requiring activity is responsible for obtaining any necessary all-source intelligence information and must inform the contracting officer and source selection authority of the results of the review for use in evaluating offers.

PGI 215.370 Evaluation factor for employing or subcontracting with members of the Selected Reserve.

PGI 215.370-2 Evaluation factor.

(1) This evaluation factor may be used as an incentive to encourage contractors to use employees or individual subcontractors who are members of the Selected Reserve.

(2) As with all evaluation factors and subfactors, the contracting officer should consider the impact the inclusion of this factor will have on the resulting contract and weight it accordingly.

PGI 215.371 Only one offer.

PGI 215.371-2 Promote competition.

(a) For competitive solicitations in which more than one potential offeror expressed an interest in an acquisition, but only one offer was ultimately received, the Contracting Officer shall—

(1) Seek feedback (e.g., issue an RFI) after award from potential offerors expected to submit an offer; and

(2) Document any feedback received in the contract file.

(b) Agencies shall use any feedback received when considering how to overcome barriers to competition for future requirements.

This page intentionally left blank.

PGI 215.4 - CONTRACT PRICING

PGI 215.402 Pricing policy.

(1) Contracting officers must purchase supplies and services from responsible sources at fair and reasonable prices. The Truthful Cost and Pricing statute (10 U.S.C. chapter 271 and 41 U.S.C. chapter 35) requires offerors to submit certified cost or pricing data if a procurement exceeds the Truthful Cost and Pricing threshold and none of the exceptions to certified cost or pricing data requirements applies. Under the Truthful Cost and Pricing statute, the contracting officer obtains accurate, complete, and current data from offerors to establish a fair and reasonable price (see FAR 15.403). The Truthful Cost and Pricing statute also allows for a price adjustment remedy if it is later found that a contractor did not provide accurate, complete, and current data.

(2) When certified cost or pricing data are not required, and the contracting officer does not have sufficient data to determine price reasonableness, FAR 15.402(a)(2) requires the offeror to provide whatever data the contracting officer needs in order to determine fair and reasonable prices.

(3) Obtaining sufficient data from the offeror is particularly critical in situations where an item is determined to be a commercial product or service in accordance with FAR 2.101 and the contract is being awarded on a sole source basis. This includes commercial sales data of products or services sold in similar quantities and, if such data is insufficient, cost data to support the proposed price.

(4) See PGI [215.404-1](#) and the Department of Defense Guidebook for Acquiring Commercial Items, [Part B: Pricing Commercial Items](#), for more detailed procedures and guidance on obtaining data needed to determine fair and reasonable prices.

PGI 215.403 Obtaining certified cost or pricing data.

PGI 215.403-1 Prohibition on obtaining certified cost or pricing data (10 U.S.C. chapter 271 and 41 U.S.C. chapter 35).

(b) *Exceptions to certified cost or pricing data requirements.* Even if an exception to certified cost or pricing data applies, the contracting officer is still required to determine price reasonableness. In order to make this determination, the contracting officer may require data other than certified cost or pricing data, including data related to prices and cost data that would otherwise be defined as certified cost or pricing data if certified.

(c)(3) *Commercial products or commercial services.* See the Department of Defense Guidebook for Acquiring Commercial Items, [Part B: Pricing Commercial Items](#), for detailed guidance about techniques and approaches to pricing commercial products and commercial services.

(4) *Waivers.*

(A) *Exceptional case TINA waiver.*

(1) In determining that an exceptional case TINA waiver is appropriate, the head of the contracting activity (HCA) must exercise care to ensure that the supplies or services could not be obtained without the waiver and that the determination is clearly documented. [See DPAP March 23, 2007, policy memorandum](#). The intent is not to relieve entities that normally perform Government contracts subject to TINA from an obligation to certify that cost or pricing data are accurate, complete, and current. Instead, waivers must be used judiciously, in situations where the Government could not otherwise obtain a needed item without a waiver. A prime example would be when a particular company offers an item that is essential to DoD's mission but is not available from other sources, and the company refuses to submit certified cost or pricing data. In such cases, a waiver may be appropriate. However, the procuring agency should, in conjunction with the waiver, develop a strategy for procuring the item in the future that will not require such a waiver (e.g., develop a second source, develop an alternative product that satisfies the department's needs, or have DoD produce the item).

(2) *Senior procurement executive coordination.* An exceptional case TINA waiver that exceeds \$100 million shall be coordinated with the senior procurement executive prior to granting the waiver.

(3) *Waiver for part of a proposal.* The requirement for submission of certified cost or pricing data may be waived for part of an offeror's proposed price when it is possible to clearly identify that part of the offeror's cost proposal to which the waiver applies as separate and distinct from the balance of the proposal. In granting a partial waiver, in addition to complying with the requirements in DFARS [215.403-1\(c\)\(4\)](#), the (HCA) must address why it is in the Government's best interests to grant a partial waiver, given that the offeror has no objection to certifying to the balance of its cost proposal.

(4) *Waivers for unpriced supplies or services.* Because there is no price, unpriced supplies or services cannot be subject to cost or pricing data certification requirements. The Government cannot agree in advance to waive

certification requirements for unpriced supplies or services, and may only consider a waiver at such time as an offeror proposes a price that would otherwise be subject to certification requirements.

(B) The annual report of waiver of TINA requirements shall include the following:

Title: Waiver of TINA Requirements

(1) Contract number, including modification number, if applicable, and program name.

(2) Contractor name.

(3) Contracting activity.

(4) Total dollar amount waived.

(5) Brief description of why the item(s) could not be obtained without a waiver. [See DPAP March 23, 2007, policy memorandum.](#)

(6) Brief description of the specific steps taken to ensure price reasonableness.

(7) Brief description of the demonstrated benefits of granting the waiver.

PGI 215.403-3 Requiring data other than certified cost or pricing data.

To the extent that certified cost or pricing data are not required by FAR 15.403-4 and there is no other means for the contracting officer to determine that prices are fair and reasonable, the offeror is required to submit “data other than certified cost or pricing data” (see definition at FAR 2.101). In accordance with FAR 15.403-3(a), the offeror must provide appropriate data on the prices at which the same or similar items have previously been sold, adequate for determining the reasonableness of the price. The following clarifies these requirements:

(1) *Data other than certified cost or pricing data.* When certified cost or pricing data are not required, the contracting officer must obtain whatever data is necessary in order to determine the reasonableness of the price. The FAR defines this as “data other than certified cost or pricing data.” When TINA does not apply and there is no other means of determining that prices are fair and reasonable, the contracting officer must obtain appropriate data on the prices at which the same or similar items have been sold previously, adequate for evaluating the reasonableness of the price. Sales data must be comparable to the quantities, capabilities, specifications, etc., of the product or service proposed. Sufficient steps must be taken to verify the integrity of the sales data, to include assistance from the Defense Contract Management Agency, the Defense Contract Audit Agency, and/or other agencies if required. See PGI 215.404-1 (DFARS/PGI view) for more detailed procedures for obtaining data from offerors to determine price reasonableness.

(2) Previously been sold. Contracting officers shall request offerors to provide data related to prior sales (or “offered for sale”) in support of price reasonableness determinations.

(3) Adequacy of sales data for pricing. The contracting officer must determine if the prior sales data is sufficient for determining that prices are fair and reasonable. If the sales data is not sufficient, additional data shall be obtained, including cost data if necessary. See PGI 215.404-1 (DFARS/PGI view) for more detailed procedures for obtaining whatever data is needed to determine fair and reasonable prices.

(4) *Analysis of historical prices paid by the Government.*

(i) The contracting officer shall consider prices paid by the Government and commercial customers. The contracting officer shall not rely solely on a prior price paid by the Government, without further analysis (see FAR 15.404).

(A) The contracting officer shall verify and document that sufficient analysis was performed to determine that the prior price was fair and reasonable. Sometimes, due to exigent situations, supplies or services are purchased even though an adequate price or cost analysis could not be performed. The problem is exacerbated when other contracting officers assume these prices were adequately analyzed and determined to be fair and reasonable.

(B) The contracting officer also shall investigate and document the following considerations:

(1) verify that the quantities were similar for pricing purposes, making adjustments as necessary to ensure comparability with the current quantity requirement;

(2) Consider whether the historical purchases were recent enough to be relevant for the purpose of establishing price reasonableness of the current acquisition, and escalate or deflate the historical prices as appropriate to facilitate comparison to the current proposed price; and

(3) Validate that the terms and conditions associated with the historical purchases were comparable to the current terms and conditions, or adjust the historical prices in a manner that accounts for the materially differing terms and conditions.

(ii) Not verifying that a previous analysis was performed, or the inconsistencies in quantities, has been a recurring issue on sole source commercial products and commercial services reported by oversight organizations. Sole source

commercial products and commercial services require extra attention to verify that previous prices paid on Government contracts were sufficiently analyzed and determined to be fair and reasonable.

(iii) At a minimum, a contracting officer reviewing price history shall discuss the basis of previous prices paid with the contracting organization that previously bought the item. These discussions shall be documented in the contract file.

(5) *Canadian Commercial Corporation*. All contracts with the Canadian Commercial Corporation (CCC) are placed in accordance with the practices, policies and procedures of the Government of Canada covering procurement for defense purposes (See PGI [225.870](#)). Contracting Officers may rely on the confirmation and endorsement of the offer from the Canadian Commercial Corporation at [225.870-3\(a\)](#) as an endorsement of the cost/price as no more than would be charged to the Canadian government.

(i) When [252.215-7003](#) or [252.215-7004](#) are included in a solicitation with the Canadian Commercial Corporation, the data required by paragraph (b)(i) and (ii), in concert with the confirmation and endorsement of the offer, is intended to meet the requirements of FAR 15.404-1 for documentation of fair and reasonable pricing.

(ii) Use of [252.215-7003](#) or [252.215-7004](#) in sole source acquisitions not meeting the threshold at [215.408\(2\)\(i\)\(A\)](#) or (ii)(A)(I) or competitive acquisitions at any dollar value shall be supported by a determination and finding justifying the anticipated need for data other than certified cost or pricing data to determine a fair and reasonable price.

(iii) When the contracting officer anticipates the need for additional data to establish a fair and reasonable price, specific data should be requested at time of solicitation as detailed in DFARS [252.215-7003](#).

(iv) Examples of clause use:

Scenario Requirement

Sole source to CCC, fixed price, with estimated value of \$600 million.	Include provision and clause in accordance with 215.408(2)(i)(A)(2) and (ii)(A)(I)(ii), respectively, because estimated value exceeds \$500 million.
Sole source to CCC, cost reimbursement, with estimated value of \$800,000.	Include provision and clause in accordance with 215.408(2)(i)(A)(I) and (ii)(A)(I)(i), respectively, because estimated value exceeds \$750,000.
Sole source to CCC, cost-reimbursement, with estimated value of \$500,000.	Do not include provision and clause, unless D&F is approved in accordance with 215.408(2)(i)(B) and (ii)(A)(2)), respectively, because estimated value does not exceed \$750,000.
Sole source to CCC, fixed price, with estimated value of \$800,000	Do not include provision and clause, unless D&F is approved in accordance with 215.408(2)(i)(B) and (ii)(A)(2)), respectively, because estimated value does not exceed \$500 million.
Modifications to contracts that include the clause 252.215-7004 .	If 252.215-7004 is included in the contract, then data are required for modifications valued above the simplified acquisition threshold, or a higher threshold specified in the solicitation by the contracting officer, in accordance with 252.215-7004(b) .

(6) Reporting requirements.

(i) All contracting officers are required to document, collect, and provide a report in the standard digital format (see paragraph (ii) of this section) to the (HCA) of all denials of contracting officer requests to offerors/contractors for data other than certified cost or pricing data that are not resolved through the elevation process at PGI [215.404-1](#) (a)(i)(A) and, therefore, require a determination by the (HCA) in accordance with FAR 15.403-3(a)(4).

(ii) The (HCA) shall consolidate and validate this information for all impacted contracts and modifications regardless of dollar value and submit the information in the standard digital format available at https://www.acq.osd.mil/dpap/dars/pgi/docs/Denials_Template_1-24-21. A completed report or note of no findings is required to the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP). Reports are due to DPCAP 30 days after the end of each quarterly reporting period. Transmit reports electronically to DPCAP at osd.pentagon.ousd-a-s.mbx.dpc-pcf@mail.mil.

(7) *Delegation.* The HCA may delegate, no lower than one level above the contracting officer, the authority to determine whether it is in the best interest of the Government to issue an award in accordance with DFARS [215.403-3\(a\)\(4\)](#). This designee may be the individual responsible for approval of the prenegotiation objective (see DFARS [215.406-1](#)), unless that individual is the contracting officer.

PGI 215.404 Proposal analysis.

PGI 215.404-1 Proposal analysis techniques.

(a) General.

(i) The objective of proposal analysis is to ensure that the final agreed-to price is fair and reasonable.

(A) When the contracting officer needs data to determine price reasonableness and the offeror will not furnish that data, use the following sequence of steps to resolve the issue:

(i) The contracting officer should make it clear what data is required and why it is needed to determine fair and reasonable prices, and should be flexible in requesting data in existing formats with appropriate explanations from the offeror.

(ii) If the offeror refuses to provide the data, the contracting officer should elevate the issue within the contracting activity.

(iii) Contracting activity management shall, with support from the contracting officer, discuss the issue with appropriate levels of the offeror's management.

(iv) If the offeror continues to refuse to provide the data, contracting activity management shall elevate the issue to the head of the contracting activity for a decision in accordance with FAR 15.403-3(a)(4).

(v) The contracting officer shall document the contract file to describe—

(a) The data requested and the contracting officer's need for that data;

(b) Why there is currently no other alternative but to procure the item from this particular source; and

(c) A written plan for avoiding this situation in the future (e.g., develop a second source by...; bring the procurement in house to the Government by...).

(vi) Consistent with the requirements at FAR 15.304 and 42.1502 and the DoD Guide to Collection and Use of Past Performance Information, Version 3, dated May 2003, the contracting officer shall, unless exempted by the HCA, provide input into the past performance system, noting the offeror's refusal to provide the requested information.

(B) In some cases, supplies or services that are not subject to TINA may require a cost analysis (see paragraph (c) of this section). This will occur when a price analysis is not sufficient for determining prices to be fair and reasonable. In such cases, the contracting officer should consider the need for a Defense Contract Audit Agency audit of the cost data.

(C) Particular attention should be paid to sole source commercial products or commercial services. While the order of preference at FAR 15.402 must be followed, if the contracting officer cannot determine price reasonableness without obtaining data other than cost or pricing data from the offeror, at a minimum, the contracting officer must obtain appropriate data on the prices at which the same or similar items have been sold previously (often previous sales data was the basis of the commercial item determination and must be requested during price analysis of the data provided by the offeror). If previous sales data is not sufficient to determine price reasonableness, the contracting officer must obtain "data other than certified cost or pricing data" and, if necessary, perform a cost analysis.

(D) Analysis of termination proposals, including termination of any contract scope, should not rely solely on earned value management budgets or estimates for estimating the costs of all work deleted, or the cost of deleted work already performed (reference FAR Subpart 15.4, Table 15-2—Instructions for Submitting Cost/Price Proposals When Certified Cost or Pricing Data are Required, columns (2) and (3) of section III.B., Change Orders, Modifications, and Claims).

(b) Price analysis.

(i) See the Department of Defense Guidebook for Acquiring Commercial Items, [Part B: Pricing Commercial Items](#), for detailed guidance about techniques and approaches to pricing commercial products and commercial services.

(v) Contracting officers must obtain and document sufficient data to confirm that previous prices paid by the Government were based on a thorough price and/or cost analysis. For example, it would not be sufficient to use price(s) from a database paid by another contracting officer without understanding the type of analysis that was performed to determine the reasonableness of the price(s), and without verifying that the quantities were similar for pricing purposes. This does not necessarily need to be another analysis, but there should be coordination with the other office that acknowledges an analysis was performed previously.

(vii) See the Department of Defense Guidebook for Acquiring Commercial Items, Part B: Pricing Commercial Items, for information about how to obtain advisory assistance from the DoD cadre of experts in the Defense Contract Management Agency (DCMA) Commercial Item Group (CIG) via email at dcma.boston-ma.eastern-rc.mbx.Commercial@mail.mil or at <http://www.dcmamail.commercial-item-group/>.

(c) *Cost analysis.*

(i) When the contracting officer cannot obtain sufficient data to perform a price analysis in accordance with the pricing steps in FAR 15.404-1(b), a cost analysis is required.

(ii) When a solicitation is not subject to TINA and a cost analysis is required, the contracting officer must clearly communicate to the offeror the cost data that will be needed to determine if the proposed price is fair and reasonable.

(iii) To the extent possible, when cost or pricing data are not required to be submitted in accordance with Table 15-2 of FAR 15.408, the contracting officer should accept the cost data in a format consistent with the offeror's records.

(iv) The contracting officer must always consider the need for field pricing support from the Defense Contract Management Agency, the Defense Contract Audit Agency, and/or other agencies.

(e) *Technical analysis.* Requesting technical assistance is particularly important when evaluating pricing related to items that are "similar to" items being purchased or commercial products or commercial services that are "of a type" or require "minor modifications." Technical analysis can assist in pricing these types of items by identifying any differences between the item being acquired and the "similar to" item. In particular, the technical review can assist in evaluating the changes that are required to get from the "similar to" item, to the item being solicited, so the contracting officer can determine sufficient price/cost analysis techniques when evaluating that the price for the item being solicited is fair and reasonable. See the Department of Defense Guidebook for Acquiring Commercial Items, Part B: Pricing Commercial Items, for information about how to obtain advisory assistance from the DoD cadre of experts in the (DCMA) (CIG) via email at dcma.boston-ma.eastern-rc.mbx.Commercial@mail.mil or at <http://www.dcmamail.commercial-item-group/>.

(h) *Review and justification of pass-through contracts.*

(2)(A) This requirement applies to acquisitions that include the clause at FAR 52.215-23, Limitations on Pass-Through Charges, as prescribed at FAR 15.408(n)(2)(i)(B). When considering alternative approaches or making the determination that the contracting approach selected is in the best interest of the Government as required by FAR 15.404-1(h)(2), consider the following elements:

(1) The requirement, proposed prime contractor, and overall proposed contract value.

(2) The information provided in response to the provision at FAR 52.215-22, Limitations on Pass-Through Charges—Identification of Subcontract Effort, regarding the subcontracts, and the estimated value of the proposed subcontracts.

(3) The availability of alternative existing contracts that would allow direct access to the subcontractor, such as existing indefinite delivery/indefinite quantity contracts, Federal Supply Schedule contracts, or Governmentwide agency contracts. Perform market research as appropriate.

(4) Potential cost savings of directly contracting with the subcontractor.

(5) Feasibility of competition for the subcontracted effort or justification for single source procurement.

(6) Potential impacts to the contracting and program schedule for implementing a direct contract with the subcontractors or conducting a competition for the subcontracted effort.

(7) Changes in performance risk as result of eliminating prime contractor oversight and substituting direct government oversight. Risks may include loss of prime contractor knowledge of integration and program requirements, availability of government contracting and contract administration personnel, reduced system or program accountability of the prime contractor who is no longer responsible for the entire effort, impact on warranties.

(8) Subcontractor past performance and experience directly managing programs of this size.

(B) DoD components shall include reviews of compliance in routine procurement management reviews or other inspections.

PGI 215.404-2 Data to support proposal analysis.

(a) *Field pricing assistance.* See PGI 215.404-2(c) regarding when to request audit assistance.

(i) The contracting officer should consider requesting field pricing assistance for—

(A) Fixed-price proposals exceeding the certified cost or pricing data threshold;

(B) Cost-type proposals exceeding the certified cost or pricing data threshold from offerors with material weaknesses; or

(C) Cost-type proposals exceeding \$10 million from offerors without material weaknesses.

(ii) The contracting officer should not request field pricing support for proposed contracts or modifications in an amount less than that specified in paragraph (a)(i) of this subsection. An exception may be made when a reasonable pricing result cannot be established because of—

(A) A lack of knowledge of the particular offeror; or

(B) Sensitive conditions (e.g., a change in, or unusual problems with, an offeror's internal systems).

(c) *Audit assistance for prime contracts or subcontracts.*

(i) The contracting officer should consider requesting audit assistance from DCAA for—

(A) Fixed-price proposals exceeding \$10 million;

(B) Cost-type proposals exceeding \$100 million.

(ii) The contracting officer should not request DCAA audit assistance for proposed contracts or modifications in an amount less than that specified in paragraph (c)(i) of this subsection unless there are exceptional circumstances explained in the request for audit. (See PGI [215.404-2](#) (a)(i) for requesting field pricing assistance without a DCAA audit.)

(iii) If, in the opinion of the contracting officer or auditor, the review of a prime contractor's proposal requires further review of subcontractors' cost estimates at the subcontractors' plants (after due consideration of reviews performed by the prime contractor), the contracting officer should inform the administrative contracting officer (ACO) having cognizance of the prime contractor before the review is initiated.

(iv) Notify the appropriate contract administration activities when extensive, special, or expedited field pricing assistance will be needed to review and evaluate subcontractors' proposals under a major weapon system acquisition. If audit reports are received on contracting actions that are subsequently cancelled, notify the cognizant auditor in writing.

(v) Requests for audit assistance for subcontracts should use the same criteria as established in paragraphs (c)(i) and (c)(ii) of this subsection.

PGI 215.404-3 Subcontract pricing considerations.

(a) The contracting officer should consider the need for field pricing analysis and evaluation of lower-tier subcontractor proposals, and assistance to prime contractors when they are being denied access to lower-tier subcontractor records.

(i) When obtaining field pricing assistance on a prime contractor's proposal, the contracting officer should request audit or field pricing assistance to analyze and evaluate the proposal of a subcontractor at any tier (notwithstanding availability of data or analyses performed by the prime contractor) if the contracting officer believes that such assistance is necessary to ensure the reasonableness of the total proposed price. Such assistance may be appropriate when, for example—

(A) There is a business relationship between the contractor and the subcontractor not conducive to independence and objectivity;

(B) The contractor is a sole source supplier and the subcontract costs represent a substantial part of the contract cost;

(C) The contractor has been denied access to the subcontractor's records;

(D) The contracting officer determines that, because of factors such as the size of the proposed subcontract price, audit or field pricing assistance for a subcontract at any tier is critical to a fully detailed analysis of the prime contractor's proposal;

(E) The contractor or higher-tier subcontractor has been cited for having significant estimating system deficiencies in the area of subcontract pricing, especially the failure to perform adequate cost analyses of proposed subcontract costs or to perform subcontract analyses prior to negotiation of the prime contract with the Government; or

(F) A lower-tier subcontractor has been cited as having significant estimating system deficiencies.

(ii) It may be appropriate for the contracting officer or the ACO to provide assistance to a contractor or subcontractor at any tier, when the contractor or higher-tier subcontractor has been denied access to a subcontractor's records in carrying out the responsibilities at FAR 15.404-3 to conduct price or cost analysis to determine the reasonableness of proposed subcontract prices. Under these circumstances, the contracting officer or the ACO should consider whether providing audit or field pricing assistance will serve a valid Government interest.

(iii) When DoD performs the subcontract analysis, DoD shall furnish to the prime contractor or higher-tier subcontractor, with the consent of the subcontractor reviewed, a summary of the analysis performed in determining any unacceptable costs included in the subcontract proposal. If the subcontractor withholds consent, DoD shall furnish a range of unacceptable costs for each element in such a way as to prevent disclosure of subcontractor proprietary data.

(iv) Price redeterminable or fixed-price incentive contracts may include subcontracts placed on the same basis. When the contracting officer wants to reprice the prime contract even though the contractor has not yet established final prices for the subcontracts, the contracting officer may negotiate a firm contract price—

- (A) If certified cost or pricing data on the subcontracts show the amounts to be reasonable and realistic; or
- (B) If certified cost or pricing data on the subcontracts are too indefinite to determine whether the amounts are reasonable and realistic, but—
 - (1) Circumstances require prompt negotiation; and
 - (2) A statement substantially as follows is included in the repricing modification of the prime contract:

As soon as the Contractor establishes firm prices for each subcontract listed below, the Contractor shall submit (in the format and with the level of detail specified by the Contracting Officer) to the Contracting Officer the subcontractor's cost incurred in performing the subcontract and the final subcontract price. The Contractor and the Contracting Officer shall negotiate an equitable adjustment in the total amount paid or to be paid under this contract to reflect the final subcontract price.

(v) If the selection of the subcontractor is based on a trade-off among cost or price and other non-cost factors rather than lowest price, the analysis supporting subcontractor selection should include a discussion of the factors considered in the selection (also see FAR 15.101 and 15.304 and DFARS [215.304](#)). If the contractor's analysis is not adequate, return it for correction of deficiencies.

(vi) The contracting officer shall make every effort to ensure that fees negotiated by contractors for cost-plus-fixed-fee subcontracts do not exceed the fee limitations in FAR 15.404-4(c)(4).

PGI 215.404-70 DD Form 1547, Record of Weighted Guidelines Method Application.

- (1) The DD Form 1547—
 - (i) Provides a vehicle for performing the analysis necessary to develop a profit objective; and
 - (ii) Provides a format for summarizing profit amounts subsequently negotiated as part of the contract price.
- (2) The contracting officer shall—
 - (i) Use and prepare a DD Form 1547 whenever a structured approach to profit analysis is required by DFARS [215.404-4](#)(b) (see DFARS [215.404-71](#), [215.404-72](#), and [215.404-73](#) for guidance on using the structured approaches). Administrative instructions for completing the form are in PGI [253.215-70](#).
 - (ii) Ensure that the DD Form 1547 is accurately completed. The contracting officer is responsible for the correction of any errors detected by the management system auditing process.

PGI 215.404-71 Weighted guidelines method.

PGI 215.404-71-4 Facilities capital employed.

- (c) *Use of DD Form 1861 - Field pricing support.*
 - (i) The contracting officer may ask the ACO to complete the forms as part of field pricing support.
 - (ii) When the Weighted Guidelines Method is used, completion of the DD Form 1861 requires data not included on the Form CASB-CMF, i.e., distribution percentages of land, building, and equipment for the business unit performing the contract. Choose the most practical method for obtaining this data, for example—
 - (A) Contract administration offices could obtain the data through the process used to establish factors for facilities capital cost of money or could establish advance agreements on distribution percentages for inclusion in field pricing reports;
 - (B) The corporate ACO could obtain distribution percentages; or
 - (C) The contracting officer could request the data through a solicitation provision.

PGI 215.406 RESERVED

PGI 215.406-1 Prenegotiation objectives.

- (a) Also consider—
 - (i) Data resulting from application of work measurement systems in developing prenegotiation objectives; and
 - (ii) Field pricing assistance personnel participation in planned prenegotiation and negotiation activities.
- (b) Prenegotiation objectives, including objectives related to disposition of findings and recommendations contained in preaward and postaward contract audit and other advisory reports, shall be documented and reviewed in accordance with departmental procedures.

(i) *Significant Disagreements.* (A) Contracting officers and contract auditors have complementary roles in the contracting process and are expected to collaborate to determine fair and reasonable contract values, in accordance with [Director, Defense Procurement and Acquisition Policy memorandum dated December 4, 2009, Subject: Resolving Contract Audit Recommendations](#). When a significant disagreement arises on questioned costs, the contracting officer and the auditor shall discuss the basis of the disagreement. The contracting officer shall document that discussion and their disagreement in a written communication to the auditor. The contracting officer shall also document the disagreement in the prenegotiation objective (or pre-business clearance). The contracting officer may then proceed with negotiations when the prenegotiation objectives are approved.

(B) A significant disagreement is defined as the contracting officer planning to sustain less than 75-percent of the total recommended questioned costs in a Defense Contract Audit Agency (DCAA) audit report of a contractor proposal for an initial contract or a contract modification with a value equal to or greater than \$10 million. It does not apply to costs that DCAA has categorized as unsupported or unresolved in its audit report.

(ii) *Adjudication Procedures.* DCAA has 3 days to elevate the issues within the contracting officer's activity after receipt of the contracting officer's written communication confirming the disagreement. Furthermore, DCAA may appeal the significant issues up the chain of command as established in each component's "Resolving Contract Audit Recommendations" policy. If issues remain, the Director, DCAA may escalate from the Defense component's head of contracting activity or senior procurement executive, to the Principal Director, DPCAP. If the DCAA Director believes that the Principal Director, DPCAP has not adequately addressed the matter, the disagreement may finally be elevated to the Under Secretary of Defense for Acquisition and Sustainment, , and the Comptroller.

(iii) Notwithstanding the above, the Director, DCAA, may always raise audit issues to the Principal Director, DPCAP.

(c) *Cost estimates for program baselines and contract negotiations for major defense acquisition programs.*

(i) For the purpose of contract negotiations and obligation of funds under this paragraph, the Government shall prepare cost analyses and targets based on the Government's reasonable expectation of successful contractor performance in accordance with the contractor's proposal and previous experience.

(ii) Cost estimates developed for baseline descriptions and other program purposes by the Director of Cost Assessment and Program Evaluation pursuant to its functions, do not meet the criteria described in paragraph (c)(i) of this subsection and, thus, shall not be used for purposes of developing the Government's contract negotiation position or for the obligation of funds. However, the Government may consider the data used to develop such estimates when developing the cost analyses and targets described in paragraph (c)(i) of this subsection.

(d) See Frequently asked "Questions and Answers" at http://www.acq.osd.mil/dpap/cpic/cp/sec_808_NDAA.html relating to the limitations placed on the Department of Defense for aggregate annual amounts available for contracted services in accordance with section 808 of the National Defense Authorization Act for Fiscal year 2012, P.L. 112-81 and DFARS Class Deviation 2012-O0012, Limitation on Amounts Available for Contracted Services, dated July 31, 2012.

PGI 215.406-2 Certificate of current cost or pricing data.

(c)(i) Prior to the start of negotiations, contracting officers should notify offerors and contractors that—

(A) A Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2, shall be submitted as soon as practicable after agreement on price (preferably within 5 days after price agreement), but before contract award or execution of a modification (except for unpriced actions such as letter contracts).

(B) A Certificate of Current Cost or Pricing Data that deviates from the language specified in FAR 15.406-2, or has been amended to include certification of data submitted after the date of price agreement, will not be accepted.

(ii) If any data is submitted after the date of price agreement, contracting officers shall—

(A) Notify offerors in writing that such data will not be reviewed until after contract award and will be dispositioned in accordance with FAR 15.407-1 and FAR clause 52.215-10 or 52.215-11, as applicable; or

(B) Consider the previous price agreement null and void, and prior to award—

(1) Reopen negotiations to assess the impact of the data submitted after the date of price agreement ("sweep data");

(2) Reestablish price agreement based on cost or pricing data that is accurate, complete, and current as of the date of the revised agreement on price; and

(3) Request a new Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2, to include the sweep data and any new or revised data submitted after the previous certification.

(iii) If a contractor persistently submits untimely “sweep” data or fails to timely submit cost or pricing data or the certification that the data are accurate, complete, and current as of the data of price agreement, the contracting officer should refer the matter to the Defense Contract Audit Agency (DCAA) via the Administrative Contracting Officer, Divisional Administrative Contracting Officer, or Corporate Administrative Contracting Officer, as appropriate, for consideration in DCAA’s review of the adequacy of the contractor’s estimating system.

PGI 215.406-3 Documenting the negotiation.

(a)(7) Include the principal factors related to the disposition of findings and recommendations contained in preaward and postaward contract audit and other advisory reports.

(10) The documentation—

(A) Shall address significant deviations from the prenegotiation profit objective;

(B) Should include the DD Form 1547, Record of Weighted Guidelines Application (see DFARS [215.404-70](#)), if used, with supporting rationale;

(C) Shall address the rationale for not using the weighted guidelines method when its use would otherwise be required by DFARS [215.404-70](#); and

(D) Shall be marked “FOR OFFICIAL USE ONLY”, as appropriate and in accordance with [DoD Manual 5200.01](#), Volume 4.

(11) The contracting officer is responsible to ensure the approved prenegotiation and post negotiation noncompetitive business clearance documents (e.g., price negotiation memoranda) are uploaded into the Contract Business Analysis Repository (CBAR) at <https://piee.eb.mil/> for the purpose of sharing negotiation experience with other contracting officers preparing to negotiate. This includes both noncompetitive actions using the procedures at FAR part 12, Acquisition of Commercial Products and Commercial Services, as well as noncompetitive actions using the procedures at FAR part 15, Contracting by Negotiation, that are valued in excess of \$25 million and awarded on or after June 24, 2013 (and for all definitized or awarded actions over \$100 million, which occurred on or after October 1, 2012).

(A) Business clearance documents uploaded to CBAR shall be marked "FOR OFFICIAL USE ONLY (FOUO)" at the top and bottom of the face or cover page, and on the bottom of each page containing FOUO, including the back page or cover.

(B) The business clearance documents uploaded to CBAR shall be signed by the contracting officer and shall include all other signatures required by local policy/procedure.

(C) The documentation shall be uploaded to CBAR no later than 30 days after award of the contract action associated with the negotiation and shall include both the prenegotiation objectives required by FAR 15.406-1 and PGI [215.406-1](#), and the record of negotiations (i.e. the Price Negotiation Memoranda required by FAR 15.406-3 and PGI [215.406-3](#)). The contracting officer shall complete the “description of acquisition” field with keywords and searchable terms to identify the products and services acquired. Additionally, the contracting officer shall complete the “comments” field of the CBAR record to summarize unique features and aspects of the negotiation in order to prompt other contracting teams to inquire further to learn from their peers’ prior experience.

(D) If an initial indefinite-delivery indefinite-quantity (IDIQ) task or delivery order contract contemplates issuance of task or delivery orders that will invoke negotiated rates or values from the basic contract, then the business clearance record for the basic IDIQ contract shall be uploaded if the estimated value of the contract (e.g. ceiling price) exceeds the prescribed dollar threshold. To the extent individual task or delivery orders entail a negotiation (i.e. did not simply incorporate prices established at the basic contract level), a business clearance record for the individual task or delivery orders that exceed the prescribed dollar thresholds shall be uploaded to CBAR.

(E) For additional information about obtaining access to and training for the CBAR database, see the Director, Defense Contract Management Agency memorandum, dated April 2, 2013. [Click here](#).

PGI 215.407 RESERVED

PGI 215.407-2 Make-or-buy programs.

(d) *Solicitation Requirements.* Consider the following factors when deciding whether to request a make-or-buy plan—

- (1) The prime contractor’s assumption of risk;
- (2) The prime contractor’s plant capacity;
- (3) The prime contractor’s degree of vertical integration;
- (4) The prime contractor’s internal resources;

- (5) The anticipated contract type;
- (6) The complexity, uniqueness, or configuration maturity associated with the end item or its subsystems;
- (7) Critical path items;
- (8) The impact on contract overhead rates with respect to maintaining work in-house;
- (9) The industrial base that could potentially satisfy some system requirements, based on market survey;
- (10) Proprietary data and/or trade secrets;
- (11) Potential product quality concerns associated with items that would be subject to subcontracting;
- (12) Integrated master schedule timelines and their tolerances for variation;
- (13) The availability and experience of program office personnel to credibly analyze and evaluate a submission; and
- (14) Socioeconomic considerations, e.g. small business or labor surplus area concerns.

(f) *Evaluation, negotiation, and Agreement.* When a make-or-buy plan is required, listed below are factors that may be considered when evaluating a submission—

- (1) Prime contractor past performance, especially with respect to subcontract management;
- (2) Prime contractor make-or-buy history;
- (3) Adequacy of contractor's existing make-or-buy processes, including cost and technical risk considerations;
- (4) Component availability through existing sources, e.g. available inventory, or other Government contracts;
- (5) Prime contractor plant capacity;
- (6) The adequacy of the prime contractor's technical, financial and personnel capabilities; and
- (7) Prime contractor justification that is provided with respect to items it does not normally make.

PGI 215.407-4 Should-cost review.

(b) *Program should-cost review.*

(2) DoD contracting activities should consider performing a program should-cost review before award of a definitive contract for a major system as defined by DoDI 5000.2. See DoDI 5000.2 regarding industry participation.

(c) *Overhead should-cost review.*

(1) Contact the Defense Contract Management Agency (DCMA) (<http://www.dcm.mil/>) for questions on overhead should-cost analysis.

(2)(A) DCMA or the military department responsible for performing contract administration functions (e.g., Navy SUPSHIP) should consider, based on risk assessment, performing an overhead should-cost review of a contractor business unit (as defined in FAR 2.101) when all of the following conditions exist:

- (1) Projected annual sales to DoD exceed \$1 billion;
- (2) Projected DoD versus total business exceeds 30 percent;
- (3) Level of sole-source DoD contracts is high;
- (4) Significant volume of proposal activity is anticipated;
- (5) Production or development of a major weapon system or program is anticipated; and
- (6) Contractor cost control/reduction initiatives appear inadequate.

(B) The head of the contracting activity may request an overhead should-cost review for a business unit that does not meet the criteria in paragraph (c)(2)(A) of this subsection.

(C) Overhead should-cost reviews are labor intensive. These reviews generally involve participation by the contracting, contract administration, and contract audit elements. The extent of availability of military department, contract administration, and contract audit resources to support DCMA-led teams should be considered when determining whether a review will be conducted. Overhead should-cost reviews generally should not be conducted at a contractor business segment more frequently than every 3 years.

PGI 215.407-5 Estimating systems.

PGI 215.407-5-70 Disclosure, maintenance, and review requirements.

(e) *Disposition of findings.*

(2) *Initial determination.*

(ii)(A) Within 30 days of receiving the report, if the contracting officer makes a determination that there is a material weakness, the contracting officer should provide an initial determination of material weaknesses and a copy of the report to the contractor and require the contractor to submit a written response.

(C) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(3) *Final determination.*

(ii)(A) *Monitoring contractor's corrective action.* The auditor and the contracting officer shall monitor the contractor's progress in correcting material weaknesses and deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the weaknesses and deficiencies. Actions the contracting officer may take include: withdraw or withhold approval of the system; bringing the issue to the attention of higher level management; reducing or suspending progress payments (see FAR 32.503-6); recommending non-award of potential contracts, as applicable; and for material weaknesses, implementing or increasing the withholding in accordance with 252.242-7005, Contractor Business Systems.

(B) *Correction of material weaknesses.*

(1) When the contractor notifies the contracting officer that the contractor has corrected the material weaknesses, the contracting officer shall request that the auditor review the correction to determine if the weaknesses and deficiencies have been resolved.

(2) The contracting officer shall determine if the contractor has corrected the weaknesses and deficiencies.

(3) If the contracting officer determines the contractor has corrected the weaknesses and deficiencies, send the contracting officer's notification to the auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor, as applicable.

PGI 215.470 Estimated data prices.

(b)(i) The form and the provision included in the solicitation request the offeror to state what portion of the total price is estimated to be attributable to the production or development of the listed data for the Government (not to the sale of rights in the data). However, offerors' estimated prices may not reflect all such costs; and different offerors may reflect these costs in a different manner, for the following reasons—

(A) Differences in business practices in competitive situations;

(B) Differences in accounting systems among offerors;

(C) Use of factors or rates on some portions of the data;

(D) Application of common effort to two or more data items; and

(E) Differences in data preparation methods among offerors.

(ii) Data price estimates should not be used for contract pricing purposes without further analysis.

PGI 216.1 -SELECTING CONTRACT TYPES

PGI 216.104 Factors in selecting contract type.

See the policy tab for Principal Director, Defense Pricing, Contracting, and Acquisition Policy memorandum dated April 1, 2016, entitled “Guidance on Using Incentive and Other Contract Types,” when selecting and negotiating the most appropriate contract type for a given procurement.

PGI 216.104-70 Research and development.

(1) *General.* There are several categories of research and development (R&D) contracts: research, exploratory development, advanced development, engineering development, and operational systems development (see DFARS [235.001](#) for definitions). Each category has a primary technical or functional objective. Different parts of a project may fit several categories. The contract type must fit the work required, not just the classification of the overall program.

(2) *Research and exploratory development.*

- (i) Price is not necessarily the primary factor in determining the contract type.
- (ii) The nature of the work to be performed will usually result in a cost-plus award fee, cost-plus fixed fee term, cost-no-fee, or cost-sharing contract.
- (iii) If the Government and the contractor can identify and agree upon the level of contractor effort required, the contracting officer may select a firm fixed-price level-of-effort contract, except see DFARS [235.006](#).
- (iv) If the Government and the contractor agree that an incentive arrangement is desirable and capable of being evaluated after completion of the work, the contracting officer may use an incentive type contract.

(3) *Advanced development.*

- (i) The nature of the work to be performed often results in a cost-plus fixed fee completion type contract.
- (ii) Contracting officers may select incentive contracts if—
 - (A) Realistic and measurable targets are identified; and
 - (B) Achievement of those targets is predictable with a reasonable degree of accuracy.
- (iii) Contracting officers should not use contracts with only cost incentives where—
 - (A) There will be a large number of major technical changes; or
 - (B) Actions beyond the control of the contractor may influence the contractor's achievement of cost targets.
- (4) Engineering development and operational systems development.
 - (i) When selecting contract types, also consider—
 - (A) The degree to which the project is clearly defined, which in turn affects the contractor's ability to provide accurate cost estimates;
 - (B) The need for effort that will overlap that of earlier stages;
 - (C) The need for firm technical direction by the Government; and
 - (D) The degree of configuration control the Government will exercise.
 - (ii) For development efforts, particularly for major defense systems, the preferred contract type is cost reimbursement.

(iii) Contracting officers should use fixed-price type contracts when risk has been reduced to the extent that realistic pricing can occur; e.g., when a program has reached the final stages of development and technical risks are minimal, except see DFARS [235.006](#).

This page intentionally left blank.

PGI 216.2 -FIXED-PRICE CONTRACTS

PGI 216.203 Fixed-price contracts with economic price adjustment.

PGI 216.203-4 Contract clauses.

Contracting officers should use caution when incorporating Economic Price Adjustment (EPA) provisions in contracts. EPA provisions can result in significant and unanticipated price increases which can have major adverse impacts to a program. EPA provisions should be used only when general economic factors make the estimating of future costs too unpredictable within a fixed-price contract. The primary factors that should be considered before using an EPA provision include volatility of labor and/or material costs and contract length. In cases where cost volatility and/or contract length warrant using an EPA provision, the provision must be carefully crafted to ensure an equitable adjustment to the contract. Accordingly, contracting officers should always request assistance from their local pricing office, the Defense Contract Management Agency, or the Defense Contract Audit Agency when contemplating the use of an EPA provision.

For adjustments based on cost indexes of labor or material, use the following guidelines:

- (1) Do not make the clause unnecessarily complex.
- (2) Normally, the clause should not provide either a ceiling or a floor for adjustment unless adjustment is based on indices below the six-digit level of the Bureau of Labor Statistics (BLS)—
 - (i) Producer Price Index;
 - (ii) Employment Cost Index for wages and salaries, benefits, and compensation costs for aerospace industries (but see paragraphs (3) and (6) of this subsection); or
 - (iii) North American Industry Classification System (NAICS) Product Code.
- (3) DoD contracting officers may no longer use the BLS employment cost index for total compensation, aircraft manufacturing (NAICS Product Code 336411, formerly Standard Industrial Classification Code 3721, Aircraft) in any EPA clause in DoD contracts. This index is ineffective for use as the basis for labor cost adjustments in EPA clauses in DoD contracts.

The BLS employment cost index for wages and salaries, aircraft manufacturing may still be used in EPA clauses for labor costs. If a BLS index for benefits is desired, contracting officers should use a broader based index that will smooth the effects of any large pension contributions, such as the employment cost index for benefits, total private industry. If a total compensation index is desired, contracting officers should consider the creation of a hybrid index by combining the above referenced indices at a predetermined percentage. For example, a hybrid total compensation index could consist of 68 percent employment cost index for wages and salaries, aircraft manufacturing, and 32 percent of the employment cost index for benefits, private industry.

(4) Normally, the clause should cover potential economic fluctuations within the original contract period of performance using a trigger band. Unless the economic fluctuation exceeds the trigger value, no EPA clause adjustments are made.

- (5) The clause must accurately identify the index(es) upon which adjustments will be based.
 - (i) It must provide for a means to adjust for appropriate economic fluctuation in the event publication of the movement of the designated index is discontinued. This might include the substitution of another index if the time remaining would justify doing so and an appropriate index is reasonably available, or some other method for repricing the remaining portion of work to be performed.
 - (ii) Normally, there should be no need to make an adjustment if computation of the identified index is altered. However, it may be appropriate to provide for adjustment of the economic fluctuation computations in the event there is such a substantial alteration in the method of computing the index that the original intent of the parties is negated.
 - (iii) When an index to be used is subject to revision (e.g., the BLS Producer Price Indexes), the EPA clause must specify that any economic price adjustment will be based on a revised index and must identify which revision to the index will be used.

(6) The basis of the index should not be so large and diverse that it is significantly affected by fluctuations not relevant to contract performance, but it must be broad enough to minimize the effect of any single company, including the anticipated contractor(s).

(7) Construction of an index is largely dependent upon three general series published by the U.S. Department of Labor, BLS. These are the—

- (i) Industrial Commodities portion of the Producer Price Index;

(ii) Employment Cost Index for wages and salaries, benefits, and compensation costs for aerospace industries (but see paragraphs (3) and (6) of this subsection); and

(iii) NAICS Product Code.

(8) Normally, do not use more than two indices, i.e., one for labor and one for material.

(9) The clause must establish and properly identify a base period comparable to the contract periods for which adjustments are to be made as a reference point for application of an index.

(10) The clause should not provide for an adjustment beyond the original contract performance period, including options. The start date for the adjustment may be the beginning of the contract or a later time, as appropriate, based on the projected rate of expenditures.

(11) The expenditure profile for both labor and material should be based on a predetermined rate of expenditure (expressed as the percentage of material or labor usage as it relates to the total contract price) in lieu of actual cost incurred.

(i) If the clause is to be used in a competitive acquisition, determine the labor and material allocations, with regard to both mix of labor and material and rate of expenditure by percentage, in a manner which will, as nearly as possible, approximate the average expenditure profile of all companies to be solicited so that all companies may compete on an equal basis.

(ii) If the clause is to be used in a noncompetitive acquisition, the labor and material allocations may be subject to negotiation and agreement.

(iii) For multiyear contracts, establish predetermined expenditure profile tables for each of the annual increments in the multiyear buy. Each of the second and subsequent year tables must be cumulative to reflect the total expenditures for all increments funded through the latest multiyear funding.

(12) The clause should state the percentage of the contract price subject to price adjustment.

(i) Normally, do not apply adjustments to the profit portion of the contract.

(ii) Examine the labor and material portions of the contract to exclude any areas that do not require adjustment. For example, it may be possible to exclude—

(A) Subcontracting for short periods of time during the early life of the contract which could be covered by firm-fixed-priced subcontracting;

(B) Certain areas of overhead, e.g., depreciation charges, prepaid insurance costs, rental costs, leases, certain taxes, and utility charges;

(C) Labor costs for which a definitive union agreement exists; and

(D) Those costs not likely to be affected by fluctuation in the economy.

(iii) Allocate that part of the contract price subject to adjustment to specific periods of time (e.g., quarterly, semiannually, etc.) based on the most probable expenditure or commitment basis (expenditure profile).

(13) The clause should provide for definite times or events that trigger price adjustments. Adjustments should be frequent enough to afford the contractor appropriate economic protection without creating a burdensome administrative effort. The adjustment period should normally range from quarterly to annually.

(14) When the contract contains cost incentives, any sums paid to the contractor on account of EPA provisions must be subtracted from the total of the contractor's allowable costs for the purpose of establishing the total costs to which the cost incentive provisions apply. If the incentive arrangement is cited in percentage ranges, rather than dollar ranges, above and below target costs, structure the EPA clause to maintain the original contract incentive range in dollars.

(15) The EPA clause should provide that once the labor and material allocations and the portion of the contract price subject to price adjustment have been established, they remain fixed through the life of the contract and shall not be modified except in the event of significant changes in the scope of the contract. The clause should state that pricing actions pursuant to the Changes clause or other provisions of the contract will be priced as though there were no provisions for economic price adjustment. However, subsequent modifications may include a change to the delivery schedule or significantly change the amount of, or mix of, labor or material for the contract. In such cases, it may be appropriate to prospectively apply EPA coverage. This may be accomplished by—

(i) Using an EPA clause that applies only to the effort covered by the modification;

(ii) Revising the baseline data or period in the EPA clause for the basic contract to include the new work; or

(iii) Using an entirely new EPA clause for the entire contract, including the new work.

(16) Consistent with the factors in paragraphs (1) through (15) of this subsection, it may also be appropriate to provide in the prime contract for similar EPA arrangements between the prime contractor and affected subcontractors to allocate risks properly and ensure that those subcontractors are provided similar economic protection.

(17) When EPA clauses are included in contracts that do not require submission of

certified cost or pricing data as provided for in FAR 15.403-1, the contracting officer must obtain adequate data to establish the baseline from which adjustments will be made. The contracting officer may require verification of the data submitted to the extent necessary to permit reliance upon the data as a reasonable baseline.

PGI 216.4 -INCENTIVE CONTRACTS

PGI 216.401 General.

(c) Incentive contracts. DoD has established the Award and Incentive Fees Community of Practice (CoP) under the leadership of the Defense Acquisition University (DAU). The CoP serves as the repository for all related materials including policy information, related training courses, examples of good award fee arrangements, and other supporting resources. The CoP is available on the DAU Acquisition Community Connection at <https://acc.dau.mil/awardandincentivefees>. Additional information can be found on the MAX website maintained by the Office of Management and Budget at: <https://max.omb.gov>.

(e) Award-fee contracts.

(i) It is DoD policy to utilize objective criteria, whenever possible, to measure contract performance. In cases where an award-fee contract must be used due to lack of objective criteria, the contracting officer shall consult with the program manager and the fee determining official when developing the award-fee plan. Award-fee criteria shall be linked directly to contract cost, schedule, and performance outcomes objectives.

(ii) Award fees must be tied to identifiable interim outcomes, discrete events or milestones, as much as possible. Examples of such interim milestones include timely completion of preliminary design review, critical design review, and successful system demonstration. In situations where there may be no identifiable milestone for a year or more, consideration should be given to apportioning some of the award fee pool for a predetermined interim period of time based on assessing progress toward milestones. In any case, award fee provisions must clearly explain how a contractor's performance will be evaluated.

(iii) The head of the contracting activity for each defense agency shall retain the D&F for (a) all acquisition category (ACAT) I or II programs, and (b) all non-ACAT I or II contracts with an estimated value of \$50 million or more. The head of the contracting activity shall forward the D&Fs for ACAT I programs to Defense Pricing, Contracting, and Acquisition Policy/Contract Policy directorate (DPCAP/CP) within 1 month of the end of the quarter. Copies of D&Fs on all contracts shall also be included in the contract file.

PGI 216.402 Application of predetermined, formula-type incentives.

PGI 216.402-2 Technical performance incentives.

Contractor performance incentives should relate to specific performance areas of milestones, such as delivery or test schedules, quality controls, maintenance requirements, and reliability standards.

PGI 216.403 Fixed-price incentive contracts.

PGI 216.403-1 Fixed-price incentive (firm target) contracts.

(1) *Use of FPIF contract.*

(i) *Not mandatory.* DFARS [216.403-1\(b\)\(1\)](#) directs the contracting officer to give particular consideration to the use of fixed-price incentive (firm target) (FPIF) contracts, especially for acquisitions moving from development to production. DFARS does not mandate the use of FPIF for initial production and each acquisition situation must be evaluated in terms of the degree and nature of the risk presented in order to select the proper contract type.

(ii) *Considerations.* Volume 4, chapter 1, of the Contract Pricing Reference Guide provides a detailed discussion of the considerations involved in selecting the proper contract type. For example:

(A) It is not in the Government's best interest to use FPIF when the cost risk is so great that establishing a ceiling price is unrealistic.

(B) It is also not in the Government's best interest to use firm-fixed-price (FFP) contracts on production programs until costs have become stable. Therefore, FPIF contracts should be considered in production and sole source follow-on programs where actual costs on prior FFP contracts have varied by more than 3-4 percent from the costs considered negotiated. Contracting officers are reminded that actual costs on prior contracts for the same item or essentially the same item, regardless of contract type or data reporting requirements of the prior contract, are cost and pricing data on the pending contract, and must be obtained from the contractor on production programs when certified cost or pricing data are required.

(C) For sole source major systems procurements, contracting officers should utilize FPIF contracts instead of FFP contracts unless the reasons for significant variation are well understood and actions have been taken to ensure that significant variation will not recur. In addition, when options are included as described in PGI [217.202](#) (2), the use of FPIF

contracts is both highly recommended and encouraged, because both parties will be assuming more risk in pricing multiple years of requirements.

(2) *Incentive arrangement.* DFARS [216.403-1](#)(b)(2) directs the contracting officer to pay particular attention to share lines and ceiling prices for fixed-price incentive (firm target) contracts, with 120 percent ceiling and a 50/50 share ratio as the point of departure for establishing the incentive arrangement. While DFARS does not mandate the use of these share ratios or ceiling percentage, it is not unreasonable to expect that upon entering into production, risks have been mitigated to the point that the DFARS recommended point of departure for an FPIF incentive arrangement would be normal.

(3) *Analyzing risk.*

(i) *Quantification of risk.*

(A) The first step is establishing a target cost for which the probability of an underrun and overrun are considered equal and therefore, the risks and rewards are shared equally, hence the 50/50 share is the point of departure. Equally important is determining that the contractor has a high probability of being able to accomplish the effort within a ceiling percentage of 120 percent. In accomplishing both these steps, the analysis of risk is essential.

(B) Too often, risk is evaluated only in general terms without attempting to quantify the risk posed by the various elements of cost. Also, a contracting officer may incorrectly fall back on the share ratios and ceiling percentages negotiated on prior contracts or other programs, without examining the specific risks.

(C) Whether being used to select the proper contract type or establishing share lines and ceiling price on an FPIF contract, the analysis of risk as it pertains to the prime contractor is key. From a contractor's perspective, all risks, including technical and schedule risk, have financial ramifications. Technical and schedule risks, if realized, generally translate into increased effort, which means increased cost. Therefore, all risk can be translated into cost risk and quantified. Risk always has two components that must be considered in the quantification: the magnitude of the impact and the probability that it will occur.

(D) When cost risk is quantified, it is much easier to establish a reasonable ceiling percentage. The ceiling percentage is applicable to the target cost on the prime contract. It is important to understand the degree of risk that various cost elements pose in relation to that target cost. A discussion of the major cost elements and the risk implications follows in paragraphs (3)(ii) through (iv) of this section.

(ii) *Subcontracts and material cost and risk.*

(A) In many prime contractors' contracts, a substantial amount of risk is borne by subcontractors, not the prime contractor, via negotiated firm-fixed-price (FFP) subcontracts. In the case of FFP subcontracts, the subcontractor is obligated to deliver at the negotiated price. The risk to the prime contractor is the supplier's failure to perform or perform on time. Generally, that risk is considered to be low by both the prime and the subcontractor as evidenced by the FFP contract type. In addition, the prime contractor will normally have priced effort for material management or subcontract administration to ensure timely performance on the part of the suppliers. This effort may be bid directly or indirectly (e.g., as part of an overhead expense) depending on the contractor's accounting practices.

(B) The impact of negotiated FFP subcontracts on the prime contractor's risk can be significant. A prime contract with a 120 percent ceiling price provides overrun protection to the prime contractor equal to 20 percent of the target cost on the contract. However, if FFP subcontracts represent half of the total contract cost, then half of the target cost is subject to little or no cost risk on the part of the prime contractor. Therefore, the overrun protection provided by 20 percent of the target cost is really closer to 40 percent protection of the prime's cost that is truly at risk to the prime contractor, which likely is significantly overstated. Thus, a ceiling price less than 120 percent in this risk situation would be more appropriate.

(C) For subcontracts that have not yet been negotiated between the prime and subcontractor at the time of negotiation of the prime contract, the degree of risk is essentially limited to the difference between the price proposed by the subcontractor and the subcontract value included in the prime contractor's proposal.

(D) For subcontracts that are not FFP, the risk to the prime is based on the risk represented by the subcontractors' contractual relationship with the prime. If the subcontract is FPIF and has a 50/50 share ratio and 120 percent ceiling, the prime's risk is 50 percent of each dollar of overrun up to the ceiling amount. An analysis of the subcontractor's risk would be necessary to determine the probability of reaching the ceiling price.

(iii) *Direct labor cost and risk.*

(A) The risk in direct labor is in the hours needed to perform the effort and the risk in the labor rates paid to employees. There is generally little risk in the direct labor rates. However, there are various levels of risk in the direct labor hours needed by the prime contractor to accomplish the contract requirements. This risk can be driven by a number of factors including technical complexity, schedule constraints, or availability of personnel, parts, or tooling. Risks vary by task and the key is to identify the major tasks and assess the "what if" impact at the total contract cost level.

(B) Schedule is often correctly cited as a risk factor, but it is important to understand and quantify the probability and impact of a potential schedule slip. Generally, any schedule slip can only affect the prime contractor's in-house cost. Therefore, any schedule impact should be assessed on the impact it would have on the prime contractor's performance of its tasks.

(C) However, it is wrong to assume the worst-case scenario that a schedule delay results in an extension of the entire prime contractor workforce for the period of the delay. A responsible contractor will take steps to minimize both the delay and the impact of that delay. For instance, a production schedule assumes an optimal sequencing of tasks which presumes the timely arrival and availability of parts from suppliers or other in-house sources. A delay in receiving parts as planned could require a resequencing of tasks and could adversely affect the efficiency of performing a number of tasks, but it will not cause the entire workforce to be idle during the delay.

(iv) *Indirect (e.g., overhead) cost and risk.* Overhead and other indirect costs (e.g., general and administrative expense) can represent a significant portion of the prime contractor's in-house cost. Indirect expense (hereafter referred to as overhead) poses potential cost growth risk or the opportunity for cost reduction from the following two perspectives:

(A) *Actual overhead rate.* (1) First, the actual overhead rate could be different than that proposed. Proposed overhead rates, even those covered by a forward pricing rate agreement, are based on forecasts of overhead expenses and the bases to which they are applied. The final overhead rate that is actually applied (charged) to a contract will be based on the actual overhead expenses and the actual base, each of which could be considerably different than estimated. The net effect could be a higher or lower overhead rate than estimated.

(2) In general, the risk in an overhead rate tends to be driven more by fluctuations in the base than in the expenses. This is because overhead expenses are made up of expenses that consist of "fixed" (e.g., depreciation) and variable (e.g., fringe benefits) in nature. When the actual base turns out to be lower than the estimated base, the fixed costs are spread over a smaller base resulting in a higher overhead rate. In general, if the actual base is greater than estimated, a lower overhead rate will result.

(3) In assessing this risk, the contracting officer should consider the contractor's ability to predict overhead rates based on comparing proposed versus actual rates for prior years. In making this comparison, it is important to do so in a manner consistent with the proposal being reviewed. For instance, if the majority of overhead costs on the proposal being reviewed occur two years in the future, the comparison should look at the contractor's accuracy in predicting overhead rates two years in advance. For example, in looking at the 2009 actual overhead rate, what did the contractor propose for 2009 in its 2007 forward pricing rate proposal?

(B) *Actual base cost.* If the actual base cost on the contract (e.g., direct labor dollars) is different than that proposed, the contract will be charged overhead costs according to the actual base costs on that contract. If the contractor overruns direct labor, even if the actual labor overhead rate was the same as proposed, that rate would be applied to a higher base resulting in increased overhead dollars on that contract. The opposite would be true if the contractor underruns direct labor on the contract. Since this aspect of risk is tied to the base cost on the contract, the risk is the same as it is for those base costs (e.g., direct labor, material).

PGI 216.403-2 Fixed-price incentive (successive targets) contracts.

The formula specified in FAR 16.403-2(a)(1)(iii) does not apply for the life of the contract. It is used to fix the firm target profit for the contract. To provide an incentive consistent with the circumstances, the formula should reflect the relative risk involved in establishing an incentive arrangement where cost and pricing information were not sufficient to permit the negotiation of firm targets at the outset.

PGI 216.405 Cost-reimbursement incentive contracts.

PGI 216.405-1 Cost-plus-incentive-fee contracts.

Give appropriate weight to basic acquisition objectives in negotiating the range of fee and the fee adjustment formula. For example—

(1) In an initial product development contract, it may be appropriate to provide for relatively small adjustments in fee tied to the cost incentive feature, but provide for significant adjustments if the contractor meets or surpasses performance targets; and

(2) In subsequent development and test contracts, it may be appropriate to negotiate an incentive formula tied primarily to the contractor's success in controlling costs.

PGI 216.405-2 Cost-plus-award-fee contracts.

- (1) Although weighted guidelines do not apply per DFARS 216.405-2(3)(ii) when definitizing a contract action, the contracting officer shall, nevertheless, separately assess and document the reduced cost risk on the contract for—

(i) The period up to the date of definitization; as well as

(ii) The remaining period of performance (see DFARS 217.7404-6).
- (2) Normally, award fee is not earned when the fee-determining official has determined that contractor performance has been submarginal or unsatisfactory.
- (3) The basis for all award fee determinations shall be documented in the contract file.
- (4) The cost-plus-award-fee contract is also suitable for level of effort contracts where mission feasibility is established but measurement of achievement must be by subjective evaluation rather than objective measurement. See Table 16-1, Performance Evaluation Criteria, for sample performance evaluation criteria and Table 16-2, Contractor Performance Evaluation Report, for a sample evaluation report.
- (5) The contracting activity may—

(i) Establish a board to—

(A) Evaluate the contractor's performance; and

(B) Determine the amount of the award or recommend an amount to the contracting officer; and

(ii) Afford the contractor an opportunity to present information on its own behalf.

PGI 216.470 Other applications of award fees.

- The “award amount” portion of the fee may be used in other types of contracts under the following conditions:
- (1) The Government wishes to motivate and reward a contractor for—

(i) Purchase of capital assets (including machine tools) manufactured in the United States, on major defense acquisition programs; or

(ii) Management performance in areas which cannot be measured objectively and where normal incentive provisions cannot be used. For example, logistics support, quality, timeliness, ingenuity, and cost effectiveness are areas under the control of management which may be susceptible only to subjective measurement and evaluation.
- (2) The “base fee” (fixed amount portion) is not used.
- (3) The chief of the contracting office approves the use of the “award amount.”
- (4) An award review board and procedures are established for conduct of the evaluation.
- (5) The administrative costs of evaluation do not exceed the expected benefits.

TABLE 16-1, PERFORMANCE EVALUATION CRITERIA						
		Submarginal	Marginal	Good	Very Good	Excellent
A Time of Delivery.	(A-1) Adherence to plan schedule.	Consistently late on 20% plans	Late on 10% plans w/o prior agreement	Occasional plan late w/o justification.	Meets plan schedule.	Delivers all plans on schedule & meets prod. Change requirements on schedule
	(A-2) Action on Anticipated delays.	Does not expose changes or resolve them as soon as recognized.	Exposes changes but is dilatory in resolution on plans.	Anticipates changes, advise Shipyard but misses completion of design plans 10%.	Keeps Yard posted on delays, resolves independently on plans.	Anticipates in good time, advises Ship- yard, resolves independently and meets production requirements.

	(A-3) Plan Maintenance.	Does not complete interrelated systems studies concurrently.	System studies completed but constr. Plan changes delayed.	Major work plans coordinated in time to meet production schedules.	Design changes from studies and interrelated plant issued in time to meet product schedules.	Design changes, studies resolved and test data issued ahead of production requirements.
B Quality of Work.	(B-1) Work Appearance.	25% dwgs. Not compatible with Shipyard repro. processes and use.	20% not compatible with Shipyard repro. processes and use.	10% not compatible with Shipyard repro. processes and use.	0% dwgs prepared by Des. Agent not compatible with Shipyard repro. processes and use.	0% dwgs. Presented incl. Des. Agent, vendors, subcontr. Not compatible with Shipyard repro processes and use.
	(B-2) Thoroughness and Accuracy of Work.	Is brief on plans tending to leave questionable situations for Shipyard to resolve.	Has followed guidance, type and standard dwgs.	Has followed guidance, type and standard dwgs. Questioning and resolving doubtful areas.	Work complete with notes and thorough explanations for anticipated questionable areas.	Work of highest caliber incorporating all pertinent data required including related activities.
	(B-3) Engineering Competence.	Tendency to follow past practice with no variation to meet reqmts. job in hand.	Adequate engrg. To use & adapt existing designs to suit job on hand for routine work.	Engineered to satisfy specs., guidance plans and material provided.	Displays excellent knowledge of constr. Reqmts. considering systems aspect, cost, shop capabilities and procurement problems.	Exceptional knowledge of Naval shipwork & adaptability to work process incorporating knowledge of future planning in Design.
B Quality of Work (Cont'd)	(B-4) Liaison Effectiveness	Indifferent to requirements of associated activities, related systems, and Shipyard advice.	Satisfactory but dependent on Shipyard of force resolution of problems without constructive recommendations requiring to subcontr. or vendors.	Maintains normal contract with associated activities depending on Shipyard for problems requiring military resolution.	Maintains independent contact with all associated activities, keeping them informed to produce compatible design with little assistance for Yard.	Maintains expert contact, keeping Yard informed, obtaining info from equip, supplies w/o prompting of Shipyard.

	(B-5)	Constant surveillance required to keep job from slipping—assign to low priority to satisfy needs.	Requires occasional prodding to stay on schedule & expects Shipyard resolution of most problems.	Normal interest and desire to provide workable plans with average assistance & direction by Shipyard.	Complete & accurate job. Free of incompatibilities with little or no direction by Shipyard.	Develops complete and accurate plans, seeks out problem areas and resolves with assoc. act. ahead of schedule.
C Effectiveness in Control- ling and/or Reducing Costs	(C-1) Utilization of Personnel	Planning of work left to designers on drafting boards.	Supervision sets & reviews goals for designers.	System planning by supervisory, personnel, studies checked by engineers.	Design parameters established by system engineers & held in design plans.	Mods. to design plans limited to less than 5% as result lack engrg. System correlation.
	(C-2) Control Direct Charges (Except Labor)	Expenditures not controlled for services.	Expenditures reviewed occasionally by supervision.	Direct charges set & accounted for on each work package.	Provides services as part of normal design function w/o extra charges.	No cost overruns on original estimates absorbs service demands by Shipyard.
	(C-3) Performance to Cost Estimate	Does not meet cost estimate for original work or changes 30% time.	Does not meet cost estimate for original work or changes 20% time.	Exceeds original est. on change orders 10% time and meets original design costs.	Exceeds original est. on changing orders 5% time.	Never exceeds estimates of original package or change orders.

PGI 216.5 -INDEFINITE-DELIVERY CONTRACTS

PGI 216.505 Ordering.

(b)(2) *Exceptions to the fair opportunity process.* For an order exceeding the simplified acquisition threshold, that is a follow-on to an order previously issued for the same supply or service based on a justification for an exception to fair opportunity citing the authority at FAR 16.505(b)(2)(i)(B) or (C)—

(A) The justification shall include a copy of the previous justification to assist the approval authority in determining whether the actions to remove or overcome any barriers that led to the exception to fair opportunity cited on the previous justification were completed; and

(B) The approval authority shall determine whether the planned actions were completed. If the actions were not completed, the justification for the follow-on action must be approved by the approval authority one-level above the approval authority for the previous justification (see FAR 16.505(b)(2)(ii)(C)). If the previous justification was approved by the Senior Procurement Executive (SPE), the approval remains at the SPE level.

PGI 216.505-70 Orders under multiple-award contracts.

(b) For task orders issued under multiple-award indefinite-delivery indefinite-quantity services contracts, contracting officers shall, when minimum labor category qualifications exist in the underlying contract—

(1) Ensure solicitations contain minimum labor category qualifications deemed necessary for successful task order performance, such as education and years of work experience, that are consistent with the contract's requirements;

(2) When allowed under the terms of the contract, identify any exceptions from labor category qualifications, such as education and years of work experience, proposed by the contractor as an alternative. When exceptions exist, contracting officers shall –

(i) Identify any proposed exception from the labor category qualifications in the contract file, considering any potential performance and price impacts on the agency's requirements, and

(ii) Document the reasons for accepting any proposed alternatives to the contract requirements; and

(3) Include verification procedures within the quality assurance surveillance plan to ensure contractor personnel providing the service meet qualification requirements identified for the labor categories specified in the task order and contract. Verification, such as validation of contractor personnel education and years of relevant work experience, ensures the Government receives adequate services, as identified in task order and contract performance requirements (see FAR 46.104 and 46.407).

This page intentionally left blank.

PGI 216.7 -AGREEMENTS

PGI 216.703 Basic ordering agreements.

(d)(i) Individual orders under a basic ordering agreement shall be individually closed following completion of the orders (see FAR 4.804).

(ii) The office issuing the agreement shall furnish all authorized ordering offices sufficient information for the ordering office to complete its contract reporting responsibilities under DFARS 204.670-2 or, in the case of civilian agencies, the Federal Procurement Data System reporting requirement. Data furnished to civilian agencies must contain uncoded information about the data elements and the meanings of the codes to permit these users to translate the data into the federal format. This data must be furnished to the ordering activity in sufficient time for the activity to prepare its report for the action within 3 working days of the order.

(iii) Any activity listed in the agreement may issue orders on DD Form 1155, Order for Supplies or Services, or Standard Form 26, Award/Contract.

PGI 217.2 -OPTIONS

PGI 217.202 Use of options.

- (1) Options may be used for foreign military sales (FMS) requirements.
- (2) For sole source major systems for U.S. and U.S./FMS combined procurements, contracting officers, in coordination with program managers, are encouraged to—
 - (i) Establish priced options for two years beyond the base year, so that negotiations of major systems will be conducted approximately every three years; and
 - (ii) In those cases where exact quantities are subject to variation, or FMS customers are not yet identified, establish range option pricing for both U.S. and FMS quantities.
- (3) Consider use of surge options to support industrial capability. A surge option allows the Government, prior to final delivery, to—
 - (i) Accelerate the contractor's production rate in accordance with a surge production plan or a delivery schedule provided by the contractor under the terms of the contract; and
 - (ii) Purchase additional quantities of supplies or services.
- (4) See DFARS Subpart 217.74 for limitations on the use of undefinitized options.

PGI 217.207 Exercise of options.

Before exercising an option for firm-fixed-price contracts containing spare parts, the contracting officer shall perform a cost or price analysis of the proposed spare parts. The contracting officer shall use an appropriate sampling technique or request field pricing assistance, and document the contract file with the results of the cost or price analysis.

PGI 217.5 -INTERAGENCY ACQUISITIONS

PGI 217.502 Procedures.

PGI 217.502-1 General.

(a) *Written agreement on responsibility for management and administration—*

(1) *Assisted acquisitions.* When the contracting activity of one DoD Component provides acquisition assistance to deployed units or personnel from another DoD Component—

(A) The written interagency agreement between the servicing DoD Component and the requesting DoD Component, required by FAR 17.502-1(a)(1), shall be documented on the FS Form 7600A, United States Government Interagency Agreement (see template at <https://www.fiscal.treasury.gov/files/forms/form-7600a.pdf>);

(B) Procurement support should be on a nonreimbursable basis, unless the parties mutually agree, in writing, for reimbursable support; and

(C) The DD Form 448, Military Interdepartmental Purchase Request (MIPR), shall be used to provide a description of the supplies/services and certification of funds available to support the requirement.

This page intentionally left blank.

PGI 217.7 - Interagency Acquisitions: Acquisitions by Nondefense Agencies on Behalf of the Department of Defense**PGI 217.770 Procedures.**

(a)(3)

(i) Departments and agencies shall ensure full awareness of the total costs of all fees associated with use of a non-DoD contracting vehicle. In order to ensure full awareness, the DoD acquisition official shall require the servicing agency to—

(A) Provide notification if its acquisition approach will use another agency's contract vehicle; and

(B) Identify all fees (direct and indirect) associated with the assisted acquisition.

(ii) The DoD acquisition official shall document in the business decision the rationale to continue with the assisted acquisition given the total fees (direct and indirect) involved.

This page intentionally left blank.

PGI 217.71 -MASTER AGREEMENT FOR REPAIR AND ALTERATION OF VESSELS

PGI 217.7103 Master agreements and job orders.

PGI 217.7103-1 Content and format of master agreements.

(1) A master agreement shall contain all clauses required by DFARS [217.7104\(a\)](#), statute, and Executive order.

(2) The following format may be adapted to fit specific circumstances:

MASTER AGREEMENT FOR REPAIR AND ALTERATION OF VESSELS

1. This agreement is entered into this ____ day of _____, by the United States of America (the "Government") represented by _____, the Contracting Officer, and _____, a corporation organized and existing under the laws of the State of _____ (the "Contractor").

2. The clauses in this agreement, shall be incorporated, by reference or attachment, in job orders issued under this agreement to effect repairs, alterations, and/or additions to vessels.

3. By giving 30 days written notice, either party to this agreement has the right to cancel it without affecting the rights and liabilities under any job order existing at the time of cancellation. The Contractor shall perform, under the terms of this agreement, all work covered by any job order awarded before the effective date of the cancellation.

4. This agreement may be modified only by mutual agreement of the parties. A modification of this agreement shall not affect any job order in existence at the time of modification, unless the parties agree otherwise.

5. The rights and obligations of the parties to this agreement are set forth in this agreement and the clauses of any job orders issued under this agreement. In the event there is an inconsistency between this agreement and any job order, the provisions of this agreement shall govern.

6. This agreement shall remain in effect until cancelled by either party.

THE UNITED STATES OF AMERICA	
by	(Contracting Officer)
	(Contractor)
by	(Authorized Individual)
	(Title)

PGI 217.7103-3 Solicitations for job orders.

(1) Include in the solicitation—

- (i) The nature of the work to be performed;
- (ii) The date the vessel will be available to the contractor;
- (iii) The date the work is to be completed; and
- (iv) Whether bulk ammunition is aboard the vessel.

(2) Unless the solicitation states otherwise, offers are to be based on performance at the contractor's site.

(3) Solicitations processed under negotiated acquisition procedures shall require offerors to include a breakdown of the price with reasonable supporting detail in whatever format and detail the contracting officer may request.

(4) Where practicable, afford potential offerors an opportunity to inspect the item needing repair or alteration.

PGI 217.7103-4 Emergency work.

Process this type of undefinitized contract action in accordance with DFARS Subpart 217.74. Negotiate a price as soon as practicable after the issuance of an undefinitized order and definitize the job order upon completing negotiations.

PGI 217.7103-5 Repair costs not readily ascertainable.

If the nature of any repairs is such that their extent and probable cost cannot be ascertained readily, the solicitation should —

- (1) Solicit offers for determining the nature and extent of the repairs;
- (2) Provide that upon determination by the contracting officer of what work is necessary, the contractor, if requested by the contracting officer, shall negotiate prices for performance of the repairs; and
- (3) Provide that prices for the repairs, if ordered, will be set forth in a modification of the job order.

This page intentionally left blank.

PGI 217.74 -UNDEFINITIZED CONTRACT ACTIONS

PGI 217.7404 RESERVED

PGI 217.7404-1 Authorization.

(1) The requiring activity, in coordination with the contracting office, will prepare the request for approval package for an undefinitized contract action (UCA) requirement. The approval package shall—

- (i) Document why a UCA is required (for letter contracts see DFARS [216.603](#));
- (ii) Provide a detailed explanation for the need to begin performance before definitization;
- (iii) Address the adverse impact on agency requirements that would result from delays in beginning performance;
- (iv) Identify the risk of using a UCA and the means by which the Government will mitigate such risk;
- (v) Identify and justify the specific contractual instrument to be used;
- (vi) Establish limitations on the obligation of funds; and
- (vii) Provide the definitization schedule of agreed-upon events that support timely definitization.

(2) A sample format with certain variations for letter contracts is provided at this website: http://www.acq.osd.mil/dpap/dars/pgi/docs/Template_for_UCA_Authorization_Requests.pdf.

PGI 217.7404-2 Price ceiling.

(1) The rationale for the not-to-exceed price will be documented and retained in the contract file. Examples of such supporting rationale include—

- (i) The Independent Government Cost Estimate;
- (ii) Price analysis based on prior buys; and
- (iii) The contractor's proposal.

(2) The maximum not-to-exceed price is the firm-fixed price for firm-fixed price contracts, the ceiling price for fixed-price incentive contracts, and the estimated cost and fee for cost-reimbursement contracts.

PGI 217.7404-3 Definitization schedule.

In order to meet the definitization dates, the contracting officer shall closely coordinate and monitor each UCA. Contracting officers should frequently communicate with the program office and requiring officials as appropriate to actively manage the definitization of UCAs. The contracting officer should alert the approval authority if, for any reason, the definitization schedule appears to be in jeopardy.

PGI 217.7404-6 Allowable profit.

To improve the documentation and provide guidance on determining the profit for UCAs with substantial incurred cost, contracting officers shall follow the mandatory instructions at DFARS [215.404-71-3\(d\)\(2\)](#) regarding lowering contract type risk assessments for the incurred costs when performing weighted guidelines analysis. Additional guidance on analyzing profit or fee (DAU continuous learning course (CLC) 104, Analyzing Profit or Fee) is provided at this website: http://icatalog.dau.mil/onlinecatalog/courses.aspx?crs_id=239

PGI 217.7405 Plans and reports.

(1) By October 31 and April 30 of each year, military departments and defense agencies shall submit an updated Consolidated UCA Management Plan, and a Consolidated UCA Management Report, identifying each UCA with a value exceeding \$5 million. Prior to submittal, military departments and defense agencies shall reconcile Federal Procurement Data System-Next Generation (FPDS-NG) data to the UCA information they are reporting to ensure both their FPDS-NG data and their Consolidated UCA Management Report are accurate and complete. In addition, military departments and defense agencies shall submit a copy of the record of weighted guidelines for each definitized UCA with a value of \$100 million or more. If there is no record of weighted guidelines (e.g., not required for a cost plus award fee contract per DFARS [215.404-74](#)), then military departments and defense agencies shall submit alternative documentation that addresses appropriate recognition of the contractor's reduced cost risk during the undefinitized performance period. Submit the required information to osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

(2) The Consolidated UCA Management Plan and the Consolidated UCA Management Report shall be prepared using the following formats:

- (i) Consolidated UCA Management Plan

Title: Consolidated Undefined Contract Action (UCA) Management Plan Period Covered:

1. Applicable military department, defense agency, or DoD component. a. Headquarters point of contact. b. Contact information.
2. Description of actions planned and taken to ensure: a. Appropriate use of UCAs. b. Timely definitization of UCAs. c. Minimized obligation amounts at the time of UCA award, consistent with the contractor's requirements for the undefinitized period. d. In determining profit/fee, appropriate recognition of the contractor's reduced cost risk during the undefinitized performance period. e. Documentation of the risk assessment in the contract file.
3. Milestones for completion of planned events.
4. Other.
 - (ii) *Consolidated UCA Management Report*. The required format for the Consolidated UCA Management Report is available at this website: https://www.acq.osd.mil/dpap/dars/pgi/docs/uca_management_report_01Sep2021.xlsx.
- (3) A list of Frequently Asked Questions about UCA reporting requirements is available at https://www.acq.osd.mil/dpap/dars/pgi/docs/faq_01Sep2021.docx.

PGI 217.75 -ACQUISITION OF REPLENISHMENT PARTS

PGI 217.7503 Spares acquisition integrated with production.

- (1) Spares acquisition integrated with production (SAIP) is a technique used to acquire replenishment parts concurrently with parts being produced for the end item.
- (2) Include appropriately tailored provisions in the contract when SAIP is used.

PGI 217.7504 Acquisition of parts when data is not available.

When acquiring a part for which the Government does not have necessary data with rights to use in a specification or drawing for competitive acquisition, use one of the following procedures in order of preference:

- (1) When items of identical design are not required, the acquisition may still be conducted through full and open competition by using a performance specification or other similar technical requirement or purchase description that does not contain data with restricted rights. Two methods are—
 - (i) Two-step sealed bidding; and
 - (ii) Brand name or equal purchase descriptions.
- (2) When other than full and open competition is authorized under FAR Part 6, acquire the part from the firm that developed or designed the item or process, or its licensees, provided productive capacity and quality are adequate and the price is fair and reasonable.
- (3) When additional sources are needed and the procedures in paragraph (1) of this section are not practicable, consider the following alternatives:
 - (i) Encourage the developer to license others to manufacture the parts;
 - (ii) Acquire the necessary rights in data;
 - (iii) Use a leader company acquisition technique (FAR Subpart 17.4) when complex technical equipment is involved and establishing satisfactory additional sources will require technical assistance as well as data; or
 - (iv) Incorporate a priced option in the contract that allows the Government to require the contractor to establish a second source.
- (4) As a last alternative, the contracting activity may develop a design specification for competitive acquisition through reverse engineering. Contracting activities shall not do reverse engineering unless—
 - (i) Significant cost savings can be demonstrated; and
 - (ii) The action is authorized by the head of the contracting activity.

PGI 217.7506 -SPARE PARTS BREAKOUT PROGRAM

PART 1 -GENERAL

1-101 Applicability.

- (a) The Spare Parts Breakout Program applies to—

(1) Any centrally managed replenishment or provisioned part (hereinafter referred to as “part”) for military systems and equipment; and

(2) All DoD personnel involved with design control, acquisition, and management of such parts including, but not limited to, project/program/system managers, technical personnel, contracting officers, legal counsel, inventory managers, inspectors, and small business specialists and technical advisors.

- (b) The Spare Parts Breakout Program does not apply to—

- (1) Component breakout (see DFARS [207.171](#));
- (2) Foreign military sale peculiar items;
- (3) Insurance items (e.g., one-time buy);
- (4) Obsolete items;
- (5) Phase-out items (e.g., life-of-type buy);
- (6) Items with annual buy values below the thresholds developed by DoD components or field activities;
- (7) Parts being acquired under other specifically defined initial support programs; or
- (8) Parts acquired through local purchase. 1-102 General.

(a) Significant resources are dedicated to the acquisition and management of parts for military systems and equipment. The ability to competitively buy spares must be considered early in a weapon system acquisition. Initially, repairable or consumable parts are identified and acquired through a provisioning process; repairable or consumable parts acquired thereafter are for replenishment.

(b) The objective of the DoD Spare Parts Breakout Program is to reduce costs through the use of competitive procurement methods, or the purchase of parts directly from the actual manufacturer rather than the prime contractor, while maintaining the integrity of the systems and equipment in which the parts are to be used. The program is based on the application of sound management and engineering judgment in—

(1) Determining the feasibility of acquiring parts by competitive procedures or direct purchase from actual manufacturers; and

(2) Overcoming or removing constraints to breakout identified through the screening process (technical review) described in 3-302.

(c) The breakout program includes procedures for screening and coding parts in order to provide contracting officers summary information regarding technical data and sources of supply to meet the Government's minimum requirements. This information assists the contracting officer in selecting the method of contracting, identifying sources of supply, and making other decisions in the preaward and award phases, with consideration for established parameters of system and equipment integrity, readiness, and the opportunities to competitively acquire parts (see FAR/DFARS Part 6). The identification of sources for parts, for example, requires knowledge of manufacturing sources, additional operations performed after manufacture of parts possessing safety or other critical characteristics, and the availability of technical data.

(d) The result of the screening process (technical review) is indicated by an acquisition method code (AMC) and an acquisition method suffix code (AMSC). The breakout program provides procedures for both the initial assignment of an AMC and an AMSC to a part, and for the recurring review of these codes (see 2-202 and 2-203(b)).

1-103.1 Acquisition method code (AMC).

A single digit numeric code, assigned by a DoD activity, to describe to the contracting officer and other Government personnel the results of a technical review of a part and its suitability for breakout.

1-103.10 Competition.

A contract action where two or more responsible sources, acting independently, can be solicited to satisfy the Government's requirement.

1-103.11 Contractor technical information code (CTIC).

A two-digit alpha code assigned to a part by a prime contractor to furnish specific information regarding the engineering, manufacturing, and technical aspects of that part.

1-103.12 Design control activity.

A contractor or Government activity having responsibility for the design of a given part, and for the preparation and currency of engineering drawings and other technical data for that part. The design control activity may or may not be the actual manufacturer. The design control activity is synonymous with design activity as used by DoD STD-100.

1-103.13 Direct purchase.

The acquisition of a part from the actual manufacturer, including a prime contractor who is an actual manufacturer of the part.

1-103.14 Engineering drawings.

See current versions of DoD STD-100 and DoDD 1000.

1-103.15 Extended dollar value.

The contract unit price of a part multiplied by the quantity purchased.

1-103.16 Full and open competition.

A contract action where all responsible sources are permitted to compete.

1-103.17 Full screening.

A detailed parts breakout process, including data collection, data evaluation, data completion, technical evaluation, economic evaluation, and supply feedback, used to determine if parts can be purchased directly from the actual manufacturer(s) or can be competed.

1-103.18 Immediate (live) buy.

A buy that must be executed as soon as possible to prevent unacceptable equipment readiness reduction, unacceptable disruption in operational capability, and increased safety risks, or to avoid other costs.

1-103.19 Life cycle buy value.

The total dollar value of all acquisitions that are estimated to occur over a part's remaining life cycle.

1-103.2 Acquisition method code conference.

A conference that is generally held at the contractor's facility for the purpose of reviewing contractor technical information codes (CTICs) and corresponding substantiating data for breakout.

1-103.20 Limited competition.

A competitive contract action where the provisions of full and open competition do not exist.

1-103.21 Limited screening.

A parts breakout process covering only selected points of data and technical evaluations, and should only be used to support immediate buy requirements (see 3-301.3).

1-103.22 Manufacture.

The physical fabrication process that produces a part, or other item of supply. The physical fabrication processes include, but are not limited to, machining, welding, soldering, brazing, heat treating, braking, riveting, pressing, and chemical treatment.

1-103.23 Prime contractor.

A contractor having responsibility for design control and/or delivery of a system/equipment such as aircraft, engines, ships, tanks, vehicles, guns and missiles, ground communications and electronics systems, and test equipment.

1-103.24 Provisioning.

The process of determining and acquiring the range and quantity (depth) of spare and repair parts, and support and test equipment required to operate and maintain an end item of materiel for an initial period of service.

1-103.25 Qualification.

Any action (contractual or precontractual) that results in approval for a firm to supply items to the Government without further testing beyond quality assurance demonstrations incident to acceptance of an item. When prequalification is required, the Government must have a justification on file—

(a) Stating the need for qualification and why it must be done prior to award;

(b) Estimating likely cost of qualification; and

(c) Specifying all qualification requirements.

1-103.26 Replenishment part.

A part, repairable or consumable, purchased after provisioning of that part, for: replacement; replenishment of stock; or use in the maintenance, overhaul, and repair of equipment such as aircraft, engines, ships, tanks, vehicles, guns and missiles, ground communications and electronic systems, ground support, and test equipment. As used in the breakout program, except when distinction is necessary, the term “part” includes subassemblies, components, and subsystems as defined by the current version of MIL-STD-280.

1-103.27 Reverse engineering.

A process by which parts are examined and analyzed to determine how they were manufactured, for the purpose of developing a complete technical data package. The normal, expected result of reverse engineering is the creation of a technical data package suitable for manufacture of an item by new sources.

1-103.28 Selected item drawing.

See current version of DoD-STD-100, paragraph 201.4.5.

1-103.29 Source.

Any commercial or noncommercial organization that can supply a specified part. For coding purposes, sources include actual manufacturers, prime contractors, vendors, dealers, surplus dealers, distributors, and other firms.

1-103.3 Acquisition method suffix code (AMSC).

A single digit alpha code, assigned by a DoD activity, that provides the contracting officer and other Government personnel with engineering, manufacturing, and technical information.

1-103.30 Source approval.

The Government review that must be completed before contract award.

1-103.31 Source control drawing.

See the current version of DoD-STD-100, paragraph 201.4.3.

1-103.32 Technical data.

Specifications, plans, drawings, standards, purchase descriptions, and such other data to describe the Government's requirements for acquisition.

1-103.4 Actual manufacturer.

An individual, activity, or organization that performs the physical fabrication processes that produce the deliverable part or other items of supply for the Government. The actual manufacturer must produce the part in-house. The actual manufacturer may or may not be the design control activity.

1-103.5 Altered item drawing.

See current version of DoD STD-100, paragraphs 201.4.4 and 703.

1-103.6 Annual buy quantity.

The forecast quantity of a part required for the next 12 months.

1-103.7 Annual buy value (ABV).

The annual buy quantity of a part multiplied by its unit price.

1-103.8 Bailment.

The process whereby a part is loaned to a recipient with the agreement that the part will be returned at an appointed time. The government retains legal title to such material even though the borrowing organization has possession during the stated period.

1-103.9 Breakout.

The improvement of the acquisition status of a part resulting from a technical review and a deliberate management decision. Examples are—

(a) The competitive acquisition of a part previously purchased noncompetitively; and

(b) The direct purchase of a part previously purchased from a prime contractor who is not the actual manufacturer of the part.

1-103 Definitions.

1-104 General policies.

(a) The identification, selection, and screening of parts for breakout shall be made as early as possible to determine the technical and economic considerations of the opportunities for breakout to competition or direct purchase. Full and open competition is the preferred result of breakout screening.

(b) A part shall be made a candidate for breakout screening based on its cost effectiveness for breakout. Resources should be assigned and priority given to those parts with the greatest expected return given their annual buy value, life cycle buy value, and likelihood of successful breakout, given technical characteristics such as design and performance stability. Consideration of all such factors is necessary to ensure the maximum return on investment in a given breakout program. Occasionally, an item will not meet strict economic considerations for breakout, but action may be required due to other considerations to avoid overpricing situations. Accordingly, there is no minimum DoD threshold for breakout screening actions. DoD components and field activities will develop annual buy thresholds for breakout screening that are consistent with economic considerations and resources. Every effort should be made to complete the full screening of parts that are expected to be subsequently replenished as they enter the inventory.

(c) Breakout improvement efforts shall continue through the life cycle of a part to improve its breakout status (see 2-203) or until such time as the part is coded 1G, 2G, 1K, 2K, 1M, 2M, 1N, 2N, 1T, 2T, 1Z, or 2Z.

(d) No firm shall be denied the opportunity to demonstrate its ability to furnish a part that meets the Government's needs, without regard to a part's annual buy value, where a restrictive AMC/AMSC is assigned (see FAR 9.202). A firm must clearly demonstrate, normally at its own expense, that it can satisfy the Government's requirements. The Government shall make a vigorous effort to expedite its evaluation of such demonstration and to furnish a decision to the demonstrating firm within a reasonable period of time. If a resolution cannot be made within 60 days, the offeror must be advised of the status of the request and be provided with a good faith estimate of the date the evaluation will be completed. Every reasonable effort shall be made to complete the review before a subsequent acquisition is made. Also, restrictive codes and low annual buy value do not preclude consideration of a surplus dealer or other nonmanufacturing source when the part offered was manufactured by an approved source (see FAR 11.302). A potential surplus dealer or other nonmanufacturing source must provide the Government with all the necessary evidence that proves the proposed part meets the Government's requirements.

(e) The experience and knowledge accrued by contractors in the development, design, manufacture and test of equipment may enhance the breakout decision making process. DoD activities may obtain technical information from contractors when it is considered requisite to an informed coding decision. The procedure for contracting for this information is provided in Part 4 of this document. Contractor's technical information will be designated by CTICs. Only DoD activities shall assign AMCs and AMSCs.

(f) DoD activities with breakout screening responsibilities shall develop, document, and advertise programs that promote the development of qualified sources for parts that are currently being purchased sole source. These programs should provide fair and reasonable technical assistance (engineering or other technical data, parts on bailment, etc.) to contractors who prove they have potential for becoming a qualified second source for an item. These programs should also provide specially tailored incentives to successful firms so as to stimulate their investment in becoming qualified, e.g., Government furnished equipment (GFE) or Government furnished material (GFM) for reverse engineering and technical data package review and assistance.

(g) Departments and agencies shall identify the engineering support activity, design control activity, actual manufacturer, and prime contractor for each part such that the information is readily available to breakout and acquisition personnel.

1-105 Responsibilities.

(a) The Under Secretary of Defense (Acquisition and Sustainment) has authority for direction and management of the DoD Spare Parts Breakout Program, including the establishment and maintenance of implementing regulations.

(b) Departments and agencies shall perform audits to ensure that their respective activities comply with the provisions of this program.

(c) Commanders of DoD activities with breakout screening responsibility shall—

(1) Implement a breakout program consistent with the requirements of this document.

(2) Assist in the identification and acquisition of necessary data rights and technical data, and the review of restrictive legends on technical data, during system/equipment development and production to allow, when feasible, breakout of parts.

(3) Designate a program manager to serve as the central focal point, communicate breakout policy, ensure cost-effectiveness of screening actions and breakout program, provide assistance in implementing breakout screening, monitor ongoing breakout efforts and achievements, and provide surveillance over implementation of the breakout program. The program manager shall report only to the Commander, or deputy, of the activity with breakout screening responsibility.

(4) Ensure that actions to remove impediments to breakout are continued as long as it is cost-effective, or until no further breakout improvements can be made.

(5) Invite the activity's small business specialist and the resident small business administration's procurement center representative, if any, to participate in all acquisition method coding conferences at Government and contractor locations.

(6) Ensure timely engineering and technical support to other breakout activities regardless of location.

(i) In the case of parts where contracting or inventory management responsibility has been transferred, support shall include—

(A) Assignment of an AMC/AMSC prior to the transfer;

(B) Assignment of an AMC/AMSC when requested by the receiving activity to parts transferred without such codes. The requesting activity may recommend an AMC/AMSC; and

(C) Full support of the receiving activities' breakout effort by providing timely engineering support in revising existing AMC/AMSCs.

(ii) In all cases, support shall include, but not be limited to, furnishing all necessary technical data and other information (such as code suspense date and procurement history) to permit acquisition in accordance with the assigned AMC/AMSC (see 1-105(d)(6)).

(7) Ensure that appropriate surveillance is given to first time breakout parts.

(d) Breakout program managers shall be responsible for—

(1) Initiating the breakout process during the early phases of development and continuing the process during the life of the part;

(2) Considering the need for contractor technical information codes (CTICs) and, when needed, initiating a contract data requirement;

(3) Identifying, selecting, and screening in accordance with Part 3 of this document;

(4) Assigning an AMC/AMSC, using all available data, including CTICs;

(5) Responding promptly to a request for evaluation of additional sources or a review of assigned codes. An evaluation not completed prior to an immediate buy shall be promptly completed for future buys; and

(6) Documenting all assignments and changes, to include rationale for assigning the chosen code, in a permanent file for each part. As a minimum, the file should identify the engineering support activity, cognizant design control activity, actual manufacturer, prime contractor, known sources of supply, and any other information needed to support AMC/AMSC assignments.

(e) Contracting officers responsible for the acquisition of replenishment parts shall—

(1) Consider the AMC/AMSC when developing the method of contracting, the list of sources to be solicited, the type of contract, etc.; and

(2) Provide information that is inconsistent with the assigned AMC/AMSC (e.g., availability of technical data or possible sources) to the activity responsible for code assignment with a request for timely evaluation of the additional information. An urgent immediate buy need not be delayed if an evaluation of the additional information cannot be completed in time to meet the required delivery date.

PART 2 -BREAKOUT CODING

2-200 Scope.

This part provides parts breakout codes and prescribes responsibilities for their assignment and management.

2-201.1 Acquisition method codes.

The following codes shall be assigned by DoD activities to describe the results of the spare parts breakout screening:

(a) *AMC 0*. The part was not assigned AMC 1 through 5 when it entered the inventory, nor has it ever completed screening. Use of this code is sometimes necessary but discouraged. Maximum effort to determine the applicability of an alternate AMC is the objective. This code will never be used to recode a part that already has AMC 1 through 5 assigned, and shall never be assigned as a result of breakout screening. Maximum effort to determine the applicability of AMC 1 through 5 is the objective.

(b) *AMC 1*. Suitable for competitive acquisition for the second or subsequent time.

(c) *AMC 2*. Suitable for competitive acquisition for the first time.

(d) *AMC 3*. Acquire, for the second or subsequent time, directly from the actual manufacturer.

(e) *AMC 4*. Acquire, for the first time, directly from the actual manufacturer.

(f) *AMC 5*. Acquire directly from a sole source contractor which is not the actual manufacturer.

2-201.2 Acquisition method suffix codes.

The following codes shall be assigned by DoD activities to further describe the acquisition method code. Valid combinations of AMCs/AMSCs are indicated in paragraphs (a) through (z) of this subsection and summarized in Exhibit I.

(a) *AMSC A*. The Government's right to use data in its possession is questionable. This code is only applicable to parts under immediate buy requirements and for as long thereafter as rights to data are still under review for resolution and appropriate coding. This code is assigned only at the conclusion of limited screening, and it remains assigned until the full screening process resolves the Government's rights to use data and results in assignment of a different AMSC. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, or if the data is adequate for an alternate source to qualify in accordance with the design control activity's procedures, AMCs 1 or 2 are valid.

(b) *AMSC B*. This part must be acquired from a manufacturing source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(c) *AMSC C*. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application. If one source is approved, AMCs 3, 4, or 5 are valid. If at least two sources are approved or if data is adequate for an alternate source to qualify in accordance with the design control activity's procedures, AMCs 1 or 2 are valid.

(d) *AMSC D*. The data needed to acquire this part competitively is not physically available, it cannot be obtained economically, nor is it possible to draft adequate specifications or any other adequate, economical description of the material for a competitive solicitation. AMCS 3, 4, or 5 are valid.

(e) *AMSC E*. (Reserved)

(f) *AMSC F*. (Reserved)

(g) *AMSC G*. The Government has rights to the technical data, the data package is complete, and there are no technical data, engineering, tooling or manufacturing restrictions. (This is the only AMSC that implies that parts are candidates for full and open competition. Other AMSCs such as K, M, N, Q, and S may imply limited competition when two or more independent sources exist yet the technical data package is inadequate for full and open competition.) AMCs 1 or 2 are valid.

(h) *AMSC H*. The Government physically does not have in its possession sufficient, accurate, or legible data to purchase this part from other than the current source(s). This code is applicable only to parts under immediate buy requirements and only for as long thereafter as the deficiency is under review for resolution and appropriate recoding. This code is only assigned at the conclusion of limited screening, and it remains assigned until the full screening process resolves physical data questions and results in assignment of a different AMSC. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(i) *AMSC I*. (Not authorized)

(j) *AMSC J*. (Reserved)

(k) *AMSC K*. This part must be produced from class 1 castings and similar type forgings as approved (controlled) by procedures contained in the current version of MIL-STD-2175. If one source has such castings and cannot provide them to other sources, AMCs 3, 4, or 5 are valid. If at least two sources have such castings or they can be provided to other sources AMCs 1 or 2 are valid.

(l) *AMSC L*. The annual buy value of this part falls below the screening threshold established by DoD components and field activities. However, this part has been screened for additional known sources, resulting in either confirmation that the initial source exists or that other sources may supply the part. No additional screening was performed to identify the competitive or noncompetitive conditions that would result in assignment of a different AMSC. This code shall not be used when screening parts entering the inventory. This code shall be used only to replace AMSC O for parts under the established screening threshold. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(m) *AMSC M*. Manufacture of this part requires use of master or coordinated tooling. If only one set of tooling exists and cannot be made available to another source for manufacture of this part, AMCs 3, 4, or 5 are valid. When the availability of existent or refurbishable tooling is available to two or more sources, then AMCs 1 or 2 are valid.

(n) *AMSC N*. Manufacture of this part requires special test and/or inspection facilities to determine and maintain ultra-precision quality for its function or system integrity. Substantiation and inspection of the precision or quality cannot be accomplished without such specialized test or inspection facilities. If the test cannot be made available for the competitive manufacture of the part, the required test or inspection knowledge cannot be documented for reliable replication, or the required physical test or inspection facilities and processes cannot be economically documented in a TDP, valid AMCs are 3, 4, or 5. If the facilities or tests can be made available to two or more competitive sources, AMCs 1 or 2 are valid.

(o) *AMSC O*. The part was not assigned an AMSC when it entered the inventory, nor has it ever completed screening. Use of this code in conjunction with AMC 0 is sometimes necessary but discouraged. Maximum effort to determine the applicability of an alternate AMSC is the objective. Only AMC O is valid.

(p) *AMSC P*. The rights to use the data needed to purchase this part from additional source(s) are not owned by the Government and cannot be purchased, developed, or otherwise obtained. It is uneconomical to reverse engineer this part. This code is used in situations where the Government has the data but does not own the rights to the data. If only one source has the rights or data to manufacture this item, AMCs 3, 4, or 5 are valid. If two or more sources have the rights or data to manufacture this item, AMCs 1 or 2 are valid.

(q) *AMSC Q*. The Government does not have adequate data, lacks rights to data, or both needed to purchase this part from additional sources. The Government has been unable to economically buy the data or rights to the data, although the part has been undergoing full screening for 12 or more months. Breakout to competition has not been achieved, but current, continuing actions to obtain necessary rights to data or adequate, reproducible technical data indicate breakout to competition is expected to be achieved. This part may be a candidate for reverse engineering or other techniques to obtain technical data. All AMSC Q items are required to be reviewed within the timeframes cited in 2-203(b). If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(r) *AMSC R*. The Government does not own the data or the rights to the data needed to purchase this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights. If only one source has the rights or data to manufacture this item, AMCs 3, 4, or 5 are valid. If two or more sources have the rights or data to manufacture this item, AMCs 1 or 2 are valid.

(s) *AMSC S*. Acquisition of this item is restricted to Government approved source(s) because the production of this item involves unclassified but militarily sensitive technology (see FAR Subpart 6.3). If one source is approved, AMCs 3, 4, or 5 are valid. If at least two sources are approved, AMCs 1 or 2 are valid.

(t) *AMSC T*. Acquisition of this part is controlled by qualified products list (QPL) procedures. Competition for this part is limited to sources which are listed on or are qualified for listing on the QPL at the time of award (see FAR Part 9 and DFARS Part 209). AMCs 1 or 2 are valid.

(u) *AMSC U*. The cost to the Government to breakout this part and acquire it competitively has been determined to exceed the projected savings over the life span of the part. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(v) *AMSC V*. This part has been designated a high reliability part under a formal reliability program. Probability of failure would be unacceptable from the standpoint of safety of personnel and/or equipment. The cognizant engineering activity has determined that data to define and control reliability limits cannot be obtained nor is it possible to draft adequate specifications for this purpose. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources are available, AMCs 1 or 2 are valid.

(w) *AMSC W*. (Reserved)

(x) *AMSC X*. (Not authorized)

(y) *AMSC Y*. The design of this part is unstable. Engineering, manufacturing, or performance characteristics indicate that the required design objectives have not been achieved. Major changes are contemplated because the part has a low process yield or has demonstrated marginal performance during tests or service use. These changes will render the present part obsolete and unusable in its present configuration. Limited acquisition from the present source is anticipated pending configuration changes. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

(z) *AMSC Z*. This part is a commercial product, nondevelopmental item, or commercially available off-the-shelf item. Commercial item descriptions, commercial vendor catalog or price lists, or commercial manuals assigned a technical manual number apply. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources are available, AMCs 1 or 2 are valid.

2-201.3 Contractor technical information codes.

The following two-digit alpha codes shall be used by contractors, when contractor's assistance is requested. These codes are assigned in accordance with the current version of MIL-STD-789 and shall be considered during the initial assignment of an AMC/AMSC. For spare parts breakout, requirements for contractor assistance through CTIC submission shall be accomplished as stated in Part 4 of this document. Each CTIC submitted by a contractor must be accompanied by supporting documentation that justifies the proposed code. These codes and supporting documentation, transmitted by DD Form 1418, Contractor Technical Information Record, and DD Form 1418-1, Technical Data Identification Checklist, are useful not only for code assignment during acquisition coding conferences, but also for personnel conducting both full and limited screening of breakout candidates. Personnel conducting full and limited screening of breakout candidates should use the supporting documentation provided with CTICs as a source of information. However, they should not allow this information to substitute for careful analysis and further investigation of the possibilities of acquiring a part through competition or by direct purchase. The definitions for CTICs are—

(a) *CTIC CB*. Source(s) are specified on source control, altered item, or selected item drawings/documents. (The contractor shall furnish a list of the sources with this code.)

(b) *CTIC CC*. Requires engineering source approval by the design control activity in order to maintain the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity.

(c) *CTIC CG*. There are no technical restrictions to competition.

(d) *CTIC CK*. Produced from class 1 castings (see the current version of MIL-STD-2175) and similar type forgings. The process of developing and proving the acceptability of high-integrity castings and forgings requires repetitive performance by a controlled source. Each casting or forging must be produced along identical lines to those that resulted in initial acceptability of the part. (The contractor shall furnish a list of known sources for obtaining castings/forgings with this code.)

(e) *CTIC CM*. Master or coordinated tooling is required to produce this part. This tooling is not owned by the Government or, where owned, cannot be made available to other sources. (The contractor shall furnish a list of the firms possessing the master or coordinated tooling with this code.)

(f) *CTIC CN*. Requires special test and/or inspection facilities to determine and maintain ultra-precision quality for function or system integrity. Substantiation and inspection of the precision or quality cannot be accomplished without such specialized test or inspection facilities. Other sources in industry do not possess, nor would it be economically feasible for them to acquire facilities. (The contractor shall furnish a list of the required facilities and their locations with this code.)

(g) *CTIC CP*. The rights to use the data needed to purchase this part from additional sources are not owned by the Government and cannot be purchased.

(h) *CTIC CV*. A high reliability part under a formal reliability program. Probability of failure would be unacceptable from the standpoint of safety of personnel and/or equipment. The cognizant engineering activity has determined that data to define and control reliability limits cannot be obtained nor is it possible to draft adequate specifications for this purpose. Continued control by the existing source is necessary to ensure acceptable reliability. (The contractor shall identify the existing source with this code.)

(i) *CTIC CY*. The design of this part is unstable. Engineering, manufacturing, or performance characteristics indicate that the required design objectives have not been achieved. Major changes are contemplated because the part has a low process yield or has demonstrated marginal performance during tests or service use. These changes will render the present part obsolete and unusable in its present configuration. Limited acquisition from the present source is anticipated pending configuration changes. (The contractor shall identify the existing source with this code.)

2-201 Coding.

Three types of codes are used in the breakout program.

2-202 Assignment of codes.

The purpose of AMC/AMSC assignments is to provide the best possible technical assessment of how a part can be acquired. The technical assessment should not be based on issues such as: are the known sources actual manufacturers, or are there two actual manufacturers in existence; but rather on factors such as the availability of adequate technical data, the Government's rights to use the data, technical restrictions placed on the hardware (criticality, reliability, special testing, master tooling, source approval, etc.) and the cost to breakout vice projected savings. In cases where there is additional technical information that affects the way a part can be acquired, it should be made available to the contracting officer, with the AMC/AMSC. Concerning the assignment of AMCs and AMSCs, it is DoD policy that—

(a) The assignment of AMC/AMSCs to parts is the responsibility of the DoD component introducing the equipment or system for which the parts are needed in the inventory. Subsequent screening is the responsibility of the DoD component assigned technical responsibility.

(b) When two or more AMSCs apply, the most technically restrictive code will be assigned.

(c) Restricted combinations of AMC/AMSCs are reflected in the AMSC definitions. The Defense Logistics Information Service will reject invalid code combinations, as shown in Exhibit I, submitted for entry into the Federal catalog program (see 2-204.2).

(d) One-time acquisition of a part by a method other than indicated by the code does not require a change to the AMC (e.g., when only one of a number of sources can meet a short delivery date, or when only one manufacturing source is known but acceptable surplus parts are available from other sources).

(e) After the first acquisition under AMC 2 or 4, the AMC shall be recoded 1 or 3 respectively.

(f) Both full and limited screening will result in the assignment or reassignment of an AMC/AMSC. This assignment shall be based on the best technical judgment of breakout personnel and on information gathered during the screening process.

(g) A part need not be coded as noncompetitive based on an initial market survey that only uncovers one interested source. If the Government has sufficient technical data in its possession to enable other sources to manufacture an acceptable part, and there are no technical restrictions on the part that would preclude other sources from manufacturing it, the part should be coded competitive.

2-203 Improving part status.

(a) *General.* An effective breakout program requires that all reasonable actions be taken to improve the acquisition status of parts. The potential for improvement of the acquisition status will vary with individual circumstances. On one end of the spectrum are those parts with acquisition method suffix codes of a temporary nature requiring vigorous follow-through improvement action (e.g., AMSCs A and H); on the other end are those parts with codes suggesting a relative degree of permanence (e.g., AMSC P). A code assigned to a part should never be considered fixed with respect to either technical circumstance or time; today's technical constraint may be overcome by tomorrow's technology and a contractor's rights to data, so zealously protected today, often become less important with time. The application of breakout improvement effort must always consider individual circumstances and overall benefits expected to be obtained.

(b) *Code suspense dates.* Every part whose breakout status can be improved shall be suspended for rescreening as appropriate. In general, the following codes cannot be improved: 1G, 2G, 1K, 2K, 1M, 2M, 1N, 2N, 1T, 2T, 1Z, or 2Z. The period between suspenses is a period for which an assigned AMC/AMSC is considered active, and routine rescreening of parts with "valid" codes is not required. Suspense dates may vary with the circumstance surrounding each part. A code reached as a result of limited screening (3-304) shall not be assigned a suspense date exceeding 12 months; a code reached as a result of full screening (3-303) shall not be assigned a suspense date exceeding 3 years. In exceptional cases, where circumstances indicate that no change can be expected in a code over an extended period, a suspense date not exceeding 5 years may be assigned in accordance with controls established by the breakout activity. Items with a 1G or 2G code do not require a suspense date.

2-204.1 Communication media.

Use the Federal catalog program formats, set forth in DoD Manual 4100.39-M, Defense Integrated Data System (DIDS) Procedural Manual, communication media and operating instructions as augmented by this document to disseminate AMCs and AMSCs.

2-204.2 Responsibilities.

(a) The Defense Logistics Information Service (DLIS) will—

(1) Receive and disseminate AMCs and AMSCs for each national stock number (NSN) to all appropriate Government activities in consonance with scheduled Federal catalog program computer cycles;

- (2) Make the AMCs and AMSCs a part of the data bank of NSN item intelligence;
 - (3) Perpetuate the codes in all subsequent Federal catalog program transactions; e.g., entry of new NSNs and Federal supply code (FSC) changes; and
 - (4) Reject invalid code combinations submitted for entry into the Federal catalog program.
- (b) DoD activities responsible for the assignment of AMCs and AMSCs will—
- (1) Transmit assigned codes for each NSN through normal cataloging channels to DLIS under existing Federal catalog program procedures; and
 - (2) Notify DLIS by normal Federal catalog program maintenance procedures when a change in coding is made.
- 2-204 Communication of codes.

PART 3 -IDENTIFICATION, SELECTION, AND SCREENING OF PARTS

3-300 General.

This part sets forth procedures for the identification, selection, and screening of parts.

3-301.1 Parts entering the inventory.

The breakout process should begin at the earliest possible stage of weapon systems acquisition. Generally, a provisioned part will require subsequent replenishment. Provisioning or similar lists of new parts are, therefore, the appropriate bases for selecting parts for screening. This is not to imply that breakout must be done on all items as part of the provisioning process. Priorities shall be applied to those parts offering the greatest opportunity for breakout and potential savings. The major factors in making this determination are—

- (a) The unit price;
- (b) The projected quantity to be purchased over the part's life cycle; and
- (c) The potential for screening to result in a part being successfully broken out, e.g., item stability, cost, and completeness of technical data, etc.

3-301.2 Annual buy forecasts.

Annually, lists shall be prepared that identify all parts projected for purchase during the subsequent 12-month period. Priority should be given to those parts with the greatest expected return given their annual buy value, life cycle buy value, and likelihood of successful breakout, given technical characteristics such as design and performance stability and the availability of technical data. Parts with an expired suspense date or a suspense date that will expire during the forecast period (see 2-203(b)), need only be subjected to the necessary steps of the full screening procedure (see 3-303). Parts with a valid code that will not expire during the forecast period need not be screened. Parts coded 00 shall be selected for full screening.

3-301.3 Immediate buy requirements.

An immediate buy requirement will be identified by the user or the item manager in consonance with department/agency regulations. When an immediate buy requirement meeting the screening criteria (see 1-104(b)) is generated for a part not assigned a current AMC/AMSC, the part shall be promptly screened in accordance with either the full or limited screening procedures (see 3-303 and 3-304).

3-301.4 Suspect AMC/AMSC.

Whenever an AMC/AMSC is suspected of being inaccurate by anyone, including the contracting officer, a rescreening shall be conducted for that part. Suspect codes include codes composed of invalid combinations of AMCs and AMSCs, those which do not truly reflect how a part is actually being acquired, and those suspected of being more restrictive than necessary for the next buy.

3-301 Identification and selection procedures.

3-302 Screening.

(a) Screening procedures include consideration and recording of the relevant facts pertaining to breakout decisions. The objective of screening is to improve the acquisition status by determining the potential for competition, or purchase from an actual manufacturer. Consideration of any reasonable approach to establishing competition should be an integral part of the breakout process.

(b) Screening procedures may vary depending on circumstances related to the parts. No set rules will provide complete guidance for making acquisition method decisions under all conditions encountered in actual practice. An informed coding decision can be made without following the procedures step-by-step in every case.

(c) Activities involved in screening are encouraged to develop supplemental procedures that prove effective in meeting this program's objectives. These procedures should be tailored to the particular activity's operating environment and the characteristics of the parts for which it is responsible. Nevertheless, care should be taken in all cases to assure that—

- (1) Responsible judgment is applied to all elements involved in the review of a part;

(2) The necessary supporting facts are produced, considered, and recorded in the breakout screening file. The breakout screening file contains technical data and other documents concerning screening of the part;

(3) All cost-effective alternatives are considered for establishing competition, or purchase from an actual manufacturer (see 1-105(d)(6)); and

(4) When possible, the sequence of the review allows for accomplishing several screening steps concurrently.

(d) Contractor participation in the decision making process extends only to providing technical information. This technical information is provided by supporting documentation (DD Forms 1418, Contractor Technical Information Record, and DD Form 1418-1, Technical Data Identification Checklist) which includes the CTIC assignment. Government personnel shall substantiate the breakout decision by reference to the CTIC and by careful review of the supporting documentation. However, the CTIC provides guidance only, and it should be used as one of the inputs to arrive at an acceptable AMC and AMSC coding.

(e) Contractor's technical information furnished in accordance with MIL-STD-789 may indicate areas requiring additional research by the Government before screening can be completed. Seldom will industry's contribution to the screening process enable the Government to assign an AMC or AMSC without additional review.

(f) During the screening process, it may be appropriate to communicate with industry, particularly potential manufacturers of a part, to determine the feasibility of establishing a competitive source and to estimate the costs and technical risks involved.

(g) Coding conferences with industry shall be documented.

(h) Screening may disclose that a part is not suitable for competitive acquisition, but it may be possible to break out the part for direct purchase from the actual manufacturer or to establish a second source. Parts particularly suited to direct purchase are those where neither the design control activity nor the prime contractor contribute additional value or whose data belong to the actual manufacturer and will not be acquired by the Government, and where that manufacturer exercises total responsibility for the part (design and quality control, testing, etc.), and where additional operations performed by the prime contractor can be performed by the actual manufacturer or by the Government.

(i) For each part that is screened, a file shall be established to document and justify the decisions and results of all screening effort (see 1-105(d)(6)).

(j) Full and limited screening procedures are two elements of breakout programs. Other spare parts initiatives to enhance breakout are reverse engineering, bailment, data rights challenges, and publication of intended buy lists. Integration of other initiatives within the screening processes developed at each activity is encouraged.

3-303.1 Data collection phase (step 1).

(a) Assemble all available data and establish a file for each part. Collect identification data, relevant data obtained from industry, contracting and technical history data and current status of the part, including—

(1) Normal identification required for cataloging and standardization review;

(2) All known sources;

(3) Historical contracting information, including the more recent awards, date of awards, and unit price(s) for the quantities prescribed;

(4) Identification of the actual manufacturer(s), the latest unit price, and the quantity on which the price is based. (When the actual manufacturer is not the design control activity, the design control activity may be consulted to ensure the latest version of the item is being procured from the actual manufacturer);

(5) Identification of the activity, Government or industry, having design control over the part and, if industry, the cognizant Government engineering activity;

(6) The expected life in the military supply system;

(7) Record of any prior review for breakout, with results or findings; and

(8) Annual demand.

(b) In the case of complex items requiring large numbers of drawings, collection of a reasonable technical data sample is sufficient for the initial technical data evaluation phase (steps 2-14).

3-303.2 Data evaluation phase (steps 2-14).

(a) Data evaluation is crucial to the whole review procedure. It involves determination of the adequacy of the technical data package and the Government's rights to use the data for acquisition purposes.

(b) The data evaluation process may be divided into two stages:

(1) A brief but intensive analysis of available data and documents regarding both technical matters and data rights, leading to a decision whether to proceed with screening; and

(2) If the decision is to proceed with screening, further work is necessary to produce an adequate technical data package, such as research of contract provisions, engineering work on data and drawings, and requests to contractors for additional data.

(c) The steps in this phase are—

(1) *Step 2.* Are full Government rights established by the available data package? Evidence for an affirmative answer would include the identification of Government drawings, incorporation by reference of Government specifications or process descriptions in the public domain, or reference to contract provisions giving the Government rights to data. If the answer is negative, proceed to step 3; if positive, proceed to step 6.

(2) *Step 3.* Are the contractor's limitations of the Government's rights to data established by the available data package?

(i) The questions in step 2 and 3 are not exclusive. The incorporation in a drawing of contract provisions reserving rights to the manufacturer, either in the whole design or in certain manufacturing processes, would establish a clear affirmative answer to step 3 where there is substantiating Government documentation. Parts not in this group shall be retained for further processing (see step 20). Data rights that cannot be substantiated shall be challenged (see DFARS Part 227, validation procedures).

(ii) In the case of clear contractor ownership of rights, proceed with steps 4 and 5.

(3) *Step 4.* Are there bases for competitive acquisition without using data subject to limitations on use? This question requires consideration, for example, of the possibility of using performance specifications or substitution of military or commercial specifications or bulletins for limited elements of the manufacturing process. The use of sample copies is another possibility.

(4) *Step 5.* Can the Government buy the necessary rights to data? This is a preliminary question to the full analysis (in steps 20 and 21 below) and is designed primarily to eliminate from further consideration those items which incorporate established data restrictions and for which there are no other bases for competitive acquisition nor is purchase of rights possible or feasible.

(5) *Steps 6 and 7.* Is the present technical data package adequate for competitive acquisition of a reliable part?

(6) *Steps 8 and 9.* Specify omissions. The question in steps 6 and 7 requires a critical engineering evaluation and should deal first with the physical completeness of the data—are any essential dimensions, tolerances, processes, finishes, material specifications, or other vital elements of data lacking from the package? If so, these omissions should be specified. A second element deals with adequacy of the existing package to produce a part of the required performance, compatibility, quality, and reliability. This will, of course, be related to the completeness of data. In some cases, qualified engineering judgment may decide that, in spite of apparently complete data, the high performance or other critical characteristics of the item require retention of the present source. If such decision is made, the file shall include documentation in the form of specific information, such as difficulties experienced by the present manufacturer in producing a satisfactory item or the existence of unique production skills in the present source.

(7) *Steps 10 and 11.* Can the data be developed to make up a reliable technical data package? This implies a survey of the specified omissions with careful consideration to determine the resources available to supply each missing element. Such resources will vary from simple referencing of standard engineering publications to more complex development of drawings with the alternatives of either obtaining such drawings or developing performance specifications. In some cases, certain elements of data are missing because they have been properly restricted. If, however, there has been no advance substantiation of the right to restrict, the part should be further researched. If the answer to this question is negative, proceed to step 12; if positive, proceed to step 13 or 14.

(8) *Step 12.* If the answer to the question in steps 10 and 11 is no, which condition is the prime element in this decision, the lack of data or the unreliability of the data? Specific documentation is needed to support this decision.

(9) *Step 13 and 14.* Estimate the time required to complete the data package. In those cases where the data package is found inadequate and specific additions need to be developed, an estimate of the time required for completion must be made in order to determine if breakout of the part is feasible during this review cycle and to estimate at what point in the remaining life of the part the data package could be available.

3-303.3 Data completion phase (steps 15-21).

(a) The data completion phase involves acquiring or developing the missing elements of information to reach a determination on both adequacy of the technical data package and the restriction of rights to data. It may involve various functional responsibilities, such as examination of past contracts, queries directed to industry or to other Government agencies, inspection of the part, reverse or other engineering work to develop drawings and write specifications, arrangements with the present source for licensing or technical assistance to new manufacturers, and negotiations for purchase of rights to data. Additional research and information requests should be expeditiously initiated on those parts where

there is a reasonable expectation of breakout. Because this phase is time-consuming, it should take place concurrently with other phases of the review.

(b) At the beginning of the data completion phase, the part falls into one of the following four steps:

(1) *Step 15.* The data package is complete and adequate and the Government has sufficient rights for acquisition purposes. Such parts require no further data analysis. Proceed to step 22.

(2) *Step 16.* The Government has rights to existing data. The data package is incomplete but there is a reasonable expectation that the missing elements can be supplied. Proceed to step 19.

(3) *Step 17.* The data package is complete, but suitable Government rights to the data have not been established. Proceed to step 20.

(4) *Step 18.* Neither rights nor completeness of data is adequately established; therefore, the part requires further research. Proceed to step 20.

(c) *Step 19.* Obtain or develop the necessary data for a suitable data package. Reverse engineering to develop acquisition data may be used if there is a clear indication that the costs of reverse engineering will be less than the savings anticipated from competitive acquisition. If there is a choice between reverse engineering and the purchase of data (step 21), the decision shall be made on the basis of relative costs, quality, time, and other pertinent factors.

(d) *Step 20.* Establish the Government's and contractor's rights to the data. Where drawings and data cannot be identified to a contract, the following guidelines should be applied:

(1) Where drawings and data bear legends that warn of copyright or patent rights, the effect of such legends shall be resolved according to law and policy; however, the existence of patent or copyright restrictions does not per se preclude securing competition with respect to the parts described (see FAR Subpart 27.3/DFARS Subpart 227.3).

(2) If the technical data bears legends that limit the Government's right to use the data for breakout and it is determined that reasonable grounds exist to question the current validity of the restrictive markings, the contracting officer will be notified to initiate the validation procedures at DFARS Subpart 227.4.

(3) Where drawings and data are unmarked and, therefore, free of limitation on their use, they shall be considered available for use in acquisition, unless the acquiring office has clear evidence to the contrary (see DFARS Subpart 227.4).

(4) The decision process in situations described in paragraphs (d)(1), (2), and (3) of this subsection requires the exercise of sound discretion and judgment and embraces legal considerations. In no case shall a decision be made without review and approval of that decision by legal counsel.

(5) If the validation procedures in paragraph (d)(2) of this subsection establish the Government's right to use the data for breakout, the Government shall attempt to obtain competition pursuant to the decisions resulting from concurrent technical and economic evaluation.

(e) *Step 21.* If restrictions on the use of data are established, determine whether the Government can buy rights to the required data. Use the procedure in DFARS Subpart 227.4.

3-303.4 Technical evaluation phase (steps 22-37).

(a) *Introduction.*

(1) The purposes of technical evaluation are to determine the development status, design stability, high performance, and/or critical characteristics such as safety of personnel and equipment; the reliability and effective operation of the system and equipment in which the parts are to be used; and to exercise technical judgment as to the feasibility of breaking out the parts. No simple and universal rules apply to each determination. The application of experience and responsible judgment is required. Technical considerations arise in several elements of the decision process, e.g., in determining adequacy of the data package (steps 6-14).

(2) Certain manufacturing conditions may reduce the field of potential sources. However, these conditions do not justify the restriction of competition by the assignment of restrictive AMCs for the following reasons:

(i) Parts produced from class 1 castings and similar type forgings. The process of developing and providing the acceptability of high-integrity castings and forgings requires repetitive performance by a controlled source for each casting or forging along identical lines to those which result in initial acceptability of the item. The particular manufacturer's process becomes the controlling factor with regard to the acceptability of any such item. However, other firms can produce class 1 castings and similar type forgings and provide the necessary inspection, or the part may be acquired from other sources that use castings or forgings from approved (controlled) source(s).

(ii) Parts produced from master or coordinated tooling, e.g., numerically controlled tapes. Such parts have features (contoured surfaces, hole locations, etc.) delineated according to unique master tooling or tapes and are manufactured to minimum/maximum limits and must be replaceable without additional tailoring or fitting. These parts cannot be manufactured or configured by a secondary pattern or jigs independent of the master tooling and cannot be manufactured to

requisite tolerances of fit by use of commercial precision machinery. In this context, jigs and fixtures used only for ease of production are not considered master tooling. However, master tooling may be reproduced.

(iii) Parts requiring special test and/or inspection facilities to determine and maintain ultra-precision quality for the function or system integrity. Substantiation and inspection of the precision or quality cannot be accomplished without specialized test or inspection facilities. Testing is often done by the actual manufacturer under actual operating use. However, such special test inspection facilities may be available at other firms.

(b) *Design procedures (steps 22-31).*

(1) *Step 22.* Will a design change occur during anticipated lead time? If affirmative, proceed to step 23; if negative, proceed to step 24.

(2) *Step 23.* Specify the design change and assign an appropriate code.

(3) *Step 24.* Is a satisfactory part now being produced? Concurrently with the research and completion of data, a technical determination is required as to the developmental status of the part. With the frequent telescoping of the development/production cycle as well as constant product improvement throughout the active life of equipment, parts are frequently subject to design changes. The present source, if a prime contractor, is usually committed to incorporate the latest changes in any deliveries under a production order. In considering the part for breakout, an assessment must be made of the stability of design, so that in buying from a new source the Government will not be purchasing an obsolete or incompatible part. The question of obsolescence or noncompatibility is to some extent under Government control. Screening for breakout on parts that are anticipated to undergo design change should be deferred until design stability is attained.

(4) *Step 25.* Can a satisfactory part be produced by a new source? Determine whether technical reasons prohibit seeking a new source. The fact that the present source has not yet been able to produce a satisfactory part (step 24) does not preclude another source from being successful. If the answer to steps 24 or 25 is affirmative, proceed simultaneously to steps 27 and 38. If the answer to step 25 is negative, proceed to step 26.

(5) *Step 26.* If the present source is producing an unsatisfactory part, but technical reasons prohibit seeking a new source, specify the reasons.

(6) *Step 27.* Does the part require prior qualification or other approval testing? If the answer is positive, proceed to step 28; if negative, proceed to step 32.

(8) *Step 28.* Specify the requirement.

(9) *Step 29.* Estimate the time required to qualify a new source.

(10) *Step 30.* Is there currently a qualified source?

(11) *Step 31.* Who is responsible for qualifications of the subcontractor, present prime contractor, the Government, or an independent testing agency?

(i) If a qualified source is currently in existence, the review should consider who will be responsible for qualification in the event of competitive acquisition. If qualification testing is such that it can be performed by the selected source under a preproduction or first article clause in the contract, the costs of initial approval should be reflected in the offers received. If the part requires initial qualification tests by some other agency such as the present prime contractor, the Government, an independent testing agent outside the Government, or by technical facilities within the departments, out-of-pocket costs may be incurred if the part is competed. An estimate of qualification costs should then be made and recorded in such cases.

(ii) Where facilities within the Government are not adequate for testing or qualification, or outside agencies such as the equipment contractor cannot or will not do the job, the economics of qualification may be unreasonable, and a narrative statement of these facts should replace the cost estimate. Whenever possible, such as in the case of engine qualification tests, economy of combined qualification tests should be considered.

(c) *Quality assurance procedures (steps 32-33).* Quality control and inspection is a primary consideration when making a decision to breakout. Where the prime contractor performs quality assurance functions beyond those of the part manufacturer or other sources, the Government may—

(1) Develop the same quality control and inspection capability in the manufacturer's plant;

(2) Assume the responsibility for quality; or

(3) Undertake to obtain the quality assurance services from another source, possibly the prime contractor.

(4) *Step 32.* Who is now responsible for quality control and inspection of the part?

(5) *Step 33.* Can a new source be assigned responsibility for quality control? Is the level of the quality assurance requirements specified in the system contract necessary for the screened part? The minimum quality assurance procedures for each part shall be confirmed.

(i) A new source shall be considered if—

(A) Any essential responsibility (e.g., burn-in, reliability, maintainability) retained by the prime contractor for the part and its relationship to the end item can be eliminated, shifted to the new source, or assumed by the Government;

(B) The prime contractor will provide the needed quality assurance services;

(C) The Government can obtain competent, impartial services to perform quality assurance responsibility; or

(D) The new source can maintain an adequate quality assurance program, inspection system, or inspection appropriate for the part.

(ii) If the prime contractor has responsibility for quality that a new source cannot assume or obtain, or that the Government cannot undertake or eliminate, consideration of the new source is precluded.

(d) *Tooling procedures (steps 34-37).*

(1) *Step 34.* Is tooling or other special equipment required?

(2) *Step 35.* Specify the type of tooling.

(3) *Step 36.* Estimate additional acquisition leadtime for setup and for tooling.

(4) *Step 37.* Does the Government possess this tooling? If tooling or special equipment is required for production of the part, the types and quantities should be specified. Investigation can then be made as to whether the Government possesses such tooling and can make it available to a new source. A requirement for special tooling is not necessarily a deterrent to competitive solicitation for parts. The Government may find it desirable to purchase the needed tooling and furnish it to the new source. In this case, the costs can be determined with reasonable accuracy. However, if new sources can provide the tooling or special equipment, this will be reflected in competitive prices and should not normally require further analysis.

3-303.5 Economic evaluation phase (steps 38-56).

(a) Economic evaluation concerns identification and estimation of breakout savings and direct cost offsets to breakout. The economic evaluation phase is composed of the three segments detailed in paragraphs (b) through (d) of this subsection.

(b) *Development of savings data (steps 38-40).*

(1) *Step 38.* Estimate remaining program life cycle buy value.

(2) *Step 39.* Apply either a savings factor of 25 percent or one determined under local conditions and experience.

(3) *Step 40.* Multiply the remaining program life cycle buy value by the savings factor to obtain the expected future savings, if the part is coded for breakout.

(c) *Computation of breakout costs (steps 41-47).* Several groups of costs must be collected, summarized and compared to estimated savings to properly determine the economics of breakout. These costs include—

(1) Direct costs (steps 41-45). Direct costs of breakout normally include all expenditures that are direct and wholly identifiable to a specific, successful breakout action, and that are not reflected in the part unit price. Examples of direct costs include Government tooling or special test equipment, qualification testing, quality control expenses, and industry participation costs (such as completion of the Contractor Technical Information Data Record) if borne by the Government.

(i) *Step 41.* Estimate the cost to the Government for tooling or special equipment.

(ii) *Step 42.* Estimate the cost, if any, to the Government for qualifying the new source.

(iii) *Step 43.* Estimate the cost, if any, to the Government for assuring quality control, or the cost of contracting for quality control.

(iv) *Step 44.* Estimate the cost to the Government for purchasing rights to data.

(v) *Step 45.* Add estimated total direct costs to the Government to breakout the item.

(2) Performance specification costs (steps 46-47).

(i) *Step 46.* Is the breakout candidate constructed to a performance specification?

(ii) *Step 47.* If the answer is yes in step 46, add performance specification breakout cost estimate elements to the result of step 45. The addition of an unknown number of nonstocked parts that must be stocked by the supply system for repairs is a significant element of cost associated with the decision to compete a performance specification assembly. (The same situation does not arise with respect to a design specification assembly, since virtually all spare parts used to repair such an assembly are essentially identical to parts already in the assembly.) The cost of introducing these nonstocked parts into the system includes—

(A) Additional catalog costs. The number of nonstocked parts forecasted to be in the competed assembly, multiplied by the variable cost of cataloging per line item.

(B) Additional bin opening costs. The number of nonstocked parts forecasted to be in the competed assembly, multiplied by the variable cost of a bin opening at each of the locations where the part is to be stocked.

(C) Additional management costs. The number of nonstocked parts forecasted to be in the competed assembly, multiplied by the variable cost of management per line item.

(D) Additional technical data costs. The cost of a new set of technical data for the competed assembly, including the variable expenses of its production, reproduction, and distribution.

(E) Additional repair tools and test equipment costs. The costs of additional special tools and test equipment not otherwise required by the existing assembly.

(F) Additional logistics support costs. The costs associated with the new item such as spare and repair parts, technical manuals, and training.

(d) *Comparison of savings and costs (steps 48-56).* Compare estimated breakout costs to forecasted breakout savings. If costs exceed estimated savings, it will be uneconomical to compete the part. Performance specification parts should be analyzed to ensure that pertinent breakout costs have been considered and, if it is not economical to breakout the part, whether an appropriate detailed design data package reduces costs sufficiently to make breakout economical.

(1) *Step 48.* Compare total costs of breakout (step 47) to estimated savings (step 40).

(2) *Step 49.* Are costs of breakout greater or less than estimated savings? If greater, proceed to step 50; if yes, proceed to step 51.

(3) *Step 50.* Is the breakout candidate constructed to a performance specification? If no, proceed to step 54; if yes, proceed to step 57.

(4) *Step 51.* Is it appropriate to obtain a detailed design data package? If yes, proceed to step 52; if no, proceed to step 54. The decision to change a performance specification part to a detailed design part obviously requires a critical engineering examination of the part itself, as well as a review of the impact such a change might have on the operational effectiveness of the system in which the equipment is to be employed. Acquisition of a performance specification part by a subsequently acquired design specification subjects the Government to the additional hazard of losing the money paid for the development of the design specification, should the design be altered during the contracting leadtime period. Accordingly, the engineering evaluation should closely review design stability over the anticipated contracting leadtime in order to avoid acquiring an obsolete or nonstandard part if the decision is made to compete it.

(5) *Step 52.* Add the estimated cost of obtaining a detailed design data package to the results of step 45.

(6) *Step 53.* If the results of step 52 are less than the estimated savings, initiate action to obtain a detailed design data package. Proceed to step 54 to code the part for a period until it can be rescreened using the design specification package. The code determined in this screening shall be assigned a suspense date commensurate with the leadtime required to obtain the detailed design data package (see 2-203(b)).

(7) *Step 54.* Is the part manufactured by the prime contractor? If yes, code the part AMC 3; if no, proceed to step 55.

(8) *Step 55.* Can the part be acquired directly from the actual manufacturer? If no, proceed to step 56; if yes, code the part AMC 3 or 4, as applicable.

(9) *Step 56.* Specify the reasons for inability to obtain the part from the actual manufacturer. Code the part AMC 5. 3-303.6 Supply feedback phase (steps 57-65).

(a) The supply feedback phase of the analysis is the final screening phase for breakout parts. This phase is completed for all AMC 2 parts to determine if sufficient time is available to break out on the immediate buy and to communicate this information to the inventory manager responsible for the requirement. First, all additional time factors required to break out the part are added. Total time is subtracted from the immediate and future buy date and the result compared to the current date. (Note: Not all time factors listed apply to each part screened.) If the result is the same or earlier than the required contract date, the part is coded competitive and action is begun to qualify additional sources as necessary. If the result is later than the required contract date, action to compete the immediate buy quantity should be initiated if the inventory manager can find some means of accepting later delivery. If this is impossible, the appropriate records should be annotated for competitive acquisition of the next replenishment buy quantity. If late delivery is acceptable, the inventory manager should compute requirements for the part and initiate an appropriate purchase requisition.

(b) *Procedures.*

(1) *Step 57.* Add all additional time factors required to break out the part (steps 13, 14, 29, and 36).

(2) *Step 58.* Add the results of step 57 to the date of this review.

(3) *Step 59.* Compare the result of step 58 to the date that the contract or order must be placed.

(4) *Step 60.* Is the result of step 59 earlier than, later than, or the same as the contract or order date? (If earlier or the same, proceed to step 61; if later, proceed to step 63.)

(5) *Step 61.* Can supply accept late delivery? If yes, proceed to step 62; if no, proceed to step 63.

(6) *Step 62.* Notify the inventory manager to compute requirements and initiate a purchase requisition. Proceed to step 64.

(7) *Step 63.* Code the part AMC 2. Insufficient time to compete on this buy.

(8) *Step 64.* Code the part AMC 2.

(9) *Step 65.* Begin actions to qualify new sources, if required and possible.

3-303 Full screening procedures.

(a) Full screening procedures should be developed so that the potential is fully evaluated for establishing competition or purchase from an actual manufacturer. Also, full screening procedures should facilitate accurate and consistent acquisition method code assignment. It is expected that each activity will develop its own operational screening procedures. A general model, full screening decision process is provided below to support the development of activity level procedures and to provide guidance regarding the general scope of these procedures. The full screening procedures involve 65 steps in the decision process, and are divided into the following phases:

- (1) Data collection.
- (2) Data evaluation.
- (3) Data completion.
- (4) Technical evaluation.
- (5) Economic evaluation.
- (6) Supply feedback.

(b) The six phases describe different functions that must be achieved during screening. The nature of the screening process does not permit clear distinction of one phase from another. Further, the order of performance of these phases may not correspond to the order listed here. In fact, the phases will often overlap and may be performed simultaneously. Their purpose is to identify the different functions comprising the screening process.

(c) A summary flow chart of the decision steps is provided as Exhibit II to assist in understanding the logical order of the full screening steps for various conditions. Use of the flow chart in connection with the text that follows is essential to fully understand the order of the steps in the process.

3-304 Limited screening procedures.

(a) Limited screening procedures are only appropriate when the full screening process cannot be completed for a part in sufficient time to support an immediate buy requirement. If limited screening does not result in a competitive AMC and the part is characterized by a high buy value and high buy quantity in the annual buy forecast, full screening procedures shall be immediately initiated.

(b) Limited screening procedures cover only the essential points of data and technical evaluations more completely described in full screening procedures (see 3-303). Extensive legal review of rights or technical review of data is not required; nor is backup information on type and extent of qualification testing, quality control procedures and master tooling required. A summary flow chart of the limited screening decision steps is provided at Exhibit III.

(c) The limited screening decision steps are followed sequentially if the answer to the question in each step is affirmative. If any step is answered in the negative, proceed directly to step 10.

(1) *Step 1.* Assemble all available data and establish a file for each part. Collect identification data, relevant data obtained from industry, contracting and technical history data and current status of the part (see 3-303.1).

(2) *Step 2.* Do the available documents establish Government rights to use the data for acquisition purposes? If the Government's rights to use data in its possession is questionable, resolution of the rights must continue beyond award of the immediate buy.

(3) *Step 3.* Is the data package sufficient, accurate, and legible? If the Government does not have in its possession sufficient, accurate, or legible data, action shall be promptly initiated to resolve the deficiency for the next buy.

(4) *Step 4.* Is the design of the part stable over the anticipated acquisition lead time?

(5) *Step 5.* Is a satisfactory part now being produced?

(6) *Step 6.* Can the part be acquired from a new source without prior qualification testing or other approval testing?

(7) *Step 7.* Can the Government or a new source be responsible for quality assurance?

(8) *Step 8.* Can the part be manufactured without master or coordinated tooling or other special equipment; if no, is there more than one source that has the tooling or special equipment?

(9) *Step 9.* Assign AMC 2. Proceed to step 11.

(10) *Step 10.* Assign AMC 3, 4, or 5, as appropriate.

(11) *Step 11.* Establish the date of the next review (see 1-104(c) and 2-203(b)).

PART 4 -CONTRACTOR'S ASSISTANCE

4-400 General.

(a) Contractor's assistance in screening shall be requested on provisioned and replenishment parts after consideration of the benefit expected from the contractor's technical information and the cost to the Government of obtaining such assistance.

(b) Contractor's assistance shall not be requested for parts covered by Government/industry specifications, commercially available parts or parts for which data is already available.

(c) Arrangements entered into with contractors to obtain technical information shall provide that—

(1) Contractors will exert their best effort to make impartial technical evaluations using applicable technical data and the experience of competent personnel; and

(2) No costs to the Government will be incurred for duplicate screening of parts.

4-401 Contractor's technical evaluation procedures.

(a) Contractor's technical evaluation for the screening process shall be required contractually by incorporating MIL-STD-789, which delineates the contractor's responsibilities and procedures and prescribes use of the contractor DD Form 1418, Technical Information Record, and the DD Form 1418-1, Technical Data Identification Checklist, a copy of each document listed on DD Form 1418-1, and other substantive data that was used in developing the contractor's recommendations.

(b) When MIL-STD-789 is incorporated in a contract, the DD Form 1423, Contract Data Requirements List, shall specify the requirement for the submission of DD Form 1418, Technical Information Record, and DD Form 1418-1, Technical Data Identification Checklist, in accordance with MIL-STD-789.

PART 5 -REPORTING SYSTEM

5-500 General.

This part prescribes reports regarding the breakout program that cannot be obtained from other sources. These reports are used to evaluate the effectiveness of breakout programs, establish a baseline for all spare part acquisitions, and identify trends in spare parts acquisition.

5-501 Reports.

(a) *Spare Parts Breakout Screening Report (RCS DD P&L(Q&SA) 714A)*. This is a cumulative semi-annual report reflecting the accomplishments of the breakout program. The report describes the results of full and limited screening for provisioning and replenishment parts by number of different NSNs for each AMC. Departments and agencies shall also maintain actual cost data attributable to the Spare Parts Breakout Program which shall be forwarded on this report semi-annually.

(b) *Spare Parts Acquisition Report (RCS DD P&L(Q&SA) 714B)*. This is a cumulative semi-annual report for all purchases made of spare parts during the current fiscal year. This report describes the number and extended dollar value of different NSNs purchased for each AMC. Departments and agencies shall also maintain actual savings (or cost avoidance) data attributable to the Spare Parts Breakout Program which shall be forwarded on this report semi-annually. Because of extraneous factors such as contracting leadtimes and changes in spare parts requirements, this report will not always reflect the acquisition of the parts screened during a reporting period (contained on the Spare Parts Breakout Screening Report). Also, it will not show in all instances how the part was actually acquired. This report is intended to be an indication of the success of the breakout program, and designed to show trends in the coding and data available to buyers in the acquisition package.

5-502 Reporting procedures.

(a) Departments and agencies shall maintain and forward semi-annual reports. The second semi-annual report in a fiscal year shall reflect cumulative totals for the current fiscal year using the formats in Exhibits IV and V.

(b) The reports will be due no later than 45 days after the end of each period designated.

(c) Submissions will be made to the Under Secretary of Defense (Acquisition and Sustainment).

5-503 Reporting instructions.

(a) *Spare parts breakout screening report*. Using the format in Exhibit IV, provide the following—

(1) Enter reporting activity name, fiscal year, and period ending.

(2) For each AMC/AMSC listed, enter the number of different NSNs for which screening was completed during the period. Show zeros where applicable. This should be done for both full and limited screening.

(3) Report the total costs of the breakout program incurred for the period. Although this will be primarily labor costs, it should also include appropriate prorated costs of ADP services, office overhead, data retrieval service costs, etc. (see 3-303.5).

(b) *Spare parts acquisition report*. Using the format in Exhibit V, provide the following:

(1) Enter reporting activity name, fiscal year, and period ending.

(2) For each AMC/AMSC listed, enter the number of different NSNs purchased during the current fiscal year and their extended dollar value.

(3) Report the actual breakout program savings or cost avoidances as measured by completed acquisition (not anticipated acquisitions). Price differentials should be measured on each acquisition where a breakout action has taken place. They should equal the difference between the previous contract unit price and the current contract unit price, times the number of units purchased.

PGI 217.76 -CONTRACTS WITH PROVISIONING REQUIREMENTS

PGI 217.7601 Provisioning.

(1) *Definitions.* As used in this section—

(i) “Provisioning” means the process of determining and acquiring the range and quantity of spare and repair parts, and support and test equipment required to operate and maintain an end item for an initial period of service.

(ii) “Provisioned item” means any item selected under provisioning procedures.

(iii) “Provisioned items order” means an undefinitized order issued under a contract that includes the Government's requirements for provisioned items. (Provisioned items with firm prices are acquired by supplemental agreement or by separate contract.)

(iv) “Provisioning activity” means the organization responsible for selecting and determining requirements for provisioned items.

(v) “Provisioning requirements statement” means the contractual document listing the specific provisioning requirements for that contract. The statement normally includes—

(A) Instructions, such as the provisioning method to be used;

(B) The extent of provisioning technical documentation and data needed (including administrative requirements for submission and distribution);

(C) The type and location of provisioning conferences;

(D) Sample article requirements;

(E) The delivery schedule;

(F) Packaging and marking requirements for provisioned items; and

(G) Requirements for provisioning screening.

(vi) “Provisioning technical documentation” means the data needed for the identification, selection, determination of initial requirements, and cataloging of support items to be acquired through the provisioning process. It includes such things as provisioning lists and logistics support analysis summaries. Descriptive data such as drawings and photographs are referred to as “supplementary provisioning technical documentation.”

(2) *Contractual provisions.* Contracts containing provisioning requirements shall—

(i) List the provisioning functions to be performed and who will perform them;

(ii) Include a provisioning requirements statement or specify a time limit for its incorporation into the contract by modification (revisions to the provisioning requirements statement shall also be incorporated by contract modification);

(iii) Include on the DD Form 1423, Contract Data Requirements List, a schedule for delivery of provisioning technical documentation, or provide for the schedule to be incorporated later by contract modification;

(iv) Require flowdown of the appropriate provisioning technical documentation requirement when the subcontractor prepares the documentation;

(v) Specify any applicable procedures for interim release by the contractor of long lead time items, and include ordering and funding instructions for such items. As a minimum, the instructions shall require the contractor to advise the contracting officer or provisioning activity at least 30 days before release of the items, their estimated costs, and the effective date of release;

(vi) Specify the activity designated to issue provisioned items orders, i.e., contracting officer, provisioning activity, or administrative contracting officer. When it is expected that more than one activity will place provisioned items orders against the contract, state the requirements for provisioned items of each activity as separate contract line items;

(vii) Provide a definitization schedule (normally 120 days after receipt of the contractor's proposal) and a timeframe for the contractor to furnish price proposals for provisioned items orders (normally 60 days after order issuance);

(viii) Specify exhibit identifiers applicable to the contract line/subline items; and

(ix) Include procedures for processing changes (including cancellations) in quantities of items ordered.

(3) *Issuance of provisioned items orders.*

(i) Use the Standard Form 30, Amendment of Solicitation/Modification of Contract, to—

(A) Issue provisioned items orders;

(B) Decrease or cancel quantities of items ordered; and

(C) Cover the contractor's interim release of long lead items when the contracting officer approves the release (if the release is not approved, the contracting officer shall notify the contractor to cancel the items).

(ii) Include in Block 14 of the Standard Form 30—

(A) The term PROVISIONED ITEMS ORDER in capital letters and underlined; and

(B) The appropriate exhibit identifier(s) for all attached exhibits.

(iii) Obligate funds to cover the estimated price of the items being ordered. Show individual estimated prices for each exhibit line item on the accounting and payment office copies.

(iv) Distribution is the same as for the basic contract (see FAR Subpart 4.2). However, if the exhibits are voluminous, the contracting officer may restrict distribution of the exhibits to the contract administration office.

(v) See DFARS Subpart 217.74 for additional guidance and limitations on the use of undefinitized contract actions.

(4) *Provisioning conferences.* When requested by the contracting officer or provisioning activity, the contract administration office shall assist the contracting officer or provisioning activity in scheduling and determining the types of provisioning conferences required, e.g., guidance meetings, long lead time items conferences, source coding meetings.

(5) *Contract administration office monitoring.*

The contract administration office (CAO) shall monitor contracts containing provisioning requirements. As a minimum the CAO shall—

(i) Ensure that the contractor understands the provisioning requirements;

(ii) Review contractor progress in the preparation of provisioning technical documentation and, if requested by the contracting officer or provisioning activity, inspect it for format and content;

(iii) Ensure the prime contractor flows down provisioning requirements to any subcontractor charged with preparation of documentation;

(iv) Advise the contracting office or provisioning activity of delays in delivery of provisioning technical documentation or other related problems (see FAR Subpart 42.11);

(v) Ensure contractor compliance with contract requirements concerning the assignment of national stock numbers; and

(vi) Ensure that the contractor complies with contractual criteria for release of long lead time items.

(6) *Negotiating and executing supplemental agreements.*

(i) The administrative contracting officer (ACO) shall definitize provisioned items orders within the prescribed schedule.

(ii) If the provisioned items order does not contain a delivery date, or the contractor cannot meet the date, the ACO shall coordinate the negotiated schedule with the contracting officer or provisioning activity before execution of the supplemental agreement.

(iii) The ACO shall maintain records of provisioned items orders showing—

(A) The adequacy of obligated funds;

(B) Due dates for price proposals; and

(C) Actions taken to obtain additional funds or to deobligate excess funds.

PGI 217.77 -OVER AND ABOVE WORK

PGI 217.7701 Procedures.

(1) Contracts for the performance of maintenance, overhaul, modification, and repair of various items (e.g., aircraft, engines, ground support equipment, ships) generally contain over and above work requirements. When they do, the contracting officer shall establish a separate contract line item for the over and above work.

(2) Over and above requirements task the contractor to identify needed repairs and recommend corrective action during contract performance. The contractor submits a work request to identify the over and above work and, as appropriate, the Government authorizes the contractor to proceed.

(3) The clause at DFARS [252.217-7028](#), Over and Above Work, requires the contractor and the contracting officer responsible for administering the contract to negotiate specific procedures for Government administration and contractor performance of over and above work requests.

(4) The contracting officer may issue a blanket work request authorization describing the manner in which individual over and above work requests will be administered and setting forth a dollar limitation for all over and above work under the contract. The blanket work request authorization may be in the form of a letter or contract modification (Standard Form 30).

(5) Over and above work requests are within the scope of the contract. Therefore, procedures in DFARS Subpart 217.74, Unfixed Contract Actions, do not apply.

(6) To the maximum extent practical, over and above work shall be negotiated prior to performance of the work.

PGI PART 218 - EMERGENCY ACQUISITIONS

<i>Sec.</i>			
PGI 218.2	-EMERGENCY ACQUISITION FLEXIBILITIES	PGI 218.271	Use of electronic business tools.

This page intentionally left blank.

PGI 218.2 -EMERGENCY ACQUISITION FLEXIBILITIES

PGI 218.271 Use of electronic business tools.

(a) Use of electronic business (e-business) acquisition tools greatly enhances the efficacy of the contracting process in a contingency business environment (CBE). The CBE involves specific tools, policies, roles and responsibilities, and processes necessary to streamline delivery of goods and services to the end user and to implement an e-business program with the capabilities necessary to support an end-to-end electronic acquisition process in order to quickly obtain goods and services for the warfighter in an operational area. For information and procedures to effectively utilize CBE e-business tools, and additional policy references supporting use of the e-business tools, see the DoD CBE Guidebook at https://www.acq.osd.mil/asda/dpc/cp/cc/docs/resources/CBE_Guidebook.docx.

(b) Use of the following CBE e-business tools is mandatory when supporting a contingency or humanitarian or peacekeeping operation as defined in FAR 2.101:

(1) The 3in1 Tool. The 3in1 Tool automates the field order, receipt, and purchase processes previously executed manually using the paper Standard Form (SF) 44. The 3in1 handheld device records and transmits cash and carry type purchases and payment data to the prime database for remote reconciliation and review, when conducting on-the-spot, over-the-counter field purchases where use of the Government Purchase Card is appropriate, but not feasible. The 3in1 database may be accessed on the Joint Contingency Contracting Systems (JCCS) website at <https://www.jccs.gov/olvr/>.

(2) The Acquisition Cross-Servicing Agreements (ACSA) Global Automated Tracking and Reporting System (AGATRS). AGATRS is an automated tool that tracks and provides visibility into worldwide ACSAs that may satisfy a requirement through support from the host nation or other nations supporting the contingency. ACSA transactions that are used in support of contingency or humanitarian or peacekeeping operations are required to be documented and tracked in AGATRS as required by the Chairman of the Joint Chiefs of Staff Instruction 2120.01D, Acquisition and Cross Servicing Agreements (https://www.jcs.mil/Portals/36/Documents/Library/Instructions/2120_01.pdf?ver=CHcrQXsNoR43vDcR5Y80sg%3d%3d). AGATRS is accessible on the JCCS website at <https://www.jccs.gov/olvr>.

(c) No other electronic tools may be used to fulfill the same capabilities as 3in1 and AGATRS.

(d) See PGI [225.370](#) (a)(ii) regarding use of the Theater Business Clearance CBE e-business tool.

PGI 219.2 -POLICIES

PGI 219.201 General policy.

(c)(10)(I) Agencies are not precluded from requiring that actions over the micro-purchase threshold, but under the simplified acquisition threshold, that are totally set aside for small business be reviewed by the small business specialist. One example of when an agency may choose to require this review is when the agency determines that such a review is necessary to assist contracting officers in identifying opportunities for other small business set-aside programs (e.g., HUBZone, service-disabled veteran-owned, small disadvantaged business, women-owned small business) in order to meet small business goals.

(2) Modifications that increase the scope of the contract, or the order under a Federal Supply Schedule contract, should be reviewed by the small business specialist. At a minimum, these actions might impact the small business subcontracting plan. However, funding modifications or modifications that do not increase the scope of the contract generally should not be reviewed, because the value that a small business specialist review would add in these instances would be minimal compared to the resources that would be expended.

(d) Small business specialists are appointed and perform functions in accordance with DoD Instruction (DoDI) 4205.01, DoD Small Business Programs. In the DoDI, small business specialists are called “small business professionals.”

PGI 219.6 -CERTIFICATES OF COMPETENCY

PGI 219.602 Procedures.

PGI 219.602-1 Referral.

When making a nonresponsibility determination on a small business concern, the contracting officer shall notify the contracting activity's small business specialist.

PGI 219.602-3 Resolving differences between the agency and the Small Business Administration.

(a)(3)(A) If the contracting officer believes the agency should appeal, the contracting officer shall immediately inform the departmental director of the Office of Small Business Programs and shall send the director, through departmental channels—

(1) A request for appeal, summarizing the issues. The request must be sent to arrive within 5 working days after receipt of the SBA Headquarters' written position; and

(2) An appeal file, documenting the contracting activity's position. The file must be sent to arrive within 5 working days after transmission of the request.

(B) The departmental director will determine whether the agency will appeal and will notify the SBA of the agency's intent.

PGI 219.7 -THE SMALL BUSINESS SUBCONTRACTING PROGRAM

PGI 219.705 Responsibilities of the contracting officer under the subcontracting assistance program.

PGI 219.705-4 Reviewing the subcontracting plan.

When reviewing the subcontracting plan, contracting officers may use the document entitled “DoD Checklist for Reviewing Subcontracting Plans.” The document is available at <http://business.defense.gov/Acquisition/Subcontracting/>.

PGI 219.705-6 Postaward responsibilities of the contracting officer.

(f) When reviewing subcontracting reports, contracting officers may use the document entitled “DoD Subcontracting Program—Business Rules and Processes for (1) Electronic Subcontracting Reporting System (eSRS) and (2) Preparing and Reviewing Related Subcontract Reports.” The document is available at <http://business.defense.gov/Acquisition/Subcontracting/>.

This page intentionally left blank.

PGI 219.8 -CONTRACTING WITH THE SMALL BUSINESS ADMINISTRATION (THE 8(A) PROGRAM)

PGI 219.800 General.

A copy of the Partnership Agreement (PA) between DoD and the Small Business Administration (SBA) is available [here](#).

PGI 219.803 Selecting acquisitions for the 8(a) Program.

- (1) Contracting activities should respond to SBA requests for contract support within 30 calendar days after receipt.
- (2) Before considering a small business set-aside, review the acquisition for offering under the 8(a) Program.

PGI 219.804 Evaluation, offering, and acceptance.

PGI 219.804-2 Agency offering.

(1) For requirements processed under the PA cited in DFARS [219.800](#) (but see paragraph (2) of this subsection for procedures related to purchase orders that do not exceed the simplified acquisition threshold), the notification to the SBA shall clearly indicate that the requirement is being processed under the PA. All notifications should be submitted in writing, using facsimile or electronic mail, when possible, and shall specify that—

(i) Under the PA, an SBA acceptance or rejection of the offering is required within 5 working days of receipt of the offering; and

(ii)(A) For sole source requirements, an SBA acceptance shall include a size verification and a determination of the 8(a) firm's program eligibility, and, upon acceptance, the contracting officer will solicit a proposal, conduct negotiations, and make award directly to the 8(a) firm; or

(B) For competitive requirements, upon acceptance, the contracting officer will solicit offers, conduct source selection, and, upon receipt of an eligibility verification, award a contract directly to the selected 8(a) firm.

(2) Under the PA cited in DFARS [219.800](#), no separate agency offering or SBA acceptance is needed for requirements that are issued under purchase orders that do not exceed the simplified acquisition threshold. After an 8(a) contractor has been identified, the contracting officer shall establish the prices, terms, and conditions with the 8(a) contractor and shall prepare a purchase order consistent with the procedures in FAR Part 13 and DFARS Part 213, including the applicable clauses required by DFARS Subpart 219.8. No later than the day that the purchase order is provided to the 8(a) contractor, the contracting officer shall provide to the cognizant SBA Business Opportunity Specialist, using facsimile, electronic mail, or any other means acceptable to the SBA district office—

(i) A copy of the signed purchase order; and

(ii) A notice stating that the purchase order is being processed under the PA. The notice also shall indicate that the 8(a) contractor will be deemed eligible for award and will automatically begin work under the purchase order unless, within 2 working days after SBA's receipt of the purchase order, the 8(a) contractor and the contracting officer are notified that the 8(a) contractor is ineligible for award.

(3) The notification to SBA shall identify any joint venture proposed for performance of the contract. SBA shall approve a joint venture before award of an 8(a) contract involving the joint venture.

(4) For competitive requirements for construction to be performed overseas, submit the notification to SBA Headquarters.

PGI 219.804-3 SBA acceptance.

For requirements processed under the PA cited in DFARS [219.800](#), SBA's acceptance is required within 5 working days (but see PGI [219.804-2](#) (2) for purchase orders that do not exceed the simplified acquisition threshold).

PGI 219.805 Competitive 8(a).

PGI 219.805-2 Procedures.

For requirements processed under the PA cited in DFARS [219.800](#)—

(1) For sealed bid and negotiated acquisitions, the SBA will determine the eligibility of the firms and will advise the contracting officer within 2 working days after its receipt of a request for an eligibility determination; and

(2) For negotiated acquisitions, the contracting officer may submit a request for an eligibility determination on all firms in the competitive range if discussions are to be conducted, or on all firms with a realistic chance of award if no discussions are to be conducted.

PGI 219.808 Contract negotiations.**PGI 219.808-1 Sole source.**

For requirements processed under the PA cited in DFARS [219.800](#)—

- (1) The agency may negotiate directly with the 8(a) contractor. The contracting officer is responsible for initiating negotiations;
- (2) The 8(a) contractor is responsible for negotiating within the time established by the contracting officer;
- (3) If the 8(a) contractor does not negotiate within the established time and the agency cannot allow additional time, the contracting officer may, after notifying the SBA, proceed with the acquisition from other sources;
- (4) If requested by the 8(a) contractor, the SBA may participate in negotiations; and
- (5) SBA approval of the contract is not required.

PGI 219.811 Preparing the contracts.**PGI 219.811-1 Sole source.**

(1) Awards under the PA cited in DFARS [219.800](#) may be made directly to the 8(a) contractor and, except as provided in paragraph (2) of this subsection and in DFARS [219.811-3](#), award documents shall be prepared in accordance with procedures established for non-8(a) contracts, using any otherwise authorized award forms. The “Issued by” block shall identify the awarding DoD contracting office. The contractor’s name and address shall be that of the 8(a) participant.

(2) Use the following alternative procedures for direct awards made under the PA cited in DFARS [219.800](#):

- (i) Cite 10 U.S.C. 3204(a)(5) as the authority for use of other than full and open competition.
- (ii) Include the clause at DFARS [252.219-7009](#), Section 8(a) Direct Award, in accordance with the prescription at DFARS [219.811-3](#)(1). Identify the cognizant SBA district office for the 8(a) contractor.
- (iii) No SBA contract number is required.
- (iv) Do not require an SBA signature on the award document.

PGI 219.811-2 Competitive.

Awards made under the PA cited in DFARS [219.800](#) shall be prepared in accordance with the procedures in PGI [219.811-1](#)

PGI 222.1 -BASIC LABOR POLICIES

PGI 222.101 Labor relations.

PGI 222.101-1 General.

The contracting officer shall obtain approval from the labor advisor before—

- (1) Contacting a national office of a labor organization, a Government agency headquarters, or any other organization on labor relations matters or disputes; or
- (2) Making recommendations for plant seizure or injunctive action relating to potential or actual work stoppages.

PGI 222.101-3 Reporting labor disputes.

The contract administration office shall—

- (1) Notify the labor advisor, the contracting officer, and the head of the contracting activity when interference is likely; and
- (2) Disseminate information on labor disputes in accordance with departmental procedures.

PGI 222.101-3-70 Impact of labor disputes on defense programs.

(a) If the dispute involves a product, project (including construction), or service that must be obtained in order to meet schedules for urgently needed military programs or requirements, each department and agency shall consider the degree of impact of potential or actual labor disputes, and each contracting activity involved shall obtain and develop data reflecting the impact of a labor dispute. Upon determining the impact, the head of the contracting activity shall submit a report of findings and recommendations to the labor advisor.

(b)(i) The report to the labor advisor must be in narrative form and must include—

- (A) Location of dispute and name of contractor or subcontractor involved;
- (B) A description of the impact, including how the specific items or services affect the specific programs or requirements;
- (C) Identity of alternate sources available to furnish the supply or service within the time required; and
- (D) A description of any action taken to reduce the impact.

(ii) The head of the contracting activity shall submit impact reports to the agency head when—

- (A) Specifically requested; or
- (B) The department or agency considers the impact to be of sufficient urgency to warrant the attention of the agency head.

(iii) The labor advisor will expand the report submitted under paragraph (b)(ii) of this subsection by addressing the following, as appropriate:

(A) *Description of military program, project, or service.* Identify item, project, or service that will be or is being affected by the work stoppage. Describe its normal use and current functions in combat, combat support, or deterrent operations. For components or raw materials, identify the end item(s) for which they are used.

(B) *Requirements and assets.* Identify requirements and assets in appropriate detail in terms commonly used by the DoD component.

(1) For production programs, include requirements for each using military service. Where applicable, state in detail production schedule, inventory objectives, assets against these objectives, and critical shortages. For spares and highly expendable items, such as ground and air ammunition, show usage (consumption) rates and assets in absolute terms and in terms of daily, weekly, or monthly supplies. For components, include requirements for spares.

(2) For projects, describe the potential adverse effects of a delay in meeting schedules, and its impact on the national security.

(3) For services, describe how a loss or interruption affects the ability to support Defense operations in terms of traffic requirements, assets, testing programs, etc.

(C) *Possible measures to minimize strike impact.* Describe—

(1) Capabilities, if any, to substitute items or to use alternate sources and indicate the number of other facilities available and the relative capabilities of such facilities in meeting total requirements;

(2) How much time would be required to replace the loss of the facilities or service affected by a work stoppage; and

(3) The feasibility of transferring assets from theater to theater to relieve deficits in some areas of urgency.

(D) Conclusion.

(1) Describe the impact on operations of a 15-30, 30-60, and a 60-90 day work stoppage.

(2) Project the degree of criticality of a program, project, or service resulting from a work stoppage on a calendar basis, indicating the increased impact, if any, as the stoppage lengthens. Criticality is measured by the number of days required for the work stoppage to have an effect on operational capability. This time must be stated in terms of days.

PGI 222.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a)(ii) Include the following information in the request:

(1) Contract number.

(2) A statement as to the urgency and criticality of the item needed.

(3) A description of the items to be moved (nature of the item, amount, approximate weight and cubic feet, item number, etc.).

(4) Mode of transportation by which the items are to be moved, if different than in the contract, and whether by Government or commercial bill of lading.

(5) Destination of the material, if different from that specified in the contract.

PGI 222.4 -LABOR STANDARDS FOR CONTRACTS INVOLVING CONSTRUCTION

PGI 222.404 Construction Wage Rate Requirements statute wage determinations.

PGI 222.404-2 General requirements.

(c)(5) Clarification concerning the proper application of wage rate schedules to the type or types of construction involved shall be obtained from—

- (A) For the Army - The appropriate district commander, Corps of Engineers.
- (B) For the Navy - The cognizant Naval Facilities Engineering Command division.
- (C) For the Air Force - The appropriate Regional Industrial Relations Office.

PGI 222.406 Administration and enforcement.

PGI 222.406-8 Investigations.

(a) Under Reorganization Plan No. 14 of 1950, contracting agencies are tasked with the primary responsibility for the conduct of labor standards compliance activities for construction contracts subject to the Construction Wage Rate Requirements statute. When such compliance assurance activities disclose potential violations that are substantial in amount (wage underpayments in excess of \$1,000) or when requested by the Department of Labor, the contracting officer or a designee should take the following steps to ensure compliance with the investigative requirements of the Department of Labor:

- (i) *Beginning of the investigation.* The investigator shall—
 - (A) Inform the contractor of the investigation in advance;
 - (B) Verify the exact legal name of the contractor, its address, and the names and titles of its principal officers;
 - (C) Outline the general scope of the investigation, including the examination of pertinent records and the interview of employees;
 - (D) Inform the contractor that the names of the employees to be interviewed will not be divulged to the contractor; and
 - (E) When requested, provide a letter from the contracting officer verifying the investigator's authority.
- (ii) *Conduct of the investigation.* Labor standards investigations are comprised of the following essential components:

- (A) Review of the contract.
 - (1) Verify that all required labor standards and clauses and wage determinations are included in the contract.
 - (2) Review the following items in the contract file, if applicable:
 - (i) List of subcontractors.
 - (ii) Payroll statements for the contractor and subcontractors.
 - (iii) Approvals of additional classifications.
 - (iv) Data regarding apprentices and trainees as required by FAR 22.406-4.
 - (v) Daily inspector's report or other inspection reports.
 - (vi) Employee interview statements.
 - (vii) Standard Form (SF) 1413, Statement and Acknowledgement.

(B) Interview of the complainant. If the investigation is based upon the receipt of a complaint, the investigator should interview the complainant unless this is impractical. The interview shall cover all aspects of the complaint to ensure that all pertinent information is obtained. Whenever an investigation does not include an interview of the complainant, explain such omission in the investigator's report.

- (C) Interview of employees and former employees.
 - (1) Interview a sufficient number of employees or former employees, who represent all classifications, to develop information regarding the method and amount of payments, deductions, hours worked, and the type of work performed.
 - (2) Interview employees at the job site if the interviews can be conducted privately and in such a manner so as to cause the least inconvenience to the employer and employees.
 - (3) Former employees may be interviewed elsewhere.

(4) Do not disclose to any employee any information, finding, recommendation, or conclusion relating to the investigation except to the extent necessary to obtain required information.

(5) Do not disclose any employee's statement to anyone, except a Government representative working on the case, without the employee's written permission.

(6) Obtain information by mail when personal interviews are impractical.

(7) Use SF 1445, Labor Standards Interview, for employee interviews.

(8) Ask employees to sign their statements and to initial any changes.

(9) Provide an evaluation of each employee's credibility.

(D) Interview of foremen. Interview foremen to obtain information concerning the contractor's compliance with the labor standards provisions with respect to employees under the foreman's supervision and the correctness of the foreman's classification as a supervisory employee. All procedures established for the conduct of employee interviews, and the recording and use of information obtained, apply to foremen interviews.

(E) Interview of the contractor.

(1) Interview the contractor whenever the investigation indicates the possibility of a violation.

(2) Inform the contractor that—

(i) The interview does not mean that a violation has been found or that a requirement for corrective action exists; and

(ii) The purpose of the interview is to obtain only such data as the contractor may desire to present in connection with the investigation.

(3) Do not disclose the identity of any individual who filed a complaint or was interviewed.

(F) Review of contractor and subcontractor records.

(1) Review contractor and subcontractor records such as basic time cards, books, cancelled payroll checks, fringe benefits, and payment records. Compare them with submitted payrolls. When discrepancies are found, include pertinent excerpts or copies of the records in the investigation report with a statement of the discrepancy and any explanation the investigator obtains. When wages include contributions or anticipated costs for fringe payments requiring approval of the Secretary of Labor, examine the contractor records to ensure such approval has been obtained and that any requirements specified in the approval have been met. (See FAR 22.406-2(a)(3).)

(2) Review contractor's and subcontractor's weekly payrolls and payroll statements for completeness and accuracy regarding the following:

(i) Identification of employees, payroll amount, the contract, contractor, subcontractor, and payroll period.

(ii) Inclusion of only job classifications and wage rates specified in the contract specifications, or otherwise established for the contract or subcontract.

(iii) Computation of daily and weekly hours.

(iv) Computation of time-and-one half for work in excess of 40 hours per week in accordance with FAR 22.406-2(c).

(v) Gross weekly wages.

(vi) Deductions.

(vii) Computation of net weekly wages paid to each employee.

(viii) Ratio of helpers, apprentices, and trainees to laborers and mechanics.

(ix) Apprenticeship and trainee registration and ratios.

(x) Computation of fringe benefits payments.

(3) Transcribe the contractor's records whenever they contain information at variance with payrolls or other submitted documents.

(i) Make the transcriptions in sufficient detail to permit them to be used to check computations of restitution and to determine amounts to be withheld from the contractor.

(ii) Follow the form used by the contractor.

(iii) Place comments or explanations concerning the transcriptions on separate memoranda or in the narrative report.

(iv) Determine whether the wage determination, any modifications of the determination, and any additional classifications are posted as required.

(iii) *Submission of the report of investigation.* The investigator shall submit a report of the investigation in accordance with agency procedures. Each report shall include at least—

- (A) The basis for the investigation, including the name of the complainant;
 - (B) Names and addresses of prime contractors and subcontractors involved, and names and titles of their principal officers;
 - (C) Contract number, date, dollar value of prime contract, and date and number of wage determination included in the contract;
 - (D) Description of the contract and subcontract work involved;
 - (E) Summary of the findings with respect to each of the items listed in PGI [222.406-8](#) (a)(ii);
 - (F) Concluding statement concerning—
 - (1) The types of violations, including the amount of kickbacks under the Copeland Act, underpayments of basic hourly rates and fringe benefits under the Wage Rate Requirements statute, or underpayments and liquidated damages under the Contract Work Hours and Safety Standards statute;
 - (2) Whether violations are considered to be willful or due to the negligence of the contractor or its agent;
 - (3) The amount of funds withheld from the contractor; and
 - (4) Other violations found; and
 - (G) Exhibits indexed and appropriately tabbed, including copies of the following, when applicable—
 - (1) Complaint letter;
 - (2) Contract wage determination;
 - (3) Preconstruction letter and memorandum of preconstruction conference;
 - (4) Payrolls and statements indicating violations;
 - (5) Transcripts of pertinent records of the contractor, and approvals of fringe benefit payments;
 - (6) Employee interview statements;
 - (7) Foreman interview statements;
 - (8) Statements of others interviewed, including Government personnel;
 - (9) Detailed computations showing kickbacks, underpayments, and liquidated damages;
 - (10) Summary of all payments due to each employee or to a fund plan or program, and liquidated damages;
- and
- (11) Receipts and cancelled checks.
- (d) *Contracting officer's report.* This report shall include at least—
- (i) SF 1446, Labor Standards Investigation Summary Sheet;
 - (ii) Contracting officer's findings;
 - (iii) Statement as to the disposition of any contractor rebuttal to the findings;
 - (iv) Statement as to whether the contractor has accepted the findings and has paid any restitution or liquidated damages;
 - (v) Statement as to the disposition of funds available;
 - (vi) Recommendations as to disposition or further handling of the case (when appropriate, include recommendations as to the reduction, waiver, or assessment of liquidated damages, whether the contractor should be debarred, and whether the file should be referred for possible criminal prosecution); and
 - (vii) When applicable, the following exhibits:
 - (A) Investigator's report.
 - (B) Copy of the contractor's written rebuttal or a summary of the contractor's oral rebuttal of the contracting officer's findings.
 - (C) Copies of correspondence between the contractor and contracting officer, including a statement of specific violations found, corrective action requested, and the contractor's letter of acceptance or rejection.
 - (D) Evidence of the contractor's payment of restitution or liquidated damages (copies of receipts, cancelled checks, or supplemental payrolls).
 - (E) Letter from the contractor requesting relief from the liquidated damage provisions of the Contract Work Hours and Safety Standards statute.

PGI 222.8 -EQUAL EMPLOYMENT OPPORTUNITY

PGI 222.807 Exemptions.

(c) When seeking an exemption from the requirements of Executive Order 11246, submit the request with a justification through contracting channels to the labor advisor, who will forward the request to the agency head. If the request is submitted under FAR 22.807(a)(1), the agency head shall act on the request. If the exemption is granted, the agency head shall notify the Director, Office of Federal Contract Compliance Programs (OFCCP), of such action within 30 days. If the request is submitted under FAR 22.807(a)(2) or (b)(5), the agency head will forward it to the Director, OFCCP, for action.

PGI 222.10 -SERVICE CONTRACT LABOR STANDARDS

PGI 222.1008 RESERVED

PGI 222.1008-1 Obtaining wage determinations.

(1) The contracting officer shall secure the assistance of cognizant customer/technical personnel to ensure maximum use of the Service Contract Act Directory of Occupations (Directory) and incorporation of all service employee classes (Directory and non-Directory) expected to be utilized.

(2) When the statement of work job title, for which there is a Directory equivalent, differs from the Directory job title, provide a cross-reference on the e98.

(3) Include and note as such any classifications and minimum hourly wage rates conformed under any predecessor contract. When a previously conformed classification is not included in the Directory, include the job description on the e98.

This page intentionally left blank.

PGI 222.13 -EQUAL OPPORTUNITIES FOR VETERANS

PGI 222.1305 Waivers.

(c) When seeking a waiver of any of the terms of the clause at FAR 52.222-35, Equal Opportunity for Veterans, submit a waiver request through contracting channels to the labor advisor. If the request is justified, the labor advisor will endorse the request and forward it for action to—

- (i) The agency head for waivers under FAR 22.1305(a); or
- (ii) The Secretary of Defense, without the power of redelegation, for waivers under FAR 22.1305(b).

This page intentionally left blank.

PGI 222.17 -COMBATING TRAFFICKING IN PERSONS

For a sample checklist for auditing compliance with Combating Trafficking in Persons policy, [click here](#).

PGI 222.1703 Policy.

(1) The Office of the Under Secretary of Defense for Personnel and Readiness (OUSD(P&R)) is responsible for developing overall guidance on personnel policy issues relating to Combating Trafficking in Persons (CTIP). The DoD CTIP website is <http://ctip.defense.gov/>. The website includes DoD policy on CTIP, CTIP training information, and links to the National TIP hotline, the DoD IG website, the Department of State Office to Monitor and Combat Trafficking in Persons, and other Government and non-Government organization websites.

(2) Department of Defense Instruction 2200.01, reissued September 15, 2010, entitled Combating Trafficking in Persons, (located at <http://www.dtic.mil/whs/directives/corres/pdf/220001p.pdf>), requires the incorporation of terms and conditions in contracts performed either inside or outside the United States that—

- (i) Prohibit any activities on the part of contractor employees that support or promote trafficking in persons; and
- (ii) Impose suitable penalties on contractors who fail to monitor the conduct of their employees.

(3) DoD Instruction 5525.11, Criminal Jurisdiction Over Civilians Employed By or Accompanying the Armed Forces Outside the United States, Certain Service Members, and Former Service Members, dated March 3, 2005, located at <http://www.dtic.mil/whs/directives/corres/pdf/552511p.pdf>, and as supplemented by Directive-Type Memorandum 09-015 at <http://www.dtic.mil/whs/directives/corres/pdf/DTM-09-015.pdf>, implements policies and procedures, and assigns responsibilities, under the Military Extraterritorial Jurisdiction Act of 2000, as amended by section 1088 of the National Defense Authorization Act for Fiscal Year 2005, for exercising extraterritorial criminal jurisdiction over certain current and former members of the U.S. Armed Forces, and over civilians employed by or accompanying the U.S. Armed Forces outside the United States.

(4) Quality assurance surveillance plans (QASPs) that are developed in accordance with DFARS [237.172](#) should appropriately describe how the contracting officer's representative will monitor the contractor's performance regarding trafficking in persons such that non-compliance with FAR clause 52.222-50, Combating Trafficking in Persons, is brought to the immediate attention of the contracting officer.

(5) PD2 users shall not use system overrides or other administrative methods of developing clauses for use in PD2-generated contracts to avoid the inclusion of the clause at FAR 52.222-50, with its Alternate I, if appropriate, in solicitations and contracts.

(6) The contracting officer shall rely on the requiring activity to ascertain the existence of any additional Geographic Combatant Commander's (GCC's)/Subordinate Joint Force Commander, Trafficking In Persons, Directives or Notices, as required under PGI [225.370](#), checklist item #12, that would require the use of Alternate I with the clause at FAR 52.222-50, Combating Trafficking in Persons, as required by FAR 22.1705 for contracts performed outside the United States. The webpage is provided at <https://www.acq.osd.mil/asda/dpc/cp/cc/aor.html> and by clicking on the pertinent GCC Area of Responsibility.

PGI 222.1704 Violations and remedies.

(1) If the contracting officer receives information indicating that the contractor, a contractor employee, a subcontractor, or a subcontractor employee has failed to comply with the requirements of the clause at FAR 52.222-50, the contracting officer

shall—

(i) Through the contracting officer's local commander or other designated representative, immediately notify the Combatant Commander responsible for the geographical area in which the incident has occurred; and

(ii) Provide information about any investigation and enforcement to—

(A) Program Manager, DoD CTIP Policy and Programs Support at <https://ctip.defense.gov/> or by email to dodctip@mail.mil; and

(B) Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) by email to osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil.

(2) Reports may be made to the DoD Inspector General Hotline at <http://www.dodig.mil/hotline/> or 800-424-9098, first and foremost.

(3) Reports also may be made to the National Human Trafficking Hotline at 1-888-373-7888 or to the Hotline website at <https://humantraffickinghotline.org/>.

This page intentionally left blank.

PGI 222.74 -RESTRICTIONS ON THE USE OF MANDATORY ARBITRATION AGREEMENTS

PGI 222.7404 Waiver.

(c) Requests for waivers to the policy at DFARS [222.7402](#) must be submitted to the Secretary of Defense through the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy). Requests for waivers may be submitted via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil. Include “Waiver-Mandatory Arbitration” in the subject line of the message.

**PGI PART 223 - ENVIRONMENT, SUSTAINABLE
ACQUISITION, AND MATERIAL SAFETY**

<i>Sec.</i>			
PGI 223.1	- SUSTAINABLE PRODUCTS AND SERVICES	PGI	Procedures.
PGI	Products containing recovered materials.	223.370-4	
223.107-1		PGI 223.73	-MINIMIZING THE USE OF MATERIALS CONTAINING
PGI 223.3	- HAZARDOUS MATERIAL IDENTIFICATION, MATERIAL		HEXAVALENT CHROMIUM
	SAFETY DATA, AND NOTICE OF RADIOACTIVE	PGI	Authorization and approval.
	MATERIALS	223.7305	
PGI 223.370	Safety precautions for ammunition and explosives.		

This page intentionally left blank.

PGI 223.1 - SUSTAINABLE PRODUCTS AND SERVICES

PGI 223.107-1 Products containing recovered materials.

(e) *Procedures.* Departments and agencies must centrally collect information submitted in accordance with the clause at FAR [52.223-9](#) for reporting to the Office of the Deputy Under Secretary of Defense (Installations and Environment). The information is collected in the Federal Procurement Data System (FPDS).

This page intentionally left blank.

PGI 223.3 - HAZARDOUS MATERIAL IDENTIFICATION, MATERIAL SAFETY DATA, AND NOTICE OF RADIOACTIVE MATERIALS

PGI 223.370 Safety precautions for ammunition and explosives.

PGI 223.370-4 Procedures.

(1) *Preaward phase.*

(i) Waiver of the mandatory requirements.

(A) Before either omitting the clause at DFARS [252.223-7002](#), Safety Precautions for Ammunition and Explosives, from solicitations and contracts or waiving the mandatory requirements of the manual, obtain approval of—

(1) The safety personnel responsible for ammunition and explosives safety; and

(2) The head of the contracting activity.

(B) If the contracting officer decides to waive the mandatory requirements before award, the contracting officer shall set forth in the solicitation, or in an amendment of the solicitation, the specific requirements to be waived.

(C) If the head of the contracting activity declines to approve a request for waiver, but the prospective contractor agrees to take corrective action to bring the operation into compliance, make the corrective action a part of the resulting contract.

(ii) Transportation considerations. If shipment of ammunition and explosives is involved in the contract, address in the Schedule of the contract the applicable Department of Transportation or Military Surface Deployment and Distribution Command requirements and any other requirements for transportation, packaging, marking, and labeling.

(iii) Disposition of excess. Include instructions within the contract concerning final disposition of excess Government furnished material containing ammunition and explosives, including defective or rejected supplies.

(iv) Preaward survey. Before awarding any contract, including purchase orders, involving ammunition and explosives, obtain a preaward ammunition and explosives safety survey. If the prospective contractor proposes subcontracting any ammunitions or explosive work, include a review of the subcontractor's facility in the preaward survey.

(2) *Postaward phase.*

(i) Contract administration office responsibility.

(A) The contract administration office is responsible for verifying that the safety requirements of the clause at DFARS [252.223-7002](#), Safety Precautions for Ammunition and Explosives, are being implemented in a manner that will reduce, to the maximum extent practicable, or eliminate the probability of a mishap occurring.

(B) The clause at DFARS [252.223-7002](#), Safety Precautions for Ammunition and Explosives, requires compliance with DoD Manual 4145.26-M, Contractors' Safety Manual for Ammunition and Explosives. This manual requires the contractor to submit to the administrative contracting officer (ACO) any postaward requests for a waiver of the contract safety standards, a site plan modification, or a construction review. The ACO shall review any request and make recommendations to the contracting officer. The contracting officer shall make a decision after considering recommendations of the ACO and safety personnel responsible for ammunition and explosive safety.

(1) If the request arrives at the contracting office without evidence that the ACO has seen it, immediately send it to the ACO for review and recommendations.

(2) When the contracting officer has made a determination approving or disapproving the contractor's request, send the determination to the ACO for transmission to the contractor.

(ii) Subcontracts.

(A) The clause at DFARS [252.223-7002](#), Safety Precautions for Ammunition and Explosives, requires the contractor to notify the contracting officer when placing a subcontract for ammunition and explosives. The contracting officer should coordinate with the safety personnel and request supporting contract administration in accordance with FAR 42.202(e). If the contracting officer believes the nature of the subcontract work poses a potential danger to Government property, Government personnel, production capability, or contract completion, request supporting contract administration.

(B) If the preaward safety survey identified areas in which a subcontractor was not complying with the manual, and the subcontractor was supposed to correct the deficiencies before start-up, the contracting officer shall require a preoperations survey to verify that the corrections were made.

(C) When postaward safety reviews by the Government uncover any safety deficiencies in the subcontractor's operation, the review team shall inform the ACO cognizant of the subcontractor, who shall immediately notify the ACO cognizant of the prime contractor. The ACO cognizant of the prime shall inform the prime contractor of deficiencies requiring correction. The notifications shall be made by the most expeditious means appropriate to the circumstance. If a

critical safety deficiency poses an imminent danger, the ACO cognizant of the prime shall make the notifications by the most expeditious means available.

PGI 223.73 -MINIMIZING THE USE OF MATERIALS CONTAINING HEXAVALENT CHROMIUM

PGI 223.7305 Authorization and approval.

The contracting officer shall ensure that the appropriate authorizations from the program executive office are included in the solicitation and contract. The contracting officer shall forward proposals submitted by an offeror or requests from a Contractor seeking authorization to use hexavalent chromium in a deliverable item, to the cognizant program executive office for evaluation and, if necessary, authorization by the appropriate official.

PGI 225.001 General.

Consider the following when evaluating offers of foreign end products:

- (1) *Statutory or policy restrictions.*
 - (i) Determine whether the product is restricted by—
 - (A) Statute (see DFARS Subpart 225.70); or
 - (B) DoD policy (see DFARS Subpart 225.71, FAR 6.302-3, and DoD Directive 5230.11, Disclosure of Classified Military Information to Foreign Governments and International Organizations).
 - (ii) If an exception to or waiver of a restriction in DFARS Subpart 225.70 or 225.71 would result in award of a foreign end product, apply the policies and procedures of the Buy American statute or the Balance of Payments Program, and, if applicable, the trade agreements.
- (2) *Memoranda of understanding or other international agreements.* Determine whether the offered product is the product of one of the qualifying countries listed in DFARS [225.872-1](#).
- (3) *Trade agreements.* If the product is not an eligible product, a qualifying country end product, or a U.S.-made end product, purchase of the foreign end product may be prohibited (see FAR 25.403(c) and DFARS [225.403\(c\)](#)).
- (4) *Other trade sanctions and prohibited sources.*
 - (i) Determine whether the offeror complies with the secondary Arab boycott of Israel. Award to such offerors may be prohibited (see DFARS Subpart 225.76).
 - (ii) Determine whether the offeror is a prohibited source (see FAR Subpart 25.7 and DFARS Subpart 225.7).
- (5) *Buy American and Balance of Payments Program.* See the evaluation procedures in DFARS Subpart 225.5.

PGI 225.070 Reporting of acquisition of end products manufactured outside the United States.

- (1) *Definitions.* “Manufactured end product” and “place of manufacture” are defined in the provision at FAR 52.225-18, Place of Manufacture.
- (2) Use the Federal Procurement Data System data field “Place of Manufacture,” under the section on Product or Service Information, to enter data on the acquisition of end products manufactured outside the United States for contracts awarded and orders issued in fiscal year 2007 and subsequent fiscal years. Select the appropriate description in accordance with the following table:
Place of Manufacture

Short Description as viewed in drop down box	Long Description
Manufactured or performed outside United States (Actions prior to FY 2007 only)	The action is for (i) Any foreign end product manufactured outside the United States; or (ii) Services performed outside the United States by a foreign concern.
Mfg in U.S.	The action is predominantly for acquisition of manufactured end products that are manufactured in the United States.
Mfg outside U.S. - Commercial information technology	The foreign manufactured end products are predominantly commercial information technology items (FAR 25.103(e)).
Mfg outside U.S. - Domestic nonavailability	The foreign manufactured end products were predominantly not domestically available as shown by one of the following: The item is listed at FAR 25.104 (FAR 25.103(b)(1)). The agency did an individual determination (FAR 25.103(b)(2)). No offer of a domestic end product was received, even though the acquisition was synopsized and conducted through full and open competition (FAR 25.103(b)(3)).
Mfg outside U.S -Public interest determination	The head of the agency has made a determination that domestic preferences would be inconsistent with the public interest (FAR 25.103(a)).
Mfg outside U.S. - Qualifying country	For DoD only, the foreign manufactured end products are predominantly qualifying country end products (DFARS 225.003 and 225.872-1).

Mfg outside U.S. - Resale	The foreign manufactured end products acquired are predominantly for resale (FAR 25.103(d)).
Mfg outside U.S. - Trade Agreements	The foreign manufactured end products are predominantly eligible products acquired under Trade Agreements (FAR 25.402(a)(1)).
Mfg outside U.S. - Unreasonable cost	The cost of the offered domestic end products was unreasonable (FAR 25.103(c), 25.105, and Subpart 25.5).
Mfg outside U.S. - Use outside the United States	The foreign manufactured end products acquired are predominantly for use outside the United States (FAR 25.100).
More than 50% of foreign content, but manufactured in United States (Actions prior to FY 2007 only)	The action is for (i) A foreign end product that is manufactured in the United States but still determined to be foreign because 50 percent or more of the cost of the components is not mined, produced, or manufactured inside the United States or qualifying countries; or (ii) Services performed in the United States by a foreign concern.
Not applicable	The action is NOT predominantly for acquisition of manufactured end products.

(3) Note that the first and second from the last options in the drop down box are to be used only for reporting of contracts awarded or orders issued prior to October 1, 2006.

(4) The other options in the drop down box apply only to contracts awarded and orders issued on or after October 1, 2006. If the solicitation for the contract contains the provision at FAR 52.225-18, Place of Manufacture (or the commercial product equivalent at FAR 52.212-3(j)), the contracting officer must review the successful offeror's response to this provision to select the correct option.

(i) Enter "Mfg in U.S." if the offeror has checked the box "In the United States."

(ii) If the offeror has checked the box "Outside the United States," enter one of the other options, depending on the predominant reason for acquiring end products manufactured outside the United States. These reasons correspond to the exceptions to the Buy American statute (FAR Subpart 25.1 and DFARS Subpart 225.1). Further explanation of these exceptions to the Buy American statute are available at the FAR and DFARS references provided in the long description for each option.

(5) For any contract awarded on or after October 1, 2006, when the solicitation did not include the provision at FAR 52.225-18, Place of Manufacture (or FAR 52.212-3(j)), and for any order placed on or after October 1, 2006, under a contract that did not include one of these provisions, the contracting officer shall use best judgment in estimating whether the acquisition is predominantly for manufactured end products and whether the end products were predominantly end products manufactured in the United States or outside the United States, using the place of performance or other information that may be available to the contracting officer to assist in forming this judgment.

PGI 225.1 - BUY AMERICAN—SUPPLIES

PGI 225.101 General.

(d)(1) When the contracting officer obtains the approval from the senior procurement executive (this authority is not delegable) to allow for the application of an alternate domestic content test for the contract, the contracting officer shall ensure the documentation evidencing the senior procurement executive's consultation with the Office of Management and Budget's Made in America Office and subsequent allowance for the application of an alternate domestic content test is included in the contract file.

PGI 225.2 - BUY AMERICAN—CONSTRUCTION MATERIALS

PGI 225.270 Energy savings service contracts.

(a) For DoD energy savings service contracts, the requirements documents from the requiring activity are required to specify if construction and construction materials will be used during the performance of the contract. If specified, the contracting officer shall—

(1) Include the FAR provisions and clauses regarding construction materials that implement the Buy American statute; and

(2) Enforce them based on the associated terms and conditions of the contract.

(b) See [FAR subpart 23.2](#), Energy Savings Performance Contracts.

This page intentionally left blank.

PGI 225.3 -CONTRACTSPERFORMED OUTSIDE THE UNITED STATES

PGI 225.370 Contracts requiring performance or delivery in a foreign country.

(a) If the acquisition requires the performance of services or delivery of supplies in an area outside the United States, the contracting officer shall—

(i) Ensure that the solicitation and contract include any applicable host country and designated operational area performance considerations. Failure to provide such information—

(A) May result in a contract that does not reflect the respective support relationships between the contractor and the Government, ultimately affecting the ability of the contractor to fulfill the contract terms and conditions;

(B) May result in unplanned support burdens being placed on the Government in a theater of operations;

(C) May result in contractor personnel conflicting with theater operations or performing in violation of a theater commander's directives or host country laws; or

(D) May cause contractor personnel to be wrongly subjected to host country laws;

(ii) Comply with any theater business clearance and contract administration delegation requirements set forth in the memorandum (<https://www.acq.osd.mil/dpap/policy/policyvault/USA004346-12-DPAP.pdf>) entitled Theater Business Clearance/Contract Administration Delegation Update—Integration of TBC with the Joint Contingency Contracting System Platform, which must be consistent with the combat support agency's established functions and responsibilities, and set forth by the geographic combatant commander during declared contingency operations for all solicitations and contracts that relate to the delivery of supplies and services to the designated area(s) of operation. The memorandum is available at <https://www.acq.osd.mil/dpap/policy/policyvault/USA004346-12-DPAP.pdf>

(A) Theater business clearance ensures—

(1) Contracted effort to be accomplished in designated area(s) of operations, along with any associated contractor personnel, is visible to the combatant commander;

(2) Contracted effort is in consonance with in-country commanders' plans;

(3) Solicitations and contracts contain appropriate terms and conditions;

(4) Contracted effort will be properly overseen in designated area(s) of operation;

(5) Any Government-furnished support requirements associated with contractor personnel are properly addressed in the contract terms and conditions.

(B) Contract administration delegation—

(1) Allows the combatant commander to exercise control over the assignment of contract administration (which must be consistent with the combat support agency's established functions and responsibilities) for that portion of contracted effort that relates to performance in, or delivery to, designated area(s) of operation.

(2) Allows the combatant commander to exercise oversight to ensure the contractor's compliance with combatant commander and subordinate task force commander policies, directives, and terms and conditions;

(iii) Refer to the website at <https://www.acq.osd.mil/asda/dpc/cp/cc/index.html>, which contains required procedures and applicable guidance and information;

(iv) Follow specific guidance for the combatant command in whose area the contractor will be performing services or delivering supplies. This guidance is contained on the respective combatant commander's operational contract support webpage, which is linked to the procedures at <https://www.acq.osd.mil/asda/dpc/cp/cc/aor.html>, at the web-link for the combatant command for the area in which the contractor will be performing services or delivering items. These pages list prevailing regulations, policies, requirements, host nation laws, orders/fragmentary orders, combatant commander's directives, unique clauses, and other considerations necessary for soliciting and awarding a contract for performance in, or delivery of items to, that combatant commander's area of responsibility;

(v) To determine the appropriate point(s) of contact for contracting matters within the combatant commander's area of responsibility, contact the overseas contracting office by accessing the link for the combatant command in whose area of responsibility the contractor will be performing services or delivering items. From the combatant command website, link to the contracting office supporting the combatant command to identify the appropriate point of contact; and

(vi) Use the following checklist as a guide to document consideration of each listed issue, as applicable, and retain a copy of the completed checklist in the contract file.

CHECKLIST

The contracting officer shall verify that the requiring activity has considered the following when building its requirements package, as applicable:

____ (1) Whether the contemplated acquisition will duplicate or otherwise conflict with existing work being performed or items already provided in the area, and whether economies of scope/schedule can be leveraged if there are already existing contracts in place for similar work or items.

____ (2) The availability of technically qualified and properly trained Government civilian and/or military personnel to oversee the performance of the contract in the combatant commander's area of responsibility (e.g., contracting officer's representatives, quality assurance representatives, and property administrators).

____ (3) The applicability of any international agreements to the acquisition. (Some agreements may be classified and must be handled appropriately.)

____ (4) Compliance with area-specific, anti-terrorism security guidance set forth by the command anti-terrorism officer, to include soliciting anti-terrorism officer guidance on the particular requirement and the location of delivery and/or execution of services, and incorporating recommended security measures into the requirements package.

____ (5) Whether there are any requirements for use of foreign currencies, including applicability of U.S. holdings of excess foreign currencies.

____ (6) Information on taxes and duties from which the Government may be exempt.

____ (7) If the acquisition requires performance of work in the foreign country, whether there are standards of conduct for the prospective contractor and, if so, the consequences for violation of such standards of conduct.

____ (8) The availability of logistical and other Government-furnished support and equipment for contractor personnel. This includes, but is not limited to: berthing and messing; intra-theater transportation; medical support; morale, welfare, and recreation support; postal support; force protection support; organizational clothing and personal protective gear (e.g., body armor and gas masks.)

____ (9) If the contractor will employ foreign workers, whether a waiver of the Defense Base Act will be required (see FAR 28.305).

____ (10) Whether contractor personnel will need authorization to carry weapons for the performance of the contract.

____ (11) If the contract will include the clause at DFARS [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, the Government official authorized to receive DD Form 93, Record of Emergency Data Card, to enable the contracting officer to provide that information to the contractor, as required by paragraph (g) of the clause.

____ (12) Ascertain the existence of and detail any Geographic Combatant Commander's (GCC's)/Subordinate Joint Force Commander Combating Trafficking in Persons Directives or Notices applying to Combating Trafficking in Persons (as required by FAR 22.1705 for contracts performed outside the United States) that would require the contracting officer to use Alternate I of the clause at FAR 52.222-50 detailing these requirements. This information can be ascertained from review of content on the cognizant Geographic Combatant Command Operational Contract Support webpage referred to in (a)(iv) of this PGI section.

____ (13) Other requirements associated with contractor personnel to include deployment -related training, accountability (registration in Synchronized Pre-deployment and Operational Tracker), medical and dental qualifications, theater entrance and country clearance requirements.

____ (14) Any other requirements of the website for the country in which the contract will be performed or the designated operational area to which deliveries will be made.

The contracting officer shall provide the following information to the applicable overseas contracting office (see PGI [225.370](#) (a)(v)):

____ (1) The solicitation number, the estimated dollar value of the acquisition, and a brief description of the work to be performed or the items to be delivered.

____ (2) Notice of contract award, including contract number, dollar value, and a brief description of the work to be performed or the items to be delivered.

____ (3) Any additional information requested by the applicable contracting office to ensure full compliance with policies, procedures, and objectives of the applicable country or designated operational area.

(c) For work performed in Japan or Korea, U.S.-Japan or U.S.-Korea bilateral agreements govern the status of contractors and employees, criminal jurisdiction, and taxation. U.S. Forces Japan (USFJ) and U.S. Forces Korea (USFK) are sub-unified commands of Pacific Command (PACOM). The PACOM Staff Judge Advocate contact information is available at http://www.pacom.mil/web/Site_Pages/Staff%20Directory/J0/J0.shtml or by clicking on Staff Directory/Special Staff on the PACOM website. Links to USFJ and USFK websites can be found at the PACOM website at <http://www.pacom.mil> by clicking on "Regional Resources - Links".

(i) For work performed in Japan—

(A) U.S.-Japan bilateral agreements govern the status of contractors and employees, criminal jurisdiction, and taxation;

(B) USFJ and component policy, as well as U.S.-Japan bilateral agreements, govern logistic support and base privileges of contractor employees;

(C) The Commander, USFJ, is primarily responsible for interpreting the Status of Forces Agreement (SOFA) and local laws applicable to U.S. Forces in Japan and for requirements in support of USFJ; and

(D)(1) To ensure that the solicitation and resultant contract reflect an accurate description of available logistics support and application of the U.S.-Japan SOFA, review the information on Contract Performance in Japan at the USFJ website, <http://www.usfj.mil>; or

(2) Contact the Staff Judge Advocate at (commercial) 011-81-3117-55-7717, or DSN 315-225-7717.

(ii) For work performed in Korea—

(A) U.S.-Korea bilateral agreements govern the status of contractors and employees, criminal jurisdiction, and taxation;

(B) USFK and component policy, as well as U.S.-Korea bilateral agreements, govern logistics support and base privileges of contractor employees;

(C) The Commander, USFK, is primarily responsible for interpreting the SOFA and local laws applicable to U.S. Forces in Korea and for requirements in support of USFK; and

(D) To ensure that the solicitation and resultant contract reflect an accurate description of available logistics support and application of the U.S.-Korea SOFA, review the SOFA information found at the USFK website at <http://www.usfk.mil/usfk/> under “Publications”, or at <http://www.usfk.mil/usfk/sofadocuments.aspx>. Contact information for the Commander is also available at <http://www.usfk.mil/usfk/leadership.aspx>; and

(E) Additional applicable directives and regulations are available at <http://www.usfk.mil/usfk/>, click on the drop down menu for “Publications”.

(d) For work performed in specified countries in the USCENCOM area of responsibility, follow theater business clearance/ contract administration delegation policy as set forth in OSD policy letters linked to this PGI, and specific theater business clearance/contract administration delegation instructions as implemented by USCENCOM’s Joint Theater Support Contracting Command and found under contracting guidance at <https://www.acq.osd.mil/asda/dpc/cp/cc/aor.html> (click on CENTCOM area of responsibility).

PGI 225.371 Contractor personnel supporting U.S. Armed Forces deployed outside the United States.

(1) DoDI 3020.41, Operational Contract Support (OCS), establishes policy, assigns responsibilities and provides procedures for OCS, including OCS Program Management, contract support integration, and integration of defense contractor personnel into contingency operations outside the United States. This instruction serves as a comprehensive source of DoD policy and procedures concerning DoD contractor and subcontractor personnel supporting the U.S. Armed Forces deployed outside the United States.

(2) Also see PGI [207.105](#) (b)(20)(C)(9) for special considerations for acquisition planning for crisis situations outside the United States.

PGI 225.371-2 Definitions.

“Designated operational areas” include, but are not limited to, such descriptors as theater of war, theater of operations, joint operations area, amphibious objective area, joint special operations area, and area of operations. See DoD Joint Publication 3-0, Joint Operations, Chapter IV, Paragraph 2, “Understanding the Operational Environment,” at http://www.dtic.mil/doctrine/new_pubs/jp3_0.pdf.

PGI 225.371-3 Government support.

(a) Support that may be authorized or required when contractor personnel are deployed with or otherwise provide support in the theater of operations to U.S. military forces deployed outside the United States may include, but are not limited to—

(i) Deployment in-processing centers;

(ii) Training;

(iii) Transportation to operation area;

(iv) Transportation within operation area;

(v) Physical security;

(vi) Force protection;

- (vii) Organizational clothing and individual equipment;
- (viii) Emergency medical care;
- (ix) Mess operations;
- (x) Quarters;
- (xi) Postal service;
- (xii) Phone service;
- (xiii) Emergency notification;
- (xiv) Laundry; and
- (xv) Religious services.

(d) Medical support of contractor personnel.

(1) Contractors are required to ensure that the Government is reimbursed for any costs associated with medical or dental care provided to contractor employees accompanying the forces (see [252.225-7040\(c\)\(2\)](#)).

(2) If questions arise concerning Defense Finance and Accounting Services (DFAS) billing to contractors for medical or dental care provided, contracting officers may refer the individual to any of the following resources:

(i) For in-patient and out-patient billing rates, go to <http://comptroller.defense.gov/FinancialManagement/Reports/rates2013.aspx>, click on the appropriate fiscal year, and select Deployed/Non-Fixed Medical Facility Billing Rates.

(ii) For Military Service-appointed points of contact (POCs) responsible for resolving medical billing disputes, see the POCs listed in the memoranda of agreements between DFAS and the military services).

(iii) For general information on medical support of deployed contractor personnel in applicable contingency operations, see DoDI 3020.41.

(3) Contracting officers are not responsible for adjudicating DFAS bills to contractors for such medical or dental reimbursement. However, contracting officers are required to assist the Military Service POCs in resolving billing disputes.

(e) Letter of authorization.

(i) If authorized by the contracting officer, a contracting officer's representative may approve a SPOT-generated LOA. Contractor travel orders will be prepared by the supporting installation.

(ii) The LOA will state the intended length of assignment in the theater of operations and will identify planned use of Government facilities and privileges in the theater of operations, as authorized by the contract. Authorizations may include such privileges as access to the exchange facilities and the commissary, and use of Government messing and billeting. The LOA must include the name of the approving Government official.

(iii) Approved, standard DoD format for LOA. See sample LOA, Business Rules for the Synchronized Predeployment and Operational Tracker, at <https://www.acq.osd.mil/asds/log/cso/ocs/spot.html>.

PGI 225.371-5 Contract clauses.

"Performance," as used in Class Deviation 2015-O0009, Contractor Personnel Performing in the United States Central Command Area of Responsibility, means performance of a service or construction, as required by the contract. For supply contracts, production of the supplies or associated overhead functions are not covered by the Class Deviation, but services associated with the acquisition of the supplies are covered (e.g., installation or maintenance).

(b) When using the clause at DFARS [252.225-7040](#), Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, consider the applicability of the following clauses:

(i) The clause at DFARS [252.225-7043](#), Antiterrorism/Force Protection Policy for Defense Contractors Outside the United States, as prescribed at DFARS [225.372-2](#).

(ii) Either the clause at FAR 52.228-3, Workers' Compensation Insurance (Defense Base Act), or the clause at FAR 52.228-4, Workers' Compensation and War-Hazard Insurance Overseas, as prescribed at FAR 28.309(a) and (b).

(iii) The clause at FAR 52.228-7, Insurance—Liability to Third Persons, in cost-reimbursement contracts as prescribed at DFARS [228.311-1](#).

(iv) The clause at DFARS [252.228-7003](#), Capture and Detention, as prescribed at DFARS [228.370\(d\)](#).

(v) The clause at DFARS [252.237-7019](#), Training for Contractor Personnel Interacting with Detainees, as prescribed at DFARS [237.171-4](#).

(vi) The clause at FAR 52.249-14, Excusable Delays, as prescribed at FAR 49.505(b).

(vii) The clauses at FAR 52.251-1, Government Supply Sources, as prescribed at FAR 51.107, and DFARS [252.251-7000](#), Ordering from Government Supply Sources, as prescribed at DFARS [251.107](#). See also Class Deviation 2013-O0012, Authorization for Contractors to Use Government Supply Sources in Support of Operation Enduring Freedom.

PGI 225.372 Antiterrorism/force protection.**PGI 225.372-1 General.**

Information and guidance pertaining to DoD antiterrorism/force protection policy for contracts that require performance or travel outside the United States can be obtained from the following offices:

- (1) For Army contracts: HQDA-AT; telephone, DSN 222-9832 or commercial (703) 692-9832.
- (2) For Navy contracts: Naval Criminal Investigative Service (NCIS), Code 21; telephone, DSN 288-9077 or commercial (202) 433-9077.
- (3) For Marine Corps contracts: CMC Code POS-10; telephone, DSN 224-4177 or commercial (703) 614-4177.
- (4) For Air Force and Combatant Command contracts: The appropriate Antiterrorism/Force Protection Office at the Command Headquarters. Also see <https://atep.dtic.mil>.
- (5) For defense agency contracts: The appropriate agency security office.
- (6) For additional information: Assistant Secretary of Defense for Homeland Defense and Global Security, ASD (HS/GS); telephone, DSN 227-6566 or 260-8350 or commercial (703) 697-6566 or (571) 256-8350.

PGI 225.373 Contract administration in support of contingency operations.

(1) In accordance with Joint Publication 1, Doctrine for the Armed Forces of the United States, at http://www.apexnet.org/docs/Joint_Publication_1.pdf, the geographic combatant commander or subordinate joint force commander, through his command authority to exercise operational control, has the authority to exercise control over the assignment of contract administration during contingency operations, consistent with the combat support agency's established mission functions, responsibilities, and core competencies, for contracts requiring delivery of items or performance within the area of operations.

(2) In certain contingency operations, the combatant commander or joint force commander may promulgate theater or joint operations area guidance for contracting that may include establishing—

- (i) A contracting command and control structure;
- (ii) Head of contracting activity responsibilities, specific orders, and policies, including local clauses;
- (iii) Roles and responsibilities of DoD components and supporting agencies in contract formation and execution; and
- (iv) Procedures and requirements for contract clearance and contract administration of contracts requiring delivery of items and performance within the area of operations.

(3) When a combat support agency is tasked by the combatant commander to provide contingency contract administration services in support of contingency operations and such support will be required for a long duration, the combat support agency shall initiate a memorandum of agreement with the combatant commander or joint force commander. This agreement shall clearly delineate the purpose of the support, respective responsibilities of the combat support agency and the joint, lead service, or service contracting activity requesting the support, combat support agency support parameters, and a resolution process for resolving support issues.

(i) The memorandum of agreement should focus on maximizing the combat support agency's core competencies to address the more critical, complex, high-risk, and specialized oversight requirements.

(ii) The memorandum of agreement should take into consideration the combat support agency's core competencies, workload priorities, and contract administration services support parameters for accepting requests for contract administration services support.

(iii) A combat support agency shall not be assigned to perform tasks outside its mission functions, responsibilities, or core competencies.

(iv) Contracting officers contemplating requesting contract administration support in a contingency area from a combat support agency should first ascertain whether such a memorandum of agreement exists by contacting their combat support agency point of contact and/or checking the combatant commander operational contract support website (referenced in DFARS PGI [225.370](#)).

(v) The following is a notional format for a memorandum of agreement for contract administration services support;

(A) Purpose: Outline formal procedures for requesting contract administration services support, describe objectives associated with combat support agency providing such support.

(B) Reference: Key documents or reference(s) associated with the execution of the contract administration services support.

(C) Clearing-house functions performed by the designated joint or lead component contracting activity in the operational area—

- (1) Contract clearance parameters – when required;
- (2) Contract delegation parameters – when required.
- (D) Contract administration services support parameters—
 - (1) Acceptable for delegation - contract types that will be accepted by the combat support agency based on risk, dollar threshold, geographic dispersion of performance, service type, criticality of acceptance, or other criteria;
 - (2) Generally not be delegated – below-threshold contract types;
 - (3) Will not be delegated – no agency expertise to oversee.
- (E) Delegation process – process for accepting and assigning contract administration services tasks within the combat support agency.
- (F) Joint resolution process – procedures in the event of disagreement on actions to be supported by the combat support agency.
- (G) Term of the Agreement and Modification - length of time the agreement will be in effect and procedures for the parties to modify or terminate it.
 - (4) Disputes regarding requested support should be resolved at the lowest management level possible, through a predetermined resolution process. When support issues arise that affect the ability of a combat support agency to provide contract administration support that cannot be resolved at lower management levels, follow procedures set forth in DoDI 3000.06, Combat Support Agencies, paragraphs 5.6.8 and 5.6.9, (<http://www.dtic.mil/whs/directives/corres/pdf/300006p.pdf>).
 - (5) Responsibilities of the head of the contracting activity for contingency contract closeout are addressed at DFARS [204.804](#)(2). See also planning considerations at PGI [207.105](#) (b)(20)(C)(8).

PGI 225.5 -EVALUATING FOREIGN OFFERS-SUPPLY CONTRACTS

PGI 225.504 Evaluation examples.

The following examples illustrate the evaluation procedures in DFARS [225.502\(c\)\(ii\)](#). The examples assume that the contracting officer has eliminated all offers that are unacceptable for reasons other than price or a trade agreement and that price is the determining factor in contract award. The same evaluation procedures and the 50 percent evaluation factor apply regardless of whether the acquisition is subject to the Buy American Act (BAA) or the Balance of Payments Program (BOPP).

(1) Example 1.

Offer A \$945,000 Foreign offer subject to BAA/BOPP

Offer B \$950,000 Foreign offer exempt from BAA/BOPP

Since no domestic offers are received, do not apply the evaluation factor. Award on Offer A.

(2) Example 2.

Offer A \$950,000 Domestic offer

Offer B \$890,000 Foreign offer exempt from BAA/BOPP

Offer C \$880,000 Foreign offer subject to BAA/BOPP

Since the exempt foreign offer is lower than the domestic offer, do not apply the evaluation factor. Award on Offer C.

(3) Example 3.

Offer A \$9,100 Foreign offer exempt from BAA/BOPP

Offer B \$8,900 Domestic offer

Offer C \$6,000 Foreign offer subject to BAA/BOPP

Since the domestic offer is lower than the exempt foreign offer, apply the 50 percent evaluation factor to Offer C. This results in an evaluated price of \$9,000 for Offer C. Award on Offer B.

(4) Example 4.

Offer A \$910,000 Foreign offer exempt from BAA/BOPP

Offer B \$890,000 Domestic offer

Offer C \$590,000 Foreign offer subject to BAA/BOPP

Since the domestic offer is lower than the exempt foreign offer, apply the 50 percent evaluation factor to Offer C. This results in an evaluated price of \$885,000 for Offer C. Award on Offer C.

(5) Example 5.

Offer A \$900,000 Foreign offer exempt from BAA/BOPP

Offer B \$850,000 Domestic offer (complies with the required domestic content)

Offer C \$550,000 Foreign offer subject to BAA/BOPP (exceeds the required domestic content)

Since the domestic offer complies with the required domestic content and is lower than the exempt foreign offer, apply the 50 percent evaluation factor to Offer C. This results in an evaluated price of \$825,000 for Offer C. Award on Offer C.

This page intentionally left blank.

PGI 225.7 -PROHIBITED SOURCES

PGI 225.770 Prohibition on acquisition of certain items from Communist Chinese military companies.

(1) The Department of State is the lead agency responsible for the regulations governing the export of defense articles, which are identified on the United States Munitions List. The Department of State has issued the International Traffic in Arms Regulations, which implement the Arms Export Control Act (22 U.S.C. 2751) and include the United States Munitions List.

(2) The official version of the International Traffic in Arms Regulations can be found in Title 22, Parts 120 through 130, of the Code of Federal Regulations (22 CFR 120-130), published by the U.S. Government Printing Office and available at <http://www.gpoaccess.gov/cfr/index.html>. The Department of State also publishes an on-line version at http://www.pmddtc.state.gov/regulations_laws/itar_official.html.

PGI 225.770-1 Definitions.

In accordance with 22 CFR 121.8—

(1) A major component includes any assembled element that forms a portion of an end item without which the end item is inoperable. Examples of major components are airframes, tail sections, transmissions, tank treads, and hulls;

(2) A minor component includes any assembled element of a major component; and

(3) Examples of parts are rivets, wires, and bolts.

PGI 225.770-4 Identifying USML items.

(1) The 21 categories of items on the United States Munitions List (USML) can be found at <https://www.ecfr.gov/current/title-22/chapter-I/subchapter-M/part-121>. Where applicable, the categories also contain a statement with regard to the coverage of components and parts of items included in a category. For example, a category may include all components and parts of covered items, or only those components and parts specifically designed or modified for military use.

(2) In addition to the list of covered items, the USML provides explanation of terms needed to determine whether a particular item is or is not covered by the USML.

(3) Within DoD, the experts on export control and the USML are in the Defense Technology Security Administration (DTSA).

(i) Official authorities and responsibilities of DTSA are in DoD Directive 5105.72, available at <http://www.dtic.mil/whs/directives/corres/html/510572.htm>.

(ii) Additional information on DTSA and a correspondence link are available at http://www.dod.mil/policy/sections/policy_offices/dtsa/index.html.

PGI 225.770-5 Waiver of prohibition.

(c) Send a copy of the report to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) (DPCAP/CP) via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

PGI 225.771 Prohibition on contracting or subcontracting with a firm that is owned or controlled by the government of a country that is a state sponsor of terrorism.

PGI 225.771-3 Notification.

Forward any information indicating that a firm, a subsidiary of a firm, or any other firm that owns or controls the firm, may be owned or controlled by the government of a country that is a state sponsor of terrorism, through agency channels, to DPCAP/CP via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

PGI 225.772 Prohibition on acquisition of certain foreign commercial satellite services.

PGI 225.772-3 Procedures.

(1) Forward any information required in accordance with [225.772-3](#) or requests for an exception to DPCAP/CP via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

(2) Consult with DPCAP/CP, as required in accordance with 225.772-3(c)(2), via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

This page intentionally left blank.

PGI 225.8 -OTHER INTERNATIONAL AGREEMENTS AND COORDINATION

PGI 225.802 Procedures.

(b) Information on specific memoranda of understanding and other international agreements is available as follows:

(i) Memoranda of understanding and other international agreements between the United States and the countries listed in DFARS [225.872-1](#) are maintained in the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) (DPCAP/CP) and are available at <https://www.acq.osd.mil/asda/dpc/cp/ic/reciprocal-procurement-mou.html>.

(ii) Military Assistance Advisory Groups, Naval Missions, and Joint U.S. Military Aid Groups normally have copies of the agreements applicable to the countries concerned.

(iii) Copies of international agreements covering the United Kingdom of Great Britain and Northern Ireland, Western European countries, North Africa, and the Middle East are filed with the U.S. European Command.

(iv) Agreements with countries in the Pacific and Far East are filed with the U.S. Pacific Command.

PGI 225.802-70 Contracts for performance outside the United States and Canada.

When a contracting office anticipates placement of a contract for performance outside the United States and Canada, and the contracting office is not under the jurisdiction of a command for the country involved, the contracting office shall maintain liaison with the cognizant contract administration office (CAO) during preaward negotiations and postaward administration. The cognizant CAO can be found at <http://home.dcmil/cassites/district.htm>. The CAO will provide pertinent information for contract negotiations, effect appropriate coordination, and obtain required approvals for the performance of the contract.

PGI 225.870 Contracting with Canadian contractors.

PGI 225.870-1 General.

(d)(i) The Canadian Commercial Corporation uses provisions in contracts with Canadian or U.S. concerns that give DoD the same production rights, data, and information that DoD would obtain in contracts with U.S. concerns.

(ii) The Government of Canada will provide the following services under contracts with the Canadian Commercial Corporation without charge to DoD:

(A) Contract administration services, including—

- (1) Cost and price analysis;
- (2) Industrial security;
- (3) Accountability and disposal of Government property;
- (4) Production expediting;
- (5) Compliance with Canadian labor laws;
- (6) Processing of termination claims and disposal of termination inventory;
- (7) Customs documentation;
- (8) Processing of disputes and appeals; and
- (9) Such other related contract administration functions as may be required with respect to the Canadian

Commercial Corporation contract with the Canadian supplier.

(B) *Audits.* The Public Works and Government Services Canada (PWGSC) performs audits when needed, for contracts overseen by the Canadian Commercial Corporation in accordance with international agreement.

(C) *Inspection.* The Department of National Defence (Canada) provides inspection personnel, services, and facilities, at no charge to DoD departments and agencies (see DFARS [225.870-7](#)).

(iii) In accordance with DPAP Policy Memorandum dated June 5, 2013, PWGSC will perform audits without charge to DoD, including accounting system and interim voucher reviews, when needed for—

- (A) DoD contracts awarded directly to Canadian firms;
- (B) Subcontracts with Canadian firms under such direct contracts with Canadian firms; and
- (C) Subcontracts with Canadian firms under DoD contracts with U.S. contractors.

PGI 225.870-5 Contract administration.

(1) Assign contract administration in accordance with DFARS part 242. When the Defense Contract Management Agency will perform contract administration in Canada, name in the contract the following payment office for disbursement

of DoD funds (DoD Department Code: 17-Navy; 21-Army; 57-Air Force; 97-all other DoD components), whether payment is in Canadian or U.S. dollars:

DFAS Columbus Center
 DFAS-CO
 PO Box 182317
 Columbus, OH 43218-2317.

(2) The following procedures apply to cost-reimbursement type contracts:

(i) The PWGSC automatically arranges audits on contracts with the Canadian Commercial Corporation. Upon advice from PWGSC, the Canadian Commercial Corporation certifies the invoice and forwards it with Standard Form (SF) 1034, Public Voucher, to the administrative contracting officer for further processing and transmittal to the disbursing office.

(ii) For contracts placed directly with Canadian firms, the administrative contracting officer requests audits from the PWGSC, Ottawa, Ontario, Canada. Route requests for audit of non-Canadian Commercial Corporation contracts and subcontracts with Canadian contractors through the cognizant contract management office of the Defense Contract Management Agency.

(A) Within 25 days of the date of the audit request, PWGSC will provide—

An acknowledgement of receipt form;

An estimate of completion form; and

(3) A single point of contact to report the status of audit requests and the progress of audits.

(B) Audits will be completed within 24 months of the requested date for post-award audits.

(C) PWGSC will provide information to support the determination that the price is fair and reasonable.

(D) The PWGSC—

(1) Approves invoices on a provisional basis pending completion of the contract and final audit;

(2) Forwards these invoices, accompanied by SF 1034, Public Voucher, to the administrative contracting officer for further processing and transmittal to the disbursing officer; and

(3) Furnishes periodic advisory audit reports directly to the administrative contracting officer.

(A) Approves invoices on a provisional basis pending completion of the contract and final audit;

(B) Forwards these invoices, accompanied by SF 1034, Public Voucher, to the administrative contracting officer for further processing and transmittal to the disbursing officer; and

(C) Furnishes periodic advisory audit reports directly to the administrative contracting officer.

PGI 225.870-7 Acceptance of Canadian supplies.

(1) For contracts placed in Canada, either with the Canadian Commercial Corporation or directly with Canadian suppliers, the Department of National Defence (Canada) will perform any necessary contract quality assurance and/or acceptance, as applicable.

(2) Signature by the Department of National Defence (Canada) quality assurance representative on the DoD inspection and acceptance form is satisfactory evidence of acceptance for payment purposes.

PGI 225.871 North Atlantic Treaty Organization (NATO) cooperative projects.

PGI 225.871-4 Statutory waivers.

Forward any request for waiver under a cooperative project to the Deputy Secretary of Defense, through the Principal Director, Defense Pricing, Contracting, and Acquisition Policy. The waiver request shall include a draft Determination and Findings for signature by the Deputy Secretary of Defense establishing that the waiver is necessary to significantly further NATO standardization, rationalization, and interoperability.

PGI 225.871-5 Directed subcontracting.

The cooperative project agreement is the authority for a contractual provision requiring the contractor to place certain subcontracts with particular subcontractors. No separate justification and approval during the acquisition process is required.

PGI 225.872 Contracting with qualifying country sources.**PGI 225.872-4 Individual determinations.**

(1) Obtain signature of the determination and findings—

(i) At a level above the contracting officer, for acquisitions valued at or below the simplified acquisition threshold;
or

(ii) By the chief of the contracting office, for acquisitions with a value greater than the simplified acquisition threshold.

(2) Prepare the determination and findings substantially as follows:

SERVICE OR AGENCY

Exemption of the Buy American and Balance of Payments Program Determination and Findings

Upon the basis of the following findings and determination which I hereby make in accordance with the provisions of FAR 25.103(a), the acquisition of a qualifying country end product may be made as follows:

Findings

1. The (*contracting office*) proposes to purchase under contract number _____, (*describe item*) mined, produced, or manufactured in (*qualifying country of origin*). The total estimated cost of this acquisition is _____.

2. The United States Government and the Government of _____ have agreed to remove barriers to procurement at the prime and subcontract level for defense equipment produced in each other's countries insofar as laws and regulations permit.

3. The agreement provides that the Department of Defense will evaluate competitive offers of qualifying country end products mined, produced, or manufactured in (*qualifying country*) without imposing any price differential under the Buy American statute or the Balance of Payments Program and without taking applicable U.S. customs and duties into consideration so that such items may better compete for sales of defense equipment to the Department of Defense. In addition, the Agreement stipulates that acquisitions of such items shall fully satisfy Department of Defense requirements for performance, quality, and delivery and shall cost the Department of Defense no more than would comparable U.S. source or other foreign source defense equipment eligible for award.

4. To achieve the foregoing objectives, the solicitation contained the clause (*title and number of the Buy American clause contained in the contract*). Offers were solicited from other sources and the offer received from (*offeror*) is found to be otherwise eligible for award.

Determination

I hereby determine that it is inconsistent with the public interest to apply the restrictions of the Buy American statute or the Balance of Payments Program to the offer described in this determination and findings.

(Date)

PGI 225.872-5 Contract administration.

(b)(i) When contract administration services are required on contracts to be performed in qualifying countries, direct the request to the cognizant activity listed in the Federal Directory of Contract Administration Services. The cognizant activity also will arrange contract administration services for DoD subcontracts that qualifying country sources place in the United States.

(ii) The contract administration activity receiving a delegation shall determine whether any portions of the delegation are covered by memoranda of understanding annexes and, if so, shall delegate those functions to the appropriate organization in the qualifying country's government.

PGI 225.872-6 Request for audit services.

(1) Send requests for audit services in France, Germany, the Netherlands, or the United Kingdom to the administrative contracting officer at the cognizant activity listed in Section 2B of the Federal Directory of Contract Administration Services. See DFARS 225.870, PGI 225.870-1, and PGI 225.870-5 for procedures to request audit services for contracts overseen by the Canadian Commercial Corporation.

(2) Complete requests for audit services in France, Germany, the Netherlands, or the United Kingdom using the form and information sheet with form completion instructions available at <https://www.dema.mil/About/Contact-Us/> (click on "International Command"). Links to the form and information sheet are listed under "International Pricing Request."

PGI 225.873 Waiver of United Kingdom commercial exploitation levies.**PGI 225.873-2 Procedures.**

(1) The Government of the U.K. shall approve waiver of U.K. levies. When an offeror or contractor identifies a levy included in an offered or contract price, the contracting officer shall provide written notification to the Defense Security Cooperation Agency, ATTN: PSD-PMD, 1111 Jefferson Davis Highway, Arlington, VA 22202-4306, telephone (703) 601-3864. The Defense Security Cooperation Agency will request a waiver of the levy from the Government of the U.K. The notification shall include—

- (i) Name of the U.K. firm;
- (ii) Prime contract number;
- (iii) Description of item for which waiver is being sought;
- (iv) Quantity being acquired; and
- (v) Amount of levy.

(2) Waiver may occur after contract award. If levies are waived before contract award, evaluate the offer without the levy. If levies are identified but not waived before contract award, evaluate the offer inclusive of the levies.

PGI 225.9 -CUSTOMS AND DUTIES

PGI 225.902 Procedures.

(1) Formal entry and release.

(i) The administrative contracting officer shall—

(A) Ensure that contractors are aware of and understand any Duty-Free Entry clause requirements. Contractors should understand that failure by them or their subcontractors to provide the data required by the clause will result in treatment of the shipment as without benefit of free entry under Section XXII, Chapter 98, Subchapter VIII, Item 9808.00.30 of the Harmonized Tariff Schedule of the United States.

(B) Upon receipt of the required notice of purchase of foreign supplies from the contractor or any tier subcontractor—

(1) Verify the duty-free entitlement of supplies entering under the contract; and

(2) Review the prime contract to ensure that performance of the contract requires the foreign supplies (quantity and price) identified in the notice.

(C) Within 20 days after receiving the notification of purchase of foreign supplies, forward the following information in the format indicated to the Commander, DCMA New York, ATTN: Customs Team, DCMAE-GNTF, 201 Varick Street, Room 905C, New York, NY 10014:

We have received a contractor notification of the purchase of foreign supplies. I have verified that foreign supplies are required for the performance of the contract.

Prime Contractor Name and Address:

Prime Contractor CAGE Code:

Prime Contract Number plus Delivery Order Number, if applicable:

Total Dollar Value of the Prime Contract or Delivery Order:

Expiration Date of the Prime Contract or Delivery Order:

Foreign Supplier Name and Address:

Number of Subcontract/Purchase Order for Foreign Supplies:

Total Dollar Value of the Subcontract for Foreign Supplies:

Expiration Date of the Subcontract for Foreign Supplies:

CAO Activity Address Number:

ACO Name and Telephone Number:

ACO Code:

Signature:

Title:

(D) If a contract modification results in a change to any data verifying duty-free entitlement previously furnished, forward a revised notification including the changed data to DCMA New York.

(ii) The Customs Team, DCMAE-GNTF, DCMA New York—

(A) Is responsible for issuing duty-free entry certificates for foreign supplies purchased under a DoD contract or subcontract; and

(B) Upon receipt of import documentation for incoming shipments from the contractor, its agent, or the U.S. Customs Service, will verify the duty-free entitlement and execute the duty-free entry certificate.

(iii) Upon arrival of foreign supplies at ports of entry, the consignee, generally the contractor or its agent (import broker) for shipments to other than a military installation, will file U.S. Customs Form 7501, 7501A, or 7506, with the District Director of Customs.

(2) Immediate entry and release. Importations made in the name of a DoD military facility or shipped directly to a military facility are entitled to release under the immediate delivery procedure.

(i) A DoD immediate delivery application has been approved and is on file at Customs Headquarters.

(ii) The application is for an indefinite period and is good for all Customs districts, areas, and ports.

PGI 225.903 Exempted supplies.

- (b)(i) The term “supplies”—
 - (A) Includes—
 - (1) Articles known as “stores,” such as food, medicines, and toiletries; and
 - (2) All consumable articles necessary and appropriate for the propulsion, operation, and maintenance of the vessel or aircraft, such as fuel, oil, gasoline, grease, paint, cleansing compounds, solvents, wiping rags, and polishes; and
 - (B) Does not include portable articles necessary and appropriate for the navigation, operation, or maintenance of the vessel or aircraft and for the comfort and safety of the persons on board, such as rope, bolts and nuts, bedding, china and cutlery, which are included in the term “equipment.”
- (ii) Format for duty-free certificate.

(Date)	
I certify that the acquisition of this material constituted a purchase of supplies by the United States for vessels or aircraft operated by the United States, and is admissible free of duty pursuant to 19 U.S.C. 1309.	
(Name)	
(Title)	
(Organization)	

PGI 225.70 -AUTHORIZATION ACTS, APPROPRIATIONS ACTS, AND OTHER STATUTORY RESTRICTIONS ON FOREIGN ACQUISITION

PGI 225.7002 Restrictions on food, clothing, fabrics, and hand or measuring tools.

PGI 225.7002-1 Restrictions.

(a)(1)(ii)(I) The following are examples, not all-inclusive, of Product and Service Codes (PSCs) that contain items of clothing:

- (i) Clothing apparel (such as outerwear, headwear, underwear, nightwear, footwear, hosiery, or handwear) listed in PSC 8405, 8410, 8415, 8420, 8425, 8450, or 8475.
 - (ii) Footwear listed in PSC 8430 or 8435.
 - (iii) Hosiery, handwear, or other items of clothing apparel, such as belts and suspenders, listed in PSC 8440 or 8445.
 - (iv) Badges or insignia listed in PSC 8455.
- (2) The PSCs listed in paragraph (a)(1)(ii)(I) of this section also contain items that are not clothing, such as—
- (i) Visors;
 - (ii) Kevlar helmets;
 - (iii) Handbags; and
 - (iv) Plastic identification tags.

(3) Each item should be individually analyzed to determine if it is clothing, rather than relying on the PSC alone to make that determination.

(4) The fact that an item is excluded from the foreign source restriction of the Berry Amendment applicable to clothing does not preclude application of another Berry Amendment restriction in DFARS [225.7002-1](#) to the components of the item.

(5) Small arms protective inserts (SAPI plates) are an example of items added to, and not normally associated with, clothing. Therefore, SAPI plates are not covered under the Berry Amendment as clothing. However, fabrics used in the SAPI plate are still subject to the foreign source restrictions of the Berry Amendment. If the fabric used in the SAPI plate is a synthetic fabric or a coated synthetic fabric, the fibers and yarns used in the fabric are not covered by the Berry Amendment, because the fabric is a component of an end product that is not a textile product (see DFARS [225.7002-2\(m\)](#)).

Example: A SAPI plate is compliant with the Berry Amendment if the synthetic fiber or yarn is obtained from foreign country X and woven into synthetic fabric in the United States, which is then incorporated into a SAPI plate manufactured in foreign country Y.

(2) Hand or measuring tools.

(A) As applied to hand or measuring tools, “produced in the United States” means that the hand or measuring tool was assembled in the United States out of components, or otherwise made from raw materials into the finished product that is to be provided to the Government.

(B) If a hand or measuring tool was assembled in a country other than the United States, then disassembled and reassembled in the United States, the hand or measuring tool was not produced in the United States.

(C) The requirement to buy hand or measuring tools produced in the United States does not impose any restriction on the source of the components of the hand or measuring tools. This is unlike the Berry Amendment restriction on clothing (see [225.7002-1](#) (a)(1)(ii)), which explicitly requires domestic source for the materials and components of clothing (other than unusual components such as sensors or electronics), as well as the additional separate restrictions on various types of fibers and fabrics that might be components of the clothing.

(D) If the acquisition of the hand or measuring tools is also subject to the Buy American statute (see FAR Subpart 25.1), then in order to qualify as a domestic end product, the cost of the components mined, produced, or manufactured in the United States or a qualifying country, must exceed 50 percent of the cost of all the components of the hand or measuring tool.

PGI 225.7002-2 Exceptions.

(b) *Domestic nonavailability determinations.*

(3) *Defense agencies other than the Defense Logistics Agency.*

(A) A defense agency requesting a domestic nonavailability determination must submit the request, including the proposed determination, to—

Principal Director, Defense Pricing, Contracting, and Acquisition Policy
ATTN: OUSD(A&S) DPCAP/CP
3060 Defense Pentagon

Washington, DC 20301-3060.

(B) The Principal Director, Defense Pricing, Contracting, and Acquisition Policy, will forward the request to the Under Secretary of Defense (Acquisition and Sustainment) (USD(A&S)) as appropriate.

PGI 225.7003 Restrictions on acquisition of specialty metals.

PGI 225.7003-2 Restrictions.

(a)(i) This restriction applies to the item containing the specialty metal, not just the specialty metal, as was true when the restriction was part of 10 U.S.C. 4862. The previous practice of withholding payment while conditionally accepting noncompliant items is not permissible for—

(A) Contracts entered into on or after November 16, 2006; or

(B) New procurements or out-of-scope changes accomplished on or after November 16, 2006, through the use of bilateral modifications to contracts originally awarded prior to November 16, 2006.

(ii) Consistent with the definition of “component” in the clause at DFARS [252.225-7009](#), a component is any item supplied to the Government as part of an end item or of another component. Items that are not incorporated into any of the items listed in DFARS [225.7003-2\(a\)](#) are not components of those items. For example, test equipment, ground support equipment, or shipping containers are not components of the missile system.

PGI 225.7003-3 Exceptions.

(b)(2) *Report of COTS items.*

If a department or agency uses the exception at DFARS [225.7003-3\(b\)\(2\)](#) for an acquisition of COTS end items valued at \$5 million or more per item, the department or agency shall address use of the exception in a year-end report, to be prepared and submitted as follows:

(A) Entitle the report “COTS Specialty Metal Exceptions Granted During Fiscal Year ____.”

(B) For each excepted COTS item purchased during the fiscal year, include in the report, at a minimum, the applicable—

(1) Contract number and any applicable delivery order number;

(2) Dollar value; and

(3) Item description.

(C) Submit the report by October 31 of each year to:

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(4) For samarium-cobalt magnets contained in an item listed in 225.7003-2(a) manufactured in a qualifying country, see paragraph (b)(6)(C) of this section.

(5) Domestic specialty metals nonavailable as and when needed.

(A) Determining availability.

(I) FAR 15.402 requires that contracting officers purchase supplies and services at fair and reasonable prices. Thus, contracting officers must determine whether any increase in contract price that results from providing compliant specialty metal is fair and reasonable, given the circumstances of the particular situation. In those cases where the contracting officer determines that the price would not be fair and reasonable, the Secretary of the military department concerned may use that information in determining whether the unreasonable price causes the compliant metal to be effectively “nonavailable.” Where these “reasonableness” limits should be drawn is a case-by-case decision.

(2) A similar approach may be used to determine whether delays associated with incorporating compliant specialty metals into items being acquired results in the metals being effectively nonavailable.

(B)(1) A department or agency requesting a determination or approval from USD(A&S) in accordance with DFARS 225.7003-3(b)(5) shall submit the request, including the proposed determination, to—

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(2) The Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP), will forward the request to USD(A&S) as appropriate.

(C) For domestic nonavailability determinations with regard to samarium-cobalt high performance magnets, see paragraph (b)(6)(D) of this section.

(6) Application of specialty metals restrictions to magnets.

(A) The two most common types of high performance magnets are samarium-cobalt magnets and neodymium-iron-boron magnets. Only samarium-cobalt magnets contain specialty metals and are subject to the restrictions of 10 U.S.C. 4863 in this section, as well as the restrictions of 10 U.S.C. 4872 at [225.7018](#). Neodymium-iron-boron magnets are only subject to the restrictions of 10 U.S.C. 4872 at [225.7018](#), because they do not contain specialty metals. There are no other commonly used magnets that contain specialty metals.

(B) Table.

HPM = High performance magnet

COTS = Commercially available off-the-shelf

SmCo = Samarium Cobalt

Magnet made of specialty metal is:	Commercially available, SmCo HPM	NOT Commercially available, SmCo HPM
Incorporated into COTS subsystem or COTS end item	NOT restricted	*
NOT incorporated into COTS subsystem or COTS end item	Restricted	Restricted
Included in 2 percent minimum content?	Cannot be included in 2 percent minimum content	Cannot be included in 2 percent minimum content

* By definition, COTS assemblies and COTS end items will not include a HPM that is not commercially available.

(C) Samarium-cobalt magnets contained in an item manufactured in a qualifying country are still subject to the requirements of 10 U.S.C. 4872, because there is no exception in 10 U.S.C. 4872 for items manufactured in a qualifying country comparable to the exception at [225.7003-3](#) (b)(4) to the specialty metal restrictions of 10 U.S.C. 4863.

(D) Even if samarium-cobalt magnets are determined to be domestically nonavailable under this section, the restrictions of 10 U.S.C. 4872 still apply unless samarium-cobalt magnets melted or produced outside a covered country are also determined to be nonavailable in accordance with [225.7018-4](#).

(c) *Compliance for commercial derivative military articles.*

(i) A department or agency requesting a determination or approval from USD(A&S) in accordance with DFARS [225.7003-3](#)(c) shall submit the request, including the proposed determination, to—

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(ii) The Principal Director, DPCAP, will forward the request to USD(A&S) as appropriate.

(d) *National security waiver.*

(i) A department or agency shall request a national security waiver of the restrictions of 10 U.S.C. 4863 from USD(A&S) in accordance with DFARS [225.7003-3](#)(d) in a timely manner after discovering or being informed of a specialty metals noncompliance in an item, or component thereof, listed at [225.7003-2](#) (a) and covered by 10 U.S.C. 4863. The department or agency shall submit the request, via the chain of command, including the draft determination and draft letters of notification to the congressional defense committees, as follows:

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060

(ii) The request shall include—

(A) The quantity of end items to which the waiver would apply;

(B) The time period that the waiver will cover;

- (C) How and when the noncompliance was discovered—
 - (1) By the subcontractor(s);
 - (2) By the contractor; and
 - (3) By the department or agency;
 - (D) A complete description of all of the items or systems containing noncompliant specialty metals;
 - (E) The contract number(s), date(s), duration, and subcontractor(s) associated with the noncompliance;
 - (F) The manufacturer and country of origin of the noncompliant material, if known;
 - (G) Whether the contractor flowed down the DFARS clause to the subcontractors and in what format (e.g., exact quote or substantially the same?);
 - (H) A technical description of the affected parts, their role in the larger assembly, and their function in the end item;
 - (I) Estimated cost and schedule to replace noncompliant parts if a national security waiver is not granted;
 - (J) Operational and safety implications;
 - (K) Other national security considerations (such as how the requested waiver will contribute to national security policy or operational security);
 - (L) A description of the contractor's efforts to develop and implement a corrective plan to ensure future compliance; and
 - (M) Information helpful to a determination as to whether any noncompliance was knowing and willful.
- (iii) The Director, Defense Procurement and Acquisition Policy, will forward the request to USD(A&S) as appropriate.

PGI 225.7018 Restriction on acquisition of certain magnets, tantalum, and tungsten.

PGI 225.7018-3 Exceptions.

(c)(1) Commercially available off-the-shelf samarium-cobalt magnets are still subject to the restrictions of 10 U.S.C. 4863 unless incorporated into commercially available off-the-shelf end items or subsystems (see (b)(2)(i)(C)).

(2) A samarium-cobalt magnet that is exempt from 10 U.S.C. 4872 because it is incorporated in an electronic device is still subject to the restrictions of 10 U.S.C. 4863, because the exemption under that statute applies to "electronic component," which excludes any high performance magnet used in the electronic component (see definition of "electronic component" at [225.7003-1](#)).

PGI 225.7018-4 Nonavailability determination.

(a) Individual nonavailability determinations.

(2) Contracting officers may use the following template for individual nonavailability determinations under this section:

SUBJECT: Individual Nonavailability Determination Exception under DFARS [225.7018-4](#)

PROGRAM, ITEM, OR PART DESCRIPTION: _____

CONTRACT OR SOLICITATION NUMBER: _____

BACKGROUND: Per the requirements of 10 U.S.C. 4872, DFARS [252.225-7052](#) prohibits acquisition of samarium-cobalt magnets, neodymium-iron-boron magnets, tantalum metal and alloys, tungsten metal powder, and tungsten heavy alloy or any finished or semi-finished component containing tungsten heavy alloy melted or produced in North Korea, China, Russia, and Iran. Per DFARS

[225.7018-4](#), the Head of Contracting Activity (HCA) can authorize an exception to DFARS [252.225-7052](#) through an 'Individual Nonavailability Determination' if they determine that covered materials of satisfactory quality and quantity, in the required form, cannot be procured as and when needed at a reasonable price from a source other than a covered country. ANALYSIS OF ALTERNATIVES:

See Attachment A for an analysis of why alternatives that would not require a nonavailability determination are unacceptable. CERTIFICATION: Based on the satisfactory quality, quantity, required form, timeliness, and/or reasonable price issues described in Attachment A, I hereby certify that the requirements for an individual nonavailability determination under DFARS [225.7018-4](#)

have been met. _____ Signature of Government Contracting Officer or Program Representative

_____ Date

Official Action on Request: ☐ Approved ☐ Disapproved [If disapproved, give reason.]

Signature of Head of Contracting Activity

Date ATTACHMENT A: Analysis of Alternatives Required for an Individual Nonavailability
Determination as per DFARS [225.7018-4](#)

PART A: Data on Alternative Sources. [Can be completed either by Government or Contractor.]

1. Detailed information on current or proposed non-compliant DFARS [225.7018](#) source(s).

ITEM #	COMPONENT NAME	COVERED MATERIAL	CURRENT MANUFACTURER(S) ORIGIN	COUNTRY OR	MATERIAL SPECIFICATION OR GRADE	DELIVERY DATE AND LEAD TIME	QUANTITY REQUIRED	PRICE PER UNIT	TOTAL PRICE
1									

2. Detailed market research conducted on alternative compliant DFARS [225.7018](#) source(s).

ITEM #	COVERED MATERIAL	POTENTIAL ALTERNATIVE MANUFACTURER(S)	COUNTRY ORIGIN	PROPOSED MATERIAL SPECIFICATION OR GRADE	DELIVERY DATE AND LEAD TIME	QUANTITY PROPOSED	PRICE PER UNIT	TOTAL PRICE	RE- DESIGN OR RE- QUALIFICATION COST	RE- DESIGN OR RE- QUALIFICATION COST TIMELINE
1										

3. Other pertinent information regarding the need for a nonavailability determination based on satisfactory quality, quantity, required form, timeliness, and/or reasonable price:

PART B: Analysis of
Alternatives—Must be completed by a Government Representative

I have verified the information in Part A and a nonavailability determination is requested for the following reason(s):

ITEM #	COVERED MATERIAL	NON- SATISFACTORY QUALITY	INSUFFICIENT AVAILABLE QUANTITY	DOES NOT MET REQUIRED FORM	DOES NOT MEET TIMELINESS REQUIREMENTS FOR PROGRAM/ CUSTOMER	UNREASONABLE PRICE PER UNIT	UNREASONABLE PRICE FOR RE-DESIGN OR RE- QUALIFICATION
1							

Signature of Government Contracting Officer or Program Representative

Date

ATTACHMENT B: Definitions and Instructions

As used in this document—

“Number” means the National Stock Number (NSN) or other part number applicable to a given component name;

“Component name” includes a description of the part and the name of the end item incorporating that part (e.g., “Actuator – Joint Direct Attack Munition” or “Sphere - M1028 Canister CTG”);

“Covered material” means samarium-cobalt magnets, neodymium-iron-boron magnets, tantalum metal and alloys, tungsten metal powder, and tungsten heavy alloy or any finished / semi-finished component containing tungsten heavy alloy;

“Tungsten heavy alloy” means a tungsten base pseudo alloy that (1) meets the specifications of ASTM B777 or SAE-AMS-T-21014 for a particular class of tungsten heavy alloy or (2) contains at least 90% tungsten in a matrix of other metals (such as nickel-iron or nickel-copper) and has a density of at least 16.5 g/cm³

“Current manufacturer” means the entity that produces the covered material;

“Country of origin” means the location of the facility in which the current manufacturer produces the covered material;

Delivery date and lead time” includes (1) the date by which the covered material is required to produce the component name and (2) the administrative lead time and procurement lead time required by the manufacturer of the component name, to secure appropriate covered material; and

“Price per unit” means the unit price of the covered material;

For any determination under “Part B”, the Head of Contracting Activity is required to produce a separate report describing why a particular exception is applicable to a given action.

(3)

Provide a copy of signed individual nonavailability determination and supporting documentation or notification when an individual waiver is requested, but denied to:

OUSD(A&S)

DASD, Industrial Policy

U.S. Department of Defense

3330 Defense Pentagon, Room 3B854

Washington, DC 20301-3330

(b)(i) When requesting a class nonavailability determination, submit the request, including the proposed determination, to

Principal Director, Defense Pricing, Contracting, and Acquisition Policy

ATTN: OUSD(A&S) DPCAP/CP

3060 Defense Pentagon

Washington, DC 20301-3060.

(ii) The Principal Director, DPCAP, will forward the request to the Under Secretary of Defense (Acquisition and Sustainment) (USD(A&S)) as appropriate.

PGI 225.7019 Prohibition on use of certain energy sourced from inside the Russian Federation.

PGI 225.7019-3 Waiver.

(a) The following are factors to take into consideration for granting a waiver:

(1) The energy supply system is physically incapable of segregating Russian Federation energy from non-Russian Federation energy.

(2) The installation can only obtain the necessary energy from its current supplier without the unaffordable expense of constructing new supply lines.

(3) The price of requiring the supplier to segregate the energy is unaffordable and would result in the installation being unable to perform its mission within its budget authority.

(4) Consideration, by the requiring activity, of installation energy and security resilience has been taken into account (e.g., on-site sources of energy and fuel resupply would allow the installation to continue to perform its mission even with disruption of Russian Federation-sourced energy, the installation has addressed energy resilience and security risks and vulnerabilities, etc.).

(b) The head of the contracting activity shall submit to the congressional defense committees a notice of the waiver with a copy to DPCAP, Contract Policy, via email at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil, at least 14 days before the award of an energy contract on the basis of an approved waiver. The notification shall include a copy of the waiver. The contracting officer shall include a copy of the approved waiver in the contract file.

PGI 225.7020 Prohibition on contracting with the Maduro regime.**PGI 225.7020-4 Joint determination.**

(b) Contracting officers shall—

(1) Notify Defense Pricing and Contracting, Contract Policy, via email at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil, upon entering into a contract on the basis of a joint determination made by the Secretary of Defense and the Secretary of State in accordance with agency procedures for the review and coordination, and include a copy of the joint determination in the notification; and

(2) Include a copy of the joint determination in the contract file.

PGI 225.7021 Disclosure requirements for employment transparency regarding individuals who perform work in the People's Republic of China.

Contracting officers shall provide disclosures received from a covered entity in response to the provision at DFARS [252.225-7057](#) and the clause at DFARS [252.225-7058](#) to Defense Pricing, Contracting, and Acquisition Policy, Contract Policy (DPCAP/CP) via email at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil.

PGI 225.7021-3 National security waiver of disclosure.

(b) Determination. The national security waiver request to the senior procurement executive shall include—

(1) The disclosure requirements to which the national security waiver applies;

(2) The time period that the waiver will cover;

(3) A description of the contract requirement;

(4) Impacts if a national security waiver is not granted;

(5) Operational and national security implications;

(6) Other national security considerations, such as how the requested waiver will contribute to national security policy or operational security.

(c) Include a copy of the signed determination in the contract file.

(d) For a military department or defense agency provide a copy of the approved national security waiver to the Principal Deputy, Defense Pricing, Contracting, and Acquisition Policy, Contract Policy (DPCAP/CP) via email at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil.

(e) The following defense field activities shall submit requests for national security waivers to DPCAP/CP via email at osd.pentagon.ousd-a-s.mbx.dpc-cp@mail.mil:

(1) Department of Defense Education Activity.

(2) Defense Human Resources Activity.

(3) Defense Microelectronics Activity.

(4) Defense Media Activity.

(5) Uniformed Services University of the Health Sciences.

This page intentionally left blank.

PGI 225.72 -REPORTING CONTRACT PERFORMANCE OUTSIDE THE UNITED STATES

PGI 225.7203 Contracting officer distribution of reports.

(a) Before contract award, forward a copy of any reports that are submitted with offers in accordance with the provision at [252.225-7003](#), Report of Intended Performance Outside the United States and Canada—Submission with Offer, to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) via email to osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

(b) Forwarding the reports as described in paragraph (a) of this section is necessary to satisfy the requirement of 10 U.S.C. 4603 that notifications (or copies) of contract performance outside the United States and Canada be maintained in compiled form for 5 years after the date of submission.

This page intentionally left blank.

PGI 225.73 -ACQUISITIONS FOR FOREIGN MILITARY SALES

PGI 225.7300 Scope of subpart.

(a) The Foreign Military Sales (FMS) acquisition infrastructure is also used to execute cases funded with U.S. appropriated funds under special authority to build international partner capacity. These Building Partner Capacity (BPC) cases are implemented using Pseudo Letter of Offer and Acceptance (LOA) documents.

PGI 225.7301 General.

- (c)(i) Separately identify known FMS requirements and the FMS customer in solicitations.
- (ii) For economies of scale and efficiency, combine U.S. and FMS requirements under the same contract whenever possible. It is not in the taxpayer's interest to concurrently use mixed contract types for the same or similar items.
- (iii) Clearly identify contracts for known FMS requirements by the case identifier code in section B of the Schedule.
- (iv) Ensure that the FMS LOA terms and conditions are incorporated into the signed contract.
- (v) Ensure that the shipping terms for any contract for FMS materiel are stated as free on board (f.o.b.) origin.
- (vi) For Pseudo LOAs, ensure that the period of performance in the contract is consistent with the period of availability of appropriated funds, as provided by the financial resource manager.
- (vii) Consistent with the Defense Transportation Regulations (DTR) 4500.9-R-Part II, Cargo Movement, <http://www.transcom.mil/dtr/part-ii/>, Appendix E, contracting officers shall ensure that contracts involving the acquisition and delivery of FMS materiel comply with the policies, procedures, packaging, labeling, and documentation requirements specified by the DTR.
- (viii) The Government representative responsible for acceptance shall ensure that the contractor prepares material inspection and receiving reports in compliance with—
 - (A) Appendix F, F-301(b)(15)(iv)(K) for a Wide Area WorkFlow (WAWF) Receiving Report; or
 - (B) F-401(b)(16)(iv)(L) for a paper DD Form 250, Material Inspection and Receiving Report, if an exception to the use of WAWF at [232.7003](#) applies.
- (ix) Prior to contract award, contracting officers shall ensure that—
 - (A) If a contracting officer's representative is assigned, detailed point of contact information (email, phone number with international dialing protocols, and physical and mailing address) shall be clearly visible;
 - (B) Unique country requirements are specified in the contract (i.e., additional documentation requirements for use in country customs clearance (Levy Exemption waiver));
 - (C) Commodity-unique requirements are specified in the contract (i.e., responsibility for obtaining/paying for/affixing active Radio Frequency Identification tags and Transportation Control Number construction/usage); and
 - (D) The FMS Transportation Accounting Code is stated in the contract.

PGI 225.7302 Preparation of Letter of Offer and Acceptance.

- (2) The contracting officer shall—
 - (i) Assist the DoD implementing agency, as necessary, in preparation of the Letter of Offer and Acceptance;
 - (ii) Identify and explain all unusual contractual requirements or requests for deviations; and
 - (iii) Assist in preparing the price and availability data.

PGI 225.7303 Pricing acquisitions for FMS.

PGI 225.7303-2 Cost of doing business with a foreign government or an international organization.

(a)(3) Offsets.

(A) Offsets are the entire range of industrial and commercial benefits provided to foreign governments as an inducement or condition to purchase military supplies or services, including benefits such as coproduction, licensed production, subcontracting, technology transfer, in-country procurement, marketing and financial assistance, and joint ventures (Defense Offsets Disclosure Act of 1999, Pub. L. 106-113, section 1243(3)). There are two types of offsets: direct offsets and indirect offsets.

(i) A direct offset involves benefits, including supplies or services that are directly related to the item being purchased. For example, as a condition of a U.S. sale, the contractor may require or agree to permit the purchaser to produce in its country certain components or subsystems of the item being sold. Generally, direct offsets must be performed within a specified period because they are integral to the deliverable of the FMS contract.

(ii) An indirect offset involves benefits, including supplies or services that are unrelated to the item being purchased. For example, as a condition of a sale the contractor may agree to purchase certain of the customer's manufactured products, agricultural commodities, raw materials, or services. Indirect offsets may be accomplished without a clearly defined period of performance.

(B) Offset costs are the costs to the contractor of providing any direct or indirect offsets required (explicitly or implicitly) as a condition of purchase in a government-to-government sale of defense articles and/or defense services as defined by the Arms Export Control Act and the International Traffic in Arms Regulations.

(C) An offset agreement is the contractual arrangement between the FMS customer and the U.S. defense contractor that identifies the offset obligation imposed by the FMS customer that has been accepted by the U.S. defense contractor as a condition of the FMS customer's purchase. These agreements are distinct and independent of the LOA and the FMS contract. Further information about offsets and LOAs may be found in the Defense Security Cooperation Agency (DSCA) Security Assistance Management Manual (DSCA 5105.38-M), chapter 6, paragraph 6.3.9. (<http://samm.dsca.mil/chapter/chapter-6>).

PGI 225.75 -BALANCE OF PAYMENTS PROGRAM

PGI 225.7502 Procedures.

If the Balance of Payments Program applies, use the following procedures:

(1) *Solicitation of offers*. Identify, in the solicitation, supplies and construction material known in advance to be exempt from the Balance of Payments Program.

(2) *Evaluation of offers*.

(i) *Supplies*. Unless the entire acquisition is exempt from the Balance of Payments Program, evaluate offers for supplies that are subject to the Balance of Payments Program using the evaluation procedures in DFARS Subpart 225.5. However, treatment of duty may differ when delivery is overseas.

(A) Duty may not be applicable to nonqualifying country offers.

(B) The U.S. Government cannot guarantee the exemption of duty for components or end products imported into foreign countries.

(C) Foreign governments may impose duties. Evaluate offers including such duties as offered.

(ii) *Construction*. Because the contracting officer evaluates the estimated cost of foreign and domestic construction material in accordance with DFARS 225.7501(a)(7)(iv) before issuing the solicitation, no special procedures are required for evaluation of construction offers.

(3) *Postaward*. For construction contracts, the procedures at FAR 25.206, for noncompliance under the Buy American statute, also apply to noncompliance under the Balance of Payments Program.

PGI 225.77 -ACQUISITIONS IN SUPPORT OF OPERATIONS IN AFGHANISTAN

PGI 225.7703 Enhanced authority to acquire products or services from Afghanistan.

PGI 225.7703-1 Acquisition procedures.

(c) When issuing solicitations and contracts for performance in Afghanistan, follow the guidance for CENTCOM Operational Contract Support Policies and Procedures, Theater Business Clearance, at <https://www2.centcom.mil/sites/contracts/Pages/GCO.aspx>, and use the applicable solicitation provisions and contract clauses:

(1) The provision at DFARS [252.232-7014](#), Notification of Payment in Local Currency (Afghanistan), as prescribed at DFARS 232.7202.

PGI 225.7703-2 Determination requirements.

(b) Subject matter experts for defense industrial base matters are as follows:

For Army: SAAL-PA, Army Industrial Base Policy, telephone 703-695-2488.

For DLA: DLA J-74, Acquisition Programs and Industrial Capabilities Division, telephone 703-767-1427.

For Navy: Ship Programs, DASN Ships, telephone 703-697-1710.

For Air Force: Air Force Research Laboratory, Materials Manufacturing Directorate, telephone 703-588-7777.

For Other Defense Agencies: Personnel at defense agencies without industrial base expertise on staff should contact the Office of the Deputy Assistant Secretary of Defense for Industrial Policy (Acquisition and Sustainment), telephone 703-697-0051.

(c) Determination formats.

(i) Prepare an individual determination and findings substantially as follows:

DEPARTMENT OR AGENCY	
Authority to Acquire Products or Services from Afghanistan	
Determination and Findings	
Upon the basis of the following findings and determination which I hereby make in accordance with the provisions of DFARS 225.7703-2 , the acquisition of a product or service, other than small arms, in support of operations in Afghanistan may be made as follows:	
Findings	
1.	The <i>[contracting office]</i> proposes to purchase under contract number _____, <i>[describe item]</i> . The total estimated cost of this acquisition is _____.
2.	The product or service is to be used by <i>[describe the entity(ies) that are the intended user(s) of the product or service]</i> .
3.	The contracting officer recommends conducting the acquisition using the following procedure, which, given this determination, is authorized by section 886 of Public Law 110-181, as amended by section 842 of Public Law 112-239 and section 886 of Public Law 114-92: <i>[Select one of the following:]</i> Provide a preference for products or services from Afghanistan. Limit competition to products or services from Afghanistan. Use procedures other than competitive procedures to award a contract to a particular source or sources from Afghanistan.

4.	To implement the recommended procedure, the solicitation will contain <i>[title and number of the applicable provision and/or clause prescribed at DFARS 225.7703-4]</i> .
5.	The proposed acquisition will provide a stable source of jobs in Afghanistan because _____.
6.	The proposed use of other than full and open competition is necessary to provide this stable source of jobs in Afghanistan.
7.	The proposed use of other than full and open competition will not adversely affect military operations or stability operations in Afghanistan, because _____. This is the opinion of the <i>[title of the official responsible for operations in the area involved]</i> .
8.	The proposed use of other than full and open competition will not adversely affect the United States industrial base.
9.	[If a preference will be provided for products or services from Afghanistan, or if competition will be limited to products or services from Afghanistan, include— (1) <i>A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable; and</i> (2) <i>Whether a notice was or will be publicized as required by FAR Subpart 5.2 and, if not, which exception in FAR 5.202 applies.]</i> - or - <i>[If procedures other than competitive procedures will be used to award a contract to a particular source or sources from Afghanistan, include—</i> (1) <i>A description of the market research conducted in accordance with FAR part 10 and the results; or a statement of the reason market research was not conducted;</i> (2) <i>A listing of the sources, if any, that expressed, in writing, an interest in the acquisition;</i> (3) <i>A demonstration that the proposed contractor's unique qualifications require the use of a noncompetitive acquisition, or an explanation of the other reasons for use of a noncompetitive acquisition; and</i> (4) <i>A certification by the contracting officer that the information in paragraphs (1) through (3) above is accurate and complete to the best of the contracting officer's knowledge and belief.]</i>

Determination
I hereby determine that it is in the national security interest of the United States to use the acquisition procedure described above, because the procedure is necessary to provide a stable source of jobs in Afghanistan and it will not adversely affect (1) Operations in Afghanistan or (2) the United States industrial base.

(Date)

(ii) Prepare a determination and findings for a class of acquisitions substantially as follows:

DEPARTMENT
OR AGENCY
Authority
to Acquire
Products or
Services from
Afghanistan
Determination
and Findings
Upon the basis
of the following
findings and
determination
which I hereby
make in
accordance with
the provisions
of DFARS
[225.7703-2](#),
the acquisition
of products
or services,
other than small
arms, in support
of operations
in Afghanistan
may be made as
follows:
Findings

1. It is anticipated that *[applicable departments/agencies/components]* will need to award contracts during the period from _____ to _____ in order to acquire *[describe the type(s) of products or services]* for *[describe the purpose, if the purpose for which the items will be acquired is a defining characteristic of the class of acquisitions to be covered by the class determination]*.
2. The products or services to be acquired under the contemplated contracts are to be used by *[describe the entity(ies) intended to use the products or services]*.

3. This class of acquisitions should be conducted using the following procedure, which, given this determination, is authorized by section 886 of Public Law 110-181, as amended by section 842 of Public Law 112-239 and section 886 of Public Law 114-92:
[Select one of the following:]
Provide a preference for products or services from Afghanistan.
Limit competition to products or services from Afghanistan.
Use procedures other than competitive procedures to award a contract to a particular source or sources from Afghanistan.

4. To implement the recommended procedure, solicitations will contain *[title and number of the applicable provision and/or clause prescribed at DFARS [225.7703-4](#)]*.
5. Each of the contemplated contracts will provide a stable source of jobs in Afghanistan, because
_____.
6. The proposed use of other than full and open competition for this class of acquisitions is necessary to provide this stable source of jobs in Afghanistan.

7. The proposed use of other than full and open competition for this class of acquisitions will not adversely affect operations in Afghanistan, because_____. This is the opinion of the *[title of the official responsible for operations in the area involved]*.
8. The proposed use of other than full and open competition for this class of acquisitions will not adversely affect the United States industrial base.

9. [If a preference will be provided for products or services from Afghanistan, or if competition will be limited to products or services from Afghanistan, include—
- (1) *A description of the efforts that will be made to ensure that offers are solicited from as many potential sources as is practicable; and*
- (2) *Whether a notice will be publicized as required by FAR Subpart 5.2 and, if not, which exception in FAR 5.202 applies.]*
- or -
- [If procedures other than competitive procedures will be used to award contracts to a particular source or sources from Afghanistan, include—*
- (1) *A description of the market research conducted in accordance with FAR part 10 and the results; or a statement of the reason market research was not conducted;*
- (2) *A*

Determination
I hereby
determine
that it is in
the national
security interest
of the United
States to use
the acquisition
procedure
described above
for *[description
of the class of
acquisitions
to which this
determination
is intended to
apply]*, because
the procedure
is necessary to
provide a stable
source of jobs
Afghanistan
and it will not
adversely affect
(1) Operations
in Afghanistan
or (2) the
United States
industrial base.

(Date)

(iii) Prepare a determination and findings for acquisitions issued pursuant to https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf, to Acquire Products and Services Produced in Afghanistan or in Countries along a Major Route of Supply to Afghanistan, substantially as follows:

DEPARTMENT OR AGENCY AUTHORITY TO ACQUIRE PRODUCTS OR SERVICES
FROM _____ 1 _____

Determination and Findings

Upon the basis of the following findings and determination, which I hereby make in accordance with the provisions of DFARS 225.7799-2 (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf), the acquisition of a product or service, other than small arms, in support of operations in Afghanistan may be made as follows:

FINDINGS

1. The _____ 1A _____ proposes to purchase under solicitation number _____ 1B _____, _____ 1C _____. The total estimated cost of this acquisition is _____ 1D _____.
2. The product or service is to be used by _____ 2 _____.
3. The contracting officer recommends conducting the acquisition using the following procedure, which, given this determination, is authorized by section 801 of Public Law 111-84, as amended by section 886 of Public Law 114-92 and section 1212 of Public Law 116-92, and section 886 of Public

Law 110-181, as amended by section 842 of Public Law 112-239 and section 886 of Public Law 114-92: _____ 3 _____.

4. To implement the recommended procedure, the solicitation will contain: a. DFARS 252.225-7998, Preference for Products or Services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus (DEC 2019) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf), and DFARS 252.225-7999, Requirement for Products or Services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus (DEC 2019) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf); or b. DFARS 252.225-7996, Acquisition Restricted to Products or Services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus (DEC 2019) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf).

5. The proposed acquisition will provide a product or service that is to be used

_____ 5 _____.

6.a. For products or services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus, it is in the national security interest of the United States to use a procedure specified in 225.7799-1(a) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf) because the procedure is necessary to

_____ 6A _____.

Use of the procedure for acquisition of products or services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus will not adversely affect military or stability operations in Afghanistan or the United States industrial base (*see* 6B).

b. For products or services from Afghanistan, it is in the national security interest of the United States to use a procedure specified in 225.7799-1(a) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf) because the procedure is necessary to provide a stable source of jobs in Afghanistan.

Use of the procedure for acquisition of products or services from Afghanistan will not adversely affect military or stability operations in Afghanistan or the United States industrial base (*see* 6B). (*see* 6C)

7. Acquisitions conducted using the procedures specified in DFARS 225.7799-1(a) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf), (*see* para. 3. above), are authorized to use other than full and open competition procedures and do not require the justification and approval addressed in FAR Subpart 6.3.

8. Requirement will be/was synopsis: YES ☐ NO ☐. If not synopsis, exception at FAR 5.202(a) applies.

_____ Date: _____

CONTRACTING OFFICER

Name: _____

Office Symbol: _____

DETERMINATION

In accordance with the authorization outlined in DFARS 225.7799-2(b)(1)(i) (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf) and under the authority of section 801 of Public Law 111-84, as amended by section 886 of Public Law 114-92 and section 1212 of Public Law 116-92, and section 886 of Public Law 110-181, as amended by section 842 of Public Law 112-239 and section 886 of Public Law 114-02, I hereby determine that it is in the national security interest of the United States to use the acquisition procedure described above because the procedure is necessary to encourage countries along a major route of supply in support of military and stability operations in Afghanistan. This procedure will not adversely affect military or stability operations in Afghanistan or the United States industrial base.

_____ Date: _____

INSTRUCTIONS FOR COMPLETING DETERMINATION

1 Afghanistan, a Central Asian state, Pakistan, or the South Caucasus

1A Office symbol of your contracting office

1B RFP/RFQ/IFB number

1C Description of the items to be purchased

1D Estimated amount of the requirement (in USD)

2 Describe the entity(ies) that are the intended user(s) of the product or service

3 *Select and include one of the following:*

a. Provide a preference for products or services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus in accordance with the evaluation procedures at 225.7799-3 (DEVIATION https://www.acq.osd.mil/dpap/policy/policyvault/Class_Deviation_2020-O0002.pdf). b. Limit competition to products or services from Afghanistan, a Central Asian state, Pakistan, or the South Caucasus (DEVIATION 2020-O0002).

5 Select and include one of the following:

In the country that is the source of the product or service.

In the course of efforts by the United States and the Forces to ship goods to or from Afghanistan in support of operations in Afghanistan.

By the military forces, police, or other security personnel of Afghanistan.

By the United States or coalition forces in Afghanistan.

6Ai Paragraph (6.a. may be deleted if the product or service is for use by the military forces, police, or other security personnel of Afghanistan.

6Aii Select and include one of the following:

Reduce the overall United States transportation costs and risks in shipping goods in support of operations in Afghanistan.

Encourage states of Central Asia, Pakistan, and the South Caucasus to cooperate in expanding supply routes through their territory in support of operations in Afghanistan.

Help develop more robust and enduring routes of supply to or from Afghanistan.

6B The contracting officer generally may presume that there will not be an adverse effect on the U.S. industrial base. However, when in doubt the contracting officer should coordinate with the applicable subject matter experts.

6C Delete paragraph 6.b. if the product or service concerned is to be used only by the military forces, police, or other security personnel of Afghanistan.

7 Include a description of efforts made to ensure offers are solicited from as many potential sources as is practicable.

PGI 225.78 -ACQUISITIONS IN SUPPORT OF GEOGRAPHIC COMBATANT COMMANDS THEATER SECURITY COOPERATION EFFORTS

PGI 225.7801 Policy.

DoD components are responsible for providing procurement and contracting support of theater security cooperation efforts conducted in support of combatant commander/Chief of Mission, to include military exercises/training, base operations, weapons procurement, aviation fuels and construction and the President's Emergency Plan for Aids relief. By http://www.acq.osd.mil/dpap/dars/pgi/docs/policy_docs/Procurement_Support_of_Theater_Security_Cooperation_Efforts.pdf and its attachment, Department of State (DoS) Cable 11 STATE 030953, "Procurement Roles and Responsibilities – General Services Officer and DoD Personnel," DoS procurement support is normally restricted to those routine non-complex supplies and services used by U. S. Government personnel permanently assigned at post and acquired for U. S. Government employee direct use. Follow all guidance set forth in this Director, DPAP-approved cable and associated planning considerations at PGI [207.105](#) (b)(20)(E).

This page intentionally left blank.

PGI 225.79 - EXPORT CONTROL

PGI 225.7901 Export-controlled items.

PGI 225.7901-2 General.

(1) *DoD Focal Point on Export Controls.*

(i) Within DoD, the focal point on export controls is the Defense Technology Security Administration (DTSA). Official authorities and responsibilities of DTSA are established in DoD Directive 5105.72.

(ii) Initial DoD acquisition workforce questions regarding the applicability of the Export Administration Regulations (EAR) or the International Traffic in Arms Regulations (ITAR) to specific procurements or items, or interpretation of DoD issuances regarding export controls, may be directed to the DTSA Policy Directorate, by phone at 571-372-2438/2377 or by visiting the DTSA web site at: <http://www.dtsa.mil/SitePages/contact-us/default.aspx>.

(2) *Regulations.* The Department of State and the Department of Commerce are the lead agencies responsible for regulations governing the export of defense articles, commercial products or commercial services, and dual use items.

(i) *The International Traffic in Arms Regulations (ITAR)*, issued by the Department of State, control the export of defense-related articles and services, including technical data, ensuring compliance with the Arms Export Control Act (22 U.S.C. 2751 *et seq.*). The United States Munitions List (USML) identifies defense articles, services, and related technical data that are inherently military in character and could, if exported, jeopardize national security or foreign policy interests of the United States.

(A) The ITAR is published in Title 22 of the Code of Federal Regulations (CFR), Parts 120 through 130 (22 CFR 120-130). The official version of the ITAR is maintained at <http://www.gpoaccess.gov/cfr/index.html>. The Department of State also maintains an on-line version at http://www.pmddtc.state.gov/regulations_laws/itar_official.html.

(B) The USML is part of the ITAR, in 22 CFR Part 121, and is available at the web sites in paragraph (2) (i) (A) of this section.

(C) The Department of State is responsible for compliance with the ITAR. Depending on the nature of questions you may have, you may contact the following Department of State office to obtain additional information:

U.S. Department of State
Bureau of Political Military Affairs
Directorate of Defense Trade Controls
Office of Defense Trade Controls Compliance
http://www.pmddtc.state.gov/about/contact_information.html.

(D) Contracting officers should not answer any questions a contractor may ask regarding how to comply with the ITAR. If asked, the contracting officer should direct the contractor's attention to paragraph (c) of the clause at DFARS [252.225-7048](#) and may inform the contractor that the Department of State publishes guidance regarding ITAR compliance at <http://www.pmddtc.state.gov/compliance/index.html>.

(E) Contracting officers should not answer any questions a contractor may ask regarding the State Department requirement, mentioned in the clause at [252.225-7048](#), for contractors to register with the Department of State in accordance with the ITAR. If asked, the contracting officer should direct the contractor's attention to paragraph (b) of the clause, which directs the contractor to consult with the Department of State regarding any questions relating to compliance with the ITAR. (The registration requirements are in Subpart 122.1 of the ITAR. Subpart 122.1 requires any person who engages in the United States in the business of either manufacturing or exporting defense articles or furnishing defense services to register with the Directorate of Defense Trade Controls.)

(ii) *The Export Administration Regulations (EAR)*, issued by the Department of Commerce, control the export of dual-use items, (items that have both commercial and military or proliferation applications) and purely commercial products or commercial services. These items include commodities, software, and technology. Many items subject to the EAR are set forth by Export Control Classification Number on the Commerce Control List.

(A) The EAR is published in Title 15 of the Code of Federal Regulations, Parts 730 through 774 (15 CFR Parts 730-774), available at <http://www.gpoaccess.gov/cfr/index.html> and http://www.access.gpo.gov/bis/ear/ear_data.html.

(B) The Commerce Control List is part of the EAR, in Supplement No. 1 to 15 CFR Part 774, and is available at <http://www.gpoaccess.gov/cfr/index.html> and http://www.access.gpo.gov/bis/ear/ear_data.html.

(C) The Department of Commerce is responsible for compliance with the EAR. Depending on the nature of questions you may have, you may contact the following Department of Commerce office to obtain additional information:

U.S. Department of Commerce

Bureau of Industry and Security
Office of Exporter Services (OExS)
OExS Hotline: 202-482-4811.

(D) Contracting officers should not answer any questions a contractor may ask regarding how to comply with the EAR. If asked, the contracting officer should direct the contractor's attention to paragraph (b) of the clause at DFARS [252.225-7048](#) and may inform the contractor that the Department of Commerce publishes guidance regarding EAR compliance at <http://www.bis.doc.gov/>.

(3) *National Security Decision Directive (NSDD) 189, National Policy on the Transfer of Scientific, Technical, and Engineering Information.*

(i) NSDD 189 establishes a national policy that, to the maximum extent possible, the products of fundamental research shall remain unrestricted. NSDD 189 provides that no restrictions may be placed upon the conduct or reporting of federally funded fundamental research that has not received national security classification, except as provided in applicable U.S. statutes. As a result, contracts confined to the performance of unclassified fundamental research generally do not involve any export-controlled items, as defined in paragraph (a) of the clause at DFARS [252.225-7048](#).

(ii) NSDD 189 does not take precedence over statutes. NSDD 189 does not exempt any research, whether basic, fundamental, or applied, from statutes that apply to export controls such as the Arms Export Control Act, the Export Administration Act of 1979, as amended, or the U.S. International Emergency Economic Powers Act, or the regulations that implement those statutes (the ITAR and the EAR). Thus, if export-controlled items are used to conduct research or are generated as part of the research efforts, the export control laws and regulations apply to the controlled items.

(iii) NSDD 189 is available at <http://www.fas.org/irp/offdocs/nsdd/nsdd-189.htm>.

(4) *DoD Instruction 2040.02, International Transfers of Technology, Articles, and Services.* This DoD instruction provides guidance to manage and control transfers of technology, articles, and services consistent with U.S. foreign policy and national security objectives. DoD Instruction 2040.02 is available at <http://www.dtic.mil/whs/directives/>.

(5) *Other DoD Issuances.* Other DoD issuances that address export control matters include those listed below. Except as otherwise noted, these issuances are available at <http://www.dtic.mil/whs/directives/>.

- DoD Instruction 2015.4, Defense Research, Development, Test and Evaluation (RDT&E) Information Exchange Program (IEP).
- DoD Directive 5000.1, The Defense Acquisition System.
- DoD Instruction 5000.2, Operation of the Defense Acquisition System.
- DoD Directive 5105.72, Defense Technology Security Administration (DTSA).
- DoD Publication 5200.1-M, Acquisition Systems Protection Program.
- DoD Instruction 5200.39, Critical Program Information (CPI) Protection Within the Department of Defense.
- DoD Publication 5220.22-M, National Industrial Security Program Operating Manual (NISPOM).
- DoD Directive 5230.25, Withholding of Unclassified Technical Data From Public Disclosure.
- DoD Instruction 5230.27, Presentation of DoD-Related Scientific and Technical Papers at Meetings.
- Defense Acquisition Guidebook, available at <http://akss.dau.mil/dag/DoD5000.asp?view=document&doc=1>.
- Under Secretary of Defense (Intelligence) Memorandum, Subject: Policy and Procedures for Sanitization of Department of Defense (DoD) Classified or Controlled Unclassified Information Prior to Public Release, is available here

PGI 225.7902-2 Purpose.**(1) Background.**

(i) The U.S. Government controls exports of defense articles, technical data, and defense services. The controls are imposed by the Arms Export Control Act (AECA) and the Department of State regulation that implements the AECA export controls. That regulation is the ITAR. See PGI [204.7302](#)(2)(i) for more information about the ITAR.

(ii) Under the ITAR, the Department of State manages an export licensing system in which government approvals are often necessary for companies to hold discussions about potential projects, pursue joint activities, ship hardware, or transfer know-how to one another, and even sometimes to move engineers and other personnel within branches of the same company located in different countries. This process can be challenging for U.S. exporters and for foreign firms in their supply chains.

(iii) Given the close allied relationship of the United States with Australia and the United Kingdom, the President and the respective Prime Ministers decided to reform the defense trade system between their countries with the goal of facilitating the exchange of certain defense articles, technical data, and defense services between their militaries and security authorities, and their industries. They negotiated bilateral Defense Trade Cooperation DTC Treaties to achieve this goal. These bilateral DTC Treaties establish permissions for export without export licenses for each country, if an export meets the DTC Treaty requirements.

Other exports remain under the AECA and the ITAR. The DTC Treaties are intended solely to waive certain requirements of the ITAR for specific transactions within the scope of the DTC Treaties not remove any requirements for contractors to comply with domestic U.S. law.

(iv) The Department of State regulations implementing the DTC Treaties are in the ITAR.

(2) How the DTC Treaties work.

(i) The DTC Treaties establish Approved Communities. The “Approved Community” for each DTC Treaty is defined in DFARS clause [252.225-7047](#). Exports of most U.S. defense articles, technical data, and defense services are permitted to go into and to move within the Approved Community, without the need for government approvals and export licenses (provided that all persons comply with statutory and regulatory requirements outside of DFARS and ITAR concerning the import of defense articles and defense services or the possession or transfer of defense articles, including, but not limited to, regulations issued by the Bureau of Alcohol, Tobacco, Firearms and Explosives found at 27 C.F.R. Parts 447, 478, and 479, which are unaffected by the DTC Treaties) when in support of the following:

- Combined U.S.-Australia or U.S.-U.K. military or counterterrorism operations.
- U.S.-Australia or U.S.-U.K. cooperative security and defense research, development, production, and support programs.
- Specific security and defense projects that are for the government of Australia or the government of the United Kingdom use only.
- U.S. Government end use.

(ii) Under the DTC Treaties, instead of a U.S. exporter preparing and requesting Department of State approval of an export license or other written authorization for a project, the exporter may elect to use the applicable DTC Treaty if Treaty conditions are met. If using a DTC Treaty, the exporter will check the Department of State website (<http://pmdtcc.state.gov/>) or other appropriate reference and verify that—

- The Australian or U.K. partner is on the list of approved companies/facilities (i.e., a member of the Approved Community);
- The effort is in support of at least one of the scope areas identified in paragraph (2)(i) of this section; and
- The defense article is not on the exempted technology list. (Also in 22 CFR 126 Supplement No. 1).

If all three conditions are met, then the U.S. exporter and the Australian or U.K. partner may use the DTC Treaty exemptions in the ITAR to move qualifying defense articles without the need to obtain export licenses or other written authorizations, provided compliance with paragraph (2)(i) of this section.

(iii) A company using a DTC Treaty, in addition to checking the three lists (as explained in paragraph (2)(ii) of this section), must also comply with requirements in the applicable DTC Treaty and the associated Implementing Arrangements, and the provisions of the ITAR pertaining to the DTC Treaty. These include marking and record keeping requirements to ensure that export-controlled items are recognized as such and treated accordingly. For example, instead of normal ITAR requirements, the provisions of the ITAR pertaining to the DTC Treaties establish the requirements that apply. Similarly, DFARS [225.7902](#) implements requirements that relate to exports that a prospective contractor may make under a DoD solicitation or that a contractor may make in performance of a DoD contract.

The company must continue to comply with domestic laws and regulations, including those pertaining to the movement of defense articles within the United States.

PGI 225.7902-4 Procedures.

(1) Since the DTC Treaties apply only to eligible items, a solicitation or contract falls within the scope of the DTC Treaties, and is thus eligible for DTC Treaty coverage (i.e., falls within the scope of the DTC Treaties) if it will acquire at least one defense article that is not otherwise exempt from the DTC Treaties and is required for—

- (i) Combined military or counterterrorism operations as described in the Implementing Arrangements;
- (ii) Cooperative security and defense research, development, production, and support programs that are identified pursuant to the Implementing Arrangements;
- (iii) Cases where the government of Australia or the government of the United Kingdom is the end user in mutually agreed specific security and defense projects, that are identified pursuant to the Implementing Arrangements; or
- (iv) U.S. Government end use under a solicitation or contract.

(2) Since the DTC Treaties apply only to eligible items, a solicitation or contract falls within the scope of the DTC Treaties and is thus eligible for DTC Treaty coverage when it will acquire at least one defense article that is DTC Treaty-eligible and the contract falls within the scope of the DTC Treaties. Article 3, section (2) of each DTC Treaty and Section 4 of each Implementing Arrangement require the DTC Treaty Participants to maintain lists of defense articles to be exempted from the scope of the DTC Treaties. These exempted technology lists are incorporated in Supplement No. 1 to part of the ITAR and are accessible at: <http://www.pmddtc.state.gov/treaties/index.html>

(3) The DTC Treaties do not apply to defense articles initially being acquired pursuant to the U.S. Foreign Military Sales (FMS) program, although, once the defense articles are acquired by the Australia or United Kingdom under an FMS case, the DTC Treaty applies as though the defense articles were exported under the DTC Treaty, subject to PGI [225.7902-2](#).

(4) If a company obtains an export license, or other authorization, for the export of defense articles that might otherwise have been eligible for export without a license under a DTC Treaty, the terms of the export license, or other authorization, shall apply unless and until the company obtains approval to transition to DTC Treaty coverage. The process and requirements for transition are described in 22 CFR 126.16(i) and 22 CFR 126.17(i), respectively.

PGI 227.71 - TECHNICAL DATA AND ASSOCIATED RIGHTS

PGI 227.7103 Other than commercial products, commercial services, or commercial processes.

PGI 227.7103-2 Acquisition of technical data.

(b)(1) See DoDI 5010.44, Intellectual Property (IP) Acquisition and Licensing, sections 4.1 and 4.2, when formulating business advice and contract implementation strategies regarding the program manager's tailoring of technical data requirements to the needs of the Government.

PGI 227.7104 Contracts under the Small Business Innovation Research Program and Small Business Technology Transfer Program.

PGI 227.7104-1 Policy.

See section 4(c) of the Small Business Administration's Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Program Policy Directive (effective May 3, 2023) for guidance on examples of SBIR/STTR phase III, which is available at https://www.sbir.gov/sites/default/files/SBA%20SBIR_STTR_POLICY_DIRECTIVE_May2023.pdf.

PGI 227.7104-2 Rights in SBIR or STTR data.

The clause under which the SBIR/STTR data were generated or developed will govern the Government's license rights in such SBIR/STTR data. The following examples illustrate the definition of the SBIR/STTR data protection period and the applicability of the DFARS [252.227-7018](#) clause:

(1) Redelivery of SBIR data.

(i) SBIR data first generated under a prior SBIR clause and redelivered under the current SBIR clause. In this example, a contractor generates and delivers SBIR data under a 2016 phase II SBIR contract that includes a prior version of the clause at DFARS 252.227-7018. The contractor delivers identical data in a contiguous series of follow-on contracts, including a later phase III contract that is an extension of the research effort in the 2016 contract. That phase III contract includes the current version of the clause at DFARS 252.227-7018. The contractor asserts SBIR data rights in these data. The 2016 contract included the clause at DFARS 252.227-7018, which defined the SBIR data protection period as the period commencing with contract award and ending upon the date 5 years after completion of the project from which such data were generated. This previous definition of the SBIR data protection period applies to the redelivered SBIR data in the contiguous series of follow-on contracts, including the later phase III contract. The SBIR data protection period is extended because the later contract derives from, extends, or completes an effort made under a prior SBIR contract that included the prior version of the clause at DFARS 252.227-7018. This is the case even under later contracts that include the current version of the clause at DFARS 252.227-7018 with a non-extendable 20-year SBIR/STTR data protection period. In addition, the SBIR data protection period from the prior version of the clause at DFARS 252.227-7018 may be extended indefinitely for subsequent redeliveries of identical SBIR data as long as the SBIR project has not been completed.

(ii) SBIR data first delivered with the 20-year SBIR data protection period and later redelivered under the current SBIR clause. In another example, a contractor generates and delivers SBIR data under a 2021 phase II SBIR contract. The contractor delivers identical data under a later phase III contract that is an extension of the research effort in the 2021 contract. The contractor asserts SBIR data rights in these data. That 2021 contract included a version of the DFARS 252.227-7018 clause that defines the SBIR data protection period as the period commencing on the date of contract award and ending 20 years after that date. The same definition of the SBIR/STTR data protection period applies to the redelivered SBIR data in the later phase III contract. Redelivery of identical SBIR data under any later contract will not extend the 20-year SBIR data protection period.

(2) Modifications to previously delivered SBIR or STTR data. A contractor generates and delivers SBIR/STTR data under a phase II STTR contract with the current version of the clause at DFARS 252.227-7018. The contractor develops and delivers modified STTR data under a later phase III contract. The contractor asserts SBIR/STTR data rights in these data. The previously delivered portions of the STTR data will be governed by the previous SBIR/STTR data protection period, while the newly developed portions of the STTR data will be governed by a new 20-year SBIR/STTR data protection period.

(3) SBIR or STTR data delivered under a contract and the contractor was not awarded a SBIR or STTR contract. A subcontractor was awarded a SBIR phase I contract. Later, the subcontractor performed SBIR phase III work under a contract awarded to a contractor who was not awarded a SBIR or STTR contract. The subcontractor furnished technical data

and computer software deliverables related to SBIR phase III work performed under this contract. This technical data and computer software was furnished to the Government with SBIR data rights. The clause at DFARS 252.227-7018 should have been included either in the initial contract or via a contract modification, and the Government's rights in this SBIR data are subject to the terms of the clause at DFARS 252.227-7018.

PGI 227.72 - COMPUTER SOFTWARE, COMPUTER SOFTWARE DOCUMENTATION, AND ASSOCIATED RIGHTS

PGI 227.7200 Scope of subpart.

(b) The contracting officer should consider the following additional guidance and information regarding acquisition of computer software and computer software documentation:

- (1) DoD Instruction 5000.74, Defense Acquisition of Services.
- (2) DoD Instruction 5000.87, Operation of the Software Acquisition Pathway.
- (3) DoD Instruction 5010.44, Intellectual Property (IP) Acquisition and Licensing.

PGI 227.7203 Other than commercial computer software and other than commercial computer software documentation.

PGI 227.7203-2 Acquisition of other than commercial computer software and computer software documentation and associated rights.

(b)(1) To the maximum extent practicable, an assessment of life-cycle needs should consider periodic delivery of computer software and computer software documentation including all executable code, source code, associated scripts, build procedures, automation scripts, tools, databases, libraries, test results, data sets, firmware, training materials, and any other elements necessary to integrate, test and evaluate, debug, deploy, and operate the software application in all relevant environments (e.g., development, staging, production). See DoDI 5010.44, Intellectual Property (IP) Acquisition and Licensing, sections 4.1 and 4.2, when formulating business advice and contract implementation strategies regarding the program manager's tailoring of software requirements to the needs of the Government.

(2)(i) Procurement planning.

(A) Based on the results of the assessment of life-cycle needs, and to the maximum extent practicable, the source code should be accompanied by all software capability descriptions (e.g., features, story points, use cases) and all as-built architecture and design products, traceability products, interface definitions including interfaces to proprietary software elements, and any other requisite documentation.

(B) The assessment of life-cycle needs should consider delivery timelines to facilitate transition to a different contractor or to the Government. This approach facilitates management of program risk and supports options for flexibility in the transition of software sustainment to another organization.

(C) Contracting officers are responsible for ensuring that, wherever practicable, solicitations and contracts include the requirements for periodic delivery and any delivery timelines for computer software and computer software documentation, based upon the assessment of life-cycle needs.

(ii) Alternatives to delivery of source code and related software design details.

(A)(1) In determining whether the Government should require delivery of computer software source code and related software design details developed exclusively or partially at private expense, data managers and other requirements personnel are responsible for considering whether these alternatives permit the Government to—

(ii) Meet its management, engineering, and logistics needs; and

(iii) Maintain the currency of acquired technical data or software consistent with the assessment of life-cycle needs.

(2) To the extent practicable, the Government should also require open interface documentation for any privately developed computer software used in or interoperable with software developed for the Government, to allow for technology insertion on all sides of the interface, as applicable, and to support the use of modular open system approaches.

(B) Access agreements permit the Government to view, print, download, annotate, modify, or make derivatives of technical data or computer software stored within a contractor-controlled repository or facility (e.g., in an online environment or in person). Examples of access arrangements include remote online authorization to access an integrated data environment, product data management system operated by the contractor, or mechanisms authorizing physical entry to a contractor-controlled data repository, or cloud-based or subscription-based software products or services. The negotiated access agreement must stipulate permissions based on the assessment of life-cycle needs, and the access agreement must be made part of the contract.

(C) For each technical data or computer software requirement, the requiring activity must determine whether the Government's needs can be better satisfied through access or formal delivery of the technical data or software (e.g., physical

or electronic transfer of the data into Government custody). The Government should consider access to technical data or software when—

(1) The delivery of technical data or software is not cost-effective or feasible for technical, legal, or contractual reasons; and

(2) Access meets the Government's needs for such technical data or software throughout the life-cycle of the program.

(D) Under a data escrow agreement, the Government and the contractor identify a third-party escrow agent that will keep designated technical data or computer software for safekeeping until a contractually specified condition occurs. If a contractually specified condition occurs, then the Government may obtain delivery of the escrowed technical data or computer software. The contracting officer shall include the data escrow agreement in the contract. The contract shall also include the Government's license rights in the escrowed technical data or computer software. Use of data escrow agreements is not preferable in all cases but may be useful when formal delivery or access is not feasible or cost-effective during the contract's period of performance or delivery schedule.

PGI PART 228 - BONDS AND INSURANCE

Sec.

PGI 228.3	-INSURANCE	PGI 228.370	Ground and flight risk.
PGI 228.304	Risk-pooling arrangements.	PGI	General.
PGI 228.305	Overseas workers' compensation and war-hazard insurance.	228.370-2	

This page intentionally left blank.

PGI 228.3 -INSURANCE

PGI 228.304 Risk-pooling arrangements.

(1) The plan—

(i) Is implemented by attaching an endorsement to standard insurance policy forms for workers' compensation, employer's liability, comprehensive general, and automobile liability. The endorsement states that the instant policy is subject to the National Defense Projects Rating Plan.

(ii) Applies to eligible defense projects of one or more departments/agencies. For purposes of this section, a defense project is any eligible contract or group of contracts with the same contractor.

(A) A defense project is eligible when—

(1) Eligible contracts represent, at the inception of the plan, at least 90 percent of the payroll for the total operations at project locations; and

(2) The annual insurance premium is estimated to be at least \$10,000.

(B) A contract is eligible when it is—

(1) Either domestic or foreign;

(2) Cost-reimbursement type; or

(3) Fixed price with redetermination provisions.

(2) Under construction contracts, include construction subcontractors in the prime contractor's plan only when subcontractor operations are at the project site, and the subcontract provides that the prime contractor will furnish insurance.

(3) Use the agreement in Table 28-1, Insurance Rating Plan Agreement, when the Government assumes contractor premium payments upon contract termination or completion.

(4) The Federal Tort Claims Act provides protection for Government employees while driving Government-owned vehicles in the performance of their assigned duties. Include the endorsement in Table 28-2, Automobile Insurance Policy Endorsement, in automobile liability insurance policies provided under the National Defense Projects Rating Plan.

TABLE 28-1, INSURANCE RATING PLAN RATING AGREEMENT

Special Casualty Insurance Rating Plan
Assignment-Assumption of Premium
Obligations

It is agreed that 100 percent* of the return premiums and premium refunds (and dividends) due or to become due the prime contractor under the policies to which the National Defense Projects Rating Plan Endorsement made a part of policy _____ applies are hereby assigned to and shall be paid to the United States of America, and the prime contractor directs the Company to make such payments to the office designated for contract administration acting for and on account of the United States of America.

The United States of America hereby assumes and agrees to fulfill all present and future obligations of the prime contractor with respect to the payment of 100 percent* of the premiums under said policies.

This agreement, upon acceptance by the prime contractor, the United States of America, and the Company shall be effective from

Accepted _____
(Date)

_____ (Name of
Insurance Company)

By _____ (Title of
Official Signing)

Accepted _____
(Date)

United States of America

By _____
(Authorized Representative)

Accepted _____
(Date)

_____ (Prime
Contractor)

By _____
(Authorized Representative)

*In the event the Government has less than a 100 percent interest in premium funds or dividends, modify the assignment to reflect the percentage of interest and extent of the Government's assumption of additional premium obligation.

TABLE 28-2, AUTOMOBILE INSURANCE POLICY ENDORSEMENT

It is agreed that insurance provided by the policy with respect to the ownership, maintenance, or use of automobiles, including loading and unloading thereof, does not apply to the following as insureds: The United States of America, any of its agencies, or any of its officers or employees.

PGI 228.305 Overseas workers' compensation and war-hazard insurance.

(d) Submit requests for waiver through department/agency channels. Include the following in the request:

- (i) Name and address of contractor.
- (ii) Contract number.
- (iii) Date of award.
- (iv) Place of performance.
- (v) Name of insurance company providing Defense Base Act coverage.
- (vi) Nationality of employees to whom waiver is to apply.
- (vii) Reason for waiver.

PGI 228.370 Ground and flight risk.

PGI 228.370-2 General.

(a) *Assignment of a Government flight representative.* DFARS [252.228-7001](#), Ground and Flight Risk, requires the assignment of a Government flight representative (GFR) to administer the requirements of the combined instruction Contractor's Flight and Ground Operations, (DCMA INST 8210.1, AFI 10-220, AR 95-20, NAVAIRINST 3710.1 (Series), and COMDTINST M13020.3). At the time the solicitation is issued, contracting officers shall contact DCMA Aircraft Operations (AO) and the appropriate military service to obtain technical advice and allow adequate lead time for assigning a GFR. Make requests for assignment of a GFR to—

HQ DCMA: DCMA-AO

8000 Jefferson Davis Highway

Building 4A

Richmond, VA 23297

804-279-6322

Email: AOInbox@dcma.mil (include "Ground and Flight Risk Clause" on the subject line)

Army: HQ, Army Materiel Command

ATTN: AMCOL-CA

4400 Martin Road

Redstone Arsenal, AL 35898

256-450-7021

Navy: Commander, Naval Air Systems Command (AIR-09F)

22541 Millstone Road, Unit 10

Patuxent River, MD 20670-1601

301-342-7233

Air Force: HQ AFMC/A3V

Coast Guard: Commanding Officer

Aviation Logistics Center

U.S. Coast Guard

1664 Weeksville Road, Building 63

Elizabeth City, NC 27909-6725

(c) *Foreign military sales.* The Government self-insures through the use of the clause at 252.228-7001, which requires risk-mitigation procedures in lieu of private-sector, commercially-available hull insurance to cover the physical aircraft from damage or destruction, similar to the comprehensive portion of automobile insurance. It does not address personnel liability. For contracts falling under the exceptions at DFARS 228.371(b)(1)(iii), (iv), and (vi), review the commercial insurance

policy to determine what coverage exists on the contract aircraft. Commercial hull insurance policies may contain various coverage exclusions, particularly for Government-furnished aircraft, which may mean the Government is at risk without the risk management safeguards provided through the Combined Instruction.

(f) *Damage to Government aircraft.* Whenever damage to Government aircraft is reported, particularly when the cost of repair exceeds the contractor's share of loss provisions, the contracting officer shall make a proper liability determination. For most situations, determining whether an incident is an accident or mishap or a workmanship error can be made based on intent of the employee(s) involved. Although each incident involving damage should be evaluated on its own merits, use the following general rules and examples when determining if an incident constitutes an accident or mishap (damage normally covered under the clause at 252.228-7001) or a workmanship error (damage not normally covered under the clause at 252.228-7001).

(1) An accident or mishap is the result of a task, operation, or action that was not originally planned or intended. For example, a mechanic was pushing a stand next to the aircraft and scratches the inlet coating. The intent of the task was to move the stand, not to scratch the coating. This would be considered accident or mishap damage to the aircraft, and a contractor should expect to be reimbursed under the clause at 252.228-7001 (minus the appropriate contractor share of loss).

(2)(i) A workmanship error consists of damage that is the result of an incorrectly performed skill-based task, operation, or action that was originally planned or intended, but the end result was not within allowable limits. For example, a mechanic was scraping coating off an inlet and removed too much material. The intent of the task was to scrape the inlet coating, but too much was removed. This would not be considered aircraft damage reimbursed under the clause at 252.228-7001.

(ii) Missing a step in a procedure or checklist item is not considered a skill-based error and therefore is not considered workmanship error damage.

PGI PART 229 - TAXES

Sec.

PGI 229.1	-GENERAL	PGI	Tax exemption in the United Kingdom.
PGI 229.101	Resolving tax problems.	229.7002

This page intentionally left blank.

PGI 229.1 -GENERAL

PGI 229.101 Resolving tax problems.

(a) For the military departments, the Defense Logistics Agency, and the Defense Contract Management Agency, the members of the DFARS Tax Committee are the designated legal counsel for tax matters within their respective departments/agencies.

(b) Information on fuel excise taxes, including applicability, exemptions, and refunds, is available as follows:

(i) The DLA Energy website at www.desc.dla.mil provides information on Federal, State, and local excise taxes.

(ii) Internal Revenue Service Publications 510 and 378, available on the Internal Revenue Service website at www.irs.gov, provide information on Federal excise taxes.

(c) The contracting officer may direct the contractor to litigate the applicability of a particular tax if—

(i) The contract is either a cost-reimbursement type or a fixed-price type with a tax escalation clause such as FAR 52.229-4; and

(ii) The direction is coordinated with the DoD Tax Policy and Advisory Group through the agency-designated legal counsel.

(d)(i) Tax relief agreements between the United States and foreign governments in Europe that exempt the United States from payment of specific taxes on purchases made for common defense purposes are maintained by the United States European Command (USEUCOM). For further information, contact HQ USEUCOM, ATTN: ECLA, Unit 30400, Box 1000, APO AE 09128; Telephone: DSN 430-8001/7263, Commercial 49-0711-680-8001/7263; facsimile: 49-0711-680-5732.

(ii) Other international treaties may exempt the United States from the payment of specific taxes. The Department of State publishes a list of treaties on its website at www.state.gov.

(iii) Tax relief also may be available in countries that have not signed tax relief agreements. The potential for such relief should be explored in accordance with paragraph (d)(iv) of this section.

(iv) DoD Directive 5100.64, DoD Foreign Tax Relief Program, defines DoD tax relief policy and requires designation of a military commander as the single point of contact for investigation and resolution of specific matters related to the foreign tax relief program within the country for which the commander is designated. Those military commanders are the same as the ones designated under DoD Directive 5525.1, Status of Forces Policy and Information, and specified in Appendix C of Army Regulation 27-50/SECNAVINST 5820.4G, Status of Forces Policies, Procedures, and Information. Appendix C of Army Regulation 27-50/SECNAVINST 5820.4G is available at http://www.army.mil/usapa/epubs/xml_pubs/r27_50/main.xml#appc.

(v) Also see PGI 229.70 for special procedures for obtaining tax relief and duty-free import privileges when conducting U.S. Government acquisitions in certain foreign countries.

PGI 229.170 Reporting of foreign taxation on U.S. assistance programs.

PGI 229.170-3 Reports.

(1) Upon receipt of a notification under the clause at DFARS [252.229-7011](#), that a foreign tax has been imposed, submit the following information to the applicable office identified in paragraph (2) of this subsection.

(i) Contractor name.

(ii) Contract number.

(iii) Contractor point of contact (Name, phone number, FAX number, and e-mail address).

(iv) Amount of foreign taxes assessed by each foreign government.

(v) Amount of any foreign taxes reimbursed by each foreign government.

(2) Submit the information required by paragraph (1) of this subsection to—

(i) For Army contracts:

Commander, U.S. Army Security Assistance Command
ATTN:AMSAC-SR
5701 21st Street
Fort Belvoir, VA 22060-5940.

(ii) For Navy contracts:

Navy International Programs Office
ATTN: IPO 02C2F
Nebraska Avenue Complex

4255 Mt. Vernon Dr., Suite 17100
Washington, DC 20393-5445.

(iii) For Air Force contracts:

Secretary of the Air Force/International Affairs
ATTN: SAF/IAPC
1080 Air Force, Pentagon
Washington, DC 20330-1080.

(iv) For Marine Corps contracts:

Navy International Programs Office

PGI 229.70—SPECIAL PROCEDURES FOR OVERSEAS CONTRACTS

PGI 229.70 -SPECIAL PROCEDURES FOR OVERSEAS CONTRACTS

(See DFARS subpart [Subpart 229.70 - SPECIAL PROCEDURES FOR OVERSEAS CONTRACTS](#) on page 1)

PGI 229.7000 Scope of subpart.

This subpart prescribes procedures to be used by contracting officers to obtain tax relief and duty-free import privileges when conducting U.S. Government acquisitions in certain foreign countries.

PGI 229.7001 Tax exemption in Spain.

(a) The Joint United States Military Group (JUSMG), Spain Policy Directive 400.4, or subsequent directive, applies to U.S. contracting offices acquiring supplies or services in Spain when the introduction of material or equipment into Spain is required for contract performance.

(b) Upon award of a contract with a Direct Contractor, as defined in the clause at DFARS [252.229-7004](#), the contracting officer will notify JUSMG-MAAG Madrid, Spain, and HQ 16AF/LGTT and will forward three copies of the contract to JUSMG-MAAG, Spain.

(c) If copies of the contract are not available and duty-free import of equipment or materials is urgent, the contracting officer will send JUSMG-MAAG three copies of the Letter of Intent or a similar document indicating the pending award. In these cases, authorization for duty-free import will be issued by the Government of Spain. Upon formal award, the contracting officer will forward three copies of the completed contract to JUSMG-MAAG, Spain.

(d) The contracting officer will notify JUSMG-MAAG, Spain, and HQ 16AF/LGTT of ports-of-entry and identify the customs agents who will clear property on their behalf. Additional documents required for port-of-entry and customs clearance can be obtained by contacting HQ 16AF/LGTT. This information will be passed to the Secretaria General Tecnica del Ministerio de Hacienda (Technical General Secretariat of the Ministry of Finance). A list of customs agents may be obtained from the 600 ABG, APO AE 09646.

PGI 229.7002 Tax exemption in the United Kingdom.

This section contains procedures to be followed in securing relief from the British value added tax and import duties.

PGI 229.7002-1 Value added tax.

(a) U.S. Government purchases qualifying for tax relief are equipment, materials, facilities, and services for the common defense effort and for foreign aid programs.

(b) To facilitate the resolution of issues concerning specific waivers of import duty or tax exemption for U.S. Government purchases (see PGI [229.7002-3](#)), contracting offices shall provide the name and activity address of personnel who have been granted warranted contracting authority to Her Majesty's (HM) Customs and Excise at the following address: HM Customs and Excise, International Customs Division G, Branch 4, Adelaide House, London Bridge, London EC4R 9DB.

PGI 229.7002-2 Import duty.

No import duty shall be paid by the United States and contract prices shall be exclusive of duty, except when the administrative cost compared to the low dollar value of a contract makes it impracticable to obtain relief from contract import duty. In this instance, the contracting officer shall document the contract file with a statement that—

- (a) The administrative burden of securing tax relief under the contract was out of proportion to the tax relief involved;
- (b) It is impracticable to secure tax relief;
- (c) Tax relief is therefore not being secured; and
- (d) The acquisition does not involve the expenditure of any funds to establish a permanent military installation.

PGI 229.7002-3 Value added tax or import duty problem resolution.

In the event a value added tax or import duty problem cannot be resolved at the contracting officer's level, refer the issue to HQ Third Air Force, Staff Judge Advocate, Unit 4840, Box 45, APO AE 09459. Direct contact with HM Customs and Excise in London is prohibited.

PGI 229.7002-4 Information required by HM Customs and Excise.

- (a) *School bus contracts.* Provide one copy of the contract and all modifications to HM Customs and Excise.

(b) *Road fuel contracts*. For contracts that involve an application for relief from duty on the road fuel used in performance of the contract, provide—

(1) To HM Customs and Excise—

- (i) Contract number;
- (ii) Name and address of contractor;
- (iii) Type of work (e.g., laundry, transportation);
- (iv) Area of work; and
- (v) Period of performance.

(2) To the regional office of HM Customs and Excise to which the contractor applied for relief from the duty on road fuel—one copy of the contract.

(c) *Other contracts awarded to United Kingdom firms*. Provide information when requested by HM Customs and Excise.

PGI 230.2 -CAS PROGRAM REQUIREMENTS

PGI 230.201 Contract Requirements.

PGI 230.201-5 Waiver.

(a)(1)(i) Unless otherwise authorized by the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP), the military departments must submit each CAS waiver request to DPCAP (Price, Cost and Finance) for review at least 14 days before granting the waiver. Submit waiver requests via email at osd.pentagon.ousd-a-s.mbx.dpc-pcf@mail.mil.

(ii) DoD contracting activities that are not within a military department must submit CAS waiver requests that meet the conditions in FAR 30.201-5(b) to the Principal Director, (DPCAP) for approval at least 30 days before the anticipated contract award date.

(e) The annual report of exceptional case CAS waivers shall include the following:

Title: Waiver of CAS Requirements

- (1) Contract number, including modification number, if applicable, and program name.
- (2) Contractor name.
- (3) Contracting activity.
- (4) Total dollar amount waived.
- (5) Brief description of why the item(s) could not be obtained without a waiver.
- (6) Brief description of the specific steps taken to ensure price reasonableness.
- (7) Brief description of the demonstrated benefits of granting the waiver.

This page intentionally left blank.

PGI PART 231 - CONTRACT COST PRINCIPLES AND PROCEDURES

<i>Sec.</i>			
PGI 231.2	-CONTRACTS WITH COMMERCIAL ORGANIZATIONS	PGI	External restructuring costs.
PGI 231.205	Selected costs..	231.205-70	

This page intentionally left blank.

PGI 231.2 -CONTRACTS WITH COMMERCIAL ORGANIZATIONS

PGI 231.205 Selected costs..

PGI 231.205-70 External restructuring costs.

(d) *Procedures and ACO responsibilities.* The cognizant ACO shall—

(i) Promptly execute a novation agreement, if one is required, in accordance with FAR Subpart 42.12 and DFARS Subpart 242.12 and include the provision at DFARS [242.1204\(i\)](#).

(ii) Direct the contractor to segregate restructuring costs and to suspend these amounts from any billings, final contract price settlements, and overhead settlements until the determination in DFARS [231.205-70\(c\)\(4\)\(i\)](#) is obtained.

(iii) Require the contractor to submit an overall plan of restructuring activities and an adequately supported proposal for planned restructuring projects. The proposal must include a breakout by year by cost element, showing the present value of projected restructuring costs and projected restructuring savings.

(iv) Notify major buying activities of contractor restructuring actions and inform them about any potential monetary impacts on major weapons programs, when known.

(v) Upon receipt of the contractor's proposal, as soon as practicable, adjust forward pricing rates to reflect the impact of projected restructuring savings. If restructuring costs are included in forward pricing rates prior to execution of an advance agreement in accordance with paragraph (d)(viii) of this subsection, the contracting officer shall include a repricing clause in each fixed-price action that is priced based on the rates. The repricing clause must provide for a downward price adjustment to remove restructuring costs if the determination required by DFARS [231.205-70\(c\)\(4\)\(i\)](#) is not obtained.

(vi) Upon receipt of the contractor's proposal, immediately request an audit review of the contractor's proposal.

(vii) Upon receipt of the audit report, determine on a present value basis if—

(A) The audited projected restructuring savings for DoD will exceed the restructuring costs allowed by a factor of at least two to one, as required by DFARS [231.205-70\(c\)\(4\)\(i\)\(A\)](#); or

(B) If the audited projected restructuring savings will exceed the restructuring costs allowed in a case where the business combination will result in the preservation of a critical capability that otherwise might be lost to DoD, as required by DFARS [231.205-70\(c\)\(4\)\(i\)\(B\)](#).

(viii) Negotiate an advance agreement with the contractor setting forth, at a minimum, a cumulative cost ceiling for restructuring projects and, when necessary, a cost amortization schedule. The costs may not exceed the amount of projected restructuring savings on a present value basis. The advance agreement shall not be executed until the determination required by DFARS [231.205-70\(c\)\(4\)\(i\)](#) is obtained.

(ix)(A) Submit a recommendation for determination to—

(1) If DFARS 231.205-70(c)(4)(ii)(A) applies, submit the recommendation to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Price, Cost and Finance) via email at osd.pentagon.ousd-a-s.mbx.dpc-pcf@mail.mil.

(2) If DFARS 231.205-70(c)(4)(ii)(B) applies, submit the recommendation to the Director of the Defense Contract Management Agency, ATTN: HQ DCMA-OCB.

(B) Include the information described in DFARS [231.205-70\(e\)](#).

(x) Consult with the Principal Director, Defense Pricing, Contracting, and Acquisition Policy, or with the Director of the Defense Contract Management Agency, as appropriate, when DFARS [231.205-70\(c\)\(4\)\(i\)\(B\)](#) applies.

This page intentionally left blank.

PGI 232.070 Responsibilities.

(c) The Under or Assistant Secretary, or other designated official, responsible for the comptroller function within the department or agency is the focal point for financing matters at the department/agency headquarters. Departments and agencies may establish contract financing offices at operational levels.

(i) Department/agency contract financing offices are:

(A) Army: Office of the Assistant Secretary of the Army (Financial Management).

(B) Navy: Office of the Assistant Secretary of the Navy (Financial Management and Comptroller), Office of Financial Operations.

(C) Air Force: Air Force Contract Financing Office (SAF/FMPB).

(D) Defense agencies: Office of the agency comptroller.

(ii) Contract financing offices should participate in—

(A) Developing regulations for contract financing;

(B) Developing contract provisions for contract financing; and

(C) Resolving specific cases that involve unusual contract financing requirements.

PGI 232.4 -ADVANCE PAYMENTS FOR OTHER THAN COMMERCIAL ACQUISITIONS**PGI 232.409 RESERVED****PGI 232.409-1 Recommendation for approval.**

To ensure uniform application of this subpart (see FAR 32.402(e)(1)), the departmental/agency contract financing office shall prepare the documents required by FAR 32.409-1(e) and (f).

PGI 232.410 Findings, determination, and authorization.

If an advance payment procedure is used without a special bank account, replace paragraph (a)(4) of the Findings, Determination, and Authorization for Advance Payments at FAR 32.410 with:

“(4) The proposed advance payment clause contains appropriate provisions as security for advance payments. These provisions include a requirement that the outstanding advance payments will be liquidated from cost reimbursements as they become due the contractor. This security is considered adequate to protect the interest of the Government.”

This page intentionally left blank.

PGI 232.5 -PROGRESS PAYMENTS BASED ON COSTS

PGI 232.501 General.

PGI 232.501-2 Unusual progress payments.

Unusual progress payment arrangements require the advance approval of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP). Contracting officers must submit all unusual progress payment requests to the department or agency contract financing office for approval and submission to OUSD(A&S) DPCAP.

This page intentionally left blank.

PGI 232.6 -CONTRACT DEBTS

PGI 232.603 Debt determination.

Upon transfer of a case to the contract financing office, the contracting officer shall close the debt record by reference to the date of transfer.

PGI 232.604 Demand for payment.

(1) For contract debts resulting from other than a termination for default, the office that first determines an amount due, whether it be the contract administration office, the contracting office, the disbursing office, or the selling office/agency, shall

- (i) Make a demand for payment; and
- (ii) Provide a copy of the demand to the payment office cited in the contract.

(2) For contract debts resulting from a termination for default, the contracting officer shall make the demand and direct the debtor to make such payment to the designated office.

PGI 232.670 Transfer of responsibility for debt collection.

Disbursing officers will transfer responsibility for debt collection to department/agency contract financing offices in accordance with comptroller regulations. Notwithstanding the transfer of the debt collection responsibility, contracting officers shall continue to provide assistance as requested by the debt collection office.

PGI 232.671 Bankruptcy reporting.

(1) For those debts covered by this subpart, the department or agency that awarded the contract shall furnish the Department of Justice any claims in bankruptcy, insolvency, or in proceedings for reorganization or arrangement. Furnish claims that—

- (i) Have been transferred to a contract financing office;
- (ii) Are on the way to a contract financing office at the inception of bankruptcy or insolvency proceedings;
- (iii) Are pending and not forwarded to a contract financing office at the inception of bankruptcy or insolvency proceedings; and
- (iv) Are the result of bankruptcy or insolvency proceedings.

(2) The contract financing office or other office designated within a department or agency will furnish proof of claims to the Department of Justice.

(3) The office of origin of a debt will provide, as soon as possible, information on a bankruptcy, insolvency, reorganization, or rearrangement to the office designated within a department/agency to receive this information.

(4) The information and proof of claim requirements in paragraphs (2) and (3) of this section do not apply to debts of less than \$600.

This page intentionally left blank.

PGI 232.10 -PERFORMANCE-BASED PAYMENTS

PGI 232.1001 Policy.

(a) *Contracting officer action.* Performance-based payments are not practical for use on all fixed-price contracts and require considerable effort between the contractor and Government to identify the appropriate performance-based payment events and establish the proper completion criteria for those events. Additionally, FAR 32.1003 prohibits contracts from having both progress payments and performance-based payment financing on a contract at the same time. Additional information and instruction on performance-based payments are provided in the DoD Performance-based Payments Guide on the Defense Pricing, Contracting, and Acquisition Policy (Price, Cost and Finance) website under Pricing Topics, Performance Based Payment. See [https://www.acq.osd.mil/asda/dpc/pcf/docs/resources-training/Performance_Based_Payment_\(PBP\)_Guide.pdf](https://www.acq.osd.mil/asda/dpc/pcf/docs/resources-training/Performance_Based_Payment_(PBP)_Guide.pdf).

This page intentionally left blank.

PGI 232.70 -ELECTRONIC SUBMISSION AND PROCESSING OF PAYMENT REQUESTS AND RECEIVING REPORTS

PGI 232.7004 Contract clause instructions.

(b)(1) The clause [252.232-7006](#), Wide Area WorkFlow Payment Instructions, shall be located in the contract administration section of the contract (e.g., Section G).

(2) Complete paragraph (f)(1)(ii)(A) of the clause, if applicable, by inserting one of the following document types appropriate to the work being performed:

- (i) Invoice and Receiving Report.
- (ii) Navy Shipbuilding Invoice—Fixed Price.
- (iii) Reparables Receiving Report (for repair services).
- (iv) Energy Invoice and Energy Receiving Report.

(3) Complete paragraph (f)(1)(ii)(B) of the clause, if applicable, by inserting one of the following document types appropriate to the work being performed:

- (i) Invoice and Receiving Report.
- (ii) Invoice 2-in-1 (Services only).
- (iii) Construction and Facilities Management Invoice.
- (iv) Navy Construction/Facilities Management Invoice.
- (v) Telecom Invoice (Contractual).

(4) Do not use the Combo selection for a receiving report.

- (i) Inspection location: (select either “Source,” “Destination,” or “Other”).
- (ii) Acceptance location: (select either “Source,” “Destination,” or “Other”).

(5) Complete paragraph (f)(3) of the clause before contract award. Selection of applicable DoDAACs is dependent on the document type and the entitlement system used by the DoD Component.

(i) To determine applicable DoDAACs, use the guidance for WAWF payment instructions at <https://piee.eb.mil/>.

(ii) If a DoDAAC field is not listed in paragraph (f)(3) Routing Data Table, select “Other DoDAAC(s)” and list the DoDAAC field name(s) as they appear in the WAWF system and applicable DoDAAC(s).

(iii) When multiple “Ship to” and inspection/acceptance locations” (i.e. DoDAACs) exist, enter “See schedule.” The corresponding schedule in the contract/order must cite all applicable DoDAACs.

(iv) Validate DoDAACs using the following resources:

(A) For inspector, acceptor and local processing office roles, use <https://piee.eb.mil/> and click on the “Active DoDAACs & Roles link” in the “Help” section on the home page to validate active DoDAACs and user roles in WAWF.

(B) For all other DoDAACs, use <https://www.daas.dla.mil/daasing/>.

(6) Complete paragraph (g) by entering the WAWF point of contact information for the contracting activity, if applicable. List parties to be notified of document submission.

This page intentionally left blank.

PGI 232.71 -LEVIES ON CONTRACT PAYMENTS

PGI 232.7101 Policy and procedures.

Background. The Internal Revenue Service (IRS) is authorized to collect overdue taxes through a continuous levy up to 100 percent of the debt on certain vendor contract payments disbursed by the Defense Finance and Accounting Service. The levy is continuous until the overdue taxes are paid in full, or other arrangements are made to satisfy the debt. Contractors are required to promptly notify the procuring contracting officer when a tax levy that may result in an inability to perform the contract is imposed, so that the contracting officer and the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (DPCAP), can take appropriate action to mitigate any possible adverse effect on national security.

(b) *Procuring contracting officer procedures for reviewing the contractor's rationale and submitting the required documentation.*

(i) When the procuring contracting officer receives notification from the contractor that the tax levy may result in an inability to perform the contract, the procuring contracting officer shall promptly review the contractor's assessment and either agree or disagree that the levy may result in an inability to perform. The procuring contracting officer shall alert the administrative contracting officer and the cognizant contract auditor when a notice of levy has been received, and shall obtain any necessary assistance from the administrative contracting officer or contract auditor when performing this review.

(ii) If the procuring contracting officer does not agree with the contractor's assessment, the procuring contracting officer shall notify the contractor of this determination and no further action will be taken.

(iii) If the procuring contracting officer agrees with the contractor's assessment that the levy may result in an inability to perform the contract, the procuring contracting officer shall document, in writing, whether the inability to perform

(A) Adversely affects national security; and/or

(B) Will result in significant additional costs to the Government (e.g., cost of re-procurement, loss of contract financing payments when the product produced to date is not salvageable).

(iv) If the procuring contracting officer believes that the levy will impact national security and/or result in significant additional costs to DoD, the procuring contracting officer shall, in accordance with agency procedures, promptly notify the Principal Director, DPCAP, via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil. The notification to the Principal Director, DPCAP, shall include—

(A) The rationale supporting the recommendation that the levy may result in an inability to perform the contract;

(B) A description of the adverse effect on national security, if applicable; and

(C) A description and estimate of the additional costs to the Government, if applicable. Since prompt notification to the Principal Director, DPCAP, is essential, the procuring contracting officer should not delay the notification while trying to achieve more precise data.

(c) *Director, DPCAP, procedures.* The Principal Director, DPCAP, will promptly evaluate the procuring contracting officer's notification package.

(i) If the Director, DPCAP, disagrees with the recommendation of the procuring contracting officer, the Principal Director, DPCAP, will notify the procuring contracting officer through the same agency channels that were used for submission of the notification.

(ii) If the Principal Director, DPCAP, agrees with the recommendation of the procuring contracting officer—

(A) When there is an adverse effect on national security, the Principal Director, DPCAP, will notify the payment office, the IRS, and the procuring contracting officer that the total amount of the levy should be promptly returned to the contractor; or

(B) When there is not an adverse effect on national security, but the levy will result in significant additional costs to DoD, the Director, DPAP, will promptly notify the procuring contracting officer and the IRS. The Principal Director, DPCAP, notification to the IRS will—

(1) State that the procuring contracting officer has notified the contractor and has recommended that the contractor contact the IRS to resolve the situation;

(2) Request that the IRS expedite resolution of the situation with the contractor; and

(3) Include an estimate of additional costs to DoD that will result if the contractor is unable to perform on the contract.

(d) *Procuring contracting officer procedures for notifying the contractor of the decision of the Principal Director, DPCAP.* The procuring contracting officer shall promptly notify the contractor, in writing, of the decision made by the Principal Director, DPCAP, including the actions to be taken (if any).

PGI 233.1 -PROTESTS

PGI 233.170 Briefing requirement for protested acquisitions valued at \$1 billion or more.

In the event of a protest of a competitively awarded Major Defense Acquisition Program or of an acquisition of services valued at \$1 billion or more, the agency concerned shall provide a briefing to the Principal Director, Defense Pricing, Contracting, and Acquisition Policy, within 10 days of the filing of the protest. The briefing must outline—

- (a) The basis of the protest;
- (b) The agency's position; and
- (c) Any other information the agency deems relevant to the protest.

PGI 233.171 Reporting requirement for protests of solicitations or awards.

The Protest Tracker on the Procurement Integrated Enterprise Environment (PIEE) (accessible at <https://wawf.eb.mil/>) is the bid protest data repository required by section 822(c) of the National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232). When protests involving the same contract or proposed award, valued at any amount, have been filed at both the Government Accountability Office and the United States Court of Federal Claims (COFC), the contracting officer shall report the protest information required in the Protest Tracker no later than 10 days after the outcome of the protest at the COFC. Instructions on reporting protest information in the Protest Tracker are available on the PIEE webpage.

PGI 234.005 General requirements.**PGI 234.005-1 Competition.**

Upon request by Defense Pricing, Contracting, and Acquisition Policy (Contract Policy), contracting activities shall provide the benefits derived from the use of contract line items or contract options for the development and demonstration or initial production of technology developed under the contract, or the delivery of initial or additional items in accordance with DFARS [235.016](#) and [234.005-1](#).

PGI 234.2 -EARNED VALUE MANAGEMENT SYSTEM**PGI 234.201 Policy.**

(1)(iii) When the program manager decides to implement earned value management on contracts and subcontracts valued at less than \$20,000,000, a cost-benefit analysis shall be conducted and the results documented in the contract file. Considerations for determining the effectiveness of applying earned value management in these situations and guidance for tailoring reporting can be found in—

(1) The [Integrated Program Management Data Analysis Report \(IPMDAR\) Implementation & Tailoring Guide](#) ; and

(2) [The DoD Earned Value Management Implementation Guide](#) .

(iv) In extraordinary cases where cost/schedule visibility is required and cannot be obtained using other means, the program manager shall request a waiver for individual contracts from the Milestone Decision Authority. In these cases, the program manager will conduct a business case analysis that includes rationale as to why a cost or fixed-price incentive contract was not an appropriate contracting vehicle. Considerations for determining the effectiveness of applying earned value management in these situations and guidance for tailoring reporting can be found in—

(1) [DoD Instruction 5000.85, paragraph 3C.3.c.\(3\)](#) ; and

(2) [The DoD Earned Value Management Implementation Guide](#) .

(2) The procuring contracting officer shall obtain the assistance of the administrative contracting officer in determining the adequacy of an earned value management system (EVMS) plan that an offeror proposes for compliance with ANSI/EIA-748, under the provision at DFARS 252.234-7001, Notice of Earned Value Management System. The Government will review and approve the offeror's EVMS plan before contract award. Instructions for performing EVMS plan reviews can be found at <https://www.dcmamil/HQ/EVMS/>.

(4) Additional guidance on earned value management can be found in—

(A) The Guidebook for Earned Value Management System (EVMS) System-Level Surveillance at <https://www.dcmamil/HQ/EVMS/>;

(B) [The Guidebook for Earned Value Management System - Program Analysis](#) ; and

(C) [The Program Managers' Guide to the Integrated Baseline Review Process \(the IBR Guide\)](#) .

(7) *Disposition of findings.*

(ii) *Initial determination.*

(B)(1) Within 30 days of receiving the report, if the contracting officer makes a determination that there is a material weakness, the contracting officer should provide an initial determination of material weaknesses and a copy of the report to the contractor and require the contractor to submit a written response.

(3) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(iii) *Final determination.*

(B)(1) *Monitoring contractors' corrective action.* The contracting officer and cognizant functional specialist or auditor shall monitor the contractor's progress in correcting material weaknesses and deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the weaknesses and deficiencies. Actions the contracting officer may take include: withdraw or withhold approval of the system; bringing the issue to the attention of higher level management <http://www.acq.osd.mil/dpap/dars/dfars/html/current/252242.htm#252.242-7005> , as applicable; recommending non-award of potential contracts; and for material weaknesses, implementing or increasing the withholding in accordance with [252.242-7005](#), Contractor Business Systems.

(2) *Correction of material weaknesses.*

(i) When the contractor notifies the contracting officer that the contractor has corrected the material weaknesses, the contracting officer shall request the cognizant functional specialist or auditor to review the correction to determine if the weaknesses and deficiencies have been resolved.

(ii) The contracting officer shall determine if the contractor has corrected the weaknesses and deficiencies.

(iii) If the contracting officer determines the contractor has corrected the weaknesses and deficiencies, send the contracting officer's notification to the cognizant functional specialist; auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor as applicable.

PGI 234.70 -ACQUISITION OF MAJOR WEAPON SYSTEMS AS COMMERCIAL PRODUCTS

PGI 234.7002 Policy.

(a) Major weapon systems.

(1)(ii) Departments and agencies shall obtain a determination by the Secretary of Defense and shall notify the congressional defense committees before acquiring a major weapon system as a commercial product.

(e) Relevant information to determine price reasonableness.

(5) The Department of Defense Guidebook for Acquiring Commercial Items, Part B, provides additional guidance on the use of value analysis. See “Value Analysis” within the section on “Price Analysis Techniques” at https://www.acq.osd.mil/asda/dpc/cp/policy/docs/guidebook/Guidebook_Part_B_Commercial_Item_Pricing_20180126.pdf.

PGI 236.273	Construction in foreign countries.	236.606-70	

This page intentionally left blank.

PGI 236.2 -SPECIAL ASPECTS OF CONTRACTING FOR CONSTRUCTION

PGI 236.203 Government estimate of construction costs.

(1) Designate the Government estimate as “For Official Use Only,” unless the information is classified. If it is, handle the estimate in accordance with security regulations.

(2) For sealed bid acquisitions—

(i) File a sealed copy of the Government estimate with the bids. (In the case of two-step acquisitions, this is done in the second step.)

(ii) After the bids are read and recorded, remove the “For Official Use Only” designation and read and record the estimate as if it were a bid, in the same detail as the bids.

PGI 236.207 Pricing Fixed-Price Construction Contracts.

(a)(70) *Definition*: “lump sum” means a single payment of money, as opposed to a series of payments made over time.

(i) An example of a line item with lump sum pricing in accordance with DFARS 204.71 is as follows:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Repave runway 4 at Joint Base Andrews Firm Fixed Price PSC: Z1BD ACRN: AA	1	Job	\$1,501,866.08	\$1,501,866.08

Note that payment would occur upon completion and acceptance of the entire effort. Progress payments based on estimates of the percentage of completion (see FAR 52.232-5—Payments Under Fixed-Price Construction Contracts) could occur prior to that point.

(ii) An example of a line item with unit pricing in accordance with DFARS 204.71 is as follows:

ITEM NO.	SUPPLIES/SERVICE	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Repave runway 4 at Joint Base Andrews Firm Fixed Price PSC: Z1BD ACRN: AA	525,128	Square Foot	\$2.86	\$1,501,866.08

Note that this allows the contractor to invoice for completed quantities of work, in accordance with FAR 32.102 (d), as those are accepted. Progress payments based on estimates of the percentage of completion (see FAR 52.232-5—Payments Under Fixed-Price Construction Contracts) could also occur prior to that point.

PGI 236.211 Special situations.

(b)(2)(A) The contracting officer shall report data on the timelines for definitization of all requests for equitable adjustment (REAs) for change orders received from contractors under construction contracts. The contracting officer shall report this data using the PALT/Protest/REA Tracker module in the Procurement Integrated Enterprise Environment at <https://piee.eb.mil> within 10 business days of definitization. Data to be reported includes—

- (1) The contract number against which the REA was submitted;
- (2) The contractor that submitted the REA;
- (3) Date of receipt of the REA; and
- (4) Date of definitization of the REA and contract modification number.

(B) Individually reported records will be aggregated by the PALT/Protest/REA Tracker module. The PALT/Protest/REA Tracker module will aggregate the timelines for the definitization of REAs for change orders under construction contracts. Contracting officers shall attach the aggregate results for the military department or defense agency to solicitations

in accordance with FAR 36.211. See PGI [PGI 205.205 Special situations](#).(h) for further instructions regarding the solicitation notice.

PGI 236.213 Special procedures for sealed bidding in construction contracting.

For additive or deductive items—

- (1) Use a bid schedule with—
 - (i) A first or base bid item covering the work generally as specified; and
 - (ii) A list of priorities that contains one or more additive or deductive bid items that progressively add or omit specified features of the work in a stated order of priority. (Normally, do not mix additive and deductive bid items in the same solicitation.)
- (2) Before opening the bids, record in the contract file the amount of funds available for the project.
- (3) Determine the low bidder and the items to be awarded in accordance with the procedures in the clause at [252.236-7007](#), Additive or Deductive Items.

PGI 236.273 Construction in foreign countries.

- (b) When a technical working agreement with a foreign government is required for a construction contract—
 - (i) Consider inviting the Army Office of the Chief of Engineers, or the Naval Facilities Engineering Command, to participate in the negotiations.
 - (ii) The agreement should, as feasible and where not otherwise provided for in other agreements, cover all elements necessary for the construction that are required by laws, regulations, and customs of the United States and the foreign government, including—
 - (A) Acquisition of all necessary rights;
 - (B) Expeditious, duty-free importation of labor, material, and equipment;
 - (C) Payment of taxes applicable to contractors, personnel, materials, and equipment;
 - (D) Applicability of workers' compensation and other labor laws to citizens of the United States, the host country, and other countries;
 - (E) Provision of utility services;
 - (F) Disposition of surplus materials and equipment;
 - (G) Handling of claims and litigation; and
 - (H) Resolution of any other foreseeable problems that can be appropriately included in the agreement.

PGI 236.6 -ARCHITECT-ENGINEER SERVICES

PGI 236.602 Selection of firms for architect-engineer contracts.

PGI 236.602-1 Selection criteria.

(a) The evaluation criteria should be project specific. Use the information in the DD Form 1391, FY__ Military Construction Project Data, when available, and other pertinent project data in preparing the evaluation criteria.

(4) Use performance evaluation data from the Contractor Performance Assessment Report System (CPARS).

(6) The primary factor in architect-engineer contractor selection is the determination of the most highly qualified firm. Also consider secondary factors such as geographic proximity and equitable distribution of work, but do not attribute greater significance to the secondary factors than to qualifications and past performance. Do not reject the overall most highly qualified firm solely in the interest of equitable distribution of contracts.

(A) Consider the volume of work awarded by DoD during the previous 12 months. In considering equitable distribution of work among architect-engineer firms, include small business concerns; historically black colleges and universities and minority institutions; firms that have not had prior DoD contracts; and small disadvantaged business concerns and joint ventures with small disadvantaged business participants if the North American Industry Classification System (NAICS) Industry Subsector of the acquisition is one in which use of a price evaluation adjustment is currently authorized (see FAR 19.201(b)).

(1) Use data extracted from the Federal Procurement Data System (FPDS).

(2) Do not consider awards to overseas offices for projects outside the United States, its territories and possessions. Do not consider awards to a subsidiary if the subsidiary is not normally subject to management decisions, bookkeeping, and policies of a holding or parent company or an incorporated subsidiary that operates under a firm name different from the parent company. This allows greater competition.

(B) Consider as appropriate superior performance evaluations on recently completed DoD contracts.

(C) Consider the extent to which potential contractors identify and commit to small business, to small disadvantaged business (SDB) if the NAICS Industry Subsector of the subcontracted effort is one in which use of an evaluation factor or subfactor for participation of SDB concerns is currently authorized (see FAR 19.201(b)), and to historically black college or university and minority institution performance as subcontractors.

PGI 236.606-70 Statutory fee limitation.

This fee limitation applies only to Departments of the Army, Navy, and Air Force requirements (*e.g.*, if the Department of the Army awards a contract for the Defense Logistics Agency or the Department of the Interior, this fee limitation does not apply). See [FAR 15.404-4\(c\)\(4\)\(i\)\(B\)](#) for the fee limitation that applies to other DoD components and civilian agencies.

PGI 237.1 -SERVICE CONTRACTS-GENERAL

PGI 237.102 Policy.

PGI 237.102-70 Prohibition on contracting for firefighting or security-guard functions.

(c)(i) To ensure that the personnel limitations in DFARS [237.102-70](#)(c)(1)(iv) are not exceeded, there is an office of primary responsibility (OPR) within each department or agency that is responsible for managing the total number of security-guard personnel on contract for the department or agency.

(ii) Before finalizing a contract action that affects the number of security-guard personnel on contract, the contracting officer shall request, from the requiring activity, evidence of the OPR's approval for the contract action. This requirement also applies to renewal or exercise of options for the same number of security-guard personnel, to ensure compliance with the statutory limitations/reductions specified for each fiscal year.

(iii) If the evidence of approval is not provided by the requiring activity, the contracting officer shall directly contact the applicable OPR for approval before finalizing the contract action. OPRs are as follows:

(A) U.S. Army:

HQ Department of the Army
Office of the Provost Marshal General
2800 Army Pentagon
Washington, DC 20310
Phone: 703-695-4210 or 703-614-2597.

(B) U.S. Navy:

Commander, Navy Installations
Command (CNIC) N3
2715 Mitscher Road, Suite 300
Anacostia Annex
Washington, DC 20373
Phone: 202-409-4053.

(C) U.S. Marine Corps:

HQ U.S. Marine Corps
Assistant Deputy Commandant, Plans, Policy, &
Operations (Security)
3000 Marine Corps Pentagon
Washington, DC 20350
Phone: 571-201-3633.

(D) U.S. Air Force:

HQ Air Force
Directorate of Security Forces
Programs & Resources Division (A7SX)
1340 AF Pentagon
Washington, DC 20330
Phone: 703-588-0027 or 703-588-0012.

(E) Pentagon Force Protection Agency:

Pentagon Force Protection Agency
9000 Defense Pentagon
Washington, DC 20301
Phone: 703-693-3685.

PGI 237.102-71 Limitation on service contracts for military flight simulators.

(1) To process a request for waiver, the contracting officer shall submit the request and appropriate documentation relating to the requirements of DFARS [237.102-71](#)(b) to the Office of the Principal Director, Defense Pricing, Contracting, and Acquisition Policy (Contract Policy) (DPCAP/CP) via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil.

(2) The DPCAP/CP action officer, will process the request through the Office of the Secretary of Defense and will forward the appropriate documentation to the congressional defense committees. The contracting officer shall not award a contract until notified by the DPCAP/CPIC action officer that the waiver has been approved, the appropriate documentation has been transmitted to the congressional defense committees, and the required 30 days have passed.

PGI 237.102-73 Prohibition on contracts for services of senior mentors.

DoD policies on senior mentors are set forth in (1) Secretary of Defense memorandum, subject: Policy on Senior Mentors (April 1, 2010) ([see here](#)) and (2) Deputy Secretary of Defense memorandum, subject: Implementation Guidance on Senior Mentors Policy (July 8, 2010) ([see here](#)).

PGI 237.102-74 Taxonomy for the acquisition of services and supplies & equipment.

PGI 237.102-75 Defense Acquisition Guidebook.

The Defense Acquisition Guidebook, Chapter 10, Acquisition of Services, is available via the internet at <https://www.dau.mil/tools/dag>. Chapter 10 provides acquisition teams with a step-by-step guide explaining the process of acquiring services.

PGI 237.102-76 Reserved.

PGI 237.102-77 Acquisition requirements roadmap tool.

The Acquisition Requirements Roadmap Tool (ARRT) is a tool that enables requiring activities to develop and organize performance requirements into draft versions of the performance work statement, the quality assurance surveillance plan, and the performance requirements summary. ARRT provides a standard template for these documents and some default text that can be modified to reflect a particular requirement. This tool should be used to prepare these documents for all performance-based acquisitions for services. ARRT is available for download at https://www.dau.edu/tools/Documents/SAM/resources/ARRT_Home.html.

PGI 237.102-78 Market research report guide for improving the tradecraft in services acquisition.

- (2) DoDI 7600.6, Audit of Nonappropriated Fund Instrumentalities and Related Activities - Provides guidance to audit organizations for audits of nonappropriated fund organizations.
- (3) DoD 7600.7-M, DoD Audit Manual - Provides policy and guidance to DoD audit organizations for the monitoring of audit services provided by non-Federal auditors.

This page intentionally left blank.

PGI 237.5 -MANAGEMENTOVERSIGHT OF SERVICE CONTRACTS

PGI 237.503 Agency-head responsibilities.

(c) To comply with the certification requirement at DFARS [237.503](#), complete a certification substantially the same as the following and include a copy in the contract file:

Certification of Nonpersonal Services

This certification and enclosed worksheet is designed to ensure that the agency does not award a personal-services contract unless specifically authorized by statute (e.g., 10 U.S.C. 129b, 5 U.S.C. 3109, or 10 U.S.C. 1091). Therefore, this documentation should be completed in conjunction with the submission of a service-contract requirement to the contracting officer.

A personal services contract is characterized by the employer-employee relationship it creates between the Government and the contractor's personnel. The Government is normally required to obtain its employees by direct hire under competitive appointment procedures required by civil service laws. Obtaining personal services by contract, rather than by direct hire, circumvents those laws unless Congress has specifically authorized acquisition of the services by contract.

An employer-employee relationship under a service contract occurs when the Government exercises relatively continuous supervision and control over contractor personnel performing the contract.

Upon considering the information above and the worksheet below, I certify that this requirement does not include an unauthorized personal services arrangement, either in the way the work statement is written or in the manner in which the resulting contract will be managed and overseen.

Printed Name, Grade, Title, and Date _____

Signature: _____

	YES	NO
Personal Services (The following descriptive elements from FAR 37.104 should be used as a guide to assess whether or not a proposed contract is personal in nature. If the answer to any of the items below is "YES," then additional measures should be taken to ensure the contract is not administered so as to create an employer-employee relationship between the Government and the contractor's personnel and result in an unauthorized personal services contract.)		
1. Contractor personnel are performing on a Government site.		
2. Principal tools and equipment are furnished by the Government.		
3. Services are applied directly to the integral effort of the agency or an organizational subpart in furtherance of assigned function or mission.		
4. Comparable services meeting comparable needs are performed in this agency or similar agencies using civil-service personnel.		
5. The need for the service provided can reasonably be expected to last beyond one year.		
6. The inherent nature of the service, or the manner in which it is to be provided, reasonably requires (directly or indirectly) Government direction or supervision of contractor employees in order to: (a) adequately protect the Government's interest; (b) retain control of the function involved; or (c) retain full personal responsibility for the function supported in a duly authorized Federal officer or employee.		

This page intentionally left blank.

PGI 237.70 -MORTUARYSERVICES

PGI 237.7002 AREA OF PERFORMANCE AND DISTRIBUTION OF CONTRACTS.

- (1) Determine and define the geographical area to be covered by the contract using the following general guidelines:
 - (i) Use political boundaries, streets, or other features as demarcation lines.
 - (ii) The size should be roughly equivalent to the contiguous metropolitan or municipal area enlarged to include the activities served.
 - (iii) If the area of performance best suited to the needs of a particular contract is not large enough to include a carrier terminal commonly used by people within the area, the contract area of performance shall specifically state that it includes the terminal as a pickup or delivery point.
- (2) In addition to normal contract distribution, send three copies of each contract to each activity authorized to use the contract, and two copies to each of the following:
 - (i) HQDA (TAPC-PEC-D), Alexandria, VA 22331.
 - (ii) Commander, Naval Medical Command, Department of the Navy (MED 3141), 23rd and E Streets NW, Washington, DC 20372.
 - (iii) Headquarters, AFMPC-MPCCM.

PGI 239.71 -SECURITY AND PRIVACY FOR COMPUTER SYSTEMS

PGI 239.7102 Policy and responsibilities.

PGI 239.7102-3 Information assurance contractor training and certification.

(1) The designated contracting officer's representative will document the current information assurance certification status of contractor personnel by category and level, in the Defense Eligibility Enrollment Reporting System, as required by DoD Manual 8570.01-M, Information Assurance Workforce Improvement Program.

(2) DoD 8570.01-M, paragraphs C3.2.4.8.1 and C4.2.3.7.1, requires modification of existing contracts to specify contractor training and certification requirements, in accordance with the phased implementation plan in Chapter 9 of DoD 8570.01-M. As with all modifications, any change to contract requirements shall be with appropriate consideration.

This page intentionally left blank.

PGI 239.74 -TELECOMMUNICATIONS SERVICES

PGI 239.7402 Policy.

(c) *Foreign carriers.*

(i) Frequently, foreign carriers are owned by the government of the country in which they operate. The foreign governments often prescribe the methods of doing business.

(ii) In contracts for telecommunications services in foreign countries, describe the rates and practices in as much detail as possible. It is DoD policy not to pay discriminatory rates. DoD will pay a reasonable rate for telecommunications services or the rate charged the military of that country, whichever is less.

(iii) Refer special problems with telecommunications acquisition in foreign countries to higher headquarters for resolution with appropriate State Department representatives.

(d) *Long-haul telecommunications services.* DISA will acquire all long-haul telecommunications services for DoD. See [DoD Directive 5105.19](#), Defense Information Systems Agency (DISA).

PGI 239.7405 Delegated authority for telecommunications resources.

Related Documents:

Documents related to DoD's delegated authority to enter into telecommunications service contracts are available [here](#).

PGI 239.7406 Certified cost or pricing data and data other than certified cost or pricing data.

Examples of instances where certified cost or pricing data, if required in accordance with FAR 15.403-4, or data other than certified cost or pricing data, if required in accordance with FAR 15.403-3, may be necessary to support price reasonableness include—

- (1) Nontariffed services;
- (2) Special rates and charges not included in a tariff, whether filed or to be filed;
- (3) Special assembly rates and charges;
- (4) Special construction and equipment charges;
- (5) Contingent liabilities that are fixed at the outset of the service;
- (6) Proposed cancellation and termination charges under the clause at [252.239-7007](#), Cancellation or Termination of Orders, and reuse arrangements under the clause at [252.239-7008](#), Reuse Arrangements;
- (7) Rates contained in voluntary tariffs filed by nondominant common carriers; or
- (8) A tariff, whether filed or to be filed, for new services installed or developed primarily for Government use.

PGI 239.7407 Type of contract.

When using a basic agreement in conjunction with a communication service authorization—

(1) Use DD Form 428, Communication Service Authorization (CSA), or an electronic data processing substitute to award, modify, cancel, or terminate telecommunications services. The CSA shall—

- (i) Refer to the basic agreement;
 - (ii) Specify the types and quantities and equipment to be provided as well as the tariff (or other price if a tariff is not available) of those services and equipment;
 - (iii) Specify the premises involved;
 - (iv) Cite the address for billing;
 - (v) Identify the disbursing office;
 - (vi) Provide funding information; and
 - (vii) Include an expiration date.
- (2) Before awarding a CSA, comply with the requirements in FAR and DFARS, e.g., for competition, reviews, approvals, and determinations and findings.

This page intentionally left blank.

PGI 239.76 -CLOUD COMPUTING

PGI 239.7602 Policy and responsibilities.

PGI 239.7602-1 General.

(c)(6) When the clause at DFARS [252.239-7010](#) applies, the contracting officer shall provide the contractor with the name of the responsible Government official to contact in response to any spillage occurring in connection with the cloud computing services being provided. The requiring activity will provide the contracting officer with the name of the responsible official in accordance with agency procedures, as required by Enclosure 7 of DoDM 5200.01-V3, DoD Information Security Program: Protection of Classified Information.

PGI 239.7602-2 Required storage of data within the United States or outlying areas.

(b) Prior to authorizing storage of data outside the United States and outlying areas, the contracting officer must receive written authorization from the authorizing official.

PGI 239.7603 Procedures.

PGI 239.7603-1 General.

(a) When the apparently successful offeror indicates in the provision at DFARS [252.239-7009](#) that cloud computing services will be used in the performance of the contract, the contracting officer shall review the DoD Cloud Service Catalog at <http://www.disa.mil/Computing/Cloud-Services/Cloud-Support> (look under the “Additional Information” tab for “Service Catalog”) to verify that the cloud service provider’s offering to be used in the performance of the contract has a provisional authorization prior to award (see DFARS [239.7602-1\(b\)](#)).

(b) When the contractor indicated in the provision at DFARS [252.239-7009](#) that it did not anticipate the use of cloud computing services in the performance of the contract and requests, after award, in accordance with the clause at DFARS [252.239-7010\(b\)\(1\)](#), that the contracting officer approve the use of cloud computing services in the performance of the contract, the contracting officer shall—

- (1) Request approval from the requiring activity for the contractor to use cloud computing services; and
- (2) If the requiring activity provides approval, review the DoD Cloud Service Catalog at <http://www.disa.mil/Computing/Cloud-Services/Cloud-Support> (look under the “Additional Information” tab for “Service Catalog”) to verify that the cloud service provider’s offering to be used in the performance of the contract has a provisional authorization (see DFARS [239.7602-1\(b\)](#)).

PGI 239.7603-2 Notification of third party access requests.

When a contractor provides notification of a request from a third party for access to Government data or Government-related data, in accordance with DFARS [252.239-7010\(j\)](#), the contracting officer shall convey the request to the requiring activity. The requiring activity will coordinate a response with the mission or data owner.

PGI 239.7603-3 Cyber incident and compromise reporting.

(a) When a cyber incident is reported by a contractor, the DoD Cyber Crime Center (DC3) will send an unclassified encrypted email containing the cyber incident report to the contracting officer(s) identified on the Incident Collection Format (ICF). The DC3 may request the contracting officer to send a digitally signed email to DC3.

(1) The procuring contracting officer (PCO) shall notify the requiring activities that have contracts identified in the ICF. In cases where an administrative contracting officer (ACO) receives the cyber incident report, in lieu of the PCO, the ACO shall notify the PCO for each affected contract, who will then notify the requiring activity.

(2) In cases of cyber incidents involving multiple contracts, the DoD components will work together to designate a single contracting officer to coordinate the effort. The requiring activity will notify the contracting officer once a lead is designated.

(b) When requested by the contractor, the contracting officer shall provide the contractor with the “Instructions for Malware Submission” document available at http://www.acq.osd.mil/dpap/dars/pgi/docs/Instructions_for_Submitting_Malware.docx. The contracting officer should never receive malicious software directly from the contractor.

(c) If the requiring activity requests access to contractor information or equipment, in accordance with DFARS [252.239-7010](#)(g), the contracting officer shall provide a written request to the contractor.

(d) For additional information on cyber incident reporting, see the frequently asked question document at http://www.acq.osd.mil/dpap/pdi/network_penetration_reporting_and_contracting.html.

PGI 239.7603-4 DoD damage assessment activities.

(a) Prior to initiating damage assessment activities, the contracting officer shall verify that a contract(s) identified in the cyber incident report include(s) the clause at DFARS [252.239-7010](#). If the contracting officer determines that a contract identified in the report does not contain the clause, the contracting officer shall notify the requiring activity that damage assessment activities, if required, may be determined to constitute a change to the contract.

(b) In cases of cyber incidents involving multiple contracts, a single contracting officer will be designated to coordinate with the contractor regarding media submission.

(c) If the requiring activity requests the contracting officer obtain media, as defined at DFARS [252.239-7010](#), from the contractor, the contracting officer shall—

(1) Provide a written request for the media;

(2) Provide the contractor with the “Instructions for Media Submission” document available at http://www.acq.osd.mil/dpap/dars/pgi/docs/Instructions_for_Submitting_Media.docx; and

(3) Provide a copy of the request to DC3, electronically via email at dcise@dc3.mil, and the requiring activity.

(d) If the contracting officer is notified by the requiring activity that media are not required, the contracting officer shall notify the contractor and simultaneously provide a copy of the notice to DC3 and the requiring activity.

(e) The contracting officer shall document the action taken as required by paragraph (c) or (d) of this section, in the contract file.

(f) Upon receipt of the contractor media, DC3 will confirm receipt in writing to the contractor and the requesting contracting officer.

(g) When the requiring activity determines that the damage assessment activities are complete, the requiring activity will provide the contracting officer with a report documenting the findings from the damage assessment activities affecting covered defense information.

(h) The contracting officer shall include the report documenting the findings in the contract file(s) and provide a copy to the contractor.

PGI PART 241 - ACQUISITION OF UTILITY SERVICES

Sec.			
PGI 241.1	-GENERAL	PGI 241.202	Procedures.
PGI 241.103	Statutory and delegated authority.	PGI 241.205	Separate contracts.
PGI 241.2	- ACQUIRING UTILITY SERVICES		

This page intentionally left blank.

PGI 241.1 -GENERAL

PGI 241.103 Statutory and delegated authority.

Summary of Statutory Authority for Utility/Energy Purchases

Acquisition Type	Authority	Maximum Term (years)
Energy Commodities (purchased as supplies) (natural gas & electricity) *	10 U.S.C. 3501/ 10 U.S.C. 2829	5 (4) **
Utility Service Contracts (in support of privatization)	10 U.S.C. 2688(d)(2)	50
Utility Service Contracts *** (when not in support of privatization)	10 U.S.C. 3201-3205 40 U.S.C. 113(e)(3)	10
* Section 8093 of Public Law 100-202 specifically precludes the Federal Government from expending appropriated funds to purchase electricity in a manner inconsistent with State law and regulation.		
** 5 years in support of facilities and installations (10 U.S.C. 3501) and 4 years for military family housing (10 U.S.C. 2829).		
*** GSA has delegated to DoD its authority, under 40 U.S.C. 501(b), to enter into utility service contracts for periods not exceeding 10 years. Absent this authority, the length of DoD utility service contracts in support of facilities and installations would be limited to 5 years (10 U.S.C. 3531) and, for military family housing, would be limited to 4 years (10 U.S.C. 2829).		

This page intentionally left blank.

PGI 241.2 - ACQUIRING UTILITY SERVICES

PGI 241.202 Procedures.

(2)(A) Do not use the connection charge provisions for the installation of Government-owned distribution lines and facilities. The acquisition of such facilities must be authorized by legislation and accomplished in accordance with FAR Part 36. Also, do not use the connection charge provisions for the installation of new facilities related to the supplier's production and general "backbone" system unless authorized by legislation.

(B) Construction labor standards ordinarily do not apply to construction accomplished under the connection charge provisions of this part. However, if installation includes construction of a public building or public work as defined in FAR 36.102, construction labor standards may apply.

PGI 241.205 Separate contracts.

(1) *Definitions.* As used in this section—

"Definite term contract" means a contract for utility services for a definite period of not less than one nor more than ten years.

"Indefinite term contract" means a month-to-month contract for utility services that may be terminated by the Government upon proper notice.

(2) Requests for proposals shall state the anticipated service period in terms of months or years. If the period extends beyond the current fiscal year, evaluate offers of incentives for a definite term contract.

(3) The solicitation may permit offerors the choice of proposing on the basis of—

- (i) A definite term not to exceed the anticipated service period; or
- (ii) An indefinite term contract.

(4) If the expected service period is less than the current fiscal year, the solicitation shall be on the basis of an indefinite term contract.

(5) Contracts for utility services for leased premises shall identify the lease document on the face of the contract.

(6) Use an indefinite term utility service contract when it is considered to be in the Government's best interest to—

- (i) Have the right to terminate on a 30-day (or longer) notice. A notice of up to one year may be granted by an installation if needed to obtain a more favorable rate, more advantageous conditions, or for other valid reasons; or
- (ii) Grant the supplier the right to terminate the contract when of benefit to the Government in the form of lower rates, larger discounts, or more favorable terms and conditions.

PGI 242.002 Interagency agreements.

(S-70)(iii) Upon receipt of a request for contract administration services, the CCP shall—

(A) Determine whether the request is from a friendly foreign government or an international agency in which the United States is a participant;

(B) Determine whether the services are consistent with the DoD mutual security program policies (the Assistant Secretary of Defense (International Security Affairs) is the source of information for questions as to the eligibility of foreign governments to receive services);

(C) Ensure that the reimbursement arrangements are consistent with DFARS [242.002\(b\)](#);

(D) Coordinate with appropriate contract administration offices to determine whether DoD can provide the services;

(E) Notify the request or that the request is accepted, or provide reasons why it cannot be accepted;

(F) Distribute the acquisition documents and related materials to contract administration offices; and

(G) Receive statements of costs incurred by contract administration offices for reimbursable services and forward them for billing to the Security Assistance Accounting Center.

PGI 242.3 -CONTRACT ADMINISTRATION OFFICE FUNCTIONS**PGI 242.302 Contract administration functions.**

(a)(13)(B)(I) For contracts assigned to DCMA for contract administration, designate as the payment office—

(i) The cognizant Defense Finance and Accounting Service (DFAS) payment office as specified in the Federal Directory of Contract Administration Services Components, available at <https://piee.eb.mil/pcm/xhtml/unauth/index.xhtml>, for contracts funded with DoD funds;

(ii) The department or agency payment office, if authorized by defense financial management regulations or if the contract is funded with non-DoD funds; or

(iii) Multiple payment offices under paragraphs (a)(13)(B)(I)(i) and (ii) of this section, if the contract is funded with both DoD and non-DoD funds.

(2) For contracts not assigned to DCMA, select a payment office or offices under department/agency procedures.

(3) When the Governmentwide commercial purchase card is the method of payment for a contract or order, enter “CRCARD” in the payment office code block.

(56) Assignment of a Government flight representative (GFR) may require execution of a secondary contract administration delegation, which is used to transfer contract administration responsibilities (see FAR [42.302\(a\)](#)) from one contract administration office to another office or command. Secondary contract administration delegations are appropriate when, for example, contract work is performed at locations geographically separated from the contract administration office. In lieu of transferring contract administration responsibility through a secondary contract administration delegation, a GFR from one unit may be delegated GFR responsibility from an outside contract administration organization that has retained contract administration responsibility. This is accomplished through the use of a formal letter of agreement functionally assigning the GFR to the outside contract administration organization for the limited purpose of performing contract administration under FAR [42.302\(a\)\(56\)](#).

PGI 242.302 (a)(S-72) —Surveillance of the contractors implementation of the Synchronized Predeployment and Operational Tracker (SPOT)

(1) For suggested criteria to assess a contractor’s implementation of SPOT, see SPOT Compliance Checklist at http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html.

(2)(i) For visibility into certain discrepant records in SPOT, use the following audit compliance reports (ACRs) available via the Total Operational Picture Support System (TOPSS):

(A) *Deployment Status Report (ACR-01)*. Lists all deployment requests that were submitted less than 10 days prior to the estimated deployment start date.

(B) *In-Theater Arrival Date (ITAD) Report (ACR-02)*. Lists all records where the ITAD was entered more than one day after the actual ITAD.

(C) *Primary Duty Station Report (ACR-03)*. Lists all deployments where the primary duty station arrival date was entered more than three days after the actual duty station arrival date.

(D) *Closeout Deployment Report (ACR-05)*. Lists all deployments where the actual deployment end date was entered more than three days after the actual deployment end date.

(E) *Open/Blank In-Theater Arrival Date (ITAD) Report (ACR-06)*. Lists where the ITAD was not entered into SPOT within 15 days after the estimated deployment start date.

(ii) Contracting Officers shall obtain a TOPSS account by following the TOPPS PKI Certificate Registration instructions at http://www.acq.osd.mil/log/PS/ctr_mgt_accountability.html.

(3) Contracting Officers shall—

(i) Take immediate action to notify contractors of non-compliance with SPOT (e.g., issue one of the delinquency notices identified at FAR 49.607).

(ii) Document performance deficiencies related to SPOT non-compliance that will be relevant to past performance evaluations for future contract opportunities in accordance with FAR Subpart 42.15.

PGI 242.302 (a)(S-75) —Monitoring contractor costs

(a) *Scope*.

This section provides guidelines for—

(1) Monitoring the policies, procedures, and practices used by contractors to control direct and indirect costs related to Government business; and

(2) Eliminating duplication in Government monitoring of contractors' costs.

(b) *Policy*.

Effective management of contract costs is essential to the efficient and economical performance of Government contracts. Contractors are responsible for managing and controlling their direct and indirect costs; however, DoD must systematically monitor the management of contractors' costs to ensure these responsibilities are met.

(c) *Responsibilities*.

(1) Departments and agencies.

(i) Departments and agencies should conduct a formal program of Government monitoring of contractor policies, procedures, and practices for controlling costs (cost monitoring) at contractor locations where—

(A) Sales to the Government, as determined by the contract administration offices, during the contractor's next fiscal year are expected to exceed \$200 million in contracts—

(1) Based on costs incurred; or

(2) Negotiated based on projected costs.

(B) The contract administration office determines the cost benefits derived from monitoring the individual contractors with less than \$200 million in other than firm fixed-price and fixed-price with economic price adjustment contracts to be warranted; or

(C) Significant Government business exists and is specifically directed by the head of the contracting activity.

(ii) Departments and agencies are responsible for designating the cost monitoring sites and discontinuing them when the criteria are no longer met.

(2) Contract administration offices.

(i) Contract administration offices (CAOs), which are designated as cost monitoring sites, are responsible for—

(A) Assigning a cost monitoring specialist (CMS) to conduct the program. The CMS may be the administrative contracting officer (ACO) or any other CAO employee whose normal function relates to evaluation of contractor performance.

(B) Reviewing and approving the cost monitoring plan for the next fiscal year and the cost monitoring report from the concluding fiscal year.

(ii) The ACO is responsible for—

(A) In the absence of a CMS, ensuring completion of the CMS duties referenced in paragraph (iii) of this section;

(B) Considering review results in direct and indirect rate negotiations and contract negotiations;

(C) Ensuring the contractor implements corrective action recommended in the cost monitoring review reports;

and

(D) Resolving disputes with the contractor regarding cost monitoring review findings, conclusions, or recommendations.

(iii) The CMS is responsible for managing the cost monitoring effort within the CAO and coordinating planned effort with the contract auditor. This includes—

(A) Preparing and maintaining an annual written cost monitoring plan for reviewing contractor operations (see paragraph (d));

(B) Maintaining an inventory of planned and completed CAO, Defense Contract Audit Agency (DCAA), and other Government reviews and audits in order to mitigate duplication of efforts;

(C) Monitoring contractor direct and indirect rates and factors during the year, making comparisons to historical actual costs and to contractor proposed or negotiated forward pricing rates and factors, and providing rate recommendations based on their analysis;

(D) Performing approved functional reviews of contractor activities, to include assisting Government personnel in obtaining access to pertinent contractor policies, procedures, and related data;

(E) Advising the ACO and CAO management of corrective action recommended to improve inefficient or uneconomical contractor conditions, policies, or practices, to include preparing, for the ACO's consideration when appropriate, a Notice of Intent to Disallow or Not Recognize Costs;

(F) Continuously tracking the status of recommendations made to the contractor concerning cost performance stemming from all Government reports;

(G) Keeping the contracting officer, program manager, contract auditor, and other responsible officials informed of issues affecting economical contract performance;

(H) Maintaining current organizational charts of the operations identifiable to the contractor's functional centers of its cost control functions; and

(I) Preparing a final cost monitoring report summarizing all of the cost monitoring functions performed during the Government fiscal year.

(3) Audit and other organizations.

(i) The contract auditor is responsible for assisting the CMS by performing the portion of cost monitoring plan and related analyses that requires access to the contractor's financial and accounting records supporting the cost or pricing data. (This does not preclude the program manager, contracting officer, ACO, CMS, or other representatives from reviewing contractor records and data necessary to the performance of their duties.)

(ii) Audit organizations, program offices, contracting activities, and any other DoD organizations with responsibility for reviewing contractor operations for the purpose of monitoring contractor policies, procedures, and practices to control costs, shall submit to the CMS—

(A) An annual schedule of planned and tentative visits, oversight reviews, and audits to be performed at cost monitoring locations; and

(B) Revisions to scheduled visits or audit plans, within 30 days of issuance.

(d) Annual cost monitoring plan.

(1) Description.

The annual cost monitoring plan is a strategy for monitoring, reviewing, negotiating, and approving contractor's direct and indirect rates, business systems, corrective actions to deficient processes, and cost controls by coordinating the capabilities of the CAO, DCAA, and other Government representatives in an effort to reduce unreasonable, erroneous, or improper costs to Government contracts.

(2) Contents of the plan.

(i) The plan should—

(A) Provide coverage for each significant activity of the contractor over a period of five to ten years;

(B) Provide coverage for contractor future years dependent on the period of forward pricing years the contractor proposes and the expected length of executed Government programs;

(C) Be updated to reflect changed conditions as the year progresses; and

(D) Be consistent with the approved schedule, and any deviations should be explained in the final cost monitoring report.

(ii) The plan must identify the organizations having the primary responsibility for performing the reviews.

(iii) The plan should include reviews required by the ACO and DFARS. Reviews will be performed by the assigned organization during the coordination phase of the cost monitoring plan, except when DFARS makes a specific organizational assignment. For example, Subpart [244.301](#) makes the ACO responsible for leading contractor purchasing system reviews and [215.407-5 -70\(c\)\(3\)](#) makes the DCAA auditor responsible for leading estimating system reviews on behalf of the ACO.

(3) Selecting the activities.

(i) The CAO selects the activities for the cost monitoring plan. DCAA will complete its annual audit plan independently and communicate the approved audit plan to ensure the most effective monitoring approach. To ensure all

Government interests are considered in the selection, the CMS should invite CAO, DCAA, and other interested Government representatives to a meeting before the beginning of each Government fiscal year to identify and prioritize the areas to be reviewed during the coming year, to ensure a fully communicated Government cost monitoring plan.

- (ii) The selection team should consider the following data and assign primary responsibility in the selection process

(A) Contractor forecasts for the coming years supporting direct and indirect costs by functional centers of its cost control system and the results of the latest survey performed of such systems;

(B) Organizational charts for the contractor's entire operation;

(C) Outline of the contractor's accounting system showing the flow of costs by function;

(D) Determination of Government participation in the dollars attributable to the operations and cost accounts under consideration;

(E) List of recent reviews and audits performed by CAO, DCAA, and other Government representatives; list should show outstanding weakness and deficiencies in the contractor's operations that will be considered for follow-up reviews or audits;

(F) Evidence of contractor under or over staffing;

(G) Significant departures from established contractor productivity standards;

(H) Major financial variances from forecasts in prior years;

(I) Evidences of idle or under-used capacity;

(J) Any visits or audit plans scheduled by other Government organizations and identified to the CMS; and

(K) Any other significant information or business changes which could have an adverse effect or cause a significant change to on the contractor's management of contract costs.

(4) Prioritizing the plan.

- (i) The CMS should prioritize the plan to review contractor activity by considering—

(A) The extent of competition in awarded contracts;

(B) The contractor's operating methods;

(C) The nature of the work;

(D) Acquisition cycle stage;

(E) Business and industry practices;

(F) Types of contracts involved;

(G) Degree of technical and financial risk;

(H) Previously reported findings and deficiencies;

(I) Ratio of Government/commercial work;

(J) Significant changes in the level (dollars) of the contractor's work and backlog; and

(K) The extent performance efficiencies have been previously demonstrated.

(5) Plan approval and submission.

(i) The local DCAA office will provide an approved annual audit plan to the ACO within 30 days after the first day of each fiscal year.

(ii) The CMS will submit an adequate cost monitoring plan to the head of the local CAO within 45 days after the first day of each fiscal year.

(iii) The head of the local CAO, or designee, will approve the annual cost monitoring plan within 15 days of an adequate submission. The head of the local CAO will ensure that adequate coordination of the cost monitoring plan was performed with the DCAA and other responsible Government representatives.

(6) Reviews and analysis.

- (i) Perform functional reviews and audits as scheduled in accordance with the cost monitoring plan.

(ii) Hold interim meetings with the contractor as necessary to clarify information. Hold an exit conference at the conclusion of reviews.

(iii) Prepare reports at the conclusion of reviews. The ACO will determine whether a Government review or audit report will be provided to a contractor based on specific regulatory requirements or the impact to pending negotiations or litigation.

(iv) Prepare periodic reports on the results of the CMS analysis and monitoring of the contractors rates and factors, which should address the causes for significant deviations from historical and negotiated forward pricing rates and factors.

(e) Annual cost monitoring report.

(1) Description.

The annual cost monitoring report is a culmination of the Government activities performed during the fiscal year in an effort to conduct and maintain a formal monitoring program of contractor policies, procedures, and practices for controlling costs charged to Government contracts.

(2) *Contents of the report.*

(i) The report should—

- (A) Provide a brief introduction of the contractor and the products it provides to the Government;
- (B) Summarize each review and audit completed during the reporting period along with any deviations from the cost monitoring plan;
- (C) Highlight open deficiencies, corrected deficiencies, and any newly reported deficiencies; and
- (D) Include the current status of all final, billing, and forward pricing rates.

(ii) The annual cost monitoring report is the primary responsibility of the CAO. Incorporate the final DCAA audit reports by summary and reference.

(3) *Report approval and submission.*

(i) The head of the local CAO, or designee, will approve the annual cost monitoring report within 60 days of the end of the Government fiscal year.

(ii) A copy of the approved report will be provided to the head of the local DCAA office within 15 days of approval.

This page intentionally left blank.

PGI 242.7 -INDIRECT COST RATES

PGI 242.705 Final indirect cost rates.

PGI 242.705-1 Contracting officer determination procedure.

(a) *Applicability and responsibility.*

(1) When negotiations are conducted on a coordinated basis, individual administrative contracting officers are responsible for coordinating with the corporate administrative contracting officer to ensure consistency of cost determinations.

This page intentionally left blank.

PGI 242.12 -NOVATION AND CHANGE-OF-NAME AGREEMENTS

PGI 242.1203 Processing agreements.

(1) For contracts awarded by the military departments, provide notices to the following addressees instead of individual contracting or contract administration offices:

Army	usarmy.pentagon.hqda-asalt.list.saal-ps-staff@army.mil
Navy	usn.pentagon.asstsecnavrdadc.mbx.pabt@us.navy.mil
Air Force	AFMC.PK.Workflow-02@us.af.mil
National Aeronautics and Space Administration	National Aeronautics and Space Administration ATTN: Office of Procurement, Program Operations Division 300 E Street, SW Washington, DC 20546-0001

(2) Lists of affected contracts accompanying a notice of successor in interest should include the information at FAR 42.1204(e)(2).

(3) Lists of affected contracts accompanying a notice of a name change should include the information at FAR 42.1205(a)(3).

(4) On notices sent to the addressees in paragraph (1) of this section, include a consolidated list for all subordinate contracting offices of the addressee.

(5) Before making any substantial alterations or additions to the novation agreement format at FAR 42.1204(i), coordinate with the addressees in paragraph (1) of this section that have contracts with the contractor. Resolve any objections before executing the agreement.

(6) If the National Aeronautics and Space Administration (NASA) wants a separate agreement with the contractor, continue to process the agreement only for DoD.

(7) In addition to the requirements of FAR 42.1203(g) and PGI [204.201](#), make distribution to—

- (i) The physical address or a copy to the email addresses in paragraph (1) of this section; and
- (ii) The appropriate Military Surface Deployment and Distribution Command area command for agreements affecting contracts and basic agreements for storage and related services for personal property of military and civilian personnel — two copies:

Commander Eastern Area Military Surface Deployment and Distribution Command ATTN: MTE-LO Bayonne, NJ 07002	Commander Western Area Military Surface Deployment and Distribution Command Oakland Army Base ATTN: MTW-LO Oakland, CA 94626
---	--

(8) In addition to the distribution requirements of FAR 42.1203(h)(4) and PGI [204.201](#) —

(i) Send two copies to the physical address or a copy to the email addresses in paragraph (1) of this section. The list of contracts may be confined to those issued by that department.

(ii) Do not send copies to NASA or the commands in paragraph (7)(ii) of this section. They will issue their own modifications.

(9) Report the novation agreement or name change modification for each of the affected contracts to FPDS (see PGI [204.606](#) (4)(iv) and (v)).

(10) The contracting officer responsible for execution of a change-of-name agreement (see FAR Subpart 42.12) must submit the agreement to DLIS-SBB. If there are no current contracts, each contracting and contract administration office receiving notification of changes from the commercial entity must forward a copy of the change notice annotated with the CAGE code to DLIS-SBB unless the change notice indicates that DLIS-SBB already has been notified.

This page intentionally left blank.

PGI 242.70 - CONTRACTOR BUSINESS SYSTEMS

PGI 242.7000 Contractor business system deficiencies.

(b) *Determination to withhold payments.* The following are sample formats for written notifications of contracting officer determinations to initiate payment withholding, reduce payment withholding, and discontinue payment withholding in accordance with the clause at DFARS [252.242-7005](#), Contractor Business Systems:

(1) Use this sample format for written final determinations to implement payment withholding:

Payment Withholding

(i) The purpose of this final determination is to disapprove your *[identify the contractor business system(s)]* and implement payment withholding per the terms of the clause at DFARS [252.242-7005](#), Contractor Business Systems.

(ii) It is my final determination that XXX System(s) contains the following material weaknesses:

--*[list all material weaknesses]*

(iii) Effective immediately, five percent (or a lesser percentage if five percent will exceed the withhold limitations in the clause at DFARS [252.242-7005](#)) of each request for payment under the contracts in Attachment A will be withheld as described below for material weaknesses in XXX system. Upon receipt of an acceptable corrective action plan and my determination that this corrective action plan is being effectively implemented, I will issue a notification with respect to reducing the percentage being withheld to two percent until I determine that all material weaknesses, as identified in this final determination, have been corrected. Failure to follow the accepted corrective action plan will result in an increase in the percentage withheld against each payment under this contract to five percent (or a lesser percentage if five percent will exceed the withhold limitations in DFARS [252.242-7005](#)). *[Repeat this paragraph, as necessary, if multiple withholds are being applied to multiple systems in accordance with [252.242-7005](#) (d)]*

(iv) For payments under cost, labor-hour, or time-and-material contracts: The Contractor shall apply a five percent (or a lesser percentage if five percent will exceed the withhold limitations in DFARS [252.242-7005](#)) withhold to the amount being billed and prepare a cost voucher in Wide Area WorkFlow (WAWF) for the net amount due. The Contractor shall show the amount withheld on the current billing, as well as the cumulative amount withheld to date on this contract in accordance with DFARS clause [252.242-7005](#), in the Comments block of the Miscellaneous Info Tab in WAWF.

(v) For progress payments: The Contractor shall prepare the request in WAWF without applying any withhold percentage. The Contracting Officer will reduce the approved amount by five percent (or a lesser percentage if five percent will exceed the withhold limitations in DFARS [252.242-7005](#)) and record the amount being withheld on the progress payment request, as well the cumulative amount withheld on this contract in accordance with DFARS clause [252.242-7005](#), in the Comments block of the Miscellaneous Info Tab in WAWF.

(vi) For performance-based payments: The Contractor shall prepare the request in WAWF without applying any withhold percentage to the performance based payment event schedule amounts. The Contracting Officer will reduce the amount approved by five percent (or a lesser percentage if five percent will exceed the withhold limitations in DFARS [252.242-7005](#)) and record the amount being withheld on the performance based payment as well as the cumulative amount withheld on this contract in accordance with the DFARS clause [252.242-7005](#) in the Comments block of the of the Miscellaneous Info Tab in WAWF.

(2) Use this sample format for determinations to reduce payment withholding:

Reduction of Temporary Payment Withholding

(i) The purpose of this determination is to reduce the payment withholding percentage per the terms of the clause at DFARS [252.242-7005](#), Contractor Business Systems, as a result of receiving an acceptable corrective action plan from the contractor, dated YYYY/MM/DD, for resolving deficiencies in its XXX system(s) as identified in the Contracting Officer's determination, dated YYYY/MM/DD. This reduction is prospective and previous amounts withheld will not be reduced or released at this time.

(ii) Effective immediately, two percent of each request for payment under this contract will be withheld as described below. The two percent being withheld will remain in effect until the Contracting Officer determines that the Contractor has corrected all material weaknesses as directed by the Contracting Officer's determination. Failure to follow the accepted corrective action plan will result in an increase in the percentage withheld against each payment under this contract to five percent (or a lesser percentage if five percent will exceed the withhold limitations in DFARS [252.242-7005](#)).

(iii) For payments under cost, labor-hour, or time-and-material contracts: The Contractor shall apply a two percent withhold to the amount being billed and prepare a cost voucher in Wide Area WorkFlow (WAWF) for the net amount due. The Contractor shall show the amount withheld on the current billing, as well as the cumulative amount withheld to date

on this contract in accordance with DFARS clause [252.242-7005](#), in the Comments block of the Miscellaneous Info Tab in WAWF.

(iv) For progress payments: The Contractor shall prepare the request in WAWF without applying any withhold percentage. The Contracting Officer will reduce the approved amount by two percent and record the amount being withheld on the progress payment request, as well the cumulative amount withheld on this contract in accordance with DFARS clause [252.242-7005](#), in the Comments block of the Miscellaneous Info Tab in WAWF.

(v) For performance-based payments: The Contractor shall prepare the request in WAWF without applying any withhold percentage to the performance-based payment event schedule amounts. The Contracting Officer will reduce the amount approved by two percent and record the amount being withheld on the performance-based payment as well as the cumulative amount withheld on this contract in accordance with the DFARS clause [252.242-7005](#) in the Comments block of the Miscellaneous Info Tab in WAWF.

(3) Use the sample format below if payment withholding is discontinued pending receipt of auditor or functional specialist verification and based on evidence that the contractor has corrected all material weaknesses, in accordance with the clause at DFARS [252.242-7005](#), Contractor Business Systems:

Discontinuation of Payment Withholding Pending Verification

(i) The purpose of this determination is to approve your *[identify system(s)]* pending verification, discontinue the payment withhold as identified in the Contracting Officer's determination dated YYYY/MM/DD, and release previous amounts withheld on the contracts in Attachment A, in accordance with DFARS clause [252.242-7005](#), Contractor Business Systems.

(ii) The discontinuation of the payment withhold is made pending receipt of verification and based on my review of the evidence submitted by the Contractor that all the Contractor's system(s) material weaknesses identified in the Contracting Officer's determination dated YYYY/MM/DD have been corrected.

(iii) The Contractor is authorized to submit a bill in the amount of \$XXXXXXXX. The billed amount should be submitted on the same type of invoice as the withhold was originally taken, as appropriate.

(4) Use the sample format below if payment withholding is discontinued after auditor or functional specialist verification that the contractor has corrected all material weaknesses, in accordance with the clause at DFARS [252.242-7005](#), Contractor Business Systems:

Discontinuation of Payment Withholding

(i) The purpose of this determination is to approve your *[identify system(s)]*, discontinue the payment withhold as identified in the Contracting Officer's determination dated YYYY/MM/DD, and release previous amounts withheld on the contracts in Attachment A, in accordance with DFARS clause [252.242-7005](#), Contractor Business Systems.

(ii) The discontinuation of the payment withhold is made based on verification that all the Contractor's system(s) material weaknesses identified in the Contracting Officer's final determination dated YYYY/MM/DD have been corrected.

(iii) The Contractor is authorized to submit a bill in the amount of \$XXXXXXXX. The billed amount should be submitted on the same type of invoice as the withhold was originally taken, as appropriate.

PGI 242.71 -VOLUNTARYREFUNDS

PGI 242.7100 General.

- (1) A voluntary refund may be solicited (requested by the Government) or unsolicited.
 - (i) Generally, request voluntary refunds only after determining that no contractual remedy is readily available to recover the amount sought.
 - (ii) Acceptance of unsolicited refunds does not prejudice remedies otherwise available to the Government.
- (2) Before soliciting a voluntary refund or accepting an unsolicited one, the contracting officer should have legal counsel review the contract and related data to—
 - (i) Confirm that there are no readily available contractual remedies; and
 - (ii) Advise whether the proposed action would jeopardize or impair the Government's rights.
- (3) Request voluntary refunds only when—
 - (i) The contracting officer concludes that the contractor overcharged under a contract, or inadequately compensated the Government for the use of Government-owned property, or inadequately compensated the Government in the disposition of contractor inventory; and
 - (ii) Retention of the amount in question by the contractor or subcontractor would be contrary to good conscience and equity.
- (4) Do not solicit voluntary refunds without approval of the head of the contracting activity, or as provided in department/agency regulations.
- (5) Voluntary refunds may be requested during or after contract performance.
- (6) A contract modification, rather than a check, is the preferred means of effecting a solicited or unsolicited refund transacted before final payment.
 - (i) For modifications, adjust the price for the refund and credit the refund to the applicable appropriation cited in the contract.
 - (ii) For checks—
 - (A) Advise the contractor to—
 - (1) Make the check payable to the agency that awarded the contract;
 - (2) Forward the check to the contracting officer or, when the contract is assigned to another office for administration, to that office; and
 - (3) Include a letter with the check—
 - (i) Identifying it as a voluntary refund;
 - (ii) Giving the contract number involved; and
 - (iii) Where possible, giving the appropriation and account number to be credited; and
 - (B) Forward the check to the office responsible for control of funds.

PGI 242.72 -CONTRACTOR MATERIAL MANAGEMENT AND ACCOUNTING SYSTEM

PGI 242.7203 Review procedures.

(c) *Disposition of findings.*

(2) *Initial determination.*

(ii)(A) Within 30 days of receiving the report, if the contracting officer makes a determination that there is a material weakness, the contracting officer should provide an initial determination of material weaknesses and a copy of the report to the contractor and require the contractor to submit a written response.

(C) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(3) *Final determination.*

(ii)(A) *Monitoring contractor's corrective action.* The contracting officer, with the assistance of the auditor, shall monitor the contractor's progress in correcting material weaknesses and deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the weaknesses and deficiencies. Actions the contracting officer may take include: disapproving the contractor's MMAS; bringing the issue to the attention of higher level management; <http://www.acq.osd.mil/dpap/dars/dfars/html/current/252242.htm#252.242-7005> recommending non-award of potential contracts, as applicable; and for material weaknesses, implementing or increasing the withholding in accordance with 252.242-7005, Contractor Business Systems.

(B) *Correction of material weaknesses.*

(1) When the contractor notifies the contracting officer that the contractor has corrected the material weaknesses, the contracting officer shall request that the auditor review the correction to determine if the weaknesses and deficiencies have been resolved.

(2) The contracting officer shall determine if the contractor has corrected the weaknesses and deficiencies.

(3) If the contracting officer determines the contractor has corrected the weaknesses and deficiencies, send the contracting officer's notification to the auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor as applicable.

This page intentionally left blank.

PGI 242.73 -CONTRACTOR INSURANCE/PENSION REVIEW

PGI 242.7303 Responsibilities.

- (1) The ACO is responsible for—
 - (i) Determining the need for a CIPR in accordance with the procedures at DFARS [242.7302](#);
 - (ii) Requesting and scheduling the reviews with the appropriate DCMA activity;
 - (iii) Notifying the contractor of the proposed date and purpose of the review, and obtaining any preliminary data needed by the DCMA insurance/pension specialist or the DCAA auditor;
 - (iv) Reviewing the CIPR report, advising the contractor of the recommendations contained within the report, considering contractor comments, and rendering a decision based on those recommendations;
 - (v) Providing other interested contracting officers copies of documents related to the CIPR;
 - (vi) Ensuring adequate follow-up on all CIPR recommendations; and
 - (vii) Performing contract administration responsibilities related to Cost Accounting Standards administration as described in FAR Subparts 30.2 and 30.6.
- (2) The DCMA insurance/pension specialist is responsible for—
 - (i) Issuing a technical report on the contractor's insurance/pension plans for incorporation into the final CIPR report based on an analysis of the contractor's pension plans, insurance programs, and other related data;
 - (ii) Leading the team that conducts the review. Another individual may serve as the team leader when both the insurance/pension specialist and that individual agree. The team leader is responsible for—
 - (A) Maintaining complete documentation for CIPR reports;
 - (B) To the extent possible, resolving discrepancies between audit reports and CIPR draft reports prior to releasing the final CIPR report;
 - (C) Preparing and distributing the final CIPR report;
 - (D) Providing the final audit report and/or the insurance/pension specialist's report as an attachment to the CIPR report; and
 - (E) Preparing a draft letter for the administrative contracting officer's use in notifying the contractor of CIPR results; and
 - (iii) When requested, advising administrative contracting officers and other Government representatives concerning contractor insurance/pension matters.
- (3) The DCAA auditor is responsible for—
 - (i) Participating as a member of the CIPR team or serving as the team leader (see paragraph (2)(ii) of this section);
 - (ii) Issuing an audit report for incorporation into the final CIPR report based on an analysis of the contractor's books, accounting records, and other related data; and
 - (iii) Performing contract audit responsibilities related to Cost Accounting Standards administration as described in FAR Subparts 30.2 and 30.6.

PGI 242.74 -TECHNICAL REPRESENTATION AT CONTRACTOR FACILITIES

PGI 242.7401 Procedures.

(1) When the program, project, or system manager determines that a technical representative is required, the manager shall issue a letter of intent to the contract administration office commander listing the assignment location, starting and ending assignment dates, technical duties assigned, delegated authority, and support required from the contract administration office. Any issues regarding the assignment of a technical representative should be resolved promptly. However, final decision on the assignment remains with the program manager. Issues regarding the assignment of technical duties that cannot be resolved between the program office and the on-site DoD contract administration office will be elevated.

(2) The program, project, or system manager will furnish the designated technical representative a letter of assignment of delegated technical duties, with copies to the contract administration office, the contracting officer, and the contractor, at least 30 days before the assignment date (or termination date). Any changes to the requirements of the assignment letter will be made by a new letter of intent and processed in accordance with paragraph (1) of this section.

(3) The contract administration office normally provides the technical representative with office space, equipment, supplies, and part-time clerical support. The program, project, or system manager provides supervision, technical direction, administrative services (e.g., pay, travel, maintenance of personnel records), and, when required, full-time clerical support.

(4) The program manager or designee and the contract administration office, at the local level, shall negotiate a memorandum of agreement (MOA) delineating their functional administrative interrelationships, with annual updates as necessary. The agreements may be included in an existing MOA, if one exists, or as a separate MOA.

(5) The technical representative shall keep the contract administration office commander fully informed of matters discussed with the contractor. The contract administration office shall also keep the technical representative fully informed of contractor discussions that relate to technical matters within the purview of the technical representative's assigned duties.

PGI 242.75 -CONTRACTOR ACCOUNTING SYSTEMS AND RELATED CONTROLS

PGI 242.7502 Policy.

(d) *Disposition of findings.*

(2) *Initial determination.*

(ii)(A) Within 30 days of receiving the report, if the contracting officer makes a determination that there is a material weakness, the contracting officer should provide an initial determination of material weaknesses and a copy of the report to the contractor and require the contractor to submit a written response.

(C) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(3) *Final determination.*

(ii)(A) *Monitoring contractor's corrective action.* The contracting officer, with the assistance of the auditor, shall monitor the contractor's progress in correcting material weaknesses and deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the material weaknesses and deficiencies. Actions the contracting officer may take include: disapproving the system; bringing the issue to the attention of higher level management, as applicable; and for material weaknesses, implementing or increasing the withholding in accordance with [252.242-7005](#), Contractor Business Systems.

(B) *Correction of material weaknesses.*

(1) When the contractor notifies the contracting officer that the contractor has corrected the material weaknesses, the contracting officer shall request that the auditor review the correction to determine if the weaknesses and deficiencies have been resolved.

(2) The contracting officer shall determine if the contractor has corrected the material weaknesses.

(3) If the contracting officer determines the contractor has corrected the material weaknesses, send the contracting officer's notification to the auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor as applicable.

(g) *Mitigating the risk of material weaknesses and system deficiencies on specific proposals.*

(2) In the event that a contractor's accounting system contains material weaknesses or deficiencies, even if it has been disapproved, a cost reimbursement contract is not prohibited if the contracting officer determines that the contractor's accounting system is adequate for determining costs applicable to the contract or order.

PGI PART 243 - CONTRACT MODIFICATIONS

<i>Sec.</i>			
PGI 243.1	-GENERAL	PGI 243.204	Administration.
PGI 243.170	Identification of foreign military sale (FMS) requirements.	PGI	Certification of requests for equitable adjustment.
PGI 243.171	Obligation or deobligation of funds.	243.204-71	
PGI 243.2	-CHANGE ORDERS		

This page intentionally left blank.

PGI 243.1 -GENERAL

PGI 243.170 Identification of foreign military sale (FMS) requirements.

When adding FMS requirements using a contract modification, the contracting officer shall—

- (1) Clearly indicate “FMS Requirement” on the front of the modification; and
- (2) Refer to each FMS case identifier code by line/subline item number within the modification, e.g., FMS Case Identifier GY-D-DCA.

PGI 243.171 Obligation or deobligation of funds.

The contracting officer shall include sufficient information in each contract modification to permit the paying office to readily identify the changes for each contract line and subline item.

- (1) Include the information under the heading “Summary for the Payment Office” in—
 - (i) Section G, Contract Administration Data (Uniform Contract Format); or
 - (ii) The contract schedule (Simplified Contract Format).
- (2) The information normally should contain—
 - (i) The amount of funds obligated by prior contract actions, to include—
 - (A) The total cost and fee if a cost-type contract;
 - (B) The target fee at time of contract award if a cost-plus-incentive-fee contract;
 - (C) The base fee if a cost-plus-award-fee contract; or
 - (D) The target price and target profit if a fixed-price incentive contract;
 - (ii) The amount of funds obligated or deobligated by the instant modification, categorized by the types of contracts specified in paragraph (2)(i) of this section; and
 - (iii) The total cumulative amount of obligated or deobligated funds, categorized by the types of contracts specified in paragraph (2)(i) of this section.

This page intentionally left blank.

PGI 243.2 -CHANGE ORDERS

PGI 243.204 Administration.

(1) Whenever practicable, the contracting officer should provide advance notice of a proposed change order to the administrative contracting officer (ACO).

(i) The ACO shall review the proposed change order to ensure compatibility with the status of performance.

(ii) If the contractor has progressed beyond the effective point specified in the proposed change order, the ACO shall determine the earliest practical point at which the change order could be made effective and shall advise the contracting officer.

(2) If a change order has been issued and the effective date has been determined to be impracticable, the contracting officer shall—

(i) Issue another change order to correct, revise, or supersede the first change order; then

(ii) Definitize by supplemental agreement citing both change orders.

PGI 243.204-71 Certification of requests for equitable adjustment.

(b) For example, a request for equitable adjustment that involves both an increase of \$100,000 and a decrease of \$105,000 has an absolute value of \$205,000 ($\$100,000 + \$105,000$, regardless of whether the amounts are plus or minus), which exceeds the simplified acquisition threshold.

This page intentionally left blank.

PGI 244.2 - CONSENT TO SUBCONTRACT

PGI 244.201 Consent and advance notification requirements.

PGI 244.201-1 Consent requirements.

When contracting for a covered system or covered item of supply, work with the requiring activity to determine if, based on the criticality of the component or system to be supplied and potential concerns about supply chain risk, written consent to subcontract by the contracting officer is necessary when subcontractors are selected or modified during the course of contract performance. Should the requiring activity conclude that a potential subcontractor is beyond the risk tolerance of the system and mission, the requiring activity must inform the contracting officer and the authority granted in section 806 of Pub. L. 111-383 may be used to withhold consent for the contractor to subcontract with a particular source or exclude a source from consideration as specified in DFARS 239.73.

This page intentionally left blank.

PGI 244.3 - CONTRACTORS' PURCHASING SYSTEMS REVIEWS

PGI 244.305 RESERVED

PGI 244.305-70 Policy.

(c) *Disposition of findings.*

(2) *Initial determination.*

(ii)(A) Within 30 days of receiving the report, if the contracting officer makes a determination that there is a material weakness, the contracting officer should provide an initial determination of material weaknesses and a copy of the report to the contractor and require the contractor to submit a written response.

(C) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(3) *Final determination.*

(ii)(A) *Monitoring contractors' corrective action.* The contracting officer and Purchasing System Analyst (PSA) or auditor shall monitor the contractor's progress in correcting material weaknesses and deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the weaknesses and deficiencies. Actions the contracting officer may take include: withdrawing or withholding approval of the system; bringing the issue to the attention of higher level management; <http://www.acq.osd.mil/dpap/dars/dfars/html/current/252242.htm#252.242-7005> recommending non-award of potential contracts, as applicable; and for material weaknesses, implementing or increasing the withholding in accordance with 252.242-7005, Contractor Business Systems.

(B) *Correction of material weaknesses.*

(1) When the contractor notifies the contracting officer that the contractor has corrected the material weaknesses, the contracting officer shall request the PSA or auditor to review the correction to determine if the weaknesses and deficiencies have been resolved.

(2) The contracting officer shall determine if the contractor has corrected the weaknesses and deficiencies.

(3) If the contracting officer determines the contractor has corrected the deficiencies, the contracting officer's notification shall be sent to the PSA; auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor as applicable.

245.103-74			

This page intentionally left blank.

PGI 245.1 - GENERAL

PGI 245.102 RESERVED

PGI 245.102-70 Policy.

(1) A basic principle of the Federal Acquisition Regulations System is that, upon contract award, contractors bring all the necessary organization, experience, accounting and operational controls, property, and technical skills, or the ability to obtain them (reference FAR 9.104-1 (e), (f), and (g) of General Standards). Therefore, upon contract award, responsible contractors should have the means to provide effective and efficient stewardship of Government property.

(2) Government property, as defined at FAR 45.101, must be contractually accountable to a single contract and only one contract at a time. This requirement applies to both Government-furnished property and contractor-acquired property. Although accountable to only one contract at a time, contract terms and conditions may allow Government property to be used on other contracts (see FAR 52.245-9, Use and Charges).

PGI 245.103 General.

PGI 245.103-70 Furnishing Government property to contractors.

(1) The requiring activity (project or program manager, or purchase request generator), as part of its responsibility for acquisition planning (FAR part 7, Acquisition Planning), is the decision point as to whether or not to furnish property to contractors. The basis for any decision to provide Government property shall be documented by the requiring activity and provided to the contracting officer. Such documentation is not required when contractors are furnished property for repair, modification, or overhaul under a contract.

(2) Prior to furnishing Government property to the contractor, the contracting officer shall ensure that each of the requirements of FAR 45.102 are addressed as follows, and documented in the contracting file—

(i) *Element 1: In the Government's best interest.* Discussion should be specific, factual, and where necessary, address actual or projected dollars and percentages. Merely selecting one or two objectives supported by a general, perfunctory discussion does not address this element satisfactorily. Discussion should address the following factors:

- (A) Economy – Furnishing Government property is the lowest cost or price alternative.
- (B) Standardization – There is a critical need for precise replication.
- (C) Security – Government property is needed due to national security issues/concerns.
- (D) Expedite production – Government property is crucial to achieving timely or accelerated delivery of a supply item or service.
- (E) Scarcity – The Government can obtain scarce items, or is the only source of property necessary for successful execution of a contract.
- (F) Maintain the industrial base – Government property is needed to ensure future capability to obtain a particular supply item or service.
- (G) Contract type – Government property will enable the Government to obtain a more favorable contract type.

(ii) *Element 2: Overall benefit.* Demonstrate that the overall benefit to the acquisition significantly outweighs the increased cost of administration, including property disposal.

(A) Property in the hands of contractors drives program costs. Therefore, in order to make the case that providing Government property to the contractor is worthwhile, the associated costs must be considered and the business decision justified. The costs of Government property removal and disposal, including demilitarization and disposal of environmentally-regulated property, must be included.

(B) Costs must be either less than what the contractor might otherwise incur, or the demonstrated benefit to the Government must outweigh these additional contract costs.

(iii) *Element 3: Government assumption of risk.* Demonstrate that providing the property does not substantially increase the Government's risk.

(A) Risk must be discussed and documented. A risk analysis is warranted to demonstrate that the Government is not substantially increasing its risk. For example, when furnishing Government property, the Government is ordinarily responsible for suitability of use, timely delivery, and replacement of defective Government property.

(B) Other risks may need to be considered, discussed, and documented.

(iv) *Element 4: Government requirements cannot otherwise be met.* Document why the furnishing of Government property is critical and significant to meeting acquisition plan objectives.

PGI 245.103-71 Transferring Government property accountability.

(1) Use only the Standard Form 30 to execute transfers of Government property accountability between existing contracts. No other forms or documents, such as the DD Form 1149, Requisition and Invoice/Shipping Document, are authorized for the transfer of Government property accountability from one contract to another.

(2) Modifications for the transfer of Government property accountability shall:

(i) Use the Government-furnished property (GFP) attachment prescribed at PGI 245.103-72.

(ii) Incorporate FAR clauses 52.245-1, Government Property, and 52.245-9, Use and Charges, and the associated DFARS clauses (see 245.107, Contract clauses) to the extent that the gaining contract lacks the required clauses.

PGI 245.103-72 Government-furnished property attachments to solicitations and awards.

(a) When Government-furnished property (GFP) is anticipated, create the GFP attachment in the GFP module of the Procurement Integrated Enterprise Environment (PIEE) at <https://piee.eb.mil/piece-landing> to—

(1) Specify the required GFP data elements; and

(2) Identify GFP serially-managed items, GFP nonserially-managed items, and GFP items that may be requisitioned from the DoD supply system by the contractor; and

(3) Accomplish the electronic transmission of the GFP attachment to the contract in the Electronic Data Access application in the PIEE.

(b) For more information on the GFP attachments, see <https://dodprocurementtoolbox.com/site-pages/gfp-attachments.>]

PGI 245.103-73 Government property under sustainment contracts.

(1) Sustainment contracts, including those for performance-based logistics, sustainment support, contractor logistics support, life-cycle product support, and weapon systems product support (see 10 U.S.C. 4324(d)), may require the contractor to hold or manage Government inventory. In such cases, regularly scheduled (typically, semiannually) inventory reporting from the contractor is required to ensure that inventory levels meet program requirements and Government inventory in excess of authorized amounts is identified. The requiring activity is responsible for providing the contracting officer with reporting requirements for Government inventory. See the Data Item Description DI-PSSS-80727A, Government Furnished Material (GFM) by National Stock Number, and the instructions for completing the DD Form 1423 Contract Data Requirements List (CDRL) for inventory reporting requirements on sustainment contracts available at <http://dodprocurementtoolbox.com/site-pages/gfp-resources>.

(2) During acquisition planning, pricing contracts, exercising options, and assessing past performance, contracting officers should review the requiring activity's assessment of the information generated by the inventory reporting requirements.

(3) In some circumstances, under fixed-price sustainment contracts, contract deliverables consist of non-hardware items, such as operational readiness rate goals or mean time between failures of a system. In order to meet these deliverables, contractors are required to provide certain property items to the Government. In such cases, the contract does not include specific delivery line items requiring formal delivery of the property. By extension, the Government will not have title to the property at the time the contractor provides the property. In such cases, title to the property passes to the Government upon Government acceptance (as defined in FAR 46.101) of the items at the destination stated in the contract. Contracting officers shall ensure that the contract—

(i) Clearly defines how and when acceptance will be performed; and

(ii) Includes applicable requirements for quality assurance, part marking, anti-counterfeiting, or other requirement for the delivery of the property.

PGI 245.103-74 Contracting office responsibilities.

(1) Prepare the GFP attachments in accordance with the procedures in PGI 245.103-72.

(2) The following require a contract modification and an update to the GFP attachment in the GFP module of the PIEE to create a consolidated, conformed list of property to be contractually provided under the contract.

(i) Any change to the mandatory fields of the GFP attachment (see PGI 245.103-72).

(ii) Addition or deletion of any GFP or anticipated GFP under the contract.

(iii) Transfer of GFP accountability between existing contracts (see PGI 245.103-71).

(iv) Delivery and Government acceptance of contractor-acquired property when retained by the contractor for use under a contract (see PGI 245.402-71).

(v) Substitution of GFP for previously furnished GFP, GFP to be furnished, or property to be acquired by the contractor for the Government under the contract.

(vi) Withdrawal of authority for contractor use of GFP.

(3) Include in applicable solicitations and contracts the CDRL provided by the requiring activity for reporting Government inventory held under sustainment contracts (see PGI [245.103-73](#)).

PGI 245.105 Contractors property management system compliance.

(d) *Disposition of findings.*

(2) *Initial determination.*

(ii)(A) Within 30 days of receiving the report, if the contracting officer makes a determination that there is a material weakness, the contracting officer should provide an initial determination of material weaknesses and a copy of the report to the contractor and require the contractor to submit a written response.

(C) *Evaluation of contractor's response.* Within 30 days of receiving the contractor's response, the contracting officer, in consultation with the auditor or cognizant functional specialist, should evaluate the contractor's response and make a final determination.

(3) *Final determination.*

(ii)(A) *Monitoring contractor's corrective action.* The contracting officer, with the assistance of the auditor, shall monitor the contractor's progress in correcting material weaknesses and deficiencies. If the contractor fails to make adequate progress, the contracting officer shall take whatever action is necessary to ensure that the contractor corrects the weaknesses and deficiencies. Actions the contracting officer may take include: withdrawing or withholding approval of the system; bringing the issue to the attention of higher level management; <http://www.acq.osd.mil/dpap/dars/dfars/html/current/252242.htm#252.242-7005> recommending non-award of potential contracts, as applicable; and for material weaknesses, implementing or increasing the withholding in accordance with 252.242-7005, Contractor Business Systems.

(B) *Correction of material weaknesses.*

(1) When the contractor notifies the contracting officer that the contractor has corrected the material weaknesses, the contracting officer shall request that the auditor review the correction to determine if the weaknesses and deficiencies have been resolved.

(2) The contracting officer shall determine if the contractor has corrected the weaknesses and deficiencies.

(3) If the contracting officer determines the contractor has corrected the weaknesses and deficiencies, send the contracting officer's notification to the auditor; payment office; appropriate action officers responsible for reporting past performance at the requiring activities; and each contracting and contract administration office having substantial business with the contractor as applicable.

PGI 245.2 -SOLICITATION AND EVALUATION PROCEDURES

PGI 245.201 Solicitation.

PGI 245.201-70 Security classification.

Classified contracts are not exempt from including GFP attachments solely because the contracts are classified.

This page intentionally left blank.

PGI 245.4 -TITLE TO GOVERNMENT PROPERTY

PGI 245.402 Title to contractor-acquired property.

PGI 245.402-70 Policy.

Title vests in the Government for all property acquired or fabricated by the contractor in accordance with paragraph (e) (3) of the clause at FAR 52.245-1, Government Property. Oversight and visibility of contractor-acquired property (CAP) is accomplished through reviews and audits of contractor business systems, including—

- (1) Accounting systems (see DFARS 242.75);
- (2) Property management systems (see DFARS [245.105](#)); and
- (3) Material management and accounting systems (see DFARS 242.72).

PGI 245.402-71 Delivery of contractor-acquired property.

(1) The contractual transfer of accountability of CAP from one contract to another is prohibited. Only upon delivery under a line item can property be transferred to other contracts as Government-furnished property (GFP) (see PGI [245.103-71](#)).

(2) Upon delivery and acceptance by the Government, and when retained by the contractor for use under a contract, the delivered CAP items become GFP and shall be added to the contract GFP attachment (see PGI [245.103-72](#)).

(3) *Contractor-acquired property not anticipated at time of contract award.*

(i) For CAP not anticipated at the time of contract award, or not otherwise specified for delivery on an existing line item, the contracting officer shall direct delivery of the CAP items to the Government on a not separately priced (NSP) line item (e.g. contract line item, exhibit line item, etc.). Such items are typically identified through—

(A) Plant clearance in accordance with the clause at DFARS [252.245-7005 Management and Reporting of Government Property](#), Management and Reporting of Government Property;

(B) Inventory reports provided by the contractor in accordance with FAR clause [52.245-1](#); or

(C) Other reporting requirements specified in the contract.

(ii) The contracting officer shall direct delivery of CAP on a line item as soon as the CAP item is identified, if—

(A) The value of the item meets or exceeds the capitalization threshold as identified in the memorandum issued jointly by the Under Secretary of Defense (USD) Comptroller and the USD (Acquisition and Sustainment) on 20 September 2013, entitled, “Elimination of Military Equipment Definition and Increase to Capitalization Thresholds for General Property, Plant and Equipment” (available at <http://www.acq.osd.mil/pepolicy/pdfs/FinancialReportingGPPEMemo.pdf>) or;

(B) The item is special tooling, special test equipment, or equipment designated for preservation and storage under a major defense acquisition program (reference: Section 815 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110-417)).

(iii) Each NSP line item of CAP to be delivered to the Government shall include the following information:

Contractor-Acquired Property Delivery NSP Line Item

LI	Item Description/ Nomenclature	Type Designation	NSN	PIN	Quantity	Unit of Measure	Serial Number (UII)*	Unit Acquisition Cost	Date Placed in Service by the Contractor
x	x	As required	x	x	x	x	If known	x	x

*Contractor-acquired property items shall be marked as required by DFARS clause [252.211-7003](#).

(A) The value of any delivered CAP item shall be at the contractor provided fully burdened cost, i.e., normal or provisional burdens to the direct costs in accordance with the applicable disclosed accounting practices, including an appropriate amount for fee or profit (as reflected in the contract under which the estimate is prepared) in addition to the direct and indirect costs. This is consistent with DFARS [211.274-3](#), Policy for valuation, regarding unit acquisition cost.

(B) Unless otherwise noted by the contractor at the time of delivery to the Government, the placed-in-service date shall be the date of acquisition or, if fabricated, the date of completed manufacture.

This page intentionally left blank.

PGI 245.6 -REPORTING, REUTILIZATION, AND DISPOSAL

PGI 245.602-70 Plant clearance procedures.

(1) Upon receipt of acceptable inventory schedules, the plant clearance officer (PLCO) shall assign a plant clearance case number using DD Form 1635 (or an automated equivalent) and establish a case file.

(2) The plant clearance case number shall be established using a three-part, 11-character number as follows:

(i) Part 1: DoD Activity Address Code (six-character alphanumeric code) assigned to the contract administration activity.

(ii) Part 2: Locally assigned four-character consecutive alphanumeric code, beginning each calendar year with "001" continuing as necessary through "zzz." The fourth character is the last digit of the calendar year, e.g., "0013" for the first case of calendar year 2003.

(iii) Part 3: The 11th character is a single letter identifying the department or agency:

- C-Army
- Q-Navy
- E-Air Force
- L-Marine Corps
- U-Defense Logistics Agency
- N-Defense Threat Reduction Agency
- M-National Geospatial-Intelligence Agency
- S-NASA
- D-Other DoD activities
- O-Non-DoD activities

(3) The case file shall contain copies of all documents relevant to the case, e.g., correspondence, review board findings, anti-trust clearances, and reports.

(4) PLCOs will use DD Form 1638, Report of Disposition of Contractor Inventory, or an automated equivalent to report the disposition of contractor inventory. Do not include disposition actions transferred to other offices. Complete only the column total for each line of this report. The report is self-explanatory except—

(i) Line 1—insert totals from line 7 of the preceding report;

(ii) Line 2—insert net changes due to shortages, overages, errors, or withdrawals (other than purchases or retention at cost);

(iii) Line 3—insert total excess inventory reported by contractors during the report period;

(iv) Line 5—insert total plant clearance cases completed during the report period. Do not report cases as completed until all property has been disposed. Acquisition cost must equal line 19;

(v) Line 8—insert amount retained or withdrawn at full cost;

(vi) Line 9—insert acquisition cost in the "Acquisition Cost" column and insert acquisition cost less handling, transportation, or restocking charges, in the "Proceeds" column;

(vii) Line 10—insert acquisition cost of all transfers completed during the report period. On lines 10A through 10H, insert subtotals representing transfers to the agency indicated. Exclude amounts on lines 10A through 10H when computing line 19 totals;

(viii) Line 12—insert the acquisition cost and gross proceeds;

(ix) Lines 14 and 15—used to identify and report other transactions, and

(x) Line 18—insert section II totals. Line 18 acquisition cost must equal acquisition cost on line 5.

(5) The PLCO will prepare quarterly reports for periods ending March 31, June 30, September 30, and December 31. Activities preparing manual reports will submit duplicate reports to the headquarters of the administering activity within 10 working days after the close of the report period (Report Control Symbol DD(I&L)(Q)1430 applies).

(6) Upon completion of the plant clearance action, the PLCO shall prepare a Standard Form 1424, Inventory Disposal Report. The form is self-explanatory except—

(i) Item 12—insert net change due to shortages, overages, errors, pricing, or withdrawals, etc. Explain in item 18, Remarks;

(ii) Item 14—insert amount contractor is retaining or purchasing at acquisition cost;

(iii) Item 15—insert acquisition cost and net credit (full credit less approved handling, transportation, and restocking charges for items returned to supplier);

(iv) Item 16—insert the acquisition cost for all transfers accomplished. For lines 16A and 16B, insert subtotals as indicated;

(v) Item 18—insert acquisition cost and gross proceeds;

(vi) Items 20 and 21—use to identify and report transactions not otherwise identified, such as items shipped to a Government precious metals reclamation activity, etc. Further explanation may be provided in item 26, Remarks, if necessary;

(vii) Item 26—show the specific disposition of proceeds reported in items 14, 15, and 18. Also, indicate amounts deleted for specific contractor claims, or applied as a credit to the claim; and

(viii) Item 27—total dispositions must equal the amounts on line 13, and must reflect all disposal actions within the case.

(7) When contractor inventory with an estimated fair market value of \$3 million or more, or any patents, processes, techniques, or inventions, regardless of cost, are sold or otherwise disposed of to private interests, notify the Attorney General and the General Services Administration (GSA) of the proposed terms and conditions of disposal. Submit the following information to the Department of Justice and GSA through contract administration agency channels (Report Control Symbol DD-ACQ(AR)1492 applies):

(i) Location and description of property (specify tonnage if scrap).

(ii) Proposed sale price (explain if the proposed purchaser was not highest bidder).

(iii) Acquisition cost of property.

(iv) Manner of sale, indicating whether by—

(A) Sealed bid (specify number of bidders solicited and bids received);

(B) Auction or spot bid (state how sale was advertised);

(C) Negotiation (explain why property was not sold competitively);

(D) Proposed purchaser's name, address, and trade name (if any) under which proposed purchaser is doing business;

(E) If a corporation, provide state and date of incorporation, and name and address of—

(1) Each holder of 25 percent or more of the corporate stock;

(2) Each subsidiary; and

(3) Each company under common control with proposed purchaser.

(4) If a partnership, provide—

(a) Name and address of each partner; and

(b) Other business connections of each partner;

(c) Nature of proposed purchaser's business (indicate whether its scope is local, statewide, regional, or national);

(d) Estimated dollar volume of sales of proposed purchaser (as of latest calendar or fiscal year);

(e) Estimated net worth of proposed purchaser; and

(f) Intended use of property.

(8) Do not dispose of property until the Attorney General determines whether the proposed disposal action would tend to create or maintain a situation inconsistent with the antitrust laws.

(9) If the Attorney General advises that the proposed disposition is inconsistent with the antitrust laws, do not continue with the proposed disposition.

(10) Under noncompetitive sales, the prospective purchaser shall be informed that final consummation of the sale is subject to determination by the Attorney General.

(11) The disposal of contractor inventory is the responsibility of the contractor. However, the disposal/sales services of the Defense Logistics Agency (DLA) Disposition Services or a Federal agency, e.g., GSA, may be used in unusual or compelling circumstances, as determined by the contracting officer to be in the best interest of the Government, and provided DLA Disposition Services/the agency agrees. In such cases, disposal/sales services may be provided on a reimbursable basis, with any sale proceeds credited in compliance with FAR 45.604-4, Proceeds from sales of surplus property. If sale services are needed, the plant clearance officer will document the reasons in the case file and make arrangements directly with DLA Disposition Services, GSA, other Federal agency, or third-party. The arrangements will include a requirement to return all proceeds to the plant clearance officer for crediting in compliance with FAR 45.604-4.

(12) The PLCO shall, prior to sales contract award—

(i) Ensure the prospective buyer is not an ineligible transferee, including those on found in the System for Award Management (SAM) Exclusions. For additional information see <https://www.acquisition.gov>;

(ii) Cross-reference contractor inventory to a National Stock Number and Demilitarization code. For additional information, see FED LOG or WEBFLIS at <http://www.dlis.dla.mil/webflis/> and the current edition of the DoD Demilitarization Manual at <http://www.dtic.mil/whs/directives/>;

(iii) Consult with the DoD Demilitarization (Demil)/Trade Security Control (TSC) Program office to determine if the contractor inventory can be sold to the public; and if a TSC assessment of the prospective buyer is required. Reference DoD Instruction 2030.08, Implementation of Trade Security Controls (TSC) for Transfers of DoD U.S. Munitions List (USML) and Commerce Control List (CCL) Personal Property to Parties Outside DoD Control; and Defense Demilitarization Manual, DoD 4160.28-M;

(iv) If TSC is required, provide the DoD Demil/TSC Program office with a completed DLA Form 1822 End-Use Certificate (EUC) for the prospective buyer. Note: TSC assessments/EUCs are typically not required for scrap sales; and

(v) Upon TSC clearance (if required) of the prospective buyer, authorize the contractor to complete the sale, as applicable.

(13) To the extent that demilitarization, mutilation, or destruction is required, the PLCO may authorize the contractor to perform such action as follows:

(i) Demilitarization, mutilation, or destruction by the contractor or buyer as a condition of sale;

(ii) Shipment to a DoD disposal activity (contingent upon packing, crating, handling, and transportation funding), or

(iii) Such other actions as are included in the terms and conditions of the contract.

(14) The PLCO shall use the DD Form 1641, Disposal Determination Approval, or electronic equivalent to record the rationale for the following disposal determinations:

(i) Downgrade useable property to scrap.

(ii) Abandonment or destruction.

(iii) Noncompetitive sale of surplus property.

(iv) Other disposal actions.

(15) The PCLO shall use the SF 97, Certificate of Release of a Motor Vehicle (Agency Record Copy) for transfers, donations, and sales of motor vehicles and furnish a copy to the purchaser.

(16) Security assistance transfers or foreign military sales shall be conducted in accordance with the terms and conditions of the contract and consistent with DoD 5105.38-M Security Assistance Management Manual.

(17) The plant clearance officer may send a notice of proposed surplus sale to (<http://www.sam.gov>) if the items have potentially high public interest.

This page intentionally left blank.

PGI 246.1 -GENERAL**PGI 246.103 Contracting office responsibilities.**

- (2)(i) In preparing instructions for Government inspections, the technical activity shall consider, as applicable—
 - (A) The past quality history of the contractor;
 - (B) The criticality of the material procured in relation to its intended use, considering factors such as—
 - (1) Reliability;
 - (2) Safety;
 - (3) Interchangeability; and
 - (4) Maintainability;
 - (C) Problems encountered in the development of the material;
 - (D) Problems encountered in other procurements of the same or similar material;
 - (E) Available feedback data from contract administration, receiving, testing, or using activities; and
 - (F) The experience of other contractors in overcoming manufacturing problems.
- (ii) The instructions shall—
 - (A) Be kept to a minimum;
 - (B) Ensure that the activities requested are in direct relation to contract quality requirements to serve as objective evidence of quality conformance; and
 - (C) Be prepared on a contract-by-contract basis.
- (iii) The instructions shall not—
 - (A) Serve as a substitute for incomplete contract quality requirements;
 - (B) Impose greater inspection requirements than are in the contract;
 - (C) Use broad or general designations such as—
 - (1) All requirements;
 - (2) All characteristics; or
 - (3) All characteristics in the classification of defects;
 - (D) Be used for routine administrative procedures; or
 - (E) Specify continued inspection requirements when statistically sound sampling will provide an adequate degree of protection.
- (iv) After issuing the instructions, the technical activity must—
 - (A) Provide the contract administration office with available information regarding those factors that resulted in the requirement for Government inspection;
 - (B) Periodically analyze the need to continue, change, or discontinue the instructions; and
 - (C) Advise the contract administration office of the results of the periodic analyses.

This page intentionally left blank.

PGI 246.3 -CONTRACT CLAUSES

PGI 246.370 Notification of potential safety issues.

(1) The objective of this requirement is to ensure that the Government receives timely notification of potential safety defects so that—

(i) Systems and equipment likely affected by the situation can be identified; and

(ii) An appropriate engineering investigation and follow-on actions can be taken to establish and mitigate risk.

(2) The notification is intended to be neither an admission of nor a release from liability.

(3) Upon notification of a potential safety nonconformance or deficiency—

(i) The procuring contracting officer must—

(A) Advise the affected program office(s) or integrated materiel manager(s); and

(B) Request a point of contact from the affected program office(s) or materiel management organization to assess the impact of the situation, address technical concerns, and provide recommendations;

(ii) The administrative contracting officer must—

(A) Confirm that potentially affected program offices, integrated materiel managers, and other contract management offices that may be recipients of the suspect items are aware of the situation; and

(B) Identify a point of contact to provide support and technical assistance to the investigative team; and

(iii) For replenishment parts, the integrated materiel manager must—

(A) Identify any potentially affected programs or equipment; and

(B) Request engineering assistance from affected engineering support activities, as prescribed by—

(1) DLAI 3200.1/PAM 715.13/NAVSUPINST 4120.30A/AFI 21-408/MCO 4000.18, Engineering Support Instruction for Items Supplied by Defense Logistics Agency;

(2) SECNAVINST 4140.2/AFI 20-106/DA PAM 95-9/DLAI 3200.4/DCMA INST CSI (AV), Management of Aviation Critical Safety Items;

(3) DA PAM 738-751, Functional Users Manual for the Army Maintenance Management System—Aviation (TAMMS-A);

(4) AMCOM REG 702-7, Flight Safety Parts/New Source Testing Program Management; or

(5) Internal agency procedures.

This page intentionally left blank.

PGI 246.4 -GOVERNMENT CONTRACT QUALITY ASSURANCE

PGI 246.407 Nonconforming supplies or services.

Additional information on delegation of authority for acceptance of minor nonconformances in aviation and ship critical safety items is available at <http://www.aviation.dla.mil/UserWeb/AviationEngineering/EngineeringSupport/Documents/AviationCSHandbook.pdf>.

PGI 246.470 Government contract quality assurance actions.

PGI 246.470-2 Quality evaluation data.

Types of quality evaluation data are—

- (1) Quality data developed by the contractor during performance;
- (2) Data developed by the Government through contract quality assurance actions; and
- (3) Reports by users and customers.

PGI 246.472 Inspection stamping.

- (a)(i) There are two DoD quality inspection approval marking designs (stamps).
 - (A) Both stamps are used—
 - (1) Only by, or under the direct supervision of, the Government representative; and
 - (2) For both prime and subcontracts.
 - (B) The designs of the two stamps and the differences in their uses are—
 - (1) *Partial (Circle) Inspection Approval Stamp*.
 - (i) This circular stamp is used to identify material inspected for conformance to only a portion of the contract quality requirements.
 - (ii) Further inspection is to be performed at another time and/or place.
 - (iii) Material not inspected is so listed on the associated DD Form 250 (Material Inspection and Receiving Report), packing list, or comparable document.
 - (2) *Complete (Square) Inspection Approval Stamp*.
 - (i) This square stamp is used to identify material completely inspected for all contract quality requirements at source.
 - (ii) The material satisfies all contract quality requirements and is in complete conformance with all contract quality requirements applicable at the time and place of inspection.
 - (iii) Complete inspection approval establishes that material that once was partially approved has subsequently been completely approved.
 - (iv) One imprint of the square stamp voids multiple imprints of the circle stamp.
 - (ii) The marking of each item is neither required nor prohibited. Ordinarily, the stamping of shipping containers, packing lists, or routing tickets serves to adequately indicate the status of the material and to control or facilitate its movement.
 - (iii) Stamping material does not mean that it has been accepted by the Government. Evidence of acceptance is ordinarily a signed acceptance certificate on the DD Form 250, Material Inspection and Receiving Report.

246.408 Single-agency assignments of Government contract quality assurance.

246.408-71 Aircraft.

- (c) The CAO shall ensure that—
 - (i) A detailed consultation with the FAA Military Certification Office (MCO) (contact the MCO here: http://www.faa.gov/about/office_org/headquarters_offices/avs/offices/air/directorates_field/small_airplanes/mco) is documented regarding the scope of the acquisition or modification project;
 - (ii) Supporting contractual documents (meeting minutes, an email record of consultations, memoranda, etc.) demonstrate that the scope of work is feasible and compatible with FAA regulations and policy;
 - (iii) The period of performance and contract deliverable dates are consistent with FAA capabilities; and
 - (iv) Contract provisions requiring FAA approval or processes are coordinated with the MCO prior to a solicitation.

This page intentionally left blank.

PGI 246.7 -WARRANTIES

PGI 246.701 Definitions.

“Duration,” “fixed expiration,” “starting event,” “usage,” and “warranty repair source” are defined in the clause at [252.246-7006](#), Warranty Tracking of Serialized Items.

PGI 246.710 RESERVED

PGI 246.710-70 Warranty attachments.

(1) The following attachments shall be included in solicitations and awards to specify the required data elements for warranties of serialized items:

(i) *Warranty Tracking Information*. This format is used to specify the required warranty tracking data elements and accomplish the electronic transmission of the list of warranty items. All fields of this attachment must be completed at the time of award, except the unique item identifier field, which may be completed after the time of award, but no later than when the warranted items are presented for receipt and/or acceptance.

(ii) *Source of Repair Instructions*. This format is used to specify the required warranty source of repair data elements and accomplish the electronic transmission of the source of repair data for each warranty item. This attachment shall be completed no later than when the warranted items are presented for receipt and/or acceptance.

(2) Warranty attachments shall be—

(i) Completed electronically using the fillable PDF format or downloadable Excel format available on the Product Data Reporting and Evaluation Program (PDREP) website at https://www.pdrep.csd.disa.mil/pdrep_files/other/wsr.htm; and

(ii) Numbered in accordance with PGI [204.7105](#) (b)(5).

(3) If the Government specifies a warranty, the contracting officer shall request the requiring activity to provide information to ensure that the “Warranty Tracking Information” attachment is populated with data specifying the Government’s required warranty terms by contract line item number, subline item number, or exhibit line item number prior to solicitation. One of the following is required to populate the attachment for each warranted item: starting event, usage, duration, or fixed expiration date.

(4) If the Government does not specify a warranty, the contracting officer may require offerors to provide warranty data by populating the “Warranty Tracking Information” attachment, as appropriate, and include the attachment as part of its offer, in accordance with the provision at [252.246-7005](#), Notice of Warranty Tracking of Serialized Items.

(5) As required in the clause at [252.246-7006](#), Warranty Tracking of Serialized Items, the contractor is required to provide the following information no later than the time of receipt and/or acceptance of warranted items:

(i) The unique item identifier for each warranted item on the “Warranty Tracking Information” attachment.

(ii) The warranty repair source information and instructions required by the “Source of Repair Instructions” attachment.

(6) The contracting officer shall ensure the completed warranty attachments are uploaded to the Electronic Data Access (EDA) system (see DFARS [204.270](#) for information on obtaining an EDA account).

(7) For additional information on the warranty attachments, see the “Warranty and Source of Repair” training and “Warranty and Source of Repair Tracking User Guide” accessible on the PDREP site at https://www.pdrep.csd.disa.mil/pdrep_files/other/wsr.htm.

PGI 247.2 -CONTRACTS FOR TRANSPORTATION OR FOR TRANSPORTATION-RELATED SERVICES

PGI 247.200 Scope of subpart.

For general cargo provisions, see DTR 4500.9-R, Defense Transportation Regulation (DTR), Part II, Chapter 201, paragraphs L, M, N, and S (available at http://www.transcom.mil/dtr/part-ii/dtr_part_ii_201.pdf).

PGI 247.271 RESERVED**PGI 247.271-2 Procedures.**

(a) *Contiguous United States military activities assigned multi-service personal property areas of responsibility.*

(1) When two or more military installations or activities have personal property responsibilities in a given area, one activity must contract for the estimated requirements of all activities in the area. The installation commanders concerned must designate the activity by mutual agreement.

(2) The Commander, Military Surface Deployment and Distribution Command (SDDC), must designate the contracting activity when local commanders are unable to reach agreement.

(b) *Additional services and excess requirements.*

(1) When requiring activities need additional services that exceed contractor capabilities available under contracts, contracting officers should use simplified acquisition procedures to satisfy those excess requirements.

(2) Additional services are those not specified in the bid items.

(i) Additional services may include—

- (A) Hoisting or lowering of articles;
- (B) Waiting time;
- (C) Special packaging; and
- (D) Stuffing or unstuffing of sea van containers.

(ii) Contracting officers should consider contracting for local moves that do not require drayage by using hourly rate or constructive weight methods. The rate will include those services necessary for completion of the movement, including—

- (A) Packing and unpacking;
- (B) Movement;
- (C) Inventorying; and
- (D) Removal of debris.

(iii) Each personal property shipping activity must determine if local requirements exist for any additional services.

(iv) The contracting officer may obtain additional services by—

(A) Including them as items within the contract, provided they are not used in the evaluation of bids (see DFARS [252.247-7008](#), Evaluation of Bids); or

(B) Using simplified acquisition procedures.

(v) Either predetermine prices for additional services with the contractor, or negotiate them on a case-by-case basis.

(vi) The contracting officer must authorize the contractor to perform any additional services, other than attempted pick up or delivery, regardless of the contracting method.

(vii) To the maximum extent possible, identify additional services required that are incidental to an order before placing the order, or, when applicable, during the pre-move survey.

(c) *Contract distribution.*

(1) Contiguous United States personal property shipping activities must send the copy to the Commander, Military Surface Deployment and Distribution Command (SDDC), ATTN: AMSSD-PP, 709 Ward Drive, Scott AFB IL 62225.

(2) In the European and Pacific areas, personal property shipping activities must send the copy to either the Property Directorate, SDDC Europe, or the Field Office-Pacific.

(3) Other overseas personal property shipping activities must send the copy to the Commander, Military Surface Deployment and Distribution Command, ATTN: AMSSD-PP, 709 Ward Drive, Scott AFB IL 62225.

(d) When preparing solicitations for personal property for shipment or storage, and intra-area or intra-city movement, contracting officers should follow the procedures in DTR 4500.9-R, Part IV, Chapter 404 at <http://www.transcom.mil/dtr/part-iv/dtr-part-4-404.pdf>, and Appendix G at <http://www.transcom.mil/dtr/part-iv/dtr-part-4-app-g.pdf>.

PGI 247.271-3 Solicitation provisions, schedule formats, and contract clauses.

(c) DTR 4500.9-R, Defense Transportation Regulation, Part IV, Appendix G-3 (available at <http://www.transcom.mil/dtr/part-iv/dtr-part-4-app-g3.pdf>), contains guidance on schedules as follows:

Schedule I Outbound Services, Pages 6-12.

Schedule II Inbound Services, Pages 13-17.

Schedule III Intra-City and Intra-Area Moves, Page 18.

(1) *Demurrage and detention charges.*

(i) Carrier demurrage/detention is a charge made against a consignor (shipper) or consignee (receiver) for the extended use of carrier-furnished equipment when delays attributable to the consignor or consignee occur. Carrier demurrage/detention rules usually allow a period of free time for loading, unloading, or holding equipment.

(ii) Carrier-published demurrage/detention rules and charges are not uniform from one carrier to another. Contracting officers should specifically address them in the contract. While demurrage/detention rules are published in individual carrier tariffs or agency tenders, Contracting Officers may negotiate contract-specific demurrage/detention rules and charges independent of any existing tariffs or tenders.

(6) Process any modification of schedule format, other than those authorized in paragraph (c) of this subsection, as a request for deviation to the Commander, SDDC.

PGI 247.3 -TRANSPORTATION IN SUPPLY CONTRACTS

PGI 247.301 General.

Transportation guidance relating to Governmentwide commercial purchase card purchases is available in the Department of Defense Government Charge Card Guidebook for Establishing and Managing Purchase, Travel, and Fuel Card Programs, Appendix C, at <https://www.acq.osd.mil/asda/dpc/ce/pc/docs-guides.html>.

PGI 247.305 Solicitation provisions, contract clauses, and transportation factors.

PGI 247.305-10 Packing, marking, and consignment instructions.

Follow the procedures in DTR 4500.9-R, Defense Transportation Regulation, Part II, Chapter 208 http://www.transcom.mil/j5/pt/dtrpart2/dtr_part_ii_208.pdf.

Additional guidance for marking can be found at MIL-STD-129P (Document ID 129P) at <http://quicksearch.dla.mil/> and AR 700-15 at http://www.apd.army.mil/jw2/xmldemo/r700_15/cover.asp.

Consignment locations can be found in the Transportation Facilities Guide (TFG) on the SDDC website at <https://eta.sddc.army.mil/default.asp?fa=general>. Access to this site requires an Electronic Transportation Account.

PGI 247.370 DD Form 1384, Transportation Control and Movement.

DTR 4500.9-R, Defense Transportation Regulation, Part II, Chapter 203 is available at http://www.transcom.mil/dtr/part-ii/dtr_part_ii_203.pdf.

This page intentionally left blank.

PGI 247.5 -OCEAN TRANSPORTATION BY U.S.-FLAG VESSELS

PGI 247.573 General.

(a) *Delegated authority.*

(1) The authority to make determinations that a U.S.-flag vessel is not available at a fair and reasonable rate for commercial vessels of the United States, or is otherwise not available, is delegated in the Secretary of Defense Memorandum dated August 25, 2021, to—

- (i) The Commander, United States Transportation Command (USTRANSCOM); and
- (ii) The Secretary of the Navy.

(2) In accordance with the Commander, USTRANSCOM, Memorandum dated March 1, 2023, the authority at paragraph (a)(1) of this section is further delegated as follows:

- (i) The Director, Acquisition (TCAQ) is delegated the authority to make determinations that a U.S.-flag vessel is not available for liner or intermodal services at a fair and reasonable rate for commercial vessels of the United States.
- (ii) The Commander, Military Surface Deployment and Distribution Command (MSDDC) is delegated the authority to make determinations that a U.S.-flag vessel is otherwise not available for liner or intermodal services.
- (iii) The Commander, Military Sealift Command (MSC) is delegated the authority to make determinations that a U.S.-flag vessel is not available at a fair and reasonable rate for commercial vessels of the United States or is otherwise not available for charter contracts.

(3) In accordance with the Secretary of the Navy Memorandum dated March 3, 2022, the Commander, MSC is delegated the authority to make determinations that a U.S.-flag vessel is not available at a fair and reasonable rate for commercial vessels of the United States or is otherwise not available for charter contracts.

(4) Contracting officers are not delegated the authority at paragraph (a)(1) of this section and therefore are not authorized to waive the use of U.S.-flag vessels.

(b) *Procedures.*

(1) Contracting officers shall follow these procedures when ocean transportation is not the principal purpose of the contract, and the cargo to be transported is owned by, destined for use by, or otherwise transported by DoD.

(i)(A) If the contractor notifies the contracting officer that the contractor considers that no U.S.-flag vessels are available, the contracting officer shall review that notification. If the contracting officer agrees with the contractor's request, then the contracting officer shall request a nonavailability waiver, in determination and findings format, using details received from the contractor in accordance with paragraph (d) of the clause at DFARS 252.247-7023, from—

(I) The Commander, MSC, through the Contracts and Business Management Directorate, MSC (*MSC_N103_FFW@us.navy.mil*), for vessel charters; or

(2) The Commander, MSDDC, by email at *usarmy.scott.sddc.mbx.g3-ffw-team@army.mil* for ocean liner and intermodal transportation.

(B) Pursuant to their delegations from the Secretary of the Navy or the Commander, USTRANSCOM, the Commander, MSC, or the Commander, MSDDC, will make a determination to approve a waiver based on nonavailability of a U.S.-flag vessel. Upon receipt of an approved waiver, the contracting officer shall provide the contractor with written approval to use a non-U.S. flag carrier in accordance with that waiver. Variances from that approved waiver, including changing the foreign-flag vessel approved for use, may require a new request and approval from the cognizant waiver approval authority. Additionally, see contractors' bill of lading submission requirement at paragraph (e) of the clause at DFARS 252.247-7023.

(ii) If the contractor notifies the contracting officer that the contractor considers that U.S.-flag carriers are not available at a fair and reasonable rate for commercial vessels of the United States, and if the contracting officer agrees with the contractor's assertion—

(A) The contracting officer shall prepare a waiver request in determination and findings format, and shall—

(I) Take into consideration that the Military Cargo Preference Act of 1904 is, in part, a subsidy of the U.S.-flag commercial shipping industry that recognizes that lower prices may be available from foreign-flag carriers. Therefore, a lower price for use of a foreign-flag vessel is not a sufficient basis, on its own, to determine that a U.S.-flag vessel is not available at a fair and reasonable rate for commercial vessels of the United States for the services sought. However, such a price differential may indicate a need for further review;

(2) Include a description of efforts taken pursuant to FAR 15.405 to negotiate a reasonable price. For the purpose of FAR 15.405(d), this waiver request is the referral to a level above the contracting officer; and

(3) Include an analysis of price reasonableness, taking into account factors such as—

- (i) A comparison of U.S.-flag rates charged on comparable routes, or for similar services;
- (ii) Any other relevant economic and financial considerations; and

(B) The contracting officer shall forward the waiver request to—

(1) The Commander, MSC, through the Contracts and Business Management Directorate, MSC (*MSC_N103_FFW@us.navy.mil*), for charters; or

(2) The USTRANSCOM Director of Acquisition, through the Sealift Services Division (*transcom.scott.tcaq.mbx.i-foreign-flag-waiver@mail.mil*), for ocean liner and intermodal transportation.

(C) Pursuant to their delegations from the Secretary of the Navy and the Commander, USTRANSCOM, the Commander, MSC, or the USTRANSCOM Director of Acquisition, will make a determination whether to approve the request that a U.S.-flag vessel is not available at a fair and reasonable rate for commercial vessels of the United States. Upon receipt of an approved waiver, the contracting officer shall provide the contractor with written approval to use a non-U.S. flag carrier, in accordance with the terms of that waiver. Variances from that approved waiver, including changing the foreign-flag vessel approved for use, may require a new request and approval from the cognizant waiver approval authority. Additionally, see contractors' bill of lading submission requirement at paragraph (e)(1) of the clause at DFARS 252.247-7023.

(2) Contracting officers shall follow these procedures when the direct purchase of ocean transportation services is the principal purpose of the contract.

(i) Direct purchase of ocean transportation may include—

- (A) Contracts for charter vessel services;
- (B) Dedicated contractor contracts for charter vessel services;
- (C) Ocean bills of lading;
- (D) Subcontracts under Government contracts or agreements for ocean transportation services; and
- (E) Ocean liner contracts (including contracts where ocean liner transportation is part of an intermodal movement).

(F) Ferry service.

(ii) Coordinate these acquisitions, as appropriate, with USTRANSCOM, the DoD single manager for commercial transportation and related services, other than Service-unique or theater-assigned transportation assets, in accordance with DoDD 4500.09, Transportation and Traffic Management, and DoDI 4500.57, Transportation and Traffic Management.

(iii) All solicitations within the scope of this section shall provide—

- (A) A preference for U.S.-flag vessels in accordance with the Military Cargo Preference Act of 1904;
- (B) An evaluation criterion for offeror participation in the Voluntary Intermodal Sealift Agreement (for cargo movement only); and

(C) An evaluation criterion considering the extent to which offerors have had overhaul, repair, and maintenance work for all covered vessels in an offeror's fleet performed in shipyards located in the United States or Guam as applicable under DFARS 247.572(d).

(iv) Do not award a contract of the type described in paragraph (b)(2)(i) of this section for a foreign-flag vessel unless—

(A) The Commander, MSC, or the Commander, MSDDC, has issued a waiver that no U.S.-flag vessels are available;

(1) The Commander, MSC, and the Commander, MSDDC, are authorized to issue waivers regarding the availability of U.S.-flag vessels to ensure the proper use of Government and private U.S. vessels;

(2) The contracting officer shall request such waivers—

(i) For vessel charters, through the Contracts and Business Management Directorate, MSC (*MSC_N103_FFW@us.navy.mil*); and

(ii) For ocean liner and intermodal transportation, including contracts for shipment of military household goods and privately-owned vehicles, through MSDDC by email at *usarmy.scott.sddc.mbx.g3-ffw-team@army.mil*;

(3) For ocean liner and intermodal transportation, in the absence of regularly scheduled U.S.-flag service to fulfill stated DoD requirements, the Commander, MSDDC, may grant, on a case-by-case basis, an on-going nonavailability waiver for foreign-flag service approval with predetermined review date(s);

(4) The contracting officer shall prepare a waiver request documenting nonavailability in determination and findings format and shall forward the waiver request to—

(i) The Commander, MSC, through the Contracts and Business Management Directorate, MSC (*MSC_N103_FFW@us.navy.mil*), for vessel charters; or

(ii) The Commander, MSDDC, by email at usarmy.scott.sddc.mbx.ffw-team@mail.mil for ocean liner and intermodal transportation; and

(5) Upon receipt of an approved waiver, the contracting officer shall provide the contractor with written approval to use a non-U.S. flag carrier, in accordance with that waiver.

(B) Pursuant to their delegations from the Secretary of the Navy and the Commander, USTRANSCOM, the Commander, MSC, or the USTRANSCOM Director of Acquisition possess approval authority to grant a waiver based on nonavailability of a U.S.-flag vessel based on a determination that the proposed freight charges for U.S.-flag vessels are not fair and reasonable for commercial vessels of the United States.

(I) After considering the factors in paragraph (b)(1)(ii)(A)(I) of this section, if the contracting officer concludes that the freight or charter charges proposed by U.S.-flag carriers may not be fair and reasonable for commercial vessels of the United States, the contracting officer shall prepare a waiver request in determination and findings format that includes—

(i) A description of efforts taken pursuant to FAR 15.405 to negotiate a reasonable price. For the purpose of FAR 15.405(d), this waiver request is the referral to a level above the contracting officer; and

(ii) An analysis of price reasonableness, taking into consideration factors such as those listed at paragraph (b)(1)(i)(A)(2) of this section.

(2) The contracting officer shall forward the waiver request to—

(i) The Commander, MSC, through the Contracts and Business Management Directorate, MSC (MSC_N103_FFW@us.navy.mil), for vessel charters; or

(ii) The USTRANSCOM Director of Acquisition, through the Sealift Services Division (transcom.scott.tcaq.mbx.i-foreign-flag-waiver@mail.mil).

(3) Upon receipt of an approved waiver, the contracting officer shall provide the contractor with written approval to use a non-U.S. flag carrier, in accordance with that waiver.

(3) When security background checks are required pursuant to paragraph (c)(2) of the clause at DFARS 252.247-7027, Riding Gang Member Requirements, contracting officers shall specify in the contract the responsible security office to coordinate a Tier 1 investigation pursuant to Federal Investigations Notice 15-03, dated November 4, 2014. Contracting officers shall accordingly specify in the contract the requirement for Tier 1 investigations to satisfy the requirement for background checks at paragraph (c)(2) of the clause at DFARS 252.247-7027.

		249.7001	

This page intentionally left blank.

PGI 249.1 -GENERAL PRINCIPLES

PGI 249.105 Duties of termination contracting officer after issuance of notice of termination.

PGI 249.105-1 Termination status reports.

When the contract administration office receives a termination notice, it will—

- (1) Prepare a DD Form 1598, Contract Termination Status Report;
- (2) Within 30 days, send one copy to the purchasing office and one copy to the headquarters office to which the contract administration office is directly responsible;
- (3) Continue reporting semiannually to cover the six-month periods ending March and September. The semiannual reports must be submitted within 30 days after the end of the reporting period; and
- (4) Submit a final report within 30 days after closing the termination case.

PGI 249.105-2 Release of excess funds.

The DD Form 1598, Contract Termination Status Report, may be used to recommend the release of excess funds. Include the accounting classification reference numbers, funds citations, and allocated amounts in any recommendation for release of excess funds.

PGI 249.109 Settlement agreements.

PGI 249.109-7 Settlement by determination.

- (1) Use a Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, to settle a convenience termination by determination—
 - (i) When the contractor has lost its right of appeal because it failed to submit a timely settlement proposal; and
 - (ii) To confirm the determination when the contractor does not appeal the termination contracting officer's decision.
- (2) The effective date of the SF 30 shall be the same as the date of the letter of determination. Do not assign a supplementary procurement instrument identification number to the letter of determination. Send a copy of the SF 30 to the contractor by certified mail return receipt requested.

PGI 249.109-70 Limitation on pricing of the terminated effort.

When there is a termination for convenience (partial or whole) or a change that reduces scope, the price of the terminated or reduced effort that the contractor is required to credit back to the Government shall not be more than the original amount placed on contract for that effort.

PGI 249.110 Settlement negotiation memorandum.

- (1) *Fixed-price contracts.* Use the format in Table 49-1, Settlement Memorandum Fixed-Price Contracts, for the termination contracting officer's settlement memorandum for fixed-price contracts terminated for the convenience of the Government. Encourage contractors and subcontractors to use this format, appropriately modified, for subcontract settlements submitted for review and approval.
- (2) *Cost-reimbursement contracts.* Use Part I of the format in Table 49-1 and Part II of the format in Table 49-2, Settlement Memorandum for Cost-Reimbursement Contracts, for the termination contracting officer's settlement memorandum for cost-reimbursement contracts:

TABLE 49-1, SETTLEMENT MEMORANDUM FIXED-PRICE CONTRACTS

PART I—GENERAL INFORMATION

1. Identification. (Identify memorandum as to its purpose and content.)
 - a. Name and address of the contractor. Comment on any pertinent affiliation between prime and subcontractors relative to the overall settlement.
 - b. Names and titles of both contractor and Government personnel who participated in the negotiation.
2. Description of terminated contract.
 - a. Date of contract and contract number.
 - b. Type of contract (e.g., fixed-price, fixed-price incentive).

- c. General description of contract items.
 - d. Total contract price.
 - e. Furnish reference to the contract termination clauses (cite FAR/DFARS designation or other special provisions).
 - 3. Termination notice.
 - a. Reference termination notice and state effective date of termination.
 - b. Scope and nature of termination (complete or partial), items terminated, and unit price and total price of items terminated.
 - c. State whether termination notice was amended, and explain any amendment.
 - d. State whether contractor stopped work on effective termination date. If not, furnish details.
 - e. State whether the contractor promptly terminated subcontracts.
 - f. Statement as to the diversion of common items and return of goods to suppliers, if any.
 - g. Furnish information as to contract performance and timeliness of deliveries by the contractor.
 - 4. Contractor's settlement proposal.
 - a. Date and amount. Indicate date and location where claim was filed. State gross amount of claim. (If interim settlement proposals were filed, furnish information for each claim.)
 - b. Basis of claim. State whether claim was filed on inventory, total cost, or other basis. Explain rationale for approval when claim is filed on other than inventory basis.
 - c. Examination of proposal. State type of reviews made and by whom (audit, engineering, legal, or other).
- PART II—SUMMARY OF CONTRACTOR'S CLAIM AND NEGOTIATED SETTLEMENT**
- Prepare a summary substantially as follows:

Item Claimed	Contractor's Proposal	Dollars Accepted	Costs Questioned	Unresolved Items	TCO Negotiated Amount
1. Contractor's costs as set forth on settlement proposal. Metals, raw materials, etc. Total 2. Profit 3. Settlement expenses 4. Total 5. Settlement with subs 6. Acceptable finished product 7. Gross Total 8. Disposal and other credits 9. Net settlement 10. Partial progress & advance payments 11. Net payments requested					

PART III—DISCUSSION OF SETTLEMENT

- 1. Contractor's cost.
 - a. If the settlement was negotiated on the basis of individual items, specify the factors and consideration for each item.
 - b. In the case of a lump-sum settlement, comment on the general basis for and major factors concerning each element of cost and profit included.
 - c. Comment on any important adjustments made to costs claimed or any significant amounts in relation to the total claim.

- d. If a partial termination is involved, state whether the contractor has requested an equitable adjustment in the price of the continued portion of the contract.
- e. Comment on any unadjusted contractual changes that are included in the settlement.
- f. Comment on whether or not a loss would have been incurred and explain adjustment for loss, if any.
- g. Furnish other information believed helpful to any reviewing authority in understanding the recommended settlement.
2. Profit. Explain the basis and factors considered in arriving at a fair profit.
3. Settlement expenses. Comment on and summarize those expenses not included in the audit review.
4. Subcontractor's settlements. Include the number of no-cost settlements, settlements concluded by the contractor under delegation of authority and those approved by the termination contracting officer, as well as the net amount of each.
5. Partial payments. Furnish the total amount of partial payments, if any.
6. Progress or advance payments. Furnish the total of unliquidated amounts, if any.
7. Claims of the Government against the contractor included in settlement agreement reservations. List all outstanding claims, if any, that the Government has against the contractor in connection with the terminated contract or terminated portion of the contract.
8. Assignments. List any assignments, giving name and address of assignee.
9. Disposal credits. Furnish information as to applicable disposal credits and give dollar amounts of all disposal credits.
10. Plant clearance. State whether plant clearance action has been completed and all inventory sold, retained, or otherwise properly disposed of in accordance with applicable plant clearance regulations. Comment on any unusual matters pertaining to plant clearances. Attach consolidated closing plant clearance report.
11. Government property. State whether all Government property has been accounted for.
12. Special tooling. If involved, furnish comment on disposition.
13. Summary of settlement. Summarize the settlement in tabular form substantially as follows:

	Amount	Amount
Claimed	Allowed	
Prime contractors charges (before disposal credits)		
Plus: Subcontractor charges (after disposal credits)		
Gross settlement:		
	Less:	
	disposal credits—	
	Prime	
Net settlement		
—Less:		

	Prior payment credits (this settlement)
	Previous partial settlements
	Other credits or deductions
Net payment:	
	Total contract price (complete termination)
	Contract Price of Items Terminated (for partial termination) —Less:
	Total payments to date
	Net payment from this settlement
	Fund reserved for reservations
Reduction in contract price	

14. Exclusions. Describe any proposed reservation of rights to the Government or to the contractor.
15. Include a statement that the settlement is fair and reasonable for the Government and the contractor. The contracting officer shall sign and date the memorandum.

(End of memorandum)

TABLE 49-2, SETTLEMENT MEMORANDUM FOR COST-REIMBURSEMENT CONTRACTS

PART II—SUMMARY OF SETTLEMENT

1. Summary. Summarize the proposed settlement in tabular form substantially as shown in Tables 49-3 and 49-4. Partial settlements may be summarized on Table 49-4.
2. Comments. Explain tabular summaries.
 - a. Summary of final settlement (see Table 49-3).
 - (1) Explain why the auditor's final report was not available for consideration, if applicable.
 - (2) Explain how the fixed-fee was adjusted. Identify basis used, such as percentage of completion. Include a description of factors considered and how they were considered. Include any tabular summaries and breakdowns deemed helpful to an understanding of the process. Factors that may be given consideration are outlined in FAR 49.305.
 - (3) Briefly identify matters included in liability for property and other charges against the contractor arising from the contract.
 - (4) Identify reservations included in the settlement that are other than standard reservations required by regulations and that are concerned with pending claims and refunds.
 - (5) Explain substantial or otherwise important adjustments made in cost figures submitted by the contractor in arriving at the proposed settlement.
 - (6) If unreimbursed costs were settled on a lump sum basis, explain the general basis for and the major factors considered in arriving at this settlement.
 - (7) Comment on any unusual items of cost included in the claim and on any phase of cost allocation requiring particular attention and not covered above.
 - (8) If the auditor's recommendations for nonacceptance were not followed, explain briefly the main reasons why such recommendations were not followed.
 - (9) On items recommended for further consideration by the auditor, explain, in general, the basis for the action taken.
 - (10) If any cost previously disallowed by a contracting officer is included in the proposed settlement, identify and explain the reason for inclusion of such costs.
 - (11) Show number and amounts of settlements with subcontractors.
 - (12) Use the following summary where settlement includes costs and fixed-fee in a complete termination:

Gross settlement	\$ _____	
Less: Disposal credits	_____	
Net settlement	_____	
Less: Prior payments	_____	
Other credits or deductions	_____	
Total	_____	
Net payment	\$ _____	
Total contract estimated cost plus fixed fee	_____	
Less: Net settlement	_____	
Estimated reserve for exclusions	_____	
Final contract price		
(Consisting of \$ _____ for reimbursement of costs and \$ _____ for adjusted fixed fee)	_____	_____
Reduction in contract price (credit)	_____	

- (13) Plant clearance. Indicate dollar value of termination inventory and state whether plant clearance has been completed. Attach consolidated plant clearance report (SF 1424, Inventory Disposal Report).
- (14) Government property. State whether all Government property has been accounted for.
- (15) Include a statement that the settlement is fair and reasonable to the Government and the contractor. The contracting officer shall sign and date the memorandum.

(End of memorandum)

	AMOUNT CLAIMED	AMOUNT ALLOWED
1. Previous reimbursed costs— Prime and Subs	\$	\$
2. Previous unreimbursed costs		
3. Total cost settlement	\$	\$
4. Previous fees paid— Prime	\$	\$

PGI 249.4 -TERMINATION FOR DEFAULT

This page intentionally left blank.

PGI 249.70 - SPECIAL TERMINATION REQUIREMENTS

PGI 249.7001 Congressional notification on significant contract terminations.

(1) Department and agency liaison offices will coordinate timing of the congressional notification and public release of the information with release of the termination notice to the contractor. Department and agency liaison offices are—

- (i) Army - Chief, Legislative Liaison (SALL-SPA).
- (ii) Navy - Chief of Legislative Affairs (OLA-N).
- (iii) Air Force - SAF/AQC.
- (iv) Defense Advanced Research Projects Agency – CMO.
- (v) Defense Information Systems Agency - Contract Management Division (Code 260).
- (vi) Defense Intelligence Agency – RSQ.
- (vii) Defense Logistics Agency - DLSC-P.
- (viii) National Geospatial-Intelligence Agency - NGA (A).
- (ix) Defense Threat Reduction Agency - Acquisition Management Office (AM).
- (x) National Security Agency/Central Security Service - Chief, Office of Contracting.
- (xi) Missile Defense Agency - Director of Contracts (MDA-DCT).

(2) Request clearance to release information in accordance with departmental procedures as soon as possible after the decision to terminate is made. Until clearance has been obtained, treat this information as “For Official Use Only” unless the information is classified.

(3) Include in the request for clearance—

- (i) Contract number, date, and type of contract;
- (ii) Name of the company;
- (iii) Nature of contract or end item;
- (iv) The reason for the termination;
- (v) Contract price of the items terminated;
- (vi) Total number of contractor employees involved, including the Government's estimate of the number who may be discharged;
- (vii) Statement of anticipated impact on the company and the community;
- (viii) The area labor category, whether the contractor is a large or small business, and any known impact on hard core disadvantaged employment programs;
- (ix) Total number of subcontractors involved and the impact in this area; and
- (x) An unclassified draft of a suggested press release.

(4) To minimize termination costs, liaison offices will act promptly on all requests for clearance and will provide a response not later than two working days after receipt of the request.

PGI 250.1 -EXTRAORDINARY CONTRACTUAL ACTIONS

PGI 250.101 General.

PGI 250.101-3 Records.

(1) Departments and agencies shall-

(i) Prepare a preliminary record when a request for a contract adjustment under FAR 50.103 is filed (see DFARS [250.103-5\(1\)](#)).

(ii) Prepare a final record stating the disposition of the request (see PGI [250.103-6](#)).

(iii) Designate the offices or officials responsible for preparing, submitting, and receiving all records required by DFARS Subpart 250.1. Records shall be maintained by the contract adjustment boards of the Army, Navy, and Air Force, respectively, and by the headquarters of the defense agencies.

(2) A suggested format for the record is the Record of Request for Adjustment shown at the end of this section. This format permits the information required for the preliminary and final records to be combined on one form. The following instructions are provided for those items in the format that are not self-explanatory:

(i) *Extent of performance as of date of request.* State the degree of completion of the contract; e.g., 50 percent completed or performance not yet begun. If work is completed, state the date of completion and whether final payment has been made.

(ii) *Award procedure.* State whether the contract was awarded under sealed bidding or negotiated procedures. Cite the specific authority for using other than full and open competition, if applicable, e.g., 10 U.S.C. 3204(a).

(iii) *Type of contract.* State the type of contract (see FAR Part 16); e.g., FFP (firm-fixed-price).

(iv) *Category of case.* State whether the request involves a modification without consideration, a mistake, or an informal commitment. If the case involves more than one category, identify both; list the most significant category first.

(v) *Amount or description of request.* If the request is expressed in dollars, state the amount and whether it is an increase or decrease. If the request cannot be expressed in monetary terms, provide a brief description; e.g., "Cancellation" or "Modification." Even if the adjustment is not easily expressed in terms of dollars, if the contractor has made an estimate in the request, that estimate should be stated.

(vi) *Action below Secretarial level.* State the disposition of the case, the office that took the action and the date the action was taken. The disposition should be stated as "Withdrawn," "Denied," "Approved," or "Forwarded." If the request was approved, in whole or in part, state the dollar amount or nature of the action (as explained in paragraph (2)(v) of this section). The date should correspond with the date of the memorandum of decision or of the letter forwarding the request to the contract adjustment board or other deciding body.

(vii) *Action by contract adjustment board and date.* State the disposition and date of disposition of the case by the contract adjustment board. Provide the same information as for paragraph (2)(vi) of this section.

(viii) *Implementation and date.* State the appropriate action; e.g., "Modification," "New Contract," or "Letter of Denial."

PGI 250.103 Contract adjustments.**PGI 250.103-5 Processing cases.**

(1) The officer or official responsible for the case shall forward to the contract adjustment board, through departmental channels, two copies of the following:

(i) A letter stating—

(A) The nature of the case;

(B) The basis for the board's authority to act;

(C) The findings of fact essential to the case (see FAR 50.103-4). Arrange the findings chronologically with cross-references to supporting enclosures;

(D) The conclusions drawn;

(E) The recommended disposition; and

(F) If contractual action is recommended, a statement by the signer that the action will facilitate the national defense.

(ii) The contractor's request.

(iii) All evidentiary materials.

(iv) All endorsements, reports and comments of cognizant Government officials.

(2) A letter to the Board recommending an amendment without consideration where essentiality is a factor (see FAR 50.103-2(a)(1)) should also provide—

(i) The information required by FAR 50.103-4(a) and (b), and

(ii) Findings as to—

(A) The contractor's performance record, including the quality of product, rate of production, and promptness of deliveries;

(B) The importance to the Government, particularly to the active duty military, of the performance of the contract and the importance of the contractor to the national defense;

(C) The forecast of future contracts with the contractor; and

(D) Other available sources of supply for the supplies or services covered by the contract, and the time and cost of having contract performance completed by such other sources.

PGI 250.103-6 Disposition.

(1) When the request for relief is denied or approved below the Secretarial level, submit the following documents to the appropriate office within 30 days after the close of the month in which the decision is executed:

(i) Two copies of the memorandum of decision.

(ii) Except for the Army, one copy of the contractual document implementing any decision approving contractual action.

(iii) One copy of a final record, as described at PGI [250.101-3](#) .

(2) When a contract adjustment board decision is implemented, the activity that forwarded the case to the board shall prepare and submit to the board the documents identified in paragraphs (1)(ii) and (iii) of this section.

PGI PART 251 - USE OF GOVERNMENT SOURCES BY CONTRACTORS

<i>Sec.</i>			
PGI 251.1	- CONTRACTOR USE OF GOVERNMENT SUPPLY SOURCES	PGI	Contracting office responsibilities.
PGI 251.101	Policy.	251.102-70	
PGI 251.102	Authorization to use Government supply sources.		

This page intentionally left blank.

PGI 251.1 - CONTRACTOR USE OF GOVERNMENT SUPPLY SOURCES

PGI 251.101 Policy.

(a)(1) When authorizing contractors to use Defense Logistics Agency (DLA) Energy as a source of fuel in performance of other than cost-reimbursement contracts, contracting officers shall—

(i) Comply with the requirements of FAR [51.101](#) and DFARS 251.102, including the execution of a letter of authorization;

(ii) Include FAR clause [52.251-1](#), Government Supply Sources, and DFARS clause [252.251-7000](#), Ordering From Government Supply Sources, in the contract;

(iii) Obtain a current DLA Energy Fuel Purchase Authorization (FPA) from DLA Energy by emailing dlaenergyfpa@dla.mil;

(iv) Email to DLA Energy, at dlaenergyfpa@dla.mil, a copy of the—

(A) Completed FPA;

(B) Letter of authorization from the contracting officer; and

(C) Documentation showing the inclusion of FAR clause [52.251-1](#) and DFARS clause [252.251-7000](#) in the underlying contract.

(2) Upon receipt of the documentation in paragraph (a)(1)(iv)(A)-(C) of this section, DLA Energy will work with all parties to review the FPA for accuracy and completion. If approved, DLA Energy will assign a Department of Defense Activity Address Code for the fuel sales.

PGI 251.102 Authorization to use Government supply sources.

Use a format substantially the same as the following when authorizing contractor use of Government Supply Sources. Specify the terms of the purchase, including contractor acceptance of any Government materiel, payment terms, and the addresses required by paragraph (e) of the clause at [252.251-7000](#), Ordering from Government Supply Sources.

AUTHORIZATION TO PURCHASE FROM GOVERNMENT SUPPLY SOURCES (SAMPLE FORMAT)

SUBJECT: Authorization to Purchase from Government Supply Sources

_____ (Contractor's Name)

_____ (Contractor's Address)

_____ (CAGE Code)

1. You are hereby authorized to use Government sources in performing Contract No. _____ for *[insert the requiring activity's DoD Activity Address Code (DoDAAC)]*, as follows: *[Insert applicable purchasing authority given to the contractor.]*

2.a. Purchase Orders Under Federal Supply Schedules or Personal Property Rehabilitation Price Schedules. Place orders in accordance with the terms and conditions of the attached Schedule(s) and this authorization. Attach a copy of this authorization to the order (unless a copy was previously furnished to the Federal Supply Schedule or Personal Property Rehabilitation Price Schedule contractor). Insert the following statement in the order:

This order is placed under written authorization from _____ dated _____ (* _____). In the event of any inconsistency between the terms and conditions of this order and those of the Federal Supply Schedule or Personal Property Rehabilitation Price Schedule contract, the latter will govern.

b. Requisitioning from the General Services Administration (GSA) or the Department of Defense (DoD). Place orders in accordance with this authorization and, as appropriate, the following:

(1) Federal Standard Requisitioning and Issue Procedures (FEDSTRIP) (GSA FEDSTRIP Operating Guide: FPMR 101-26.2 (41 CFR 101-26.2)). Copies are available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402; telephone (202) 512-1800; facsimile (202) 512-2250.

(2) Military Standard Requisitioning and Issue Procedures (MILSTRIP) (DoD 4000.25-1-M). Copies are available from the Defense Logistics Agency, Administrative Support Center East, ATTN: ASCE-WS, 14 Dedication Drive, Suite 3,

POD 43, New Cumberland, PA 17070-5011; telephone 1-888-DLA-PUBS(352-7827), or (717) 770-6034; facsimile (717) 770-4817.

c. Enterprise Software Initiative. Place orders in accordance with the terms and conditions of the attached Enterprise Software Agreement(s), or instructions for obtaining commercial software or software maintenance from Enterprise Software Initiative inventories, and this authorization. Attach a copy of this authorization to the order (unless a copy was previously furnished to the Enterprise Software Agreement contractor). Insert the following statement in the order:

This order is placed under written authorization from _____ dated _____ (* _____). In the event of any inconsistency between the terms and conditions of this order, and those of the Enterprise Software Agreement, the latter will govern.

3. *[Insert other provisions as necessary.]*

4. This authority is not transferable or assignable.

5. The DoD Activity Address Directory (DoDAAD) (DLM 4000.25, Volume 6, Chapter 2) Activity Address Code** to which this Authorization applies is _____.

6. This Authorization expires _____.

(Contracting Officer)

* Insert "a copy of which is attached," "a copy of which you have on file," or other suitable language, as appropriate.

** The requiring activity assumes responsibility for monitoring and controlling all activity address codes used in the letters of authority.

PGI 251.102-70 Contracting office responsibilities.

(a) The DoD Activity Address Code (DoDAAC) assigned in accordance with paragraph 5 of the authorization format in PGI [251.102](#) shall be assigned to the contractor for authorization to use Government supply sources only for the contract number cited in paragraph 1 of the authorization format.

(b) The authorization to use Government sources of supply is unique to each contract and shall not be transferred or assigned to any other contractor or contract. Therefore, the same DoDAAC shall not be assigned to any other contract number during the period of performance for the contract. After 24 months has lapsed beyond contract closeout, the DoDAAC may be reused for another contract.

PGI PART 252 - CLAUSES

<i>Sec.</i>			
PGI 252.1	-INSTRUCTIONS FOR USING PROVISIONS AND CLAUSES	PGI 252.103	Identification of provisions and clauses.

This page intentionally left blank.

PGI 252.1 -INSTRUCTIONS FOR USING PROVISIONS AND CLAUSES

PGI 252.103 Identification of provisions and clauses.

(c)(i) Identify local provisions and clauses developed by departments and agencies for a single use intended to meet the needs of an individual acquisition by—

(A) The issuing activity DoDAAC associated with the suborganization within a department or agency followed by a period;

(B) FAR subpart “52.2”;

(C) The applicable part and a dash;

(D) A four-digit sequential number starting with “9Z” followed by two variable, alphanumeric digits excluding the letters I and O;

(E) Title (limited to 255 characters); and

(F) Date (MMM YYYY).

(ii) For example, if “Y” issuing agency’s DoDAAC is “DOD123,” and “Y” agency has developed a local single-use clause for a contract’s terms and conditions titled, Contract Specific Terms for Foreign Military Sales Case, this single-use clause would be identified as follows (also see Figure 1): DOD123.52.225-9Z01 Contract Specific Terms for Foreign Military Sales Case (MMM YYYY).

Figure 1

(d)(1)(A) Local provisions and clauses that will be used on a repetitive basis shall be identified by—

(1) The chapter assigned to the department or agency under Title 48 of the Code of Federal Regulations (CFR);

(2) FAR subpart “52.2”;

(3) The applicable FAR part;

(4) A four-digit sequential number in the 9000 series for the suffix (see DFARS [252.101\(b\)\(2\)\(ii\)\(B\)](#));

(5) Title; and

(6) Date.

(B) For example, if “Y” Agency is assigned a CFR chapter number 99, and has developed a provision regarding an evaluation factor for past performance to be used on a repetitive basis in negotiated acquisitions, such provision would be identified as follows:

“9952.215-9XXX Past Performance Evaluation Factor (DATE)”

This page intentionally left blank.

This page intentionally left blank.

PGI 253.2 -PRESCRIPTION OF FORMS

PGI 253.204 Reserved

PGI 253.208 Required sources of supplies and services.

PGI 253.208-1 DD Form 448, Military Interdepartmental Purchase Request.

- (a) Use the DD Form 448 as prescribed in PGI [208.70](#).
- (b) Prepare MIPR information in uniform contract format when possible. Overprint of fixed repetitive information is authorized.
- (c) Instructions for completion of DD Form 448.
 - (1) BLOCK 5—MIPR NUMBER. Number the MIPR by using—
 - (i) The requiring department identification code as prescribed in DoD 4000.25-6-M, Department of Defense Activity Address Directory (DoDAAD);
 - (ii) The last digit of the fiscal year; and
 - (iii) The number of the particular MIPR (numbered consecutively by the requiring activity).
 - (2) BLOCK 6—AMEND NO. Assign a suffix number. Assign amendments of the same MIPR consecutive suffix numbers.
 - (3) BLOCK 9.
 - (i) Conduct interdepartmental screening of items in accordance with FAR 8.001. Requisition items which are available from stocks of other departments as follows:
 - (A) Obtain items within the scope of MILSTRIP (see DoD 4000.25-1-M, Military Standard Requisitioning and Issue Procedures (MILSTRIP)) by use of DD Form 1348 (Single Line Item Requisition System Document (Manual), DoD)/1348M (Single Line Item Requisition System Document, DoD (Mechanical)).
 - (B) Obtain items not covered by MILSTRIP using DD Form 1149, Requisition and Invoice/Shipping Document.
 - (C) If, after receipt of a MIPR, it is determined the requested items are available from stock, the acquiring department shall use the MIPR to obtain the item.
 - (ii) Normally restrict a MIPR to one major end item, including its required spare parts, ground support equipment, and similar related items. For other than major end items, limit MIPRs to items within a single Federal supply class when possible.
 - (4) BLOCK 10.
 - (i) Delivery Schedules.
 - (A) The requiring department must clearly state the required time of delivery or performance in each MIPR, taking into consideration the normal administrative lead time of the particular commodity. Delivery and performance schedules on MIPRs must be realistic (see FAR Subpart 11.4). If the acquiring department cannot accept the delivery schedule in the MIPR, the acquiring department will note that on DD Form 448-2, Acceptance of MIPR. Changes in the requested delivery schedule must be made by MIPR amendment.
 - (B) When a short delivery schedule is mandatory, the requiring department shall mark the MIPR “URGENT” in bold letters and provide justification for the marking.
 - (ii) Requiring activities must provide MILSTRIP requisition data prescribed in Appendix B of the MILSTRIP Manual for each line item which is to be delivered to each “ship to” address. Repetitive data applicable to all lines on the MIPR may be overprinted.
 - (iii) The requiring activity will furnish estimated weight, cube, and dimensions for each line item or a statement explaining why these data are not available.
 - (iv) The requiring activity shall include the name and telephone number of an individual who is thoroughly familiar with the MIPR, its attachments, and technical requirements.
 - (v) Prepare attachments to MIPRs in sufficient numbers so that each copy of a MIPR submitted to the acquiring department is complete with a copy of all attachments. “Ship To and Mark For” addresses in shipping instructions must include the clear text identification and DoDAAD code if assigned.
 - (5) BLOCK 12—TRANSPORTATION ALLOTMENT. Enter allotment data for transportation of supplies at Government expense if appropriate.
 - (6) BLOCK 13—MAIL INVOICES TO. Use this block to identify the name and address of the office to receive invoices and make payment.

- (i) Complete the block only if—
 - (A) The resulting contract is not to be paid by the Defense Finance and Accounting Service; and
 - (B) The office to receive invoices and make payment is known at the time of preparation of the MIPR.
- (ii) If payment is to be made by an office designated to receive invoices, also enter the DoDAAD code of that office.
- (iii) If payment is to be made by an office other than the office to which the invoice is to be mailed, include the name, address, and DoDAAD code of the payment office as an attachment to the MIPR.
- (iv) If multiple offices are to receive invoices and make payment, include the names and addresses of those offices as an attachment to the MIPR. Also include the DoDAAD code of each payment office.
- (v) Whenever the payment office is included in an attachment, include a reference to the attachment in this block.
- (vi) If the names and addresses of invoicing and payment offices are provided the acquiring department after submission of the MIPR, the requiring department also must provide the DoDAAD code for each payment office.
- (7) BLOCK 14. Enter allotment data for the acquisition of supplies. Enter each citation in Item 14 in the appropriate space as follows:
 - (i) Accounting Classification Reference Number (ACRN). If the ACRN procedures of PGI [204.7107](#) are used in the MIPR to relate allotment data to the MIPR item or delivery, enter the ACRN for each fund citation. (The acquiring department, when preparing the contract, is not required to use the ACRN assigned to a fund citation in the MIPR.)
 - (ii) Appropriation. Enter the ten positions as follows:
 - (A) First and second - Treasury Department number identifying the department or agency to which the appropriation applies or has been transferred.
 - (B) Third and fourth - Treasury Department number identifying the department or agency from which an appropriation has been transferred; leave blank if no transfer is involved.
 - (C) Fifth and sixth - Identify the appropriation fiscal year. For multiple-year appropriations, the fifth position shall be the last digit of the first year of availability, and the sixth position shall be the last digit of the final year of availability. For annual appropriations, the fifth position shall be blank, and the sixth position shall be the last digit of the fiscal year. For no-year (continuing) appropriations, the fifth position shall be blank, and the sixth position shall be "X."
 - (D) Seventh through tenth - Treasury Department appropriation serial number.
 - (iii) Limit/Subhead. Up to four characters; if less than four characters, leave empty spaces blank.
 - (iv) Supplemental Accounting Classification Data. Not to exceed 36 characters. Enter in accordance with departmental or agency regulations.
 - (v) Accounting Station. Enter the six character DoDAAD code of the accounting station (not used with Navy and Marine Corps funds).
 - (vi) Amount. Enter the amount for each fund citation if more than one allotment is cited.
 - (vii) Additional Citations. If space is required for additional fund citations, include as an attachment and reference the attachment on the form.
- (d) When preparing a MIPR amendment, always fill out the basic information in Blocks 1 through 8. Fill out only those other blocks which vary from the data shown on the basic MIPR or a prior amendment. Insert "n/c" in items where there is no change.
- (e) Change of a disbursing office cited on a DoD funded MIPR does not require a MIPR amendment when the resultant contract is assigned for administration to the Defense Contract Management Agency. The administrative contracting office may issue an administrative contract modification, copies of which will be provided to the contracting officer for transmittal to the requiring activity.
- (f) Signed or official record copies of MIPRs, and any amendments, shall be distributed electronically using both of the following methods:
 - (1) Indexed Portable Document Format files shall be manually uploaded or sent via the Global Exchange system (GEX) to the Electronic Data Access (EDA) (<http://eda.ogden.disa.mil>) system to provide a human-readable copy.
 - (2) Electronic data files shall be sent via the GEX in Department of Defense Purchase Request Data Standard Extensible Markup Language (XML) format.

PGI 253.208-2 DD Form 448-2, Acceptance of MIPR.

- (a) Use the DD Form 448-2 as prescribed in PGI [208.70](#).
- (b) Instructions for completion of DD Form 448-2. (Complete only the applicable blocks.)
 - (1) BLOCK 6. Check the specific terms under which the MIPR is being accepted.

(2) BLOCK 7. If any one of the MIPR line items is not accepted, check Block 7 and record the affected MIPR line item number and reason in Block 13.

(3) BLOCKS 8 AND 9. Use Blocks 8 and 9 only—

(i) When Block 6c acceptance is indicated (indicate the MIPR line item numbers that will be provided under each method of financing in Blocks 8a and 9a, respectively); or

(ii) If quantities or estimated costs cited in a MIPR require adjustment (list the affected MIPR line item numbers together with the adjusted quantities or estimated costs in the columns provided under Blocks 8 and 9, as appropriate).

(4) BLOCK 10. Whenever a MIPR is accepted in part or in total under Category II funding, forecast the estimated date of contract award.

(5) BLOCK 11. Enter the total amount of funds required to fund the MIPR items, as accepted.

(6) BLOCK 12.

(i) Complete this block only in those cases where the amount recorded in Block 11 is not in agreement with the amount recorded in Block 5. This will serve either—

(A) As a request to the requiring department to issue a MIPR amendment to provide the additional funds; or

(B) Authority for the requiring department to withdraw the available excess funds.

(ii) When funds of two or more appropriations are involved, provide proper breakdown information in Block 13.

(7) BLOCK 13. Use this block to record—

(i) Justification, by MIPR line item, for any additional funds required;

(ii) Explanation for rejection of MIPR whether in part or in total;

(iii) Appropriation and subhead data cited on the MIPR; and

(iv) Other pertinent data.

(c) Complete a DD Form 448-2 for all MIPR amendments involving an adjustment of funds or delivery schedule, or if requested by the requiring department.

(d) Unless otherwise agreed, provide the requiring department an original and three copies of each DD Form 448-2.

PGI 253.209 CONTRACTOR QUALIFICATIONS

NO CURRENT PGI TEXT

PGI 253.213 Simplified acquisition procedures (SF's 18, 30, 44, 1165, 1449, and OF's 336, 347, and 348).

(f)(i) Use the OF 336, or a sheet of paper, as a continuation sheet for the DD Form 1155. Continuation sheets may be printed on the reverse of the DD Form 1155.

(ii) DD Form 1155c-1, Order for Supplies or Services (Commissary Continuation Sheet) may be used for commissary acquisitions.

PGI 253.213-70 Completion of DD Form 1155, Order for Supplies or Services.

(a) The following instructions are mandatory if—

(1) Contract administration has been assigned outside the purchasing office; or

(2) The contractor is located in the contiguous United States or Canada.

(b) The entity codes (address codes) referenced in this subsection are codes published in—

(1) DoD Activity Address Directory (DODAAD), DoD 4000.25-6-M.

(2) Military Assistance Program Address Directory System (MAPAD), DoD 4000.25-8M.

(3) Commercial and Government Entity (CAGE) Codes Handbook H4/H8.

(c) For orders requiring payment in Canadian currency—

(1) State the contract price in terms of Canadian dollars, followed by the initials CN; e.g., \$1,647.23CN.

(2) Indicate on the face of the order—

(i) The U.S./Canadian conversion rate in effect at the time of the award; and

(ii) The U.S. dollar equivalent of the Canadian dollar amount.

(d) When the DD Form 1155 includes FMS requirements, clearly mark "FMS Requirement" on its face. Specify within the order each FMS case identifier code by line or subline item number.

(e) Instructions for DD Form 1155 entries. (Instructions apply to purchase orders, delivery orders, and calls, except Block 2, which applies only to delivery orders and calls, and Block 12, which applies only to purchase orders.)

BLOCK

1 Contract/Purch Order/AGREEMENT No.—Enter the Procurement Instrument Identification (PII) number and, when applicable, the supplementary identification number for contracts, purchase orders, and agreements as prescribed in DFARS Subpart 204.16.

2 Delivery Order/CALL No.—Enter the PII number for delivery orders/calls, when applicable, as prescribed in DFARS Subpart 204.16.

3 Date of Order/CALL—Enter the four-position numeric year, three-position alpha month, and two-position numeric day.

4 Requisition/Purch Request No.—Enter the number authorizing the purchase. When the number differs by line item, list it in the Schedule and annotate this block, “See Schedule.”

5 PRIORITY—Enter the appropriate Program Identification Code as identified in Schedule I to the Defense Priorities and Allocations System Regulation.

6 Issued By—Enter the name and address of the issuing office. In the code block, enter the DoDAAD code for the issuing office. Directly below the address, enter: Buyer/Symbol: followed by the buyer's name and routing symbol. Directly below the buyer/symbol, enter: Phone: followed by the buyer's phone number and extension.

7 Administered By—Enter the name and address of the contract administration activity. On purchase orders retained by purchasing offices for administration, mark this block, “See Block 6.” Enter in the code block the DODAAD code of the contract administration activity. In the lower right or left-hand corner, enter the criticality designator code from FAR 42.1105.

8 Delivery FOB—Check the applicable box.

9 Contractor—

(1) Enter the full business name and address of the contractor. Enter in the first code block, the CAGE code of the contractor.

(2) If it is known that all the work covered by the order is to be performed at an address different from the address represented by the contractor's code, and any contract administration function will be required at that facility, enter in the facility code block the organizational entity code for that facility, i.e., H8-1/H8-2 code for a non-Government entity or DODAAD code for a Government entity. (Use DODAAD codes only to indicate “performed at” locations for orders specifying services at a Government location.) If it is known that multiple facilities are involved, enter the codes for all facilities at which work is to be performed, including the contractor's code if work is performed at that address, in the Optional Form 336 Continuation Sheet and mark the facility code block with “See Schedule.”

10 Deliver to FOB Point by (Date)—If a single date of delivery applies to the entire order, enter date in this block. List multiple delivery dates in the schedule and mark this block “See Schedule.”

11 Mark If Business—Check all applicable blocks.

12 Discount Terms—Enter the discount for prompt payment in terms of percentages and corresponding days. Express the percentages in whole numbers and decimals, e.g., 3.25% - 10 days; 0.50% - 20 days.

13 Mail Invoices To THE ADDRESS IN BLOCK—Enter a reference to the block number containing the address to which invoices are to be mailed. When not in Block 6, 7, 14, or 15, insert in Block 13, “See Schedule.”

14 Ship To—If a single ship-to point applies to the entire order, enter the name and address of that point in this block and a DODAAD code in the code block. For FMS shipments, enter the MAPAD code in the code block and an instruction for the contractor to contact the transportation office of the administering activity to obtain a name and a shipping address. Enter multiple ship-to points in the Schedule and mark this block, “See Schedule.”

15 Payment Will Be Made By—Enter the name and address of the activity making payment. Enter in the code block, the DODAAD code of the paying activity. When a purchase card is used for payment, enter “CRCARD” in the code block.

16 Type of Order—Check the appropriate box. If a purchase order:

(1) Identify the type of quotation, e.g., oral, letter, e-mail, on which the order is based.

(2) Check the box when acceptance of the purchase order is required and enter the number of copies of the order to be returned to the issuing office.

17 Accounting and Appropriation Data/Local Use—Enter the accounting classification and the accounting classification reference number(s) in accordance with DFARS [204.7107](#).

18 Item No.—Enter an item number for each item of supply or service in accordance with DFARS Subpart 204.71.

19 Schedule of Supplies/Services—The Schedule contains several elements of data. The order and arrangement of data in the Schedule is mandatory for purchase and delivery orders assigned to the Defense Contract Management Agency or the military departments for administration and is encouraged for all orders.

(1) National Stock Number (NSN)—Total item quantity for the line or subline item number followed by the appropriate national stock number or the word “none” if an NSN has not been assigned. On the same line and adjacent to NSN, enter the

words "Total Item Quantity." This phrase is used in conjunction with the total quantity, unit of issue, unit price, and dollar amount of the stock number or item cited (see entries for Blocks 20, 21, 22, and 23).

(2) Item Identification—Enter first the most descriptive noun or verb of the supplies or services to be furnished, supplemented by additional description as prescribed in FAR Part 10. If multiple accounting classifications apply to the contract, enter the accounting classification reference number.

(3) Quantity Variance—Enter the quantity variance permitted for the line item in terms of percentages, indicating whether the percentage is plus or minus and if applicable to each destination.

(4) Inspection/Acceptance—Enter the point at which inspection/acceptance will take place.

(5) Preservation and Packaging—Enter the preservation requirements for the item described. These requirements may be expressed in terms of MIL-STD-2073-1, DoD Material Procedures for Development and Application of Packaging Requirements, and MIL-STD-2073-2, Packaging Requirements, codes. They may also be expressed by reference to applicable specifications.

(6) Packing—When required, enter the packing level designator and specification, standard, or document in which the requirements are stated or state the specific requirements.

(7) Unitization—When desired by the requiring activity, a requirement for cargo unitization for a particular destination should be specified for shipments involving two or more shipping containers having an aggregate total of not less than 20 cubic feet or 200 pounds.

(8) Ship To—Enter the DODAAD or MILSCAP H8-1/H8-2 (cage) as appropriate for the entity code of the ship-to point on the first line and the corresponding name and address on succeeding lines. If multiple accounting classifications apply to the same line or subline item, enter the accounting classification reference number. When several items are to be shipped to the same point, the code will be listed; but it will not be necessary to repeat the address.

(9) Delivery Date—When multiple delivery dates apply, enter the required date of delivery on the same line with ship-to code.

(10) Mark For—Enter the DODAAD or MILSCAP H8-1/H8-2 (cage) as appropriate for the entity code on the first line and name and address of the ultimate recipient of the supplies and services on succeeding lines.

20 Quantity Ordered/Accepted—Enter the total quantity ordered for the line item. If applicable, enter the breakdown on quantities for each ship-to point within the line item.

21 Unit—Enter the unit of measure applicable to the line item.

22 Unit Price—Enter the unit price applicable to the line item.

23 Amount—Enter the extended dollar amount (quantity x unit price) for each line item.

24 Contracting/Ordering Officer—Enter the contracting/ordering officer's signature.

25 Total Amount—Enter the total dollar amount for all line items on the order.

26 thru 42 These blocks are used in the receiving and payment functions. Procedures for making entries are prescribed by the respective departments.

PGI 253.215 Contracting by negotiation.

PGI 253.215-70 DD Form 1547, Record of Weighted Guidelines Application.

(a) Use the DD Form 1547 as prescribed in DFARS [215.404-70](#) and [215.404-71](#).

(b) *General instructions.*

(1) Report amounts as they relate to the price of the contract action without regard to funding status (e.g., amounts obligated).

(2) Express all dollar values to the nearest whole value (e.g., \$200,008.55 = \$200,009).

(3) Do not express percentages beyond the nearest thousandth (e.g., interest rate—8.257%).

(4) If the contracting office is exempt from reporting to the DoD management information system on profit and fee statistics (see PGI 215.404-76), do not complete Block 1, 4, 5, 6, 7, 8, 9, 10, 11, or 12.

(5) Report an option amount for additional quantities as a separate contract action when exercised.

(6) Even though fixed-price type contract actions are negotiated on the basis of total price, prepare the negotiation summary portion of the DD Form 1547 showing the contracting officer's best estimates of cost and profit.

(7) For indefinite-delivery type contracts, prepare a consolidated DD Form 1547 for annual requirements expected to exceed the certified cost or pricing data threshold.

(8) Prepare a consolidated DD Form 1547, if possible, when multiple profit rates apply to a single negotiation.

(c) *Specific instructions for completion of DD Form 1547.*

(1) BLOCK 1—REPORT NO. Enter the four-digit local control number followed by a dash and the last two digits of the fiscal year (e.g., 0004-06 for 4th action in fiscal year 2006). Each field contracting office participating in profit reporting shall establish a control system for consecutively numbering completed DD Forms 1547. Always start with 0001 at the beginning of each fiscal year and always use four digits. This number will identify the specific DD Form 1547 in DoD's management information system and will be used for follow-up actions.

(2) BLOCK 2—BASIC PROCUREMENT INSTRUMENT IDENTIFICATION NO. Enter the identifying contract number assigned per DFARS Subpart 204.16.

(3) BLOCK 3—SPIIN. Enter the supplemental procurement instrument identification number for supplemental agreements or other modifications, assigned per DFARS Subpart 204.16.

(4) BLOCK 4—DATE OF ACTION.

(i) Year. Enter the last two digits of the year the action was negotiated (e.g., 06 for 2006).

(ii) Month. Enter the two-digit number for the month the action was negotiated (e.g., 09 for September).

(5) BLOCK 5—CONTRACTING OFFICE CODE. Enter the code assigned the contracting office per DoD Procurement Coding Manual, Volume III.

(6) BLOCK 6—NAME OF CONTRACTOR. Enter the contractor's name (including division name).

(7) BLOCK 7—UNIQUE ENTITY IDENTIFIER. Enter the contractor UEI.

(8) BLOCK 8—FEDERAL SUPPLY CODE.

(9) BLOCK 9—DOD CLAIMANT PROGRAM.

(10) BLOCK 10—CONTRACT TYPE CODE. Enter the appropriate code—

Description	Code
FPR (all types)	A
FPI (all types)	L
FFP	J
FP(E)	K
CPFF	U
CPIF (all types)	V

(11) BLOCK 11—TYPE EFFORT. Enter the appropriate code—

Description	Code
Manufacturing	1
Research and Development	2
Services	3

(12) BLOCK 12—USE CODE. Enter the appropriate code for use of the weighted guidelines method—

Description	Code
Standard weighted guidelines method (DFARS 215.404-71 -2(c)(1))	2
Alternate structured approach (DFARS 215.404-73)	4
Modified weighted guidelines approach (DFARS 215.404-72)	5
Technology incentive (DFARS 215.404-71 -2(c)(2))	6

(13) BLOCKS 13 through 20—COST CATEGORY OBJECTIVE. Enter the prenegotiation objectives. Include contractor independent research and development/bid and proposal in the general and administrative expenses in Block 19.

(14) BLOCKS 21 through 29—WEIGHTED GUIDELINES PROFIT FACTORS. Enter the amounts determined in accordance with DFARS 215.404-71 or 215.404-72. This section is not required to be completed when using an alternate structured approach (DFARS [215.404-73](#)).

(15) BLOCK 30—TOTAL PROFIT OBJECTIVE. Enter the total of Blocks 23, 24, 25, 27, 28, and 29. This section is not required to be completed when using an alternate structured approach (DFARS [215.404-73](#)).

(16) BLOCKS 31 through 35—NEGOTIATION SUMMARY. Complete as indicated on the form. For fixed-price type contracts negotiated on a total price basis, enter the contracting officer's best estimates of cost and profit. When using an alternate structured approach, see DFARS [215.404-73](#)(b)(2) for offsets.

(17) BLOCKS 36 through 39—CONTRACTING OFFICER APPROVAL. The contracting officer shall sign the form. Include a complete (with area code) commercial telephone number to facilitate any follow-up actions.

(18) BLOCKS 96 through 99—OPTIONAL USE. Complete in accordance with department/agency procedures, if any.

PGI 253.219 Small Business Programs.

PGI 253.219-70 DD Form 2579, Small Business Coordination Record.

(a) Use the DD Form 2579 as prescribed in DFARS [219.201](#) (c)(10)(B).

(b) *General instructions.*

(1) The Contracting Officer is responsible for the coordination and completion of the form.

(2) Coordination on this form is not required when the agency will satisfy a requirement through the use of a mandatory source listed at FAR 8.002 or FAR 8.003.

(c) *Specific instructions for completion of DD Form 2579.*

(1) BLOCK 1—CONTROL NO. Reserved for use by the Small Business Professional to create a unique identification number for each coordination record.

(2) BLOCK 2—PURCHASE REQUEST/REQUISITION NO. Locally assigned purchase request/requisition number.

(3) BLOCK 3—TOTAL ESTIMATED VALUE. Enter the total estimated value for the acquisition, including all options. For multiple award task or delivery order contracts, enter the total estimated value of the entire acquisition including all orders expected to be awarded.

(4) BLOCKS 4a and 4b:

(i) Block 4a—PROCUREMENT INSTRUMENT IDENTIFIER (PIID). Enter the PIID assigned to the solicitation, contract, or order in Block 4a. (FAR 4.1601, DFARS [204.1601](#)).

(ii) Block 4b—INDEFINITE DELIVERY VEHICLE (IDV) PIID. If applicable, enter the PIID assigned to the IDV against which the solicitation or order identified in Block 4a is issued.

(5) BLOCK 5—MODIFICATION/AMENDMENT NUMBER (MOD/AMDMT No.). Enter the contract or order modification number or solicitation amendment number. (FAR 4.1601, DFARS [204.1601](#)).

(6) BLOCKS 6a through 6e—CONTRACTING OFFICER NAME, DOD ACTIVITY ADDRESS CODE (DODAAC), OFFICE SYMBOL, EMAIL ADDRESS, PHONE NO. Enter the appropriate information in Blocks 6a through 6e.

(7) BLOCKS 7a through 7d:

(i) BLOCK 7a—ITEM and/or SERVICE DESCRIPTION. Enter description of planned acquisition, including quantity, unique delivery requirements, and other descriptors. For services, include the type of service and place of performance, and attach a copy of the Performance Work Statement (PWS), Statement of Work (SOW), Statement of Objectives (SOO), or other specifications and statements as appropriate.

(ii) BLOCK 7b—PRODUCT OR SERVICE CODE (PSC). For the Product and Service Codes Manual, go to <http://acquisition.gov>.

(iii) BLOCK 7c—NORTH AMERICAN INDUSTRY CLASSIFICATION (NAICS) CODE. For the NAICS codes and definitions, go to <http://www.census.gov/eos/www/naics>.

(iv) BLOCK 7d—SMALL BUSINESS SIZE STANDARD. For the applicable small business size standard, go to <http://www.sba.gov/content/table-small-business-size-standards>.

(8) BLOCK 8—PERIOD OF PERFORMANCE/DELIVERY DATES. Enter the estimated beginning and end dates.

(9) BLOCK 9—PURPOSE OF COORDINATION. Check one box indicating the purpose of the action being reviewed: Initial Coordination, Withdrawal (see FAR 19.506), or a Change to the form. Note: Any significant change in the acquisition strategy or plan described on this form will require reevaluation by the Small Business Professional and the Small Business Administration (SBA) Procurement Center Representative (PCR), if applicable.

(10) BLOCKS 10a through 10j—RECOMMENDATION. Check all that apply, e.g., a small business set-aside could also be a multiple-award. For Blocks 10c through 10d, attach justification if applicable in accordance with FAR 19.1306(a), and 19.1406(a), respectively.

(11) BLOCKS 11a through 11c:

(i) BLOCK 11a—ACQUISITION PLAN/MARKET RESEARCH. Attach the written acquisition plan (FAR 7.104(d)), if required, and the results of market research, including any resulting justification and approval (FAR 6.3) or sole source/brand name justification (FAR 13.106 or 13.501). Include findings that demonstrate efforts to locate qualified small business sources e.g., sources sought (FAR 5.205), requests for information synopses, or waivers to the nonmanufacturer rule (FAR 19.5) and attach additional pages as necessary).

(ii) BLOCK 11b—SYNOPSIS REQUIRED. Check “Yes” or “No.” If “No,” provide explanation and the exception under FAR 5.202, if applicable.

(iii) BLOCK 11c—SMALL BUSINESS PROGRESS PAYMENTS. Check “Yes” or “No” (DFARS [232.501-1\(a\)](#)).

(12) BLOCK 12—CONSOLIDATED OR BUNDLED. Select either “Consolidated” or “Bundled,” and check “Yes” or “No” for each. If “Yes,” attach required documentation for consolidation or bundling (FAR 7.107).

(13) BLOCK 13—SUBCONTRACTING PLAN REQUIRED. Check “Yes” or “No.” For recommendations 10g, 10h, or 10i, or if Block 12 recommendation is “Yes,” specify actions that will be taken to maximize small business participation. Consider requirements of FAR 19.7, acquisition history, anticipated subcontracting goals, market research to identify small business capability at the subcontract level, source selection evaluation factor for small business utilization (DFARS [215.304](#), [215.305](#)), incentives, contract performance metrics, etc. State detailed objectives for subcontract (attach additional pages as necessary).

(14) BLOCKS 14a through 14c—ACQUISITION HISTORY:

(i) BLOCK 14a—NEW REQUIREMENT. Check “Yes” or “No” and follow the applicable guidance for each selection.

(ii) BLOCK 14b—PREVIOUSLY CONSOLIDATED OR BUNDLED. Check “Yes” or “No” for each. If “Yes,” attach required documentation for previous acquisition.

(See FAR 7.107.)

(iii) BLOCK 14c—DETAILS OF PREVIOUS AWARD(S). For each contractor that received an award for any portion of the immediately preceding acquisition, include the following information—

—Name and CAGE code.

—Small business socioeconomic categories of the awardee.

—PIID.

—NAICS code and size standard.

—Contract type.

—Period of performance.

—Total contract value.

—Subcontracting History. (Small business subcontracting goal achievement (CPARS and eSRS data) and any additional small business utilization requirements included in the contract resulting from a source selection factor used when making the previous contract award.)

(15) BLOCK 15a through 15d—CONTRACTING OFFICER SIGNATURE. Complete 15a through 15d. Digital signature is desired.

(16) BLOCKS 16 through 16f—SMALL BUSINESS PROFESSIONAL/SMALL BUSINESS DIRECTOR REVIEW. Complete 16 through 16f. Digital signature is desired. If “non-concur” is checked, attach rationale or include in Block 16f, along with any other remarks. Block 16e must be completed when any of the conditions in FAR 19.202-1(e) applies to indicate when the acquisition package was provided to the Small Business Administration (SBA).

(17) BLOCKS 17 through 17e—SBA PROCUREMENT CENTER REPRESENTATIVE (PCR) REVIEW. Complete 17 through 17e (see FAR 19.402(a) when a PCR is not assigned to the contracting activity or administration office). Digital signature is desired. If “non-concur” is checked, the PCR shall attach rationale and recommendations or include in Block 17e, along with any other remarks (see FAR 19.402).

(18) BLOCKS 18 through 18c—CONTRACTING OFFICER REVIEW. The Contracting Officer shall complete this block if the Small Business Professional and/or the SBA PCR have “non-concurred” in Blocks 16 and 17. Block 18c shall include the Contracting Officer’s rationale for decision. Send copies of the completed form to the Small Business Professional and the SBA PCR within 5 working days if rejecting the PCR’s recommendation, in accordance with FAR 19.505.

PGI PART 270 - DEFENSE CONTRACTING PROGRAMS

<i>Sec.</i>			
PGI 270.1	-PILOT PROGRAM TO INCENTIVIZE CONTRACTING WITH EMPLOYEE-OWNED BUSINESSES	PGI 270.104	Procedures.

This page intentionally left blank.

PGI 270.1 -PILOT PROGRAM TO INCENTIVIZE CONTRACTING WITH EMPLOYEE-OWNED BUSINESSES

PGI 270.104 Procedures.

(a) Contracting officers may submit applications for participation in the pilot program to OUSD(A&S), Defense Pricing, Contracting, and Acquisition Policy (DPCAP) (Contract Policy) (DPCAP/CP) via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil. The application shall include the following:

- (1) The cognizant contracting activity, including the department or agency, command, awarding contract office, and program office.
 - (2) A copy of the predecessor contract and modifications, except funding and administrative modifications, and indicate if such contract was awarded pursuant to [subpart 270.1](#).
 - (3) A description of the proposed follow-on requirement, including the product or service, quantity, and period of performance.
 - (4) The anticipated contract value.
 - (5) A copy of any waiver(s) issued.
- (b) DPCAP/CP will respond to the contracting officer within 30 days of receipt of the application.
- (c) Contracting officers shall not issue a solicitation prior to receipt of DPCAP/CP approval of participation in this pilot program.
- (d) Not later than 60 days after the end of the period of performance of the contract, the contracting activity shall submit to DPCAP/CP via email at osd.pentagon.ousd-a-s.mbx.asda-dp-c-contractpolicy@mail.mil—
- (1) The contractor's response submitted to the contracting officer pursuant to the clause at DFARS 252.270-7002, Pilot Program to Incentivize Contracting with Employee-Owned Businesses; and
 - (2) Information from the contracting officer as follows:
 - (i) Summary of contractor performance on the predecessor contract.
 - (ii) Summary of contractor performance on the follow-on contract.
 - (iii) Identification and discussion of any benefits or disadvantages the contracting activity, department, or agency experienced using the pilot program.
 - (iv) Any best practices the department or agency implemented as a result of the pilot program.
 - (v) Any other information the department or agency would like to share regarding its experience utilizing the pilot program.
